1965 Jack Baldry, the Cambridge mineral water firm, has installed a new soft drink production plant which has doubled their bottle output and cut factory staff by a third. Two production lines now complete the cycle of washing, filling, capping and labelling the drinks, a job preciously done by three bottle lines and about 35 employees working on equipment which was up to 18 years old. Now 10,000 bottles an hour can be made up at the Gold Street factory 65 02 26c

1966 Dales brewery has just closed – photo – 66 02 21a

1972 Star Brewery to cease brewing this year – illustrated feature – 72 01 07, a & b Star brewery closes, last of almost 20 formerly active [1.16]

1972 Alma Brewery, Russell St opens, new pub embracing former Alma pub [13.2]

1973 Mr Jack Baldry, chairman of Cambridge's last remaining soft drinks factory died yesterday at the age of 71. He started as a mineral water manufacturer in the city 50 years ago. When the company was started it faced competition from 32 firms in the city. Initial output was 100 dozen bottles a day, but business increased and four years ago a new plant was built which enabled an output of 400 dozen bottles an hour on each of its two units c73 04 08

1973 Tolly, the East Anglia brewers may sell off their £1 million Star Brewery site in Newmarket Road, Cambridge within the next three years. The 4½acre site includes the brewery buildings and the Burleigh Arms public house. The old Star Brewery stopped production last year and the buildings have been used as a storage depot. It is understood the directors have been considering various possibilities for the Newmarket Road site, which is bounded roughly by Auckland Road, Midsummer Common and Parsonage Street. One includes building luxury flats, a hotel and public house on the site. "There is no possibility of us leaving Cambridge. It is a very important place for us", said Tolly's managing director c73 10 06

1974 Heneky open new Inn, 4 years after closing Alexandra Arms [11.15]

1976 Panton Arms refurbished in old Panton Brewery demolished 10 years ago s [14.7]

1980 Major alterations have been made to the Cambridge Arms in King Street ensuring the conservation of the old Cambridge Brewery building which has stood semi-derelect since brewing ceased in 1925. It was established by George Scales in 1866 and then supplied 13 public houses. The new Scales Bar extends beneath the old brewing floor and features brick arches which supports the heavy coppers and chimney on the upper level. Various items of brewing equipment that were removed for safe keeping have now been returned and are displayed. 80 04 10 [12.9]

c.27.45 : hotels

(subheading started July 2009)

headlines Lion Hotel : last of Moyes to own Lion - Mrs Bailey - retires. First came into Moyes family when taken some 80 years ago (?1856) by John Andrew Moyes & son, Andrew Helenus who also at that time owned Bull. The son died in 1894 & the hotel taken over by daughter-in-law Mrs A.A. Moyes during whose regime the glass roof was put over the court. Omnibuses once used to drive over what is now the floor of the court, in fact it was used by traffic up to 1907. Mrs Moyes who died 1922 left hotel to her two daughters ... [15]

1891 University Arms hotel opens [8.4]

1897

Bankruptcy landlord Bath hotel, 1897 10 20 p2 CDN

1899 New Hotel, "Fleur-de-Lis", Humberstone road, Chesterton. This first-class hotel is now open and replete with every comfort. Billiards room in course of erection. Gentlemen visiting the hotel will find the Smoke Room fitted with every comfort – advert. 1899 12 08

1901 The Star Brewery renewed its application for a proposed new hotel on the Hills Road, adjacent to Cambridge Cattle Market. There were farmers, dealers in cattle coming from Norwich and Essex who regularly attended the market, coming by train. It was desirable that they should sleep on the spot and take care of the cattle. Mr Grain said there was opposition from Homerton college, a ladies college. What on earth they opposed for he did not know. None of those young ladies, he was sure, would go near a public house CDN 1901 08 21

1903 Samuel Sleight, formerly occupier of the Blue Boar Hotel, Trinity Street, Cambridge, sued an architect for damages. In 1899 he took the lease of the Blue Boar which was very much out of repair, both structurally and otherwise. Trinity College, the owners, recommended Coulson and Lofts to carry out alterations and consented to expend £3,000, but no more. When the costs went over budget he had been sued for the extra but claimed the architect had been negligent. His case was dismissed c03 01 17

1903 The Central Temperance Hotel and Coffee Tavern, Market Hill, Cambridge was for sale by auction. It has been an important and famous inn for centuries; originally known as the 'Three Tuns' it was visited by Pepys in 1660. The large ballroom with the minstrels' gallery still exists with valuable panelling and carved chimney pieces. It occupies an excellent position in a busy thoroughfare and is freehold. c03 12 10

1904 Considerable damage was done by a fire that started in the attic at the Rose Hotel, Rose Crescent, Cambridge. News was received at the Fire Station by means of the fire alarm post on Market Hill and they were soon on the scene with the horsed fire escape and tender. Much damage was done in a comparatively small area but every room in the hotel suffered from the effects of water, which saturated the ceilings. Fortunately none of the bedrooms were occupied at the time CDN c 9.1.1904

1905 The landlord of the Central Hotel, Cambridge, told how a man rang the bell in the commercial room and as if he could have a 'number'. This was the customary way in which commercial travellers asked for a room. Later the man said he could not pay his bill. He did not believe he was a commercial traveller and called the police. The man carried a parcel, neatly done up similar to those carried by travellers but when opened it contained two racing calendars, a tin of boot polish and some newspapers. 05 07 18d & e

1906 Mrs Moyes of the Lion Hotel claimed payment from an undergraduate for the hire of horses. He had entered Trinity College and associated with men of means and even of wealth. He stated his allowance was £300 a year (this was denied by his father who said it was £15 per term plus tailor's bills – about £150). The bill was for the hire of three horses on the same day – he had tossed up with two friends and lost. But this was not a 'necessary' and, being under 21 years of age, he was not liable to pay it. 06 06 28

1907 The University has extended the area within which lodging-house licences will be granted as the number of Freshmen expected to take up residence is so large. That might seem good news for lodging-house keepers and traders generally but the real reason is the steady growth of the suburban areas. A comparison between lodging houses in some of our closely-packed central streets and those in the roomy, healthy suburbs is in favour of the latter. 07 09 07c

1908 robbery from lodging house, New Street – 08 03 20

1908 A case of great importance for lodging house keepers and traders came to court when Messrs Murdoch, Murdoch and Co, of Regent Street, claimed the return of an organ which had been hired by a Downing undergraduate. He had rented a room in a University lodging house but

left without paying for his board and lodgings. So the landlord had kept it together with pictures and other goods, until he got his money. CWN 08 05 22 p5

1910 skeleton found in foundations of Hoop Hotel during demolition ;had been acquired by Charles Dixon who wanted to do away with the licence 'which blasting & blighting lives of young men that went to it' [3.29,4.7] A gruesome relic has been discovered during renovations at the Hoop Hotel. It is a human skeleton grimly suggestive of a crime committed in days gone by, a victim's remains ingeniously hidden by a murderer. For hundreds of years generations of people have passed along Bridge Street recking nothing of the horrible trophy which lay some ten feet beneath the pavement. A workman discovered the bones of a woman placed just below the wall and floor of the wine cellar and above the foundations. 10 12 23

1912 University lodging-house keepers have been venting their grievances. One woman has three sets of rooms; if she lets them all the year she gets £84. For rent, rates, taxes and wages of servant she pays £53; that leaves her £31 for whitewashing, papering, staircloth, carpet etc and for food and clothes for herself. But this term all the rooms are empty. However in Chesterton there are many householders who let rooms to undergraduates; when they come part of Cambridge will the rateable values of their houses be increased? Lodging housekeepers should form themselves into a trades union. 12 03 08f

1913 Respectable women found it difficult to get lodgings in Cambridge at a low price. There were three common lodging houses but they were mixed, taking both men and women. They were all in the Barnwell district and all on licensed premises. There were also furnished rooms often let for the night, but they were not under inspection and presented a serious problem from the moral point of view. Nearly a third of the women and girls were engaged in some sort of industrial occupation and made their own living to that extent, moving about the country and needed lodgings 13 02 28 p5 CIP

1914 There is no lodging house accommodation for women only in Cambridge. Two licensed houses cater for only the painted or vagrant classes. There is a need for some place to which respectable women and girls in need of a night's lodgings could go. Formerly they were taken at the White Ribbon Coffee Tavern on East Road but this has stopped. Now the council have purchased a house for the purpose and plans for conversion are underway 14 06 26 p4 CIP

1914 The presence of the military has greatly improved the trade prospects of Cambridge and there is no immediate fear of unemployment. The end of the Long Vacation is always a slack time but at the moment the town is busier than usual. The problems of lodging house keepers may be overcome by the billeting of officers and the presence of relatives of the men in the hospitals. But they may no get the rent usually paid by undergraduates 14 09 04 p

1922 death of Mrs Moyes, proprietor of Lion Hotel; she made each guest personally welcome & under her management Lion grew famous, particularly as commercial hotel & headquarters of sports &athletics teams; had started at the Bath where her menus for public dinners were talk of county & smoking concerts famous 22 02 01d [3.26]

1923 Garden House converted into hotel [8.5]

1926 The Bankruptcy court was told a woman had taken the Glengarry Hotel, Regent Street, Cambridge, in January 1921. It was entirely a licensed University lodging house for the students of Downing college only and continued so until 1924. It had not been successful owing to the college being unable to fill all the rooms. Subsequently she converted it into a private commercial

hotel and made a profit of about £2 a week. The major part of the deficiency arose while it was a lodging house c26 03 13

1929 With the passing of Mrs Eliza Jane Mason of the Livingstone Hotel, Petty Cury, Cambridge has lost a prominent member of the restaurant business. She commenced business with a university lodging house on Market Hill which became known as 'Masons' and was converted into a restaurant. It was largely used by cadets and catered for the officers stationed here during the Great War. Almost the first Belgian wounded soldiers were billeted there and she acted as a sort of nursing mother to them. Her next move was to Sadd's before she bought the Livingstone Hotel which was then only a coffee house. It is now one of the best commercial hotels in Cambridge. She also built the Rendezvous, Magrath Avenue as a skating rink in 1909. CDN 19.10.1929

1930 The policy of building more rooms in college and drawing in as many men from the lodging houses is creating a serious outlook for the lodging-house keepers. Many have been told their rooms will not be required next term. If the University cannot continue to utilise services which came into existence to serve their needs some then other employment will be needed. If the University ceases to provide adequate support Cambridge will have no alternative but to seek other means of livelihood. We will be loath to see the town industrialised but people must live. 30 07 05b

1930 A stockbroker's wife told the court that she had stayed at the University Arms; in the morning she threw her pink satin pyjamas on the floor and left her door open when she went out. That night when she returned to her room after a ball she found the bed had been turned down but the pyjamas were gone. They had cost £7 17s 6d the year before and had scarcely been worn. Other guests had also lost their pyjamas and nightgowns. But the judge said she was negligent in not closing her bedroom door. 30 07 17 d-f

1931 Crown Hotel, Hills Road renovated [2.8]

1933 Councillors heard that a common lodging house on Newmarket Road accommodated 16 or 17 lodgers without any sort of bathroom. But none of the users had asked for one. There were three girls sleeping in a small room separated only by a narrow wall from a room in which 15 men slept. This was not right: the language in a common lodging house was not always what it should be. It was time the council consider setting up a municipal lodging house for women as well as men. 33 02 03a

1933 The reputation which Cambridge enjoys as the home of many women prominent in public life has been enhanced by the appointment of a new secretary of the University Lodging Houses Syndicate. Miss Mary Kennett is the daughter of the late Professor of Hebrew. She trained at Guy's Hospital and her knowledge of hygiene will be valuable when she inspects the houses licensed to accommodate undergraduates. 33 07 26

1934 The proprietor of the Garden House Hotel proposed to make alterations and additions and wanted to acquire a portion of Coe Fen lying in front of Coe Fen Terrace, an annexe to the hotel, to add to the gardens. There was a public footpath across it which would have to be diverted. He was the owner of the piece of land opposite the Ladies Bathing Place which would be added to the common in exchange for the land he wanted. Councillors agreed to the scheme. 34 03 06

1934 Ye Olde Castle Hotel in St Andrew's Street was devastated by fire. Every fireman and policeman was called from other duties as smoke billowed from the gabled windows leaving people gasping at its pungency. Staff and volunteers busied themselves removing furniture. The Hotel ranked as one of the oldest inns in Cambridge, dating back to the 13th century. It was reconstructed about 1620 and the last extensive additions were in 1891. It is doubted whether it

will be possible to restore the damaged parts of this historic building. 34 08 16 [1.2, 1.13] (Regal Cinema built on site) [1.3,1.11,2.14]

1935 The Livingstone Hotel had been carried on in Sidney Street for 30 years. Under street widening proposals they would be left with the second, third and fourth floors which they could not get at at all. It was used by travellers who could not afford more expensive hotels. 35 04 10 & a, 35 04 11

1935 Castle Hotel's demolition to make way for cinema – photo – 35 12 31

1936 Mrs A.A. Moyes' charming, pleasant nature was well-known to countless visitors to the Lion Hotel in Petty Cury hotel. Her memory was outstanding: many commercial travellers recall how she could take up a conversation practically where it had been left off, even after many months. Undergraduates had the greatest respect: even during the liveliest of moments she was able to quell impending trouble without outside assistance. She had the present glass roof put above the former courtyard, which was used for traffic up to 1907. Now the family have severed their links with the hotel after over 80 years. 36 02 04c

1936 A new Blue Boar hotel, refined and distinctive yet homely has been taking shape in Trinity Street. A new Georgian cornice and canopy has been installed with flood-lighting producing a beautiful effect. Internally structural alterations, redecoration and refurbishing make the hotel a place of comfort and restful beauty with every modern refinement to ensure the enjoyment of residents who have a choice of gas, coal or electric fires in the bedrooms. The main lounge was originally a cobblestone yard into which coaches were driven. It was covered in in 1900 36 02 21 advert – 36 02 22a

1937 Airport Hotel approved – 37 04 01a & b

1939 Harry Pink Lion Hotel porter 28 years also had charge of the stock rooms. He went to the hotel in 1911 as "buttons," and except for the war when he joined the 203rd Field Company of the Royal Engineers, remained a member of the staff. 39 05 12

1939 The University Arms pleaded guilty to failing to obscure lights in the hotel and preventing them being visible outside the building. Mr Bradford, the manager, said he had 400 windows and 40 skylights. It had been impossible to screen all these within 36 hours of war being declared. The skylight in the kitchen took four men three days to screen properly. Four of the six hotel porters who would have done the work had been called up and although they'd bought dark blinds some light shone through little cracks. They'd also put notices in each room asking visitors not to open the windows until they had put the lights out. 39 09 18 & a

1943 Trust House Forte acquire Blue Boar Hotel [9.15]

1944 YWCA Hostel in Lensfield Road opened – two roomy houses standing side by side; the old hostel in Rose Crescent outgrown; many hundreds had stayed in earlier years of the war. Can now accommodate 65 service women; 1,400, including Land Army have stayed. 44 04 03

1949 A link with nineteenth-century Cambridge was broken last week when 79 year-old William ("Little John") Parish died suddenly. "Little John" – so called because he was barely five-foot tall – was a waiter at the Lion Hotel for 50 years. He was head waiter to two exclusive University dining clubs, the True Blue Club and the Beef Steak Club, which were both limited to a membership of five. Both clubs met every term at the Lion Hotel with members of the True Blue Club wearing powdered wigs, blue knee breeches and buckled shoes and Beef Steak members black coats and tails with silver buttons and buff waistcoats c49 12 21

1952 Mr W. Levett (just “William” to everyone at Cambridge’s Lion Hotel) recalled some of the dinners he had served there over the last 50 years. There was a special private party for Prince Albert while he was up at Trinity and his list of Very Important Diners ranged from barons to Sultans and Prime Ministers. “I’ve served most of them ... Balfour, Asquith, Lloyd George (he used to live here almost), Baldwin – and Churchill”. Undergraduate members of renowned clubs like the Beef Steak, True Blue, Caledonian and Carlton have dined there. “Twelve to 15 courses we used to carry, and they took two-and-a-half hours to serve. And, mind you, nothing less than a magnum for the table”. He is a cheerful, energetic little man and it would be a good idea if the hotel management entertained “William” to dinner and let someone wait on him – just for a change. c52 07 01

1956 The Cambridge lodging-house landlady is part of the education of every young man who comes to study at the University. She is part-mother, part-landlady & part-disciplinarian who must maintain a difficult blend of deference and firmness in dealing with her young gentlemen. He is told how much rent he must pay, that he pays extra for a piano, hot water for his bath or a scuttleful of coal. But unless lodgings are peaceful and conformable men will not study well. 56 10 06a & b

1958 Central Hotel : Kings college announce plans for demolition, great opposition [3.9,3.14]

1958 Fire seriously damaged the Garden House hotel; part of the roof and several bedrooms were affected. Hundreds of people lined the banks of the Granta watching while thick white smoke gushed from under the roof. But within an hour Angela Parfitt and her ‘groom Michael Lean were celebrating their wedding reception there. 58 02 15 58 02 17 [3.7]

1958 Six members of the Order of the Irish Christian Brothers lived together in a Victorian house in Hills Road. There was a retired teacher in charge, a practically bed-ridden man, one who acted as a general factotum, one who did the cooking and two members they were sending to the Technical School and University. The house closed in the vacation. The Valuation Panel decided it was not a hostel but a private house, which reduced their rating assessment. 58 06 06

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 Central Hotel demolished, (opens as hostel 1962) [3.15,3.16]

1960 ‘Diggings’ are in short supply in Cambridge. Over the last 15 years the temporary accommodation problem has gone from bad to worse, and unless one really strikes it lucky a furnished flat or a room in a ‘middle class’ lodging house with meals provided is right out of the question. There is a natural hostility towards children and most landladies just have not got the room for complete families. They prefer to let rooms to students who only want a bed for the night. Legislation has done little to ease matters and the small investor has practically disappeared from the market. It is now only economically worth while for the man who buys whole houses to convert them into flats. 60 04 05

1961 Lion purchased July 1961 by Jack Cotton & Chas Clore for City Centre properties; largest single property transaction in Cambridge; by 1964 hotel closed & just bars open [446.16.3]

1963 Lion hotel closes [8.2]

1964 Royal Cambridge hotel modernised following acquisition by Garden House Hotel [8.3]

1965 University Arms 200 bed extension opens, has seen removal of stone pillars on Regent St [8.4]

1965 Royal Hotel modernisation progress – 65 01 15a

1966 Bene't Hostel, Cambridge's only hostel for girls closes; has been on verge of bankruptcy for much of its 23 year history; gave shelter to women stranded in city; was used by women teachers and social workers as well as girls sent by welfare organisations; now accommodation easier to rent – 66 11 04

1968 De Vere apply to build "biggest hotel in East Anglia" on Huntingdon Road; becomes instead one of biggest planning wrangles when Ministry rejects scheme, backs down, calls new inquiry, delays announcement; De Vere changes plans, gets permission, abandons scheme, 1973 [8.6,8.10]

1969 Royal Cambridge Hotel fire – 69 10 10

1970 Gonville Hotel planned to grow into one of city's biggest with room sup from 20 to 100 – 70 01 15a

1970 Suffolk House private hotel converted from house [10.3]

1970 De Vere granted permission for hotel and office block at Pound Hill – but will be inquiry – 70 06 10

1971 "city hotels inadequate" headline [8.11]

1971 Garden House Hotel launches £1M expansion – 71 03 30 [8.12]

1971 De Vere Hotel plans rejected by Government – 71 04 16b

1972 Arundel Hotel opens: A new hotel opens in Cambridge this week - and with 33 bedrooms it becomes the fourth largest in the city. The new Arundel House Hotel is a complex of red brick houses on Chesterton Road overlooking the River and Jesus Green. The development follows the purchase of number 61 Chesterton Road last year and its conversion into a 12-bedroomed hotel. Now John Norfolk has converted two other adjacent properties he owns - from flats and bedsitters to an integrated hotel complex. "With house prices as they are now it is virtually impossible to charge a proper rent related to these new values," he said. "The transition of Chesterton Road into a hotel was the obvious answer to get a proper return" c77 12 02 [8.17]

1972 "need 500 extra hotel beds" [8.15]

1972 new fire regulations introduced; Glengarry Hotel closes, Great Northern follows [8.16,9.4]

1972 Two middle-aged women who jumped from a first-floor window into the Garden House hotel's back gardens to escape the fire were later found by a Cambridge milkman wandering along Fen Causeway in their nightclothes. A friend said "The women looked like refugees with smoke-blackened hands and faces. They had walked across Coe Fen. The milkman stopped his float and asked if he could help them". Miss Sarah Wilhelm from Ohio said she was woken by a burning smell. She saw the room starting to fill up with smoke and saw the paint on the inside of the door turning brown. She jumped from the window and the other lady followed CDN c 24.4.1972 2 die [1.15,8.13]

1972 It has been an irritating summer for the hundreds of visitors to Cambridge who have been forced to scour the surrounding countryside for hotel rooms. Cambridge has always had a notorious reputation for being unable to accommodate all the summer visitors. This year the situation was made worse by the Garden House Hotel fire in April which left the city the poorer by 75 bedrooms. Help is already on the way. The Garden House Hotel is being rebuilt; the Gonville Hotel will open again after alterations and work has started on a 100- bedroom hotel at

Bar Hill. Whitbread have outline planning permission to build a 60-bedroom motel extension at the Red Lion Hotel, Trumpington and De Vere Hotels are awaiting the outcome of the inquiry into their application to build a 200-bedroom hotel on Castle Hill c72 08 22

1973 Gonville reopens after £400,000 improvements [8.18]

1973 Garden House reopens after £2M rebuilding, 16 months after fire [8.20]

1973 new hotel built at Bar Hill [9.2]

1973 De Vere's have been given final planning permission to go ahead with their plans to build a £2 million-plus hotel at the Huntingdon Road - Mount Pleasant junction, Cambridge - almost five years after the project was first proposed. But the London-based company are not saying yet when they intend to start building on the derelict site overlooking one of the city's busiest road junctions. It was at the beginning of 1969 that De Vere Hotels and Restaurants Ltd submitted their original plans for the hotel c73 09 03

1973 De Vere have finally abandoned their plans to build a 5-star 200-bedroom hotel at Cambridge's Mount Pleasant - Huntingdon Road junction. Instead the company have suggested to planners that the site could be used for a four-storey block of residential flats with a restaurant, showrooms, offices and a bank included in the development. The company say it is "no longer economically viable" to go ahead with the hotel project which has been on the stocks for four years. It is being suggested that the originally estimated building costs of around £2 million has now risen to about £3.8 million c73 10 28

1974 Trust House Forte plans for hotel Trumpington Road corner Brooklands Avenue approved, they drop scheme 1975 & later build at Impington [8.14,9.1,9.9]

1974 Garden House Hotel awarded 4 stars but announces debts of £1.2M & goes into receivership; sold 1975 [9.3]

1974 The placing of the Garden House Hotel into the hands of a receiver-manager illustrates all too clearly the fine line between success or failure in business plans. At one moment the £2 million scheme was all go, and even at an interest rate of 10½ %, would have been viable for the family business. But then, almost overnight, rocketing interest rates killed off all hopes of doing anything other than paying a loan. Even though the hotel is making a profit on a day-to-day basis they could not contemplate it. To pay off a bank overdraft accrued since the fire that gutted the original buildings two years ago, they had to expand and create a higher turnover c74 05 10

1975 plan for 100 bed hotel at Brookside rejected [9.5]

1976 The signing of a £1 million sales contract for the Garden House Hotel in Cambridge marks the end of speculation and rumour about its future. Essentially a family business established in 1910, the hotel hit world headlines in 1970 when for five hours it was the scene of some of the worst violence Cambridge has ever experienced. About 500 students besieged the hotel, hurling bricks and abuse as a protest against the Colonel's regime in Greece and caused £2,000 damage. Two years later fire gutted the premises killing two guests. This disaster led to financial trouble and the appointment of a receiver-manager in May 1974 c76 11 02

1979 Garden House announces £2M expansion plans [9.3]

1980 Regent House hotel (part including old Glengarry) opens [9.7]

1981 plan for 150 bed hotel Chaucer Road rejected by Dons [9.8]

1982 Planners fear that the traditional Cambridge landlady is an endangered species, as more and more colleges press to change their family lodging houses into student hostels or 'outside

staircases'. But Mrs Winifred Phillips who runs a lodging house for 24 undergraduates says students think they can cope, but they can't. They come here to study and want to enjoy themselves in what time they have to spare, not worry about the domestic side of life. Her grandmother ran a lodging house, as did two aunts; and her father, husband and son have all been college porters. 82 05 07a & b

1982 There are several types of student seeking landladies. If you are prepared to cook an evening meal for a language student – and all meals at weekend – then the Davis School would pay £38 a week. CCAT students who just want a room pay £17 a week, without heating. The greatest shortage is in independent provision for postgraduates. The ideal is a terraced house housing three and with shared kitchen. They would pay about £18 rent each and meet their own heating and hot water bills. 82 10 07

1983 Garden House doubles in size [9.11]

1983 Centennial Hotel opens Hills Road, former Guest House [9.12]

1984 Garden House fire in linen room, 100 evacuated; changes hands [9.14]

1985 Regent Hotel – formerly Glengarry – refurbished – 85 12 11c [9.18]

1986 plans for new hotel on Lion Yard site announced, Holiday Inns wins competition for site [9.19,10.1]

1986 Blue Boar hotel closes, to be converted by Trinity College for student accommodation [10.2]

1986 The historic Blue Boar Hotel in Cambridge closes forever on Saturday after 300 years. But the management is making sure they go out with more than a whimper. Food prices will be slashed, drinks sold at a discount and the customer who buys the bar's last drink will be given a bottle of champagne. Trinity College is to build student rooms, a lecture theatre, wine bar and four shops on the site. The hotel's distinctive blue-and-white frontage with its shutters will be retained as will the graceful canopy that had to be repaired after being damaged by lorries. The famous Westmorland stone blue boar, which hangs in the reception room will be also incorporated into the new design 86 04 15a

1986 Blue Boar hotel feature on closure – 86 04 15b & c

1986 One of Cambridge's better-known private hotels, the Suffolk House in Milton Road, is for sale at £250,000. The main structure was built in about 1930 by a Cambridge doctor and later owned by a professor of botany who stocked the garden with many kinds of trees and shrub. Outbuildings include a summer house and two-bedroomed timber chalet for the owners' occupation. It was converted from a private house in 1970 and is primarily used by business clients connected with Pye group of companies and firms on the Science Park 86 08 01a

1987 One of Cambridge's top hotels, the Garden House, is planning a £3 million expansion. Luxury apartments and 16 hotel rooms are proposed as well as a sophisticated leisure complex including swimming pool, sauna, gymnasium and health-food snack bar. Penthouse suites will be built along the River Cam front. The 117-room hotel has to compete with the Post House at Impington and the Moat House at Bar Hill while a new hotel is planned for Downing Street 87 01 10b

1987 A major multi-million-pound expansion scheme for the Garden House Hotel has been thrown out by planners who fear it would encroach on 'sacrosanct' land. Opponents had complained the proposals would destroy the open character of Sheeps Green and Coe Fen. Others were worried about traffic congestion. The planning officer said the original Garden House had grown into a hotel served from narrow streets. "It would be quite clearly wrong to extend further

with urban scale development into a tongue of land between two critical open pieces of land”, he said. 87 12 03

1987 Station Hotel to be demolished [NS3.13]

1988 The prestigious Garden House Hotel has been taken over by Queens Moat Houses, the first national chain to gain a foothold in the city. Its main competitor, the four-star University Arms is owned by the Bradford Family while the Ridgeon family own the Gonville and Arundel House belongs to Major John Norfolk. The Garden House was first opened in 1922 but has had an unsettled time with five different owners in the last 20 years. In 1970 it was damaged during the ‘Garden House Riot’ and two years later gutted by a fire. It reopened in 1973 and has since been extended. Now it will be redecorated 88 11 15

1989 Garden House Hotel’s expansion plans include a glass-walled swimming and leisure centre with pool, squash court, saunas and solaria. There would be an extension housing 16 bedrooms, each of which would have a balcony, together with six two-bedroom apartments with kitchens, designed for longer-stay residents such as senior managers or academics. These will run along the east bank of the River Cam and be screened by trees. In addition there will be bed-sitters for staff and a two-storey car park. This would complete the hotel’s business plan. But there have been criticism from preservationists. 87 11 16a Garden House Hotel expansion approved £CEN 8.9.88

1989 The University Arms Hotel has been sold to the De Vere chain which owns 30 luxury hotels across the country. They plan to refurbish the 115-bed four-star hotel. Built as a coach house in 1830, the University Arms was acquired by Marcus Bradford in 1891. The 160 staff will be retained. De Vere hoped to build a hotel in Cambridge several years ago and bought a site in Mount Pleasant, but the scheme fell through. 89 01 10

1989 The University Arms Hotel has been owned by the Bradford family for almost a century and its sale marks the end of an era. Opened in 1834, the original hotel was a three-storey building with just 15 bedrooms. It was bought by Marcus Bradford in 1891 and rebuilt, with a further extension in 1925, then substantially modernised in the 1960s and 70s. It was the first hotel in Cambridge to install electric lighting, and the first heating system was installed in 1900 when there was also ‘telephonic communication with all parts of the United Kingdom’. Today it has 115 bedrooms, a restaurant for up to 250 people, several bars and conference rooms. 89 01 12b

1990 Garden House Hotel taken over from Queens Moat House group by Paul Breen, plans leisure complex 90 10 11a

M.J.Petty. A Chronicle of Cambridge News 1888 c.27.47 : cafes

Espresso coffee machine, Dorothy café, 1955

110.49

c.27.47 : cafes & restaurants

(heading introduced July 2009, previously c. 27.4)

1899 Albert Hart applied for a licence for 'The Sirdar', Market St, Cambridge. The place had been largely patronised but he laboured under a disadvantage of not being able to provide his customers with spirits or beers. The fashion of drinking wine in the middle of the day had been discountenanced for many years past by doctors and everybody that went to a place for lunch required spirits or soda water. He had to send out for such drinks to some public house in the vicinity. The money had to be extracted from the customer who had to wait until his refreshments were brought to him through the street. That was not an advantage to the liquor itself, especially with the dust flying about and the intense heat of the sun c1899 08 24

1907 All over the country old Pittites offer sighs of relief at the comparatively small amount of damage caused to the Pitt Club, whose dining room was burnt out. The committee is to be congratulated on the speed with which it made new arrangements for dining, and the fortitude of the cook, who sent out breakfast on Saturday morning from a kitchen several inches deep in freezing water, deserves to be recorded in letters of gold and hung up in every kitchen. 07 02 02
1907 Dinner for the ordinary, healthy undergraduate is an event of importance. But students at one of the largest colleges trooped into the dining hall, bowed their heads while grace was said, and then to the utter astonishment of the senior members, rose and without a word solemnly

walked out. The action was a protest against the kitchen management: there has been dissatisfaction not so much with the quality of the food, but with the quantity and the manner in which it has been served. The protest has caused an improvement in the cuisine.
07 05 18

1908 Three terms ago the undergraduates of Caius College indulged in a strike against the kitchen arrangements. They refused to eat what was provided – but still had to pay for what they would not eat. Their example was infectious and spread to Trinity. But there they meals have now returned to their old price and standard – they are as exorbitant as they are disgusting. The present arrangements present all the worse features of the less cultured American municipalities. But whoever met an undergraduate who didn't grumble about 'Hall' 08 05 02d

1917 First Cambridge War Kitchen on corner of Church Street opened; to promote economy by cooking on a large scale and enabling people to purchase food at small prices – 17 06 20b, photo 17 06 27c

1918 Communal Kitchen.—the Mayor opened a new communal kitchen at Mill Road, Cambridge, last week. Later he and Councillor Thompson (treasurer) partook of the first meal 18 12 25 CIPof

1919 Refreshment hut on Parker's Piece proposed; should acquire an army hut and place at back of University Arms – debate – 19 08 06f

1920 Mill Road communal kitchen a failure, unlike others – CDN 20 12 09

1920 Four national kitchens bill presented council; lost £200 – Ch 20 12 15

1927 The fascinating experience of lunching in Cambridge in the atmosphere of our Elizabethan forefathers is made possible by the opening of new rooms at Messrs Matthew's Café in Trinity Street. They have acquired the two upper storeys of the building & turned rooms which were formerly part of a lodging house into a charming medieval retreat. The original beams and window frames remain as well as some beautiful old carvings and the rooms have been furnished in the style of the period, pains having been taken to securer faithful reproductions even down to lamps and pewter pots. c27 11 04

1929 Dorothy cafe closes for redevelopment [1.28]

1929 Cambridge to have a modern caravanserie matched the modern splendours of Oxford St & Regent street where a thousand people may dine without strain on the service & dance too if they are so minded, a place of dignity & comfort & of surpassing resource. The old Dorothy cafe is to disappear - not so very old though as a modern restaurant - & a building of 3 storeys spanning space between Sidney St & Hobson street. Ground floor entrance Sidney St is shop & showroom & on eastern side a dining hall or restaurant. Principal staircase to first floor will be from hall at Hobson street entrance & access to a dance hall with black hornbeam floor on springs. This accommodation for 320 diners at a public banquet but specially prepared for dancing for 450 at once. At western end another dining hall. Another on second floor, seat 80, suitable private dinner of clubs & organisations. perhaps this will be the oak room which intention of Hawkins to decorate; also roof garden looking across to gardens of Christ's college. Nags Head inn will not disappear but be given place in the basement. Will take 18 months but Hobson St side will be completed before start made with Sidney St front to ensure restaurant open throughout Apr 1929 [16]

1929 New Dorothy café – CDN 27.4.1929

1929 Competition in the tea-shop line is terrific, Cambridge is stiff with them, a court was told. Two ladies had taken the tenancy of 11 St John's Street in 1923 and increased the takings with a large number of resident customers as well as undergraduates. They made everything they sold except for sweets and cigarettes & paid themselves between £60 and £80 a year out of the takings. Trinity College said if the premises could not be used as a tea shop the rental value would drop from £120 down to £85 as it was in a bad position for an ordinary retail business CDN c20.1.1929

1930 A labourer engaged in excavation work at the new Dorothy Café was killed, and another seriously injured. The men, who were employed by Coulson and Sons, were clearing the old brickwork and masonry under Hobson's Passage when a considerable mass of brickwork gave way without warning and they were smothered in the ruins. The ambulance was sent for and a crowd quickly gathered. The police had some difficulty in controlling the traffic, owing to its density at one time. 30 10 30d

1931 Dorothy cafe reopens after redevelopment; barrel roof of Banquet Hall & vaulted ceilings of restaurant are unique; part of basement Prince of Wales hotel; first floor restaurant where Percy Cowell & his players are daily delighting a host of people; shop sells confectionery, sweets & cold cooked meats, fruit, flowers ... on Sundays 5,000 pass through cafe, shop & restaurant; in Oak room some of original oak panelling from old building preserved; two smaller rooms known-as Hobson room & Cromwell room Jul 1931 [1.28] [17]

1931 G.P. Hawkins opened the first tea shop in Cambridge at the corner of Sussex Street in 1900. It could hold 10 people with a waitress & two assistants. As adjoining space became available the premises were enlarged. Today the Dorothy Café can accommodate 2,000 and there is no brand of catering which cannot be undertaken. In 1904 he erected a bakery with two ovens at the side of Midsummer Common; today with seven ovens working six days a week he produces about 200,000 loaves. It also manufactures a ton of ice a day plus sufficient ice cream to supply the entire needs of Cambridge. 31 04 03a

1931 G.P. Hawkins occupied a unique place in Cambridge life. Few men are twice Mayor and play such a part in the political and business life of the town. He opened Cambridge's first tea shop and later the Dorothy Café which can easily accommodate 2,000 people at one time. In the bakehouse in Parsonage Street tributes fell like water from the lips of the employees and 1,400 crowded into the church for his funeral. 31 12 11f

1931 Health Food Stores of Rose Crescent was ahead of its time when it started under the name of Sandwiches and Health Food in Green Street in 1931. The brainchild of an Australian, Clarence Dowell and his wife, who worked in the kitchen making sandwiches, it introduced many Cambridge people to the delights of nut rissoles and vegetarian food. Now it is to close and Peppercorns delicatessen will open in the premises 88 06 09c

1932 soon to have Chinese restaurant? [1.10]

1934 Dorothy café ballroom floor – 34 05 02

1934 An agreement has been reached in the long-running dispute over the rebuilding of the Dorothy Café in Sidney Street. In spite of the conflict over details Messrs G.P. Hawkins now have a really beautiful, modern and commodious building that has earned praise from the Cambridge Preservation Society and the Illumination Congress while the builders are no longer under any imputation of incompetence 34 06 19

1936 Albany coffee shop St Mary's Passage notes; frontage between St Mary's Passage and St Edward's Passage sold - 36 03 21b

1936 The Cambridge Milk Bar opened on Market Hill where all the shakes and soups can be purchased at the standard price of four pence. You have only to visit it once to become an addict. The first milk bar opened in Fleet Street two years ago and they have spread rapidly attracting business men, workmen and shoppers. In cold weather what could be more sustaining than a bowl of soup made with milk while in summer a cold milk shake flavoured with fresh fruit syrups, made 'crisp' with cream and whipped is a creamy delight 36 12 09b

1937 The famous Festival Grill has been reborn. Connoisseurs of good food and good wine need no longer journey to Newmarket Road as the Grill has opened in more commodious premises at the corner of Bene't Street and King's Parade. It has a new name, the Festival Restaurant with a new sherry and oyster bar which together with the restaurant under the direction of Toni, is first-class in every respect. Its delightful colour scheme of red, black and cream ensures the rooms are bright but not garish and it will become one of the best-known rendezvous. 37 10 06a

1937 The late Professor of Mineralogy, Arthur Hutchinson, made his way entirely by his own ability. He was elected to a Fellowship at Pembroke and later Master. He did important research during the war in connection with gas masks. He was a Director of the CDN and chairman of the Coffee House Association which ran a cafe for the use of cab-men in a passage beside the Guildhall until the recent redevelopment. The Cottage Home for Orphan Girls in Fitzwilliam Road was a charity near his heart as was the Evelyn Hospital 37 12 13a

1939 Alphonse Felex Lienard, better known as "Toni", proprietor of the Festival Grill, on King's Parade received fatal injuries in a car crash. 39 08 18 CIPof

1942 Council take over Pitt Club as British Restaurant – detailed review 42 03 12

1947 British Restaurant at Pitt Club may transfer for Old Post Office – 46 12 11

1947 New premises, a new name and new services for Cambridge's British restaurant were marked by the attendance of the Mayor at an informal opening ceremony. The new premises are in the old G.P.O. building at the corner of Petty Cury. The new name is the Cambridge Borough restaurant, and the new services are a more varied lunch menu instead of the old "flat rate". The cafeteria system of serving is being introduced, by which you slide a tray along choosing your dish and pay when you have completed your selection. First to eat in the new premises were the workmen employed on the job who were entertained to lunch with a typical menu of cream of vegetable soup, roast beef and Yorkshire pudding, baked and boiled potatoes and cabbage, blackberry and apple tart and custard c72 10 01 (Civic Restaurant)

1947 Further discussion with the Ministry of Food was essential in the problem of undergraduate rations, a Cambridge University officer said. "Undergraduates do not get enough on their rations and their main subsidiary food has been potatoes and bread. Certain colleges in Cambridge laid in a store of potatoes and should get through the winter but in other colleges who rely on week-by-week purchases there will be a very real hardship". A recent survey by "Varsity" shows that the charges for meals vary per day in the colleges from 6s 6d to 4s.3d - 47 12 08

1949 A director of the firm of Findlater, Mackie and Todd, brewers, applied to turn the premises known as the Festival Grill, King's Parade, Cambridge, into fully licensed premises with meals provided. In April 1946 he had acquired the business of the Hope Inn, Bene't street, the ground floor of which was used as an ordinary bar, whilst the first floor was converted into two wine parlours. These had become very popular but attracted a totally different type of clientele from the ground floor bar c49 05 11

1950 Cambridge University & Town Coffee Palace company wound up; founded 1860s to attract custom from gin palaces & supply needs of artisans etc. At one time had several premises but now only Central Hotel left [1.22]

1951 Scotch Hoose gets licence, founded by Cambridge graduate concerned about limited means of students - plain well-cooked food at nominal price [1.21]

1951 The new Civic mobile canteen was officially opened by Ald W.J. Briggs, chairman of the Cambridge Communal Feeding Committee. The brand new, beautifully equipped caravan will be a great asset to the city as a whole, and even more so to the people who use the Drummer Street bus station. It replaces the old stall which used to be there. The whole thing is in charge of the City Catering Officer, Mrs C. Howson. It is expected to be open from 8.30am to 10pm on week-days and from 2pm to 9pm on Sundays c51 06 29

1952 Dorothy taken over by Co-op {27.2,8.4,}

1952 Mr George Hawkins, who has been the sole owner of G.P. Hawkins Ltd has announced that he has disposed of his entire shareholding to the Cambridge Co-operative Society. The firm was founded in 1838 in Fitzroy Street, which is still one of their shops. At the beginning of the century the late Mr G.P. Hawkins opened a shop and café in Sidney Street. In 1929 these premises and the adjoining site were extensively developed resulting in the opening in 1931 of 'The Dorothy' as it stands today. c52 11 19

1952 Mr George Hawkins has disposed of his holdings in the firm of G.P. Hawkins Ltd to the Cambridge Co-operative Society and a new company has been formed. But he has insisted that 'The Dorothy' will continue on the same lines as in the past and did not agree to the change-over until given that assurance. Running a catering establishment of this size is no easy task, made greater during the war when he was also the Regional Bread Officer for the Ministry of Food. c52 11 28

1956 'The Coffee Anchor' down Laundress Lane is an innovation: the first licensed coffee bar in Cambridge. The new rooms, delightfully done out in contemporary style on the second floor overlooking the Cam, were opened by the President of the Cambridge University Boat Club with a flourishing swish of the magic machine that drew out the first official cup of hot coffee 56 01 11

1957 Firemen called to the Dorothy Café took one look at the amount of smoke pouring from the upper floor windows and immediately sent for reinforcements. The fire started under a sideboard in the second floor Oak Room and flames spread up the walls to the ceiling, damaging the floor of the Cromwell Room above. But business carried on as usual and management say they will honour all obligations. The usual dances will be held. 57 10 15a [2.6]

1957 The coffee habit has grown up in the last ten years out of the need which young people have to talk without interruption. Beer-drinking is too absorbing an occupation and the tankard has to be refilled. But a single cup of coffee will last a whole night. One public house has converted two former billiard rooms, where everything is provided from the serenity of the shaded lights to the stimulus of Espresso Coffee. People come from places as far apart as Moscow and Addis Ababa, Hong Kong and Puerto Rico. 57 05 10b

1958 Kinema cafe allowed Juke box [3.8]

1958 The "Samba" Restaurant in Fitzroy Street applied for a liquor licence. There had never been a restaurant in the area serving meals like the ones they offered: on a busy day as many as 90 lunches were served and the evening trade was building up. But the landlord of the Hopbine in Fair Street said he served 40 three-course meals a day and it would hit his trade. 58 03 08b

1958 The Koh-i-Noor restaurant has been in St John's Street since 1936, the owner, Krishna Vir, told magistrates. Now they wanted a licence to sell beer and cider. They provided 700 meals a week and to send out for drinks from the Mitre or Baron of Beef took too much time. Dr Glyn Daniel, a Fellow of St John's College, said he occasionally visited and would like to be able to get a drink of beer 'when the curries are very hot'. 58 03 28

1960s *The Cambridgeshire Collection has detailed newspaper cuttings files from this date*

1960 The owner of the Kinema Café in Mill Road said that when he took it over in 1957 he tried to make it attractive and spent a great deal of money on putting it in order. At first he deterred teenagers by taking out the automatic phonograph and tried to attract the student trade by dressing up the tables with white cloths and menu card. But this failed. The only clients he could draw were teenagers, 85 per cent of the sales were of tobacco and the rest cups of tea. 60 04 07

1961 Cambridge Civic Restaurant produces over 1,000 meals a day either for consumption in its spacious contemporary dining room or for the Drummer Street Mobile Canteen or W.V.S. Meals-on-Wheels service. The premises at the Old Post Office in Petty Cury may have to be demolished as part of the Lion Yard scheme but the Manageress, Mrs Gillett and her staff of 30, including Mrs E. Stubbings who has been vegetable cook for the last 18 years have become very attached to the restaurant and regard their customers as 'one big family' which needs feeding. 61 04 14b

1962 Turks Head restaurant plan [3.21]

1963 alterations to Dorothy, including new ballroom [10.5]

1963 alterations to Whim [10.8]

1963 Reconstruction of Matthew's restaurant in Trinity Street would provide three modern restaurants – a separate steak bar, a wine and cheese bar and a chicken and ham restaurant. It would probably be called 'The Turk's Head Restaurant'. The British public should be able to have wine with their food and were becoming more educated to this fact because they 'occasionally escaped abroad', an Inquiry was told. Mr Bernard Matthews, managing director, said the firm was leasing the restaurant from Trinity College who were not opposing the application 62 12 29

1963 Business at the Cambridge Civic Restaurant and Snack Bar has 'really been phenomenal' under the efforts of manageress, Mrs J. Gillettes and her staff, councillors heard. July takings in the restaurant reached £3,620 and those in the snack bar were also the highest on record. But overall profits are down because of the cost of repairs and improvements. The Parks Superintendent will be asked to supply shrubs to brighten 'the rather desolate spot' near the rear exit 63 09 18b

1963 Cambridge's night life is waking up! The opening of the Café Royale, Regent Street, is positive proof that Cambridge is not so dead after all. Now at last you can wine and dine amidst the splendour of majestic elegance. The only restaurant where you can enjoy English, French, Italian, Spanish, German and Oriental cuisine. Starlit dining room, bar, dancing, resident band. Cabaret presenting stars of radio, television and stage. – Advert 63 10 12a & b

1968 Civic Restaurant closure would be a calamity but site needed for Lion Yard – 68 10 11

1968 Civic Restaurant – detailed feature – 68 11 28

1969 Civic Restaurant to end when building demolished for Lion Yard, to be no new home –
69 10 03

1972 Cambridge's Civic Restaurant, one of the last in the country, will be closed on March 30 after 30 years of service stretching back to the days of British Restaurants. The old Post Office building, where it is situated, is to be demolished to make way for the next stage of the Lion Yard development. The restaurant which for several years has served an average of 1,000 lunches a day has been there since 1947. Before then its previous home since 1942 had been the Pitt Club in Jesus Lane. It was then that it was known as a British restaurant, one of the thousands set up by the Government throughout the country to provide a communal feeding service during the war years. CEN c 7.3.1972 [10.13, 10.16]

1972 The Dorothy in Cambridge has been sold. A new role for the city's best-known catering and dancing centre has not been decided by the new owners, but may include a "quality" department store. The Dorothy's present owners, G.P. Hawkings Ltd said that parking restrictions have hit the firm's business. The Dorothy contains a supermarket, restaurant, large ballroom and other rooms used by many organisations for official functions CEN c 21.4.1972

1972 A collection of Cambridge nostalgia went under the hammer as the fixtures and fittings of the Old Dorothy restaurant and ballroom were auctioned. "The Dot" as it was affectionately known to Saturday night dancers down the years was a mecca of weddings, parties, dinners and thousands of personal memories. It was a child of the tea dance and potted palms of the 1920s and survived the Second World War to outlive nearly all its contemporaries. It closed its doors to the public in August and now its future is uncertain. Today it looked drab and tattered with mirrors, lights and other fittings ripped from the walls. About 150 attended the auction but many were only there to pay their last respects. c72 10 01

1972 At the Pagoda Chinese restaurant in Regent Street Cambridge there are over 100 items listed on the menu. The easy way out might have been to opt for Special Meal (£2.55 for two persons) but that sounds too much like totalitarianism so we sifted out portions of Sweet and Sour Pork (large 48p, small 42p), Chicken on bean sprouts (48p, 40p) and Sliced Beef, green pepper and Black Bean Sauce (55p). Fried rice (14p) went almost without saying. Cheefoo White Wine, bottled in the People's Republic was not worth the £2.15 it cost per bottle. After all this only a sense of duty led us to share a dish of lychees (25p). The meal cost us £6.57 for two, but if you did not fall for the "wine of the country" bit, it would be very good value c72 10 17

1973 Bath announces remodelling on lines of Turks Head [8.19]

1974 Lyons restaurant in Cambridge city centre is to close at the end of the week. It opened first as a tea shop just over 42 years ago in Petty Cury. Lyons said that the restaurant was closing because of reorganisation within the group. A spokesman said: "The shop does not fit in with our plans for the future" c74 03 15

1977 The Dorothy Continental delicatessen on the corner of Sussex Street, Cambridge, ceased trading at the weekend. It was the last remaining part of the former Dorothy restaurant and ballroom, sold by G.P. Hawkins in 1972 for £850,000. The Dorothy contained a supermarket, restaurant, large ballroom and other rooms used by many organisations for official functions. It was taken over by the Co-op in 1952. The above-ground part of the Dorothy was acquired by Waring and Gillow, the London-based furniture chain, the remainder now forms the Henekey Tavern. When the Dorothy closed, Hawkins moved its outside catering section to the Alma Brewery site in Russell Street. CDN c 5.2.1977
... G.P.Hawkins (Co-op)said new lease rent increase makes business unviable so Sidney Sussex lease to Wimpy International [272.15]

1978 The Turk's Head, one of the largest eating places in central Cambridge, has served its last meals and drinks. Many of the 30 staff hope to be given the first chance in the project to turn the Plough and Harrow public house in Madingley Road into a restaurant. The Turk's Head opened in the 1960s as a restaurant where a range of inexpensive meals could be had across a wide price band but it was too close to another Berni Steak Bar around the corner in Rose Crescent. Now there are plans to turn it into two smaller restaurants together with a 'mini Burlington Arcade' with some 11 shops aimed at tourists. c78 07 30 takes over Plough & Harrows [14.3]

1980 Waffles' waffles have been selling like hot cakes in Cambridge for seven years. Now the small Kite café has been mentioned in the Egon Ronay guide 'Just A Bite'. "Queues of hungry students form outside the door every evening at this most welcoming of little cafes", it writes. But Waffles' days at its present address are numbered because the little shop on the corner of Gold Street and Fitzroy Street is marked for demolition as part of the Kite redevelopment programme. Set in a devastated urban wasteland of rubble and decaying brick the café with its steamy windows, Edwardian interior and babbling conversation provides a friendly island of humanity. 80 03 14d

1980 An exclusive university dining club may open its doors to the public. The Pitt Club is a miniature men-only London club where prospective members are vetted carefully and anyone without a public school education is likely to be black-balled. It also houses the Hawks Club for university sporting Blues. But it is no longer making money and is looking for tenants to share the former Turkish bath house in Jesus Lane. Strudels, one of the restaurants in the Kite facing eviction, is amongst a number to express an interest. 80 11 08

1981 It was a sad day when Strudels – one of Cambridge's most unusual restaurants – was forced to abandon their premises in the Kite Area. But now they have reopened as a high-class restaurant in the famous Pitt Club in Jesus Lane. The old favourites are still on the menu though they have an eye for the really unusual such as stuffed acorn squash. House wine is £4 a bottle. 81 11 12

1983 The historic Whim restaurant in Cambridge is fighting for its life. A receiver has been called in by the restaurant manager who hopes to trade out of the problem. It employs 27 full and part-time staff and was traditionally the haunt of undergraduates – including Prince Charles – until it was converted into a fast-food operation in November 1980. 83 03 08 p1

1983 It is 30 years since Charles Antoni took over the Varsity Restaurant in St Andrew's Street. His philosophy is to provide a warm and pleasant atmosphere coupled with good food and service at a price which did not leave you with a full stomach and light wallet. The menu offers Greek, French, Cypriot and English dishes. Starters cost between 40p and £1.05 and apart from a range of charcoal-grilled steaks and a couple of kebab dishes, none of the main courses cost more than £2.70. Sweets are priced between 60 and 80p 83 03 26 p10

1983 A visit to Waffles on Castle Hill is like stepping back in time to the heyday of the unique Kite café which was such a popular venue until the bulldozers moved in. The highly successful venture was built up by Mrs Virginia Le Charite over nine years until its closure in 1981. The familiar tables and chairs, the ornate cash register, the dresser and clock are all there and it is still producing those scrumptious and filling savoury and sweet batter rolls with a variety of toppings at prices from 90p 83 07 01 p24

1984 The Turks Head sign swings once more in Trinity Street. Its unique charm lies in the eccentric architecture and ancient beams with rich red carpeting and soft lighting. The Tudor grill room can cater for 200 and with so many nooks and crannies they can usually find room for diners. The new charcoal grill will do delicious things to steaks and chops and there is an extensive table d'hôte menu offered at £3.95 for three courses with wine at £3.95 a bottle 84 02 03 p29

1987 Cambridge's newest venue, Browns – a 200-seat restaurant and bar – has opened in what was formerly the out-patient's department at Old Addenbrooke's Hospital. The entrance is a revolving door which ushers visitors into a scene where potted palms and antique mirrors form a background to the clink of cocktails and tinkling of a baby grand piano. The menu features fisherman's pie with cheddar cheese crust (£4.55), exciting salads and spaghetti dishes and leg of lamb chargrilled with rosemary served with Oxford sauce at £6.65 87 05 22

1987 The Maharajah, a stylish new Indian restaurant, has opened in a former Castle Street pub but now has an interior decorated with original hand painted silk pictures creating an up-market image. It specialises in authentic Indian cooking with a particular emphasis on Kahari food served on sizzling plates. Pasanda and Tandoori Shaleeka dishes are recommended for those seeking a milder flavour while Jalfreesi, made using fresh green chillis, is popular with established Indian food lovers. A special feature is a Sunday lunchtime buffet when diners can sample various dishes. 87 12 21

1988 Copper Kettle, feature of life since 1930s closes for refurbishment ¢CEN 1.10.88

1988 Health Food Stores of Rose Crescent was ahead of its time when it started under the name of Sandwiches and Health Food in Green Street in 1931. The brainchild of an Australian, Clarence Dowell and his wife, who worked in the kitchen making sandwiches, it introduced many Cambridge people to the delights of nut rissoles and vegetarian food. Now it is to close and Peppercorns delicatessen will open in the premises 88 06 09c

1989 Myttons restaurant and brasserie takes up most of the ground floor of the Pitt Club in Jesus Lane. A complete transformation has taken place behind the classical façade of the building which was originally built as a Roman bath house last century,. The elegant dining room provided a traditional atmosphere for substantial dining with a fully licensed bar for liquid refreshment. The brasserie offers economic lunches and dinners with most dishes under £5 89 02 28a

1989 "96" restaurant closed ¢CEN 7.4.89

1989 Blue Boar restaurant opens on site Blue Boar hotel ¢CEN 3.5.89

1989 The Dorothy was the social centre of Cambridge for many years, a place where town met gown and people enjoyed the regular afternoon dances. During the 50s its Blue Room became a major attraction for the young with rows of motor bikes and scooters lined up outside. Its oyster and fish restaurant opened in 1965 with an air-conditioning unit wafting away fishy odours and meals were cooked at the tables, under customer's noses Now the property's owner, Dillons Bookshop has leased part of the Sidney Street building to Festival Catering and the building has been reborn with a teashop, pub, restaurant and function room. 89 07 13

1989 Dorothy restaurant that reopened 12 weeks ago goes into receivership after refit debts – rebuilding costs over by 100%, to sell as going concern 89 09 29

1989 The Gardenia in Rose Crescent is a Mediterranean restaurant, run for the last 20 years by the Loizou family who have never lost their strong Cypriot identity. Mum Paraskevi prepares all Greek meat dishes such as shevtallia meatballs while Dad, Andreas, mans the tills. They were the first to introduce the kebab into Cambridge. But now they have decided to close and the restaurant is up for sale. 89 08 09a

1990 Michel's Brasserie closes, plan to reopen as a café bar. It opened six years ago by Michael Sardones – 90 01 03a

1990 Dorothy restaurant and bar closed ending bid to revive and modern it. Was put up for sale last autumn, one month after reopening, but failed. Cambridge Jazz Club will need new venue – 90 06 27a

Netherhall School computers, 1981

154.41

c.27.5 computers etc – started 2nd May 2011

1947 A "brain" that will be capable of completing 1,000 questions a minute is in course of construction in the University Mathematical Laboratory. Work on the "brain" has been going on for about 12 months. It is carried out by a team of six who are lead by Dr H.V. Wilkes, director of the laboratory, and wartime radar research "expert". Officially the brain is known as "Esdac" (electronic delay storage automatic calculator). At present one "memory unit" has been completed. It consists of 16 metal tubes full of mercury weighing about 200 pounds. Another has yet to be assembled and when finally completed the "brain" will consist of these and eight racks containing between 1,000 and 1,500 valves. Questions will be fed in on a punched tape and the answers delivered by teleprinter c47 10 02

1949 Computer history in Cambridge; memories of Prof Maurice Wilkes who ran the first-ever programme 1949 – feature – 90 07 25a, b

1962 A Cambridge scientist is building a new electronic computer between 10 and 100 times faster than any existing machine, capable of over 500 million basic decisions per second. Neil Wiseman, chief engineer at the University mathematical laboratory, is putting all this brain power into a six-inch cube. It may take two years to complete. The existing ESDAC II computer occupies space equivalent to a large living room and has so many valves it needs air conditioning to cool it. 62 03 27

1963 Cambridge firms may be able to hire the use of 'Titan', the University's new computer which is being installed at the Mathematical Laboratory in Corn Exchange Street. Their present computer has done work for 36 departments, even Archaeology have put it to use. The University was one of the pioneers and was using a computer as far back as 1949. There is one in the Engineering Department and two small ones were used by the Examinations Syndicate for processing marks. At present there are 500 computers being used in the country by the coal, car and gas industries, businessmen were told 63 08 08

1970 Ministry of Technology Computer Aided Design Centre, Madingley Road operating nine months; staff outnumber the firms who have found anything useful to design by computer – 70 02 04

1971 CCAT new computer will be used by hundreds of schoolchildren as part of their normal syllabus – 71 02 26a opens – 71 03 11a

1971 University to buy new £1.7m computer – IBM 370/165 to take over from Titan – 71 02 26c

1971 Pye Group to set up new computer bureau, Cambridge Data Processing – 71 04 16

1971 Cambridge Computer Services to be centre of major new computer services group – 71 07 07a

1971 Cambridge Microfilm Services a success story, set up two years ago – 71 09 13

1972 Two Cambridge University computers half a mile apart have been operationally linked by an infra-red beam - the first system of its kind to be set up in Europe. The computers involved are the massive new £1.7million machine just installed in the mathematics laboratory, and the smaller, older, instrument in the Department of Engineering. The link is established by a beam transmitter and receiver at the top of each building and an essential condition of operation is that no obstruction lies in the path of the beam c72 08 01

1973 A close-circuit funeral for an "old friend" will be televised at Cambridge University. A special eulogy will be delivered and he will be dismembered for research studies and sent to the scrap heap. The "body" will be the much-loved 10-year old Titan computer. It has been on light duties since the end of its 18-month phasing out link with his more powerful replacement £1.7million worth of I.B.M. 370/165. The 370's memory is being doubled in size & the main disc memory for holding all the files is now 1,000 million characters c73 10 01

1974 Cambridge students sitting university examinations next term will not be allowed to use electronic calculators. The Board said: "It is not that calculators are noisy or interfere with anyone else. It is just the question of inequality – they are expensive things and which some students can afford them, others cannot. We do not want to give the better-off students an advantage". Instead they are being told to stick to the more traditional aids like slide rules and log tables c74 02 04

1986 Chris Curry resigns from Acorn starts General Information Systems based at Croxton – 86 07 01c

1986 Torch Computers of Gt Shelford has developed a revolutionary Triple X computer using the Unix-based computing system with a revolutionary 'Opentop' facility that allows more than one page to be seen at a time. Around the edges of the screen are a number of symbols called 'icons'. Using a control known as a 'mouse' the user can direct a floating arrow and by clicking the 'mouse' twice the accounts package comes up on the screen. By then double-clicking the calculator icon it appears on top of the accounts. This is known as 'multi-tasking'. It means that for the first time one doesn't need programming knowledge to take advantage of the Unix system's benefits 86 07 07a

1987 The ink jet printer can be traced back to 1971 when Graeme Minto was leader in a project at Cambridge Consultants. In 1978 he formed Domino whose first product, the Unijet was used in numbering lottery ticket books and in the food packaging industry. In 1982 they moved from Milton to large new premises at Bar Hill, joined forces with American Technologies Inc and gained the Queen's Award for Technological achievement in 1985. 87 05 12a

1987 Procyon Research began at Cavendish when research students produced an interface for the BBC Computer; compiles programmes for industry – 87 12 29a

1988 Cambridge AppleCentre was officially opened by Schnorbits the dog and his well-known owner, comedian Bernie Winters in the presence of Directors from Apple Computers UK. It provides hardware and software on site at Clifton Court with a resident training consultant offering courses on the Apple Macintosh as well as a service department. The Apple is especially suitable for the busy executive with its friendly graphic interface and is suitable for updating company literature or starting a newsletter. They can be rented for special occasions such as exhibitions with a rental/conversion scheme for those who wish to evaluate it before buying. 88 10 28a

1989 Camfax is a new Cambridge company specialising in the supply of facsimile machines. The Harris/3M transmits a standard page of text in as little as ten seconds. As it uses the telephone line, the faster it transmits, the lower the communication costs. It has a no paper memory, retaining communications until more paper is loaded. The most popular model sells for £1,200 and can be connected to a car phone to be used in conjunction with cellular radio 89 02 28

1989 Acorn, the computer company which helped found the Cambridge Phenomenon, has bounded back into profitability after a worrying loss in 1987. They started getting into difficulties with the collapse of the home computer market in late 1984 and, apart from a recovery in 1986, have shown a loss ever since. But now the company, which employs around 230 people, is on course for expansion in its new role as a high-volume low-cost manufacturer of computers and work stations. 89 04 12

1989 Next Technology have launched Voyager, a super-computer which stores some 270 compact discs carrying micro-pictures of pages of books. It works like a jukebox and can 'play' more than one disc at a time. It is similar to the Domesday Project which allowed schoolchildren to retrieve information from a massive disk. If whole libraries were put on it then researchers could look-up and cross-reference items in seconds. Machines cost from £13-£21,000 and worldwide interest has been shown. 89 05 25b

1989 Cambridge is considered by many to be the computer capital of East Anglia. Now Evesham Micros has opened a new computer store in Glisson Road offering a wide range of micro-computer hardware, software and advice. They have computers from Amstrad, Olivetti, Epson and Atari with the latest IBM system arriving soon. Epson and Star printers together with modems from Mirrorcom, Amstrad and Pace are also stocked. Hard disks are put in operating condition so everything is ready by the time it gets to customers 89 10 25b & c

Robert Knights memories of a mail coach driver before WWI between West Wrating and Cambridge 72 01 14a

1885 Petty Cury post office erected [1.22]

1885 protest over use of University stamps [1.16]

1905 Morning letters are being delivered much earlier than formerly. The gradual growth of Cambridge suburbs had lengthened the postman's walks until it was almost impossible to get out the deliveries in the time prescribed. Now the number uniformed letter carriers has been increased from 98 to 110 with more men on each of the seven daily delivery rounds. The number of collections has also increased with six tricycle carriers appointed. 05 10 28b [1.26]

1907 Until recently a letter box was situated at the top of Abbey Road within a yard of a fire alarm. Both were painted red. Now its removal has led to curious incidents, to say nothing of vigorous language on those who have weathered the storms by night to utilise the post, only to find it removed. One young woman was seen minutely examining the alarm, saying she'd "never

seed a letter box without a hole before". When it was explained she expressed language which approximated to that of Billingsgate. 07 02 23a

1907 Post office thefts – 07 05 06aa & b

1907 Post Office telegraph messenger boys are subject to a short drill every morning; they learn discipline, obedience and punctuality and can become members of the Albert Institute with its facilities for further education and sport. They must leave the job when aged 16 and have previously become postmen. But now half the vacancies have to be reserved for ex-servicemen and the Cambridge Postmaster has a list of boys ready for jobs in the outside world. 07 09 10

1916 deliveries restricted to 2 per day [1.5]

1916 The Postmaster-General has decided that, except in the largest towns, the number of deliveries of letters per day is to be restricted to two. We are informed by Mr. A. Bell, the Cambridge Postmaster, that this would take effect in Cambridge as from Monday, May 1, when the number of deliveries will be reduced from three, as at present to two 16 04 19 CIPof

1917 The Mail Cart - On Wednesday evening last the mail cart, which has been running for about 20 years between Cambridge and Willingham, via Milton. Landbeach, Cottenham and Hampton, could be seen making its last journey. Arrangements have now been made for the Cottenham and Rampton mail in future to come from Cambridge to Oakington station by train. Mr. Albert Young, of Rampton, has been appointed to fetch the mail from Oakington in the morning and to carry it to Oakington in the evening, Owing to these alterations, the Cottenham letters will be delivered an hour later than usual. The mail in the evening will so out at 8.45 instead of 8 o'clock, necessitating the posting of letters an hour and a quarter earlier than usual. The mid-day delivery will remain as before. There will in future be no delivery or dispatch on Sundays. 17 03 07 CIPof

1920 Post Office war memorial, details – Ch 20 09 15c, d

1925 The stamp machine attached to the door of the General Post Office in Cambridge is such a boon that I hesitate to complain. But on no fewer than five occasions I have found the penny slot fail to act correctly. On the first occasion the machine delivered me two penny stamps for one copper. I was wondering what to do when another purchaser came along and slipped a penny in the slot without result, so I handed one over. The next time I received no stamp for my penny, and wiped that off as a loss. On the third occasion I got two stamps for the price of one, so cried "quits". For those who like a little speculation these stamp machines are ideal c25 03 30

1929 Cambridge Post office talk – CDN 19.6.1929

1929 The inhabitants of Houghton are up in arms because the postal authorities have removed their sub-post office, which has been there for more than a century, to the neighbouring village of Wyton. It is Post Office practice to give preference to ex-servicemen, but the Houghton office

was run by the widow of an ex-servicemen who had lost her breadwinner in the service of his country. It should be returned and telephone facilities installed. CDN 9.11.1929

1932 work starts on new post office [1.21]

1932 The Post Office says every effort will be made to deliver by Christmas day all parcels, packets and newspapers for distant places posted not later than the 22nd December and all letters and cards posted by 23rd December. The latest time of posting for letters and cards for local delivery and in towns within 30 miles radius will be 6pm on Christmas Eve. There will be one delivery of letters and parcels on Christmas Day. 32 12 16c

1933 A travelling posting-box has been started by the Post Office on the Eastern Counties' service which leaves Cottenham at 8.15pm. The letterbox is painted Post Office red and will be fixed on the front of the bus, giving a later posting time than is now the case. It will operate from Monday to Saturday and letters will be delivered in practically any part of England by the first post in the morning. 33 08 11

1933 Sir – needing a stamp for a letter I hied down to the G.P.O. feeling certain its automatic machines would duly deliver the goods. The nimble penny did function, but the halfpenny, though absorbed into the digestive machinery of the apparatus, obdurately refused to pass out the little bit of green paper. Obviously a serious crime as that of obtaining halfpennies under such circumstances was a matter for our every ready Borough Police. An officer detailed to investigate proceeded to test my story twice, with the result that the Revenue was again the richer, and he, alas, the poorer by the sum of one penny. 33 10 02

1934 The new Cambridge Post Office in St Andrew's Street was needed to meet ever-growing demand. People knew they could obtain wireless licences, motor licences and gun licences but not that they could get marriage licences as well. There was criticism that the stamps remained the same but it was not policy to make money out of philatelists by creating unnecessary issues and would mean altering stamp machines. Now deliveries would improve and the 26,000 letters a week delivered by second post will in future secure first post delivery. 34 05 29 & 30 [1.3]

1935 The new Post Office sorting department at Petersfield has a vast and spacious garage complete with repair and painting shops for the upkeep of a fleet of vans. Altogether 50 vehicles are sent out and should anything go wrong a staff of mechanics can tackle the job at once. Even painting and complete overhauling is done. The various sections in the sorting department now have plenty of room with the latest equipment including two electrical stamping machines which deal with the letters at an incredible speed. 35 09 10a

1936 Cambridge Post Office placed new pens on their counters for a six-month trial. But at the end of a month they had all disappeared. A special locking device held the stainless steel nibs in position, but this did not deter the members of the public who took a fancy to them, as both pen and holder were taken away! Many inquiries have been made with regard to the type of nib used and where they could be purchased (possibly following unsuccessful attempts to abstract them from the pen holders). Now a special red pen holder bearing the letters 'G.P.O.' is being issued for use at public counters of head post offices. But these are not intended for the purposes of ornamenting writing desks in houses and business offices. 36 02 08b & c

1947 First stamp-label issuing machine installed at Cambridge Post Office – 47 12 13

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 At Cambridge about 250 postmen are employed for sorting and delivery work. They arrive at 5am, sort their walks until seven and then leave for the first delivery which has to be completed by 9.30. After breakfast they sort again until 11 when they start the second delivery. This finishes two hours later, leaving the postman the rest of the day free. When letters are posted to overseas destinations with insufficient stamps the Post Office makes up the correct amount, then notifies the sender requesting him to return stamps to cover the cost. This service is greatly appreciated and few fail to comply. 60 05 27

1960 The postman in his navy-blue uniform riding his red-painted bicycle carrying a bag containing a variety of messages, happy and sad, is a permanent fixture of everyday life. Doug Carter is responsible for the city centre round. The first despatch takes him from 6.45 to 9.15, when he returns to the Sorting Office for breakfast. He then sorts for the second round which has to be completed before 1pm. People confide in him, they make a friend of him and in spite of appalling weather conditions and the irksome irregular hours, he feels he is providing a useful service. 60 11 18b

1962 demolition of PO sorting depot, Mill Road [2.9,3.2]

1962 to have Emergency Postal Centre set up by Peoples League for Defence of Freedom [3.1]

It will be replaced in a slightly different position and the lamps will also move back a bit. At the moment the workmen are preparing to re-lay flagstones and cobbles, which are badly worn. The side walls are also to be moved back about four feet on each side. 62 06 30

1963 The G.P.O.'s experiment to improve the parcel post service started with five new lorries operating from the parcels centre in Rosemary Lane. The present system is slow and costly. The new method will operate partly by rail and partly by road with parcels moved in bulk consignment. They hope it will reduce costs, speed the service and improve reliability. 63 07 05

1964 The biggest pillar box in England, in Sidney Street, may be moved to relieve traffic congestion – 64 02 04

1964 A giant post box has been moved from its position in Sidney Street to a spot a few yards away. It has been there for 30 years. The box is one of the largest in the provinces 64 06 27

1964 Sidney Street post box originally erected as only air mail box in Cambridge, 2 slots one marked 'Colonial Airmail', 'Other Countries' & painted dark blue [3.3]

1968 2-tier post introduced, 4d & 5d [3.5]

1968 postal codes start October [3.6]

1971 Donald Hofford offers emergency postal service during 7 week strike 71 01 27, 27a, 71 01 30

1971 Regent Street post office modernised 71 03 06a

1971 Arbury Estate gets new post office, Cameron Road – 71 09 14

1971 First automatic mail sorting machines delivered to Post Office in Mill Road – 71 10 10

1972 mechanised sorting introduced May [3.10]

1972 Twenty-five thousand second class letters are being deliberately held up every night at the Post office's mechanised sorting centre in Mill Road, Cambridge. The letters are sorted into bundles by the 2pm to 10pm shift ready for loading on to trains from Cambridge. But they do not leave the centre until the next morning after the rest of the second class post has been sorted. Assistant Post-master for Cambridge, Mr Reginald Starkey said "It is a second class standard of service. They have paid only 2½ pence" Ironically it is only the second class post which goes through the £500,000 worth of equipment installed at the Mill Road office five months ago. c72 10 30

1981 Cambridge's unique 100-year-old spiky pillar box has been moved from the corner of Newmarket Road and Cheddar's Lane after local firms protested that its seven-inch aperture was too small for modern-day packages. It was built about 1880 and does not have the royal cipher or the words 'Post Office' on it. But nobody knows why it has spikes on the top. Some say it was to stop people climbing over the gas works wall, others that it was to frighten away a troublesome swan that used to perch on the top or provide an uncomfortable landing for a hapless German parachutist. 81 05 14a

1983 "local post office is endangered species", King St closes after 85 years [3.11-12]

1983 Hundreds of Cambridge residents have lost their long battle to save the sub-post office in King Street from closure. Despite massive protests the Head Postmaster has decided it must shut when the owners retire. Now the council may consider buying the building in the hope they can keep it open. Mr & Mrs Mansfield have given a first class personal service for 30 years which would be difficult to match even if the post office were to remain. 83 07 13 p7

1983 Dozens of Cambridge residents gathered outside King Street Post Office to protest against its closure. It was the last day of business for the owners, Tom and Ivy Mansfield who are retiring after 30 happy years. The decision to close was taken despite vigorous opposition from the city council. "They haven't given a thought to the inconvenience it will cause people", say protestors, but the Head Postmaster says there are too many post offices in Cambridge. 83 08 20 p3 pic31768399

1984 Campaigners have lost their battle to save two Cambridge post offices in Arbury Road and Gywidr Street. They will close within a few months, but the threatened Richmond Road sub post office will remain open in view of the weight of public opinion. Coun Andrew Duff, one of the Liberal members fighting to keep the Richmond Road office going says he is delighted at the change of heart 84 09 12 [3.13]

1986 new mechanised letter sorting office Clifton Rd agreed [3.14]

1987 The last post has sounded for the most painted pillar box in Cambridge. Post office chiefs have removed the box from Trinity Lane, angry at the psychedelic treatment a phantom artist has been giving it with increasing frequency. Last month the prank painter left it in pink, white and maroon stripes. Some yellow ducks followed soon after. Markham Towler, a member of the Letterbox Study Group, says the pillar box was of a rare type and was one of the city's oldest, being installed before 1887. 87 05 14

1988 new PO sorting office to cope growing mail business, sort all outgoing mail, growing at 12% ¢CEN 17.6.88

1988 The very latest, sophisticated machinery is being installed in the Post Office's new sorting office in Clifton Road. Mill Road became a Mechanised Letter Office in 1972 but its technology is now in need of replacement. Conditions for the 650 staff are cramped and noisy. Now high-speed sorting machines will hold 16,000 items an hour and Mill Road will be refurbished to act as delivery centre for mail coming into Cambridge. 88 06 23a

1989 Post Office to open mechanised letter office, Clifton Road - housed there since 1988 ¢CEN 11.3.89

1989 The new £5.5 million mechanised letter office in Clifton Road was built to cope with the area's rapidly increasing volumes of mail. Letters are handled by some of the latest sorting technology including machines which operate at a rate of 25,000 an hour and has scope for expansion so it can continue to grow with the city. It was formally opened by TV personality Anne Gregg, presenter of "Holiday '89". Later she waved off a special train to celebrate the 150th anniversary of the travelling post office. 89 03 15

1892 National Telephone Company institutes phone service [2.2]

1896 telephone trunk line between Cambridge & London opened [1.18]

1898 Council forbid erection telephone wires across Christ’s Pieces [2.4]

1899 The telegraph service in Cambridge is insufficient as the Telegraph office is closed at 10 o'clock. Only a few years ago it kept open until eleven. In villages whose residents seldom need to send a telegram at night the outlay would not be justified but as far as Cambridge is concerned an all night service would be very much appreciated. The cost would be small in comparison to the convenience afforded. When it is borne in mind that the university has ties with all part of the world, can it be doubted that it is very often a matter of great inconvenience that it is impossible to send a message by telegram, between 10 at night and eight in the morning? c1899 01 21

1900 The snowstorm at Cambridge had very serious effects upon the telephone service in consequence of the wires being exposed. On Saturday no less than 100 subscribers of the local company were affected and although the company has brought in assistance from Norwich to hurry the repairs it must be two or three days before the complete system is restored. The company is endeavouring to arrange for permission to lay the whole of the wires underground so the general public will be saved a repetition of the present serious inconvenience c00 02 03

1901 Councillors considered establishing a municipal telephone system for Cambridge. All the firemen could be wired and every office connected with the Corporation. The first system had opened in Tunbridge Wells where the charge was £5.17.6 to cover an unlimited number of calls. The best instruments were used and each subscriber had a wire to himself, so that he did not hear any other people's secrets and they did not hear his. The existing company had dropped their charges from £10 to £4 to be under the Corporation; if it went down to £4 in Cambridge the ratepayers would get the benefit CDN 1901 08 15

1902 Cambridge councillors considered a report on a scheme for the establishment of a municipal telephonic system. The probable cost for a system with 500 subscribers would be £10,000. This was a small sum when the council spent nearly double that amount on certain luxuries. £12,000 would cover the cost of putting down facilities for another 500 lines. If the system were adopted subscribers would be able to get on to the trunk line CDN 1902 05 15

1902 The Cambridge Express has joined us in sounding a note of warning with regard to the proposed establishment of a municipal telephone system for Cambridge. From a financial point of view the experiment would be decidedly risky. Moreover no one can reasonably find fault with the efficiency of the existing telephone service, although everyone would like to see a reduction in the charges. Even in Tunbridge Wells where municipalisation was taken up with peculiar enthusiasm, they have done little than to pay working expenses. CDN 1902 08 16

1903 The Cambridge Telephone Committee reported that the mass of existing telephone subscribers lie grouped in the centre; the number of existing lines belonging to the National Telephone Company does not exceed 450 in Cambridge and 20 in Shelford. They would provide for 600 lines with poles for 600 more. Wires would be put underground and out of sight. The Council should apply for a licence to work a telephone system of their own with modern instruments c03 06 01

1903 Sir – I was surprised to read that Cambridge Town Council is to apply for a licence to establish a municipal telephone. Any scheme of municipal trading which involves large public expenditure should be based on the fullest knowledge. The council has no local experience and are certain to have all the competition of a powerful company, admirably managed and not too scrupulous. They have asked advice from a man whose business is to sell schemes and to be the engineer to carry them out; of course he said it would work. Will a ferret suck a rabbit? – G.A. Matthew c03 06 09

1903 An instance of the usefulness of the telephone as an aid to the detection of crime was demonstrated at the Cambridge Police Court. Detective Marsh was informed of the theft of a bicycle from Mr Edwards of Emmanuel Street and given the description of the suspect. He

telephoned to Bishop Stortford and Herts police arrested the man near Buntingford. The prisoner told the court "If I had had another hour I should have been in London". c03 10 20

1904 As I passed through the huge swing doors, the crisp tinkling of electric bells, mingled with a loud confused chatter of female voices, smote on my ear. I was standing for the first time in a Telephone Exchange. I passed through another door into a long low room along the sides of which ran what appeared at first sight to be a huge 'Upright Grand' piano and seated in front of it a long row of girls stretching into an almost dim perspective. Each girl has 200 subscribers to attend to and immediately one lifts his receiver a lamp emits a golden glow and the girl puts a small brass plug in a hole, pushes a lever forward and speaks to him. She then puts another plug in the requested number. CDN c 20.1.1904

1904 A Warkworth Terrace man told Cambridge magistrates that he believed his neighbours had some artificial means of making their voices heard by him alone: "They use talking machines and electric wires contrived to convey sound to a certain point only. I have seen what look like an electric telegraph wire in their garden beside a system of beams, boards and ropes which I conclude to be part of some telephoning system. Nearby in Melbourn Place there lives a telegraph clerk who searches my room with an exceedingly strong electric searchlight and conveys a message by Marconi's wireless telegraphy to let them know the right time to call out and wake me" CDN c 21.1.1904

1904 Some explanation is due to the people who surrounded our offices last night to secure copies of our special edition which we promised for half-past-nine but was not published until an hour later. We had ordered from the Press Association a series of private wires to be dispatched as the Prime Minister's speech was being delivered. But such was the wretched state of the telegraphic arrangements that hardly one of the messages reached Cambridge in under an hour. It is as well that the Post Office is a Government department for any private trader who was so lamentably incompetent would soon find himself in the Bankruptcy Court. 1904 11 14

1905 A CDN reporter had occasion to send a telegraph message from the Swaffham Prior post office to this paper; he then began to return to Cambridge by cycle; after a leisurely ride he found had beaten the wire. This was an annoyance, bearing in mind the reputed speed of electricity. It appears the message had first to be despatched to Ely where it had to wait before being transmitted to London, from which it was retransmitted to Cambridge. It arrived one-and-a-half hours after being sent! 05 03 17

1905 Cambridge councillors refused to allow the Post Office to lay an underground cable along Emmanuel Road to complete a telegraphic communication with Ely if telephone wires belonging to the National Telephone Company were also laid. Now the Postmaster will have to exercise statutory powers to complete the work. There is already direct communication with Ipswich, Norwich and Peterborough; recently a private wire giving the state of play in the Cambs v Norfolk match was handed in at Norwich Post Office and in the offices of the C.D.N. eight minutes later. 05 08 29a & b

1905 The differences between the Cambridge Town Council and the National Telephone Company have resulted in a grave situation. A writ ordering the removal of poles from Corporation property has been issued which, if obeyed, would disconnect the whole of Fitzroy Street and Newmarket Road from the rest of the system. The crux of the matter is the Council's decision not to allow the Company to lay underground wires. But this would give a more efficient service and they have offered to pay the Council to do the work and give them half-a-crown per subscriber. 05 09 23 & a

1905 Cambridge council refuses to allow telephone company to lay underground cables & they unable to erect poles; want wayleave payment - 05 09 02

1905 Telegrams between Ely and Cambridge are transmitted via London and much time is lost. A Cambridge physician received a wire from Ely requesting his immediate presence. He at once

despatched a telegram saying he would travel by the next train, hailed a cab and drove to the station. At Ely he had to walk a mile to the house he was visiting – and arrived before the telegram! Considering the intimate connection that exists between the two towns, particularly in the fruit season, this is most undesirable. 05 12 22a

1905 The telephone trouble – charge for poles – 05 12 15

1907 Sir – when the National Telephone Company started its ‘Local Message Rate’ in Cambridge the charge was 20 shillings paid in advance for 240 calls with any balance carried forward to next year. After a short time the rate was raised to 30 shillings for 360 calls, now it is to be 50 shillings for 600 calls, but there is no rebate for unused calls. The company says that the use made by some subscribers is too small, but they are seeking to enlarge their profits before being taken over by the Post Office – J.C. Simpson 07 02 09

1907 The Amalgamated Radio-Telegraphy Company, who own the experimental wireless telegraph stations at Cambridge and Oxford, are converting their appliances to the wireless telephone system of Mr Poulsen, the Danish inventor. It is believed that when the arrangements are completed the voice of a person in Cambridge will be audible at Oxford sixty miles away 07 07 20a

1907 The telephone system has become such an important factor in daily life that the numbers of new subscribers are matters of moment to every telephone user. In order to keep our readers up to date we will publish monthly lists of alterations and additions which include Cambridge Automobile Co, Illsley and Son, Bull Hotel Stables & Sirdah Hotel 07 08 27

1907 The public telephone, placed at a railway station, in a shop or hotel is one of the cheapest and most useful of modern conveniences. The telephoned message is far quicker than the telegram and there are over 500,000 telephones in the country. The National Telephone Company has already established over 7,800 ‘call offices’ so one is seldom out of sight of one of the familiar public telephone signs. 07 10 19

1908 There has been an Alpine fever amongst undergraduates, finding a vent in climbing trees along the Backs. The wireless telegraphy station on the Huntingdon Road has been the site of the latest exploit. This is a pole over 200 feet in height which receives messages from Cumnor Hill near Oxford. Two undergraduates merrily commenced the ascent by means of the metal spikes driven in at convenient intervals and managed to reach the top. But the return voyage was not so easily accomplished and they reached terra firma with a distinct sigh of relief. It is a matter for common wonder what object will next receive the attention of this strange species. CWN 08 06 05 p5 [2.3]

1908 telephone cables being laid, National Telephone Company - -8 03 23a

1909 “National Telephone Co opened exchange Alexandra St” [4.2]

1910 The Crippen capture has caused Cambridge citizens to pay far more respect to the wireless telegraphy pole standing near the Huntingdon Road. More interest has been aroused by the fact that Crippen and Le Neve’s whereabouts were noted by wireless than has been manifested since the invention was first made. 10 08 19c

1910 The National Telephone Company sought to recover rent for a telephone installed at the premises of Herbert Quinsee cycle and motor engineer, East Road. Quinsee said he’d wanted to be cut off immediately it was installed in 1909. It had been fixed in his workshop, whereas he’d asked for it in the showroom. The company said they would put on extra bells, which he would have to pay for. He could not take the apparatus down because it was not his property but as it was not removed people rang him up. 10 10 28e

1911 Immediately facing the counter at Cambridge Post Office is a ‘penny in the slot’ telephone call-box, the property of the National Telephone Company. On Saturday it was

discovered that the box containing the pennies had been forced open and emptied of just over eight shillings. The culprit must have been a very cool hand for there were clerks at work opposite as well as members of the public continually passing in and out. 11 03 17g

1912 National Telephone Company taken over by state [2.2,2.5]

1912 Telephonic communication between the police-station and certain police-officers' houses was discussed. Some police houses were simply hired in an ordinary manner and they might have to move the telephone when a new policeman came to a village and took a different house to his predecessor. At Shelford the call office was only about 20 yards from the constable's house, but you couldn't call him. The Chief Constable said he didn't want a constable sitting in the house waiting to be called. His business is to be outside, looking after the property in the village. 12 01 19

1912 Sir – Cambridge Corporation have instructed all persons in the out-lying parts to telephone the Central Fire Station in case of fire. We in Chesterton are in a very awkward position. We have no telephones for public use. The nearest fire alarm post is at Quayside and one would have to walk, run or cycle there, and then fumble about in a very poor light trying to find out how to work the apparatus. We need a telephone call office instead. A doctor might be sent for, goods ordered from various tradesmen or one might even ring up his best girl – Philip Clare 12 04 19f

1917 Wireless telegraph mast Huntingdon Road damaged by high winds, old sailor climbed to top, 214 ft to repair – 17 07 25a

1920 Telephone Kiosks. — The Borough Council will tomorrow be asked to approve of the erection of telephone kiosks under the shelter at Hyde Park Corner, and near Sidgwick Avenue (or the side of Queens' Road). Suggested sites on the Newmarket Road (near Abbey Road) and on the public footpath on Mill Road (near Catharine Street) have failed, to secure the approval of the Paving, etc., Committee, and in the former case the Borough Surveyor has been asked to select a suitable position in Sun Street, whilst in the latter the Post Office authorities have been requested to obtain another site on private property. The attention of the Post Office authorities is to be drawn to the need of a kiosk in the Cambridge Without District and a request made for the erection of one at the junction of Cherry Hinton 20 05 12 CIPof

1920 Telephone for deaf demonstrated - CDN 20 06 18

1924 Nowadays telephones are accepted as belonging to the general order of thing that are, and even the proverbial small boy ceases to be curious. Businessmen alternately regard the telephone was an infernal nuisance or an indispensable instrument. Telephones were curiosities in 1878 when an undergraduate at Pembroke college fixed up two between his digs in St Andrew's street and a little summerhouse at the bottom of the garden. These were absolutely the first seen in Cambridge c24 09 27

1927 With the extension of the Trans-Atlantic telephone service it was appropriate that the first "call" from Cambridge should be to one of the leading American universities. A room at Sidney Sussex College had been fitted up with plenty of receivers and the Vice Chancellor of Cambridge University and the President of Harvard exchanged greeting. Sir Ernest Rutherford then spoke to the President; he said: "We have snow on the ground in Cambridge. Have you also snow". "No I wish we had", was the reply. All were surprised at the clearness of the reception although occasionally it was difficult to distinguish a word owing to the loud volume of sound. Nevertheless effective conversation was possible, there being an entire absence of atmospherics CDN c23.1.1927 [1.17]

1928 The first paid Marconigram was transmitted on June 3rd, 30 years ago. It was sent by Lord Kelvin who was visiting Senatore Marconi's experimental wireless station on the Isle of Wight. In order to illustrate his belief in its commercial future, Lord Kelvin insisted upon paying one shilling for a wireless telegram to be sent to Sir George Stokes at Lensfield Cottage, Union Road, Cambridge. c28 06 06

1928 Members of the Cambridge public who have been mystified by the appearance of wooden huts in various places will be interested to learn they are police telephone boxes. They will be small sub-police stations. Each will contain a telephone in a cupboard which the public can use to get in touch with the Central Police Station, but not for general calls. The box itself will only be accessible to the police. Thirteen are to be

1929 Cambridge Post office talk – CDN 19.6.1929

1930 Cambridge people can now send their Christmas greetings by picture telegraphy – at a price. They must post their picture telegram direct to the Central Telegraph Office at a cost of £1 for the minimum size picture of 15 square inches up to 70 square inches for which the charge is £4 13s 6d. 30 12 20c

1934 new equipment connects trunk calls in 120 seconds instead of ③hour [1.7]

1934 The opening of the new exchange at Trumpington is the first step towards the great change-over to automatic telephones. Engineers dashed to remove the wooden plugs which set the system working and waited for the first call. Soon a line crackled and a bulb lit up. But it was a false alarm. The second caller had forgotten the changeover and, not getting a verbal answer, hung up. Twice more this happened but after eleven minutes a call came through from the Trumpington A.A. box and the new apparatus was officially launched. 34 08 28

1935 automatic telephone exchange opens [1.9,1.1,1.2]

1935 “auto-dial machine” available [1.10]

1935 Post office telephone engineers have been installing the switches and relays necessary to complete the new Cambridge automatic exchange. It the most up-to-date in the country and incorporates new features. Soon subscribers will hear what is known as the ‘ringing’ tone -‘burr-butt-burr-burr’. If the number is engaged another tone – ‘buzz-buzz-buzz-buzz’ will be heard while a continuous high-pitch sound means it is unobtainable. Those uncertain of what these mean can dial ‘91’ for a demonstration 35 04 06 & b

1936 The King's Coronation may be televised as will next year's boat race, Post Office engineers were told. “How are we going to do that? Some think that in 10 years time people who have got the telephone service will want to use those wires for a re-diffusion service for broadcasts. It means that every wire has got to carry a much greater frequency and you will have to re-lay the undergrounds. I cannot see the end of these expansions. None of us can”, the Superintending Engineer asked. 36 03 23 & a

1946 Post Office launches '999' scheme – instead of '0' for calls to fire, police and ambulance – 46 02 12

1948 D.E.Knapman, telephone manager of the Cambridge area told Rotarians that there were 4,000 people in the area waiting for telephones. He said there are two separate wires running from the exchange right back to your house which are yours and only yours. It would be impossible to run out a separate pair of wires every time somebody asked for a telephone. They try and forecast 30 years ahead the number of subscribers they will get and then lay cable under the ground. In Sidney Street are seven or eight thousand wires serving Chesterton and the Milton Road districts c48 07 30

1951 Some 80 Post Office engineers in the Cambridge Telephone area – stretching from North London to the Wash - began work today on converting 1,700 coin boxes on telephones to take 3d instead of 2d for local calls. The increased charge came into operation today when the additional charge for trunk or toll calls was also increased. Some 300 boxes are being converted in Cambridge and work will be completed in a the next few days c51 10 04 [1.15]

1951 Please give your phone a rest on Christmas Day unless a call is really essential – and allow many Cambridge Exchange operators to have their Christmas dinners at home in peace. The Telephone Manager, Mr W.E. Dance, has made special staffing arrangements which means there will be 30 operators at the switchboard. On other days there are 130 day and 80 night operators at the controls. The normal daily number of calls dealt with is about 11,000 (quite apart from dialled calls). For those who still intend to telephone on Christmas day he offers this gentle reminder – "Sorry but we can give you no concession charges between 6 pm and 10.30 pm on those days" c51 12 24

1953 A decision to build a new £100,000 telephone exchange in Cambridge was revealed at the annual Christmas party of the male telephonists of Cambridge G.P.O. It will be quite a big new building, in Trumpington Road. Mr G.S. Cumming, the Chief Night Supervisor, said that the night telephonist's job was very important and evening calls provide the greatest degree of happiness that the telephone service gives. During the night most of the calls were vitally important. His staff were really wonderful and their wives had a lot to do with it – they sent the men to work happy. c53 01 24

1955 The G.P.O. has connected over 6,300 new telephones in the Cambridge area during the past year. Although this is a record achievement the demand for new connections has also exceeded all previous figures. Seven new major exchanges and 30 minor building extensions are

planned. During the past year the calls handled each day by the operators has approached half a million 55 12 12b-c

1956 calls up from 3d to 4d [.24]

1956 A new telephone exchange to be built in St Tibb's Row will one day house the equipment for Cambridge's link-up with the rest of the country on a national trunk dialling system. Old cottages used for storage, small office units and workshops facing on to Post Office Terrace will be demolished for an extension of the present telephone exchange and in early 1961 engineers will install equipment to meet the needs of 3,000 new subscribers. In 1935 there were 2,700 telephone subscribers on the Cambridge exchange; now this has trebled to 7,700 and will reach 10,000 by 1960. 56 11 02d & e

1956 New equipment developed by Pye of Cambridge means that six times as many people can use radio communications and foreshadows immense developments. Telephones for the use of the travelling public in aeroplanes, railways and road services are now a possibility and a radio-telephone could become a standard fitting in all road vehicles, C.O. Stanley predicted. 56 12 01b

1956 If you have seen a street fight and want to report it or are a motorist lost in Cambridge and want to know your way, it is simple. You go to the nearest Police Pillar, open the door and pick up the telephone inside. At once you are in touch with the information room at police headquarters. The Mayor made the first 'emergency' call from the Police Pillar in Drummer Street and within minutes a sleek black saloon containing two stalwart policemen drew up. 56 12 04

1957 Elsie Cousins of Histon works as a switchboard operator at the Guildhall. She really enjoys her job with hundreds of calls daily. With 94 telephone extensions and 13 exchange lines she is pretty busy. She can remember over 100 telephone numbers including those of the homes and offices of most councillors. She cannot remember when last a caller was difficult. Many ask her questions like 'Where can I get married' or want directions to the colleges. 57 02 01

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 'Telex' is the system businesses use for sending printed messages to one another – a kind of private telegraph service by which the operating of a typewriter keyboard at one end produces a typed impression on a roll of paper at the other. It is used by 40 local subscribers including Cambridge police, Pye, Fisons, Corrugated Cases at Histon, Herbert Robinson and the American Air Force. Now it has been converted to automatic working so by a simple dialling action followed by some work on the keyboard a business in Cambridge can send a typed message to an associate in Glasgow 60 11 30

1962 new telephone exchange opened, Long Road [1.25]

1962 New Post Office trunk telephone exchange planned – feature – 62 06 11

1965 New Cambridge Automatic Trunk Switching centre in Long Road opened. Subscriber trunk dialling provides a better trunk service 65 03 26b [4.1]

1966 Pye pocket radio-telephone exhibited – 66 09 07

1972 Alexandra St exchange demolition [4.2]

1974 The £2 ½ million extension to the Cambridge trunk telephone exchange in Long Road was declared open. It has more than doubled the size of the original building which was opened in

1965. The ceremony also celebrated the recent completion of STD facilities. Cambridge is the first area in the Eastern region to have 100% STD facilities. By 1976 Cambridge people should be able to telephone direct to North America and most of Europe, covering 65% of the world's telephones c75 06 22 [4.3]

1976 direct-dialling to USA opens [4.4]

1980 International telephone bureau Lion Yard opens [4.5]

1980 1st new blue payphones [4.6]

1980 An entirely new kind of telephone has been developed by Patcentre International of Melbourn. It uses a high-frequency radio link which would 'beam up' to a microwave receiver installed on an ordinary telephone poles or high buildings. A user wanting to make a call would simply stand under one, dial and speak. The cost of his call would automatically be added to his bill. The company think it has a real future but might taken time to get accepted and production is years into the future. 80 04 21

1981 Cambridge is one of the centres for a new electronic mail network launched by the Post Office. The pioneer Intelpost service means than information can be delivered in hours in a replica of its original form. Drawings and hand-written matter can be transmitted to 17 other post offices The service is confidential and operating staff who see documents are under legal obligations not to reveal their contents. The rate is £2 for the first page and is backed up by a speedy hand-delivery system. which costs £2.50. 81 02 05a

1981 Pye Business Communications is marketing a revolutionary office intercom system, the M100S, which, literally, speaks for itself. A voice unit will verbally tell a caller if a particular extension is in a meeting or on holiday. It can also take a video screen which will flash up information such as a user transferring to another extension or an absence or holiday list. All the information is put into a microcomputer exchange by the keys or dials of the intercom and telephones 81 04 01a

1982 The 670 telephone subscribers at Arrington have become part of a significant step in providing a more reliable telephone network in Britain. For their exchange and the one in Cambridge, both System X, have been directly interconnected – the first such pairing by digital means. Arrington customers will notice faster dialling on the computer-controlled electronic exchange of the future 82 01 28

1983 No-one is likely to support a local post office out of charity. Business has been falling off in recent years, not helped by Government encouragement to pay many social security benefits monthly instead of weekly and to pay direct into a bank account. Some sub-postmasters have given up because their income has dropped by £1,000 a year but so far somebody else has been persuaded to take on the business. Now a 'rationalisation' programme is being carried out. First to be hit is the King Street post office which is likely to close, just as the street has a new lease of life with new shops and flats 83 06 09 p11

1984 Cleaners of telephone kiosks have defended their work in keeping them spick and span. One man cleans 50 kiosks a day, washing the inside with disinfectant, cleaning the handsets, wiping the parcel shelf and light fittings. He also has to sweep up cigarette ends, apple cores, sweet papers and other bits. It can take a gallon of disinfectant to clean up after it has been used as a lavatory. On one occasion someone tried to commit suicide by slashing his wrists on the glass panel and the cleaners had to mop up the blood. Kiosks are also a target for vandals with every pane of glass broken and even the door missing. 84 02 03 p25

1984 A telephone in one's car must represent one-upmanship. Pye Telecom has just introduced its new radiophone. Electricians are using them, so are plumbers. Not only is it a boon, it is also

the most infuriating device ever invented by man. It costs around £2,350 to buy and a further £100 to have it fitted. Then there is a maintenance contract and British Telecom fees of £105 a quarter. For this it is theoretically possible to send and receive ordinary telephone calls to and from your car. In practice they are patchy in the Cambridge area 84 05 15 p16

1985 1st cellnet call [4.8]

1985 Cambridge University's proposed new telephone system has met with an angry response from dons. The scheme was 'buying a racehorse to harness a milk float' and members in scientific departments had already suffered enough with sophisticated equipment that became obsolete in five years. A central switchboard is no substitute for the personal service offered by receptionists in individual departments who had detailed knowledge of staff habits. Departments also object to having to collect the cost of private calls rather than just logging them through the local operator. 85 03 21a

1986 system X, optical fibre in operation (local version tested 1982) [4.7]

1986 The traditional job of a telephone operator, to connect calls, has virtually disappeared now people can dial most numbers direct with STD. They take 999 calls, intercept calls when numbers have changed and deal with faults. Directory Enquiries is one of the busiest sides of the work. This is easier now they use screens to look up the numbers on microfilm instead of going through 'phone books. They are allowed about a minute a call so if an inquiry takes a long time, others may pile up. Calls are taken in sequence: if a caller hangs up and dials again they go to the back of the queue. 86 09 05a

1987 What could be the oldest phone box in the county has gone on sale in Cambridge. The wooden box with leaded windows has been at the Cambridge & County Bowling Club for more than 50 years. But time has taken its toll and the phone has been moved inside the pavilion. The kiosk, which dates back to the 1930s, is on sale for £50 to anyone who could use a strange-looking shed or has a penchant for the past. (It was bought by a Gt Shelford newsagent who planned to restore it as a garden hut for his children.) 87 01 10 & 13b

1987 Melbourn-based PA Technology is behind the launch of a pioneering public phone service. ZonePhones are second-generation cordless telephones designed for use in the home, office or street. Owners of the new equipment, which will retail for about £250, can use base stations at distances of more than 200 yards. Its operation is entirely digital with speech transmitted over British Telecom's system like an ordinary call. In time mobile telephones and mobile data terminals will become as common as the ordinary telephone is today, they predict 87 11 30

1989 Camfax is a new Cambridge company specialising in the supply of facsimile machines. The Harris/3M transmits a standard page of text in as little as ten seconds. As it uses the telephone line, the faster it transmits, the lower the communication costs. It has a no paper memory, retaining communications until more paper is loaded. The most popular model sells for £1,200 and can be connected to a car phone to be used in conjunction with cellular radio 89 02 28

1990 Rabbit, the new cordless phone system based in Cambridge is to be launched in September. Based at Westbrook Centre. To install numerous base stations – 90 05 02

1896 Rutherford transmits first radio signal from Cavendish laboratory to Madingley road observatory [1.15]

1913 Cambridgeshire has been chosen for a series of experiments with the new patent wireless telegraphy apparatus invented by Senor Marconi, which can be fitted on four pack horses and erected in six minutes. The first experiment was made at Saffron Walden when the new 'Pack Station' consisting of a small petrol motor, transmitter and receiver and 30ft high aerial mast was erected on the common and wireless messages were received from Chelmsford. Next day it was erected at Somersham where experiments were continued. It will be moved across Cambridgeshire 13 02 28 p8 CIP

1921 Pye Ltd changed to radio 1921 when lapse in demand for instruments; 210 ft aerial mast put up at start war to help develop defence systems & once used very low power experimental tv programmes [446.17.1]

1922 broadcasting in public sense starts, Pye radios sell well [1.15]

1922 Cambridge Daily News start series of articles instructing in use of radio receiver [2.11]

1922 Wireless amateurs who are not owner-occupiers are discovering that landlords object to the putting up of aerials. Radio enthusiasts will probably do better to wait until it becomes certain

on what lines the broadcasting hobby will be developed and perfected. It is not making such rapid progress as people expected and those who wait a little will probably save money. By all accounts it will not be necessary to have aerials at all. Any ordinary electric light installations will provide all that is necessary for an efficient wireless aerial. It there is neither electric light or bells, gas pipes can be used, or failing this a wire garden fence, or it may be said nothing more than a pair of knitting needles will be essential. All this remains to be proved and just as it took a long while to perfect the gramophone so we must expect it to be with wireless developments c22 09 19

1922 The growth of wireless since its first invention is truly wonderful, and one cannot fail to be impressed with the way in which it has been simplified. The present arrangements for "broadcasting" have resulted in the setting up of many private installations in Cambridge and some of the finest "sets" are being produced at Messrs G.H. Pye's works in Cam-road. In 1921 this firm experienced a very slack time, and in order to keep their workers employed, they commenced experiments in wireless. They are now producing as fast as they can simplified receiving sets of two to five valves c22 11 20

1922 The Cambridge & District Wireless Society had a "full house" at their demonstration on broadcasting. Mr T. Robinson, manager of Pye's Scientific Instrument Co. had very kindly consented to demonstrate their latest broadcast receiver of five valves attached to which was a Magnavox loud-speaking telephone. Mr Robinson tuned up for the London broadcasting station and amongst the items heard were Mr Vivian Foster, known to Cambridge theatre-goers as the "vicar of mirth" who entertained the audience by his witty sayings. During the evening the Birmingham and Manchester broadcasting stations were also received. The latest news, billiard scores, market reports and latest weather report were items among a very varied programme c22 12 15

1923 Soon after seven o'clock on Sunday evening passers-by in the vicinity of Newmarket Road were somewhat surprised by the appearance of a saloon car carrying a wildness outfit. The aerial was comparatively large, and was suspended from two poles at either end of the roof. The sight was sufficiently rare to cause much curiosity and comment. A number of new inventions have been referred to in our wireless articles and it is easy to foresee that in a few years, far from being a novelty, no car will be complete without its wireless installation c23 07 29

1924 crowds on Market Hill listen to Kings speech at opening of Wembley exhibition [2.12]

1925 Mammoth Show committee launch 'wireless year' aiming to provide Addenbrooke's Hospital with a phone at each bed [1.16]

1925 Cambridge Poor Law Guardians considered installing wireless apparatus at the Institution. Mrs Keynes said some members were not entirely satisfied that it would be a very great boon to the inmates, partly because of the nature of the entertainment and partly because the best part of the performance usually came on after their inmates had gone to bed. The chairman handed round copies of the "Radio Times" to enable members to see the types of programmes given. Messrs Allin's estimate for a six-valve set with five loud speakers was £65. Chesterton Institution had installed three loud speakers and they were appreciated c25 05 22

1926 The action of the Master of the Cambridge Workhouse in ordering without authority the fixing of five extra wireless plugs evoked an indignant discussion. The Wireless Committee reported that they had provided for 12 plug points, one of which was in the Master's dining room. He had ordered five extra, including one in his drawing room and another in his bedroom. Mr Lofts asked: "Does the Master want singing to sleep" (Laughter). They did not consider it necessary for the Master to have three plugs in his own quarters and they should be removed c26 03 28

1926 The Cambridge Camera and Wireless Co. of Alexandra Street offers a very complete range of component parts or complete wireless sets. The famous Pye sets can be seen in their windows, also the self-contained "Britamax All-Wave" receivers. Specialities of this firm include reliable, but cheap H.T. batteries, valves and loud speakers c26 12 14

1927 One of the largest crowds in memory witnessed the last of what may go down in history as the "Microphone Mays". Both banks of the Cam at Ditton presented the spectacle of an unbroken line of sightseers. There were three men up a tree at Ditton Paddock; they and their friend the microphone were telling all England what was happening and theirs was truly a romance of the tree tops. One wonders how many old Cambridge men were listening-in to a drama in which they once played a part. c27 06 12

1929 Wireless broadcasting masts, Ely – CDN 21.8.1929

1929 New wireless station transmitter benefits Cambridge CDN 18.9.1929

1930 The Edison Bell Gramophone and Radio Works at Huntingdon employ over 300 people. About 30,000 'Radio' records are made each week; they are stamped out between dies and passed to girls to put the edge and finishing touches. Various gramophones and wirelesses are manufactured including compact two and three valve 'all-main' sets in preparation for the Radio Exhibition. Amongst the machinery used are automatic lathes which need no human attention. 30 09 12

1930 Millers all-electric wireless receivers photos – 30 12 20

1931 A wireless broadcast relay service may be installed in Cambridge. Rediffusion wish to place wires over the streets and would pay the Corporation £250 per annum for the first 1,000 subscribers. The charge would be 1s 6d a week, plus sixpence for a loud speaker and ten shillings for the Post Office wireless licence. But the service was limited to one programme and was nothing like as good as having a set of your own 31 07 17f

1931 The Cambridge Radio Relay Company has been formed by local firms. Many people who would not go to the bother of erecting aerials could get really good reception for a moderate outlay. The best programmes would be broadcast, trouble free and without the erection of unsightly posts and wires. The mains are carried by arrangement with G.P.O. telephone lines to the various districts. The service would also be useful for local S.O.S. messages by locating people at short notice. 31 08 28c

1931 'Hello! Folks', the wireless celebrity entertainment which presents world-famous BBC stars in person will be produced at the Cambridge New Theatre. It will be presented by Tommy Handley, the renowned comedian, and include the Fayre Sisters, Mabel Marks, Wilson Hallett who mimics children, Mario Lorenzi the West End concert harpist and Jack Payne the whistling newsboy 31 08 28d

1931 A combined exhibition by members of the Wireless Retailers' Association opened at the Cambridge Guildhall. J.T. Harvey of Aylestone Road is showing sets all of his own manufacture, the receivers being especially adapted for Cambridge listeners. W.K. Islip displayed Murphy Ultra products as well as Cossar kits and Beethoven portables while R. Lathbury of Castle Street sells Kelster Brandes including the Kobra three-valve complete with loud speaker. 31 10 19g & h

1933 Cambridge councillors rejected plans for the provision of a wireless relay service. People who could not afford expensive wireless sets could receive programmes by possession of a loud-speaker. The continual exchanging of unsatisfactory wireless sets was an expensive item for meagre incomes while subscription to a relay would secure perfect reception. But it would give a monopoly of news and programmes into the hands of one company and increase the number of unsightly wires over back gardens 33 05 25

1933 wireless relay service report – 33 05 22a

1933 The University Engineering Society was packed for the first public demonstration of television in Cambridge with the picture being transmitted from one side of the room to the other and projected on a four foot square screen. After a pause while the transmitter and receiver were synchronised, the room was plunged into total darkness, then suddenly there appeared on the screen the blurred and flickering figure of an undergraduate's head and shoulders. He caused some amusement by blowing his nose several times. Later a microphone was brought into use and sound, as well as pictures, 'came across' 33 11 14 [1.3]

1933 Sir - The London and North-Eastern Railway are to withdraw wireless from their London-Leeds trains blaming the 'prohibitive' charges announced by the Performing Rights Society for the use of its copyright music. But the fee is only three shillings a week per train and when challenged they now say the service was uneconomic and had never covered its cost. The payment of a fee to the composer is as much a cost of production as the ten shilling licence to the BBC or the installation of earphones – C.F. James, Performing Rights Society. 33 11 10

1934 Many Cambridge people listened to the Royal Wedding of the Duke of Kent and Princess Marina by medium of the wireless. Some of those without a set hired one for the occasion. A CDN report who listened to the broadcast in a car was able to hear every word of the ceremony as microphones followed the progress of the two lovers inside the Abbey. The sweet singing of the choir and the pealing of the organ mingled into one glorious harmony. Then millions of listeners in cottage and mansion, in office and home heard the royal lovers plight their troth – and heard the voice of the beautiful Princess Marina for the first time. 34 11 29 & a

1935 "A broadcast of the future": old rowers watch race on large TV screen – 35 04 06

1935 The Cambridge Wireless Retailers Association show has several stands carrying a full range of the local product, Pye, including the all-wave model, the radiogramophone and the battery and all-elect superhets and portables. For those who have a preference for non-factory made sets there is the Harvey model. This locally-made receiver is made by hand with all the skill and care which expert workmanship can give it. One of the features for which it is noted is its great reliability. 35 10 07b

1936 It is many years since Raymond Bennett was a Cambridge semi-professional entertainer who made early appearances in cine-variety at the Playhouse, Mill Road. He has progressed rapidly and Cambridge audiences now have an opportunity of seeing him at the Theatre Cinema with his partner of many broadcasts. Bennett and McNaughton have achieved great success on the music halls, including the Holborn Empire, and have attained great popularity as broadcasting stars. Those who have listened to their broadcasts will be glad of this opportunity of renewing acquaintance with a popular local artiste 36 01 17

1936 The King's Coronation may be televised as will next year's boat race, Post Office engineers were told. "How are we going to do that? Some think that in 10 years time people who have got the telephone service will want to use those wires for a re-diffusion service for broadcasts. It means that every wire has got to carry a much greater frequency and you will have to re-lay the undergrounds. I cannot see the end of these expansions. None of us can", the Superintending Engineer asked. 36 03 23 & a

1936 Cambridge Short Wave Club was formed to foster and maintain interest in short wave radio, discuss problems, provide technical literature and exchange 'junk'. They hoped to install a club transmitter and arrange instruction in Morse for beginners. H.W. Scott presided at the first meeting when a large number of short wave fans attended together with transmitters 5JO, 2PL, 6HD, 2KW and 5PU 36 04 23

1936 Friends of the Cambridge Town Silver Band will be glad to know that they are to give another broadcast on Saturday afternoon. This will be on the 'National' wave length but all

B.B.C. stations are taking the programme. Last time the band opened with an original item by the conductor (Mr R.E. Austin) called 'Cambridge Bells' which featured the melody of the Roman Catholic Church chimes. This time they will start with his new military march 'Cantabrigia'. The band will be having a busy day for that evening they will be playing for the promenade concert on Christ's Pieces 36 06 06b

1936 The Truevoice Recording Studio in Jesus Lane is now open every day for the producing of gramophone records. Your opportunity to hear yourself on a perfect 10 inch double sided wax record for a fee of 10/6. Children's voices faithfully reproduced. Specially equipped studio for music and orchestral recordings. These records make ideal Christmas Gifts to your friends. Why not make one and send it to them. They will be delighted – Advert. 36 11 28b

1937 Although rebuilt as recently as 1935, Robinson's garage in St Andrew's Street has again been enlarged to meet ever-increasing business. This has enabled them to enlarge their radio department which is quite distinct from the motoring side of the business. It is staffed by men who have made radio their special study and offers hundreds of brand-new sets (some in their original cases) at pounds below list prices. The radio service department is one of the finest in the entire country with engineers from Marconi, H.M.V. and Pye factories. 37 02 06c & d

1937 Cambridge transmitter, G2XV, is one of the most successful amateur short wave radiotelephony stations in the country. Its semi-vertical antenna enables it to be heard on the 20-metre band in almost all corners of the world, including Australia, New Zealand, India, Honolulu and every state in the USA. It is owned by G.A. Jeapes of Perne Road, whose interest in short-wave transmissions goes back to the days before radio broadcasting was ever thought of. 37 03 03

1937 At the Coronation celebrations one small tent attracted probably more interest than any other with the possible exception of the tea tent. It contained a Pye television apparatus and during the afternoon many availed themselves of the opportunity of seeing the actual Coronation procession taking place. Although Cambridge is almost out of range of Alexandra Palace, everything came through very well. Almost the only interference was experienced when the motor racing was being held in the area only a few yards away 37 05 12b

1937 Cartoon showing new Mayor, Saville Peck in a Council radio studio – 37 11 06a

1938 Cambridge Reference Library was packed to capacity for a lecture and demonstration on television by Mr D. Jackson of Pye Ltd. Severe electrical interference unfortunately ruined the first half of the programme from the Alexandra Palace but when after half-past-nine this eased off they were able to see some quite good vision signals and appreciate the high standard which can be expected in an area where interference is not so acute as it is in the centre of the town. 38 03 10

1942 David's bookstall featured in Canadian radio broadcast, started 1886 now one of oldest on market– 42 07 04

1943 radio programme features Cambridge requests [1.4]

1943 Anglo-American Christmas party broadcast from Guildhall [1.5]

1944 Gardeners' Question Time broadcast from Guildhall – 44 10 24

1945 Revolutionary new television system demonstrated by Pye Ltd in their television theatre – would allow production receivers for £40 – CDN 1945 11 01

1948 An interesting feature of the Cambridge Accident Prevention Council exhibition is the relaying to the Guildhall of a commentary of the conduct of road users given from a police patrol car touring the town. Members of the public are invited to accompany the commentator in the

patrol car. Though police radio is not yet in use in Cambridge special arrangements have been made to fit apparatus which will also be used when the general system comes into operation c48 11 24

1948 Six undergraduates have published a report setting forth the possibilities of creating a University Radio Station in Cambridge, operated by undergraduates and broadcasting regular programmes in term time for a local audience. A specimen programme shows it would have excerpts from local functions, interviews, reading, dramatic and musical productions, sport, news and talks on a variety of subjects c48 06 26 [1.8]

1948 numbers of viewers increase, "788 tv viewers in Cambridge", "972 licences now" [1.10,1.9]

1948 Radio is to be brought into place shortly to help Cambridgeshire fire fighters. Two fire engines and four staff cars at the Newmarket Road Headquarters are to be fitted with a V.H.F.-type speech transmitter and receiver, similar to those fitted to R.A.F. planes. The fixed 12-watt transmitter will also be used by the police force to originate their message operation. The two fire engines fitted with radio are the ones normally sent out immediately on receipt of a fire call. "The advantage of using radio is that we have no need to depend on telephone for getting reinforcements," said Chief Officer Knowles c48 07 24

1948 For the first time anywhere in the world, a new series of television was used to promote road safety at Cambridge. Traffic scenes on Market Hill were televised to the Accident Prevention Exhibition in the Corn Exchange. "Closed-circuit" as it is called is the latest development of the Cambridge firm of Pye Ltd. Two cameras were operated, one fixed to the balcony of the Guildhall and the other on top of a van at the corner of Petty Cury. Along this narrow, one-way street, between 8am and 6pm approximately 7,000 bicycles and 2,00 other vehicles pass each weekday. The slow speed of the traffic and its one-way direction helps to keep the accident rate down c48 11 26

1949 Pye give first successful demonstration of colour tv at Olympia [1.17]

1949 "Down Your Way" came down this way when a BBC mobile recording unit spent a day "canning" material for next Sunday's broadcast in the Light Programme. Various personalities of the town, university and district were interviewed by Richard Dimpleby.. Amongst them were Mr R. Shorrocks who works for Pest Control Ltd, Miss M. Stuart, secretary of the Arts Theatre, Mr Fred Hudson, a television tester at Pye Ltd, Mrs Maltby who made the robe in which the Queen received her honorary degree, and Mr R. J. Pointer who is a CND linotype operator c49 01 27

1949 Sir – I should like to appeal to local amateur radio transmitters to refrain from transmitting during the limited periods of the day and evening when television programmes are broadcast. The interference can blot out the picture on all television screens in the vicinity, taking the form of a "trellis" pattern or light and dark bands on the picture. Radio dealers and service engineers have only two hours a day during business hours when they can demonstrate and test television receivers and would appreciate more consideration from the radio amateurs who have the remaining 20 hours during which to transmit (evening programmes occupying about two hours) – Televiewer c49 02 03

1949 The BBC have completed tests and accepted delivery of a new Outside Broadcast Control Vehicle from Pye Ltd of Cambridge. Everything required for the production and transmission of a complete television broadcast is contained in this unique mobile unit, the most modern equipment of its kind in the world, including a set of three of the latest Pye turret-headed television cameras. It is the first Pye outside broadcast vehicle produced for the BBC and the first to go into regular service since the war c49 02 12

1949 Television brought the boat race into thousands of homes with equipment produced by Pye Radio Ltd playing a prominent part. A Pye transmitter was on the launch "Conseuta" and the

static cameras from Barnes bridge onwards were a product of the Cambridge firm. The relay was a tremendous success, with viewers sharing every one of the thrills of this greatest of all boat races. Approximately 600 people heard the broadcast in the Central Cinema. This evening there will be a free television show by Pye in the circle lounge c49 03 26

1949 A police radio network covering Cambridgeshire, the Isle of Ely, Huntingdonshire and Peterborough has come into operation. Now within a few minutes of any incident being reported the nearest cruising police cars can be speeding to the spot. Radio will help greatly in car theft cases, enabling descriptions of missing vehicles to be circulated in a few seconds over a wide area. The Fire Brigade is also in the scheme. The master station through which the whole scheme is controlled is situated at County Police Headquarters, Castle Hill, Cambridge c49 04 16

1949 A story of high-pressure work since last March under a top-secret cloak lies behind the announcement that Pye Ltd of Cambridge will give the first successful demonstration of colour television in this country at Radiolympia. Research into colour television has proceeded for a long time, but it was only in March that the decision was made to produce the intricate equipment required. The secrecy with which this work proceeded is indicated by the fact that Pye's employees themselves have not yet seen a demonstration. The firm say that colour television is still many years off c49 09 27

1950 Workers Playtime broadcast from Marshall's [1.19]

1950 1 in 4 Cambridge homes have radio licence [1.20]

1950 "2848 tv licences holders in Cambridge area, an increase of 1,227 in year" [1.20]

1950 A swifter and more efficient ambulance service is in action this week – thanks to radio control. This innovation, which has already proved its worth with the police and fire brigade, has had a successful trial with the county ambulance service. Radio control was fitted to their four ambulances and two utilicons by Pye Telecommunications and all vehicles are in constant call from the control room, newly equipped with receiver, transmitter and microphone. A number of Cambridge commercial firms have now followed the lead of Camtax in installing radio telephones and Cambridge must be among the world's most advanced towns in the field of radio control c50 03 01

1950 Cambridge housing committee recommends the installation of television sets should not be allowed at Donkey common, as it would not be advisable to erect aerials on the roof of the huts. If erected independently they would have to be supported by guy-ropes which might prove a nuisance to other tenants and a danger to children c50 10 19

1951 Workers Playtime broadcast from Pye's [1.21]

1951 Some of the world's leading television scientists are in Cambridge for a Convention at the Cavendish Laboratory. So far as can be seen, television receivers will never again be so cheap as they are today. New valves, new circuits and new T.V. cameras form part of the discussions; two papers have been written by members of local firms. Messrs J.E. Cope, L.W. Germany & R. Theile of Pye-Cathodeon will speak on the Image Iconoscope Type Television Camera Tube c51 08 21

1951 A team of six etymologists was selected for the BBC Programme of "Say The Word" and coached with practice questions at the Houghton Hall, Cambridge. In the basement an elaborate apparatus was connected to the G.P.O to relay the programme directly to the recording chambers of the BBC. A brilliant five-minutes dissertation was provided by Dylan Thomas, the well-known poet, who was filling the role as visiting word expert. Bringing piquant Welsh humour to a funereal topic he illuminated his audience as to the origin of the phrase "Kicking the Bucket" c51 11 08

1952 new-look aerials on 1 in 5 city homes [1.22]

1952 plan for tv broadcasting station on Gogs, sponsored by Peaks who would transmit their own test card - refused [1.23,2.2]

1952 The wired radio system at Old Addenbrooke's Hospital in Trumpington was installed in 1952 after a public appeal organised by the News. Originally it provided the BBC Home and Light programme. The name Radio Addenbrooke's was coined in 1954 when Toc H. started football commentaries which were recorded on tape and later related to patients. Then in 1956 Don Hale started a record request programme. When the new hospital opened a studio was also provided by public subscription 81 08 28 [2.1]

1952 The first BBC television play to be directed by a Cambridge-born man was seen on Thursday. It was "The Prisoner", a new play by Andrew Cruickshank, produced by Ian Atkins and directed by Julian Amyes who is an Old Persean and brother of Mr S.J. Amyes, news editor of the CDN. He began his professional stage career after leaving the University in 1939 & was President of the University Mummies in 1938-39 CDN 22.2.1952

1953 8750 tv licences [2.3]

1953 in Fallowfields 58 out of 129 houses have aerials - 45% [2.5]

1953 The television broadcast of the Coronation ceremony will be shown to some 250 people on big screen projectors in Cambridge Guildhall. The projectors are specialised television receivers and produce a picture four feet wide. The picture quality is remarkable but much depends on the signal strength and the co-operation of motorists and other persons who cause T/V electrical interference is invited in keeping away from the vicinity of the Guildhall on Coronation morning. Seats will be allocated to pensioners, wounded ex-Servicemen and similar deserving cases. c53 05 14 [2.4]

1953 On Coronation Day Pye Ltd of Cambridge operated the first colour television outside broadcast ever done in this country. It was seen in a well-known Children's Hospital and several other selected places. Three colour cameras used in transmission were sited on top of Government buildings facing Parliament Square and Whitehall. Hundreds of people assembled in Cambridge Guildhall to watch the ceremony on television. The latest television screens were used. The picture was clear and precise but there was, of course, no control over the usual interference from electrical appliances which all TV owners are forced to suffer in silence. Six domestic TV sets were installed in the Corn Exchange and because of the bright light, shields were fitted around the screens c53 06 03

1954 Kings College carol service shown on tv [2.7]

1954 Cambridgeshire Police have been experimenting with a radio equipped motor cycle. The wireless equipment supplied by Pye Telecom gives the same facilities as that fitted to police cars. A patrolling motor cycle officer hears his call on the set; pulls up and then can receive his message through a loudspeaker, or alternatively through the hand microphone he uses for his own transmission. The range of the radio is sufficient to cover any part of the county. If adopted it would enable motor cycles to be used for many duties which at present require radio cars. CDN c 7.5.1954

1954 The first demonstration in Britain of 3-D television attracted large crowds to the Pye Radio works stand at the Radio and T.V. Exhibition at Earls Court, London. From a miniature studio built on a raised platform in the middle of the stand 3-D television pictures were being screened on experimental sets a few feet away. The viewers had to wear polarised spectacles. Pye do not expect sets to be on sale to the public in the near future; as a home entertainment 3-D television is a very long way off yet. At the moment they are perfecting it for use in industry. CDN 25.8.1954

1955 tv service from Norwich starts, (up to full power 1957) [2.6]

1955 Pye has produced a radio clock. It incorporates an electric alarm clock with a 5-amp socket so that either an electric fire or a tea maker can be set for the same time as the alarm, which switches on the radio automatically. It operates on the medium waveband with one pre-set long wave station and has a 'sleep switch' to enable it to be turned off automatically when the owner falls asleep 55 08 20b

1956 Cambridge has 18,336 television licence holders but there may well be 360 sudden new applications in the next few weeks with the arrival of the Television Detector Van. It makes no attempt to hide its purpose, there are three loop aerials on the roof and it contains an operator who listens in to detector equipment that can pinpoint the precise house in a row where a set is being used. People can be fined up to £10 and their sets may be forfeited. 56 08 23b [2.8]

1956 Bridge Street is usually one of the most congested points in Cambridge but even the pavement suffered from overcrowding when pedestrians stopped to look at a television camera which had appeared in King and Harper's showrooms. The firm has arranged demonstrations of domestic appliances and for the first time Pye industrial television equipment, operating on a closed circuit, is being used to relay them to other audiences. Everybody is assured of a clear view of what is going on. 56 04 05

1956 Special precautions were taken by the BBC to avoid disturbance from the League of Empire Loyalists when 'Commonwealth Town Forum' was broadcast from Cambridge Guildhall. Four stewards and a plain-clothed detective stood by for possible annoyance and a special microphone was ready to cut out audience noises. But the only trouble was a small outburst from obvious members of the party which passed almost un-noticed. 56 06 29a

1956 High-ranking Service officials, including some from Russia, went for a 20-minute helicopter ride over Cambridge without moving from the comfortable dining rooms of the University Arms Hotel. They watched one of the first-ever air to ground television transmissions carried out by Pye Radio from a Bristol Sycamore. The pictures were broadcast to several 21 inch screens and showed the view from 1,100 ft before zooming down to catch an express train just leaving the station. 56 09 21

1956 New equipment developed by Pye of Cambridge means that six times as many people can use radio communications and foreshadows immense developments. Telephones for the use of the travelling public in aeroplanes, railways and road services are now a possibility and a radio-telephone could become a standard fitting in all road vehicles, C.O. Stanley predicted. 56 12 01b

1957 The long association of Pye and King and Harper of Cambridge will be celebrated in a 'Pye Parade' exhibition at Harper's Bridge Street premises. The highlight will be a specially-erected television studio and each evening programmes of local interest will be transmitted. The shows can be viewed on receivers in many parts of the premises with a limited number of seats in the studio itself 57 02 22 57 02 27b

1957 Television sets are to be installed at Chesterton Secondary Modern School in an experiment to assess the value of this type of visual aid. In the years to come they may be as common as radios. However Coun Gardner-Smith claimed children spent a lot of time watching television: "Is it any wonder they are illiterate. This is simply another way of wasting time". 57 04 02a

1957 Cameras film Cambridge from rooftops – photo – 57 03 13

1958 The BBC have opened a new sound broadcasting studio in Cambridge to give better coverage to the city, University and county and transmit programmes with more local appeal. The studio, which is 'unattended' – there is no resident engineer – occupies part of the ADC Theatre buildings. It can be operated by BBC staff-men and other broadcasters without any technical

wireless knowledge. All they have to do to broadcast is press a switch to be in contact with the BBC's engineers in Birmingham. 58 11 13 [3.1]

1959 Anglia tv opens highest mast in Europe, at Mendlesham [2.9]

1959 Thousands of new Anglia Television viewers are unaware that almost every piece of equipment that goes into the transmitting of the programmes was built in the Cambridge factories of Pye Limited. The Norwich studios are equipped with their cameras and control gear and 'remote' programmes use Pye mobile outside broadcast units. This is the latest version of the most successful unit ever produced and over 50 have been sold to television networks all over the world. 59 10 28b

1959 A monitor screen at the back of the church, shirt-sleeved technicians tip-toeing around, cameras rolling silently up and down the aisle and bright glaring lights pointing in every direction. This was just a part of what was involved in the telerecording of a Christmas service in Gt St Mary's church. It is to be shown by Anglia Television on Christmas night. The service was intended as a corporate act of worship for overseas students in Cambridge and a reminder of how the nations of the world might live together 59 12 03b & c

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 The first full-size completely portable television is made by Pye of Cambridge. It has a 14-inch screen, covers all the usual BBC & ITA channels and includes a built-in aerial. It can be operated entirely from a built-in battery or connected to a car-battery system. It uses super modern transistors which are spreading rapidly through the development laboratories and production lines. One day there may be 'all-round' tv sets in 3D and colour, the company predicts 60 10 14a

1960 Cambridge Relayed Television Service comprises 24 television dealers who may combine with Multisignals Ltd to allow viewers to pay a rental for the use of a telephone cable to bring programmes to the house, saving the cost of putting an aerial on the chimney. People can continue to buy, hire or hire-purchase ordinary televisions but by fitting an adaptor to a single-channel set they will also be able to receive London and Anglia ITV. Cable also has provision for the future transmission of colour signals or 625-line broadcasts. 60 12 16d e f

1962 Piped television begins in Cambridge on Saturday when 30 Arbury Estate subscribers tune in to receive three television and four radio programmes via a 170 ft mast in King's Hedges Road. The British Wireless Relay Company says the cost of laying a complete underground network was prohibitive but wherever possible the cables were being put in the least conspicuous places. People can hire sets for between 7s6d and 13s a week 62 08 28 [3.4,2.10]

1962 A Cambridge electronic engineer says his research work into colour television has been set back by six months after highly secret plans were stolen. A specialist gang got into the Golden Rule Laboratory at a converted public house, the Seven Stars in Litlington, and went straight for the files. They also took another device to enable the blind to see electronically. Edward Jagers has warned his agents in Paris and Geneva about the raid. 65 05 14

1962 Cambridge now has British Relay wired television which is all ready for 625-line viewing of the new programmes and colour when it comes. It cuts out aerials and gives the crispest pictures without knob twiddling receiving the current BBC, London ITV and Anglia TV programmes, plus all BBC Home, Light and Third radio programmes and popular Radio Luxembourg. . Your own television set can receive Relay TV by means of the 'Relaydapta' which simply plugs into the aerial socket. Advertisement – 62 09 07c

1962 A familiar landmark of the Cambridge skyline is being taken down. The Pye mast was built at the start of the war to help them develop defence systems and also broadcast very low

power experimental television programmes. It was originally 185 feet tall but extra aerials were added. At the top is a small cabin used to house experimental equipment and large enough for a man to work in. The mast will be replaced with a later type suitable for newest television techniques. 62 09 08a

1963 BBC engineers have been carrying out tests to find a suitable site for a relay booster television station in Cambridge. It follows a petition signed by 5,000 viewers that was organised by the Cambridge Radio and Television Retailers Association. The tests on Stourbridge Common involve the use of a barrage balloon which lifts a transmitting aerial to different heights. The signal is picked up by a mobile control room which travels around Cambridge testing reception in different areas – 63 02 22a

1963 A series of television lectures will be given by members of Cambridge University in a programme called 'Dawn University'. They will be transmitted at 7 a.m. over the whole of the ITV network to demonstrate the usefulness of television as a teaching medium. It is the first time such programmes have appeared so early and it is impossible to say how many people will get up early to watch them. There will also be two-way lectures between Cambridge and the new University of East Anglia at Norwich and a closed-circuit link with scientists at Imperial College, London. 63 10 05

1964 'Dawn University' tv experiment review – 64 03 09a

1965 The world's largest and most advanced amateur television station is based in Jeremy Royle's home at Duddenhoe End and he puts out a regular transmission each evening. Another station is owned by Douglas Wiles of Mill Road whose equipment and home-made camera is fitted into his living room. Both are members of the Cambridge Amateur Radio Club and the audience consists of about half-a-dozen people who can switch on their transmitter and chat to the figure on the screen. The availability of cheap war surplus material gave amateur radio and television a boost in the post-war years but today the supplies have died away 65 02 08c

1969 local radio discussion [3.6]

1969 1st class colour reception now on BBC 2 (only) (on all 3 channels with opening of Sandy Heath transmitter 1971) [3.7,3.9]

1971 Cambridge Free Radio off air after being hunted down by Post Office engineers – had been broadcasting over a 25-mile radius from Histon – 71 02 19a

1971 Community radio concept for city: Brian Jackson of Advisory Centre for Education has developed a proposals for new form of broadcasting; Enid Porter would speak on fen customs – 71 02 26b

1971 Commercial radio: culture or canned music – feature – 71 04 23

1972 A pirate radio station operating from a Cambridge council house was pounced on by GPO officials and police yesterday. They took away a transmitter and a cassette recorder. The raid on the house came exactly six minutes after the illegal radio station – calling itself Radio Caroline - started its regular Sunday lunchtime pirate broadcast. For more than a year GPO engineers have been trying to track down the wavelength and whereabouts of the radio and using detector vehicles they closed in on the Cherry Hinton area. The station had been broadcasting fairly regularly each Sunday for almost 18 months c72 07 10 [3.8]

1971 commercial radio discussed [3.10]

1972 CEN owners will tender for licences local radio [3.11]

1972 A group of educationalists today unveiled detailed proposals for a community radio in Cambridge. If the trust get a licence they will cover everything from university talks to darts matches. They make it clear that they do not want a station which resorts to excessive pop music, peak listening periods would be devoted to local news, light entertainment and pop music. From 5pm to 6.30 pm there would be a children's programme followed by news. The late night slot from 11pm to 1 am would be aimed at the University age group with a programme on the lines of the old television favourite "That was the week that was" c72 03 14

1973 Cambridge Community Broadcasting Company set up [3.13]

1973 CEN, Marshall & Pye set up consortium commercial radio [3.14]

1973 A commercial radio consortium backed by three of the largest firms in Cambridge are asking other city organisations to join them in making plans for local broadcasting. The group have the support of Cambridge Newspapers Ltd, the Pye group and Marshall of Cambridge. They represent the first major opposition to the Cambridge Community Broadcasting Company - a consortium set up several years ago by Mr Brian Jackson of the city-based Advisory Centre for Education. It may be almost 1980 before there is any chance of Cambridge getting a commercial station c73 07 24

1974 Cambridge not on list of 24 stations issued by Government [3.12]

1974 300 young people mobbed BBC disc jockey "Diddy" David Hamilton as he tried to punt down the Cam and forced him to abandon a live radio broadcast. As he crouched under a plastic mack in a Trinity college punt trying to conduct interviews and introduce records to several million Radio 1 listeners the crowd squirted gallons of water at him and threw pepper. Mr Hamilton, who had been keeping up a radio microphone link with an outside broadcast van at Garret Hostel bridge was rescued after a chaotic half-hour during which several people including a representative of the city's entertainment department, tumbled into the river c74 05 07 [3.15]

1975 Four men ran a pirate commercial radio station from remote spots in the Cambridgeshire countryside, magistrates were told. They were caught in a field near Histon as they had just closed down a two-hour broadcasting session of Anglia Free Commercial Radio. They had previously put out two-hour broadcasts on Sundays from various spots in Cambridgeshire, and the programmes were heard in places as widespread as Exning, Waterbeach and Fenstanton. The magistrates ordered the transmitter to be forfeited. The men were fined between £50 and £70 each c75 02 21

1976 In 1974 the Crawford Committee recommended Cambridge as an ideal centre for a small-scale radio station but neither the BBC nor the IBA has included it in firm plans. There is however some chance of improved stereo reception. The BBC says they "hoped" that stereo transmission will begin from Tacolneston, near Norwich, in the spring. A booster transmitter on

the Cambridge gasworks for stereo was a “very long-term project” for which there was no date
c76 02 22

1977 BBC announce plans for city radio station [3.16]

1977 Cambridge University Broadcasting group formed (on air 1979) [3.17.5]

1979 Cambridge University Radio has on the air after months of delay. Broadcasting from a studio at Churchill College started with news taken from London Independent Radio and was followed by local items prepared by students. At the controls - slotting in their own jingles between records and other programmes – was the radio enthusiasts’ chairman, Mr Simon Cooper of Queens’ college. At present reception is confirmed to the college but they hope to expand to Fitzwilliam and Jesus as soon as examinations are over. National radio DJs were amongst the guests at a celebration party. CEN c 7.5.1979

1980 J.Ward & sons close Burleigh st to concentrate on Bradwells Court; opened East Rd 1890s, made bikes, 1930s produced own wireless ‘Wards three-valve’, late 30s became one first country sell black & white tvs [27.2.10.12] {27.81}

1980 Hereward Radio starts broadcasting from studios in Peterborough, July [1.11.4.2]

1980 BBC radio from Norwich ceases [4.1]

1980 Cam radio - Cambridge’s only community radio restarts, 2 hour programme Sunday [4.3]

1980 CB causes interference, jams emergency lines [4.5]

1980 Eastern England TV plans Cambridge base if wins IBA tv franchise from Anglia (fails) [3.18]

1980 ‘Roundabout East Anglia’, the BBC’s early-morning programme was launched in 1974 as the local newspaper of the air. But now it has been axed leaving Cambridge without any local radio service. The final programme included a nostalgia spot recalling the days when Chris Trace and Tony Scase worked there. Hundreds of listeners have written letters of condolence saying it was comforting to wake up with a familiar voice, some breezy story from the fens and a batch of other people’s views on the region’s social and economic climates. Now the Corporation has saved another fraction of a penny on the licence fee 80 05 30b

1980 When Radio Norfolk went on the air last night it gave a sneak preview of what the future could hold for Cambridgeshire. It will be exactly the same economy-style package – a small staff with highly sophisticated equipment broadcasting six hours each weekday and ten at weekends and Radio Two at other times. It will look for audience participation with phone-ins, sport and news. A manager for the Cambridgeshire station will probably be appointed in the autumn 80 09 12b

1980 Cambridge University radio doubled its potential audience when it went on the air in a second college. Now New Hall undergraduates have joined those of Churchill College in being able to listen to the amateur broadcasters. Home Office regulations mean they cannot transmit beyond college confines which requires low-strength transmitters and a forest of aerials over the city skyline – New Hall now has 12. 80 11 15a

1980 Radio Cambridgeshire – Hal Bethell plans – 80 12 23a

1981 “to have commercial radio, 4 groups bid (does not materialise) [4.6]

1981 Cambridge electronics wizard, Clive Sinclair, has launched the world’s first flat-screen television. Working with Timex he hopes to produce a million tubes in 1982. The first will be a 6 x 4 x 1-inch pocket television costing £50 able to pick up transmissions anywhere. It may eventually lead to a large screen which can be hung on a wall 81 02 18c

1981 There are at least 300 Citizen Band Radio enthusiasts in Cambridge; they range from The Womble who at seven years of age can exchange patter with the best of them on her dad’s set to

Silver Fox who is 85. But their rigs are illegal, smuggled in and sold for between £65 and £150. The Government says they interfere with television sets and emergency services but the enthusiasts operate a 'bust fund' to replace any set seized. 81 03 02a

1981 The microchip revolution has made the television set the central feature for a host of things from plug-in videos to home computers. The latest is a service called 'Teletext' which allows viewers to view pages of information on their television screen. Eventually it will be accepted just as colour television is today. Now Labgear, who employ 170 people at Cambridge and Ely, have come up with a device which can adapt conventional television sets to receive Teletext. It costs around £250 and is aimed at people who wish to keep their own sets rather than buy a more expensive receiver. 81 08 18

1981 The wired radio system at Old Addenbrooke's Hospital in Trumpington was installed in 1952 after a public appeal organised by the News. Originally it provided the BBC Home and Light programme. The name Radio Addenbrooke's was coined in 1954 when Toc H. started football commentaries which were recorded on tape and late related to patients. Then in 1956 Don Hale started a record request programme. When the new hospital opened a studio was also provided by public subscription 81 08 28

1981 Shops selling CB equipment have mushroomed in the last year and now the legalising of new FM frequencies has given it a boost. Electroshop at Cambridge Cattle Market have orders for 40 legal rigs and Cycle City Breakers Club say the majority of their members will move over to them, though 150 hard-core members will keep their AM rigs. The problem is children who use bad language on air. 81 10 14

1982 BBC Radio Cambridgeshire starts broadcasting from studios at Hills Road, Cambridge [1.12.4.7]

1982 Cambridge Community Radio, pirate station, silenced for 2nd time in year [4.8]

1982 Saxon radio starts [4.9]

1982 Cambridge University Radio broke, go off air, relaunched briefly 1983 & 1984 [5]

1982 Radio Cambridgeshire, launched today, will broadcast six hours a day. Not long enough, says Hal Bethell, the manager, but all the BBC can afford at present. It will be a 'talk' station, rather than putting out music that aims to provide a new dimension in reflecting the local scene. He has a team of 25, three in Peterborough, and a shifting body of freelances who have been building up the widest range of background knowledge and contacts 82 04 29

1982 Radio Cambridgeshire goes on air – 82 05 01

1983 There can be no doubt about the popularity of film libraries; they range from cinema classics to soft porn. Some shops have the cassettes on shelves behind the counter leaving the hirer to choose from catalogues, others kept the cases on open display. It costs about £1.50 to hire a film for 24 hours with a deposit of £30. It is usual to leave a signed cheque which is exchanged for the return of the film. But tapes only have a limited life; constant use results in 'stretching' and tape 'slap' caused by poor rewinding. 83 02 20

1983 If you are accustomed to awaking to the dulcet tones of Julia Booth, Radio Cambridgeshire's early morning presenter, you are in for a shock. Station manager, Ian Masters' new line-up sees John Richards where Julia used to be, Nick Barraclough takes over his old slot and Anne Bristowe winds up weekdays. There is now no room for long wedges of worthy and dull speech; the news and information has to be presented brightly and accurately. When it opened 18 months ago it was an all-speech station but music is now an integral part of their output 83 09 30 p22

1984 Cambridge could have a new radio station. Churchill College has a custom-built system for piping radio into everyone's rooms from a studio in the basement. Much of the equipment has been soldered together by engineering students, but it works. They run news bulletins and

features on discount travel as well as art reviews and general student gossip. Now students have applied for a community radio licence and hope to transmit their 12 hours of music and chat from Girton to Homerton. 84 11 30a & b

1985 independent radio “unlikely” [4.13]

1985 to be one of first with Community radio (plans shelved 1986) [4.14]

1985 It was standing room only in Queens’ College as undergraduates and dons crowded in to watch the first part of a BBC documentary about their college. Even the bar was quiet as hundreds of college members jostled for the best positions around television sets. There were cheers of recognition for college personalities and hoots of derisions as candidates attending interviews for admission flunked the questions. The Senior Tutor has always supported the project because he believes Queens’ has nothing to hide but does not want students to get too excited about the media attention. 85 10 17

1986 Ian Masters has a face and voice that is instantly recognised in East Anglia. He has had a highly successful career in radio and television as anchorman with BBC ‘Look East’, doing stints on ‘Nationwide’ and other shows including ‘Come Dancing’ with Terry Wogan. In 1982 he became boss of Radio Cambridgeshire where he started an early-morning ‘Countywide’ programme with dual presentation from Cambridge and Peterborough. Listening figures have shot up. Now having carved a new image for local radio in the county he is off to pastures new 86 11 28a & b

1987 IBA announce new radio station contracts ¶CEN 17.12.87

1987 When Margaret Hyde succeeds Ian Masters as head of BBC Radio Cambridgeshire she will be the only serving female station manager. Currently chief assistant to the head of broadcasting in the North West, she has worked for local radio in Merseyside and Radio Lancashire and will miss the ‘anarchy’ of Liverpool. She sees little reason for changing what is already a winning formula but is looking forward to bringing a ‘fresh ear’ to the station. 87 02 05

1988 Granta Radio is one consortium wanting to run a new commercial radio station. It includes the Unex Group and Newmarket entertainer Pete Sayers who know the area. CN.FM is backed by Cambridge Newspapers, Hereward Radio, Trinity and Jesus colleges. They would provide a high standard of service and provide an acceptable return to investors. Cambridge Radio would have high-quality talks with an evening slot for students while the Cambridge & Newmarket Broadcasting Company would be popular and entertaining yet informed on, concerned with and involved with the area. 88 05 06b

1988 CN FM selected to operate IBA radio contract ¶CEN 16.6.88

1988 Three Cambridge computer pioneers hope to revolutionise communications with a fibre-optic cable-TV service carrying eight or nine TV channels, some collected by satellite dishes. Eventually there would be 50 channels, an independent phone service, teleconferencing, a security alarm system, home shopping and remote banking. Cambridge Cable might link with Cambridge University’s Project Granta to provide a data transmission service network from Girton to Addenbrooke’s Hospital 88 10 20

1988 CN-FM has been chosen by the IBA as the new 24-hour radio station for the area around Cambridge. Backed by Hereward Radio and the Cambridge News it will be the most modern radio station in the country, with all the latest broadcasting equipment. It will aim programmes at the 15-45 age group and hope for a listenership of around 120,000 when it starts next spring. It will co-exist with BBC Radio Cambridgeshire. The other contenders, Granta, CNBC and Cambridge Radio wish them good luck 88 06 13

1989 CN-FM 103, Britain's newest commercial station, aims to provide local news, information and music to listeners in a 20 mile radius of Cambridge. It broadcasts from their main studios at Histon using the latest high tech broadcasting equipment with all its music on compact disc or digital audio tape. It has headhunted some of broadcasting's top presenters such as Dixie Peach, David Hamilton, Nicky Horne and Nino Firetto. They have also signed up 'Bungalow' Bill Wiggins to host a Sunday lunchtime show. 89 02 10a & b

c.27.9 : conferences

headlines

1894 Ancient Order of Foresters High Court meeting {NI.1.3}

1904 British Association for Advancement of Science conference, Cambridge Daily News runs out of copies as people write for issues containing reports of speeches, the Prime Minister attends, "it livens up the Long Vacation" the paper comments 1904 RevYr

1904 The visit of the British Association has affected Cambridge. Hotels and tradesmen – particularly butchers and confectioners – are busy, public servants are felling the pressure, notably pressmen, postal officials and police. Almost every important daily paper has a special representative and to cope with the labours of these journalists four Wheatstone telegraphic machines have been installed at the Post Office. 1904 08 20

1904 The 1904 meeting of the British Association is over, our distinguished visitors have departed from our midst, and we are settling quietly down to the dreary dullness of what remains of the Long Vacation. It has been a memorable week. Considered numerically and socially the meeting has been one of the most successful they have ever held. In no other town could greater hospitality have been offered than that displayed in Cambridge; all the important buildings – municipal and university were placed at their disposal. Garden parties and receptions were as plentiful and bounteous as even the most frivolous of savants could desire. 1904 08 25

1907 Esperanto congress police cartoon people identified øCDN 30.12.1950 p9

1907 Esperanto Congress held in Cambridge, Market Hill bedecked with flags, dwarfs all other events [1.6]

1907 Esperanto has seized Cambridge like a raging fever. Genuine and spurious Esperanto fills the air as the autolycus of the gutter shouts unintelligent jargon to a street comrade and calls it Esperanto. But when a picturesque figure from the Swiss Canton appeared in the street the impudence of the street Arab was silenced. He was impressed by the tight green breeches and head capped by genuine Alpine hat. A Turk and Indians in national costume add considerably to the effect of this new kind of circus. 07 08 12a

1907 All other events in Cambridge have been dwarfed in comparison with the third International Esperanto Congress which has brought money into the town when trade was at its lowest ebb. It was hoped the University might have bestowed an honorary degree upon Dr Zamenhof, the Warsaw genius, but apart from a formal reception at the Fitzwilliam Museum it has generally stood aloof from the movement. 07 08 17a

1907 Members of the Esperanto Congress visited the New Theatre to watch a performance of 'Bardell kontrau Pickwick'. Dickens wrote for his own people, little dreaming it would be performed through a tongue understandable to all. 'Pickwick' was played by 'O.B' – Oscar Browning of King's College – who, attired in a green swallow-tailed coat, might have come direct from a Cruickshank illustration. 08 08 15

1907 The Cambridge Police Athletic Society festival was attended by a large crowd, including many Esperantists. Dr Zamenhof presented an Esperanto Cup for the policeman who has performed the most efficient ambulance work to Sergt Gates for his action in saving the life of a man who had taken poison. 07 08 16

1907 A mutual interest in Esperanto terminated in an interesting wedding at Bexhill-on-Sea when Miss Gertrude Stewart, the first secretary of the Cambridge Esperanto Society was married to Mr Everard Lamplough, a Fellow of Trinity. The wedding was very quiet and the only indication that it was unusual was the presence of white heather and 'verdaj steloj' – the green star of Esperantists. One of the telegrams read 'Koraj gratuloj de Doktoro Cunningham 'staffo', King's-parade. 07 09 02

1913 July and August used to be the quietest months of the year in Cambridge. But now they are regarded as months for conferences and hotels, lodging houses and tradesmen are reaping the benefit. Last week it was the Institution of Mechanical Engineers for their summer meeting, now the British Dental Association. Those who arrange the programmes always combine business with pleasure in a delightful way and invariable one of the first items is a Reception on behalf of the Town and University. Cambridge is always ready to welcome strangers and has raised the reception of conferences to a fine art 13 08 08 p06 CIP

1914 The Cambridge Summer Meeting concluded with an enjoyable social meeting. The attendance was not large, many of the students having been compelled to leave prematurely because of the war, while some are unable to return to their own countries. Hospitality for these unfortunate students is being kindly provided by Cambridge friends. 14 08 28

1914 When the war broke out a number of German women were in Cambridge for the University Extension Course. One of them has described her experiences in the 'Cologne Gazette' which is strictly anti-English. She says that they had been cut off from their families and were without money. They were taken into families who helped them, raised funds, took them to

the station and arranged for their journey home. They were treated courteously in every respect.
14 10 23

1920 BMA great conference [3.7]

1920 The first great conference since 1914 has been eminently successful, receptions and visitors have enjoyed privilege of taking meals in colleges; not since Darwin Centenary of 1909 has there been such a brilliant display of colour in the streets when guests hurrying to events. 1,000 doctors from around world attended the BMA conference - CDN 20 07 03

1922 The success of the Summer Meeting demonstrates once again the appreciation and possibilities of Cambridge as a holiday centre and yet Cambridge appears to be as indifferent as ever to its opportunities. Every person who has this experience is an advertisement for Cambridge, but it is an advertisement which ought to be supplemented by other kinds of publicity, the sort of propaganda which every progressive town makes use of these days. Money spent in this way would be money well spent - Table Talk c22 08 12

1925 300 foreign students assemble for vacation course [2.1]

1926 over 1000 attend Summer schools & conferences during August [1.1]

1927 The Long Vacation promises to be as full as ever of conferences, congresses, summer schools and the like. It is sometimes said these conferences cause a good deal of distraction to residents in Cambridge but they bring trade to the town and give an immense amount of pleasure, and perhaps, edification, to those who confer in the pleasant surroundings of Cambridge. c27 07 15 [1.3]

1931 International Illumination Congress - many buildings floodlit [1.2]

1931 International Illumination Congress floodlighting cRoberts p110

1938 Nearly 3,000 scientists gathered in Cambridge for the inaugural meeting of British Association for the Advancement of Science held in the Regal Cinema. It last met here in 1904
38 08 18a

1939 Cartoon about summer conferences in Cambridge by Ronald Searle – 39 06 17b

1967 International Bilderberg Conference attended by 90 leading politicians, businessmen, bankers and publishers re technological gap between America & Europe at St John's College – 67 03 31, 67 04 01, 67 04 03

1978 The increasing use of Cambridge colleges as conference centres may result in irreparable damage to life in the University, dons have warned. Studious undergraduates are unable to remain in residence over the vacation, opulent undergraduates are forced to remove objects from their shelves and dons and graduates find their work disturbed by riotous assemblies of exuberant conferees. But the real danger is that colleges may think of themselves as conference centres first and colleges second. This follows the installation at Trinity College of bed sitting rooms with integral bathrooms rather than communal facilities and the construction of a conference centre at New Hall. c78 12 08

1979 PM in secret law & order conference; top-level conference on Ireland [3.2 [

1980 big security for Anglo-German conference, St Catharine's college [Misc.3.5]

- 1980 colleges get £2M income from conferences [3.3]
- 1980 Letting university rooms and facilities during the vacation has grown from a profitable sideline into a virtual necessity. Next year it will bring in £2 million to colleges such as Robinson which was designed with conferences in mind. Previously colleges would send their staff away to the coast during the vacations where they would work in hotels but now they keep them on to help with corporate catering. At prices averaging £16 a day there is a great demand for the 2,500 beds the colleges can muster either in the historic beauty of King's or the modern facilities of Churchill 80 11 12d
- 1984 top British & Irish politicians meet at Union Society [3.4]
- 1984 conferences only organised on commercial basis 10 years ago, last year £6,009,258 [3.5]
- 1986 plan for international conferences up to 1450 people using Corn Exchange & University buildings behind [3.6]

c.29 – fen drainage

Harvesting by boat 1912

174.09

note listing started 24 Mar 2007.

1903 The unprecedented rainfall has taxed waterways beyond their capacity and floods are the natural consequence. In Cambridge boathouses have been invaded by the flood and the ferries have stopped plying. The flood has taken possession of Sheep's Green and part of Coe Fen while the Upper Granta has inundated many acres of pasture. In the fen country the dykes are full to overflowing and the land clogged with water, while in St Ives there are floods to a considerable depth covering hundreds of acres. c03 12 03

1912 Mr G. Carmichael was appointed resident engineer by the Middle Level Commissioners in 1863 following the flooding at St Germans. He became superintendent of the South Level, then Bedford Level Corporation, Padnal and Waterden and Roswell Pits Commissioners. In 1891 he was also appointed superintendent of the Ouse Outfall Board and Caudle Fen Commissioners, in 1900 of the Middle Fen and in 1909 the Norfolk Estuary Commissioners. After retirement he was elected to the Ely Urban District Council and any advice he gave on drainage matters was treated with importance. 12 04 05d

1912 Littleport suffered badly in the heavy and continuous rain. The rushing water from the Hemp field flooded the main street between the Granby Hotel and Hitches Street, running into the shops of Mr Fitch and Mr Secker. The steam fire engine made some attempt to pump the water away, but was not very successful. At Haddenham the inhabitants were aroused by the 'Town Crier', Mr Pope, who called upon every man to go down to the Cut Bank or the fen would be 'drowned'. After toiling for hours with railway sleepers the danger was averted. But the crops were partly submerged and the water entered farm cottages forcing several families to beat a retreat 12 08 30n

1912 The Mile Bank at Littleport has been flooded as never before since the draining of the fens has been carried out by machinery. When the Fen engines needs overhauling the work is invariably carried out in the summer when, under normal circumstances, their services are not

required. It is a slice of bad luck that it is undergoing repair just when it is wanted and hence water is remaining on thousands of acres. The Commissioners are taking steps to substitute another kind of engine. Meanwhile harvest operations are out of the question except where the labourers are working in top-boots 12 08 30o

1912 Floods Swavesey, Cottenham, Royston, Melbourn, Arrington, Histon, St Ives – 12 08 30h

1912 Occupiers of low-lying land in Swavesey will be glad to learn that important steps have been taken to lessen the damage caused by floods at the Swan Pond and High Street. Doors will be erected at Over Bridge to stop the Bedford water from flowing into Cow Fen. The six cottages at Turn Bridge, the occupants of which have to flit on the occasion of a high flood, will no longer be in danger of inundation. But four cottages at Church End and another at Ramper Road have been condemned as insanitary although there is no other housing available and so the disturbed residents will be offered the hospitality of the workhouse 12 11 15f

1912 Pumps of the new engine installed at Ten Mile Bank by Littleport and Downham Commissioners were started for the first time. It was 1819 when they erected their first engine here, it was of 30 hp driving a water wheel. This was replaced by an 80 hp engine in 1840 with new boilers in 1878 and bigger scoop wheels two years later. The drainage of the future would be more difficult owing to the land settling in some places and several drains would have to be diverted to avoid the hills. 12 11 22

1913 Ebenezer Driver, an Isleham gravel and shingle merchant told the court he owned 16 lighters and a steam tug. He'd delivered eleven lighter loads of sand and gravel to Southery for the Methwold & Feltwell Drainage Board to use as concrete at the pumping station. Heber Martin, surveyor of Littleport said he'd measured the barges and worked out the amount supplied. Joseph Whitehead said he'd carted it from the lighters. But the Board disputed the quantity. The suggestion that being fenland it had acted as a quick-sand and swallowed up the materials could not be accepted since the ground was so hard people could not get a pick into it. It was possible more sand and gravel had been used in making the concrete than they'd allowed for. 13 05 30 p8 CIP

1913 Cottenham drainage commissioners report that a large amount of coal has been consumed due to the heavy rains and floods. The driver of the Smithy Fen engine had about 60 tons of coal in stock and the engine needed repairing. Some drains were in poor condition: on one occasion while water was lowered two feet nine inches in the drain at the engine it was only reduced three inches at Half Moon Bridge. Both engines should be repaired 13 07 04 p12 CIP

1913 Following the destruction by fire of the Burwell Lode pumping engine at Upware in January the old engine was overhauled. It was restarted after six weeks and the pump kept going meanwhile by two heavy traction engines. But it was not quite strong enough to work the huge pump and in times of heavier floods difficulty had been experienced in coping with the water. Now a new one made by Ruston and Proctor of Lincoln has been delivered to Upware by road. Considerable difficulty was met with installing it as the station has not yet been rebuilt from the fire. The engine is much smaller so the walls have been lowered and a temporary roof erected. It worked very smoothly although the pump had been standing for over three months it raised the water in half the ordinary time 13 10 03 p11 CIP

1914 There has been an eternal struggle in the fens between drainage and navigation: the Highlander wants to get his flood water off rapidly and by so doing floods the Lowlander out. The navigator wants deep channels and in making them withdraws the natural support for the banks which slip and silt up his deeper water again. Parish awards make elaborate provision for maintaining ditches but the County Council has no powers to maintain natural rivers free from obstruction and the issue of underground water rights is difficult. Now an inquiry called after the disastrous flood of August 1912 has started taking evidence from various bodies. 14 01 16c, d & I

1914 New machinery installed at the Hundred Foot pumping station just beyond Pymore was formally opened. The new plant supplied by Gwynnes cost £3,000 with another £1,100 for work on the engine house. It is a high-pressure compound engine and a vast improvement on the old engine and scoop wheel. The fens had subsided and got so low for the old scoop wheel and it became impossible to grow potatoes. Decision hastened by the great flood of 1912 when water rose to the bands of the wheat shocks, potatoes and onions completely covered. . Had been pumping plant since 1829. In 1881 the scoopwheel was enlarged. Now had two good sets of pumping machinery, one at Ten Mile Bank 14 11 27

1915 Fen floods approaching those of 1897; fen engines are going at high pressure and the tall smoking chimneys attest the efforts of man to save the fenland as much as possible. Ten Mile Bank engine, erected 1913, is doing splendid work as is the new machinery installed two months ago. In Ely Cutter Inn wavelets approach entrance and on other side of river an old cottage cut off... Two cottages near the railway bridge are flooded, orchards in Willow Walk, the sewage tank and rod-peeling sheds are all surrounded. At Prickwillow crack appeared in part of the bank, gaulters despatched to give an extra layer of gault. Feltwell bank broke flooding area. Barges unable to pass under Littleport bridge and all vehicles, horses and cattle were ferried. In construction new bridge the road was made up on either side. In 1897 water invaded the lower portions of Victoria Street ... Prior to building of the new Ely High Bridge flood water usually flowed over the Stuntney Road Waterside Quay flooded some days and people in Babylon can take boat almost to their doors. Joseph Martin relates 1796 flood as recorded by grandfather – bank gave way and water came to within 100 feet of main street of Littleport; also 1852 when sheep drowned in Southery Fen 15 01 09

1915 West Norfolk fenland floods are developing alarmingly. Under the pressure of the high tides the new protective dam at Hockwold breach has collapsed and the water is running over Southery Fen in great volume than ever. Several cottages have collapsed. Residents who escaped with their bedding in boats passed the night in Southery Schools. A number of houses in Southery village also became flooded. Floating furniture is being salvaged by boats and the main London road is impassable 15 01 29

1915 Floods ... water still rushing through bank of Lt Ouse near Hockwold ... water now 9ft deep. Several of the older or less substantial cottages have now collapsed and others are expected to fall. The furniture in St Peter's Mission Church in Methwold is floating about in the building. The Little Ouse burst its banks on Jan 3rd and although £2,000 has been spent on the work of closing the gap the flooding has not yet been stopped 15 02 05

1915 The floods are still rising in Southery Fen where a number of men set off in a boat to salvage furniture from a submerged house some distance from the main road. The gale increased in violence and the occupants of the craft became alarmed. They managed to steer the boat to a hayrick, the top of which remained dry. On getting alongside they climbed to the rick and there spent the night, exposed to the fury of the gale and suffered severely from the cold. As they did not return relatives became alarmed. At daybreak the men were seen clinging to the hayrick and no time was lost in rescuing them. Through the bursting of another bank, a further three thousands acres have been added to the flooded area 15 02 19

1915 Norfolk floods, Southery area cover 20 square miles; nothing to see but devastation, tons of potatoes in a sea of water. Many smallholders face ruin. When return home after some months have to procure new furniture. Relief fund formed 15 04 30 p3

1915 Norfolk flood relief fund set up Ely – farmers had suffered badly ... never seen such desolation ... 266 families affected 15 05 07 p2

1915 Cottenham fen drainage commissioners new engine for Smithy Fen to be bought 15 07 09 p6

1915 Southery floods – repairs of Lynn to Ely road; no money to strengthen banks 15 07 23 p3

1915 Danger of floods – if bank had not burst and flooded Methwold Fen it would have given way higher up 15 07 30 p4 & p7

1915 Ouse Drainage new authority for navigation, taxation and administration and for better drainage and embankment – were too many sections and needed a larger authority with wider powers; banks of Ten Mile River of insufficient width; powers of South Level Commissioners limited; perhaps a relief channel from Littleport Bridge to Hundred Foot 15 12 02 p8 CIP

1916 Southery flooded and 20,000 acres submerged – photos – 16 05 10b

1916 new Ruston drainage pump at Cottenham – photo feature – 16 06 21b

1917 Fen drainage and the Ouse outfall – to consider report by A.H. Case but not refer to one by E.G. Crocker; urgent need of improvement, should be new body to deal with river above Denver – 17 07 11a, 17 07 18b

1918 A great flood, higher level than has been recorded since the great storm of August 3, 1879 Miles of country were under water on Wednesday; roads and paths were rendered impassable to foot passengers, the ferries at Cambridge were stopped, low-lying houses and premises near the river were flooded and the water was up to the permanent way of the railway between Chesterton and Waterbeach. The river has shown more frequent tendencies to flood of late years than, formerly - one cause is said to be the clearing-out of ditches and water courses by War Agricultural Committees 18 04 24 CIPof

1919 Fen drainage; report of Sidney Preston on merits of rival schemes; condemns Case's scheme of training walls seawards and points out inefficiency of number of drainage authorities each working alone. Problem is a national one; suggests put Ten Mile and Hundred Foot rivers in good condition, repair banks at outfall, dredge Eau Brink and Marsh Cuts, shut out tides by locks – 19 02 12a

1919 Serious Floods.—Not for many years has the County of Cambridge been visited by floods of such magnitude or of so serious a nature as those experienced within the last ten days. Thousands of acres are under water, and at Cambridge the water rose at one time to within six inches of the height reached by the memorable flood of 1879. At Ely the river touched a depth beyond any previously attained within the memory of the oldest inhabitants. It is good news to hear that since Sunday the water has been steadily falling. A serious break in the river bank midway between Waterbeach and Upware last Wednesday resulted in the disastrous flooding of hundreds of acres of low-lying land in the vicinity, the temporary isolation of several farms and cottages and considerable damage to stacks. On Tuesday night ... above the banks at Waterbeach Fen where the break in the river bank occurred, and farmers took prompt steps to remove their stock to safety, but on Wednesday morning a break occurred, and the breach rapidly becoming wider, the water poured through. Farm buildings and cottages were surrounded, and the inhabitants in some cases were forced to seek shelter in the village. All Wednesday farm workers and other helpers from Waterbeach and district worked up to their knees in water, but the gap widened, and it was found necessary to sink two barges in the breach. Thousands of sandbags were requisitioned and by this means the hole was filled and the inflow of water at this spot checked. Men have been employed night and day in "cradging" along the banks and strengthening the places where any water was found overflowing, this also being done on the Stretham bank of the Old West 19 02 26 CIPof

1919 5,000 Acres Under Water. — In consequence of three serious breaks in the banks caused by the recent floods, it is estimated that about 5,000 acres of farm land, including some smallholdings, are still under water to a depth of from 2 ft. to 5.ft. in Cambridgeshire. In places the water stretches as far as the eye can see, cottages, farm buildings, stacks and just the top rails

of gates showing out of the water. The breaks which occurred in the banks holding back the water resulted in large areas, hitherto regarded as safe from the inroads of flood water, becoming inundated. The damage has been most extensive and in some cases tons of produce, particularly potato crops, have been rendered almost valueless. The places where the banks gave way were (1) at Barway, on the Soham Lode, (2) at Waterbeach Fen, on the river Cant, (3) at Stretham and Thetford Fen, on the Old West River. The worst break was probably at Barway, where the bank apparently gave way from underneath, after being undermined by the water. Huge portions of the bank were torn away by the rush of water and can be seen now dotted about in the floods like little islands 19 03 12 CIPof

1919 Problem of the Ouse Valley and impact of recent floods; detailed report – 19 03 19a

1919 Prevention of floods; drainage of basin of Gt Ouse; scheme proposed by Board of Agriculture; propose form single Drainage Board – 19 05 14e

1919 Serious floods, river bank gives way between Waterbeach and Upware, worst in living memory, men cradging on Stretham bank and Old West. One cause is clearing of streams above Cambridge last summer and accumulation in the river-beds below. Dredging scheme needed; photos – 19 02 26a & b

1919 Improving land drainage; Board of Agriculture is about to lose the German prisoner labour used to good effect on agricultural drainage. Was lent to the Board free of cost and cannot be replaced. Work will be carried on by the local drainage authorities with rating powers. They worked in districts where there was no drainage authorities. Worked on Upper Ouse and tributaries, on Anglesey marshes, Blackwater and other Essex rivers. More will have to be done with machinery of Canadian type. River Ouse is badly shoaled and sections between Denver Sluice and Brandon Creek extremely congested. Preliminary had labour well in hand and three dredgers will soon be working. New Ouse Drainage Board will continue work – 19 08 20c

1919 drainage of fens – enquiry into proposed scheme and formation of one drainage board – 19 10 22f; conclusion – 19 10 29c

1920 Bottisham & Swaffham Drainage, commissioners' financial difficulties; £10,000 flood damage last year; interesting inquiry; former owner of Anglesey Abbey had made arrangements to divert certain water which passed in front of his house ... Swaffham drainage system the most expensive ... in 1853 the fen people promised the high land people they could conduct the water along the Lodes instead of allowing it to run into the Fen- Ch 20 01 07

1920 Criticism of dredging in Ouse between Denver & Wissey; dredgers totally unsuitable; had sunk, drew stuff to wrong side of river – Ch 20 11 03

1924 Frederick Hiam told the Ouse drainage board that a number of banks were in bad order. In Burnt Fen there were several places in the banks leaking badly. In the old days two gangs of lighters were at work, but since the board had taken the matter over nothing had been done. Who was responsible if there was a break? If we had another inch of rain we should have had the fens flooded. If there was 20 feet in of water in the river there was not a bank safe. They would soon be a million pounds in debt, if they had to pay compensation for damage done c24 02 01

1925 The third and final distress sale ordered by the Ouse Drainage Board took place. 25 lots including crops, gold watches, bean drill, milk cooler and other articles were offered for sale but they were all withdrawn, as the bids did not go beyond one shilling. The first lot to be offered was a sporting gun. After the crowd had sung "Rule Britannia" a shilling was bid. The lot was withdrawn. The next lot met a similar fate. The crowd then gave a pathetic and heart-stirring rendition of "Shall we gather at the river". After this the proceedings were enlivened by a series of solos played by the happy possessor of a tin trumpet. A silver biscuit barrel was next. Instead of bidding the crowd sang(?) "To be a farmer's boy" and "John Brown's body" followed by

“Tipperary”. When the auctioneer called for “three cheers” for the Ouse Drainage Board the response was “three boos c25 01 19

1925 The Ouse drainage question is still a burning topic in Soham. Two bailiffs visited a farm at Soham fen to demand rates amounting to £29. Apparently the money was not forthcoming for one of the bailiffs went over to a barn and taking down a halter which was hanging just over the top of a mangold cutter said, “I seize this”. A tall, well-built young lady of 16 also seized hold of the halter, and a struggle ensued during which she struck her arm against the mangold cutter, bruising it. Another young lady then came on the scene and struck the bailiff on the nose, causing blood to flow. Farmers think the Ouse Drainage Board was forced on them by the Government and that Soham is being asked to pay for works which benefit other towns who were not asked to contribute 25 05 18

1925 Lively scenes took place at an intended auction sale of goods distrained on the instructions of the Ouse Drainage Board for non-payment of the rate. Some 30 men attended the sale at Scales’ Hotel, Milton Road, Cambridge. As soon as the auctioneer opened the sale there was loud cheering, followed by a continued hubbub. Accordions were played more or less melodiously, the shriek of penny whistles rent the air, and mouth organs and toy trumpets added to the general pandemonium. A Welsh pony was trotted out from the stable, its back covered with a large Union Jack and was run to and fro to the sounds of much music amid a constant flow of racing terms. It was also sternly admonished to ‘keep its tail up’ and was confidently dubbed next year’s Derby winner. No bids were forthcoming c25 12 12

1926 Ely and low-lying parts have luckily escaped any serious encroachment from the flood waters passing down the River Ouse. On Monday the river reached its highest at 16 ft 9 ins, the normal being 13 ft 6 ins. Denver sluice was a godsend, for had it not been for the fine manipulation of those sluices another two to three feet would have been recorded at Ely. Along the 100 ft Bank however and between the Old and New Bedfords, the flood water stretches for at least 20 miles. Many parts around have suffered, but no serious damage is reported c26 01 12

1926 There were lively scenes in East Road, Cambridge, when another “sale” of goods distrained by the Ouse Drainage Board for the non-payment of rates was to have taken place. A “jazz band” quickly attracted a crowd to the scene and the sight of 30 men attired in top hats, paper hats etc, caused considerable amusement. Some had toy trumpets, some hunting horns, some penny whistles while a few motor hooters added to the “harmony”. Attempts to conduct the sale were drowned in a general uproar and all the lots were withdrawn c26 01 18

1926 Lively scenes were witnessed when Cambridge was “invaded” by visitors from Soham who came to protest against the sale of goods distrained by the Ouse Drainage Board from Barcham Farm for the non-payment of rates. No one could mistake their “leader”, Mr A.E. Elsdon, who was attired in “cap and gown” and wore a large buttonhole of sweet Williams, supplemented by a rhubarb leaf. Another wore a slightly battered “topper” and enthusiastic supporters had rattles, concertinas and “screechers”. A blind man in charge of a street organ had been hired and did his work thoroughly c26 07 04

1926 One of the greatest enterprises of the age in the fen district in draining 16,000 acres of land has been accomplished by the Burnt Fen Commissioners with the formal opening of the new oil power plant at the Lark Pumping Station at Prickwillow. The Blackstone engine connected to a Gwynne centrifugal pump will cost £400 a year to run, a saving of £1,000 over the old steam plant c26 07 19

1926 St Ives Council River Committee reported that a cross head had given way at the Stauch, wrecking one of the gates and causing a fall in the river; repairs had been carried out. They communicated with Mr Simpson, the owner who replied: “There seems to be some misunderstanding. Your council rent the staunch which comprises the lock and pen. In times gone by the lock had only one pair of gates (the second being put in when the navigation was restored about 1850). The barges came up the river and made fast just above the pen and flood gates; the

gates of the pen were then shut and the flood gates lowered, and when sufficient water had come down the boats proceeded to the next lock. Would the council care to buy the whole structure? They would then not have to spend money on other people's property" 26 09 10

1926 The Great Ouse River Board heard that a number of stages had been erected on the banks of the Ten Mile River and the Wissey for loading sugar beet. The banks in many cases had been cut. Furthermore in loading the beet on to barges a quantity of earth was allowed to fall into the river. It should be made clear this should not be done without the approval of the Board. Sir Fred Hiam proposed notices be printed so the factories could send one to each farmer who contracted with them to supply beet. 26 12 31

1927 The Ouse Drainage Bill was rejected by a Joint Committee of Parliament. It was proposed to construct training walls, embankments, sluices and deepening channels and rate – differentially as between uplands and lowlands – the whole of the watershed from Oxford to the Wash. It was the adequacy of even this elaborate scheme and the apportionment of the cost which provoked strong opposition. Experts reported that if the proposals were not carried out "the danger of the district returning to its original condition of swamp is very real". c27 11 12

1927 The awkward position of the members of the Ouse Drainage Board on account of the rejection of the Drainage Bill led to lengthy discussions. The uplander, the fenlander and the lowlander were opposed to that Bill, the forces against it must have been tremendous and the rejection was a surprise to the Government officials who drafted it. They hoped that the new Bill that came forward would be from the fen people themselves, the trouble with the last one was that it came too much from above c27 11 22

1928 Reports from the flooded areas in the Fens show that the water is gradually subsiding. The position at the break in the bank of the River Wissey at Hilgay was unchanged. Water was still pouring through the gap and no attempt could be made at present to stop it. The arrival by rail of 10,000 more sandbags is being awaited. Men are in readiness to begin work on filling the gap as soon as the water level admits. At present the rush of water is too great 28 01 26 c

1928 The Ouse Drainage Board heard that great damage was done to the banks of the rivers during the January floods and some £15,000 will be necessary to put them in the state they were previously. The Ministry should be induced to make some contribution to the cost. The flood, which was accompanied by a strong gale, damaged 47 miles of the banks of the main rivers and 16 miles of the smaller rivers and lodes. Mr Tebbutt said that during his knowledge of the river for 50 years only on three occasions did he remember as much flooding as on the last occasion. It was exceptional c28 05 05

1928 The chairman of the Ouse Drainage Board came in for some heckling at a meeting at Cottenham. After the disaster in Southery Fen in 1915 and 1916 the work of the Board had saved the entire South Level from being flooded last winter. But Mr Wright-Graves said the value of the land had been brought down from £25 to £10 an acre. The tax was more than the occupiers could bear and it would be better to have a flood once in seven years. c28 10 10

1928 The Ouse Drainage Board heard the mud and refuse from Ely Sugar Beet Factory was clogging up the river so that even tugs could not get through even with no boats in tow, except on a channel ploughed day after day. The water was being held up towards Cambridge and there was serious danger of flooding. It was a waste of money to have dredgers in the Ten Mile River getting the mud out when it was being put in faster by the Beet Factory. Thousands of tons of mud were going into the river and it was a scandalous affair. The whole of the river between Ely and Denver Sluice had a thin coating of slime all over it and was the consistency of a mud-pie. It will not be the Ouse Drainage Board much longer if this goes on: it will be the Ouse Drowning Board. c28 12 31

1928 Reports from the flooded areas in the Fens show that the water is gradually subsiding. The position at the break in the bank of the River Wissey at Hilgay was unchanged. Water was

still pouring through the gap and no attempt could be made at present to stop it. The arrival by rail of 10,000 more sandbags is being awaited. Men are in readiness to begin work on filling the gap as soon as the water level admits. At present the rush of water is too great. c28 01 24

1928 The Ouse Drainage Board discussed the breach of the bank of the River Wissey. It was said the cause was the action of the sluice-keeper at Denver in not opening the new eye during the floods. But the reason it had not worked was that the frost was so severe; the sluice was pulled up and great difficulty was experienced in getting it down as the grooves were covered with ice. When the thaw set in the door was eased and had worked splendidly every since. The floods were caused by the large flow of water down the Cam and the other three rivers into the Ten Mile. It was the highest flood ever recorded at Denver Sluice, three inches higher than in February 1919 c28 01 28

1929 An inquiry was held into proposals by the Ouse Drainage Board to carry out work at Welmore Lake Sluice. The Ministry had agreed to fund one half of the cost of £30,000 but local ratepayers objected saying it was unfair to expect them to pay so large a sum when the work would benefit many others. The sluice had been constructed about 1825 and benefited the Middle Level as it prevented the tide coming up against their barrier banks. Methwold and Feltwell Drainage Board protested against payment for a sluice which would confer not one penny benefit on them. They were being asked to 'hold the baby' and it was rather too lusty an infant for them to hold. If the cost were spread more fairly it would only amount to an 8d rate and no one would feel the pinch. 29 03 26

1932 In the fens thousands of acres of land are below sea level, dependent on internal and main river drainage works for their existence. They paid heavy Internal Drainage Board rates in addition to Catchment Board precepts. But land bordering the river above Earith and Cambridge derived benefit by that work but did not pay. The fens could no longer bear the cost of carrying their water to the sea. It needed very large sums to put rivers into satisfactory condition and make good the neglect of the last 100 years, but Government revenue had disappeared. 32 01 29

1932 Methwold and Feltwell Internal Drainage Board was in a bankrupt condition; it owed £10,000 and could not find the money to run the pumping engine. There was a risk of flooding 25,000 acres of the finest fenland in England. Many other boards were in the same condition. The whole of the fens had cost more than four times their value in draining. 32 03 31 & a

1933 St Germans' Sluice was opened in 1877 but the fens continued to shrink as drainage progressed and the tideway silted up. Once there was a four-foot fall from March whereas now there was practically none and a north-west wind could affect the outfall by two feet. The new pump was probably the largest in the world. The men working on the huge scheme were glad to have jobs in such depressed time. 33 01 21 & a

1933 An inquiry into the new Ouse Catchment Board byelaws heard objections from Railway Companies. Their bridges might be damaged by storm or flood and signal wires blown down but they would be unable to repair them without permission: was their traffic to be held up while they got consent. Huntingdonshire County Council felt they would prejudice the growers of bat willows 33 09 22

1933 Sir Frederick Hiam was concerned that if the pumps were stopped his land would be flooded. Some simply floated at such times: when a horse went on the land it went up to its neck and had to be dragged out with ropes. In 1912 the banks held but in 1928, after the Ouse Catchment Board took over, there was a break. His men were out all night to prevent the whole district being flooded. The Board can give an order, but they haven't the men to do it. The man on the spot knows what to do, people in Cambridge did not. 33 09 21, 22, 23

1933 The Great Ouse Catchment Board says £1.3 million must be spent on strengthening the banks of the Hundred Foot river between Denver Sluice and Welmore Lake, lining and dredging

in the Eau Brink and Marsh Cut, construction of an intermittent barrage and training work in the Wash. The people who live in the fens are unable to pay for them so the Government will contribute 75% of the money. The fear was that they were spending money on a scheme which might not be an effective solution to the problem 38 07 29 & a

1934 The new sluice and pumping station in the Middle Level at St Germans is a really wonderful piece of engineering, probably the biggest of its kind in the whole country. The drainage of the fens has resulted in a general settlement of the land which is now below the waters in the Ouse. Now there is a reinforced concrete sluice and three Gwynnes pumps driven by Crossley Premier Diesel engines to overcome the problem. 34 09 11

1934 St German's pumping station opened – 34 09 29

1935 As a result of neglect of the river trees had fallen into the Great Ouse and the accumulation of silt had formed islands. In some places it had been difficult to find a river at all and some 500 miles had been cleared out. The River Board was endeavouring to keep a channel clear but weeds were a problem. The whole of the South Level is settling due to improved drainage by modern pumping machinery but the high river banks are also settling, faster than the fens themselves. At Denver the inrush of water brought in silt from the Wash meaning the bed of the river was rising, the Catchment Board's engineer reported. 35 10 02

1935 With the heavy rainfall of the last few days Fenland has to thank the vision of those who planned the pumping station at St Germans for the fact that there has been no flooding. The new sluice has pumped 2½ million tons of water and but for this the rivers would have risen six feet. Although the banks could have withstood the pressure, much water would have leaked back from the banks into the dykes so that the Internal Drainage Districts have been saved much expense. The Middle Level need not fear three times the present rainfall as the pumps were only working at a third of capacity. 35 11 22a

1936 Widespread flooding occurred at Huntingdon and St Ives which one motorist says looks like an island. The water in the Old West is within eight inches of the top of the bank and these are being heightened with clay on the low places. There is also heavy seepage on the Wissey, all along the Middle Fen banks, at Southery Ferry and the River Lark. All banks are being patrolled by day and night with tugs and barges in readiness to deal with any emergency. 36 02 94b

1937 Flooding at Ely High Bridge – photo – 37 01 27

1937 An inquest heard that a bargeman's son had been in the habit of visiting the Half Acre pumping station at Barway. This had been erected in 1935 and contained a 10 horsepower crude oil engine. The engineer in charge said the lad had been standing with his back to the engine, looking out of the window. He was wearing a mackintosh which became caught in the flywheel. The man had run to stop the engine but the wheel took the boy round four or five times and his head hit the concrete. The flywheel had a projection for fixing a starting handle and this was not guarded. All other drainage engines were larger and let into the floor 37 02 16a

1937 The next 25 hours are the critical period in the fight against flood waters which are threatening a large area of fenland near Littleport following the recent heavy rain and high spring tides. A night and day watch is being kept on the rivers around Denver Sluice. Dredgers and barges are standing by ready to stop any gaps. The water has been over the banks in several places, but so far there has been no breach. Flood conditions have prevailed for eight weeks now – the longest period in living memory. The superintendent of Mildenhall Fen pumping station had no sleep over the weekend where the sodden condition of the banks has heightened anxiety. 37 03 15a

1937 A great battle is going on over a 50 mile front to save the fens from serious flooding. But in the minds of the hundreds of men working on strengthening the sodden banks is the ever

present question 'Will the banks hold?' Despite their efforts the Old West River at Aldreth Causeway overflowed and nine inches of water poured into Haddenham Fen causing people to leave their houses. Great anxiety was also caused when water came over the banks at Willingham and at Lt Thetford where a split occurred in a bank 37 03 16 & a

Workers at the end of their tether – 37 03 19 & a

New peril in the fens – River Lark, Hiam inspects – 37 03 20 & a

1937 The present flood conditions in the fens were raised in the House of Commons. A titanic struggle was going on between man and relentless nature. Children had been unable to go to school for months, housewives were marooned and unable to provide themselves with the necessities of life, crops had been destroyed bringing ruin to farmers and unemployment to farm workers. Half a million acres of the richest soil in the country were in daily peril during the winter. Much of the flooding had been caused to Government cuts in grants for land drainage, Arthur Greenwood declared 37 03 23

1937 Easter Sunday will be zero time in the second phase of the great battle being put up against the flood peril in the fens. Ten days ago the calamity of a major burst was only narrowly averted when the spring tides were at their peak. This weekend they return. Today all the cracks in the bank of the Old Bedford River were reported to be satisfactory and airmen who had been working day and night have been withdrawn. The spirit of the troops is excellent but the medical officer has certified that rum is desirable and arrangements are being made for it to be issued. 37 03 23a

1937 James de Rothschild, MP for the Isle of Ely, ridiculed reports about problems in the fens. The pictures that had been conjured up of whole villages in a fever of anxiety for their lives and even of a panic-stricken population fleeing from their homes clutching their valuables, were totally fictitious. One village was said to have been evacuated but a very successful Liberal meeting had been held there. However despite the aberrations of the press the situation was still very grave and hundreds of acres were threatened with flooding. 37 03 24 & a

1937 Army return to fens, cracks in Ouse at Redmere – 37 03 24b

1937 The Ouse Catchment Board received a telegram from the King and a letter from the Minister of Agriculture saying they had watched with admiration the heroic efforts made to control the fen floods. Sadly a breach had occurred which led to the flooding of Soham fen. Last year Padnal had asked for a new engine but it had been turned down. As a result the old engine had broken and fens were under water. Unless something was done the South Level was heading for the greatest calamity it had ever known. 37 03 27a & b

1937 Cambridge Photographic Club cine group presented its annual show. Mr W. King's "Flood" was a magnificent epic of the recent Fenland troubles with some really brilliant photography. "Close of the Day" recalled some of the scenes witnessed in Cambridge every afternoon at 5 o'clock and showed the evening's life of a typical couple. Humour and trick photography are the keynote of the film which was written and directed by Mr F.B. Ives and produced by Mr E.J. Twinn. 37 04 21a

1937 During the last three months as much rain fell on the high lands as fell on the fen land. There has been much more damage to the high lands than ever was done to the fens and thousands of acres will never have a spring crop sown this year. The damage to the high lands is many thousands, compared to the fenlands' shillings and pence. But the Middle Level fen men put up a very fine advertising stunt, they are the finest Press agents that ever were and a tremendous lot of rot had been written about what had happened in the fens, Councillors were told. 37 05 08

1937 During recent floods the water in the Hundred Foot Washes had been held up causing great hardship to occupiers. Yet their drainage charges have greatly increased. The water is let

into the Wash area through the Seven Holes Sluice at Earith. But Welmore Lake Sluice which had only been built about five years is unable to cope. The Hundred Foot should be dredged: at Littleport it was only 30 feet wide. Alternatively the water should be let through the Hermitage Sluice into the Old West River and then out at Denver Sluice. But the washes were there for the express purpose of taking flood waters and grazing land was hired under those conditions. The problem is that rivers in the uplands have been cleared meaning water arrives in about a day, whereas it used to take a week. 37 07 14 & a

1937 Work on the improvement of the Wash estuary would be very expensive and not only benefit drainage. It could not be undertaken with funding from the Government, but they had no powers to take over the Wash without legislation and that would have no hope of passing. The Ouse Catchment Board were unhappy to have such a liability imposed that not one of them would have thought of accepting. The scheme was an experiment so far as the drainage of the fens was concerned and it would be impossible for internal drainage boards to raise the money. A start should be made on improving the outfall and a large scale scheme for the reclamation of the Wash kept in reserve 37 09 29a & b

1937 The Great Ouse Catchment Board considered anti-flood schemes costing over £300,000. Work was in progress on the Old West bank between Aldreth Causeway and Willingham flat bridge, and on Soham, Swaffham & Lakenheath Lodes where weaknesses were found during the spring floods. Draglines have been hired from several contractors as have several miles of railway track and over a hundred tipping wagons. At Manea they have opened up another clay pit and started re-facing the bank but have had to cross over several watercourses and make several substantial bridges. 37 10 01a & b

1937 Journalist H.G. Hodder told Rotarians he'd started his career at the CDN. He'd reported on the birth of the St Neots quads and on the death of King George V when he was one of 60 reporters crowded into the Feathers at Dersingham waiting for the news. He'd been accused of overdoing the 1937 floods but it was a good story at a rather quiet time and imaginations were stretched slightly. However it meant that the Government did begin to think what might happen in the Fens unless protection is improved 37 10 27

1937 Sir – I have 4,000 acres in Mildenhall parish so derelict that they cannot be farmed and bring ruin to the families who try it. Given one road to join the five cul-de-sacs and a bridge over the River Lark to a similar road in Cambridgeshire, all these families could get their sugar beet to Ely factory. If the counties won't share the cost of a bridge, a mile of Suffolk road would save the bank where it broke and temporarily coked itself one Sunday morning. It was almost a miracle that the fen floods did not culminate in a great and tragic disaster. But the banks and roads remain bones of contention in various stages of deadlock – Rev J. E. Sawbridge, vicar 37 11 08

1937 The banks on the Reach, Burwell and Wicken Lodes should be raised and the main engine drain widened, the Ouse Catchment Board recommended. At Upware the old scoop wheel, engine and boilers should be sold, the building demolished and a new pump installed. Very few banks had broken in the fens in the last 20 years but those at Soham Lode had broken twice in the last 15 years. Last week the slips were very bad indeed. The County Council were pumping water from Soham Mere Farm into the lode - instead they should pump direct into the Cam 37 11 26 & a

1937 Over 20 fen men appeared in court for nonpayment of Swaffham and Bottisham Drainage Board rates. One said it was nearly impossible for him to pay. "For two years we have been absolutely flooded out. We have a little corn remaining but cannot get a threshing machine down there because of the conditions left after the flood. We are next door to bankruptcy". Another said the farm he occupied had been under four feet of water for three months. The Great Ouse Catchment Board had taken over the district and a new pump had been ordered 37 12 08a

1938 The Great Ouse Catchment Board wanted to complete work on the Marsh Cut, extend the training walls into the Wash and improve the river between Denver and St Germans. Great work

in the past has drained the fens, now they needed to keep the tidal waters out. But they would not proceed without further Government help. The fens had become a very valuable national asset and if a national emergency arose they would be of incalculable value. The Hundred Foot Washes had been flooded time after time for the benefit of other areas and that was absolutely ruining it. Half the wash was derelict but although owners could not let their land, they were called on to pay heavy drainage rates. 38 01 28b

1938 Fen dwellers again had to fight the threat of flood caused, this time, by a surge in the North Sea which resulted in an abnormally high tide sweeping up towards Denver from the Wash. The waves broke over the southern bank of the New Bedford River and the inner side began to slip away. An SOS for volunteers was flashed on a cinema screen at Downham Market and many in the audience rushed to the scene in lorries, cars and motor boats. More than 300 people, women as well as men, worked by the light of oil lamps in an effort to stem the overflowing waters. 38 02 14

1938 Cawdle Fen Drainage Commissioners were sued by a farmer whose land was flooded in 1936 and 1937 when water flowed across the railway line. The sluice gates in the lock had been worn out for tears and water leaked back into the fen. The drains were grown up and had not been 'mudded out' for some time. The gauge on the pumping station was out of place because the fen had sunk. In Lt Thetford they had stopped the old paddle wheel and installed two efficient pumps and it was not possible to drain Cawdle Fen without pumping. But the Commissioners said the system could not be expected to cope with abnormally high flood conditions 38 05 26 & a

1938 There is a real danger that there may be a break in the South Level barrier bank. It was in a very dangerous condition. Since a slip in February bags had been put on it but no gault had been used to repair it. Unless something is done before the high tides come next winter there may be a great disaster. In 15 years there would be another demand to raise the banks because the fens had fallen and the sea had remained the same. But they had so many schemes they had run out of money, Commissioners heard 38 05 27a & b

1938 A farmer claimed his land at Wissington, near Stoke Ferry, had become waterlogged and flooded as the pumping machinery was quite inadequate and broke down frequently. An engineer said the engine was of an old type and the boilers were not strong enough to drive the pump properly. But the Ouse Catchment Board said they'd got a new drainage plant since it broke down in June 1938. Any problem was due to excessive rainfall and seepage from the river Wissey. Although some celery had rotted there was no damage to wheat. 38 07 23g

1938 The tenant of Alderbooke Farm claimed damages from Cawdle Fen Commissioners over flooding. Their pumps were insufficient and inefficient, their lock gates were excessively leaky and their dyke walls were not high enough. The judge agreed. The Commissioners had a duty to inspect, maintain and care for all their drains and drainage works and keep them in good condition. They did not have a sufficiently powerful pump nor spend enough on rebuilding banks. But the Act merely authorised them to do the work, it did not direct them to do so. The claim was dismissed 38 10 19b

1938 A farmer from West Row was fined for making and constructing a dam at no.6 culvert, Cooks Drove Drain, Mildenhall Fen without the consent of the Fen Drainage Board. The obstruction caused a settlement of the culvert heading causing a crack in the brickwork. The farmer said he'd put a board in the drain to supply water to his cattle 38 12 24

1939 Ouse Catchment Board men have reinforced the bank running alongside the road on the Cambridge side of the bridge over the Old West River (at Stretham). The Old West River is at this point narrow but now it has risen above its low banks, and is covering the washes which extend from the normal water's edge to higher banks running parallel. Four large barges are tethered to willow trees. They were brought up from Ely loaded with gault to mend the banks. A little more snow or rain would bring it over the main Ely to Cambridge Road. The Ouse at Holywell is over its banks. The flood position at Welney yesterday showed little improvement,

with 3ft. 6in of water over the road across the wash. Flooding is most severe at Brandon Creek and in the Hilgay area. 39 01 13 CIPof

1939 The Old West River is very narrow and in normal conditions appears slow, lazy and far from dangerous. But now it has risen above its low banks, covering the washes and lapping against sandbags placed along the A10 road near Stretham Ferry Bridge. Four barges are tethered to willow trees, loaded with gault to mend the banks. It is a scene reminiscent of what happened here in 1937 when water ran across the main road to the low-lying fields beyond. A little more snow or rain will cause flooding 39 01 12b

1939 The fenland flood situation is very serious, with water six feet above normal. Patrols are watching the banks day and night and additional engineers have been sent in.. At Littleport and Prickwillow waters have encompassed a number of properties and the occupants are preparing to evacuate. With further rain there would be as serious a threat of flooding as in 1937. Pumps at St Germans were operating at full throttle and Denver is pumping 11 out of 12 hours 39 01 28a
Flood photos at Earith – 39 01 25, aerial pictures 39 01 28

1939 The Ouse Catchment Board agreed a scheme for Roswell Pits showing the proposed lay-out of the buildings, dock, roadways etc at a cost of nearly £5,000. Any old iron that may be on hand at the depot should be sold off. At present the yard is used mainly on the South Level Scheme but the time had come when it should be used for the general work of the Board. 39 01 27b

1939 Flood precautions at Manea – pics – 39 01 30

1939 Flood levels in the fens remain high. At Waterbeach the Town Crier made a call for volunteers and rallied forty men to work on the banks of the Bottisham Lode. At Littleport station sleepers are covered and only the tops of the lines are showing. Goods trucks are standing with water beneath them. In the Holmes inhabitants have left before their houses were surrounded. At Swavesey Mow Fen and Middle Fen railway gatehouses have had to be evacuated. 39 01 30a pic
Holmes flooding – 39 01 31

1939 Throughout the night 300 men patrolled between 3-400 miles of the banks of the Ouse, Cam and Lark. The patrols, equipped with field telephones are part of the extensive flood prevention scheme organised following the floods of two years ago. News of the gradual decrease in the water level has brought relief to scores of families who had abandoned their houses. A number have returned by boat to their homes at Barway and Soham and set about restoring order out of the chaos created by the water

1939 Men at Barway worked in mud and water through the night to strengthen the sluice gates which divide Soham Lode from the main river. One large barge loaded with clay was wedged in the mouth of the lode. But when the bank burst huge clods of earth weighing many hundredweights were blown out by the water. The edges of the gap are so sheer and straight that they might have been cut out by a gigantic knife. With the earth went sandbags and all manner of other material used to strengthen the bank. Tarpaulin sheets had been stretched over the top of the bank and held down by weighted sacks. Parts of these are now lying in the water swirling through the gap 39 02 01 & c

1939 After a week, the position in the Fen country is now easing. Throughout the night 300 men patrolled the banks of the Great and Little Ouse, Cam and Lark. These patrols, equipped with field telephones, are part of the extensive flood prevention scheme which was organised by the Catchment Board following the floods two years ago. The scheme is now playing a vital part in defensive measures against another flood menace. The news of the gradual decrease in the level of the flood water has brought relief to scores of families, who had hurriedly to abandon their homes. When the flood waters dropped nearly a foot a number of families returned by boat to their homes. At Barway, where five families hurriedly evacuated, men were building a dam to relieve the pressure of Water on the gates of the lode. Steel piles are being driven into the bed of the river. 39 02 03 CIPof

1939 Flood waters from the Ouse at Littleport have caused residents of a number of houses in the Station Road area to either evacuate their homes or live upstairs. It is not the first time this has happened and despite protests nothing has been done. Now ratepayers are demanding action. The council are proposing to build a concrete wall, three feet high. But residents from the Holmes believe this would flood their properties even more. Sewage matter from the homes was emptied on the gardens and it would be easy for bacteria to get into the flood waters 39 02 08a

1939 In March 1937 flood waters breached Soham Lode, causing thousands of pounds worth of damage. This year the same bank gave way to the enormous pressure of flood water, bringing a further trail of havoc. Natural seepage and pumps have cleared this away but at Swaffham Prior Fen about 1,000 acres are under water caused through seepage from the banks of the Lodes. Pumps have been going day and night but still farms are isolated and cattle have had to be moved. Distress warrants are being issued for drainage rates but farmers won't pay because they haven't any money 39 02 11

1939 Cambridge-Lynn Canal is being considered by Great Ouse Catchment Board as a permanent solution to fen flooding. Surveying is being undertaken. Will run from near Cambridge, via Mildenhall, Brandon and Stoke Ferry to Denver, and then to King's Lynn, a course which would take the surplus water from the highlands. The cost would be in the region of £2,500,000. 39 08 11 CIPof

1939 Ouse Flood Water. — In spite of the serious flooding which has occurred in the Midlands, where the Ouse and Grand Union Canal have overflowed their banks, there appears little danger that the Cambridgeshire Fens will be greatly affected. Mr. Oscar Borer, Chief Engineer to the Great Ouse Catchment Board, said that although the level of the water at Newport Pagnell is 7ft above normal, the flood waters of the Ouse have not reached Bedford, and they should be dispersed before they can get down to the Fens. He added, too, that all the washes were empty. 39 10 20 CIPof

1939 A report proposes a new drainage canal about six miles long, between the Ten Mile River near Denver Sluice and a finishing point near St Magdalen's Bend on the tidal river. The water would be controlled by sluice gates at both ends with a battery of irrigation pumps. This canal would only be used in times of severe floods allowing water in the Ten Mile River to flow interrupted down the new canal, the old sluice at Denver being kept closed. The storage capacity would be sufficient to cope with the accumulation of water during high tide. 39 02 24

1939 Lands in the South Level are in greater peril of inundation than ever before owing to the rapidity of flood waters flowing down from the upland due to improvement of the upland water courses and because Denver Sluice in time of flood is impeded by water passing through the Hundred Foot River. The report by Sir Alexander Gibb should be examined, the Ouse Catchment Board was told. But the Board's engineer had criticised it. "This is the most inefficient body I have ever sat on, far worse than the most incompetent parish council", one member complained. 39 03 31 & a

1939 Sir Murdoch MacDonald was appointed consulting engineer to the Great Ouse Catchment Board to report on the whole programme of the tidal river and whether a barrage is the right solution to the problem. He had worked chiefly in Egypt, built a bridge across an estuary in Scotland and was now working on a large harbour scheme on the West coast of England. He also had considerable experience in carrying out work on the Wash 39 05 12

1939 Sir — my criticism of the appointment of Sir Malcolm MacDonald as consulting engineer with the Ouse Drainage Board is that he is 72 years of age. This is rather old for such a tremendous undertaking since the Ouse is probably the most difficult river problem in the world. He is also a Member of Parliament and may not have time to give to the work. And the fee seems a lot. Mr O. Borer, the Board's skilled, resident engineer, is hampered by having so many Saturday afternoon members of the Board who adopt a parish pump attitude. — S.S. Wilson 39 05 15

1939 Ouse Catchment Board agreed that a pumping plant be installed where the Soham Lode enters the main river. As this was not possible before winter portable pumps should be readied in case an emergency arose 39 12 01a & b

1940 During the last winter they had been through four serious floods, and had not had the dangers they'd had in other years. The sluice keeper at Denver had never seen the water go through as fast as it had this year. But the banks are much stronger now than at any time within the memory of living man, H.G. Martin told the Ouse Catchment Board. If no pumping station was installed at Upware it would be necessary to raise the banks of the lodes by five feet and taking the settlement into consideration the costs of maintenance would be £4,000 pa. The pumping station would cost £5,000 and the existing banks would be topped. Previously the practice had been to put in a puddle trench about six feet deep and to complete the lode banks on this basis would cost a further £5,500 40 03 29a

1940 New drainage engine to be installed at Oxloade and oil engine should take the place of the Hundred Foot steam engine. Grunty Fen drainage to be improved meaning water comes at faster rate. A new engine at Oxloade would pump straight into the Hundred Foot and save it going 12-13 miles. Steam engine was extravagant; £378 spent on coal for 316 hours of work – 40 04 26a

1940 Macdonald scheme for flood protection fens – includes 'cut-off channel' from Grantchester to St Germans – 40 09 27b

1940 Ouse River Board, W.E. Doran appointed engineer – 40 11 30a # c.29

1941 Fighting Fen Floods. — The Special committee set up by the Cambridgeshire County Council to consider Sir Murdoch Macdonald's scheme for the protection, of the Fens against flooding. The report features the three methods of approach which have been put forward at different times by different people. The methods are (a) Deepen the Tidal River. This is possible only if silt is prevented from coming in from the sea. It therefore means either a barrage to keep salt water and silt from entering the river or an extension of training walls to deep water, (b) Divert the water at Denver into a new channel parallel to the Tidal River. At some point nearer on the sea it would have to be pumped into the Tidal River. (c) Remove the upland waters to a new channel on the edge on the of uplands, the new channel discharging below Denver and being available to receive (by pumping) the water awaiting discharge at Denver 41 01 24 CIPof

1941 Ouse Drainage scheme being delayed by serious shortage of labour; not enough for ordinary maintenance work – 41 05 29a

1947 A night with one degree of frost, followed by the warmest day of the year, and then a night with no frost at all. This was Cambridge's weekend experience. This morning at half-past ten it was 35 and still rising. Work on snow clearance proceeded throughout the week-end in both borough and county with the result that all main roads are now open both ways and all by-roads

passable. "We are hoping for the best" said Mr W.E. Doran, engineer to the Ouse Catchment Board this morning. He was asked about the prospect of flooding and explained that at present there is only a slight increase in river discharges. But a quick thaw will no doubt cause floods in the upper reaches. There is no immediate danger of a crisis in the fens because there is a very large storage area available. "If the thaw continues slowly there is a very good chance of it passing off without undue trouble" 47 10 03 c

1947 The bank has burst at Ten Mile Bank and on the River Wissey and water is pouring through a thirty yard breach. A huge area of fenland is involved and livestock is being evacuated. Another breach has occurred in the bank of the Old West at Stretham and water is pouring in a torrent into Waterbeach fen. The waters of the Cam have dropped seven inches at Clayhithe but a break in the bank is feared about a mile and a half beyond towards Ely 47 03 19 c

1947 Over 200 men of the Beds. & Herts. Regiment were still working after nearly 24 hours with little or no respite in their fight against the rushing water from the breach of the Wissey. Throughout the night they filled sandbags by the light of hurricane lamps stacking them in a seven-foot wall along a mile stretch of the Ely to King's Lynn road south of Southery. The total area affected by the flooding is now more than 100 square miles 47 03 20 c

1947 An attempt was to be made this afternoon to rescue a bull marooned since Monday in a stall at Crane's Fen farm near Earith. It was hoped to borrow an army "Duck" for the attempt. Mr J Cook said it was standing in about two feet of water. "It seems quite happy but it may prove different when we try and rescue it. The job will not be easy as the animal weighs at least half a ton" 03 21 c

1947 "Operation Neptune", the scheme to seal the great gap in the banks of the River Ouse near Over by using Neptune amphibians began this afternoon. Nine Neptunes - weighing anything between 37 and 40 tons each - are being employed, as well as submarine nets and sandbags. One has its nose against the bank several yards from the breach and a number of others are in a field about half a mile away on the other side of the river. They will be brought to the gap, line up across the breach and netting will be dropped from them. Tarpaulins will be fastened over the netting and weighted down with sandbags. 47 03 24 c

1947 Under the glare of "artificial moonlight" "Operation Neptune" was successfully put into effect last night. Nine great amphibian tanks have sealed the breach in the River Ouse at Over. It was the first of its kind ever to be performed in England. The whole area was reminiscent of wartime, crowded with duffle-coated mud-caked troops many of them tired out but still cheerful enough to sing, and military equipment of every description. The operation was due to start at 5 0'clock but owing to technical hitches it was late evening before everything was ready to commence 47 03 25 c

1947 Ready at a moments notice to help clear floods in the fens, 50 National Fire Service pumps are standing by in London awaiting the call from Cambridge. Up to midnight on Saturday last 600 pumps had been engaged for more than 3,000 pumping hours and 78 million gallons of water have been moved. Meanwhile fen river levels generally continued to drop today. The flow of flood water from the breach in the Ouse near Earith has been completely halted. 47 03 26c

1947 It is thought it may only be a matter of weeks before the fens are drained again. Where pumping stations are out of action auxiliary pumps will be installed while other will operate from the various banks taking water from the flooded fens back into the rivers. Hundreds of millions of gallons of water will have to be taken off the flooded areas. The biggest fen pumps can throw 35,000 gallons a minute. Amongst offers of help received at the Catchment Board office is one

from Liverpool of an unlimited quantity of dehydrated potatoes for use in filling the breaches. 47 03 27 c

1947 On the subject of suitable cropping in the fens the National Farmers Union said today that provided that certain of the lands are drained within a month cropping may be possible - but one must bear in mind that the residue of artificial manure will have been completely washed away. Should the yield be low it would represent a financial loss and Government should guarantee them an average seasonal price on an acreage basis 47 03 28 c

1947 Flood clearance pumping is now being done by individual farmers in many places in the fen district. Some 25 small pumps have been issued from the Ministry of Agriculture and Fisheries pump depot at Warboys. The depot maintains a "flying squad" which goes out day or night should any of the pumps cease because of need for service. Since the depot came into being at the former R.A.F. Pathfinder airfield it has dealt with between 120 and 130 units. The depot started from scratch with just three bare buildings of the deserted airfield. It is now a complete unit with canteen, and administrative office, petrol supplies and even facilities for doing a certain amount of servicing of motor vehicles if necessary. No sooner had it opened than a stream of lorries bringing pumps, equipment and what one has described as "an odd assortment of pipes" began to arrive from all over England 47 04 10 c

1947 How ant-flood scheme will work: McDonald scheme biggest project since Vermuyden; bank height limited by foundations which are 'a mixture of compost and toothpaste'; propose Relief Channel and Cut-off channel - 47 12 01 # c.29

1948 An £8,000 new "weapon" was officially added to the "armoury" of the drainage engineers fighting the never-ending battle of the fens. It is a 360 h.p. two-stroke diesel engine installed at the Ten Mile River Pumping Station near Littleport. Of the kind also used to generate electricity in ships it is the first in the country to be adapted by the makers for land drainage. Coupled to an already-existing pump at the station it will help to throw fen water into the river at the rate of 200 tons a minute. It replaces a steam engine installed in 1912 48 02 20

1948 A further step towards the prevention of flooding in the fen area has been taken in the building of the Welches Dam pumping station which was officially opened and put into action. It had been decided that the reconstruction of the Low bank would be too expensive and there would be a continuous sinking of the peat fenlands behind. Comparative costs showed that a pumping station would be cheaper than building up the bank and be the most economical solution c48 12 21

1949 Scheme involving an expenditure of over £6 million to prevent further flooding in the fens were discussed by a select committee of the House of Lords considering the River Great Ouse (Flood Protection) Bill. It seeks to empower the Gt Ouse Catchment Board to construct works and acquire land. The total catchment area covers over two million acres of which 400 acres were fenland, the richest agricultural land in the country. The average annual value of the crops grown on the fenland was £50 an acre, compared with an average of £25 for the rest of the country. In the most fertile parts the annual value rose to as much as £100 an acre. 49 11 16 c

1950 A new pumping station was opened at Chear Fen, near Stretham. Mr A.G. Wright recalled that the old station had opened in 1842. It had consisted of a beam-type steam engine powered by two boilers and coupled to a paddle wheel. It ran during the 1947 floods but only for a short time, when one of the boilers ceased to function and the other boiler only showed 35 lbs

pressure. This plant was dismantled in 1949. In 1928 a new engine house was built, where a Blackstone Diesel engine was installed coupled to a Gwyne's pump c50 04 13

1950 Judgement was given for the Great Ouse Catchment Board on claims against occupiers for maintenance work on drains done under war-time legislation. A Leighton Buzzard woman said the board had dug some ditches on her land using Italian POW labour. They took much longer than English labour would have taken. Another said he saw a number of Italians rabbiting and never saw any of them working. George Stevens of Wing said ten or a dozen Italian prisoners came to do the work on his land. Asked if they cut any rushes, he replied, "the only things they cut were my trees to make baskets" c50 06 16

1951 Major Marshall Nixon, deputy engineer to Mr W.E. Doran at the Great Ouse Catchment Board, was the man who, in the 1947 floods, suggested sealing the Over breach with military amphibious load-carriers. His suggestion proved highly success and earned him the Institute of Civil Engineers' 25-guinea ingenuity prize for 1948. He was made works engineer during the big rehabilitation and damage repair works following the floods c51 01 12

1951 The threat of possible flooding of the Cambridge-Ely road at Stretham bridge has been met by the building of a quarter-mile long clay bank and the installation of three pumps. Mr W.E. Doran, the Catchment Board engineer said that the rainstorm that raised the level had travelled the length of the Cam basin & that with the present sodden state of the ground most of the rainwater drained into the river. Had the improvement work which followed the 1947 floods not been done river levels in some places would be above the danger line c51 04 10

1953 High water levels on the River Cam have now dropped considerably at all points except at Bottisham Locks and all precautions for dealing with any emergency during the period of the Spring tides have been completed. A tide warning system will be put into operation; the number of patrols will be increased and emergency gangs, transport and materials made available at short notice. Coastal weather and tidal conditions are received by teleprinter at the Great Ouse River Board's Ely headquarters and police are ready to issue any necessary warnings c53 02 12

1955 The windmill at Adventurer's Fen, Wicken stands on a very isolated very isolated spot. The whole direction of the drainage was changed when the fen was brought back into cultivation during the war. It could never again work in that position and may have gone the way of its neighbour in Sedge Fen. But thanks to Rex Wailes and Mr Doran of the Great Ouse River Board it is to be repaired and moved to the entrance of Wicken Sedge Fen where it will be seen by visitors. The work has been entrusted to Mr C.J. Ison of Histon who himself moved the post mill at Madingley to its present site. The cost will be borne by Lord Fairhaven. 55 07 16c

1956 Since 1947 the Great Ouse River Board has spent £950,000 on strengthening and heightening the banks in the south level in their aim to prevent a recurrence of disastrous floods. Part one of the scheme involved the cutting of a relief channel from Denver to King's Lynn. Part two: the strengthening and heightening of the banks of the Ten Mile River and the deepening of the river will begin this summer and part three, a cut-off channel around the edge of the fens will start a year or two later. But engineers are still not satisfied that if the same conditions reoccurred there would not be a break somewhere 56 02 14c

1956 A fen drainage windmill has been re-erected in Wicken fen. Norman's Mill stood in Adventurer's Fen, a mile to the south, and was operating until the early 1930's after which it fell into disuse and suffered considerable interference by people visiting the fen. The restoration was undertaken by C.J. Ison of Histon. They discovered the right way to go to work by trial and error, guided by what they found when they dismantled the old structure. Little more than the iron parts of the wheelers and gears remain from the original mill 56 09 22a & b

1957 The drainage of the fens moved into a new era with the opening at Upware of a fully automatic electric pump. Lord Fairhaven pressed a simple button to start it in motion. It is the first electric pump in the South Level and can move 125 tons of water a minute from Burwell Lode into the Cam. The existing pumps were 18 years old, were efficient and worked very well. But they would be unable to cope under abnormal conditions. 57 07 27

1958 Farmers and smallholders are facing serious financial losses caused by flooding at Cottenham fen. About 400 acres are under water and crops worth thousands of pounds have been ruined after a large public field drain on the boundary with Rampton burst its banks following days of heavy rainfall. Farmers say the drain had not been draglined for ten years but that the River Board had adopted a 'Blow you Jack' attitude and refused even to loan their pumps. 58 07 04

1958 The Great Ouse River Board's flood protection scheme between Ely and King's Lynn is nearly at the half-way stage. Work started in 1954 and part one, including an 11-mile long flood relief channel from Denver to Lynn controlled by a head sluice is nearing completion. The deepening and widening of the Ten Mile River and Ely Ouse over a length of 19 miles has been going on for a year but the flood diversion channel has not yet been put out to tender. People in the fens will feel a lot safer when it is completed. 58 09 19 & a

1959 In 1954 work began on a Great Ouse Flood Protection Scheme. The construction of an eleven-mile long relief channel parallel to the tidal part of the river was completed with the opening of a tail sluice at King's Lynn by the Duke of Edinburgh. He mentioned the great tidal surge of 1953 when over 1,000 acres of the Sandringham estate were flooded. Now a great anxiety had been lifted from many minds. The next stages involve deepening 19 miles of river as far as the Cam and the cutting of a new 28-mile long channel around the edge of the fens. 59 10 24 & 24a & b

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 Mr A.G. Wright, Chairman of the Flood Protection Committee of the Great Ouse River Board, has been awarded the OBE for his work in carrying out the huge flood protection scheme following the flooding of 1947. The channel outfall below the Tail Sluice is nearly complete and all work finished on the tidal river banks. Mattresses have been laid at the Wash barrier and contractors are now tendering for the third part of the scheme. "Only those who live in the fens can realise what it is to be flooded and what the effect of a protection scheme means", he said. 60 01 15c

1962 The Littleport and Downham Drainage Commissioners first met at the Club Hotel, Ely, in 1756 and it was there they gathered for a celebration luncheon before driving five miles to Oxloade for the opening of a £65,000 all electric pumping station. Lord De Ramsey switched on two 320 hp motors capable of discharging 270 tons of water a minute. Together with two diesel-driven pumps they will serve one-third of the area they administer. Two more stations will be built near Denver Sluice and at Littleport to bring a big improvement to land that was suffering from poor drainage through the gradual wastage of the peat. 62 05 16

1962 Huge sluice gates have been constructed as part of the £10 million Great Ouse Flood Protection Scheme designed to save the Fens from abnormal conditions. They will control the peak flood waters of the Little Ouse, Wissey and Lark rivers and allow them to be fed into the new 27-miles long cut-off channel due for completion next year. The new channel starting at Denver and ending at Brandon Mills will also provide miles of new fishing facilities and a new waterway for sailing enthusiasts. 62 09 27a

1963 Surveys of the Ely Ouse and Ten Mile River have shown that protective works are necessary along considerable lengths of the banks. Trials had been made of various methods of protection using specially manufactured corrugated asbestos cement sheets rather than fagotting. To combat erosion protection will need to be continuous for 310 chains – more than originally estimated – over a 3-4 years period 63 07 12

1964 Water may be let into the Old West River without detrimental affect on water levels or danger to agricultural land. With dredging it is the only hope of preserving it so that the public could enjoy its fishing, boating and other amenities. New disposal works at Over would eliminate existing discharges of unpurified sewage but future development would more than double the amount of effluent entering the river and some fresh water should be admitted through Hermitage Sluice. But the height of the river was only just below the level of the washes and if more water were let through there would be trouble halfway down the river 64 07 10c

1964 A.G. Wright saw 1,700 acres of his land at Haddenham swamped by the flood of 1947. Since then he has worked to avoid a similar disaster. He has a wide knowledge of fen drainage and has been responsible for many improvements meeting the challenge of Britain's biggest drainage scheme in the same way as he introduced mechanisation into fenland farming – with knowledge and a realisation of the enormity of the task. Now he believes the flood ménage is beaten. In honour of his work, part of the scheme will be named after him 64 09 18a

1964 A chalk inscription claiming the Great Ouse River Board's £10 million flood protection scheme was a 'waste of money' had to be removed from the Lark Head sluice at Barton Mills before it was opened. It marked the end of ten years' work on the three-part scheme which has included a 27-mile relief channel skirting the edge of the fens, the widening of the Ely Ouse and Ten Mile Rivers and the construction of a new 11-mile relief channel from Denver to King's Lynn. It is as great an engineering feat as anything ever attempted in this country. 64 09 19

1965 The Wash can be reclaimed by dumping 10,000,000 tons of ash from the Electricity Generating Board's coal-fired generating station into it each year, W.E. Doran claims. It would greatly increase the rate of land reclamation but care would have to be taken to ensure shipping channels were not impeded and that silt came in over the layers of ash to make the land agriculturally fertile. However this may be so expensive that it is not practical and water storage would be more worth while 65 03 26a

1974 In barely twenty minutes the chairman, Mr Leonard Childs, pushed sentiment and nostalgia firmly aside ... and by the close of the meeting the Great Ouse River Authority was dead and buried. It seemed ambitious when vested with wider powers to replace the Great Ouse River Board in 1964. The board replaced the drainage boards dating back to 1920, which replaced

smaller units ... and so on back into shrouded fenland history. The momentum of change gathers pace with the advent of the new Anglian Water Authority bringing a new dimension not only to water and drainage but sewage as well c74 03 17

1979 Eight miles of lodes in the Burwell district could collapse, causing massive flooding, unless £1 million is spent to consolidate them. Not everybody agrees they should be saved. Since fen drainage the peat has shrank leaving the banks 15-20 feet high above the surrounding land. If the trendy conservationist lobby is going for strict historical accuracy then it should support a project which reduces the banks, not raise them still further. But they are a vital amenity and one of the few havens of natural beauty in the region. If enough people feel strongly enough and are prepared to back starry-eyed ideas with cash then their conservation must be assured. 79 09 17 c

1981 Clay may be excavated from Burwell brick pits as part of a plan to repair the eight miles of Cambridgeshire lodes during the next 20 years. The pits closed in 1971, have flooded and become a nesting place for swans. But now the Anglian Water Authority wants to reopen them. Six five-ton tipper trucks would make 80 trips a day across the fen on temporary roads to keep traffic away from the village 81 06 02

1983 Most pumping plant in the fens has been renewed with automatically controlled electric motors but some boards fear they are too dependent on mains electric and have made arrangements for farmers' tractors to operate pumps in time of emergency. 'Conservation' is another area of potential conflict: water-courses must be kept clear of aquatic vegetation, which proves unpopular. Progress is not helped by extremists who delight in ignoring all views other than their own 83 02 28 & a and 83 02 28b & c

1985 Work has started on draining 600 acres of water meadow at Swavesey, described as an extremely valuable wildlife refuge. Cambridge Friends of the Earth say farmers' plans to plough up the meadows to grow grain – when Britain has a massive surplus – are financial madness. Every bit of this increasingly rare type of habitat is precious and they are threatening physical action to save the Cow and Mare Fen. But the Internal Drainage Board say people are worrying unnecessarily. 85 04 01

1987 A major new tourist attraction at Ely involving the creation of a working scale model of the fenland drainage system could draw thousands of visitors and create badly-needed jobs, two men believe. They have sunk several thousand pounds into a feasibility study and earmarked a potential site for the six-acre development. It would feature a model village and miniature cathedrals as well as working locks and sluices such as the Denver complex. This would allow visitors to understand the water control mechanisms with an elevated viewing area 200 feet long. Now they are looking for financial backing 87 09 23a

1987 A new pumping station at Upware, commissioned by Swaffham Internal Drainage Board, replaces an old diesel system dating back to 1929. Consulting engineer, Keith Stacey, says it was constructed in seven months by their own direct labour and they are pleased with the result. The new station has the capacity to pump 178 tons of water per minute into the River Cam from 12,000 acres of adjacent fenland. 87 11 26

1990 Vital improvement work is needed to the fen drain system because of the Greenhouse Effect. Unless work is undertaken scientists fear a repetition of the disastrous 1947 floods. They want to strengthen and heighten the outer barrier banks along the Bedford Rivers from Earith to Denver. The level of the land has steadily dropped in relation to the sea, the peat fen has fallen by about five metres since the banks were built and the Greenhouse Effect is predicted to produce an

annual rise in sea level of five mm. If the South Level bank burst it could cause damage totalling £23 million to homes, high-grade agricultural land, roads and railways. A burst on the Middle Level would be more serious because of the number of homes nearby. The landscape will see small changes as the banks are heightened but in the vastness of the fens these could hardly be said to be significant 90 01 24b

1990 Rising sea levels bring flood threats – feature – 90 05 30a, b

1990 Engineering project to protect fens starts; banks along Ouse washes from Earith to Denver will be heightened and strengthened; peat land has fallen five metres since barrier banks were built; a South Level bank burst could cause £23 million damage, Middle Level burst up to £34m. – 90 07 09a

1947 People passing over Victoria Avenue Bridge, Cambridge, must often have seen long, securely fastened and labelled packing cases leaving the boatyard there. The cases are addressed to rowing clubs in distant parts of the world, and inside each is a slender, beautifully finished racing craft. Each boat bears a small name-plate stating simply "H.C.Banham, Ltd". Banham's eights, fours, pairs, "funnies" and whiffs are known wherever there are rowing men and for many years now the firm has accepted orders from clubs in all corners of the world. Scarcity of material and labour is the only thing that prevents the ready acceptance of every order. Prices are nowadays a cause for regret. Eights that once sold for about £60 now cost £190. There is the consolation though that as the post-war world settles down to something more approaching normality, Banham boats will continue to carry the name of Cambridge all over the world c47 08 14

Cheddars Lane Sewage Pumping Station, 1920s

68.23

c.29.8 : sewage and lavatories and Cam pollution

1893 sewers started in Coldham's Lanes & Victoria Road [1.1]

1895 main sewage scheme in full flow involving deep sewers & new pumping station at Cheddars Lane, streets choked by work, much grumbling [1.2,1.19]

1897 discover new sewage scheme inadequate & needs vertical shafts at great additional expense (ratepayers protest at costs and throw out proposals to rebuild Guildhall) [1.3]

1897 Sir, - On Wednesday morning my attention was called to the state of the River Cam near Baitsbite Sluice. The water was covered with an oily matter and the stench arising therefrom was beastly. The whole atmosphere was apparently impregnated with some vapour. The havoc amongst the fish was appalling. Thousands upon thousands - I might say tons - of pike, eels, roach and dace were dead and dying, struggling to liberate themselves from their putrid, poisonous liquid. I never witness such a lamentable sight before - Thomas Banyard 27th October 1897

1897 Sir - The poisonous exhalations from the ventilating gratings in the Cambridge streets continue as bad as ever. The authorities apparently neglect to make any effort to mitigate the intolerable nuisance, and seem to court an epidemic of diphtheria and typhoid. Having occasion myself to pass along Castle-street and the Huntingdon-road I can testify to the particularly offensive conditions. Nausea, headache, sore throat, and a general low state of health are some of the minor results of the pestilential state of the town. The constant use of disinfectant in the streets might do something to diminish the dangers with which we are threatened - a Resident M.A. c1897 10 17

1897 The Cambridge public may rest assured that though there may be a great nuisance from smells yet there is very little chance of their being harmful to health. We have found out that in some of the worst cases it is due to the sewer taking away the wash from the college kitchens and everyone knows what green water smells like. It has been noticed that the smells are more particularly unpleasant when the kitchens are being washed up. That is probably one of the chief causes in the greater part of the borough of smells from the fresh sewage c1897 11 16

1897 Fred Morley called the attention of Cambridge Council to the state of the new sewers. He thought it was time people were protected from the smells which at present arose from them. The worst of them arose where three or four streets joined and the tradesmen at the corner of the streets were in a worst position than those in the middle. They were losing customers who went where there was not so much smell and one butcher said the smells had affected the colour of the meat in his shops. Further people thought it was the meat that smelt and not the manholes (Laughter) c1897 12 09

1898 On Sunday last the inhabitants of Castle End, Cambridge, were surprised by a violent explosion, and were anxiously searching for its whereabouts. It was noticed that at the time of the explosion the grating over a manhole in the street was lifted up several inches. The explosion was, undoubtedly, in the sewer. It is said that there has been an objectionable smell of coal gas in the neighbourhood, so a leakage many have taken place into the sewer. Cambridge people will soon begin to regard the sewers as something more than a nuisance - a positive danger - and expect the streets to be upheaved as by a subterranean mine c1898 01 06

1899 Mr Slingsby drew the attention of Cambridge council to the want of public conveniences. He thought the present state of affairs was a disgrace and a scandal to this civilised and intellectual town. They should consider underground lavatories for males and females at Hyde Park Corner (under the shelter), Market Hill (under the Conduit) & at the junction of East Road and Newmarket Road c1899 02 16

1901 underground toilet built at Hyde Park corner [1.4]

1902 Sir - Cambridge Corporation has its roads cleaned between the hours of eight in the morning and five in the evening. As soon as the roads become busy a one-horse sweeping machine makes its appearance and begins to sweep the mud from the centre of the road to within three inches of the kerb, and there leaves it for 36 hours. By that time the public have removed it on their clothes, or it has been splashed on the front of adjoining houses, or else the Corporation employ a few boys to sweep it into nice heaps which they leave at some place that it is convenient for the public to step into. But should there by any chance be any left the Corporation kindly send two men and a cart to remove it – Grateful Ratepayer CDN 1902 03 03

1902 underground toilets under construction on Market Hill are raided by undergraduates seeking wood for bonfire to celebrate peace at end of war South Africa June 1902

1902 A piece of work, involving operations similar to those by which the “Tube” railway was constructed, is on the point of being finished, having been in progress for nearly twelve months. It is the sewer connecting the New Cemetery with the Sewage Farm, Cambridge. Its length is over a mile and in some places it is laid to a depth of 24 feet. The greater part of the work has been done by the “tunnelling” system and carried out entirely by Cambridge men under the supervision of the Borough Surveyor CDN 1902 11 14

1903 Sir – whatever may be said about slums, in Whitechapel you could go into any house in the poorest district but you would find a flushing cistern to every w.c., and that is more than you can find in Cambridge. When we had the sewers put in the Corporation tried to have the flushing cisterns put in but they were ruled out by the objections of the large property owners. Until these

matters are remedied we shall always be in trouble, either with this epidemic of some other –
Ratepayer c03 08 14

1904 The Association of Managers of Sewage Disposal Works inspected the Cambridge pumping station destructors where all kinds of refuse turned out from households daily, sweepings and other undesirable matter is tipped into huge trucks and burnt, giving off heat used whose steam is used to pump sewage. During winter months some 40 tons of refuse is burned each day. The disinfecter was examined with interest; it was installed in 1902 and during the smallpox of 1904 was of great service in disinfecting a great number of articles using super-heated steam. They then moved to the Corporation sewage farm, Milton Road, for a practical demonstration of sewerage analysis CDN c 18.5.1904

1905 Serious allegations have been made against the sanitary administration of Cambridge in a letter to 'The Times'. As that newspaper reaches but a small section of the burgesses it would normally have been reprinted in the columns of the C.D.N. We were, however, requested by the Town Clerk not to give publicity to the complaints until a reply had been given. But now we can print both. The manner involved a furnished apartment in which a child died from diphtheria. Finding the apartments to let 'The Times' journalist took them. She claimed it had not been disinfected and a survey showed very serious defects in the W.C. between the two bedrooms. 05 02 23

1906 Dr Bushell Anningson has served as Cambridge Medical Officer of Health since 1875. Then the whole sewerage was most unsatisfactory and 800 houses in Sturton Town had only middens and cesspools. 2,000 houses had no water supply other than pumps or wells – in many cases contaminated with sewage – and there were no arrangements to cope with a serious epidemic. Household refuse was collected by private individuals who did the work for what they could get out of it. They used donkey carts which were emptied in their own backyards in the neighbourhood of Gas Lane where it was examined for saleable material such as bones and cinders. 06 03 28a

1906 Cambridge water supplies might be polluted from sewage from Cherry Hinton and Fulbourn. Householders use pails for the collection of excreta and if this is spread on the land then the possibility of typhoid organisms finding their way into the water supply must be remote. A more serious menace is the soakage of infected matter from improperly-constructed cesspools and the sewage from the Asylum. Some Cambridge people have started to boil their water. 06 06 14a & b

1906 An extraordinary sight, which ought never to occur again, is to be witnessed at Baitsbite Lock. For a hundred yards the surface of the water is literally covered with dead and dying fish – pike, roach, bream, dace and a host of smaller fry. Fishermen would never have dreamed there were as many fish in the waters. They have been slaughtered by the introduction of some noxious substance into the river. 06 10 04 & a

1908 Sir – the cartage of the sewage filth into Milton is again in full swing. Considering the outbreak of fever at the Hospital and at Cherry Hinton everyone must agree this is a terrible risk to run and it should be stopped. Crude sewage was run as usual on Sunday down a ditch to Baitsbite Lock which should supply the lower fen with pure water. This is within a few feet from where the University boats start, and would hardly commend itself to rowing clubs – 'Ratepayer' 07 09 28

1910 complaint that bathrooms not provided in new houses [2.21]

1911 river Cam fish poisoned possible by sewerage [4.2]

1912 Borough council byelaw re siting wcs etc [NI.3.4]

1912 A conference on rural water supplies heard that many villages are supplied with drinking water from shallow wells just a few yards from a leaky cesspool or privy-pit. These often leak: the emptying of such receptacles is very unpleasant work and if they are made water-tight needs doing more frequently so it often happens that a crowbar is used to make a water-tight cesspool leaky. The roofs of average village cottages are scarcely desirable gathering grounds for drinking water but often the water thus collected and stored underground is infinitely safer than from wells and being soft is usually preferred for use in tea making and cooking 12 02 02a Constance Cochrane evidence – 12 02 02b

1913 The automatic boxes on the doors of a number of Cambridge public conveniences have been rifled lately, the last to receive attention being the convenience on the corner of Mill Road and Hyde Park corner. One attendance is in charge of several of these places and the thefts have been committed during his absence 13 07 04 p7 CIP

1915 A. Sidney Campkin – profile – council involvement, includes sewage disposal scheme 15 11 24a,b,c Ch

1916 half sewage passed into river untreated, resignations from committee; due lack of care when laid pipes crack & water gets in from soil, but has transformed Cambridge from damp place to dry & healthy - few years ago impossible to dig down 7 feet without hitting water, now 20 feet, mists stopped [2.2]

1916 flooded state sewage farm due to experiments to see what possibilities; daily flow 3 million gallons, can dispose of only 2 [2.3]

1917 Sewage farm overworked – result of examination; present plant is sufficient, improvements suggested – 17 10 24a

1918 The effluent from the Corporation sewage discharge pipe, just below Baitsbite most impure, even containing crude sewage, which badly pollutes the river and the effluvia from which is most obnoxious 18 08 07 CIPof

1919 Sewage in Cam; reports says pollution in river near sewage farm. More land needed for filter beds, German labour had been asked for; hope that profits from growing crops will pay for disposal of sewage – 19 08 06e

1926 An inquiry was held into the provision of two underground public conveniences at the junction of Milton and Chesterton and Newmarket and East Roads where there would be an island in the middle of the road. The Inspector asked whether they had designed the roof to carry the weight of a heavy motor lorry; it would be a very simple matter for a lorry to jump a kerb on a foggy night as had happened at Southend when people had been injured. He also raised the question of a convenience for women and the Mayor said the matter had been very carefully considered by the committee who were anxious to get on with the work as quickly as possible c26 05 01

1926 Councillor Briggs said he was very pleased the Committee were raising the wages of men working at the Cambridge Sewage Farm by about one farthing an hour. He remembered when there was skating on the farm the chairman said it was dangerous, because there were germs about. (Laughter). These men were there daily and were engaged in a dangerous occupation, and a very unpleasant one. The men got 38s. (£1.90) a week, and extra for sludge work. They had the

best of conditions. (Laughter). They had a shed which they ran into when there was a shower. What better conditions could they have? The rate for farm labourers was 30s a week c26 06 28

1927 Public Baths open in Gwydir Street [1.16]

1936 Councillor Wilding asked if the new sewage plant would prevent "the effluvia we all notice so strongly along Milton Road" and if not, whether consideration would be given to the moving the works further from the road. Lately the smell had been terribly bad, although people in the neighbourhood got used to it. The Mayor said he was frequently at the farm and never smelt anything which could be described as "terribly bad". Mr Edwards remarked, amid laughter, that he thought the Mayor should receive nasal attention 36 06 25 & a

1939 Cambridge has expanded but the sewage disposal plan has remained practically unaltered. People were invited to the opening of the new bacteria beds which will treat half the dry-weather flow and can be expanded later. 39 06 27

1948 Pollution of the river Cam above Baitsbite Lock which resulted in thousands of fish dying was described at a meeting of the Federation of Anglers as "appalling and dreadful". Mr C. Baxter stated that on Wednesday evening the lock was "absolutely clogged" with fish of every conceivable type, not dead, but on top of the water, gasping. 2nd November 1948

1949 Cambridgeshire federation of anglers were told there were thousands of fish in distress in the River Cam near Jesus Green footbridge on July 15th. The lock keeper opened the locks to let them through. Unfortunately a lot of the fish were dead, but there was no doubt that thousands were saved. Many big fish were taken in nets by men and placed in water downstream. Many dead fish had since been seen further downstream and Major Gordon Fowler said there were dead fish "as far as the eye can see" 28th July 1949

1949 People passing over Magdalene Bridge this morning were surprised to see the usual colour of the River Cam had changed to a bright green. The discoloration extended from the bridge along the Backs of the colleges and beyond. It will be recalled that following a discoloration of the Cam last year – not then green – a public meeting of protest was called by the Federation of Anglers. 22nd November 1949

1950 River Cam polluted by discharge from firm at Bourn, tons of dead fish float downstream [1.9,1.10,1.11,1.12,1.14]

1950 Sir – It is with dismay we hear the Cambridge council's decision to defer the provision of outside lavatories for four-bedroomed council houses. Most of these have many occupants, in one case 14 in one house. Imagine the congestion and also the wear and tear of stair carpets; also think of the mother with several small children, up and down stairs, especially on wet days. Had the lavatory been built outside in the first place there probably would have never been an application for an extra lavatory. Our estate is a very pleasant place. What we have asked for is a vitally necessary thing – S.A. Charge, Trumpington Estate Tenants Association c50 05 02

1952 Sir – I write to protest against the proposed new public conveniences on the corner of Chapel Street & High Street, Chesterton. There are plenty of old men who like to congregate on the iron seat around the ash tree, for even with the existing police box it is undeniably a pleasant corner such as it will never be with a lavatory right in the middle. But there are numerous condemned cottages in the High Street and extensive rubbish dumps behind crumbling walls, not only unsightly but filthy, which would be improved for having public lavatories built on them – Mrs M. Sugden c52 08 02

- 1953 High water levels on the River Cam have now dropped considerably at all points
- 1956 sewage pumping works extension [1.15]
- 1956 further pollution to Cam from Duxford chemical works [1.16]
- 1956 Since the Cambridge sewage purification works at Milton Road were first built, over 60 years ago, treatment has consisted of settlement in tanks followed by passing the sewage to land areas from which is drained into the river. Now new extensions are being built, all sewage will be properly purified and land treatment will be ended for ever. At a later stage gas driven off during the drying process will be burnt to drive electricity generators for the works and for a new pumping station at Cheddars Lane. 56 04 26a
- 1956 Something must be done about the 'intolerable stench' from the Milton sewage farm; the recent smells were the worst for 24 years; perhaps disinfectant could be used to tone them down. Farmers wanted a plant to convert the sewage sludge into compost – many were buying it from places like Manchester 56 06 29c
- 1957 The central island containing the underground public convenience at Hyde Park Corner is to be removed to make way for new traffic signals. The toilets might be resited on Lensfield Road where trees and a fence will provide a screen from the Scott Polar Research Institute. But the University suggests that Parker's Piece would be a better location. 57 04 16a

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

- 1960 £1.3M sewage improvement scheme approved, 4½ miles new pipes Fen Causeway - Halingway; new sewage pumping station combat threats foul flooding & many residents in constant fear of flooding in storms, take up carpets & pile furniture when go on holiday; basis present sewers 1890s [3.10,3.11,3.12]
- 1960 The original pumping machinery at Cheddars Lane sewage station is still in use today with its pumps driven by steam operated engines. Until the war the city's combustible refuse was employed for supplying the engines with steam, boosted slightly by coal or coke. Then the calorific value of refuse dropped to such an extent that it did not do the job efficiently so the system was reversed with steam being obtained from coke boilers to which odd loads of refuse are added. Now a new station will be build running entirely on electricity to be generated from the methane gas produced by the sewage itself at Milton, so completing the circle. 60 11 04a
- 1960 The threat of flooding has hung over Cambridge for as long as people can remember. Some residents regularly take up their carpets and pile up their furniture when they go away on summer holiday in case a storm should occur. When this does occur premises, yards and gardens are left with a deposit of sewage and filth. This should not be tolerated, the City Surveyor told councillors. In Abbey Road the old six-foot high brick sewer has collapsed and been replaced by a pipe only two feet in diameter. A five-year improvement scheme incorporating a new sewage pumping station would cost £1.5 million. 60 11 23
- 1962 concern pollution effluent gas works [3.4]
- 1963 new sewerage scheme plans [1.18]
- 1964 A report on the condition of the 24 public lavatories in Cambridge notes a range of minor criticisms concerning the absence of toilet paper and soap or damaged taps. But such essential supplies are replaced every day and are generally as a result of theft. The council is not causal or neglectful but frugal and aims to provide the essentials at the cheapest cost consistent with hygiene standards. Over 80 per cent of repairs are a result of wanton damage, doors have been ripped off and made targets for flick knives, the City Surveyor reports. 64 01 09

- 1964 Cambridge city council are to spend up to £2,300 on taking penny slot machines from doors of toilets; they will also install wash basins and hot water supplies in the 24 toilets within the next few months – 64 04 28, major report suggest 4 are obsolete - Milton rd, King St, Newmarket rd & Petersfield [3.1,3.2]
- 1965 water & sewage floods as clouds burst over city [3.13]
- 1967 new sewer will lift ban on housing in Cherry Hinton & Shelford areas [3.14]
- 1968 Riverside pumping station opened [2.5]
- 1968 new sewers save city from floods - no extensive flooding after storm. Riverside people sand bag houses [4.5,4.6]
- 1968 Cambridge Society of Industrial Archaeology set up to save Cheddars Lane and develop as museum of technology - 68 11 19a
- 1968 New techniques for sewer-laying and new pumping station which will use current derived from effluent – detailed feature – 68 12 17, a
- 1969 Newmarket Rd lavatories, seediest, gloomiest & least used, demolished due Chesterton Bridge route [3.3]
- 1971 Petersfield lavatories demolished, are new at Gonville Place [3.3] [3.17]
- 1971 pollution outside Cambridge caused by low oxygen levels [3.6]
- 1971 Cheddars Lane pumping station to open for steam weekend – 71 04 30a
- 1971 Toilet at East Road – Mill Road junction being demolished – 71 06 17a
- 1971 Cambridge police spy on homosexual's haunts, says Liberal; photos toilets – 71 07 10
- 1972 cost £500,000 bring effluent up to GORA standards [3.16]
- 1973 discharge of raw sewage from pumping station kills fish [3.8]
- 1974 River Cam “in filthy condition” [3.8]
- 1974 city lose sewage powers at reorganisation [3.17]
- 1974 Untreated sewage escaped into the streets of Cambridgeshire villages with pumping stations unable to cope with the volume of rainwater. At least 11 pumping stations were overwhelmed. With the pumps unable to get rid of the water fast enough, raw sewage forced its way up through manhole covers into the streets. A South Cambs Health Officer said “The smell doesn’t give rise to any health hazard”. The heavy rain also meant the sewage would be diluted. Provided people washed their hands before handling food there was very little to worry about c74 11 18
- 1975 swimmers ill after swimming Cam [3.9]
- 1975 8 million gallons of effluent from sewage daily, 7.6M galls unsatisfactory [3.10]
- 1975 The River Cam is not only so polluted as to be a bather’s health hazard, but in recent years has had to be artificially aerated to keep fish alive, an Anglian Water Authority spokesman has confirmed. He spoke of children who suffered “diarrhoea and tummy upsets” after accidentally falling into the river in the Clayhithe area, and of skin divers who were ill after a sponsored Cam swim. He agreed that via Milton Road sewage works some 8 million gallons of effluent were going into the Cam daily. 14th June 1975
- 1975 Gwydir St baths losing £7,000 pa, boilers 2nd hand when installed 50 years ago [5.2]
- 1975 AWA object all new major development till sewage works extended, January 1978 [3.17]

1975 Cambridge planners have decided to refuse permission until January 1978 for all major developments in the city – because of the serious overloading at the sewerage works. But because of the general economic situation, the cut-back in private building programmes and the acute shortage of development land anyway the decision is unlikely to have serious effects on the city. A similar ban on development has been operated for nearly a year in the “necklace villages” surrounding Cambridge 75 07 18 c

1976 oil pollution in Cam from Huntingdon Road [13.5]

1976 new Lion Yard lavatories cost £22,000 a year to run [3.5]

1976 Gwydir St baths start converting community centre [446.12.7]

1976 oil pollution, Bin Brook dammed, traced to Churchill College, March [3.11]
swimmers warned over pollution levels, Jul [3.12]

1976 The River Cam is so polluted at Waterbeach that people who fall in it suffer from skin trouble and are sick if they swallow any of the water, claimed Coun Hilda Hatley. She said that a special anti-algae paint had been stripped off the bottom of a boat by the water. Councillors agreed the problem was the severely over-loaded Cambridge sewage works. 2nd May 1976

1976 The annual swim through Cambridge, organised by the Granta swimming club, has had to be cancelled for the first time in about 40 years because of the low level of water in the river Cam. Because of possible pollution problems they dare not risk the health hazards involved but hope to put the event on again next year. Typically 70-75 women and about 80 men would enter the event 22nd June 1976

1976 Giant oil slicks choked the River Cam following failures in the city’s drainage system at the height of last night’s storm. Oil poured into the already heavily polluted river as interceptor tanks were overwhelmed by the sudden surge of water and workmen erected booms at points where drains entered the river. It appears the oil could have come from the Garlic Row area and may have resulted from oil which has collected in the drains during the spell of hot dry weather 17th July 1976 [3.13]

1976 The River Cam is being downgraded from its present status as a top-class river because of its deteriorating condition, mainly due to sewage and oil pollution. Downgrading would be a black mark against the Anglian Water Authority. More money will have to be spent on sewage treatment. Its Scientific Director said there had been an improvement during the past year, but low flow had aggravated the situation. 18th December 1976

1977 Gwydir St baths close, new open at Parkside (start convert community centre 1978) [5.2,446.12.7]]

1977 Market Hill lavatories closed during day, reprieved for while [3.7]

1977 £3M spent improving sewage avoid river pollution; official opening AWA found city scheme did not get to root of problem & scrapped; 83 years after first opened Cambridge sewage treatment works £4M improvement scheme unveiled, cope with up to 200,000; Milton Road land bought 1895 for sewage farm serve 39,000; conversion from farm to sewage treatment works began 1937 but not until 1958 that use of land treatment finally abandoned; prior 1895 dumped straight into river [3.19-,3.20,4.1,4.2]

1977 annual swim through Cambridge cancelled due pollution [3.14]

Conservators criticised over filthy disgusting River Cam [3.15]

1977 There are those who say that swimming in the Cam is only marginally less dangerous than going for a dip in an oceanful of sharks. There are others who swim in the river day in, day out and are the very model of health. The two sides met at the annual visit of the City councillors to the slowly decaying bathing huts on Sheep’s Green. The Mayor said: “We’re told the Cam is polluted. All we can say is: Swim, drink it and kill yourselves. Only don’t say you weren’t warned” c 77 08 02

1978 £3M spent improving sewage avoid river pollution; official opening AWA found city scheme did not get to root of problem & scrapped; 83 years after first opened Cambridge sewage treatment works £4M improvement scheme unveiled, cope with up to 200,000; Milton Road land bought 1895 for sewage farm serve 39,000; conversion from farm to sewage treatment works began 1937 but not until 1958 that use of land treatment finally abandoned; prior 1895 dumped straight into river [3.19-,3.20,4.1,4.2]

1978 Cambridge sewage treatment works have been accused of turning the River Cam into one of the dirtiest, smelliest and most turgid stretches of water in the country. Now the works have been transformed into Anglian Water Authority's pride and joy – almost. It has been their top priority project but has generated fierce controversy with an eighteen-month sewage embargo prompting sharp criticism from local councils anxious to go ahead with development plans. At present the works cope for a population of 120,000, and there is scope for 165,000. But the river itself is already near the top of the Department of the Environment classification for chemical pollution. c78 10 28

1978 £3.7M improvement sewage treatment works completed after 2 years work, able cope 160,000 people, higher standard of effluent [3.18]

1981 Market Hill lavatories would cost £36,000 to modernise, closed [3.7]

1981 Drummer Street lavatories are smelly, bits of string helped tie the lavatory chains and the pipes were lagged with sacking. At Park Street there was no paper in any of the cubicles, no soap and no towels. One seat was missing entirely. Valiant efforts are being made to keep the subterranean convenience on the market square clean – you have only to look at the gleaming brass handrail and inhale the disinfectant smell. But I wouldn't want to have to take a child in there, even in an emergency. 81 07 16

1981 thousands of fish die after storm brings pollution, restocking take more than 10 years; blamed on AWA as Riverside pumping works unable to cope, raw sewage flowed into river at height of storm, 93% total fish stock killed [4.1]

1981 The best thing that can happen to anybody who falls in the River Cam is to drown; the alternative is to catch all kinds of horrible diseases, a councillor said. Everything goes into the river, which is one big drain. They would like it to be made safe for bathing but it was impossible to stop chemicals and fertilisers being washed in and would mean higher water rates. 81 01 29

1981 It is likely to take more than 10 years to restock a polluted stretch of the River Cam in which hundreds of thousands of fish died. Anglers say that fishing in the city has now been entirely wiped out. Around four tons have been removed from the river near Bait's Bite lock but many are still floating. It is feared that as well as causing a smell, the rotting fish could cause further pollution. It is suspected that raw sewage was washed into the river during heavy rain. 81 07 15a

1982 oil pollution - 4th serious incident in 18 months [4.2]

1984 new lavatories planned Silver St [3.8]

1984 Pembroke Street is to close to start 'absolutely essential' work in a collapsed Victorian sewer and will be a dead road for 13 weeks. The sewers are blocked in at least three places, probably by fallen brick rubble, and television cameras have been lowered into them. The answer is to replace them with new plastic pipe but this would be a long and expensive business and the city council does not have the money. Pembroke College and other people in the area are having to use restricted toilet facilities and Carter's Shoes, Pembroke Gifts, Alf Droy sports and Henry's tea and coffee shop are up in arms. 84 09 22

c.31 – population, immigrants

1904 Green Street, Cambridge would hardly be suspected of any pretensions to the romantic. Its well-ordered lodging-houses, the policemen who parade it and the milkmen who visit it, all seem to bar the entrance to anything more fanciful. Yet it is home to a Russian Pole, Mr Ignatius Knaster who became a political offender by the publication of a political pamphlet dealing with the conditions in Poland and was given the alternative of incarceration or banishment. 1904 09 03

1907 Charles Henry Swornsbourn was as well-known as any man in Cambridge. He was an albino, possessing unnaturally white skin, hair and eyebrows and pink eyes. ‘Whiteheaded Bob’ was a talented violinist who, years ago, attended undergraduate ‘wine parties’ accompanied by a harpist named Calcott. He led the band at the A.D.C. from its foundation, was musical director for the Bijou Amateurs and provided music for the Beefsteak Club when they met at the Lion Hotel. 07 10 08

1930 Cambridge Guildhall was crowded with an audience chiefly composed of young men and women, but with a fair leavening of older folk, who had come to hear Dr Marie Stopes give an address on birth control. She spoke rapidly for an hour and replied to many questions. Thousands of mothers, having had three or four children, with perhaps only one year between them, finding it difficult to get sufficient food and worn out were in dread of another unwanted child. What was wanted was spaced babies from radiant mothers. Dr Stopes had been abused, insulted and misrepresented but she made people think and talk about birth control. 30 04 30a & b

1930 Mrs Emma Gunton is celebrating her 100th birthday; she is the second Cambridge lady this week to reach this wonderful age. She is remarkable: she walks without assistance, has her own teeth and eats her meals regularly. She has never had an illness and only required the attention of a doctor on one occasion she met with an accident. Born at Bottisham she possesses a fine memory and can recall the coming of railway trains. 30 11 07

1932 Cambridge suffered the loss of a centenarian with the death of Mrs Sarah Ann Howes of Glisson Road. She was a charming old lady with many interesting reminiscences. She attended the dinner on Parker's Piece to celebrate the coronation of Queen Victoria and remembered the opening of the Cambridge railway station and her first journey to Ely by train. Things are very different today, she would say: the poor people are much better off than they were and people have more sympathy with each other. 32 01 18b

1933 "Pakistan" name given and National movement founded by Choudray Rahmat Ali, Emmanuel college 1933 16.8.1947

1935 Who can claim the greatest number of living descendants? J. Haynes of Thoday Street says: "I am 80 and have eight children living. There are 37 grandchildren and 19 great grandchildren. My eldest daughter is 39 and the youngest great grandchild 14". Miss K. Brand of Gloucester Street says "My grandmother (87) has had 12 children; there are 62 grandchildren, 62 great grandchildren and three great-great grandchildren. 35 01 10

1953 from 1953 have Polish culture lessons St Albans school 30.12.1976

1961 Three years ago there were perhaps one or two West Indians working in Cambridge. Now the number must fast be approaching 100. They have all been invited by the Cambridge Brotherhood to attend their international service at the Mill Road Baptist Church when the address will be delivered by Canon Hay, the Chaplain appointed by the Anglican Church to serve Jamaican immigrants. The invitation is extended to all friends and includes a social gathering after the service 61 02 04a

1961 Many of Cambridge's 350-strong Polish community found it difficult finding work and places to live in the early post war years. They keep Polish customs and festivities and there are clubs which provide entertainment in the form of plays and dances. The boys have a Scout group, there are Guides and Brownies and a men's choirs. The Catholics have a weekly service, those of the Evangelical and Greek Orthodox are less frequent. The children are bi-lingual and many speak better than their classmates. Would they like to go back? No. Conditions are too hard in Poland where the cost of living is treble what it is here and the vast majority are now British subjects 61 02 09b

1962 West Indians in Cambridge are having difficulty in finding a clubroom in which they can meet. At a social evening in the Romsey Labour Hall over 50 were present to dance, listen to calypso music and meet new friends from the British Commonwealth. Many of the 150 West Indians at present in the city would be keen to join a club of their own and others would travel from Ipswich 62 01 19a

1963 Steps are being taken to solve the problems of the current increase in the West Indian working population of Cambridge. Though small, the increase in the number of coloured people is causing problems of housing, child care and general social welfare. Housing is one problem: often the only way they can make ends meet is to fill the house with many paying tenants. When both parents go out to work there are difficulties with getting child care facilities 63 06 18

1988 Cambridge's large Polish community celebrated 40 years in the city at the Polonia Club in Chesterton Road. They have built up an impressive network of activities ranging from a drama society and folk song ensemble called Klosy to a school founded in 1952 to teach Polish language and culture. When Josef Mazur came in 1947 the only employment open to Poles was labouring, work in the mines or domestic positions. The older members of the community are suspicious that youngsters will not uphold the traditions. 88 11 23c

Hunger marchers, October 1932

c.32.1 : employment

headlines

1903 Since the declaration of peace last year the ranks of the unemployed in Cambridgeshire have been swelled by the steady influx from South Africa of thousands of discharged soldiers and reservists which has seriously upset the labour market. One cannot pay a visit to the tramp ward of any Workhouse without being impressed by the number of inmates who are evidently returned “heroes”. In 1901 7,754 vagrants were relieved at the various Unions in the district, last year the number had risen to 9,591. Cambridge spends the least per head – two shillings and three farthings – whilst Linton spends the most, six shillings and eightpence halfpenny. c03 03 24

1904 corporation reject suggestion they should start work to aid unemployed [1.13]

1904 The coming winter will be one of the worst for the employment of labour known for many years. The building trade, so important to Cambridge, is the one most affected. The reason is in part the wave of depression that is sweeping over the whole industrial life of the country but also because Cambridge is rapidly becoming overbuilt. The conclusion of the new University buildings have also thrown a number of artisans upon the labour market. We have never known so many men out of work at this season of the year. One bright spot is that the three cement companies will provide work for some 350 men CDN 6.10.1904

1904 Cambridge Corporation has made arrangements to provide extra work at their stone-breaking yard with the object of relieving distress. The granite used for the roads is customarily brought here in its broken condition. Just now however much of it is being reduced to the requisite size at the stone-yard where they are prepared to employ any applicant who lives in Cambridge. The rate of payment is 3s.6d. for every cubic yard of granite broken and it is possible to earn about 14s weekly, enough to keep a man from actual starvation. But the pinch of want has not been keenly felt by the lower class of labourer at present for only one application has been received. 1904 11

1904 Distress is likely to be more acute in Cambridge this winter than for many years past owing principally to the slump in the building boom locally and the depression in trade generally. The Church Army has evolved a scheme through which married men may obtain work. A number of tickets are issued to philanthropists who fill in the name of a married man in need of employment and offers to repay the Army one shilling towards the cost of employment. The man is found work wood chopping or log sawing and is paid about 2s.6d. a day. But the Home is now overloaded with the produce of its labour and there are 25,000 bundles of wood which must be sold to the public before it can continue. CDN 26.11.1904 [1.4]

1905 This distress this winter must be greater than usual; already 28 unemployed men have been found work at the Botanic Garden for four days a week for which they receive 10s. About 60 loads of compost have been prepared, leaves raked and much washing of glass accomplished. One man with heart disease has been found sitting-down work picking moss for orchid culture. Further men may be employed depending entirely upon contributions; the curator is willing to receive any sums for the Winter Employment Fund 05 12 09b

1906 building trade dull, “as soon as building ceases in Cambridge distress begins”, but corporation set aside work of great magnitude, trench for Cherry Hinton sewer, for winter season to aid unemployed [1.14]

1906 council seeks to join in Queens unemployment fund [1.5]

1906 Unemployment – 250 carpenters and joiners etc – 06 10 30b

1907 Not one Cambridge boy in 30 learns a trade; parents grasp at a few shillings as early as possible. Some were taken up by printers and the University offices but the most promising work was in the motor and cycle industry. One eleven-year old worked 28 hours a week outside school hours cleaning stables during the dinner hour, all Saturday and three hours on Sunday. Another, aged 14, put in 32 hours a week selling papers. They spent the money on food and cigarettes. 07 05 16 & a

1907 Post Office telegraph messenger boys are subject to a short drill every morning; they learn discipline, obedience and punctuality and can become members of the Albert Institute with its facilities for further education and sport. They must leave the job when aged 16 and have previously become postmen. But now half the vacancies have to be reserved for ex-servicemen and the Cambridge Postmaster has a list of boys ready for jobs in the outside world. 07 09 10

1908 The Somerset Winter Employment Fund has found work for 30 men at the University Botanical Garden. Some have been leaf raking, others clipping hedges, cutting trees or digging plantain out of grass. They were labourers, painters, carpenters and bricklayers, many of them with families dependent on them. Subscriptions have been received chiefly from members of the University but there is good reason more should come from townspeople – the garden is freely open to the public. 07 12 28a

1908 To the casual observer there seems a minimum of child labour in Cambridge so it is something of a shock to learn that 266 are engaged in some occupation out of school hours. Now no child may be employed as a lather boy in any barber's shop, nor in connection with the sale of intoxicating liquor on licensed premises, nor in billiard or bagatelle marking, nor in the kitchen of any hotel or refreshment room. Badges must be worn by those engaged in street trading for which a deposit of threepence will be charged, councillors decided. CWN 08 06 05 p7

1908 In Cambridge the University vacations continually throw many boys and men out of work and create a class of idle and useless men who live on their wives' earnings when they can, and at other times are destitute. Many women work as bedmakers but others can neither cook nor keep their houses tidy. Improvident early marriages between young men and women who have no savings to furnish a house, no experience to teach them economy and no solid mutual affection to help them bear hardship are the source of great and prolonged misery. CWN 08 09 11 p

1908 Although we are far removed from the din of industrial strife, the wave of depression that is sweeping over the trade of the country is making itself felt even in Cambridgeshire. What local industries we possess appear to be flourishing, labour on the land is fairly constant and the labour required by the colleges varies but little. But the number of people making use of the casual ward of Cambridge workhouses has been increasing with 818 vagrants during the previous fortnight as compared to 184 last year. CEN 08 10 02 p5

1911 Labour Exchange opens Guildhall Street, moving to Regent Street in September; Aberdeen man one of first to use service, asks "why are there so many hard-working ... men on the scrapheap .. degradation & misery" [2.7,2.9]

1911 Cambridge Labour Exchange to open – 11 03 24d

1911 The new Labour Exchange in Guildhall Street was visited by large numbers of people, most of whom contented themselves with scanning the red-boarded notices of situations vacant posted up in the windows. But about 40 applicants for work gave their names and some were at once notified of vacancies. Exchanges all over the country are linked up and the Cambridge office communicated by telephone with the Aberdeen Exchange to help a Scottish man find work. There are vacancies for motor repairers, electrical fitters and shorthand typists and a good demand for healthy men expert in pick and shovel work who are willing to go to Australia as railway labourers. 11 03 31e

1911 day after Bank Holiday is busiest of year for pawnbrokers - due to loss of 3 days wages on Good Friday, Saturday & Monday [2.7] 6

1911 The Cambridge offices of the Board of Trade Labour Exchange have been removed from Guildhall Street to Regent Street and the work of finding and filling vacant situations is going on smoothly. The site near Hyde Park Corner most convenient with larger rooms for men and women. Every effort is made to encourage applicants to make use of the office as a waiting room – not a smoke room – with daily papers and magazines where they may remain in the hope they will be the right person in the right place when a job turns up. 11 10 06

1912 The Unemployment Insurance Scheme provides for payment of contributions by all employers and workpeople in certain trades and for the payment of benefit to the workpeople when unemployed. In Cambridge it will be administered by the Labour Exchange in Regent Street who are distributing leaflets. The scheme covers house building, railway construction and shipbuilding – which applies to local boat builders – while ‘vehicle construction’ will include people repairing cars and bicycles. 12 06 28f

1914 Trade & employment in Cambridge have not been hit by the war. But with nearly 600 students missing, colleges that are hardest hit will be unable to keep on all their servants. Twenty per cent of builders are now out of work. Many women are employed in the jam factory at Histon and in the two knitting factories where War Office orders have provided more work than usual. Women have obtained posts vacated by men clerks who have gone to war but a large number of day girls are out of work owing to the plight of the lodging-house keepers. As these girls are in many cases the daughters of women who are themselves injured by the war, this state of affairs means a further depletion of an already scanty income. For good general servants there is a greater demand than supply, but there is very little demand for the services of any of the better class of servants and the number of between-maids out of employment is especially large. Hand laundresses have been very hard hit by the war. The great majority of these women are normally engaged in working for the colleges and, owing the stoppages of games, the amount of washing sent per man is much less this term. When the woman is the chief breadwinner of the family their position is extremely serious. The laundresses themselves are not in such a bad plight, for many have made considerable sums during the busy six months of the year and many of them have savings laid by. But only in very few cases have they got husbands in independent work. A large number of tailoresses are entirely unemployed and the remainder are working short time. Some have gone to Leeds to work making khaki uniforms and others will probably follow. The better class dressmakers seem more affected than the inferior ones Business is slack just now and is expected to be much worse after Christmas when business is usually slack. The dressmakers and milliners’ hands employed in shops seem to be on short time. Here too the better class shops are worse hit than the cheapest establishments and several employees say they will be unable to keep their hands for a prolonged period without a considerable improvement. Shirt makers are busy at present but their usual work is almost entirely replaced by the making of shirts for officers’ outfits and there is apprehension that at the end of this term this work will be to a large extent cease 14 12 11

1919 Out of Work.—We are very much concerned (says the writer of Town and Country Topics) at the announcement made to the Mayor last week-end that there are some 1,031 people out of employment at Cambridge. This is a very serious matter, and the question we should like to have decided at once is whether this unemployment is a matter of necessity or choice—in other words, whether it is due to lack of opportunities of work or is being fostered and maintained by the unemployment pay. We are disposed to believe that the latter is the case, especially with regard to the unemployment of women. Everywhere one hears of women being wanted in domestic service, but apparently the majority of them have: made up their minds not to take up

such service, except upon terms and conditions which they cannot seriously hope to obtain. We believe that the out of work pay is responsible for a good deal of the (existing) trouble and we hope and believe that the nation will insist upon a prompt and thorough revision of the situation.
19 02 19 CIPof

1919 Long vacation brings problems of seasonal unemployment; far-sighted men planned scheme for employment not dependent on University with industry and advertising Cambridge as holiday town. Town Planning Scheme formulated – feature – 19 08 27b

1920 Prince Albert visits Cambridge Labour Exchange & Unemployment centre - CDN 20 02 20

1920 Cinemas or houses – work wanted for unemployed, no skilled men are out of work; cinema could be finished before any housing scheme would be ready and men had pledged to leave any work for housing when needed - CDN 20 07 09

1920 Two new roads to make work unemployed – from Cherry Hinton Road to Mill Road (near huts to Brookfields) and from The Grove, Newnham to Trumpington Road via Coe Fen Lane – 22 12 22b

1920 Disabled ex-servicemen employment, 18 men being trained in tailoring, 12 each in jewellery, clock repairing and carpentry, 40 in diamond-cutting; photos in English Leather Co boot repairers and man driving traction engine – Ch 20 12 29a

1921 deputation to Mayor and Guardians of the Poor, within a week they start scheme which employ 263 men [1.7]

1921 721 unemployed [2.4]

1921 ‘Cambridge Unemployed’ – Labour Party demonstration Parker’s Piece – photos – 21 10 12b

1922 Unemployment Committee opens soup kitchen at back of Barnwell theatre [2.2]

1922 Council start construction of road from Cherry Hinton Road to Mill Road to make work [2.3]

1922 The designs of Cambridge town council to provide work for the unemployed by the construction of a road between Cherry Hinton and Newmarket road which had the sanction of the authorities have so far failed owing to what on the face of it appears to be a squabble between the committees concerned and the owners of property affected. It is high time something was done as at the present rate of delay - two winters have passed and a commencement has not yet been made - the unemployment crisis will be over before a pick or shovel has been set going. Meanwhile approaching £200 a week of ratepayers money is being spent upon relieving destitution caused by lack of work in Cambridge - "Table Talk" c22 04 08

1922 T.A. Reavell, the manager of the Cambridge Labour Exchange is leaving. The Deputy Divisional

Controller from the Ministry explained that in the interests of economy two of the large divisional offices had been closed and posts had to be found for the officials. Mr Almond felt it was but a sample of the high-handed and autocratic system which prevailed in which Ministers were now permitted to over-ride and interpret Acts of Parliament according to their own idea. This was seconded by Mr Shadbolt on behalf of the workers panel and echoed by the Master of Downing, chairman of the Local Employment Committee c22 05 09

1922 Sir. Cambridge is a University town, supposed to respect and consider its inhabitants. My husband served with his Majesty's Forces abroad for four years. He has been unemployed nearly two years and willing for any kind of work. His labour dole now being finished, and I myself not being able to work to keep our home going, he was forced to apply to the Guardians for relief and was told this morning that relief could not be granted but that he could have a ticket to go into the

Workhouse. Is this the reward our men receive for all they have done? - letter from An Ex-Serviceman's Wife c22 05 15

1922 The Central Committee on Women's Training and Employment hope to open a centre in Eden Street, Cambridge, for training girls in all branches of women's work including cookery, laundry, housewifery and health subjects. It is believed that many girls are prevented from taking up domestic work through lack of the money to buy the necessary outfit. In their needlework classes they will make their uniform and at the end of the training each girl will be completed with a complete uniform. The period of training is generally 13 weeks and the chance which this course gives to unemployed girls to make a fresh start is one which may not recur, and which should not lightly be refused c22 11 04

1922 The urgent need for carrying out schemes of public importance in order to relieve the unemployment situation in the Borough were admitted on all hands at the meeting of the Cambridge Town Council. During the past two years they had been endeavouring as far as possible each winter to find work for those men who unfortunately were out of employ. Last year they were able to place 200 men on the Sewage Farm. That work had nearly come to a close. It was stated that there were 800 men out of work in the Borough which was an increase of nearly 100 over last year. Suggestions for further work included underground lavatories at the junction of Victoria Road, Chesterton Road and Milton Road, a bridge across the Cam at the bottom of Walnut Tree Avenue and a recreation ground on the Rock Estate c22 12 12

1923 men employed doing relief work strike as they are not getting Trade Union rates [1.8]

1923 Coe Fen road scheme agreed to provide work for unemployed [1.9]

1923 Under the Government's immigration scheme, the Cambridge Juvenile Unemployment Bureau has sent out to Australia five boys. The first of these has return home a interesting letter in which he says: "It is a pleasure to me to write and tell you my experiences in Aussie, and if you are the means of inducing any other young fellow to come to the land of sunshine, it would please me more. J. and I have stuck together. We were in the same cabin in the boat, which held eight bunks. Ours was a slow boat. It took us over two months to reach Australia. I have been at Moss Vail over 10 months and am never short of a few pounds. I think it is a pity that more boys do not come from Cambridge. You have such a number of unemployed. Of course one has to work fairly hard but work has done me a power of good. I would not hesitate one minute to recommend any young fellow to come to Australia c23 10 05

1925 unemployment grants cmte contribute £320 towards labour on Jesus Green sports ground [NI.1.17]

1926 opening of Coe Fen Road ; Mayor & co arrived on bus, 'project of relieving Silver Street traffic & making better communication between Newnham & town started as long ago as 1904. In 1923 plans approved, had been 9 different proposals, 'if not for urgency of the unemployment question we should be in the same position today only instead-d of 9 there would have been 19 scheme (built as 'employment job', 90 unemployed men had been found work on scheme). Public enquiry held Feb 924, work started May 1924. Had been considerable opposition – 'ugly & spoil amenities of Coe Fen & Sheeps Green - but this some monstrosity they had conjured up"

1926 Sir – Probably the hardest-worked and the poorest paid college servant is the kitchen porter. In full term he puts in from 13 to 14 hours a day and at the end of the week if he draws 25s. (£1.12) (his food included) he may consider himself lucky – and perhaps the less said about the quality of some of the food the better. They get few tips – an average of 4s. (20p) a term, and perhaps nothing, and in all probability have to stand off during the Long Vacation. These men are honest and trusted servants who should be paid a living wage – A British Worker c26 08 30

1926 Sir – the average wages of porters in college kitchens before the war were about ten or eleven shillings per week of 85 hours. At that time they got more money in tips than now. I have known many kitchen hands whose pay per hour worked out at three-farthings to a penny. Today they have a pension scheme (I believe at 65) but few live to that age. Some of the humane employers now pay wages during Vacations having come to the conclusion that an employee wanted something to eat, even when resting in the purer air of Parker's Piece – A.D. Somme c26 09 04

1928 Undergraduates were in a tin at the Cambridge Police court when King's College and Trinity College were fined for employing male servants with having in force licences as required. It was unthinkable that such bodies should attempt to evade payment but they had received no reminder from the County Hall. This was not an acceptable excuse: they were large and responsible bodies accustomed to regularly employing a number of servants and should be more scrupulous than ordinary citizens to see the duties were paid in proper time. c28 05 19

1929 a programme of work approved which would give employment to 250 men for 12 months at cost of £108,263 & is submitted for Government approval [1.11]

1929 There are about 800 unemployed men in Cambridge, due to seasonal work and the closing down of the Cement Works, one of which had closed permanently though the others would reopen in a short time. They include 84 builders' labourers, 138 painters, 32 carpenters and 16 plasterers. The council has drawn up a programme and 134 men are working for the Borough Surveyor but they urge all who had work for painters, plasterers or builders to put it in hand at once. CDN c 22.1.1929

1929 Cambridge did not become a munitions-manufacturing area on the outbreak of the Great War. The consequence was that its full quota of men joined the ranks and left the district. Now, ten years after the Armistice, we are being reminded that hundreds of baby boys and girls did not come into the world at all. There is now a real lack of errand boys with 60 employers seeking them. This will create a serious position for shopkeepers in years to come. About 100 domestic vacancies for girls are also waiting to be filled. If the school-leaving age is raised the difficulties will be increased. CDN 12.10.1929

1929 Cambridge Corporation has made arrangements to provide extra work at their stone-breaking yard with the object of relieving distress. The granite used for the roads is customarily brought here in its broken condition. Just now however much of it is being reduced to the requisite size at the stone-yard where they are prepared to employ any applicant who lives in Cambridge. The rate of payment is 3s.6d. for every cubic yard of granite broken and it is possible to earn about 14s weekly, enough to keep a man from actual starvation. But the pinch of want has not been keenly felt by the lower class of labourer at present for only one application has been received. CDN 26.11.1904

1930s 13 unemployment relief schemes started [1.2]

1930 new stone paving laid parallel to Queens Road [2.5]

1930 The policy of building more rooms in college and drawing in as many men from the lodging houses is creating a serious outlook for the lodging-house keepers. Many have been told their rooms will not be required next term. If the University cannot continue to utilise services which came into existence to serve their needs some then other employment will be needed. If the University ceases to provide adequate support Cambridge will have no alternative but to seek other means of livelihood. We will be loath to see the town industrialised but people must live. 30 07 05b

1930 Work has started on the provision of a model yacht pond and paddling pool as part of an extensive scheme for the improvement of Sheep's Green. This is one of numerous schemes for

providing work for the unemployed and when operations are in full swing about 70 men will be employed. The Ladies' and Men's Bathing Place will also be extended 30 07 12b

1930 Cambridge councillors have received consent for a new road from Milton Road to Histon Road at a cost of £18,135. St John's College would give the land which was required for housing purposes, it would be one of the best estates and the frontages would sell at very high price.

Grants have been received for King's Hedges and Green End Road as part of the unemployment scheme with one-third of the labour being imported from the distressed areas. 30 07 25d

1930 Great anxiety is being felt by Cambridge's 2,000 railway employees over the Companies' drastic proposals on rates of pay and conditions of service. The tobacco and other luxury trades were affected at the time they accepted a reduction in wages to ease the companies' financial difficulties temporarily but this would have a serious impact on the spending power of a large number of relatively high-salaried men. Coming at a time when trade enterprise in Cambridge is approaching its zenith and the University is being appealed to for commercial support the prospects may be regarded with concern. 30 11 14

1931 Sir – what prospects are there here for a healthy, ambitious man anxious to get on. The colleges are nice to look at but not much use in finding employment for men with growing families to clothe. The nearest factory is Chivers and when one sees the cleanliness of Histon and signs of prosperity and happiness of the villagers one marvels at how anyone who has to work for their daily bread can like Cambridge where the majority of local men are underpaid and discontented – 'King without a castle' 31 08 21k

1932 Cambridge people rally to government call to sell gold, jewellery & trinkets to help national financial crisis "this is a time to spend ..." get local cash flowing as an aid to unemployment; "buy new clothes, furniture or extra food. Have your house decorated or painted. A prompt response to this appeal will lift thousands of homes from misery into happiness by Christmas [32.1]

1932 suicides on increase caused by unemployment mayors appeal for jobless gathers £1,122 within 2 weeks; money devoted to creating work schemes put forward by Borough surveyor offering employment to 68 men in alternate weeks new road started from Cherry -Hinton Road to Coldham's Lane [1.2]

1932 1,400 unemployed in December [1.3]

1932 Members of the National Unemployed Workers' Movement organised a meeting opposite a house in New Street, Cambridge in the interests of a resident who was threatened with eviction. The man was a rag and bone dealer with two children whose application for relief from the Public Assistance Committee had been refused on the grounds that he was not starving. A Defence Committee was formed to oppose his ejection and a demonstration will be arranged on Parker's Piece 32 09 30bb (picture 32 09 30d)

1932 About 1,400 men are unemployed in Cambridge but there were plenty of jobs to be done by unskilled labourers. The Mayor proposed a subscription fund to pay for work over the Christmas people. The alternative was to levy a special rate for the relief of unemployment – it would save spending money on benefit. But there were hundreds of people who had the hardest difficulty in meeting the existing rates – some going without food. 32 12 16b & c

1933 Master Builders & Decorators advert : "Do you realise that 1,653 able-bodied men are totally unemployed in your own town. Do you realise that of this appalling total 543 men are of the building trade". Help the unemployed by spending money on home improvement new road built from Hills Avenue to Cavendish Avenue to provide work [1.1]

1933 The Mayor, (Ald Mrs Keynes) expressed her appreciation for the support her fund for providing work for the unemployed is receiving. There are 1,600 unemployed men in Cambridge but 120 who have done no work for a year are now making the path on Long Road and levelling

Coldham's Common. Another 80 will level the building ground in Brook's Road and the site of the new school and playground in Gilbert Road. 33 02 03e

1933 unemployment situation – 33 05 22

1933 The club for unemployed men at Fellowship House, Fitzroy Street has been renovated by members and now present a very cost appearance. It has a club room and canteen, a workroom fitted with benches at which men do woodwork and picture framing, a concert and lecture room complete with a piano purchased for three shillings, and a ping-pong and billiards room. During the war the Welsh troops had used it as a cookhouse, later it became a brush factory and furniture store but no better use could possibly be made of it. 33 10 21

1933 Unemployment in Cambridge is serious: 965 men and 84 women were out of work. The University Library was nearly finished and the great building projects in the town completed. But work continued on Queen Edith's Way, Long Road and the Hundred Houses Estate as well as the paddling pool on Coldham's Common. The Minister of Transport was keen to do away with level crossings and replace them with bridges; this could mean serious expenditure but provide employment for a great number of men. 33 10 20

1933 Collins' Agency, High-Class Registry for Servants at 55 Regent Street has been established in Cambridge for over 28 years and now has offices in Bridge Street, at Peterborough and Chelmsford. The extent of the business is shown by the fact that in 1937 more than 1,500 ladies were suited with maids in spite of the great dearth of servants. Collins' Agency advertisements regularly appear in Cambridge newspapers 38 11 26

1935 An open-air demonstration under the red flag against the new Unemployment Bill was held on Parker's Piece supported by the University Socialist Society and Labour Clubs. A crowd of nearly 100 assembled. There are two-and-a-half million registered unemployed but there had been an increase in production without an increase in wages. The worker had become the slave of the machine, not the machine the tool of the worker. Mr H.C. Bibby spoke on camps for the unemployed: many who took part had the best of motives but they could develop into terrible concentration camps. 35 02 25

1936 Byelaws that prevented children doing agricultural work for more than four hours a day during school holidays were a hardship for farmers – they could not even employ their own sons to help with the harvest. But one 13-year old boy had worked in the harvest field from eight in the morning to eight at night, six days a week, for a full harvest, and was paid the magnificent sum of twelve shillings. The farmer did not put his own children in the harvest field – would they allow their own children to do that? Councillors agreed to allow children to be employed in light agricultural work, not involving heavy strain, for up to nine hours during the summer holidays. 36 03 06b

1936 Undergraduates demonstrated support for 130 hunger marchers from Durham on their way to London to protest against the Means Test and new scales of benefit. At Girton College girl students served them tea and buns before 250 undergraduates joined the procession carrying torches and banners. There were meetings in the Co-operative and Labour Halls before the protestors had an evening meal in the students' rooms. At Cheshunt College some of the marchers ate in hall. Having slept in the Corn Exchange they continued to Saffron Walden where the Labour Party entertained them with lively tunes from a loudspeaker van. The march is due to arrive in London next weekend. 36 11 02 & a

1939-48 Central Government increase employment by 350% at 'Butlins', Brooklands Avenue (due to establishment of regional government during war)

1947 Only in cases of "exceptional hardship" can private householders hope to employ in domestic service the displaced persons now coming into the area to help relieve the labour

shortage in certain industries. Since the beginning of June some 1,400 of these displaced persons have arrived from Germany at a West Wrattling holding camp. Their nationalities are Latvian, Lithuanian, Estonian and Ukranian. Ages range from 25 to 40. The jobs woman can take include laundry work, domestic service in hospitals and hostels, and agriculture, and these are the sort of jobs they have taken in this region. Men, too have gone into agriculture. I understand that another camp accommodating about the same number will shortly be opened in Bottisham c47 08 05

1950 returning men make employment difficulty “unless all go to ‘Butlins’” [1.10]

1952 Nearly 1,000 college servants in Cambridge are being urged to join a trade union – and enjoy the benefits of a first-ever “College Servants’ Charter” as a result of the Industrial Disputes Tribunal decision affecting more than 80 workers at Gonville and Caius college. Circulars are going out from the Transport and General Workers’ Union to college employees, including bedmakers, cleaners, porters and gardeners impressing on them the importance of “getting together”. Since the wage claim at Caius was first submitted individual pay has gone up in some cases by as much as £1 12.6. a week. A kitchen porter now gets £4.15s.0d. minimum, a maximum of £5. A buttery man who received £5 now gets £6.7s.6d. There has been a £1 a week increase for cooks. CDN c 7.2.1952

1956 The Cambridge Employment Exchange at Newnham used to be a school and the exterior is a little drab. But inside an astounding transformation has taken place. Now it is bright and pleasant, with pastel shades and the setting up of cubicles in which business may be conducted with a welcome degree of privacy. The Women’s Section too has been decorated. 56 05 12

1956 Several hundred civil servants at Brooklands Avenue will be out of work as a result of the Government’s decision to close down this regional centre. Nine departments will be affected and only a very small nucleus will be retained at the site. It is more economic to have them operate from London. Cambridge sprang up as a Regional Centre during the last war. 56 11 22

1957 The Appointments Board in Chaucer Road is the undergraduates’ “labour exchange”. The Secretary, J.G. Davies interviews 1,500 students every year, some after they have done National Service or after a year’s not-to-successful search on their own. A small intake, a dozen each year, go into atomic research where the standards are very high. There is a demand for mathematicians because of the development of automatic computers and economic analysis in Government offices but a desperate shortage of teachers specialising in science 57 04 26

1959 employment exchange offices move to Brooklands Avenue, at Newnham for nearly 30 years after move from Regent St; 1st set up under Labour Exchange Act 1909, with extension of Unemployment Insurance Scheme & resettlement following WWI work of exchange increased tremendously & local district offices set up to help; at present only 340 men & 67 women unemployed in Cambridge area; 27 years ago 1,500 registered, July 1938 1,400; since war average monthly figures varied 188 in 1951 & 539 last year [14.1]

1959 The Employment Exchange which has been sited in Newnham for nearly 30 years is moving to Brooklands Avenue. It provides a register of people seeking professional, managerial and senior executive posts and employees wishing to fill such vacancies. Nearly 200 men and women as well as ex-officers from HM Forces are included. The passports department and National Service registration office will also be affected. 59 04 07

1961 unemployment in Cambridge 0.4% (national average 1.3%) [3.1]

1963 Several Cambridge colleges have increased the wages of their bedmakers. At Jesus, where unrest led to union meetings, they have risen from two-shillings and tenpence to three-and-

six an hour (about £3.10 at today's prices). Members of the kitchen staff have been given one free Sunday in three, a substantial improvement on their previous situation. But the question of overtime rates remains in dispute. St Catharine's and Selwyn have also raised wages 63 11 25b

1972 referendum of change of wage negotiations, Cambridge University Assistants oppose ASTMS claim to share bargaining, vote is a tie; NALGO & NUPE start; 22.5% increase agree non-technical grades - cleaners etc; CU formally recognise Trade Union for wage bargaining [19.8]

1973 "high cost of living & shortage & cost of accommodation together with dearth of ordinary entertainment facilities are creating a shortage of labour" [3.3]

1973 "job glut for school leavers - 17 vacancies for every unemployed school leaver" [3.4]

1975 Jobcentre opens in Guildhall Place [3.5]

1976 "Cambridge has lowest rate of unemployment in country, 2,343 unemployed [3.6]

1976 "500 city area school leavers could be jobless" [3.7]

1976 ACUA wins recognition of TU, not affiliated TUC [19.10]

1976 Because of its low unemployment figure Cambridge is a labour-importing city. Up to £3,000 worth of government grants could be given to a man and his family in an area of high unemployment to persuade them to live and work here. The new Jobcentre in Guildhall Place has aptly been described as a job supermarket. An inviting window display tempts people into the well-carpeted warmth. The centre employs 26 people who find their work far more enjoyable now than ever they did in the days of the Labour Exchange c76 02 05

1979 Attempts are being made by Cambridge's 'dirty jobs' strikers to close a number of city schools in support of their £60 a week minimum pay claim. Hundreds of workers are on strike. Householders are being urged to take their own refuse to the Coldham's Lane refuse tips as collections have been suspended indefinitely during the pay dispute. There were several minor accidents as drivers faced treacherous roads made worse by the overnight freeze and the supply of salt for roads is almost exhausted. Yesterday the Botanic Garden recorded 4½ inches of snow – the biggest fall since 1963. CEN c 27.1.1979

1979 Spillers close Sleaford St bakers, 200 jobs lost; adds to crisis with R.H.Smart builders & Pye Engineering Services cCEN 2 & 5.3.1979

1980 400 in rally to highlight youth unemployment [3.8]

1981 Marks and Spencer's newly-extended Cambridge store includes a roof garden for staff. A three-course lunch in the staff canteen (with flowers on the table), costs 10p. A shampoo and set is £1.25 and a visit to the chiropodist costs 50p. There is a staff medical room and a dentist calls every six months to check teeth. Wages are not high – though the £64.50 a week gross pay for a full-time sales assistant is above the average - but there is a pension and profit-sharing scheme 81 09 03

1982 Many of the 500 hard core of youngsters at present on the dole in the Cambridge area will probably never have jobs, a Careers Officer says. "We are writing off a generation; at one school three out of 100 wanted to go to work, the rest were going into further education". Youth Opportunities courses in electronic and mechanical engineering have only four applicants for 22 places as youngsters don't want to do them. They prefer outdoor work, such as building labouring. 81 12 16

1983 a unemployment at 6% is half national average, Thatcher says this due to success of Science Park [1.6]

1985 Skilled technicians, computer programmers and systems analysts are now at a premium in Cambridge and are being bought and sold like footballers between firms who pay transfer fees to get the staff they want. The Itec centre in Hooper Street is making a small dent in the problem by taking youngsters with no formal qualifications and training them on technical subjects. Of 28 taken on so far, all but one have got good jobs. 85 01 21a

1985 The Andrew Murden Centre for the Unemployed and Unwaged is not just for the bored and depressed. Its main aims are to give advice on welfare rights and organise activities to stop people going stale in body and mind. But too few of Cambridge's 4,000 jobless are aware of it. The Centre would like more women to make use of the crèche and to expand their work with schools and youth groups. But there is not significant youth unemployment and the few out of work often join Government training schemes. 85 12 02c

1987 Midsummer Glassmakers quits, cannot recruit new staff due house prices [NS.1.6]

1987 crisis finding staff, jobs at all levels begging with recruiting campaigns in Liverpool etc; problems cheap housing for people taking low-paid jobs (but specify age, ability, skills etc) ¢CEN 11.9.87)

1987 NHS scheme help low-paid staff buy houses ¢CEN 11.9.87

1988 A major staff crisis is threatening to cripple Cambridge's service industries. Firms are desperate to recruit but cannot get the people they need. The problem is deepest in the lower-pay sector where sky-high property prices and soaring cost of living are deterring potential workers from applying for jobs. The Health Authority has acute problems getting domestic, catering and nursing auxiliaries as well as clerical staff. The city has achieved 'full employment' with only three per cent jobless. 88 08 19

1988 Co-op say acute shortage in retail trade staff, need bus staff in ¢CEN 25.6.88

1988 unemployment under 3% - "full employment" ¢CEN 14.7.88

1988 shops hit by staff crisis, hundreds of retail jobs going begging at Xmas ¢CEN 26.11.88

1989 "East Anglian salaries need to rise 27% to keep pace inflation" ¢CEN 7.4.89

1989 County Durham officials try to attract Cambridge firms to North ¢CEN 8.6.89

1989 city council staffing crisis - poor pay & severe work pressure ¢CEN 20.4.89

1989 Topexpress, Science Park axes 20 jobs ¢CEN 1.11.89

1989 The Cambridge bedmaker might be an endangered species. Many potential bedders are being wooed by supermarket and 'Yuppie' couples prepared to pay above-average rates for a suitable cleaner. There are almost permanent advertisements but they attract fewer applicants. The standard rate is £2.75 an hour, around 50p less than that offered privately. Bedmakers usually work a 20-hour week though with the current shortages many take on more hours. But there are bonuses during the conference season and regular chats with the fellows make the job different each day 89 02 22a & b

c.32.3 - Commons

1894 Cambridge University & Corporation Act gives considerable power of regulation over commons including power to enclose from time to time all or some part of Midsummer or Jesus Common & Butt Green [MPP.49,MMC.28]

1894 Royal Show held on 64a of Midsummer Common, Midsummer Fair held on Stourbridge common [MMC.9]

1894 Christ's Pieces bandstand erected, was originally built for Royal Show on Midsummer Common [1.18]

1894 Parker's Piece lamp standard erected [1.4]

1895 Coldham's Common new railway line & sketch of excavator [NI.1.8]

1896 Parker's Piece protest re closure to footballers [NI.2.1]

1897 Great Jubilee celebrations include dinner to old folks on Parker's Piece, largest witnessed in Cambridge & sports on Midsummer Common [MPP.51,MMC. 29]

1898 The red tape has all but unrolled, and the Chesterton playground is to be redeemed. In November the school children, who number some 500, and other children, will once more be allowed to sport on the "Old Town Close". A meeting to acquaint the people of Chesterton with the present condition of affairs in the matter was held last night. The chairman who was received

with tumultuous stamping, said they had done their best to bring the matter to a crisis as quickly as possible and had made up their minds that they would make a forcible entry into the ground, would make a gap in the fence at each end, and open the field for cricket or football. But a benefactor had stepped in and offered to buy the land and give it back to the villager CDN 1898 06 01

1898 At last, but not at length, for only part of it is ready yet, the spot known hitherto as the St Matthews recreation ground, Cambridge, has had an official opening. Now it is rechristened "St Matthews Piece". The aspect is as yet of the distinctly "clean and not gaudy" type, comprising a rectangular enclosure, around which a spiked fence rears its effective points, and the inside is gravel all over, offering unbounded scope for young Barnwellians to develop "gravel rash". In 1892 the Corporation had represented the desirability of obtaining a piece of open ground in that thickly populated neighbourhood. Many delays occurred, and in 1895 the Commons committee took the ground over. They found a great many obstacles in the way of levelling and preparing the ground and there were many legal questions which took a long time. CDN 1898 06 25]

1900 Sir – I was pleased to notice that someone has at last had the courage to write about the wretched condition of Parker's Piece. Our last wicket was not only full of holes but we had a little hill rising a yard and a half in front of the block. Twelve shillings were paid for this wicket and a tent, whereas a college ground and pavilion (with a splendid wicket) can be hired for 7s.6d. Our cricket club have been so disgusted with the wickets that we have decided not to play again this season on Parker's Piece unless it is impossible to get a wicket elsewhere – Disgusted Cricketer c00 07 24

1900 The controversy relating to the maintenance of Parker's Piece is by no means a new one. It is several years since footballers and cricketers perceived that the ground, both in summer and winter was not all that could be desired and each year the feeling of dissatisfaction has become more apparent. But with the increasing number of persons crossing and re-crossing Parker's Piece it was impossible to keep the cricket pitches in a perfect condition; and with regard to forbidding football in times of frost, it was absolutely impossible to tell within a few hours whether or not a ground would be in a fit state for play c00 01 11

1902 Cambridge Football Association heard that on many college grounds football was played up to Christmas and the ground was prepared for cricket afterwards. The same thing should be done on Parker's Piece. Manuring had already begun. The manure was the sweeping of the streets, which had not been sifted, but had been raked. People were going over the ground and picking up stones. To start to play football and then proceed to manure the ground was giving with one hand and taking away with the other. The surveyor had said he hoped that some rain would come and wash it in. CDN 1902 09 24

1904 Chesterton Council has purchased land in Carlyle Road, Cambridge, for a recreation ground. They bought rights in the Brickfield Estate from Mrs Wragg-Gurnie and frontages to Alpha Road from Mr Thoday for £1,350. They then sold off the frontages and after paying for the land were left with a bill for £425 together with a further amount for fencing, laying out and planting the ground. This was a very small sum for so large a piece of land and they had carried out a great improvement in Carlyle Road by widening it from Dalrymple Terrace to the end of the road. 1904 11

1905 An attempt has been made to remedy the serious defect of the new cattle drinking places on Midsummer Common. A concrete wall has been built to prevent the sewage flowing into the water. Unfortunately it also stops the majority of the cattle from drinking at all and so the stockmen have to drive them some distance to another site which rapidly gets into an indescribably filthy condition. The cattle are in fact consuming their own sewage 05 05 16b

1905 Coe Fen was the scene of an interesting fire-extinguishing demonstration by the Valor Company. A light wooden erection had been constructed coated by three gallons of tar and a shavings and straw saturated with motor spirit was heaped around. It was ignited by a match and with such violence did the flames break out that the watching crowd was forced to fall back. The representative brought the appliance into operation and the fire was subdued in about 25 seconds. 05 07 15dd

1905 Proposed cycle track, Midsummer Common – 05 08 15a & b

1905 Cambridge councillors discussed an alternative route from Madingley Road to the Cattle Market by constructing a road from Barton Road over the river by Newnham Mill Pit and along Coe Fen Lane to Trumpington Road. Two bridges would have to be erected and the Leys School would give up a strip of land. But there was no argument in favour of making a winding lane into a straight road unless it was for traffic. It was a bad system to introduce a big scheme piecemeal and commit the council first by one step and then another. 05 10 26b

1906 Sir – I remember the winter of 1860 when Midsummer Common was covered with water. A severe frost set in and for two months there were torchlight processions and skaters appearing and disappearing like phantoms along the course. There was horseracing in the summer and two large wooden stands erected. Some things have not changed: the miserable, horrid, slow old ‘grinds’ or ferries. When will Cantabs wake up and have free bridges for foot passengers? – An Ely Old Boy 06 06 23c & d

1907 Alexandra Garden opened - was a rubbish tip bought for £300, Alpha Road frontage sold for building for £1,000, garden area sold to council for L350 [1.22]

1908 Commons committee recommend tennis on Parker’s Piece, bowls & tennis on Christ’s Pieces (sees that distinction between common for recreation only & recreation ground had become blurred) MPP.52]

1909 The unanimous opposition to the scheme to drive a road across Parker’s Piece should have disposed of it for ever. Should some rash member of the Council wish to make his name by re-introducing it he should first study the indenture made on March 23rd 1612 between the Master and Fellows of Trinity College and the Mayor and Burgesses of Cambridge by which the Piece became the property of the people. One clause stipulates that either body ‘consenting to any act to impeach this agreement’ should forfeit £300 to the other. It seems to me that the recent proposals would come under this head CWN 09 09 03 [2.1]

1910 Christ’s Pieces affords a welcome glimpse of colour to hundreds of workers as they pass from one side of Cambridge to the other and numerous people in their spare time spend many a pleasant half-hour there. To tired mothers it is a boon unspeakable for there children can be allowed to run about at will, free from the imminent deadly peril of the recklessly-ridden bicycle and the death-dealing motor. The grass is as smooth as a tennis lawn, the trees and shrubs beautifully green and the garden plots a delight to the eye thanks to Mr Nunn who has been keeper of the Pieces for nearly 30 years. 10 08 19

1911 Coronation George V celebrations include variety entertainment & fireworks on Parker’s Piece & military tournament on Midsummer Common [MPP.53,MMC.p30]

1911 An undergraduate from Trinity College was fined for playing golf on Jesus Green to the danger of passers-by. The lad said there was no notice and he had seen people playing there for the last two years. There could be a danger if anyone had been on the Green, but there was nobody there when he was playing. The constable had seen him with his club and could have stopped him but allowed him to play before asking for his name, college and year saying third

year men generally got more heavily fined than Freshmen. But the Chief Constable said that Freshmen were often let off with a caution 11 05 05

1911 Second Lieutenant W.B.Rhodes-Moorhouse lands his monoplane on Parkers Piece twice, prompting undergraduates to flock to Huntingdon for flying; also lands on Butts Green amidst crowds; visits again to collect shoes & on return to Huntingdon tries to run down heron I:1,13,1,14}1,21,4,6]

1911 Moorhouse conveyed a consignment of boots from Northampton to Cambridge on behalf of Mr Frank Dalton who had his bootmakers premises in Bridge St (dubious); Oct. 12 Moorhouse left from Brooklands, became lost & tacked on to what he thought was GN railway', in fact was LNW to Cambridge; running short of petrol & surrounded by houses he recognised Parkers Piece & came down with a dry tank at 5.40, machine covered up & left for the night; took off 6.30 next morning to Huntingdon [8]

1911 Mr Moorhouse paid a second 'flying visit' to Cambridge. The footballers playing on Midsummer Common abandoned their game at once when the machine came into view over Castle Hill. The aeroplane looked as if it must come down among the crowd, but the airman managed the descent very cleverly, and, travelling a short distance only a few feet from the ground, eventually alighted very smoothly rather less than a hundred yards from the railings on the Maid's Causeway side. On his ascent the machine rose gracefully and easily over the trees and the river. It quickly attained a height of nearly 1,000 feet before he made a circle over Chesterton and then sped off towards Huntingdon. He is an intrepid young man of whom more will doubtless be heard in the future 11 10 13b

1911 The young airman, W.B.R. Moorhouse flew over to Cambridge and alighted on Butt's Green, departing two hours later. He took with him a parcel of shoes made for him by Frank Dalton of Bridge Street that he'd ordered a week ago. Several improvements had been made in the monoplane since his last visit including a bottle labelled 'Cherry Brandy' fixed inside the 'conning tower' fitted up with a flexible tube with a mouthpiece so that he could take a 'nip' when so disposed. The news rapidly spread and several hundred spectators watched his take off. 11 12 01j

1912 corporation purchase 12© acres at Cherry Hinton & Romsey for recreation ground & suggest using cattle market field in mean time [2.4]

1912 Romsey Town residents presented a memorial containing 1,018 signatures suggesting the council should purchase a piece of land for use as a recreation ground. In March 1898 a committee had backed the idea and various efforts had been made to secure a suitable site without result. They contributed to the upkeep of other open spaces and felt it was their turn to have one. It was too far for the young children and old folk to go to Parker's Piece. Meanwhile a public-spirited individual had offered to buy a piece of building land in Castle End to be kept open for perpetuity. 12 05 17b

1913 girl drowns in ditch on Coe Fen, want lights on public footpath [2.5]

1913 proposal to exclude stock from Midsummer Common west of Victoria Avenue to make recreation ground opposed [2.6MMC.31]

1913 Lammas Land acquired as recreation ground [2.7]

1913 Plans have been announced for the creation of a recreation ground on Midsummer Common between Victoria Avenue and Park Parade. One acre will be levelled for cricket, belts of shrubs and avenues of trees planted and a footpath from Park Street to the High Bridge abolished. It was not intended to lay it out as an ornamental park but provide space for healthy physical exercises enabling youth to develop both muscle and brain. 13 01 24g

1913 An Inquiry into plans to acquire land adjoining Vinery Road as a recreation ground for Romsey heard that it was quite a new neighbourhood; 35 years ago there were very few houses. But one of the streets was only 27 feet wide. Children had to play in the street and there a large

number of police and railway men living in the area who needed to sleep during the daytime. They needed a recreation ground: it was not safe for youngsters to go to Parker's Piece and Coldham's Common had two rifle ranges and burgesses could pasture cattle there 13 04 25 p10 CIP

1913 Proposals to turn Jesus Green into a recreation ground and exclude animals met with protests from stockholders. It was important to maintain the standard and quality of milk and their animals preferred that part of the common because it was quieter and more shaded. If they had to move their cows off on to other commons these would become congested. They should fight to maintain their ancient grazing rights. Sportsmen had already got Parker's Piece for cricket and football, Christ's Pieces for bowls and tennis with Donkey Common and Petersfield for resting in. If the Corporation wanted another recreation ground they should buy one. 13 05 16 p9 CIP

1913 Lammas Land should be made into Newnham recreation ground 13 06 13 p7 CIP

1914 inquiry over use of Lammas Land as recreation ground, used as allotments during War : war 1914 had restricted spending but can now afford to complete, cost £854 [MMC.31]

1914 Although there was a crowd of 2,000 at the annual demonstration of the Cambridge Trades Union on Parker's Piece on Sunday afternoon, everything was exceedingly quiet and orderly, the speeches were mild almost to dullness and did not provoke the smallest opposition. The resolution in favour of a 48 hours' working week and a minimum wage of thirty shillings was carried. It remained for the irrepressible suffragettes to create the only diversion, but even that was mild. 14 05 08d

1914

An Inquiry was held into council proposals to borrow money to purchase a recreation ground in Newnham. It was Lammas Land where people had common rights to pasture a cow between August and April. At present it was being used for cricket, football and golf. There was no golf course, play being with a club and ball. But they had no business there which is why it should become a recreation ground giving access to the whole of the river. At present the lands belonged to colleges and others and were fenced only by hedges 14 06 19 p10

1915 Cattle on commons during night – military to be alerted to danger to cattle through the trenches on the commons being left unprotected; a fence should be erected on Coe Fen 15 08 13 04

1916 commons used by military : Parker's Piece drilling as was Midsummer Common; Butt Green bayonet gallows & trenches, Coldham's Common artillery park, bomb throwing in trenches, rifle shooting [MPP.55]

1917 A Drastic Resolution, - The following resolution has been passed by the Allotments Subcommittee for Newnham and Castle End: "That inasmuch as they have received 50 applications for allotments, which they are unable to satisfy, they beg to request the Town Council to break up the Lammas Land at Newnham without delay, viz., without waiting for formal authority from any higher authority". As a result the Borough Member is to be asked to interview the Authorities of the Board of Agriculture and Fisheries with regard to the application of the committee for permission to use the Lammas Land and empty common for allotments 17 04 04 CIPof

1919 Refreshment hut on Parker's Piece proposed; should acquire an army hut and place at back of University Arms – debate – 19 08 06f

1920 Skeleton of woman dug up by plain clothed police on Midsummer Common - CDN 20 04 27

1921 Midsummer Common catches fire due to intense heat

1922 Parker's Piece grass so long it needs cutting as hay [2.2]

1922 Corporation Act allows restriction on grazing, commission swimming pool, also permission to buy certain Lammas Lands & extinguish certain Lammas rights against compensation [3.10MPP.59]

1922 The commencement of the school holidays has at once placed a great strain upon those who are responsible for the conduct of our recreation grounds and open spaces, and nowhere has it been more felt than at Sheep's Green, Cambridge, where our young water-rats spend the greater part of their vacations in alternating river-bathing and sun-baths. The place is in a great state of dilapidation and at any moment might become an utter ruin. The rottenness of the woodwork of the bathing shed is concealed by paint and putty, timbering on both sides of the river is falling to pieces and on the Newnham side the banks are crumbling to bits. It really does seem that before any new bathing places are built this grand old one should be put into a state worthy of its reputation and popularity - Table Talk c22 08 07

1922 This is the age of new things and I am able to report that harvest operations are in full swing on Parker's Piece. Such economy has been shown in the use of the mowers on our principal ground that the grass has grown to an extent beyond the power of the customary lawnmower to cut, and so a hayreaper has been employed and the resulting heavy swathes have been removed by horse and cart. Two horses and three or four men have been engaged on the work, so if money-saving was the thing intended by keeping to mow off Parker's Piece it has not been very effective c22 08 20

1923 Lammas rights over Lammas Lands, Newnham extinguished [MMC.32]

1923 construction of Jesus Green swimming pool under way [MMC.32]

1923 council approve exclusion of animals from Jesus Green [MMC.32]

1923 Those who attend the Christ Pieces promenade concerts will learn with interest that the Cambridge Town Council approved extensive improvements, including lighting to the bandstand there, to purchase some 500 chairs "for the comfort of the concert goers", and to set up a fenced enclosure, lined with a privet hedge, to accommodate the seats. They further empowered the Committee to set up - as cheaply as possible - glass screens, which will protect the musicians from summer and other breezes, besides effecting an improvement in the acoustics of the stand. The superintendent also produced a plan for the construction of ladies and gentlemen's lavatories on Christ's Pieces c23 06 01 [1.23]

1923 Cambridge town council agreed a scheme to construct a road across Coe Fen from the Coach and Horse public house, Newnham, to Coe Fen Lane. The Ministry of Transport have agreed to pay half the cost, and the road will be commenced almost at once so as to provide work for the unemployed during the coming winter. The scheme had been before the Council for nearly 20 years. Nine or 10 schemes had been presented and each member of the council appeared to think his particular scheme was the best. The great advantage of the present scheme was that the whole length of the road would be on the council's own land.c23 09 29 [3.2]

1924 works starts conversion Jesus Green to sports ground [MMC 33]

1925 proposals to create a bus station at Drummer Street cause great protest; 3,000 sign petition, 1,000 march to Mayor's house to demand another Council meeting, August [2.4]

1925 the proposals go ahead, opens in November & various country buses stop there rather than on Senate House hill; later Ortona also use it, causing overcrowding & disputes [1.14]

1925 Sir. I was stopped by an aged and indignant citizen who drew my attention to the insertion of wooden pegs about a large proportion of Christ's Pieces. It seems that a large slice is

to be taken off for the accommodation of motor cars and buses. Seven or eight lime trees will have to be cut down. It is vandalism to sacrifice a shady pleasance in the centre of town in order to make a motor park. Must Christ's Pieces be mutilated? – F.E.Y c25 08 02

1925 For an hour and a half Cambridge Town Council discussed the question of taking a portion of Christ's Pieces for the parking of 'buses and private cars. Strong opposition to the scheme was forthcoming but in the end the council agreed. The site will conveniently accommodate 12 buses and at least 35 cars. It would apply to country bus services only, of which there are nine belonging to the Ortona bus company and three belonging to other persons. The whole of the Ortona country service buses, which now stand on Senate House Hill will be removed to the new parking centre c25 08 03

1925 The protest meeting against the taking of part of Christ's Pieces for parking motor vehicles attracted a crowd of over 2,000 people to Drummer Street & was marked by a remarkable climax. After a resolution of protest had been passed the crowd voted a desire to take it to the Mayor that night. Speeches had been delivered from a four-wheeled waggon and the shafts were quickly manned and the waggon containing councillors who had spoken was dragged at a good pace to the Mayor's house in Newton Road. Something like a 1,000 people followed in its wake c25 08 17

1925 As the result of an open-air meeting on Parker's Piece efforts are being made to form a Ratepayers' Association whose first business will be to contest the legality of the Cambridge Town Council's action in encroaching on Christ's Pieces for the purpose of providing a parking place for motor vehicles. This was absolutely illegal. Within twelve months the continual movement of vehicles on what was virtually a made-up bog the road would drop six inches. The Ortona Bus Company will be the first people to say they have been pushed into a rotten corner that is of no use to them c25 08 23

1926 County Council squabble over whether they should pay for Drummer Street [1.15]

1926 Rouse Ball pavilion opened, Jesus Green [3.2]

1926 end of Mammoth Show which had boarded off large areas of Jesus Green council state this last occasion can have Jesus Green[3.10,MMC 33]

1926 Fen Causeway road causes controversy

1926 The name of a well-known onion – Nuneham Park – as a fitting one for the new recreation ground at Newnham, because of the many tears it has caused on the ground of cost, was suggested by Councillor Edwards at Cambridge council. Another name proposed was Lamentations Land as a perpetual reminder that they had been guilty of the most extravagant and wilful expenditure of public money. Finally the Council decided on Lammas Land. It would signify that the ground formerly opened during certain seasons of the year was now closed permanently against any private owner's rights and the public had the rights for the whole of the year c26 11 02

1926 Two aeroplanes from Duxford Aerodrome came down on Coldham Common, one being overturned and considerably damaged. One of the machines in a flight of five passing over Cambridge was observed to be in trouble. The single seater fighter had been engaged in firing practice at the Wash. He made a good landing, coming to rest near the bathing-place with just a buckled wheel. A similar machine went to its assistance but was not so fortunate; it struck some bumpy ground and turned right over, coming to rest flat on its back with the wheels in the air c26 11 07

1927 Lammas Land laid out as recreation ground [1.8]

1928 Amid scenes of enthusiasm the Mayor of Cambridge opened the new Coleridge Road recreation ground which has just been completed at a total cost of £7,000. It was in September 1925 the Corporation bought the ground for the public and ever since then the Surveyor and his

merry men had been preparing it. By the autumn they would be able to play football on it and by next summer cricket. They wanted to make a garden as well and if any person felt disposed to present them with a dozen flowering trees the council would make good use of them. Critics said it was not wanted but in the future many would be grateful for it. It would keep the children off the streets and from the danger of the traffic. c28 05 30

1929 Cambridge councillors debated the proposed exchange of Butts Green for New Square in order that it might be converted into a parking place. If I lived in New Square I should not be at all pleased at the idea of that nice little patch of green giving way to a parking place, but if I had a business establishment in Fitzroy Street I should say "Yes, let the cars park there by all means". There is a danger of New Square being built upon in the near future and residents may consider a car park the least of two evils. Others are concerned about using the amenities of Butts Green, though one questioned whether it was used for anything but beating carpets. CDN 25.2.1929

1930 Hobbs Pavilion opened on Parker's Piece [1.10]

1930 Jesus College gave Town the green in New Square in part exchange for part of Butt Green [MPP.48,MMC 33]

1930 History was made on Parker's Piece, Cambridge, when thousands of farmers and farm workers attended a mass demonstration. The meeting was originally intended to bring together workers in East Anglia but interest had become so wide that nearly all the agricultural counties in England were represented. They passed a resolution protesting against the increase in unemployment amongst farmers, unless effective steps are at once taken then nothing but calamity faces the industry. Visitors arrived by train, car, motor coach and bicycle, the ordinary parking facilities were quite inadequate and cars were parked around Parker's Piece itself and along Victoria Avenue. More than an hour before the start crowds assembled in front of the platform of motor lorries covered with a Union Jack and fitted with a battery of amplifiers. They whiled away the time listening to the Railway Band and broke into song when they played 'Farmer's Boy'. 30 03 01a-d #

1930 Work has started on the provision of a model yacht pond and paddling pool as part of an extensive scheme for the improvement of Sheep's Green. This is one of numerous schemes for providing work for the unemployed and when operations are in full swing about 70 men will be employed. The Ladies' and Men's Bathing Place will also be extended 30 07 12b

1930 Cambridge councillors rejected plans for the erection of a bungalow on Robinson Crusoe Island & decided the existing old cottage and shed should be demolished and that the Surveyor should report on the erection of suitable sheds for boating purposes. They also considered land at Town Close, Old Chesterton which is occupied by numerous caravans; their appearance is most objectionable and they should be moved 30 07 22c

1930 Jack Hobbs came for the first time since the opening of the pavilion that bears his name. He brought one of the most brilliant cricket teams that Parker's Piece has ever seen with seven who have captained England including Hobbs himself and O'Connor, both of whom learned the game in Cambridge. By two o'clock there were at least 5,000 spectators massed three and four deep round the entire field. Others stood on the running boards of cars drawn up in Park Terrace to see the game. 30 09 18b-c

1930 Sir – all Cambridge men will be alarmed at the threat to build an arterial ring road bisecting Grantchester Meadows. The meadows are owned by King's College; we regard their preservation as a trust; and will not build on them, nor near them. We will do nothing to change their character and refuse to contemplate such a calamity – The Dean of King's 30 12 06b

1931 The Mayor of Cambridge formally opened the new paddling pool on Sheeps Green. It was the result of the Corporation's scheme of work for the unemployed with a £12,000 Government grant. As it has already been 'patronised' by the youngsters for some time now, no

great ceremony was observed beyond that of letting with water in again. It is now open to old and young to paddle, but he declined the invitation to do so. 31 06 05k [1.17]

1931 The question of cricket on Lammas Land, Newnham produced a spirited debate: old ladies crossing the grass might be hit with the hard cricket ball. The Commons Committee is going through a spasm of kill-joy spirit: boys played on the streets but as soon as they went to open space they were told they must not do so. Perhaps a soft ball could be used – or a golf ball. Newnham Institute sought permission for a cricket pitch, but this would turn it into a second Parker's Piece 31 07 17f & g

1932 Cambridge Corporation Act gives council further powers over Midsummer Common or Jesus Green & Butt Green [MPP.61]

1933 Sir – Coldham's Common could be turned into a municipal nine-hole golf course now it is no longer required for shooting. The Corporation have £700 from the War Office in compensation for not putting the Common in the state it was before the rifle range was constructed. The various firing points and the lower portion of the butts could be used in the construction of a very sporting course, providing work for the unemployed. It would be no new thing to have golf played on the Common as the first University course was there – RG 33 01 07d

1935 Coldham's Common being levelled – photo – 35 02 17

1935 The new swimming bath on Coldham's Common was opened by the Mayor, Alderman R. Starr. There was some regret that his Worship did not take the first plunge into the 150 feet long pool, which takes its water from the high level stream, and youthful spectators had to be restrained from going in as soon as the doors were unlocked. There is a diving tower and spring board at the deep end with dressing sheds and a space fenced off for sun bathing. 35 08 02a

1936 Trinity Hall had purchased Cherry Hinton Hall Estate with a view to development and asked the council to let them proceed or to buy it as a public park for £13,000. This was more than they'd paid but the land had recently been brought within the Borough boundary and if they were to acquire open space in areas ripe for development they should have to pay building land price. They would move the Horticultural Department there and let the grazing but parts of the house would probably be demolished– 36 03 03a 36 03 05a & b

1937 Labour Party's May Day demonstration on Parker's Piece, 500 marches – 37 05 03a & b

1937 Sir – today I wandered down to Christ's Pieces. Hearing the band I came to the entrance and behold there was a sign 'Admittance 3d'. I am told that an ancient footpath crosses there. But it must be kept select or perhaps a poor woman with her pram might mix with the few who have paid their threepence. Besides poor people cannot be expected to enjoy the music of a band. The hedge around the bandstand is thick enough to protect those inside from the gaze of the vulgar crowd. So we listened and looked at the band from the street. Cambridge knows how to keep the common herd in their place. But did I not hear somebody say that the people, not the council, own the park? – Canadian 37 05 26a

1937 Sir, as a former critic of Histon Road Cemetery may I now acknowledge the improvement which is so apparent, especially to the curator who had no easy task in taking over such a neglected place. However Alexandra Gardens in Carlyle Road is probably the worst kept of all the recreation grounds. The grass verges have been neither mown nor trimmed this year and no hoe has been used on the shrubby border which is a mass of thistles and other weeds. It seems difficult to believe that no member of the Council ever pays a visit – 'Observer' 37 08 04

1938 Cherry Hinton Hall was a 'white elephant' and should be let as a Youth Hostel. Some 2,000 people a year would use it, spending money in Cambridge. To turn the hall, which had many rooms, into a place for meetings would mean expensive interior alterations – it would be cheaper to put up a smaller place. When the council had bought the area, the house had not even been valued, it was bought on land value alone. Parts of the ground could be used for recreation with an outdoor swimming pool - there was a stream to provide the water. 38 03 21b, 38 03 25

1939-45 Donkey common requisitioned & afterwards the huts that had been erected there were used for emergency housing [MMC.55]

1944 "Stand down" parade. — The famous sward of Parker's Piece has been the scene of many historic ceremonies, but none, surely in what feelings of those taking part as principals or spectators have been so mixed as on Sunday, when Cambridge saw her own part in the great Home Guard "stand down". After an impressive last parade, the Cambridgeshire and Isle of Ely Home Guard marched away, conscious not only of the thanks of the King, but of the gratitude of their own fellow citizens. 44 12 08 CIPof

1941 War-time allotments – over 50 acres under cultivation, 2,000 provided with vegetables; first piece of land was in Ainsworth Street in Oct 1939 – 41 07 24

1945 Parker's Piece lamp standard broken during VJ celebrations [1.7]

1945 Donkey Common taken over during war for military huts

1947 May I explain why St Matthew's Piece has not yet been restored to its former state. It was requisitioned by the War Department for a vehicle car-park. The surface and foundations were not suitable for such purposes and the military authorities were told that their vehicles would cause extensive damage to the playing area and would involve them in a heavy claim for compensation. When the War Department released the site the Corporation lodged a substantial claim for reinstatement. The claim has now been referred to higher authority for arbitration. My committee sincerely regret that the ratepayers of St Matthew's ward and their children in particular, have been deprived of the use of this ground for so long – letter from G.F.Nobbs, Chairman Cambridge commons and cemetery committee c47 07 09

1947 Sir. It is very interesting to read that those in authority on our local Council at last have abandoned the idea of spoiling Petersfield by spending nearly £2,000 on a paddling pool and reverting to its former condition, the present static water tank will therefore be demolished. Would it be out of place to suggest some sort of supervision be given to safeguard the beautiful trees and shrubs from destruction and grounds kept in decent condition. Perhaps, at the same time, those unsightly and out of date notices "To the shelter" could be removed - letter from E.H. Tatchell, 1 Willis Rd, Cambridge c47 07 24

1949 only one stall on Parker's Piece but no skipping, in 1948 only 3 groups of people who continued it & that year stalls dwindled to one which set up at junction of East Road & Gonville Place & sold tinsel-covered balls on elastic [4.2]

1949 Cambridge was the scene of a "ceremony of the keys" about midnight on May 12th when the borough pindar, Mr Bill Clee, went round a number of Cambridge commons unlocking the gates so that in accordance with rights dating back hundreds of years those who wished could have access to the commons to graze their stock. Travelling on an auto-cycle he unlocked no fewer than 17 gates on his journey. I gather there were no queues of stock waiting to sample the fresh green grass. There is a wild west touch about the animals on the commons now, for each one is branded to indicate that the owner has paid the required fee c49 05 26

1949 The Secretary of State for War, Mr Shinwell, states that there are 43 huts on the camp site at Donkey common, Cambridge. They were originally intended to accommodate three officers and 224 other ranks. There is now one Women's Royal Army Corps unit and a small detachment of Pioneers, comprising three officers and 76 other ranks in all c49 06 02

1949 Sir – Many of your readers will be perturbed to hear of the recent happening on Coe Fen camp. The council has forced the removal of all chickens and rabbits kept by tenants. The real reason in my view is the marring of the view from Trumpington road by the camp. Nissen encampments are not beautiful but the solution to the problem is the building of proper homes for the people at present forced by the acute housing shortage to live there – Jane Wolstencroft c49 08 13

1950 Cambridge housing committee recommends the installation of television sets should not be allowed at Donkey common, as it would not be advisable to erect aerials on the roof of the huts. If erected independently they would have to be supported by guy-ropes which might prove a nuisance to other tenants and a danger to children c50 10 19

1951 protests over proposals for parking at Regent Terrace “should not be over sentimental about a small piece of grass [1.14]

1951 Strong protests were voiced at the District Trades Council when the proposed car park site on Parker's Piece came under discussion. Mr C. Hatton said: “We have seen parts of Christ's Pieces and the whole of Donkeys Common disappear and now there are proposals to encroach on Parker's Piece. We cannot too jealously guard such a priceless amenity”. He would like to see all car waiting in the centre of Cambridge abolished and car parks instituted on the outskirts of the city c51 06 19 [1.15]

1951 Tenants of 34 huts on the Donkeys Common “Estate”, Cambridge, are feeling anxious about their security of tenure. They regard a letter from the City Treasurer as a veiled threat for them to leave their make-shift homes. Residents say they have no bath facilities, water closets adjoin each other and are therefore not fully private, there are no doors on the bedrooms and that they suffer from dampness, mice, ants and ‘many other forms of insect life’. They add: “We intend to remain here until equal or better accommodation is provided by the City Housing Committee c51 09 06

1952 elms on Parker's Piece felled for roundabout at East Road junction [1.16]

1952 The Common Lands of Cambridgeshire published [MMC.]

1955 Cambridge City Council has decided to proceed with the erection of an indoor swimming bath on Donkey Common. It is to be used for swimming only and not for dances, concerts or meetings. But some objected as they wanted to preserve all the open spaces they could. There were sometimes as many as ten cricket matches on Parker's Piece and Donkey Common was a place where mothers could allow their children to play in safety avoiding the flying cricket balls. The huts had been placed there as a war-time expedient and it should be returned to its former state. 55 04 29e & f

1955 The condition of the huts on Donkey Common has steadily deteriorated and they should only be let to families requiring emergency accommodation who can be rehoused by September 1957. Some are so bad they will have to be closed before that and when the worst of them become vacant they should not be re-let. The Council should purchase 50 premises due for demolition and carry out minimum repairs to allow them to be occupied temporarily. 55 10 15b

1956 Christ's Pieces bandstand to go 56 03 13b

1956 The demolition of the bandstand on Christ's Pieces jogged memories for Robert Austin who played on it as a band-boy, bandsman and conductor for over 45 years. It was originally built for the Royal Show on Midsummer Common and afterwards re-erected on the Pieces. It was lighted by naked gas jets which usually blew out and had to be re-lit several times during a

performance. The Volunteers, Police and Town bands - between all of whom there was intense rivalry – played there. It was also used for mass meetings and an annual open-air service of Cambridge Men's Brotherhood. 56 04 21c

1957 Royal Commission on Common Lands takes evidence [MMC.37]

1957 Parker's Piece underground carpark proposal May, rejected October [1.19,1.20]

1957 Proposals for an 800-space car park under Parker's Piece are technically impossible, opponents say. There are 'certain unsound features', it would be detrimental to the area and it would take years for the ground to be reinstated. The cost would probably be as great as that of the planned scheme in Lion Yard, though no car park of this nature has yet been constructed. But Labour councillors want it carried out as a matter of urgency. 57 10 14

1959 Parker's Piece scheme dropped, consider Donkey Common [1.21]

1959 Minister gives permission for swimming pool on Donkey Common [MMC.56]

1959 Sir - Few can remember Donkey Common's original use as a common grazing ground for ponies. The A.T.S. officer who occupied the war-time hutments did her best to maintain such legal grazing rights by getting a flock of geese to keep the grass down. The Royal Engineers Colonel who had the hutments built drew up his plans so as not to destroy the main avenue of well-grown limes nor any of the acacia, hawthorn and other trees. The sappers built so soundly that the Corporation was able to make use of the buildings in the post-war housing shortage until this year. Now if it is to be used as a swimming pool or car park, may I plead to let it perish under its old and correct name of Donkey (not 'Donkey's') Common – B. Nevinson 59 04 27

1959 Parker's Piece edges not to be used for parking, Donkey common instead – 59 04 24 & a, b

1959 Donkey Common is to be cleared and used as a car park until needed for the new swimming pool. Two years ago the Housing Committee had said they still needed the huts for emergency accommodation but the cluster of rusty scabs were an eyesore and disgrace to the city and should be removed as soon as possible, councillors were told. 59 06 26c

1963 proposed 750 vehicle underground car park between central lamp standard & Regent Terrace (abandoned 1964) [4.3]

1963 Parts of the Backs should be flooded and turned into skating rinks, says a Cambridge botanist. There are a few natural ideal spots, used for lawn tennis, which could be easily flooded to provide skating. The initial cost would be insignificant but the benefit for the young and 'young at heart' (meaning dons) would be enormous. The maintenance of the skating rink would be easily covered by a small entrance fee. And it wouldn't spoil the tennis courts as ice and snow

give the best protection for the species of grasses which might otherwise be damaged by the continuous cold. 63 02 02a

1963 Lime Kiln Hill was closed to traffic and pedestrians while Sappers used high explosives to blow up the kiln shaft and the tunnel leading to it. They blasted six-foot deep holes which they gouged deeper so as to blow in the thick pit walls. Then sentries ensured everyone was clear before a tremendous bang carried rocks and earth high in the sky. The shaft walls were cracked or ripped apart and surrounding trees and shrubs were almost non-existent. Electricity wires some way away from the explosion were broken. But a practice climbing wall used by the CU Mountaineering Club was left standing. 63 07 29a

1979 objection on registration common lands = SEE MITCHELL

1981 Cambridge City Council may go into small-scale farming to try to raise extra money for the ratepayers, buying 20 Hereford store cattle for grazing on Lammas Land and Sheep's Green. The cost could be taken from money earmarked for maintaining the common lands where, under an old law, people can graze cattle, paying a nominal rent of £32 for the right to pasture nearly 200 animals. Most are not really farmers but come together to buy ten animals each and never go near them, taking advantage of rules which prevent the council charging an up-to-date rent. 81 03 21

1982 Prince Philip flew into Cambridge and made what is believed to be the first helicopter landing on Parker's Piece. It made quite a stir among people making their way to work. It may also have made them late because police cordoned off the Piece for the landing, special permission for which had been obtained from the City Council 82 05 19

1990 Cambridge University boat crews are backing the campaign to stop a road and bridge being built between Ditton Meadows and Coldham's Common as part of a traffic management plan to tackle Cambridge' chronic road congestion problems. Socam – Save Our Commons and Meadows – say the environment would be ruined and there is no justification for it. 93 03 24a

c.32.4 : Building Societies

– started March 2008.

1899 The shareholders of the Cambridge and District Starr-Bowkett Building Society are now in full possession of all the facts concerning the absconding secretary. The news of his departure from the town leaked out in February when he failed to appear at the annual audit of the Society's accounts. The disclosures were of a startling character, showing defalcations amounting to upwards of £700. The society has been in existence about 12 years and has a membership roll of upwards of 430 1899 03 22

1901 The Cambridge Starr-Bowkett Building Society is to be dissolved. They had £2,339 with which to pay £3,028. Members were told an endeavour was made to sue the old directors but the costs would have been very heavy and they would have obtained practically nothing. The meeting, we are informed, was "lively" CDN 1901 08 09

1925 Cambridge Town Council will consider a report as to the sale of houses to persons having little or no capital. Purchasers would pay a weekly sum, being more than the normal rent and the house would be conveyed to him when he had paid an amount equal to the difference between the cost and the mortgage. The weekly rent for a three-bedroomed house, sale price £600 would be 11s. If the purchaser paid 16s a week the property could be transferred and the mortgage executed after two years c25 09 19

1933 Cambridge Permanent Building Society had a record year: there were 1,266 mortgages, most for amounts of under £500, and arrears were only £339, which was very satisfactory. The staff were a happy family, they worked hard and the books were all balanced. Rates for borrowers and shareholders had remained at four percent for the past 36 years. 33 03 15

1967 Cambridge Building Society formed as Cambridge Benefit Building Society in 1847open new offices in St Andrew's Street – 67 11 30, a

1985 Cambridge Mortgage Centre has opened in Regent Street. The idea of Cambridge Insurance, a firm of brokers who offer pensions, investment and life policies, it will help people find a mortgage and advise which payment suits the applicant best. The staff will make sure clients pay the lowest rate possible: it is possible for someone with a £30,000 mortgage to be paying around 15 per cent or even less 85 04 10

c.32.5 trades union, strikes

headlines

1891 building strike for 22 weeks intimidation results in imprisonment [1.1]

1899 William Askham, a labourer in the employ of Messrs Coulson & Lofts told Cambridge police court that he was at work at Bridge Street and saw the prisoner, who was a striker, standing on the pavement. He came upon the building and said he would fight any one on the job for half-a-crown to a shilling. Prisoner said he was not picketing that day. They only went on duty three days a week. He never asked the men to "come out" and it was no use asking Askham to come out on strike because the society would not have him. He was sent out by the society to induce men to come out on strike, for which he received a shilling a day - 1899 08 04

1899 A meeting of Cambridge carpenters and joiners was held to obtain an increase of wages. At Newmarket the wages had advanced to 8d an hour and the carpenters and joiners of Cambridge were beginning to agitate and follow in their wake. In many other places men were only working a 49 hour week and left off at half past five. There were some Cambridge firms employing carpenters who were offering 9d an hour but most men were content to go on

dribbling with 7½d because they thought they had good berths and good masters. There was only one remedy for this evil and that lay in organisation - 1899 10 11

1904 Cambridge Master Tailors Association set up (1721 case 3.6) [2.3]

1907 National Union of Shop Assistants establish branch [1.16]

1910 Cambridge Master Tailors Association agree wages (echoing first dispute 1721) [1.17]

1911 The railway strike has begun and its effects are impossible to say. A complete stoppage would paralyse the trade of the country. Meat would be unobtainable and flour and corn exhausted in a week leaving cities starving for bread. No doubt road and river traction would bring some mitigation but fruit and fish would leap to famine prices and without coal no gas or electricity can be produced. Mills, factories and workshops would be closed down for lack of power and the great majority of people become dependent upon public relief. 11 08 18e

1911 The effects of the rail strike are not seriously felt in Cambridge. All trains are running though supplies are considerably delayed with shortages in butter, bacon and petrol. Representatives of the Amalgamated Society of Railway Servants have been in town but only a very few local employees are society men. Cambridge Station is looked upon as a 'fat job'; guards, porters and platform hands know when they are well off and there are plenty of reserve men to take the places of any who come out. 11 08 18h

1911 Had the railway strike not been settled on Saturday there is little doubt that nearly 100 of the men employed at Cambridge station would have come out. The GER trains ran as usual and the London and North-Western Railway will give double pay to the men connected with the movement and handling of traffic who have remained loyally at their posts. Although no actual disturbances were feared the Chief Constable very properly took the precaution of stopping all leave in case of need. 11 08 25f

1911 A number of Cambridge schoolboys 'came out' on strike, some because they had a half-holiday and others because they hadn't. Some say there were several hundred boys and girls carrying 'On Strike' banners and they had chalked the same on the doors of their schools. They held a mass meeting on Christ's Pieces then marched down Emmanuel Street where they came into contact with the police (one constable). The demonstration then collapsed. But teachers say there was no strike. They were not schoolboys but hooligans; they made a disturbance outside the school but the flashing eye of the schoolmaster made them retreat 11 09 15c

1912 If the coal strike continues more than three weeks Cambridge will be faced with a bread famine. One of two of the leading bakers have supplies of fuel and flour to last about five weeks but a small baker consumes over a ton of coal a week and has little storage capacity. If the coal merchants cannot keep the bakers going, there will be no bread. Flour might be available and those people with stocks of coal or gas ovens might bake their own bread but the poor would be hit very hard. 12 03 08c

1912 Whatever hardships may be inflicted on Cambridge inhabitants through the coal strike, it is improbable that their linen will have to go unwashed. Most laundries have a good supply of coke. The situation at Haverhill is generally favourable: Messrs Gurteen, the staple industry, has ample supplies but the coal merchants are nearing exhaustion. However at Saffron Walden the street lamps have not been lighted for two nights and the gas has been at a lower pressure. 12 03 08c Newmarket unaffected, Ely not alarmed - 12 03 08d

1912 Cambridge undergraduates formed a Strike Emergency Committee to avert the disaster with which the nation is threatened by the coal strike. The men were extremely enthusiastic and any reference to 'getting the coal' brought vociferous cheers. If they carried out their desire to work in the mines they would require protection: while half were underground the others should

be on guard to see the cages and ventilation apparatus were not interfered with. Police would not be able to send help. Postcards were distributed on which students placed their names and addresses which would find them in the vacation if an emergency arose 12 03 15b

1912 Mass Undergraduate plans to organise a strike emergency committee have been attacked by the 'Cambridge Magazine'. It reports: "The strike-smashing Saturnalia of Mr Calderon and his Comic Coal Heavers, which began in Cambridge to the mingled disgust and amusement of King's was continued on Friday night. We hope they will not take themselves seriously, and that their endeavours to make this ancient seat of learning ridiculous will soon cease 12 03 15c meeting of undergraduates form Coal Strike Emergency Committee prepared to work in pits, but strike ends [1.18]

1912 Coal strike – local railway services – 12 03 15g

1912 Work on the new schools in Melbourne Place is practically at a standstill owing to the strike and 50 men are idle. The contractors cannot get delivery of the facing bricks they require. "We have several thousand blue bricks on the rail somewhere between Staffordshire and Cambridge" said Mr C. Kidman. "We are promised red bricks a month after the brickmakers receive coal but they cannot get any". An interesting little machine with massive steam-powered steel jaws was champing up bricks from the curious little row of cottages which had no back premises and no back windows. Five trees had been cut down to provide log for fuel for the engine. 12 03 29f

1913 The Trade Unionist Demonstration took place on Parker's Piece on Sunday afternoon, despite the council ban. Thousands of people turned out in the expectation of seeing a conflict with the police but no attempt was made to stop the proceedings. Over 1,100 trade unionists took part, marching through the streets of Romsey and New Town. They halted outside the house of Mr I.W. Hornsby, one of the oldest members of the National Union of Railwaymen in Gwydir Street. The old veteran gazed out of the upper window over a crowd which stretched down the street and many hats were raised to him in sympathy 1913 07 18 p10 CIP trades union demonstration on Parker's Piece : 1,100 take part, march Romsey to New Town , call for minimum wages of 30/- (1.50) per week & 8 hour day. Council ban erection of platform & this seen as attack on the rally [1.19]

1913 300 members Cambridge branch Amalgamated Society of Carpenters & Joiners strike averted July, agreement Aug [2.1]

1913 A serious crisis has occurred in the building trade in Cambridge owing to the men's dissatisfaction with the present working conditions. Negotiations have been going on between the Amalgamated Society of Carpenters and Joiners and the Master Builders' Association but without agreement. Among the demands is for walking time allowed to jobs to be paid at twenty minutes a mile and not less than 3s 6d for lodgings. Wages should be 9d per hour (£3.66 at today's values). Now a strike will start on Monday. 13 07 25 p7 CIP

1913 Building strike averted 13 08 01 p 6 & 12 CIP

1913 Cambridge bakers are to form a trade union – everyone, barring errand boys, had one and it was a disgrace that there were married men with children, earning only 22 shillings a week. At present men were working 80 to 100 hours a week for the miserable pittance of fifteen shillings. Even though the Cambridge Co-operative bakers were getting 28 shillings that was still below what was earned elsewhere. Theirs was a highly-skilled trade and they should be paid a proper wage. A union had been formed in 1902 which started with a bakers' dozen and lasted for eight years. 13 09 12 p8

1913 A Trades Union demonstration Parkers Piece was marred by heavy rain but some 400 unionists marched in procession through the rain and mire. The Bakers' Union was the latest to be formed. Members of the Labour Party cycled out into the villages and set up branches. The formation of the Labour Party had led to far greater interest in municipal seats. Before that the Liberals and Tories used to arrange the seats between themselves. 13 10 31 p5 CIP

1914 Although there was a crowd of 2,000 at the annual demonstration of the Cambridge Trades Union on Parker's Piece on Sunday afternoon, everything was exceedingly quiet and orderly, the speeches were mild almost to dullness and did not provoke the smallest opposition. The resolution in favour of a 48 hours' working week and a minimum wage of thirty shillings was carried. It remained for the irrepressible suffragettes to create the only diversion, but even that was mild. 14 05 08d [1.9.2.2]

1914 National Union of Vehicular Workers trade union meeting on Parker's Piece heard many workers were underpaid and underfed. When taxis came to Cambridge the old cab-drivers should have been given the chance of leaning the new trade. Instead the taxis were the property of private firms 14 07 24

1919 bedmakers unrest [1.10]

1919 Rail Strike,—The action of the N.U.R. Executive in forcing on the country, without warning, a national railway strike, bound up as it is with so many evil consequences and endangering the country's food supply, met with universal condemnation in Cambridge, as indeed it has throughout the British Isles. The situation is being met with calmness and fortitude. Cambridge railway station went to sleep on Friday night at the behest of the N.U.R. Goods traffic and perishable articles were held up, cattle suffered similarly and the mere man in the street was faced with the necessity of arranging his own transport if he wished to get home during the week-end. Four or five passenger trains were handled at Cambridge on Saturday. About 90 per cent of the men are out. A few trains have been run daily during the week. The Divisional Superintendent of Operations said a large number of Cambridge civilians had volunteered for service on the railway. The strike affected the gas supply and postal services and food rations were reduced to the following amounts: Meat 1s. 8d. worth per-week, bacon 6 ozs. sugar 8 ozs. butter 1 oz, margarine 4 ozs, lard 2 ozs. An old lady walked ten miles on Saturday to fetch margarine. Coal deliveries were restricted to deliveries of one cwt. 19 10 08 CIPof

1919 Railway Strike Ends,—The railway strike terminated on Sunday after an existence of nine days. Speaking generally, Cambridge felt but little ill effect from the national railway stoppage. Volunteers and loyal employees carried on a skeleton passenger service and voluntary effort in connection with road transport proved an invaluable asset in the movement of food supplies for the community. Travellers were incommoded, the public generally showed annoyance and anxiety in turn, and the man in the street exercised a Briton's privilege of "grousing" and carrying on the best he could, Cambridge railway employees returned to work on Monday, and about 8 a.m. 500 of the strikers marched to the station to report for duty. Others arrived in the course of the day, but owing to some misunderstanding in connection with the re-instatement of certain labour, the goods operatives declined to resume work. A deputation waited upon the local railway authorities and subsequently returned to the strike headquarters in Devonshire Road. Here the goods men were told to report for work next morning, the difficulties having been overcome. The men received the instruction with general pleasure, and one enthusiast called for cheers for the "brothers" who had settled the matter. A member of deputation discountenanced any form of demonstration, and the men dispersed quietly 19 10 08 CIPof

1918 Men just back from the front on leave have a very strong feeling indeed about the mania for striking, which is running through this country at the present time There is no lack of sympathy with labour among the men out at the front, but these men are in touch with actualities and see for themselves that a crisis can be turned signally to our immediate advantage if we all put our backs into it, and that any contrary action will have the affect of prolonging the war. They are making enormous sacrifices and passing through horrifying experiences which, the imagination of the people at home cannot picture, and they are naturally indignant at the selfish

action on the part of their fellows which is disturbing the comfort of the soldiers' families and tends to keep the soldier himself longer out in this awful hell 18 09 18 CIPof

1920 Cambridge Master Tailors Association wound up & replaced by National Federation of Master Tailors [2.3]

1920 University Servants. We are all keenly alive to the domestic service troubles at Cambridge (University) within and without college walls, but I am informed that they are a good deal more acute at Oxford, where no female labour is admissible. Oxford college servants, like those at Cambridge, have sprung a Trades Union upon an astonished and bewildered University. Presumably a satisfactory arrangement has been come to here, as no one has heard more of the rumblings of the revolt which threatened during the Long Vacation, but at Oxford they have the whole of the thorny and difficult road to tread. 20 01 21 CIPof

1921 Miners; strike crisis; railwaymen decide against strike, passenger trains cancelled; emergency declared, lighting restricted, coal stocks controlled – 21 04 06b

1921 Rumours that University end term early due to miners' strike discounted; residents supply coal to allow essential services; railwaymen's' guaranteed week suspended – 21 05 04b

1922 The local Labour and Co-operative Parties were well represented on Parker's Piece on Saturday when a May Day Demonstration was held. The proceedings commenced with a procession which marched in the following order : Railway Silver Band, officers of the party, banner of the A.S.L.E. and F., Co-operative banner and party, smaller unions and womens sections, Cherryhinton band, builders' banner and banner of the N.U.R c22 05 08

1923 For the purpose of putting before the public the point of view of the strikers in the building trade, a meeting was held on Parker's Piece where there was a very large attendance. Mr Haynes said that 44 hours a week were enough for any of them to work. They had to remember that every man who was not with them was against them. In the event of the building operatives going down in the struggle, the railway men and workers in every other industry would have to look out, for the employers everywhere were out to reduce wages to a lower level than they were before the war. Urging the need of the workers standing together, Mr Overton said they were either partners in each other's poverty, or partners in each other's prosperity. The Trades Council were asking the other trade unions to come to the support of the building trade workers c23 04 08

1925 Cambridge Board of Guardians discussed the question of securing the repayment of the relief granted in loans to those concerned in the building strike in August last year. Mr Branton said he was not sure they had acted legally in giving relief to able-bodied people who were on strike, all they could do was to relieve the wives and children of those men. Several of the men started to pay the loans back by instalments and had stopped for the reason that other people were not attempting to pay back the money they had had. Others stopped at the instance of "so-called friends of the unemployed" who seemed to do nothing but stir up trouble c25 04 06

1925 Large crowds witnessed the Cambridge Labour and Co-operative Party's May Day demonstration on Parker's Piece. It was addressed by E.V. Watring. He said the cement workers had been on strike for eight weeks and not a single man had retracted because they had received magnificent support from the Labour movement. At a recent meeting of the Cambridge section of the Fascisti movement he had been alluded to as a "breeder of strikes". So far as the Shepreth dispute was concerned he denied that statement. The strike was brought about by the directors of the East Anglian Cement Company and only after every possible avenue leading to arbitration had been wiped away that the men forced the issue by striking c25 05 05

1926 General Strike : newspapers, gas and light carry on, fleets of cars leave Grange Road taking undergraduates into the country to assist in maintaining services [1.2,1.5,1.8,1.11]

1926 Something of the progress of Trade Unionism in Cambridge was indicated at a meeting of the Workers Union at which 150 members participated. Twelve years ago there was hardly any trade unionism in the town, with the exception of the craft unions. Agricultural workers had met with tremendous disappointments. The Wages Board had sent the wages of agricultural labourers up from 12s (60p) a week up to £2. Then had come the scrapping of the Board, wages went down to 25s (£1.25) and the worker was faced with the wreck and ruin of his home. The men had lost faith in trade unions c26 04 02

1926 Steps are being taken to set up an "Organisation for Maintenance of Supplies" committee in Cambridge. It is a non-political organisation for enrolling and classifying lists of volunteers for the use of the Government in the regrettable event of a general stoppage of the essential public services. One may be quite sure that such volunteers would be readily forthcoming in a grave emergency, but for the sake of efficiency it is thought better to have personnel ready beforehand. It does not question the right to strike but exists to prevent the mass of the population being victimised by a far-reaching strike that affects the well-being of the community c26 04 12

1926 An "Organisation for Maintenance of Supplies" Committee for Cambridge was the outcome of a meeting held at Christ's College, its aim being to enlist and classify volunteers for the use of the Government in the event of a general stoppage of the essential public services. The questioners included Coun W. Few, President of the Cambridge Trades Council and Labour party who declined to allow his name to go forward as a member of the Executive Committee c26 04 17

1926 Cambridge is the administrative centre for East Anglia for the arrangements being made to meet the National Strike emergency. Mr F. Morris Warren of St Ives is the district coal officer. There are three Food Officers who will deal with complaints relating to the supply of provisions. The big job of the moment is the securing and registering of volunteers willing to help in any way with the maintenance of essential services and supplies with a recruiting office in the Guildhall. The Mayor of Cambridge, Ald Edward O. Brown, said: "Today we stand on the edge of an important crisis in the history of our nation. A dark cloud is overshadowing the life of our people. I appeal to all our people to prepare for sacrifice, and remain steady. God grant it may be averted c26 05 03

1926 A public meeting organised by the Cambridge Trades Council, the Labour Party and the Co-operative Party was held on Parker's Piece and for an hour and a half speeches were addressed from two red wagons to a crowd numbering about 5,000. They were for the most part attired in red hats, scarves and rosettes and almost encircled by red banners. Lloyd George had

said when the miners came back from the war they would find a country fit to live in but they had been asked to accept a reduction in wages and an increase in hours. Socialists were out to help the poorer classes. The meeting closed with the singing of the Red Flag c26 05 04

1926 Cambridge station looked exceptionally bright this morning. Undergraduates in gaily coloured blazers added colour to the scene. The train services are gradually improving and great keenness had been shown on the part of undergraduates in bringing down supplies from London for the Station refreshment room. Tilly, the popular little tea shop girl, remarked while serving hot coffee and doughnuts to hungry undergraduates that she had never seen such cheerful and plucky workers as the volunteers who visited her counter during the General Strike c26 05 08

1926 The effects of the general strike were brought more closely home than hitherto. In many a Cambridge home the housewife found she had less to "manage on" and tradesmen large and small found their takings considerably decreased in consequence. Parties of undergraduates who had been doing volunteer work were seen coming home for a Sunday rest carrying kit bags over their shoulders. The University has further postponed examinations so that a clear three weeks interval for study will be allowed after the present emergency has ended. A further contingent of 30 undergraduates left in cars to take up tramway services in Hull; the windscreens were protected with wire netting c26 05 10

1926 Five hundred of the Civil Constabulary reserve, mostly undergraduates, left Cambridge early this morning for duty in the East End of London. An advance party of 100 went off yesterday. The journey was made by road, the procession of cars stretching for a distance of nearly a mile. In addition some are cleaning carriages at Paddington and Waterloo stations and others unloading cargo at Tilbury Docks. A large number are at dock work and engineering jobs at Hull, while a small contingent is at Grimsby employed at the quayside. A number of Girton and Newnham girls are working as cyclist messengers in the district c26 05 15

1926 When the news of the end of the General Strike was broadcast on Market Hill, Cambridge enthusiastic cheers broke out. "What rotten luck!" an undergraduate was heard to remark, "I only started work to-day and was looking forward to driving a lorry up to Town". "Never mind, old boy", cynically replied his companion, "They'll be out again in a few weeks". "I'm glad its all over", remarked a flapper, and then added demurely, "All the 'Varsity boys will be coming back". In many parts of the town children were carrying flags within two hours of receiving the news c26 05 17

1926 The situation was quiet at Romsey Town this morning, the railwaymen concerned in the new crisis patiently waiting developments which are taking place between the railway companies and the various unions in London. At the Co-operative Hall a telegram was read instructing the Cambridge men to remain out on strike until the unions got satisfactory assurance with regard to the men's reinstatement c26 05 18

1926 The Cambridge Joint Emergency Committee wish to place on record their gratitude to the many friends who have helped the men who were on strike; the ministers and clergy who lent rooms and the members of the University who gave lectures and concerts, helped in the club rooms and took parties to see the colleges. Many lent their cars to distribute the "British Worker". By means of the Strike Fund the committee have been able to relieve many cases of distress. The last gathering took place in the Co-operative Hall which was crowded with hundreds of women who enjoyed their entertainment c26 05 22

1926 Now that the excitement of the General Strike has passed away it may be of interest to note the effect of the strike upon local employment. Messrs Pye have only had about 2½ days short time but at the Cement Works the coal difficulty has resulted in a spell of enforced idleness for some of the hands. The Saxon Company's employees are being given their usual holidays on full pay and since short time started have been given work turn and turn about on repairs but unless the coal comes along there will be no more work for the present c26 06 07

1926 Mr Ramsay Macdonald, ex-Labour Prime Minister and Leader of the Opposition will not be one of the recipients of honorary degrees at Cambridge. His name was included in the Grace to

come before the Senate but certain members intended to “Non Placet” it & a flysheet was to be issued declaring this intention. News to this effect reached Macdonald who signified that he did not wish it to go forward unless it was absolutely unanimous. Opposition was more or less spontaneous because he was a party to an illegal act in bringing about the General Strike c26 06 08

1926 The Mayor of Cambridge told members of the Special Constabulary that the general strike had come as a “staggerer” to him. They had had to appoint various officers to control the various department of work – the food, transport, coal, volunteer service and Special Constabulary. It was impossible to forget their service and the willingness to help their town and country. No one on May 3rd knew what lay before them. They had been as near to revolution as they would ever be, but they faced the situation as Britishers should. What would have happened had the people been disloyal and untrustworthy he could not bear to think c26 06 18

1930 The Cambridge branch of the Association of Plasterers and Granolithic and Cement Workers celebrated its 50th anniversary. Mr G. Cook, their first secretary said they had experienced strikes and lock-outs; they had acted on the defensive and had been aggressive. They had a proud record for bettering the conditions for the workers. At one time they were 100 per cent organised and still had 95 per cent membership 30 05 12

1937 It came as something of a surprise to most Cambridge people to find buses on the streets again after a strike of 17 days. When the Eastern Counties Omnibus garage doors opened on Hills Road pedestrians and even motorists stopped to see what would happen. Then drivers and conductors appeared in uniform. Managers say the men have returned to work unconditionally and there would be no victimisation; every man would be reinstated except those who had caused wilful damage to buses. 37 05 11

1944 Mineworkers Federation (now NUM) buy 8 Selwyn Gardens as HQ after London HQ damaged by bomb; sold it 1945 when moved back London [3.5]

1944 Marshall’s Flying School strike - 44 10 26a

1951 For the first time college servants of Cambridge University have taken a Transport and General Workers’ Union dispute to arbitration by the Industrial Disputes Tribunal and a period has been fixed for the servants & Gonville and Caius college to negotiate and come to terms. The servants want minimum wages of £5 8s. for men & £4 1s. for women, payment for split duties and overtime, and protection of holidays and working weeks. A Union official said: “We must not antagonise the colleges who thought the servants were kidding. We can make friends with them or we can make enemies of them for evermore c51 09 04 [1.12,1.13]

1951 Trades Council dates from 1951 (see 1973)

1952 Tribunal raise Kitchen Porters wages from 3.7.6 to 4.15.0 per week (3.35 to 4.75); first ever “college servants charter” [1.14]

1963 Bedmakers wages up from 2/10 to 3/6 (14-18p) per hour [1.15]

1969 Amalgamated Society of Woodworkers centenary [3.4]

1970 “strike-torn 70s” - various strikes against Govt legislation [1.6]

1970 1st Trade union branch ASTMS formed [369.19.8]

1972 referendum of change of wage negotiations, Cambridge University Assistants oppose ASTMS claim to share bargaining, vote is a tie; NALGO & NUPE start; 22/- increase agree non-technical grades cleaners etc; CU formally recognise Trade Union for wage bargaining [369.19.8]

1972 The opening of the Union of Construction, Allied Trades and Technician's eastern regional headquarters in Cambridge marks a major step forward in acquiring the "modern image" required in today's union activities. For several years the Union, known then as the Amalgamated Society of Woodworkers, operated from small offices in Newmarket Road. Now with the move completed to new offices at the corner of Abbey Road "the union are in a position to project their image", says regional secretary Ivor Jordan. The offices were to have been opened in July but the ceremony was put off because of the building workers strike c72 11 27

1973 Trades Council dates from 1951, previously was industrial section City Labour Party, now independent, 10,000 Unionists affiliated, wants close relationship local authority especially when Labour-controlled District Council takes power 1974 [Misc.1.4]

1973 May Day strike - TUC Day of protest against Govt [3.1]

1974 3-day week [1.7]

1976 ACUA wins recognition of TU, not affiliated TUC [369.19.10]

1977 Bread was being made at the large Spillers-French bakery in Cambridge for the first time in 11 days, as staff returned to work after settlement of the national strike in "plant" bakeries. The accountant at the Sleaford Street bakery said some loaves were coming off the production lines by mid-morning. But they would have to cool and then be wrapped before they could be sent out. During the strike the small independent bakers have been working flat out to try to meet demand. Most have managed to produce around double their normal output. c77 09 23

1977 Retailers in Cambridge city centre are angry because the power cuts threaten to deprive them of electricity for up to three hours every Saturday afternoon. They feel it is unfair that the same shops should face being cut off during a peak period every week. The manager of the Abbey Boutique said it could cost traders thousands of pounds. But Eastern Electricity say they have to think of the needs of all their consumers and the traders would do well to see how it goes this weekend before they start complaining c77 11 06

1980 The TUC Day of Action was ignored by thousands of trade unionists in the Cambridge area who turned up for work as normal. But this failed to dampen the spirits of those who organised the protest against Government policies. The highlight was a mass public meeting in Market Square, preceded by a march through the city by 250 trade unionists. It was the biggest turn out the organisers can remember in Cambridge; when May Day marches were held there were fewer on the march than attended a normal trades council meeting 80 05 15b

1980 Cambridge University will now pay its clerical and administrative staff the same overtime rates as other universities and the working week will be reduced by an hour. They are outside the national pay structure but had agreed to be bound by the results of negotiations by the Central Arbitration Committee in London. NALGO members are now likely to accept a 13.5 per cent pay offer 80 09 05a

1982 Millions of trade unionists took part in the TUC's Day of Action in support of the health workers' pay claim. In Cambridge about 1,000 people joined a march through the city centre with representatives from health workers, uniformed firemen, NALGO, Trades Union and the city Labour Party. It was the biggest demonstration seen in the city for years. 82 09 22 [3.2]

1984 miners from Notts thank Cambridge people for support during strike, 20,000 raised [3.3]

History of Cambridge savings banks – 35 04 15b & c

1845 Humfrey's Bank closure, has ceased to issue notes for some time; premises taken by London and County Bank – Bankers Magazine 1845, ebook 691

1889 Mortlock's Bank registered as a Limited Company under the name of John Mortlock & Co Ltd [1.10]

1893 Foster's Bank moves from Trinity Street to new building in Sidney Street [1.6]

1896 Mortlock's amalgamated with Barclays [1.11]

1898 Fosters move to 3 Trinity Street ? [1.12]

1900 A branch of the Capital and Counties Bank Ltd has been opened in Cambridge at 63 Sidney Street. The fact that it has been thought desirable to set down another banking establishment is proof of the outside belief in the prosperity of the town. The bank was established in 1834 and have numerous branches in various parts of the country CDN 1900 05 01

1903 Cambridge is a unique place in many respects, some not altogether enviable. The number of judgement summonses is out of all proportion to the number of inhabitants. The cause is easily explained. It is due to the enormous extent to which the credit system obtains here, an extent unheard of in any other town in the world. An excessive credit system inevitably means a number of bad debts – usually for small amounts – and these gradually get into the hands of the professional debt collectors who do not hesitate to bring their debtors into the County Court. c03 10 03

1903 An agreement has been reached for the incorporation of the Capital and Counties Bank, London and Messrs Foster's bank in Sidney Street, Cambridge. The Capital was established more than 69 years ago and holds eminent rank among the leading London clearing banks. It is already well known here, having a branch in Cambridge under the management of Mr Guilman, and others at Newmarket, Haverhill and Wisbech. We feel confident that the enlargement by this amalgamation with Messrs Foster of the Bank's sphere of operations cannot but prove of general advantage. c03 11 24 [1/19]

1904 Sir – In November a Cambridge man borrowed £20 from a money lender, agreeing to pay £30 back by payments of £5 per month. He duly made the first four payments, thus returning all that was advanced in cash. The last two payments were made, one in May, five weeks after it was due, and the other in July, six weeks late. The borrower still owes £21. In times of depression and bad trade as in Cambridge at present is it unreasonable to ask newspapers not to carry advertisements for such moneylenders? – Citizen CDN 6.9.1904. A number of complaints have reached the CDN as to the impertinence of a moneylender in Russell Street. His circular reads: "Do you want a little temporary assistance without the usual money-lending routine, without publicity, without delay. If you do call at my offices". Regarding as we do all men of this stamp as dangerous to society we hope his tenancy will be terminated by the owner of the property and that the police will prevent this man thrusting upon the citizens of Cambridge by means of their letter boxes, circulars of this unsavoury trade. 1904 09 08 A correspondent points out that the circular issued by the Russell Street moneylender bears no printer's imprint, indicating that the printer was ashamed of his task. This is an offence against the law of the land and both he and the person who distributes it are liable to a fine of £3 for every copy. The police thus have two grounds for taking action. We express our appreciation of the spontaneous thanks which have reached us from all classes of Cambridge people for our attitude in this matter. It shows that the evil results of the presence in a community of these advertising moneylenders is widely recognised. 1904 09 06

1905 A new branch of the Union of London and Smith's Bank has opened in St John's Street. They have 150 other branches and a subscribed capital of £23 million. This makes the fifth banking institution in Cambridge, the other being Barclay's, Capital and Counties', Lloyds and the London and County. It includes almost the cream of the important joint stock banking concerns 05 11 03b

1906 George Edward Foster was the principal partner in the banking firm of Foster and Co which was amalgamated with the Capital and Counties Bank. He never married and concentrated his whole energies on the undertaking which attained great dimensions through his skilful direction. His wealth enabled him to be munificent to an unusual degree. When St Andrew's Street Baptist Church was replaced he gave £1,500 towards the new structure
06 04 10a

1906 Money lending allegations – Cambridge tradesmen and students – 06 11 17d

1908 Ebenezer Bird Foster of Anstey Hall, Trumpington together with his late brother, George, were directors of the Capital and Counties Bank. Their personal estates were nearly equal to the whole of the deposits for which the bank was liable. It must be remembered that the capital of a partner in a private bank may be withdrawn in consequence of his death. Ebenezer left £50,000 to each of his nephews, £500 each to his butler Thomas Harrington, and gardener Charles Forbes, as well as annuities to his housekeeper, coachman and housemaid CWN 08 07 31

1909 National Provincial establish branch at 6 Kings Parade [1.13]

1914 Midland establish branch Petty Cury [1.14]

1914 The London, City and Midland Bank opened a new branch in Petty Cury next door to the Head Post Office. The offices are handsomely fitted up; the counters and doors are of fumed oak and the electroliers and other fittings are of brass. The walls are panelled and the floor paved with tessellated marble. The exterior is finished in freestone with marble columns and the offices warmed by hot water radiators and lighted by electricity. 14 03 06a

1919 Foster's Bank absorbed into Lloyds [1.12]

1919 Victory Loan Race. — No-one anticipated that anything like the million mark would be reached by Cambridge in the Victory Loan Week effort; indeed, it was thought that if half a million was subscribed the Borough would be doing wonderfully well. The result, which must be highly gratifying to all concerned, placed Cambridge far ahead of Oxford in the Victory Loan race, the figures being: Cambridge £913,290; Oxford £485,300. This represents all new money; with conversions the Cambridge total reached £1,116,710. Such a large sum, besides indicating that Cambridge is in a prosperous state, also shows that those who had any money to spare invested it, no doubt with a view, not so much to take advantage of a sound investment in gilt-edged securities, as to assist in the work of reconstruction of the trade of the country. 19 07 16 CIPof

1922 slate clubs have practically died out - shared out money unallocated for sickness, hit by War, defaulting or absconding treasurers, undermined by National Savings movement [1.17]

1923 proposal to close banks Saturday afternoons rather than Thursday afternoons [1.7]

1930 The new night safe at Lloyds Bank in Sidney Street is not yet in working order but I had a peep and was impressed by the ingenious working of the arrangement. The safe is Lloyds' own invention and the Cambridge branch is amongst the earliest to have it installed. There was a time when people of small means did not trouble the banks very much but now the humblest investor seems to be welcomed. There are various kinds of home safe including a tasteful little book safe in four colours. c30 01 19 [1.2]

1934 Trustees Savings Bank formed (opens in Downing Street, June 1935) [1.3,1.4,1.1]

1935 Lloyds Bank Sidney Street extension hailed as splendid addition" [1.5]

1935 The Mayor (Ald R. Starr) opened the Cambridge Trustee Savings Bank's new offices in Downing Street. "I believe there are people in this town who do not trust the banks", he said. "They still keep their savings in old stockings and I often come across people who keep their money in old pewter pots. If the people of Cambridge will only feel it is their bank, and that they can deposit their money feeling it is safer than it would be in their own cottages, it would be a good thing". The Chancellor of the Exchequer, Neville Chamberlain, sent a telegram wishing the bank success. 35 06 04 & a

1935 New front to Lloyd's Bank, Sidney St – photo – 35 08 28a

1938 Martin's bank opens new branch on Market Hill – 38 10 05, 38 10 06a

1939 A full rehearsal for evacuating the staff at Lloyds Bank, Cambridge, and the various offices in Lloyds Bank Chambers to air raid shelters provided by the two strongrooms adjoining the main hall of the bank was conducted with full satisfaction 39 09 01 CIPof

1951 TSB open branch Mill Road, review progress: by 1939 funds were 20,000, at end of war 1,300,000, now 3,500,000 [1.8]

1953 A new branch of the Westminster Bank opened in Fitzroy Street, Cambridge, a fairly busy district which up to now has not been served by a bank of any sort. Inside the visitor is greeted with an attractively decorated modern interior. Cheques will be taken to the parent branch in Bene't Street where they are photographed and available for the customer to examine. An interesting feature is that a night safe has been provided. The first person to open an account was Geoffrey Nichols, of the Free Press, Prospect Row. c53 02 24

1953 Business at the Bene't Street, Cambridge, branch of Barclay's Bank has expanded to such a degree over recent years that additional premises are required to handle an 'overflow' of work. Now a new bank has been built at 3, St Andrew's Street. The counter is made of Honduras mahogany and glass panelling is extensively used, a modern feature which nevertheless preserves the traditional dignity of a bank. There is a unique feature about the new bank. Alongside the wall facing the church is a line of thirty tombstones, some 250 years old, which had to be displaced during building operations. c53 03 18

1956 The National Savings Committee says 880 new street savings groups are needed and village postmasters and shopkeepers should be approached. In the last six months many groups have closed down. Savings must be made: in the 1930s when there was no money available for industry, factories closed down and there was a serious unemployment problem. We do not want that to happen again. 56 03 01d & e

1956 The first Cambridge Committee for National Savings was formed in December 1916 and two of the first workers still living are R.P. Thorne and Mrs Widdison. In 1919 the Chairman was persuaded by the head of the Cambridge School of Flying to drop six War Bonds together with lots of leaflets from a low-flying aircraft. He suffered only temporary discomforts from stunt flying in the open type of aircraft of those days. 56 06 16

1956 Ald F. Doggett, chairman of the Cambridge National Savings Committee, purchased the first Premium Bond at a special counter set up at Cambridge post office. The Head Postmaster, C.A. Plouvier, later reported that bonds sold steadily during the morning with many customers taking the full over-the-counter quota of £10 worth of bonds. 56 11 01d

1956 Premium bonds rush – post office stays open late – 56 11 02c

1959 National Provincial opens [3.4]

1960s *The Cambridgeshire Collection has detailed newspaper cuttings files from this date*

1960 Barclays new Mill Road premises 60 03 17a

1961 The strong room at Barclay's Bank in Chesterton Road was blown open and £75,000 in notes stolen in the City's biggest bank robbery. The raiders piled stacks of office furniture and cushions to muffle the noise of the explosion which blew a hole three feet across in the strong room wall, then crawled through to help themselves to the money. Arrangements have been made to transfer the silver and copper coinage the thieves left behind. 61 03 22

1961 Westminster Bank opened their first Cambridge branch at the junction of Trumpington Street and Bene't Street in 1845. It was closely connected with University and College life and the original premises have been enlarged several times. Now a continued expansion in business has seen a handsome new bank in St Andrew's Street together with the modernisation of the one in Fitzroy Street which opened in 1952 to cater for that active and expanding shopping area 61 05 29a

1961 Barclays Bank has opened a new branch at 35, Sidney Street. The front of the building is in Portland Stone and mahogany has been used for the counters, cashiers tills and doors. The first floor is sound-proofed from the banking hall and accommodates the typewriters and customers' statement machines. These statements are sent to the banking hall by means of pneumatic tubes, a quick means of communication which helps to keep the noise down without impairing the speed of the service 61 09 20

1961 Security-minded Cambridge businessmen will soon be able to hire armoured cars for wage-carrying or uniformed guards to patrol premises at night. These are two services offered by Securicor which has opened an office in All Saints Passage. The vans have radio contact with headquarters during the whole of a cash transit run and it is impossible for bandits to get into the money chamber while the guards are judo experts. Specially trained dogs can also be provided. 61 10 27d

1963 Lloyds Bank, Cambridge, is using new high speed electronic equipment for transferring information on to bank statements 63 07 11 [2.3]

1963 Cambridge firms, University department and the City Council who employ large numbers of people have been encouraging their employees to change from wages in cash to payment by cheque. Pye says it would cut down the risk of hold-ups. But banks have not experienced any sudden swing to cheque payment 63 03 08b

1963 Lloyds new bank on Newmarket Road is the only one in Cambridge with its own private car and cycle park. Facing Sun Street, it will take three cars and five bikes. The bank replaces the temporary wooden structure which has housed the business for more than a year and will offer a full range of services. It is under the supervision of Mr E.J. Furley, manager of Lloyds main local branch at Sidney Street 63 09 17

1964 Deacon's Bank opened a branch in a 19th century Georgian building in Trinity Street. The banking hall has illuminated writing desks for customers, a night safe, interview room and manager's office. Although new to Cambridge, William Deacon's Bank can trace its history back to 1771 and was acquired by the Royal Bank of Scotland in 1930. It is strongly represented in the North but has been extending and now has a network of over 250 branches. 64 12 02a

1967 Lloyds Bank moving district office from Hobson Lloyds Bank move district office to Brooklands Avenue building that housed Gt Ouse River Authority – 67 03 30 [2.8], 67 07 06 & a

1968 Lombards open, Trinity St [2.10]

- 1969 Trustee Savings Bank introduce first 24-hour self-service banking – 69 07 02a
1969 banks close on Saturdays from 1st July [2.15]
- 1970 Barclays Bank modernise Bene't St HQ – feature – 70 06 25b & c
- 1971 banks close 4 days for Decimal currency changeover [2.17]
1971 Banks coped with Decimal Day – feature – 71 02 12a; The D-day non-event – 71 02 13a
- 1973 National Westminster introduce first electronic cheque cashing machine [2.19]
- 1976 A new branch of Lloyd's Bank is due to open on the corner of Regent Street and Gonville Place, Cambridge. It will be the first entirely new branch of Lloyds opened in the city since 1964, when a branch was set out at Cherry Hinton. Five cashier positions have been provided inside the bank, together with a cash dispenser for quick service c76 04 06
- 1979 Barclays branch reopens on Saturdays [2.22]
- 1980 Cambridge customers who have missed their Mitcham's Corner branch of Barclays' Bank over the past two and a half years will be delighted to visit their brand new premises with its large car park. On the ground floor is the main banking hall housing 10 cashier positions and one Foreign till. There will be two receptionists to help customers with their enquiries, whilst two managers and two assistant managers have offices on the first floor. 80 05 21
- 1985 Giner & Friedlander, first merchant bank opens [2.23]
1985 Cambridge Mortgage Centre has opened in Regent Street. The idea of Cambridge Insurance, a firm of brokers who offer pensions, investment and life policies, it will help people find a mortgage and advise which payment suits the applicant best. The staff will make sure clients pay the lowest rate possible: it is possible for someone with a £30,000 mortgage to be paying around 15 per cent or even less 85 04 10
1985 Cambridge Capital, a new merchant banking venture has been launched in Green Street. It is another step in the growing complexity of Cambridge's financial community. Merchant bankers Singer and Friedlander are already here and two more big-league accountants, Arthur Andersen and Robson Rhodes are getting established this summer. All this is in addition to the existing structure of bankers, accountants and financial advisers and means Cambridge could be a professional and financial centre of really some significance 85 05 30 [2.24]
- 1987 Cambridge Light Blue Trading Company was opened on Mill Road in 1933, its name an indication of the all-pervasive influence of the University. Then it dealt mainly in small loans to citizens. Now known as Cambridge Credit one of its main activities is secured loans of from £1,000 to £100,000 which are guaranteed by the borrower's property. But they would rather turn down an application than see the loan become an insupportable commitment. It has also entered the very competitive vehicle leasing business 87 07 29a & b
- 1989 Standard Chartered Bank to move to Cambridge, also Hill Samuel ¢CEN 17.4.89
1989 Charles Stanley first stockbroking firm in Cambridge, set up about 8 years ago ¢CEN 14.7.89

c.32.9 : poor law, workhouses, old people's homes

headlines

Clara Rackham recalled conditions in the Cambridge workhouse when she was a Guardian. There were a number of children with their parents. These were either illegitimate or the families of tramps who took refuge in the winter and took to the roads again in summer. The children and babies were cared for by the best of the inmates. Orphans were boarded out in foster homes. Aged people sat in their crowded day-rooms, clothed in their workhouse garb, allowed out on alternate Mondays. Dinner three days a week was a plate of pea soup and hunk of bread. 64 03 20a

1891 Stephen Mansfield founds 4 almshouses, South Terrace [2.5]

1894 description Bedders slum house, Cambridge Review vol.15 p221 [NI.3.5]

1895 Victoria Friendly Society build Millers Almshouses, Victoria Road [2.2]

1896 description of visit to Cambridge workhouse [1.7]

1897 A considerable amount of misapprehension appears to exist in regard to the provision of music for the use of the inmates of the Cambridge Workhouse. As a matter of fact that institution is unusually well provided with musical instruments. In addition to the organ recently erected in the chapel there are five or six other instruments - harmoniums and pianos – distributed throughout the house so that the inmates have frequent opportunities of enjoying music in their own rooms. Indeed it is safe to say that more music is heard in the wards in a single week than the majority would have heard in their own homes in 12 months c1897 05 28

1901 A new Diocesan Lodge for the Girls' Friendly Society was opened at Hills Road, Cambridge. Several spacious apartments will be used as recreation and classrooms with lectures on nursing, home hygiene, needlework and astronomy and classes for musical drill and singing. There are rooms for girls being trained for domestic service & accommodation for lady boarders and visitors. The old Servants' Training Home, formerly situated in King Street has ceased to exist as a separate institution. It had been established for 80 years and more than 400 girls had passed through; it had also afforded a home to many strange and friendless girls c01 10 29

1901 The Cambridge Church Army Labour Home was not a lounging place. It was a place where men worked. Each man won something like 6s per week by his work at the Home, by which he provided for his lodging and keep while he was there. Five had left for the pathetic reason that they did not like work. It was a home, not a mere workhouse, nor a shelter, nor a pastime, where men were taken at their best instead of at their worst. Its intention was not to draw drunkards, criminals and vagrants to Cambridge. As it offered work, which the careless vagrant abhorred, the Home's negative effect was almost more important than its positive effective c01 11 14

1901 The Church Street Mission is quite distinct from the Cambridge Female Refuge but is auxiliary to it. Miss Elsdon walks about the street at night and is able to persuade women who have gone astray to go with her to the Mission House and stay in safety for a few days until they can be received into the Refuge. Sometimes women come voluntarily and sometimes they are brought by the police. She also provides an escort for female prisoners on their discharge, meeting them at the prison and escorting them to the railway station, thus protecting them from evil influences in the town at the first moment of their freedom c01 12 06

1903 Cambridge Borough has had its pride wounded by the London Express charging it with having incurable slums and possessing filthier homes than Whitechapel. In reply Mr Campkin, a Guardian said: "There is no doubt there is an amount of poverty and squalor in Cambridge but there has been a vast improvement in the St Matthew's district over the last 40 years. There is evidence of the effects of drink in some parts of the town but in the Romsey and Petersfield district the residents are respectable working people" c03 08 07

1903 Commenting on the Cambridge slums Dr Roper said: "I think even the very worst are fast becoming demolished; take St Peter's Court, Castle Street, they are pulling that down. In consequence that there are large families in the poor quarters a woman very often has to go out and work as well as her husband to keep things going, and they can't keep their houses quite so clean as they otherwise might. In New Street you will not see much dirt or dilapidation, though in summer time the people are sitting outside nearly half-dressed in consequence of the heat. But their homes are not so bad as you might imagine". c03 08 08

1903 The idea of a happy Christmas being spent by those who are unfortunate enough to inhabit a workhouse is to most people incomprehensible. But in Cambridge workhouse Christmas Day is a happy day. The master tempers discipline with mercy and sheds a small ray of sunshine upon those whose lives have been darkened with misfortune. He has done more for the salvage of wrecked humanity that is ever likely to be known by the public at large c03 12 24

1904 The placid life of Linton has been stirred by a rumour that the dead body of a pauper had been sold by the Master of the Workhouse to the Cambridge School of Anatomy. This was a perfectly lawful proceeding under the Anatomy Act which provides that the bodies of unclaimed paupers may be used for scientific study. The matter had been debated by the Board of Guardians who voted five for and five against but the Chairman declined to give the casting vote. The Master had taken it upon himself to send the body to Cambridge. But it was not 'sold'. 1904 05

1904 Sir – In November a Cambridge man borrowed £20 from a money lender, agreeing to pay £30 back by payments of £5 per month. He duly made the first four payments, thus returning all that was advanced in cash. The last two payments were made, one in May, five weeks after it was due, and the other in July, six weeks late. The borrower still owes £21. In times of depression and bad trade as in Cambridge at present is it unreasonable to ask newspapers not to carry advertisements for such moneylenders? – Citizen CDN 6.9.1904 et seq

1904 The Cambridge Female Refuse is sorely in need of increased support for their accounts show a deficit of over £250. The amount realised by laundry work during the last six weeks was very much higher than for a considerable time past but they could not rely on a continuance of a large amount of washing and must get more subscribers. During the year nine girls had been admitted to the Home and eight sent out to service after the completion of their training. But for the first time in many years there were four cases to record of probable failure. 1904 11 23

1904 Distress is likely to be more acute in Cambridge this winter than for many years past owing principally to the slump in the building boom locally and the depression in trade generally. The Church Army has evolved a scheme through which married men may obtain work. A number of tickets are issued to philanthropists who fill in the name of a married man in need of employment and offers to repay the Army one shilling towards the cost of employment. The man is found work wood chopping or log sawing and is paid about 2s.6d. a day. But the Home is now overloaded with the produce of its labour and there are 25,000 bundles of wood which must be sold to the public before it can continue. 1904 11 26

1904 The anticipation of the probability of distress in Cambridge some weeks ago, before the wintry weather came to give a keener edge to hunger and a more painful and sharp reminder to the poor of their inadequate resources in food and clothing, was widely discussed but was felt to be unduly magnified. The Town Council vetoed a proposal to supply aid to the unemployed. But Miss Wilson of the Nursing Institution on Newmarket Road began to undertake the provision of free dinners to which the children of poor parents resort for their midday meal of soup and bread. "We give the children as much as ever they can hold", she said. Boys in pitifully ragged garments and decrepit old women and little girls with starvation all too plainly written on their features come with jugs to take soup home to those unable through illness or lack of clothing to come themselves. CDN 30.11.1904

1904 For some time Miss Wilson and her hard-working band of ladies have been daily allaying the pangs of hunger in hundreds of little children and their mothers in the Newmarket Road area of Cambridge by giving them free dinners. Now their effort is brought to an end. Not only are the financial resources exhausted but the staff have physically worked themselves out. But on the very day that these free meals cease the CDN Shilling Fund commences its distribution of tickets for food, fuel and clothing, continuing the work they have been compelled to give up. Subscriptions continue to come steadily in with cheques from Messrs Starr and Rignall photographers, Moore and Company tobacconists and the Cambridge Waterworks Company CDN 31.12.1904

1905 Cambridge Women's Temperance Association have acquired the tenancy of an East Road property formerly known as the Barnwell Coffee Palace which they have transformed into 'The White Ribbon', a well-conducted temperance establishment at which palatable food and clean lodgings can be obtained at moderate prices. The position of the building in one of the poorer districts has led to some apprehension but care is to be taken to ensure that the frequenters

of the establishment are somewhat more select than formerly. It is not intended for the tramp class but for young people who require lodgings. It contains 16 bedrooms with a tastefully-furnished sitting room 05 02 14a

1905 The begging fraternity appear to regard Chesterton as a Happy Hunting Ground. On the new estates, the De Freville and the Central the evil is particularly rampant and when the male members of the households are mostly away at business the weaker sex are particularly intimidated into relieving the able-bodied tramps who frequently threaten violence unless they receive assistance. One actually walked right into the kitchen and demanded money or food. The police have made an attempt to suppress this nuisance but when the principal penalty inflicted by magistrates is to discharge the beggar on his promising to leave town the evil quickly becomes as bad as ever. 05 03 24a

1905 Caxton workhouse inmates had a pound of suet pudding with treacle for dinner on Wednesday but left a great deal of it. On Thursday they had suet pudding again with a little bread and cheese but simply ate the bread and cheese and left the suet pudding. It was a waste of good stuff. Surely nobody could eat a pound of suet pudding for dinner? But the Master said some of them ate three or four pounds of it. It was decided to change to Irish stew on Wednesdays. 05 08 19

1905 The will of the late Mr Stephen Mansfield of Trumpington includes a bequest of £250 to Chesterton Baptist chapel where he once a teacher in the Sunday School. This is not his only benefaction to the village; there are five almshouses erected by him and their upkeep and stipends for the inmates are provided out of other property. He also subscribed to the Royal Albert and Victoria Friendly Societies' asylum and left £100 to the poor of Trumpington 05 09 21

1906 Church Army Home, Fair Street, report average age of inmates 33, average stay 63 days & 78 admitted [1.18]

1906 Since 1886 the parish of St Andrew the Less has theoretically been richer by the sum of £5,299 through the munificence of Frederick Bailey, a well-known brewer who resided at Burleigh House, Newmarket Road. Up to the present the riches have conferred no practical benefit but now a scheme has been formulated and income will flow to the relief of poor residents. There is also to be a commemoration service on his birthday. Now a poor parish will receive a substantial charity and the memory of a generous benefactor will be kept green for many an age. 06 03 21a

1906 A woman of about 30 years of age journeyed to Cambridge to meet the man who was the author of her 'trouble'. While she was in the train alone the child was born but on arrival at the station she behaved with such extraordinary circumspection that none of the railway officials suspected anything unusual had occurred. Carrying a bundle wrapped in underlinen under her arm, this extraordinary woman walked the length of the platform, hailed a cab and asked to be driven to the Workhouse. There her strength gave way and she swooned on the floor with the new-born babe beside her. They are both doing well. 06 08 23

1907 survey of local pauperism, its extent & cost [2.19]

1908 500 aged poor can apply for Old Age Pensions - "5/- (25p) a week for nothing"; have problems proving age [2.21]

1908 Cambridge Guardians discussed the case of an old soldier who had served in the Crimea and the Indian Mutiny for whom they paid 2s 6d a week for a nurse. The old man had saved £20 out of his pension to pay for his funeral expenses, so that he should not be buried in a pauper's grave. But this had been seized by the relieving officer. They did not want the old man to have the money back so that his children should have the pleasure of spending it for their own comfort and then send him to the Union 08 02 22a

1908 Stokys almshouses history – 08 04 11a

1908 Cambridge Poor Law children policy – 08 04 30 & A

1908 A new economic era in the life of England has begun with the introduction of old age pensions. Every man or woman of 70 who has less than twelve shillings a week is entitled to walk into a post office and fill up a form to claim a supplementary income from public funds. In Cambridgeshire there are about 1,500 who are eligible and in Cambridge about 1,300. There are those who forecast an age of thriftlessness, improvidence and national bankruptcy. But we do not think there is any need to be alarmed. CWN 08 09 25 p5

1908 Although we are far removed from the din of industrial strife, the wave of depression that is sweeping over the trade of the country is making itself felt even in Cambridgeshire. What local industries we possess appear to be flourishing, labour on the land is fairly constant and the labour required by the colleges varies but little. But the number of people making use of the casual ward of Cambridge workhouses has been increasing with 818 vagrants during the previous fortnight as compared to 184 last year. CEN 08 10 02 p5

1908 Old age pensions – committee constituted – 08 09 25 p8

1908 As soon as dusk fell, the heavy gates of the Cambridge Workhouse opened upon the first of a tattered regiment of out-of-works, willing-to-works and never-will-works who demanded hospitality. Reports from all local unions show an abnormal leap in the number of vagrants who are seeking the shelter of the casual wards due to unemployment consequent on trade depression. The first were a pair of women, one pale and gaunt, one rotund and healthful. They are a washerwoman and a charwoman from Lancashire; neither has yet found work and they are returning to the North CWN 08 10 09 p2

1909 on occasions all provision for tramps at workhouse full [1.3]

1909 The Old Age Pensions Act comes into force and the post office is busy making the first payments to some half-million old people. In this part of the country many old folk are incredulous about the act, which they believe is too good to be true. But some pensioners in the East End of London have been borrowing money against their pension order. But if a moneylender has taken a pensioner's book as a security for debt, the book can be recovered CWN 09 01 01

1909 Cambridgeshire took the advent of Old Age Pensions with very little fuss. For the first time in history veterans of toil claimed from the country the wherewithal to end their days in comparative comfort, free from the haunting dread of having to enter the 'House'. The pension varies from one to five shillings a week through the issue of what is known as the poor man's cheque book which is presented at the post office 09 01 08

1909 On Friday night a man died in an East Road Lodging House and the landlady was naturally anxious to relieve her house of the body at the earliest moment. She had no knowledge of the man's relatives and a 'parish burial' was ordered. The undertaker said she had wanted to put the body in the yard covered up with clothes but he had removed it at his own expense. But relatives complained that the coffin was too small and the body laid on bare wood with the feet sticking to the pitch. All there was to cover him was a piece of thin stuff which did not meet in the middle CWN 09 01 15

1910 boarding out of pauper children, workhouse – 10 01 14f & g

1910 Vagrants at Chesterton workhouse were kept for two nights, being given work according to their ability during the day and liberated at seven o'clock on the second morning. They had eight ounces of bread and water for breakfast and supper and eight ounces of bread and 1½ ounces of cheese for dinner. But is it fair to starve their poor wretches to this extent; not everyone is a rogue: many are just the failures of life and cannot help themselves, one Guardian said. 10 05 20

1911 Queens College sells one of its almshouses in Queens Lane to Kings College & demolishes rest [1.20]

1911 slum demolition means poor people have nowhere to live except workhouse [2.24]

1911 conference on tramps - habitual work-shy keep clear of 'hard' Unions & honour 'soft' [2.25]

1911 Legislative changes have removed the pauper disqualification in connection with the Old Age Pensions Act. At Cambridge workhouse 22 men and 16 women were eligible for the pension but only three have declared their intention of leaving the House. All three are men between 70 and 75 years of age who are going to live with relatives. At Chesterton Workhouse 48 inmates are entitled to the pension but again only three are leaving, one being over 80. Another old man has not yet made up his mind. Perhaps the coming of more genial weather will bring him to a decision to accept his pension and forsake the shelter of the House. 11 01 06f

1911 An Inspector's report on Cambridge Workhouse criticised arrangements in the sick ward, the dietary, bathing arrangements and care of children. The sick ward contained 25 male and 28 females with only one partially trained nurse and a woman who came in to sit up at night. The majority of the bed-ridden cases were helpless and a great deal of the actual nursing was done by paupers. There were no modern conveniences and the female side top floor had only a drinking water tap fixed over a basin. A new midwifery ward had been erected with no sink or hot and cold water 11 04 28e

1911 Night in Cambridge Casual Ward (see Memories 5 Sep 2011). – 11 08 25d & e

1911 The proposed way-ticket system would mean a casual who was really tramping for work would present his ticket at the workhouse manager on arrival and have his bath, his supper and bed in the ordinary way. Then in the morning he would be allowed to go on his way without doing any work. The manager would direct him to a place where he could, by showing the ticket, obtain bread and cheese for one meal. He would not need to beg. But 30 per cent of tramps were liars and wherever there was a 'soft place' it was smothered with vagrants, a Cambridge conference was told. 11 09 29 c d e

1911 During the week 274 persons have been supplied by the Mayor's soup kitchen and 73 gallons of soup, nine lbs of dripping and six stone of bread have been distributed. Meat, bones etc have been received from Mr W. Robinson of Bene't Street and other butchers, while G.H. French of East Road has given pea flour and Mr Wallis of Haslingfield, swedes. The sale of bone has realised one shilling and tenpence. The mayor has promised to distribute oranges today and Mrs Prior, Furniss Lodge, has kindly promised 150 mince pies. 11 12 22a

1912 The way-ticket system: a tramp's impression – 12 03 01b

1912 Tramps were worthless idle people who did not want to work. They should be taken and dumped into the sea – but this would poison the fishes. Last weekend there were 172 of them in Cambridge. The majority of the men slept together in one common room and loved to be together. If they were separated the number of vagrants would decrease because tramps had a system of signs and would warn others 'That's a bad place, don't go there', a conference was told. 12 03 22a & b

1912 Luke Hosegood is retiring from Cambridge Workhouse after 42 years, 36 as Master. During his long service he has made it a model institution as far as the limitation of the old-fashioned building will allow. He first came as school-master when 19-years old and married the schoolmistress, a girl from Bourn. When a vacancy for Master and Matron occurred in 1876 the Guardians, without advertising, selected them. Their daughter is assistant matron and their son honorary organist. Luke was award the 'Victoria Cross of Civil Life' for rescuing inmates from a fire in 1883. 12 03 29

1912 Harry Payne, 'the literary tramp' says that Cambridge is one of the best towns in Britain for 'needies' (travellers). "The 'beaks' are our best 'pals'. When we are 'pinched' for 'gagging' (begging) we ought to get seven days. The 'rozzers' will snap us up but might as well spare their

‘trilbies’. Magistrates understand us, they do. They know what we require. No seven, 14 or 21 days ‘hard’, not even a reprimand. Just a polite request that we leave town within 12 hours. We do not contrive to get ‘pinched’ until we have ‘worked’ the town to a standstill and it is no hardship to get on to another ‘uhie’” 12 05 24c

1912 Chesterton workhouse has been criticised by a lady inspector. The nursing staff was totally inadequate at the time of her visit with a solitary nurse on duty in the sick wards doing the work of three. Another complaint was that the young children were relegated to the care of incapables or undesirables. The lady visitor may be somewhat faddy but there must be some foundation for her strictures. 12 07 12d

1912 The National Insurance Act has seen a great rush of insurable people to join approved societies and applications for cards have reached stupendous figures. Cambridge General Benefit Society was one of the first to be approved and have admitted 100 new members. To their disgust members of the Cambridge Police Force have been called on to contribute their fourpence a week under the Act. This is difficult to understand as they get almost full pay during sickness and receive free medical attendance from the Police Surgeons 12 07 19f & g

1912 Luke Hosegood had been Master of Cambridge Workhouse since 1876 and was most assiduous in his duties; inspectors had commented favourably on the improvements he’d made. No fault had been found with his work and although he was some 60 years of age, he had a good ten years in him yet. There was not a gentleman’s house in Cambridge which was cleaner and better kept and regulated than the Workhouse. But he had submitted his resignation, Guardians were told 12 09 13a & b

1912 Queens’ College new building stands on the site of a row of almshouses founded by the first President of the college, Andrew Dokett. Architecturally they were of no value and their removal can scarcely be regretted. His charitable bequest will be continued as weekly pensions. Planned on traditional lines forming three sides of a court with the main façade to Queens’ Lane, they provide accommodation for 26 undergraduates as well as the Bursar’s rooms, guest room and clerks’ offices. They were built by Rattee and Kett in a remarkably short time for such first-class work. 12 10 04h

1912 Chelmsford Board of Guardians passed a resolution in favour of the bodies of paupers who die in the Workhouse and are not claimed by relatives being sent to the University Medical School, Cambridge, for experimental purposes. One Guardian described the proposal as a scandal, but others, including two clergymen, said they would be willing to allow their own bodies to be used for a similar purpose. 12 10 04j

1912 An Ely Diocesan report on housing conditions says that the greatest sufferers are the mothers of families. The fathers go out all the day to work, the children are in school but the women are anchored in the house. The combined effect of insufficient space, bad sanitation, poor water supply and air deprived of oxygen produces a kind of torpor which disinclines her to any exertion and she cannot control high-spirited children who seek amusement in the streets. Many women allow their homes to remain dirty but an untidy house drives the husband to the tavern where he spends the money which might make the house more comfortable 12 10 11b & c

1912 The Cambridge Home of Mercy (Female Refuge) afforded women who have been following a sinful court of life a home where they may be usefully employed and instructed in religion. The Mission House on Newmarket Road provided temporary shelter for girls and women while inquiries were made, then placed them in homes and situations. It was unfortunate that men led women astray and women led men astray and the blame must be borne by both. The girls were grateful to be rescued; one who had led a notorious and openly evil life had married and now leads a respectable life 12 12 06e

1912 Whitelocks Yard, Trumpington is a quit oasis from traffic thundering by on the main road. Now the twelve 100-year-old houses are being put up for sale by the trustees of the charity of George Whitelock who say they need considerable improvements and a lot of money spending on them. But the elderly tenants are concerned for the future, fearing they may be thrown out on

the streets. The homes, with a half-acre site, are being sold for £4,750 (about £83,360 now) 62 12 04a

1913 Workhouse – Hosegood offers resignation, daughter clerk controversy 13 02 28 p7 CIP

1913 Mrs Emma Hosegood was Matron of workhouse, for 36 years. As Miss Porter she started as schoolmistress at Caxton workhouse before moving to Cambridge where Luke Hosegood was schoolmaster. They married and were offered the posts of Master and Matron at Mill Road. All her life was devoted to her work, striving to improve and maintain the high standard of efficiency she set up. 13 04 25 p10 CIP

1913 Workhouse master Luke Hosegood retirement & p7 13 06 20 p6 CIP

1913 Luke Hosegood was at Cambridge workhouse for 42 years, most as manager. When appointed the Union ad not been attended to and he set to work most energetically to get it into perfect condition, making it home-like. There were many poor old people and it was the Guardians' wish that they should be treated with the greatest kindness and their somewhat grey lives made brighter. The Master was a disciplinarian and quelled the most turbulent inmate without undue severity. When his wife, the Matron, died, he resigned, even though not at a pensionable age. They hoped he would find something to supplement his pension. 13 10 03 p6 & 9 CIP

1914 Poor Law Union representatives meet to discuss tramp problem [1.8]

1914 Waters almshouses, Seymour Street, founded (Mrs Waters dies 1915)[2.16,4.10]

1914 Cambridge Workhouse needed a new boiler and pipes for the kitchen. There were serious structural defects. The cooking arrangements were antiquated, the stove out of repair, and the boiler liable to burst at any moment. The smell of cooking and heat from the kitchen made the Master's room most unpleasant. Greasy water overflowed on to the floor, the drain grease trap had partially rotted away. A large boiler in a shed supplied the hot water for cleaning the House and was a meeting place for all the male and female cleaners. The laundry had insufficient space and had no labour saving contrivances 14 07 02 14 07 17 p3

1914 The parishes of St Philip and St Barnabas have been enriched by the gift of six new almshouses which Mrs Waters has recently endowed and built on her land in Seymour Street, Vinery Road. They are intended for old age pensions of 70 upwards; three will be occupied by old ladies from each parish. They are of good quality red brick with a living room, bedroom and scullery fitted with a sink. The coal hole and lavatory adjoin the scullery. Mrs Waters selected the first tenants. 14 07 17 p5

1914 New workhouse opposed 14 10 23

1915 Cambridge Guardians discussed the appointment of a foster-mother for the Children's Home which would be apart from the Workhouse. At present the Matron did not have time to supervise them. Bread, meat, groceries and cleaning materials would be obtained from the contractors and firewood from the Workhouse. But Mr Coulson claimed the committee had deliberately underestimated the costs; the report was the most misleading one ever sent out. They now had the expense of two Houses instead of one 15 02 26

1921 Cambridge Home for waifs & strays closed last year & land procured for new home at cost £10,000 [6.4]

1922 Unemployed committee open soup kitchen Barnwell Theatre [3.12]

1922 Among the charitable institutions of Cambridge is the Cottage Home for Little Orphan Girls in Fitzwilliam-road. Its work has been carried on so quietly and unassumingly that the majority of townspeople are probably unaware of its existence. More than fifty years ago two wealthy Cambridge undergraduates were so distressed at the sight of many poor and neglected children in the town that they gave a certain sum of money for the founding of a home for orphan girls. Girls are admitted between the ages of four and twelve and are trained for domestic service and I am assured that those who have passed through the Home had done exceedingly well c22 05 29

1922 A satisfactory state of affairs was reported at the annual meeting of the Cambridge Home of Mercy. During the year the Home had been full. 16 girls were admitted, 12 were sent out to service and outfits were provided. One was sent to a stricter home, one to a sanatorium and two to be certified as mentally defective. Four girls had been married. Letters from old girls in service showed that many are doing remarkably well c22 12 15

1923 Miss Alderson said that since the opening of the Cambridge shelter for girls house in 1922 there had been 91 admissions. The present house (13 Hertford Street) was absolutely inadequate. There was a lack of proper arrangements for cleansing, no possibility for a separate bedroom for those for whom it was urgently necessary, no place except the one sitting room where the washing could be dried and the absence of any pretence of a waiting room. She

described the only lines on which such a house could be run as Early Victorian if not prehistoric and appealed for support from the municipal authorities c23 11 18

1923 The question of providing additional accommodation at Cambridge workhouse was considered. The committee had inspected the sanatorium of the Leys school in Hooper street which was for sale. It appeared to be suitable for a nurses home. Mr Hall said they ought to leave some of the patients at Chesterton. Some of them had been in the institution for 10 or 12 years and it would be better to leave them there to spend the evening of their life, where they knew almost everyone c23 12 09

1924 Harvey Goodwin Home for Boys founded [446.12.2]

1924 Many in Cambridge associated with Poor Law work will regret the death of Mr Luke Hosegood, who for 37 years was master of the workhouse in Mill Road. He was appointed schoolmaster in 1870 when there were 150 children at the Workhouse, and when tuition had to be provided for them there. In April 1883 a serious fire occurred in the men's infirmary. His brave conduct and self-possession was the means of preventing any loss of life. In recognition of his prompt work and meritorious conduct in rescuing some of the inmates he was presented with a testimonial c24 96 15 [1.9]

1925 Cambridge Guardians were told that their forefathers built the present infirmary as a test house for the able-bodied, but now it was becoming half hospital and half almshouse, and so they needed better accommodation now than they did. Mr Sells said he had every sympathy with the poor but they had to recognise that their inmates were better housed, better fed and better clothed than 75 per cent of the poor of Cambridge. If expenditure was embarked upon it would have to be found by the working men of Cambridge. The new building was not urgently needed c25 05 30

1925 The Bishop of Ely formally opened Stanton House, the new Cambridge Shelter for Women and Girls at Glisson Road. The Home is open day and night, not only for what are generally known as "rescue cases" but for all those who find themselves stranded in the town without means of getting lodgings. Many cases are brought by the police. The inmates stay until they can be restored to their friends or arranged for in suitable institutions. Originally started in 1854 by a few undergraduates it has several times been temporarily closed down on account of financial difficulties and as often re-opened at the request of town authorities c25 06 14

1925 The new Harvey Goodwin Home for Boys which has been erected at St Luke's Park, Victoria Road, Cambridge under the auspices of the Church of England Society for Providing Homes for Children (Waifs and Strays) was formally opened. The house is a fine, red brick building, capable of housing 35 boys and stands on a splendid site, and within its own grounds. The Bishop of Ely spoke of the work of sending boys from these homes to the Dominions under proper supervision c25 10 03

1926 An important new block is about to be opened as an extension of the Cambridge Poor Law Institution. The Mill Road workhouse received its first inmates in September 1838; just before Christmas married couples and the aged women arrived, and the sick and infirm were brought 'in fives' from the Poor-house of St Sepulchre and St Mary-the-Less. As tea was then 3s.3d. a lb 'small beer' was allowed in its place and sometimes given in excess so the quantity was limited to one quart daily per inmate. It has served with certain alterations and additions for three generations but now is inadequate for present requirements. The new block contains sick wards, maternity wards and nurseries. It will prove very useful and be a credit to the town c26 11 01

1927 Overseers of the Poor make their last rate; after 300 years their duties of valuation of properties & collection of rates to be taken over by Committee [1.10]

1927 vagrancy has increased greatly since War, dilemma over casuals -117 housed one night in premises suitable for 60, Chesterton Overseers refuse help [1.16]

1927 An inquest was told how an 82 years old lady, who had fallen, was moved about from one institution to another until she had, against her relative's inclination, to find a last refuge in the Cambridge Workhouse Infirmary. Addenbrooke's Hospital had said she was noisy and disturbing the rest of the ward and could not be detained. She was sent to the Infirmary from which she was removed to the Devonshire Nursing Home by her relatives. But they said that whenever she moved she cried out very loudly on account of the pain and was too noisy to keep. So she was returned to the Infirmary where they diagnosed a broken rib. CDN c11.3.1927

1927 The Overseers of Cambridge have come to an official end & the passing of this ancient institution was celebrated at the Dorothy Café. It used to be their duty to help any poor person by granting relief without asking any questions, to be called in cases of suicide and take charge of mental cases. When they rated houses it was remarkable the very small value owners placed upon their own property. They sometimes felt it would not have been a bad thing if they could have bought the house at the price just stated by the owner. (Laughter). They had been in existence about 300 years they were handing over their duties to a Borough going back 700 years. CDN c1.4.1927 [1.11]

1927 The foundation stone of two new cottages were laid at the Cambridge Victoria Friendly Society's Institution in Victoria Road, Cambridge when. One is to house the nurse-matron and the other will be for an extra inmate. They have been made possibly by the generosity of the late Miss Emily Flack. They will be one-storey buildings containing a living room, a bedroom and a scullery. The nurse's cottage will have a bathroom in addition. It was only right that old people who had worked all their life and exercised thrift by belonging to a Friendly Society should in their old age find a haven of rest, said the President, Dr E.H. Parker. c27 09 04

1927 A catastrophe was narrowly averted at Cambridge workhouse when the boiler "sprung a leak". Had the trouble not been promptly detected an explosion would have inevitably occurred. This was the second occasion during the week and it had only to be incapacitated for the laundry, heating and cooking to be at a standstill. The trouble was caused by an accumulation of chalk deposit from the water. It would not have occurred had the apparatus been cleaned out at regular intervals. The sooner they got rid of the boiler and chimney the better. c27 11 07

1927 The Home of Mercy in Christchurch Street, Cambridge continues to do valuable work for girls in need, both in material matters and spiritually. It is almost always full & parents of the inmates express their gratitude for the care in training the girls. Eighteen have been admitted during the past year and eight have been provided with outfits, earned by good conduct marks, and placed out in service. Four have been certified under the Mental Deficiency Act, two returned to their friends, one refused to stay and one died of meningitis. Several have been baptised, confirmed and admitted to Holy Communion; some had to be taught even the Lord's Prayer and many are admitted in a low condition of mental and bodily health. c 27 12 16

1928 A meeting was held to consider collaboration between the Cambridge and Chesterton Unions in the alleviation of the tramp problem. For some reason very few tramps go to Chesterton but very many go to Cambridge which is very seriously overcrowded. The indoor poor of the two unions should be managed by one committee who would gather together all the sick, all the babies, all the children and all the tramps and distribute them between the two existing union houses as seemed most convenient. c28 01 20 [1.12]

1928 Sir – everyone associates Cambridge with a stream of young life spending the happiest and most fruitful years of their youth. But at the same time another stream of men is seeking in Cambridge some 'odd jobs', something to provide a few coppers. And does the crowd of the 'upper ten' realise the conditions under which their unfortunate brothers spend their nights? In the casual ward at the workhouse inmates are unable to get to sleep owing to the room swarming with mice, which scamper up and down the floor and run over the men on the beds. Surely the

authorities could cleanse the room and eject the army of mice. How can such a condition of things exist in a 'seat of learning' where the laws of health are studied – Mary Higgs c28 07 16

1928 Cambridgeshire gets its quote of “Weary Willies” – the wandering fraternity and ne’er-do-wells – who, homeless and penniless, are content to patronise the various casual wards or ‘spikes’ and seek shelter at the expense of the ratepayers. I recall a visit to Cambridge ‘spike’ when bread and water was all we received in the way of sustenance and a stiff task of wood sawing or stone-breaking was expected in return. The ‘spike’ at Ely was, however, always regarded as a ‘cushy’ one. Today the tramp has a comfortable mattress to rest on, a hot bath, clean towels, night shirt and sometimes a safety razor. On leaving he is provided with bread and cheese to sustain him on his journey. c28 09 10

1928 All applicants for admission to Cambridge workhouse are searched for contraband goods – not a pleasant task for the porter, and anathema to the tramp, who endeavours by all the tricks in his calendar to outwit the searching fingers of the official. No tramp is supposed to take in any tobacco, pipe, matches or money but to place them in his kit which is returned on discharge. But “Weary Willie” dearly loves a smoke; his stumpy pipe he will conceal in a toe of one of his big boots, in the other he places his matches or a selection of ‘kerbstone mixture’ – cigarette ends picked up in the streets - and Cambridge in Term provides him with a plentiful harvest. c28 09 11

1928 Cambridge Guardians have sanctioned the provision of a cinematograph at the Poor Law Institution. A Kodascope machine will be installed and a subscription raised to cover the cost of £1 a week. The provision of music on cinematograph or wireless was just as much part of the Institution as providing medical and dental treatment. They also considered the installation of a system of telephones c28 10 21

1929 new Casual ward built at Chesterton, most up-to-date in country with spring mattresses, baths; after 10 years generally accepted that not meeting with any success & casuals just using wards as hotels; men refused work that was available & Government decided to close down the wards ‘after 10 years’ [12]

1929 Cambridge Guardians debated purchasing number 137 Gwydir Street for the few children in the Workhouse. Mr Francis said they should not build on that side; there were complaints of the smoke and grime and he could not imagine a much worse place. The right place was at Chesterton where they would at least get the air and the sun. Mr Lofts said they could not afford to expend that amount of money, while they could board children an extension was unnecessary. There was no rule against boarding out children under three but they tried to keep babies with their mothers CDN c 26.2.1929

1929 Sir – a young one-legged tramp was struggling into town on his crutches when he was asked by a Universityman where he was bound. “Cambridge workhouse”, he replied whereupon the Varsityman at once called a taxi and accompanied him there. Having rung the bell for ten minutes and received no reply the student scaled the 10-foot spiked railing, took the gate key from the porter’s lodge, opened the entrance gates and led the tramp into the lodge where he seated him in a comfortable chair and was driven away. One can imagine the surprise of the night porter arriving some minutes afterwards – C.F. Lewis CDN 16.10.1929

1930 Cambridge Board of Guardians funeral feast held at Lion Hotel, [1.13]

1930 Chesterton Board ceases after 96 years [1.14]

1930 first meeting of Council Public Assistance Committee attack Cambridge Guardians’ “utter foolishness in being so generous in many relief cases [1.15]

1930 At the last meeting of the Newmarket Board of Guardians important features of their 94-year history were recalled. Originally there were nine workhouses but a central workhouse opened with the removal of the inmates of the Soham workhouse in 1837. It was enlarged and rebuilt in 1902. Whatever else was said of the present Poor Law System which was now passing away, no one could ever say that it was not humane. They had to deal with men and women with

whom life had dealt hardly and in no sphere of public service had such a demand for wise judgement and sympathetic action been more forthcoming 30 03 21 a & b

1930 The disappearance of Boards of Guardians and the transference of the Poor Law work to the Public Assistance Committees has caused some bewilderment. The chief institution in Cambridge is that at 81a Mill Road; it was erected in 1838 as a 'Union' to replace numerous small parish workhouses. The name has been changed to Poor Law Institution in recent years. The demand for accommodation became so acute that in 1923 they had to build a new block. The Infirmary of the old Workhouse has become a hospital with 124 beds in up-to-date wards with a large nursing staff including three certified midwives. 30 04 01a-c

1930 Cambridge is well known to 'Weary Willies' – tramps – as 'hard-up-town' owing to the quantity of cigarette ends which can be culled from its pavements, especially during Term; 'hard-up' being the name they give to the tobacco gathered from the streets. A few years ago vagrants found meagre fare in the casual wards: bread and water for supper and breakfast with a scanty bread and cheese dinner. Today the diet includes bread and margarine with tea or cocoa for supper & a dinner of cheese, bread, margarine and vegetables 30 08 20a-b

1930 The Home of Mercy in Christchurch Street, Cambridge has been more or less full of girls, almost all aged between 16 and 20. Seventeen girls had been admitted and ten provided with outfits and placed in domestic service. Five have been baptised, six confirmed and three restored to Holy Communion while two girls formerly in the home have been well married. The chapel had been redecorated and beautified. There were fewer illegitimate births but the moral standard of the country had broken down and a very large number of outwardly respectable women were morally corrupt. 30 12 08a-c

1931 Why do tramps prefer Cambridge? Councillor Edwards had given lifts to men on the road from London. They told him that its casual wards offer a great measure of comfort to the gentlemen of the road and it is a convenient jumping-off ground for tramps en route to Newmarket races. "If we carry on as we are, we shall get casuals and plenty of them", he told councillors who were considering a scheme to build new accommodation for 150 casuals at Union Lane. They agreed to reduce the size of the building. 31 05 08c

1932 Men's Casual Ward opens, Union Lane; Mill Road wards close[1.1]

1932 The 'White Ribbon' Coffee House and Temperance Hotel in East Road has been taken over by the Salvation Army. After redecorating it will be run as a hostel and restaurant providing good refreshment and lodgings for 40 men at a reasonable charge. 32 01 25

1932 Tramps are on the increase. Previously the 'weary willies' were habitual vagrants who did no work; bearded, unclean and ragged they 'humped' their dirty kits through rain and sunshine. But now many respectable and well-dressed men who have been shorn of the dole by the Unemployment Insurance Act are taking to 'the road' in the almost vain hope of obtaining some employment. There are some from high professions who have found themselves cast on the 'rubbish heap', while married men are leaving their families rather than be a burden to wives who are employed. 32 04 15 & a

1932 Members of the National Unemployed Workers' Movement organised a meeting opposite a house in New Street, Cambridge in the interests of a resident who was threatened with eviction. The man was a rag and bone dealer with two children whose application for relief from the Public Assistance Committee had been refused on the grounds that he was not starving. A Defence Committee was formed to oppose his ejection and a demonstration will be arranged on Parker's Piece 32 09 30bb (picture 32 09 30d)

1933 Cambridge Victoria Friendly Society's Institution opened its new pavilion with a verandah from which residents could watch Cambridge Town Football Club's matches. Its had started in hired cottages in James Street but in 1841 the foundation stone for the present building

was laid. Cottages were added in 1888 and 1899 thanks to the Jubilee fund with the four others known as Miller's Buildings opened in 1906. It provides accommodation for 37 residents whose average age is 70 years. 33 11 28

1934 The Cottage Home for Orphan Girls is a small house in Fitzwilliam Road, a part of Cambridge which is not generally seen by the population. Few people were aware of its existence. It seemed there were not many destitute children in Cambridge for the local cases were not numerous but it was open to orphans from anywhere. It was started by two undergraduates named Coote and Watney and the foundation stone had been laid in June 1871. 34 09 24

1935 In a little cottage in Union Lane, Chesterton, men on the way to the Institution can now, for a few hours daily, experience something of the comfort of home life. The once rather dilapidated house has been transformed into a cosy Wayfarers' rest. Brightly-distemppered walls and a roaring fire make it a comfortable place. On arrival they are given tea and a cigarette. Upstairs is a tiny chapel where prayers are said with a bible reading for any who care to attend. 35 04 17

1935 The number employed by the Disabled Persons Workshop has varied from 9 to 10; two are doing piece work in their homes, not being able to attend at the shop. Unfortunately three who are employed are not eligible for the deficiency grants from the Ministry of Labour which has hit the income. It has been a disturbed year owing to the difficulty of finding suitable premises in Cambridge for a shop. The workshops in Gloucester Street are out of the way and they had to leave Peas Hill because of demolitions, meaning there was nowhere to sell their goods. The new premises in Trumpington Street are outside the shopping centre and the rents and rates are a strain – 35 05 13

1935 Thirteen girls have left the Home of Mercy in Christchurch Street during the year, nine of whom were placed out in service. Every effort has been made to train them in laundry and housework, cooking and needlework. The Fellowship of Compassion has provided the girls with woollen underwear and rubber aprons. Religious teaching, which was more necessary than ever, has continued and there are always girls in various states of preparation for baptism and confirmation. 35 12 17

1936 The Wayfarers' Rest at 3 Union Lane, Chesterton has been open for a year. It provides an opportunity for those on their way to the Casual Ward to spend an hour or two in homely surroundings during which they are given tea, scones and a cigarette or tobacco. They can write letters, read magazines and join in the small chapel for prayers and a short Bible reading. More than 4,700 men and 120 woman have used it so far 36 04 25a [1.5]

1937 Victoria Friendly Society build 6 new dwellings [2.3]

1937 The Home of Mercy in Christchurch Street is one of the oldest Rescue and Preventive Homes in the country. Miss Meeking, who completed 29 years as manager, had a remarkable understanding of the young girls; many sent to her as 'hopeless cases' were restored to self-respect and received a fresh start in life. In the Home she was affectionately known as 'Mam', but there was no weak sentimentality in her treatment of the girls and she fully understood the need of firmness and discipline. She knew that when they left the shelter of the Home they would meet many difficulties and kept in touch with scores of girls. She was consulted frequently by other moral welfare workers and recognised as a wide and sympathetic counsellor 37 07 22a

1937 Fellowship House toy distribution, which has taken place about Christmas-time for the last five years, came to an end after a very strenuous week. Altogether nearly 1,300 bags were distributed to the children of all unemployment men whose addresses were obtained from the Employment Exchange. Each bag contained an old toy, a new toy, a book, orange and bag of

sweets and were delivered by private cars. Then as a 'Grand Finale' some 1,400 children were given a free film entertainment at the Victoria Cinema. 37 12 24

1938 Two wayfarers of the Public Assistance Institution, Union Lane were summoned that, being persons habitually wandering from place to place, they took a five-year-old child with them, thus preventing it receiving elementary education. They admitted they had no fixed abode and the boy only attended school for a few weeks at Long Sutton. The small solemn-faced lad was led into the court and lifted on to one of the benches for the magistrates to see him. He was well-nourished and well looked-after. He had never been neglected. The boy was taken into care though the father could see him once a month. 38 01 08

1938 Something should be done about the housing of old people: the number of old people is growing out of all proportion to the number of children and people of working age, Cambridge Women's Luncheon Club was told. In the old days people with nobody to look after them had to go to an institution. Now most live with relations but are not wanted, cause overcrowding, are treated as unpaid nurses and servants and appreciated very little. Some live in attic rooms in other people's houses with no water or cooking arrangements. It would be better to convert middle-class houses for them where they could form some sort of community. 38 11 28b

1938 The Home of Mercy dates back to 1836 when residents concerned about the lack of provision for women, hired Dover House in East Road as a place of refuge. Then in 1838 the Cambridge Female Refuge opened in Christchurch Street in which girls who have fallen into evil ways can receive Christian guidance and discipline in a home-like atmosphere. Last year nine left to go into service and four were returned to their parents. One was baptised and three received Confirmation. 38 12 10b & c

1938 Cambridge Police Poor and Needy Fund ensures many needy families can enjoy a good Christmas dinner and plenty of coal. A large queue formed in Downing Place, young and old, they call carried baskets, jugs and sacks – even pillow slips. A huge pile of potatoes was in one corner and milk was handed out from churns together with butter, tea and cartons of peas. The Police Santa Claus No.1 (the Chief Constable) chatted with people as they came in. Then came a Distribution Day lunch of roast beef and Christmas pudding in the police station. 38 12 23

1939 The Victoria Friendly Institution was inaugurated at a meeting at the Wrestlers Inn, Petty Cury in 1837 and the foundation stone of the old building laid in 1841. A programme and a number of coins were also placed in a bottle. But there is no trace of them. Now six houses have been erected to mark their centenary, providing happiness for those fortunate enough to be elected tenants. It was a great satisfaction to know there were such places in which people could spend the eventide of life 39 04 21

1943 Bene't Hostel for stranded girls - women caught at railway station when trains did not run etc - set up in Brooklands Ave (moved Drosier Rd 1945, closed 1966) 5.1]

1946 Edwinstowe old peoples home opened Oct [446.10.3]

1947 "There is a general feeling throughout every grade of society that we want to have a brighter old age - and this is one of the first steps taken towards it". This comment was made by Alderman W.L. Briggs when he opened the first Old People's Welfare Club in the Tracy Memorial Hall, Romsey Town, Cambridge. This club is the first of its kind in the town, and more will be opened. "This new movement throughout the county was to take an interest in people who had reached the sensible years of life". Remarking that as far as pensions were concerned things were getting better every day - and it should be. "After all, we are the people who have borne the heat and burden of the day and have made England what she is" c47 06 16

1948 The experience of being stranded in a strange town, with nowhere to stay, is particularly unpleasant for young women. There must be many who, stranded in this way in Cambridge, have heard themselves being directed to the Bene't Hostel for Women which exists to provide such shelter. The hostel was started in Brooklands Avenue in 1943 to meet a wartime need and during the last year of hostilities 1,060 applications were received and the total number occupying beds was 8,265. Its continuing need being proved, a house was later bought at 1, Drosier Road where an average of 21 beds have been occupied nightly ever since c48 05 05

1948 What might be termed the swan-Song of the Cambridge County Council Public assistance Committee took place at Shire Hall. In common with many other similar committees its duties will be taken over by the Ministry of Health on 5th July. The chairman, Mrs Mellish Clark, said that at the County Hospital Mill Road they decided to develop the maternity work, to close the causal wards and move the nursery children out to Linton. At Chesterton Hospital they had built a new casual ward, but when the war came these wards were converted by the additional of hospital beds and were being so used at the present time. At Linton they had built a Nurses Home but as there was no proper sanitation t Caxton they had decided to pull it down c48 07 02

1948 The need for utilising Chesterton hospital for the elderly and infirm people of Cambridgeshire and of housing casuals in some other part of the county was discussed at a meeting of the Board of Governors of the United Cambridge Hospitals. Dr R. Ellis said "There is a tremendous need, with the closing of infirmaries, to know what to do with the people who were housed in such places. A great hardship is being imposed on people who are old - they are literally living in houses in some villages in semi-starvation and dirt. There is no hope for them living in the way they are". Mr Dennard thought that as far as casuals are concerned they should get a hut at Bourn and house them there c48 08 25

1950 Members of the employment committee visited Trumpington Industrial Hostel and commented on the satisfactory manner in which the camp had been converted into reasonable accommodation. There were dining rooms, dormitories to accommodate about six men each, a theatre, laundry and ironing facilities and good reception arrangements. Although the premises were not ideal they thought the hostel was remarkable satisfactory and very useful c50 01 14

1952 Dr Barnardo's children's home opens [5.5]

1955 The Mayor cut the first sod for the building of the Cambridge Residential Home for Old People to be known as 'Langdon House'. It will take 37 residents with special provision for elderly married couples. Each will have a bed-sitting room with running water and they will share dining and sitting rooms. It will cost them £4.10s a week, but inability to meet this charge will not debar worthy residents from being admitted as it will be open to all without distinction. 55 07 05a

1956 Honey Hill old peoples homes opened [3.7]

1956 Hilda Paine is leaving the Cambridgeshire Home Help Service. It started in 1948 when she was appointed to organise the service in the rural area and later took over the small Cambridge service which had been run by the W.V.S. and combined the two. From small beginnings the service is now a flourishing and important concern. There are now 275 home helps with a 'case load' of about 590 people a week 56 12 28

1956 The pink-overalled corps of women known as the 'Home Helps Service' are available to homes where there are expectant mothers, elderly people, those who are ill and small children in need of care. The 250 ladies cook, clean, shop, wash and iron, receiving 2s 10d an hour. One helper isn't exactly a housewifery expert but was always in some small trouble of her own. 'We like having her', the old people said, 'she brings us a bit of excitement!' 56 08 16

1957 Two groups of Cambridge people, one small and ageing, the other large and young will always carry vivid and happy memories of Princess Margaret's visit. One are the happy band who are passing away their 'twilight years' in the comfort and beauty of Langdon House, which she officially opened. The other are the young families who live on the new housing estate at Arbury Road where the foundation stone of a new church was laid. The Princess came into their midst, laughing, joking and chatting with them, radiating her charm and personality wherever she went. 57 08 01c & d & e & f

1957 I had always thought of old peoples' homes being sad places where equally sad old people spend the end of their life. But Primrose Croft stands in a lovely garden filled with flowers backing onto school playing fields. Each of the 35 residents has an airy room with attractive curtains and a lock-up cupboard. The women were busy doing knitting and crocheting, the wireless in the lounge is also enjoyed and the matron hopes one day to afford a television set. 57 09 18

1957 Langdon House opened by Princess Margaret : after Alderman Langdon, 1952 Old People Welfare Council urged him as Mayor for home old people, pledged his personal help; Cambridge Housing Society would manage it if £10,000 by public subscription, foundation stone laid 1955, finished Dec 1956, for 36 able-bodied elderly; new wing 1963 for old who unable to move far & need constant attention [3.8,15.1]

1958 Hill Top Club used by US forces, then over-60s, all-day club [15.3]

1958 Civic leaders have backed the News' appeal for emergency funds for Edwinstowe Old People's Home in Chaucer Road. It needs money to replace furnishings, including mattresses and the hot water system. This pioneer Home has catered for 90 elderly people since it opened in 1946 but rising costs have made it impossible for money to be found other than by an appeal to the warm-hearted generosity of local people. 58 02 18a

1959 Frederick Archibald Mace arrived as Master of Chesterton Hospital in 1946 and implemented the changes which have turned it into the bright, happy National Health Service establishment it is today. But to several old people, some of whom have been in the hospital from their childhood and until ten years ago knew it only as an institution, he was still 'the Master', but a Master who contradicted all the old Dickensian ideas of institutional life. 59 03 16

1959 The Cambridge Association for Social Welfare told how in 1854 a group of undergraduates opened a Mission in Church Street, later to be called Stanton House, where spiritual and material help was given to women and girls in serious moral trouble. Then in 1883 a group of University ladies formed the 'Cambridge Association for the Care of Girls' finding work for girls living under dangerous circumstances 58 06 01 & a

1959 Henrietta Street and St Eligius almshouses – 59 09 12c & d, 59 09 26, 59 09 28

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 Stanton House flatlets old people, luxurious accommodation opened [3.9,15.10]

1961 The Old People's Welfare Council believes the best thing for the elderly is for them to live independently as long as possible. But many cannot and there are an increasing number of people wanting care in their old age. The main problem is finding suitable premises to make into old people's homes. In 1948 the County Council had to do with Linton Hospital and a few beds at Chesterton Hospital. Since then they have been modernised and improved. After the war buildings were very difficult to get because of competition from firms wanting office accommodation and the rising cost of land. The first new home was The Grove, Fordham in 1951,

followed by Willingham House and in 1956 Primrose Croft was adapted to take 35 elderly residents. The future plans are to erect purpose-designed buildings 61 02 17b

1961 Chesterton Hospital has 166 beds for the elderly sick and 74 custodial beds for able-bodied elderly people with no homes of their own. After decades of neglect geriatric medicine has come into its own. The number of elderly people is the highest it has ever been while a declining birth-rate has diminished the number of children available to care for their parents. Now 25 per cent of Britain's elderly are left without children to look after them in their old age. But of these 95 per cent are living independent lives and a quarter make some contribution to society until the age of 75 61 08 12

1962 Central Aid Society changes rules after 80 years due Welfare State, set out to improve conditions people living in Cambridge; till 1915 called Charity Organisation Society Misc.4.6]

1962 almshouses demolished, King Street [1.17]

1962 Collections at the Round Table's Christmas tree in St Andrew the Great churchyard began in 1953. Last year they raised money to provide 415 parcels for old people, each containing £1-worth of Christmas cheer. The names of old people who benefit from this magnificent effort are revised each year and every person is visited before Christmas. One year a 30-foot high tree was delivered and putting it up meant dislocating the traffic outside Christ's College for some time. 62 12 08

1962 The changing face of old Cambridge will soon see further demolition. Already a number of houses have been pulled down in Shelley Row and four more are to follow including one boasting an elegant example of a Mansard roof. The building on the corner of Leeke Street and Newmarket Row, known as Mendicity House, formerly provided lodgings for beggars following the Napoleonic War. It was later purchased by the Industrial Dwellings Company, set up to improve the inadequate housing in the Barnwell area. It is now Harris' butcher shop. 62 02 01b & c

1963 One third of the institutions which house our old people are just former workhouses. Terrified of losing their individuality in an institution plenty of old folk prefer merely to exist in poverty-stricken solitude. The real problem is of lonely old age – and no place can be lonelier for an old person than a 60-bed workhouse dormitory full of strangers. But the Abbeyfield Society integrates people in their own neighbourhood in houses with separate bed-sitting rooms with personal belongings and an electric hot-plate for minor cooking. Now one may be set up in Cambridge. 62 12 21

1963 Abbeyfields Cambridge Society, help old people remain self-supporting within community, buys 1st of 18 houses it hopes to acquire in Cambridge [15.11]

1964 Cherry Trees, a club for the elderly, has opened in new buildings in St Matthew's Street which have been donated by Miss Evelyn Boake. It will be run by the W.V.S. on similar lines to their successful Hill Top Club on Castle Hill. The main room with a lounge opens out to a sun terrace. The décor is rich and colourful with easy chairs in orange blue, green and red. Coffees and lunches will be served each weekday to men and women of pensionable age who are not in full employment. At present the main problem is obtaining sufficient volunteers to help serve. 64 11 18

1965 Simon community to start; aim a house for misfit dossers & alcoholics where live without being institutionalised

1965 Oban Court flatlets for elderly people in Union Lane; have kitchenettes, bed-sitting room and dressing room with washbasin and lavatory. The double ones have bathroom. To be officially opened – 65 05 06

- 1971 Harvey Housing Association flats for unsupported mothers with day nursery – feature – 71 09 07
- 1972 Jackenetts new almshouses, Church St, open [4.1]
- 1972 Dr Barnardo's children's home closed, bought for Social Services boys hostel [5.5]
- 1972 Salvation Army close White Ribbon Hostel, East Road after nearly 50 years; county council take over [5.7]
- 1973 Cambridge Night Shelter set up as Charity, has King St accommodation for 17, (closed 1974 as all helpers had flu) [4.2,11]
- 1973 Simon community so short workers close east Rd hostel, reopens
- 1973 The cost of bringing the White Ribbon Hotel at East Road, Cambridge up to the standard needed to meet fire safety regulations and public health requirements now about £4,000 – nearly three times the amount originally estimated. Until last April the hotel was run by the Salvation Army as a hostel for city working men with no family roots. But, because of the high cost of

maintaining the building and bringing it up to the new standards, the Salvation Army moved out and the County council took over the building. Cambridge city council have told the county that they will not pay any more than £750 c73 11 18

1974 Council plans to buy Pound Hill property for Night Shelter frustrated, it moves to temporary accommodation in run-down almshouses St Paul's road; Cyrenians play major part in running this & also medium-stay hostel in East Rd & community house for long-stay individuals in Short St [4.3,11]

1974 Storeys House 49 flats elderly women Mount Pleasant opened, Edward Storey Foundation one of richest in country with income £12,000 [16-.4]

1974 The White Ribbon hostel in East Road, Cambridge, which provides a home for 30 working men with no family backgrounds, has been declared a great fire hazard by Cambridgeshire Fire and Rescue Service. For many years the hostel was run by the Salvation Army but they were forced to give up when the high cost of bringing the building up to fire safety standards was discovered last year. The building was then run by Cambridgeshire Mental Welfare Association. But because of other commitments, they have handed over the administration to the county council. Eventually the authorities hope to replace the old buildings with new ones. But no swift action is likely in rebuilding because of the present serious shortage of money in local government circles c74 08 04

1975 Mill Road houses open for drunks, opposition; pulled down 1976 [4.4]

1975 Cyrenians allowed house Gonville Place [4.5]

1975 drinking problems clinic opened at Fulbourn Hospital [4.7]

1975 Cambridge desperately needs cheap accommodation for dossers, a Cambridge police commander claimed. This was preferable to the free accommodation once provided by Cambridge Night Shelter whose facilities, he felt, only served to aggravate the city's vagrancy problem that had grown in the past five years. "I have to ask whether life has not been made too easy for alcoholic dossers in Cambridge. Aren't we in fact encouraging them to become what they are by giving money and a place to stay when they need it?" he asked c75 10 19

1976 Simon community take 3 Gonville Place, moved out [Misc.1.3]

1976 new Hill Top Club opens Primrose Croft, anon 20,000 donation 2 years ago [15.6]

1976 geriatric hospitals are old workhouses, each one days march from the other [15.7]

1976 A new flats complex for elderly people in Sturton Street, Cambridge, was opened by Mrs Rae Linnett, widow of the former Vice-Chancellor of Cambridge University after whom it is named. He was chairman of the appeal which raised money for the scheme which was promoted by the Anchor Housing Association. Linnett House, which includes communal rooms, a laundry room and a warden's flat, is the first new development for the use of Cambridge residents named after a senior member of the University c76 09 28

1977 fire at White Ribbon Hostel, condemned as fire hazard, provides shelter for homeless men, county council take over; a doss house for 26 men with one bath between them, damp & filthy, turn away drunks or drug abusers, violent, no incentive to improve for political considerations & because scheduled for demolition in Kite redevelopment; Church Army seeking permission to build new accommodation in place of its Willow Walk premises [5.9,8]
1977 "city burdened with poverty and misery in some areas"—Rhodes James [16.3]

1978 6 or 7 streets have far more than their share of human problems, 'area where delinquent attitudes prevail' [16.4]

1978 Parsons Court meeting place for elderly opens [15.9]

1978 Twenty-six men live in the county council-run White Ribbon Hostel in East Road, Cambridge with one bath between them. It is hardly worth bathing, the place is so damp and filthy. The rooms at the back are so rotten they are used just for storage. If you have a bedroom to yourself a week in the hostel will cost you £14.78, just £10 less than a room in the relative luxury of the YMCA. The problem is a practical one: the Hostel is scheduled to be demolished should the Kite redevelopment plans go ahead. The council is thus loath to spend much money on the creaking 19th-century structure. c78 11 18

1978 One of Cambridge's well-known characters, Mr William Trevor Hughes, has died at Addenbrooke's Hospital aged 66. It is believed he had suffered a heart attack, Trevor had appeared before magistrates on some 113 occasions, mainly on drinking charges and was usually found wearing a woolly hat and old overcoat in the city centre. On one occasion a solicitor paid his £3 fine because he had overlooked giving him a Christmas present. A native of St Helens and a former cricket coach Mr Hughes had a wide circle of friends in the University and commerce. c78 12 15 [4.6, 13]

1978 A remarkable cross-section of the community gathered for the funeral service of a well-known Cambridge personality. There was a former Dean of Jesus College, a police superintendent, booksellers, shopkeepers, a solicitor, market traders and college staff. They heard an address and sang hymns. Then they exchanged reminiscences about the man whose service they were attending, paid tribute to his memory and went away. A regular occurrence in a town like Cambridge, perhaps. A distinguished academic or leading businessman had died, it might be thought. But this service was for a shabby old man with a beard of no fixed abode who had some 113 convictions mainly on drinking charges and who sat and drank in the city centre – Trevor Hughes. c78 12 24

1979 Church Army plans for hostel Victoria Rd/ Histon Rd approved [5.10]

1980 'Turning Point' organisation establish dry house for addicts [4.8]

1980 1st school ex-prisoners set up 6 years ago in Cambridge to close [16.5]

1981 Jason Caesar baby killed [16.6]

1982 at least 120 homeless people, Church Army (1)& Cyrenians (2) run houses but can only cater for half, both have had applications for new premises blocked; Cyrenians rules are no violence, no drugs & no drink in house; Church Army run like institution as many people have lived in institutions all their lives & would deteriorate if outside one, 36 men in three dormitories, one bath & one shower [9]

1982 Simons House, the Histon Road sheltered housing for the elderly, and the nearby Rackham Close bungalows have won a major Housing Design Award. The scheme was judged to provide 'most agreeable homes for elderly people' and many of the residents agree. Mrs Bertha Kent described it 'as a lovely little place', Daisy Woodcock says its very friendly and John Manning thinks 'its really ideal'. 81 12 31a

1982 Community nurses along with home helps and the meals-on-wheels service form the basic support for many old people. They treat burnt legs – quite common in cold weather as the elderly tend to sit very close to fires and fall asleep. Many ladies cling stubbornly to the homes in which they have lived for half a century or more, often without central heating, indoor lavatories and in some cases electricity or hot water. Two or three elderly people in Romsey have only gaslight while others insist on using candles. 82 01 15

1982 Newly-modernised almshouses in King Street were re-opened by Baroness David. They were built in 1880 to replace the original houses dating back to 1647 which had decayed beyond repair. The new houses for single retired women have modern kitchens, bathrooms and central heating. Already they have six tenants. 82 10 05a

1983 Many old age pensioners in Cambridge are finding it difficult to struggle to the main Post Office and harder still to stand, often in a long queue, to collect their pensions. The News deserves full credit for highlighting the plight of many frail, elderly residents. The lack of hospital beds for long stay patients means that more than 80 former residents are now separated. There is also a chronic shortage of accommodation in old peoples' homes and a shortage of warden-supervised sheltered housing – Chairman, City Housing Committee 83 07 19 p6

1984 double-decker bus for drunks [4.9]

1985 An old playschool bus has been fitted out with bench seats and facilities to make hot drinks and sandwiches with an informal meeting area upstairs. It will stand on waste land next to the Lion Yard car park as a drop-in centre to provide a warm, sheltered meeting place for the homeless, unemployed and disadvantaged people of Cambridge. There will be two basic rules – no drink and no violence. It is run by the Cyrenians who will offer advice on problems with the DHSS, housing and drinking. But there has been a lot of public hostility 85 01 21

1985 plans for hostel for former psychiatric patients, Mill Road [6.1]

1985 problems poverty Darwin Drive etc but no help under Urban Aid grant [16.7]

1985 Stanton House residents celebrated its silver jubilee with a ploughman's lunch and old-time music hall. It has 28 bedsits with shared bathrooms, giving elderly people their independence while under the watchful eye of a warden who lives on the premises. It was the first sheltered housing scheme to open in Cambridge and has proved very popular. But the fact that residents are made so comfortable means they live longer, and more and more homes of this kind are needed. Now Mill Road maternity hospital and St Philip's School in Thoday Street are to be converted. 85 11 25

1985 Christmas is just another day for some residents of the Church Housing Association in Willow Walk. But despite the distinct lack of enthusiasm Captain Andrew Entecott and his helpers are busy at work. The cook will be dishing up turkey and all the trimmings for 36 men and gifts will be presented in the afternoon. The Cyrenian's home in Short Street is like a big happy family and they have planned a Christmas meal. But many homeless people will be wandering the streets with nowhere to go 85 12 23

1986 The Church Housing Trust's new hostel in Victoria Road aims to get away from an institutional set-up with single rooms and bedsits for 75 homeless people. Alcohol will be banned and residents encouraged to improve their lifestyle to enable them to live in the community again. Nearby home owners have been reassured that problems will be few and far between because if residents have been drinking they keep away as they don't want to lose their accommodation. The Trust's existing premises in Willow Walk will be also retained 86 08 22 New-style accommodation for homeless planned in .75M development Victoria Ave for Church Housing Trust who have run Dickensian- style dormitories at Willow Walk since beginning of century [6.2.7]

1986 Railway House Association provides accommodation for youngsters in houses on Mill Road bridge – 86 03 17a

1987 Church Housing Trust hostel opened Victoria rd, takes 70 people, replaces Willow Walk, no alcohol, drunk or troublesome lose home [NS2.6]

1987 The Railway House Association stands as a chilling monument to the suffering, heartache and degradation inflicted on youngsters in the Cambridge area. Many of those who have sought sanctuary have been subjected to physical violence, neglect, mental abuse and sexual crimes. In the last year the Mill Road hostel, which consists of three houses divided into 12 flats, has taken

in 26 young people who might otherwise have been sleeping rough. But another 60 have had to be turned away. 87 03 24a & b

1987 The City Council are negotiating to buy a £300,000 16-bedroom hotel in Chesterton Road with a large dining room, lounge, extensive kitchens and parking for 15 cars. All carpets, furniture, bedding and crockery are included in the price. It will be used to provide bed-and-breakfast for homeless families waiting for permanent accommodation and will work out cheaper in the long run. Property values are increasing rapidly and it could be sold at a profit if the number of homeless families falls substantially. But one outraged neighbour described it as an upmarket dosshouse not appropriate for the area. 87 10 02

1988 Cambridge has nearly double national average of children in care ¢CEN 26.11.88

1988 The first residents have moved into Ditchburn Place, the former Mill Road Maternity Hospital which is being turned into an assortment of 100 flats and houses for young single people and elderly couples. A small number of units have been built for people who have moved out of psychiatric institutions. When complete next year it will incorporate a laundry, restaurant, coffee bar and day centre for the frail and elderly. It is a very attractive scheme, offering a higher standard than the private sector could have afforded and is unlikely to be repeated in current financial circumstances. 88 06 13a

1989 rent arrears rise - "people in state of poverty" ¢CEN 9.2.89

1989 city lottery wound up after 13 years ¢CEN 25.2.89

1989 Church Housing Association hostel Willow Walk to be renovated, closed 1986 when new premises opened Victoria Rd ¢CEN 4.3.89

1989 Cambridge's homelessness problem is getting worse, experts say. Officials from the city environmental health department were so worried they went out on the street at night to look for people sleeping rough. But they only found two middle-aged tramps and feel they may have looked in the wrong places. There are more than 5,000 people on the housing register and last year the council housed 241 homeless people. Up to 50 families are being forced to live in hostel accommodation because they cannot find anywhere to rent or afford to buy a place of their own. 89 06 07a

1989 Ditchburn Place, the former Mill Road Workhouse celebrates transformation into home for the elderly and meeting place for the community – 89 12 20a Ditchburn Place, the former Mill Road Workhouse celebrates transformation into home for the elderly and meeting place for the community – 89 12 20a

1990 Cambridge's first soup kitchen has been set up at the homeless drop-in centre, the Bus Project. Winter Comfort will be running the service which provides soup, hot drinks and sandwiches until March. About 12 people per night have been taking advantage of the service. 90 02 12

headlines

Election tactics long ago – Enid Porter – 59 10 07 & a

Eighty-year-old Henry Palmer of Bradmore Street had lively recollection of some of the old election fights between the Whigs and Tories. “I have seen the shop windows broken and the blood running in the streets and the paths all slippery and sloppy with it. They used to have barrels of beer on Parker’s Piece and knock the head in and dip the beer out in pails and hand it round. The political parties used to be hot in those days” He also recalled how a man who lived in the end house of a row in Petersfield used to make cricket bats. He built a brick wall right across the path and the matter ended up in court. Every year afterward they commemorated the event by dancing in the streets 10 09 09 & a

1888 Women’s Suffrage Association annual meeting, membership 50; are allowed to vote for new County Council [5.4]

1891 Bill Tillett first Labour leader to address first Labour demonstration in Cambridge, November [1.21]

1891 Salisbury working men's club foundation stone laid [5.18]

1901 Mr Smith, a member of the Social Democratic Foundation paid a visit to Cambridge and in the evening addressed a gathering on Parker's Piece. A box was conveyed to a spot under the central electric light. From this platform the lecturer discoursed. The majority of the audience appeared to be sympathetic. A few juveniles however found pleasure in throwing lumps of turf at the speaker and disrupting his remarks. A large number of pamphlets were sold at the conclusion of the meeting c01 09 21

1902 Socialist beginnings - Fabian Society and townsmen meet in Queen Anne Terrace [1.15]

1903 Goods seized from Passive Resisters for the non-payment of the education rate were auctioned at Cambridge Corn Exchange. Due precautions were taken to prevent unseemly disturbances. The auctioneer was enclosed in what resembled a laager, composed of corn merchants' desks and a large number of constables kept a vigilant watch on the crowd who clambered upon desks to obtain a clearer view of what was going to happen. No sooner had the auctioneer started than his words were drowned in a perfect storm of hooting and hissing c 12.9.1903

1904 University try to oust their MPs as had not supported Government on Education & Licencing Bills [3.6]

1904 Many are the amusing incidents related by canvassers for Parliamentary honours. One called at a modest house in Norfolk Street, Cambridge and asked for the master of the house. So she says I'm no class at voting, and in future she's going to vote herself, instead of me". In vain did the canvasser endeavour to explain that the man's good wife could not vote, but he responded "Can't vote? Can't she? Perhaps you'll tell her so!" CDN c 28.1.1904

1904 Cambridge Liberals have been turned out of their handsome home in St Andrew's Street. Few provincial political clubs have had such a palatial clubhouse with large lofty rooms, spacious hall and staircase with a terrace overlooking gardens. The deceased Alderman, Henry Rance, who built the extensive premises practically ruined himself in the process. Members are now removed to a property in St Tibb's Row formerly occupied by a now defunct newspaper until new premises are completed on the site of the old Bird Bolt Hotel. CDN c 23.2.1904 [3.1]

1904 County Council electioneering tactics at Cherry Hinton were exposed in confidential correspondence between two potential candidates. Mr Neal, the owner of Cherry Hinton Hall, was too unknown to have the slightest chance of carrying the seat. Many scarcely knew there was a Hall and he had not had time to make it a centre of interest. The parish is Radical to the backbone and the Conservatives would be giving the seat away to the opposition were he to stand. However Mr Brooke had great strength with the cottagers and even the Dissenters would support him. In the event of his being elected he would not serve once the Education question had been settled and would stand down, making it easier for Mr Neal to win the seat. CDN c 26.2.1904

1904 Green Street, Cambridge would hardly be suspected of any pretensions to the romantic. Its well-ordered lodging-houses, the policemen who parade it and the milkmen who visit it, all seem to bar the entrance to anything more fanciful. Yet it is home to a Russian Pole, Mr Ignatius Knaster who became a political offender by the publication of a political pamphlet dealing with

the conditions in Poland and was given the alternative of incarceration or banishment. CDN
3.9.1904

1906 The University is deciding who shall be their representatives in parliament. But voting is not by secret ballot. Three polling stations are furnished with desks and packs of voting cards of different colours with a space for the voter's name, college and degree to be written. Two electors arrived together, one in academics and the other cap and gownless. He had to wait until his companion had completed his business before borrowing his gown & thus be allowed to vote. 06 0 13a&b

1906 When the election meeting at Newnham concluded the candidate's carriage was drawn to the Conservative Club followed by a procession which included a couple of motor buses. Just as it reached Cambridge Market Hill a similar procession of demonstrating Liberals poured out of Petty Cury. These two bodies of citizens conceived an intense dislike for each other, shouting vigorously. A little later there was an exhibition of fisticuffs in Sidney Street 06 01 13

1906 The polling box from Norfolk Street was the last to arrive at Cambridge Guildhall and with it came the story of a tactful police inspector who had piloted the carriage containing some hundreds of votes through a Petty Cury crowded with excited partisans. Inside the ballot papers were counted and it became known that Mr Buckmaster was elected. Mr Paget, with the generosity of an English gentleman, shook his hand and congratulated him on the victory. 06 10 16b

1906 The newly-elected Cambridge Liberal MP, Mr Buckmaster, proceeded to the Bull Hotel. Hundreds upon hundreds thronged King's Parade and still hundreds more from Market Hill arrived, cheering as they came. When he appeared on the balcony the applause reached fever heat, handkerchiefs and hats were waved and he was informed that he was a jolly good fellow. At last, it seemed from very exhaustion, the people settled down to hear his speech. 06 01 16b

1906 An extraordinary incident at the Cambridge election left some Conservatives thinking their candidate had been elected. It may be that the white handkerchief waved from the window of the Guildhall seemed in the glare of the gaslight, to be a pink favour. Great was the jubilation, they cheered and they cheered and one gentleman commenced a congratulatory speech. The shock of the news that the seat had gone to Liberalism was therefore harder to bear when it arrived. Nevertheless the Conservatives gave their champion a stirring reception when he joined them – defeated or not. 06 01 20a

1906 The new Cambridge Liberal Club premises in Downing Street includes an assembly room with a ladies gallery, reading, smoking and games rooms. But it has nothing that can compensate for the loss of the beautiful garden they enjoyed in their old home at Rance's Folly in St Andrew's Street. It will be formally opened by the Solicitor-General. 06 01 31a

1906 The length of time over which General Elections are spread is protracted beyond all reason. Before the advent of motor cars considerable time was needed to enable a candidate to make himself known to the electorate but now a week would answer all purposes. A general election could then be over in nine days instead of three weeks and the polling occupy three days instead of a fortnight. 06 02 03a

1906 Cambridge Women's Suffrage Association held a well-attended meeting in the grounds of The Lodge, Mill Road when addresses were given by Miss Isabella Ford, a prominent suffragist, Mrs Rackham and other local ladies. Women could be guardians or medical officers but could not vote for a representative in Parliament. The grounds, which present a beautiful appearance, proved an ideal venue .06 07 19

1906 A Cambridge Ratepayer Association was formed: there was deplorable apathy over local government and many councillors resumed their seats without a contest. Members of councils were nominated and their actions controlled by a party. Contracts were given out, not to the lowest tender, but because one man belonged to one party and one to the other. They might run candidates for the town council and board of guardians irrespective of party politics. 06 10 19b

1906 A large number of supporters of Women's Suffrage met at the Victoria Assembly Rooms, Cambridge, to hear an address by Mrs Henry Fawcett. Dr A. North Whitehead presided and was supported by Miss Kennedy, Mrs Heitland, Mrs James Ward, Mrs Rackham and Dr Westlake, Professor of International Law. Mrs Fawcett said ladies had lobbied the Prime Minister then jumped on the forms, made speeches and waved their flags. They were carried outside by police and as they came out a young factory worker who said 'Votes for Women' was immediately arrested and sent to prison. 06 11 06d & e & g

1906 Lord Buckmaster dead –Liberal Cambridge MP 1906-1916 – 34 12 05

1907 When Parliament re-assembles there will be a stupendous effort on behalf of the enfranchisement of women. A canvass is being organised in Cambridge which already includes the heads and staffs of Newnham and Girton Colleges and the Secondary Training Colleges for Women. Small informal drawing-room meetings are being held and addresses on suffrage given to meetings of the Women's Liberal Association and the Co-operative Women's Guild. 07 01 15b

1907 Keir Hardy demonstration – 07 02 18 attempt to prevent Kier Hardy speaking by screwing up door, [1.12]

1907 The University Vice Chancellor has condemned the undergraduates who wrecked Kier Hardy's meeting at the Guildhall. It is one of the University traditions that honest opinions, however unpopular, should receive a fair hearing. Cambridge is not unsympathetic towards the Labour Party and its leader should have been given a chance of expressing his views. 07 02 21

1907 Suffrage meeting, Cambridge – 07 02 15 [4.17]

1907 During recent elections for St Matthew's Ward one of the Liberal candidates complained about the vicar pulling down Liberal election bills on the walls of York Street school, one of the polling stations. He replied that nobody had the right to fix notices to the property of the Old Schools. Patches of paper remain on the walls for months afterwards leaving a stain it was impossible to remove. Anyway most people had made up their mind before the election how to vote. 07 03 26

1907 A Women's Suffrage meeting heard that even in Cambridge there were many signs of women's desire for the vote; once they only had one meeting a year, now they were continually having them. Bertrand Russell was contesting Wimbledon in the interests of the movement. They might be proud that the first man to do this was a Cambridge man, and a man of such intellectual distinction. 07 05 14c

1907 Cambridge Association for Women's Suffrage organised a meeting at Cambridge Guildhall with a series of admirably-delivered speeches by Mrs Fawcett, the Hon Bertrand Russell and others, supported by 80 delegates from across the country. It was said that men had all the logic and women sweetness and morality. But men could not be expected to know everything that women required. Young women should throw themselves with all the ardour and power they could command on this, one of the very great questions of the world. 07 07 09

1907 Whatever the detractors say about the 'unsexed suffragette', the little band of "pesterers" who visited Cambridge last night amply vindicated their femininity. Mr Haldane, the War Minister's last memories of our town will not be the ringing cheers of his supporters but the shaken fists of the suffragettes as they shouted 'Votes for Women'. As his car glided out of Downing Street there was a flutter of petticoats and a liberal display of shapely ankles and the suffragettes were at the windows, shouting their battle cries. 07 12 14d

1907 Suffragettes, unable to gain admission to the Guildhall, held a meeting outside in the rain. Two ladies from the Women's Social and Political Union picketed the entrance, distributing leaflets. Then they climbed on a market stall and addressed the crowd. To the credit of Cambridge the ladies were accorded a very fair hearing, but when Mr Keeling of Trinity mounted the platform there was such an uproar that, though his mouth was seen to be moving, not a word could be heard. Later they were surrounded by such a crowd that the police escorted them to a four-wheeler which drove off. 07 12 14 & a

1908 Suffragettes : struggling women carried out of hall - not a congenial centre for rights of women; all women banned, Nov [4.18]

1908 Cambridge suffragist meeting – 08 02 25c & d

1908 A large crowd assembled outside the offices of the CDN for news of the Manchester bye election, in which Winston Churchill was defeated. When the result was announced there was much jubilation at the Central Conservative Club. Churchill had promised anything to anybody without the slightest sincerity; let them hope he would never seek re-election again. He had been a brilliant man in the Conservative party at one time and now he was a disgrace to the Liberals.

08 04 25

1908 Henry Campbell-Bannerman death and local connections – 08 04 22 & a

1908 Cambridge was badly hoaxed last night about the result of the Wolverhampton election. Inside the CDN the editor was waiting the news when the noise of cheering penetrated the office, but that was no unusual for the crowds waiting outside frequently engage in shouts. When the official message came through Mr Taylor proceeded outside to find nobody there. Practical jokers had already caused a card to be printed with fictitious figures and left outside the News office. If they aimed at creating a sensation, they have succeeded, causing fits of depression among members of the Liberal party 08 05 06

1908 The personality of Mr Winston Churchill looms so large in the minds of Cambridge politicians that a crowd of about 3,000 waited patiently outside the offices of the CDN to await the result of the Dundee election, where he was returned as a Liberal MP. When one section of the crowd raised a cheer, the opposing section retaliated. It was a great delight to hear an undergraduate, perched on the shoulder of his friends, declaim against Churchill as a turncoat and hear him answered by one of the Liberal turn of mind. Dundee election night will not soon be forgotten 08 05 11

1908 The greatest demonstration that woman has yet made of her desire for the suffrage was the gigantic procession through the streets of London to the Albert Hall. Ten thousand strong, it comprised almost every class: lady doctors marched with factory girls, famous lady novelists and domestic servants. Cambridge played an active part: about 130 ladies joined in, including Mrs Heitland, Mrs Ward and Mrs Rackham bearing a splendid blue silk banner with in gold lettering 'Cambridge Women's Suffrage Association, founded 1883'. At the Albert Hall both Newnham and Girton colleges took a box, many ladies attired in academic dress 08 06 19 p2 08 06 19 p2

1908 Members of the Cambridge Women's Suffrage Association, including Mrs Rackham, Mrs Dutt and Mrs Ramsey, visited Whittlesford and Fulbourn canvassing women during the afternoon and arranging an open-air meeting on the green at which the wives bring their husbands. There had been a certain amount of difference of opinion but people have been most friendly and willing to listen. CWN 08 08 21 p3

1908 The women candidates for Cambridge borough councillors have quickened interest in the recent elections. All though the day rumours of the arrival of the Pankhurst brigade were flying about with speculation that 50 militant females had arrived from London, but nobody saw any suffragettes. The crowd expressed their pleasure in cheers when it was announced that both the lady candidates, Miss Kennedy who stood in New Town and Miss Philpott who stood in Petersfield, had been defeated CWN 08 11 06 p3

1908 A band of militant ladies disrupted a meeting attended by a Cabinet Minister in Cambridge Guildhall when they informed him and an unsympathetic audience that they wanted votes. It was known that members of the warlike organisation of women had arrived, but which of the many well-dressed women present were they? It soon became clear when a slight form crowned by a 'Merry Widow' hat rose from her seat and vomited words like a Gatling gun. They caused a disturbance and a few had the pleasure of being ejected with more or less violence. CWN 08 11 13

1909 Suffragettes stall on Peas Hill [4.19]

1909 The meeting organised by the Anti Female Suffrage League in the Guildhall was crowded with many undergraduates who regarded the whole question as a humorous diversion. Speakers were constantly disrupted except from the one lady who was not subjected to a single interruption. Whilst conceding the importance of Women's work in national life it would be dangerous to allow a vote to people lacking the average political knowledge and experience open to men. 09 02 19

1909 A number of undergraduates played havoc with the meeting of the Cambridge Association for Women's Suffrage. The Corn Exchange has a seating capacity of about 1,500 but by utilising the farmers' desks and standing in every available space, an audience of 2,000 listened to – or interrupted – the arguments. Quite 80 per cent of the meeting was composed of women, of whom Newnham and Girton contributed a considerable quota. But it was the minority whose increasingly violent disruptions caused the meeting to break up in a disorderly manner, though not before the resolutions had been carried by a large majority. 09 05 07

1909 A gramophone meeting was held at Fen Ditton in support of the Government's budget. Some delay was caused by the gramophone having gone wrong but Mr S. Mallyon lent his machine. First a musical selection was rendered and then recordings of speeches by the Prime Minister (H.H. Asquith), Chancellor of the Exchequer (Lloyd George) and President of the Board of Trade (Mr Winston Churchill) were heard. There was a good attendance of men and youth but the room was not full. CWN 09 09 10

1909 As polling dates are fixed both political parties have redoubled their vigour. In Cambridge Mr S.O. Buckmaster spoke at the Gladstone Centenary Dinner at the Cherry Hinton Liberal Club while Almeric Paget has meetings arranged at St Barnabas Institute. The fight in East and West Cambs bids fair to be especially keen with meetings some distance apart. The motor car is a wonderful ally and enables the candidates to set distance and bad roads at naught but it is not conducive to the best of health to be exposed to the vagaries of the climate while travelling at high speed from one hot and crowded meeting room to the next CWN 09 12 31

1910 General Election - candidates wife hit by egg and stones [1.13]

1910 total votes in the 4 County constituencies give Conservatives a majority of 1 over Liberals, in fact County sends 2 of each party, January [3.11]

1910 Suffragettes : National Union of Women Suffragette Societies established in Green Street; Pankhurst visits, hostile demonstrations [4.4,4.6,4.20]

1910 The Cambridge Women's Suffrage Society scored a great success at a mass meeting in the Guildhall. The place was packed to the doors and there was very little serious interruption. The chair was taken by Mrs Heitland and Mrs Rackham (Poor Law Guardian) urged candidates for the Borough, University and County of Cambridge to do all in their power to secure a measure granting the franchise to women on the same terms as men. Miss Margery Corbett, a former student at Newnham College, was amongst the speakers. CWN 10 01 07b

1910 The Cambridge branch of the National Union of Women's Suffrage Societies works on constitutional lines, using only lawful and orderly methods. Its meeting in the Romsey Council School was a decided success: the speeches were listened to by a crowded audience most attentively, although there were some interruptions and cat-calling from the back of the building. Mrs C.D. Rackham urged the candidates at the forthcoming General Election to support votes for women on the same terms as men. CWN 10 01 07c

1910 Mr Paget's supporters held a torchlight procession through Regent Street, Emmanuel Road, Fitzroy Street, King Street and St Andrew's Street. Torches of many kinds, some of an evidently hastily prepared character, were held aloft and Mr Paget rode in a carriage in the centre of the procession, which included about 30 horsemen who formed an imposing guard of honour. The Conservative candidate was accompanied by crowds of men, lads and even women and girls,

bearing aloft torches, pink lights and Union Jacks, and blowing tin trumpets and whistles. CWN 01 10 14a

1910 Scenes without parallel in the recent political history of Cambridge were witnessed in connection with the great Liberal demonstration in support of Mr Buckmaster's candidature. The Guildhall could contain but a fraction of the crowds and an overflow meeting had to be held in the Corn Exchange which itself was packed to capacity. At both Mr Buckmaster had a tremendous reception, the audiences rising en masse and waving hats, handkerchiefs and leaflets and cheering in deafening choruses for several minutes

CWN 10 01 14b

1910 To have filled the large hall at the Guildhall to the very doors and held the attention of a crowded audience for nearly two hours would have been a great score for the Cambridge Union of Women's Suffrage Societies at any time. But to have done so when both political parties are working at high pressure and three big political meetings were being held the same night, was a veritable triumph. Nobody who listened to the clear, forcible, eloquent speeches of the ladies could fail to have been impressed, the few interruptions from the back of the hall being of a very mild and harmless character. But few of those present backed a call for women to have the same right to vote as men. CWN 10 01 14e

1910 Crowds waited on Cambridge market hill for the results of the election. As the hands of the clock dragged with exasperating slowness, the excitement grew even keener. But by half-past ten even the cheering began to subside. "Wish I'd brought my breakfast" said one ruby-faced gentleman whose appearance suggested that he had dined exclusively on beer. "Blooming long time countin' up nine thawsan' votes" said a Barnwellian. Suddenly the Mayor appeared on the Guildhall balcony with the successful candidate. "Buckie's beaten" was the sentence spoken half unconsciously by scores of Buckmaster's supporters as if the brain refused to grasp the significance of what the eye could see. CWN 10 01 21 & a

1910 General election – Barrington, Shelford – 10 01 07a, Over, Fen Drayton – 10 01 14m & n, Soham, Fordham – 10 01 28d, Newmarket, Burwell, Ely – 10 01 28e

1910 Votes for women – suffrage meeting – 10 01 07b & c, 10 01 14b & c, campaign in Cambridge – 10 01 14d

1910 counting the votes – Cambridge – 10 01 21h

1910 The polling of the four Cambridgeshire constituencies shows how remarkably evenly balanced are the two great parties: 19,232 being given to the Liberals and 19,233 to the Conservatives – a majority of one! As the county returned members of each colour Cambridgeshire can fairly claim to have secured proportional representation. This curious fact was pointed out by a young schoolgirl who discovered it quite by herself. I have never been an advocate of women's suffrage but think she is much more deserving of a vote than many men I know. Probably by the time she is of age, votes for women will be an accomplished fact. CWN 10 02 04c

1910 The inaugural meeting of the Cambridge Town Fabian Society heard that members of the University group were scarcely in touch with practical politics being young people whose minds were in a state of flux. The townsfolk had maturer views, were more business-like and in a better position to explain how instalments of Socialism could be brought about immediately. 10 05 27

1910 Mrs Pankhurst made her first acquaintance with the undergraduate at a meeting organised by the Cambridge University Men's League for Women's Suffrage at the Guildhall. She is used to lively meetings but usually there is some point to the interruptions to which she is subjected. This time the undergraduate section of the audience had come fully determined to turn the meeting into a sort of variety entertainment for their own delectation, and in this they succeeded. She stuck to her guns during her address which lasted, counting the interruptions, for about 70 minutes and then invited questions. About 9.30 a Proctor arrived and one man was led out of the hall, amidst much groaning. 10 06 03f & g

1910 Advocates of votes for women made their first platform appearance at Gamlingay, a crowded meeting being held in the Boys' Council Schoolroom. Mrs Rackham from Cambridge said she did not believe in the actions of the militant suffragettes. They were not asking for women to go to Parliament but women were taxed like the men and ought to vote like them. However Mrs Stanley of Merton Grange thought it would be terrible thing if in future England were governed by women. (Applause). It would mean 'petticoat government' and they did not want that. (Applause). The majority of ladies did not want the franchise and 400,000 of them had petitioned against 'votes for women'. The meeting rejected the idea. 10 11 04b

1910 Mr S.O. Buckmaster, the defeated candidate, left Cambridge by train for London. In deference to his wishes there was nothing in the nature of a demonstration, but a little band of faithful supporters gathered to see him off. He appeared to be in excellent spirits and laughed gaily as he stood on the platform. Mr Buckmaster was quickly recognised by a number of people who crowded round for a parting handshake. When the whistle sounded he took his seat in a first-class compartment. The last farewell was said by a railwayman who jumped on the footboard and rode for some yards with his head thrust in at the window. 10 12 09 also Almeric Paget

1910 The crowds outside the Shire Hall assembled early for the results of the poll. They stamped their cold feet on the muddy, puddley ground and scowled at the hopeless sky that spread a light unpleasant drizzle. A little girl, doubtful of her right to stand on so important a site, cuddled up closely to a friendly shop window. An errand boy allowed his political ardour to overcome his sense of what is required of express deliveries. He was joined by a butcher's boy, with a liberal show of Conservative colours, who gave his willing assistance in doing nothing to their mutual satisfaction. 10 12 16d

1910 Debate on Women's Suffrage in 1910, the first time an inter-college debate opened by a woman – 36 01 15 b & c

1911 Suffragettes plan to walk streets on census night to avoid being counted; wife of Unitarian minister arrested during suffragette raid on House of Commons [4.9,5.10]

1911 Tom Orrey first Labour candidate in Borough elections, stands for Romsey, comes bottom of poll [5.9]

1911 Cambridge advocates of women's suffrage decided to protest against legislation without representation. A number of people of well-known name and position in the University and town spent the night at the houses of suffragists who had decided to defy the Census and not fill in their papers. One of these was Mrs Vulliamy of Maitland House, Barton Road who is on the Executive Committee of the Women's Freedom League. She wrote across her paper 'No vote, no Census' and entertained a house full of ladies. 11 04 07a

1912 mass meeting of undergraduates form Coal Strike Emergency Committee prepared to work in pits, but strike ends [1.18]

1912 Labour party formed [8]

1912 big meeting of Cambridge University & Cambridge Town Fabian Societies with Cambridge Labour Party, Labour to contest every seat on Town Council where there is support [3.12]

1912 Suffragettes : Cambridge University Men's League for Women's Suffrage meet University officials; Conservative Women's Franchise Association formed; Mrs -Pankhurst visits [4.11,4.13,4.15]

1912 Adult Suffrage big meeting – 12 03 08a

1912 Women's suffrage meeting, Market Hill – 12 07 12g

1912 Whether one is in favour of militancy or not, the courage of those ladies who use it as a means for gaining the vote for women cannot be denied. Two ladies stood on Market Hill on Friday evening and faced the jeers and derision of a gang of rowdy youths who did all they could to make the meeting a farce. Popular songs formed the favourite medium employed for drowning

the voices of the speakers and the confusion was heightened by the use of cycle bells and whistles. But Miss Roff and Miss Kate Jarvis persisted and managed to make their arguments audible 12 08 02a

1912 Great excitement was caused by a noisy scene that took place on Parker's Piece when Mrs Brailsford, the militant suffragist, spoke from a lorry. A large crowd gathered, mostly composed of youths of about 18 years of age who shouted themselves hoarse, then pushed and pulled the lorry about the Piece. When the ride came to an end Mrs Brailsford got off and was followed through the streets by the crowd of boys and children, booing and shouting. 12 08 02c, d

1912 A considerable crowd on Market Hill witnessed an interesting struggle. An open-air meeting of the Women's Social and Political Union was being held but soon after Miss Kathleen Jarvis began her speech the bells of Great St Mary's struck up a deafening peal. The fair speaker's voice, pleasing but not powerful, was almost completely lost and it was only by her gesticulations that the crowd could see she was still expounding her principles. For something like an hour the unequal contest was maintained. And Miss Jarvis was the winner. A woman who had earned three periods of imprisonment was not to be daunted and was still pouring out a stream of argumentative bullets when the ringers retired - 12 08 16aa & b

1912 An open air meeting was held at Swavesey in the cause of women's suffrage. The gathering should have been in a field but in consequence of the damp grass it was held on the road. The platform was a chair placed against a gate in Middle Watch and about 70 people attended, young ladies being mainly in evidence. Mrs Rackham's speech was eloquent and moderate in tone but it evoked no enthusiasm; there were no interruptions and no questions at the end. But a few gave in their names as 'friends of women's suffrage' and leaflets were distributed 12 08 16d

1912 Cambridge Women's Suffrage meeting & petition against forcible feeding - 12 10 04f

1912 The non-militant Cambridge Association for Women's Suffrage held a well-attended meeting in the Guildhall. 12 10 25d

1912 Votes for women debate at Union Society - 12 11 22a

1912 Women's suffrage meeting addressed by Rackham - 12 12 06b

1912 Mrs Pankhurst visit to Guildhall - opposition - 12 12 06c; advert 12 12 12aa

1912 Miss M.B. Thomas, M.A. of Huntingdon Road has the distinction of being the first lady in Cambridge to resist paying her taxes on the ground that taxation and representation should go together. At the Spring Inn, Chesterton Road an antique pendant and two gold bracelets will be sold by auction by the Collector of Taxes. This is very unusual: R.B. Catling, the well-known auctioneer was approached but was unwilling to conduct the sale under such circumstances. A few years ago a farmer in Burnt Fen objected to paying the education portion of the poor rate and bought a new wagon to hand over for the purpose of distraint. It was painted red and he intended to have a record of each distraint recorded on a panel in black lettering, buying it back himself. He was convinced that by the time all the panels were filled in, he would be no longer called upon to pay the rate 22 12 12c

1912 When Mrs Pankhurst arrived for a Suffragette meeting at the Guildhall the streets were impassable, 20 policemen were on duty at the entrance and the air was filled with the horrible stench of stink-bombs. Although the audience comprised a large opposition who created a good deal of uproar, the noise gradually diminished as her speech advanced and she was perfectly audible. Georgina Brackbenbury who took the chair had more interruption by the sound of a penny trumpet; its owner was a musician who produced notes mournful or joyous according to her words and achieved a flourishing Reveille. Afterwards crowds ringed a motor car waiting outside the Wheeler Street entrance, which had one of its tyres deflated. But Mrs Pankhurst was quietly conducted out by the Guildhall Street entrance and to the Lion Hotel. 12 12 12c & d & e

1912 The Cambridge branch of the Friends of the Soviet Union held an enjoyable social at the new Left Book Club rooms in Falcon Yard at which two Russian silent films were shown. The

first, 'Oil Symphony' gave an account of the tapping of some of the country's vast oil resources, while the second recounted the construction of the Baltic-White sea canal. There was also an interesting exhibition of modern Russian craft work. Copies of photographs sent to commemorate the 20th anniversary of the Socialist regime were given as prizes in competitions and dances 12 12 20e

1913 Writing to the Mayor from Chateau de la Garoupe, Antibes, France, Almeric Paget MP says: As you may be aware, I have been obliged under doctor's orders to absent myself from Parliamentary duties for some weeks past. It is on my conscience that I am drawing a salary which I am unable to earn and I now ask you to accept my last quarter's Parliamentary salary of £100 to be given in aid of whatever local charities you think most deserving of assistance 13 01 10 p4 CIPof

1913 Suffragettes set fire to house in Storeys Way; try to set fire Varsity rugby pavilion; damage gates of St Johns College causing colleges to close gates during Long Vacation; National Union of Suffrage march; interrupt services; Mrs Pankhurst gives address Blue Boar while awaiting trial; stall on Peas Hill [4.21,5.8,5.12,5.15]

1913 trades union demonstration on Parker's Piece :1,100 take part, march Romsey to New Town , call for minimum wages of 30/-(-1.50) per week & 8 hour day. Council ban erection of platform & this seen as attack on the rally [1.19]

1913 300 members Cambridge branch Amalgamated Society of Carpenters & Joiners strike averted July, agreement Aug [2.1]

1913 Suffragette outrage re painting gate St Johns college etc was hoax by three undergraduates of St Johns including Sutherland, lady's shoe deliberately planted; some of inscription visible on right of gateway till creeper grew over it after WWII [CWN 8.6.1989]

1913 Suffrage debate interrupted by undergraduates 13 02 21 p7 CIP

1913 Womens suffrage annual meeting – 13 02 21 p3 CIP

1913 Mrs Pankhurst, leader of the militant suffragists addressed a meeting at the Blue Boar Hotel. A gramophone in the window of an undergraduate's room was playing the Dead March as she entered the hotel but there was no demonstration. A vigorous anti-suffrage campaign has also been conducted with meetings at Newnham Croft and Fen Ditton disagreeing with votes for women. If women ever sat in Parliament they would insist on a debate on the flannelette question before consideration of foreign policy. 13 03 07 p4

1913 Sir Charles Rose, the Liberal MP for East Cambs, died with tragic suddenness in his motor car as he was returning from Hendon Aerodrome where he had taken a flight in a biplane. It had circled at a moderate height for seven minutes and on landing he said he had enjoyed the trip. The Coroner ruled that the excitement and exhaustion of the new experience had brought on a heart failure. An aeroplane was not suitable for those getting on in years. Aeroplaning should be left to the young, vigorous and robust. Sir Charles might have survived many years had he lived a placid and quiet existence. 13 04 25 p10 CIP

1913 Politics – women's suffrage bill defeated; women vote speaker heckled by undergraduate 13 05 09 p04 CIP

1913 Suffragists speaking at the Rutland Hall Newmarket were interrupted by shouting, booing and the singing of 'I want to go to Dixie' and 'Have a banana'. Then a percussion cracker was thrown against the wall, sounding like a revolver shot. Afterwards the ladies were escorted out of the back door by police to where a motor was waiting. In Cambridge an attempt was made to set fire to the Varsity Rugby pavilion using an improvised bomb in a mustard tin. A card reading 'Votes for Women' was found near by together with a ladies shoe, left when she hurried away after lighting the fuse. And a sensation was caused at a leading Cambridge hotel when a square paper parcel labelled 'Votes for Women' was discovered in the lounge. It was quickly removed to a place of safety but on examination was found to contain nothing more explosive than a block of wood 13 05 16 p4, 7, 12 CIP

1913 Ratepayers' Association formed 13 05 23 p6 CIP

1913 Two fires attributed to suffragettes occurred in the small hours of Saturday morning in the newly-completed houses in Storey's Way. One was almost completely destroyed but the other, being erected for the Balfour Professor of Genetics, was extinguished before much damage was done. In it were found clues which led to the arrest of a Norwich school teacher. One was a gold watch and the other blood stains on the broken glass of window. The suspect had a cut on her finger 13 05 23 p7 & 8 CIP

1913 Suffragettes attempted to blow up a railway crossing gate at Granhams Road, Shelford. The gatekeeper found a treacle tin with a bootlace through the lid connecting with a long red squib inside. It was surrounded by cotton wool soaked in oil and lumps of charcoal. On the outside was written 'Votes for Women'. There is little doubt it was a genuine article that could have set fire to the gate had the lighted lace not gone out. It was immersed in a bucket of water. Rumours said that two strange women had been seen near the site 13 05 30 p11 CIP

1913 At the Assizes the top gallery was filled with women when a suffragette was accused of setting fire to a house in Storey's Way. She denied having started the blaze but had been at the site and dropped her watch. It was identified by her uncle, a Norwich policeman. Pink flannelette smelling strongly of paraffin had been wound round a ladder and set alight. Her coat smelled of paraffin. She asked the jury: "Do I look like a person who would go about with flannelette and cans of petrol and set fire to houses". She was convicted. 13 10 17 p8

1914 Although there was a crowd of 2,000 at the annual demonstration of the Cambridge Trades Union on Parker's Piece on Sunday afternoon, everything was exceedingly quiet and orderly, the speeches were mild almost to dullness and did not provoke the smallest opposition. The resolution in favour of a 48 hours' working week and a minimum wage of thirty shillings was carried. It remained for the irrepressible suffragettes to create the only diversion, but even that was mild. 14 05 08d [1.9.2.2]

1914 "Brawling" in Church.- Interruptions in Divine Service were made at Holy Trinity Church, St. Matthew's Church and the Friends' Meeting House by militant suffragettes. Militant methods of madness have already put a brake on the advancement of an. excellent movement and

the disturbance of church worshippers is no argument in favour of votes for women 14 02 13
CIPof

1914 Miss Ethel Sargent, the well-known botanist of Girton College, enjoys the distinction of being the first woman to hold the office of President of any section of the British Association. But she is refusing to pay the King's Taxes as a protest against being taxed without having a vote. Articles, including microscopic accessories and Zeiss lenses were seized and sold by auction on the Green at Girton. It is the third such sale since 1912 14 03 27b & c

1917 Labour win seat on borough council [8]

1917 M.P. Resigns, — We live in stirring times (says a leader writer), and when we went to Press last week no one in Cambridge had the least idea that in 24 hours our Member (Mr Almeric Paget) would have resigned his seat in order to make way for Sir Eric Geddes, the newly-appointed First Lord of the Admiralty. However it has come to pass and we are assured that the extreme haste with which this momentous change has come about was entirely due to political necessity, and in no way can our retiring Member be blamed for not taking his constituents into his confidence any earlier. Mr. Paget carries with him the cordial good wishes of all the Unionists, and, we venture to think, of nearly all the Radical Party, in his retirement from the Membership of this historic Borough, which he has so ably represented for nearly eight years 17 07 25 CIPof

1922 League of Nations rally attracts children [Misc.6.7]

1922 Sir Eric Geddes, MP, retires a short time after Election, has been no contested by-election for 50 years [3.10]

1922 "No more war" demonstration held [2.6]

1922 An election always holds out the promise of excitement and although Cambridge is noted for its excitable nature and the present three-cornered fight (a byelection) has given plenty of opportunities, it has been one of the quietest elections on records. Cambridge awoke to an eventful day and even the least political-minded had the election forced on their notice by placards and photographs of the candidates in windows, on hoardings and on walls. Conservative enthusiasts had whitewashed "Vote for Newton" in two-foot letters on the pavements and were not particular where they did it. Perhaps the most noticeable were across the front door of the Central Liberal Club in Downing-street and it was not until mid-day that the inmates managed to erase the conflicting advice. The children have at least entered into the spirit of the thing and the old election songs to the tune of "Tramp, tramp, tramp, the boys are marching" have been dragged from their respective retirement. The candidates names being all of two syllables have proved adaptable to the rhyme. "Vote, vote, vote for Mr Morgan (or Mr Dalton) have satisfied the requirements of the song whilst the trouble of Sir Douglas' one-syllable title have been overcome by referring to him as "Duggie Newton c22 03 14

1922 Undergraduates - both male and female - took a prominent part in the parliamentary election contest. I learn that 212 undergraduates and students of Newnham and Girton registered their names as volunteers, and a large number ably assisted the Conservatives in the County, Borough and University contests. Their help was particularly valuable in the County as flying motor columns were organised for visits to remote villages, where the villagers were assembled by the ringing of a bell and addresses were given by some of the undergraduates, whilst others distributed literature or canvassed voters c22 11 18

1924 Mr Mettlebury gave a short sketch of the beginnings of Fascism in Cambridge. It had started with a group of men who went with St Douglas Newton at election time to ensure him a good hearing. Some were merely there in the hope of a 'scrap' but others had ideals. After this group had formed into the Cambridge Fascist Society assistance had been offered to various candidates, including Mr Firth as Constitutional Labour Candidate, to ensure them a hearing free from organised rowdiness. He felt confident that British Fascism in Cambridge would prevail c24 11 26

1925 Speaking at the dance organised by the National Fascisti at Cambridge its President made an appeal for more University members of the party. It was not an organisation of hooligans but advocated that this country should be ruled entirely by those of British birth and British descent and not by aliens. They were not prepared to allow Jews to join. They had the courage of their convictions and were prepared, if necessary, to meet force by force. The dance was an unqualified success. There were close on 300 present c25 10 16

1926 Mr J. Ramsey Macdonald, M.P., the leader of the Labour Party visited Cambridge and laid the foundation stone of the Labour Club and Hall in Romsey Town. A meeting in Romsey Council School was crowded with an enthusiastic audience. A brisk sale was done in red rosettes and on the table was a vase of magnificent red geraniums. Over the platform was a banner bearing the words "Labour offers you true friendship". In the evening he attended a dinner in the Lion Hotel where he spoke mainly on the achievements of the Labour Party c26 04 23 [2.5,5.16]

1926 Lloyd George speaks at Guildhall, May [2.7]

1926 Conservative Club Market Passage destroyed by fire, December [2.8]

1926 General Strike : newspapers, gas and light carry on, fleets of cars leave Grange Road taking undergraduates into the country to assist in maintaining services [1.2,1.5,1.8,1.11]

1926 peacemakers pilgrimage to Cambridge - "love, not war", met by Mayor, Mrs Hartree [1.9.1.19]

1926 Mr John James Withers, C.B.E., was elected Member of Parliament for the University of Cambridge. The Vice-Chancellor attended at the Senate House between the hours of 10 and 11 to receive nominations, Mr Withers was the only person nominated and at 11 o'clock declared him duly elected. A small body of interested members of the University was present and Mr Withers turned up in time to hear his election announced c26 02 15

1926 Mr Ramsay Macdonald, ex-Labour Prime Minister and Leader of the Opposition will not be one of the recipients of honorary degrees at Cambridge. His name was included in the Grace to come before the Senate but certain members intended to "Non Placet" it & a flysheet was to be issued declaring this intention. News to this effect reached Macdonald who signified that he did not wish it to go forward unless it was absolutely unanimous. Opposition was more or less spontaneous because he was a party to an illegal act in bringing about the General Strike c26 06 08

1926 One of the contingents of Women Peacemakers who are converging on London from various parts of the country arrived in Cambridge. Meetings had been held in village after village by the side of the war memorials. They were met by members of the local Pilgrimage Committee and proceeded to the Market Hill where an impromptu meeting was held. They carried various banners and red and blue flags. Mrs Rackham said the gathering recalled the great Women's Suffrage Pilgrimage of 1913 when crowds gathered on the same spot. The Pilgrims leave for Saffron Walden tomorrow c26 06 22

1926 A meeting of the Women's Peacemakers' Pilgrimage was attended by a large audience at Cambridge Guildhall. In the next war they would have aeroplanes dropping poisonous bombs that would destroy civilians who had never been near the firing line. They must create such an atmosphere of repugnance that the nations dare not go to war. There were hundreds of people in Newmarket who were not yet converted to the idea of the League of Nations and it was their duty to make converts of all who had not yet joined them c26 06 22

1927 anti-war demonstration Parkers Piece [456.2.7]

1927 Oswald Moseley, MP for Smethwick, jeered at Guildhall meeting [2.9]

1927 Conservatives fear votes for women - are 16,289 men & 13,973 women now on roll [5.3]

1927 An important step in the activities of the Cambridge Trades Council and Labour Party was taken when approval was given for the purchase of premises in Norfolk Terrace for party headquarters at a cost of £975. The building was a substantial one with a very large hall & offices. There was a large piece of ground suitable for a bowling green. They could have a hall over the top of the present building and convert the bottom portion into a really up-to-date club. It would serve as a real "home" for members of the party. CDN c 6.3.1927

1927 There is quite a fluttering in the political dovecotes of Cambridge over the Government's decision to give the Parliamentary vote to women at 21 on the same terms as men. This may produce as many as 15,000 new votes. The strongest criticism comes from Cambridge Conservatives who fear for the effects on their own prospects at the poll. In the county very few young girls remain in the country but take up positions in the towns and so do not come on the county registers. Seeing the new bill would bring in women nine years younger, and in addition a number of women of 30 years of age who have not now got the vote, it is estimated the number of new women electors at 5,000. CDN c 23.4.1927

1927 An extremely lively meeting was held at Matthew's Café in connection with the Cambridge University Labour Club's first meeting. Mr Jack Jones, M.P. was the speaker. The room was overflowing with undergraduates and women students of various political sections. Sugar was thrown, red flags exhibited and cries of "We want Jones" contributed to the general laughter and talking. Although interrupted countless times he managed to make his audience listen to what he had to say. c27 10 30

1927 Cambridge Conservatives who, following the disastrous fire in Market Passage in November last year, have been accommodated in temporary club premises in Petty Cury, returned to the splendid new club which Phoenix-like has risen from the ashes of the old premises. As before there is a fine lounge billiard room with four tables on the top floor, and a fine lounge and smokers room with secretary's office and card room adjoining. Two new rooms will be used as a reading and writing room and a committee room. The colour scheme is brown and buff. The ground floor is not yet complete but will consist of a large hall with a spring dance c27 12 27 [2.10, 3.2]

1927 Members of the Cambridge Labour Party showed a justifiable pride in their new "home" which was officially opened by their prospective Parliamentary candidate. A somewhat dilapidated one-storey building in Norfolk Terrace, latterly used as a knitting factory, has been transformed in a wonderful way into bright, comfortable and well-equipped premises, although the walls are unfinished owing to the plaster not yet having been set sufficiently. c27 09 27

1928 Cherry Hinton Constitutional Club new building opened, February [2.11]

1928 County Conservatives use Phono Films - latest innovation in cinematograph world [2.13]

1928 annual peace demonstration on Parkers Piece [1.11]

1928 An interesting debate on "the flapper vote" was held at the Liberal Assembly Rooms, Cambridge. In many spheres of life women were giving valuable service yet they could not have the vote until they were 30 years of age. But the modern girl knew practically nothing about politics. Give the woman of 21 the vote and they would out-vote the men – was that fair? ("Yes"). If women got the vote then the country would only be just "flapping" about. The vote should be used properly and a group of giggling girls could not do that. c28 03 10

1928 "Ain't it all right and all", jubilantly exclaimed a man in working attire after looking round the new Cambridge Labour Club at Romsey Town. This remark expresses the general appreciation of the handsome and well-appointed new premises which have been built in their spare time by members of the various trade union organisations to provide the Labour Party with a home of its own. It is nearly 2½ years since the foundation stone was laid by Mr Ramsey MacDonald and since then work has been going on steadily on nights and Sunday afternoons. The men have been putting their hearts as well as their backs into the work and the result is a clubhouse of which the builders may well be proud. c28 10 16 [2.12, 5.16]

1928 Women having been granted the Parliamentary vote the Cambridge Committee for Equal Citizenship celebrated this great event. Invitations were sent out to all members of the Cambridge Women's Suffrage Association to meet Dame Millicent Fawcett at Newnham College. There was a very large attendance. Mrs Bethune-Baker traced the history of the movement in Cambridge. Among the first subscribers were the Mayor and Vice Chancellor but the cause fell on evil days. Members of the voteless sex had stood all day at polling booths on a wet day and undergraduates had tried to force their way into a meeting at the Guildhall. c28 12 17

1929 Ramsey MacDonald prime minister surprise visit Cambridge – CDN 19.6.1929

1929 The latest form of political propaganda, the Conservative's touring 'Talkifilm' is visiting Cambridge. The programme includes a speech by the Prime Minister which gives an uncanny effect of realism and a silent film showing the opening up of Canada. The van will visit Pound Hill, the Premier Hall Chesterton and Occupation Road, winding up at Cherry Hinton Road corner CDN c 11.2.1929

1929 The North East Coast contingent of the unemployed marchers who are making their way to London arrived in Cambridge. Carrying banners, singing old war songs and rattling collecting boxes they entered the town via Huntingdon Road. The local Labour Party and Trades Council having decided not to give them official recognition the 88 marchers proceeded direct to the Poor

Law Institution, Mill Road, where the staff had made preparations for them. They were given Irish stew and entertained at their private cinema installation. CDN c 18.2.1929

1930s “frequent & bitter disagreements within Labour Party over matters such as admission of Community Party members to their meetings, participation in a united socialist campaign against fascism organised in 1930s by now-notorious Communist don, Maurice Dobb & disagreement on Labour’s role in WWII, which provoked resignation as parliamentary candidate of universally-respected Alex Wood, a pacifist - who could not support a war government. Although the party majority voted against co-operation with the Communists & in favour of participation in the coalition of 1940-45 large minorities favoured the extremist approach” [7]

1930s the fermenting process of Left-wing thought amongst intellectuals gathered in intensity as the apparent national prevarication over Nazidom & Fascism became a matter for disgust ... Moseley in Cambridge ... developing interest in things socialist easily dismissed as the flexings of naive morality among young there were many who meant business ... John Cornford who as undergraduate gathered a band of believers and set out to work positively for the improvement of the conditions of the working class. In 1931 were encouraging the working class to enrol as trade unionists and to protest against high council house rents; battled for improvement of schools ... many working class people grew to trust & respect them 1933 only tiny proportion undergraduates socialists but by 1938 Socialist Club had membership of more than 1,000 out of student population of under 5,000 ... Cambridge Liberal Club changes name to Cambridge Social Club after 41 years [2.17]

1930s In almost every celebrated spy scandal since the 1950s there has been a thread leading back to 1930’s Cambridge. Then, gripped in the gloom of economic depression as the clouds gathered for another war, many thinking people were in ripe mood for questioning the values of capitalism. Fascism was gathering ground under the leadership of Oswald Moseley (who spoke in Cambridge), there were hunger marches and many young men took part in the Spanish Civil War. In such a climate the KGB homed in on Cambridge as a breeding ground for espionage. CEN 23.11.1979

1930 William Henry Williams, the ‘grand old man’ of Liberalism, came to Cambridge in 1880 as agent to the Liberal Association and won the respect of political friend and foe alike. He played a prominent part in Mr Stanley Buckmaster’s victory over Almeric Paget in 1905. He was elected to the County Council in 1898 and returned in 1919. Even after his retirement he rendered valuable service and retained a keen interest in local politics until the end. 30 11 26

1931 The National Tithepayers Association protested against what is widely regarded as an unjust tax on agricultural land. Owen Webb said the tithe was a burden impossible for the land to carry. During these difficult times of depression, when farmers were struggling to keep their heads above water in the face of terrible drops in commodity and grain prices it was an inverted food tax on the industry; there was no justification from an economic or religious point of view 31 04 03c & d

1931 Dr Alex Wood of Emmanuel College is chairman of the Cambridge Peace Council. He was a Conscientious Objector exempted from active service during the Great War on condition he carried on ambulance work and became commandant of a Red Cross hospital. He joined the Labour Party and in 1926 was elected to Cambridge Borough Council. At the last general election he contested the University seat but was not successful. 31 05 22b

1931 D.R. Hardman resigns as Labour party candidate – 31 06 05d

1931 Cambridge Labour Party adopted Dr Alex Wood as their parliamentary candidate. It was going to be a fight between Socialism and anti-Socialism. On the one hand it was a country of

wealth, position and tradition, on the other there were millions of hard-working people who found it a struggle to get on, he told them.

31 10 19f

1931 Captain Briscoe and one of his supporters in wheelchair – photo – 31 10 30c

1932 the Moscow March of young men arrive “dupes of the Communist Party and Moscow agitators” [1.9]

1932 YMCA ban Russian educational exhibition [1.23]

1932 Cambridge people rally to government call to sell gold, jewellery & trinkets to help national financial crisis Rendezvous opens as cinema & dance hall; tea dances daily “this is a time to spend ...” get local cash flowing as an aid to unemployment; “buy new clothes, furniture or extra food. Have your house decorated or painted. A prompt response -to this appeal will lift thousands of homes from misery into happiness by Christmas [32.1]

1932 suicides on increase caused by unemployment mayors appeal for jobless gathers £1,122 within 2 weeks; money devoted to creating work schemes put forward by Borough surveyor offering employment to 68 men in alternate weeks

1932 Cambridge Young Men’s Christian Association cancelled the letting of their hall to an exhibition on education in Soviet Russia. Amongst the exhibits were anti-religious posters which upset several prominent clergymen who wrote to the News protesting. The organisers are looking for another hall so the exhibition can continue. 32 02 03

1932 Members of the National Unemployed Workers’ Movement organised a meeting opposite a house in New Street, Cambridge in the interests of a resident who was threatened with eviction. The man was a rag and bone dealer with two children whose application for relief from the Public Assistance Committee had been refused on the grounds that he was not starving. A Defence Committee was formed to oppose his ejection and a demonstration will be arranged on Parker’s Piece 32 09 30bb (picture 32 09 30d)

1932 Romsey Labour Club celebrated its 21st anniversary. In the early days everyone in the movement was a worker, unfortunately as the party grew in numbers the percentage of workers became less and they had to be ‘up and doing’ if they were to bring about the new social order of things. In 1911 they fought their first seat in Romsey when Tom Orrey polled 147 votes. In 1920 they tried again and the present Alderman Briggs was elected. 1912 saw the first – and greatest-open-air demonstration on Parker’s Piece when many thousands were present. Permission had been refused but they decided to defy the council and the police. 32 11 04a

1932 Romsey Town, which saw the emergence of the Cambridge Labour Party 21 years ago, celebrated with a social in the Council School Hall. Presentations were made to honour the pioneers of the party. First there was William Horwood who was connected with the Independent Labour Party in 1911 with whose help they put forward Tom Orrey, their first candidate. 32 11 04b

1932 Hunger marchers at Cambridge – picture – 32 10 28f –

1932 John Cornford memorial meeting attended by Communists, socialist, labour, liberals and Bevan – 32 07 23b & c

1933 Master Builders & Decorators advert : “Do you realise that 1,653 able-bodied men are totally unemployed in your own town. Do you realise that of this appalling total 543 men are of the building trade”. Help the unemployed by spending money on home improvement

Socialist Society institute Sunday teas in cafe near market Fascists become increasingly active among university students - Moseley speech at University Arms passes without incident Tivoli screens ‘Our fighting navy’, Left-wing students arrange to attend & walk out shouting protests about militarist propaganda, patriot undergraduates gather outside to rag them as leave, fighting ensues

- 1933 Socialist Society & Student Christian Movement organise demonstration & march from Parkers Piece to war memorial; counter demonstration of flour & white- features ... desecrating a holy day call for -abolition of bombing from air [1.6]
- 1933 undergraduates demonstrate re war propaganda film, PCs pull truncheons [1.7,1.13]
- 1933 anti-war demo Parkers Piece, students anti-war council, Mar; another Nov [456.2.8,]
- 1933 Moseley speaks at Union [1.14]
- 1933 Communist party first meeting – 33 01 30
- 1933 Hitler becomes German chancellor – 33 01 30a
- 1933 Central Conservative club fete for repairs following fire – 33 02 01a
- 1933 Lloyd George was in great form when addressing a student meeting in Cambridge. On previous visits he received an honorary degree in 1920, broke a railway journey to address crowds outside the station in 1923 and spoke in the Guildhall on the eve of the General Strike. Once he strolled through King's college grounds and sat down on the river bank. When a companion pointed out that the grass was damp he said "All right, I'll sit on the People". And, folding his Sunday paper he did just that! 33 04 01b
- 1933 A meeting of the Cambridge Branch of the Society for Cultural Relations was ejected from the café where it was to have met after the management became alarmed at the number of undergraduates who managed to push their way in. It moved to Parker's Piece where a strong posse of police surrounded the speaker while he denounced capitalism and imperialism, but they were there for his protection. Finally they escorted him off the Piece, holding back the crowds of undergraduates who would have followed him. 33 04 27
- 1933 Community and Labour opinions were so divided at a conference in Burleigh Street that a proposal to form a Cambridge Anti-War Council had to be adjourned after three hours. The University Anti-War Council said workers in Cambridge laboratories had been organised against war. Mrs Foster of the Women's Cop-operative Guild wondered who were being prepared as the next enemy of Britain. It used to be the French, then the defenceless Boers and last of all the Germans. She appealed to women to play their part against the wickedness of war before the catastrophe arrived. 33 06 16 & b
- 1933 Dr R.M. Salaman addressed Cambridge Rotary club on the persecution of the Jews in Germany. Hitler was destroying the whole people: it was more serious than the mere 'beating up' of individuals who happened to be Jewish, it was a movement which struck at the very roots of civilisation. Paid advocates of the Nazis had been sent to Palestine and the Ukraine and the doctrine was being taught in schools in the most scandalous way. 33 07 12 p8
- 1933 A state of armed neutrality exists on the title 'battlefield' of Woodlands Farm, Ringshall near Stowmarket. Fascists are camped in the farmyard while a bailiff is in possession of two cornfields on the farm. The owner owes £47 to King's College for tithe and fields of wheat and barley have been seized for which tenders have been invited. Police are on constant duty while the fascists watch the approaching roads for signs of approaching cutting machinery. They have chalked messages on the road which read 'Farmers, Unite Now' 33 08 09
- 1933 An exhibition of Russian posters organised by the Cambridge branch of the Friends of the Soviet Union was opened at the Labour Hall. Maurice Dobb explained that very simple and forceful ideas were combined with a striking use of colour to appeal to the worker and 'activate' him or try to convince the peasants to join community farms run on a co-operative basis. The posters gave some idea of the life of the workers, contrasting the old conditions with the new. 33 10 18
- 1933 The film 'Our Fighting Navy' has been withdrawn from the Tivoli Cinema following lively scenes. Fifty members of the Students' Anti-War went to make a protest but a rival party, numbering about a thousand undergraduates, marched to the cinema with two bands playing war-time songs and carrying Union Jacks. Several tried to push their way in until the arrival of four policemen who, with drawn truncheons, managed to keep the crowd at bay whilst a dozen more

raced to the scene in motor vehicles. Cries of 'Down with Hitler' and 'Hail Hitler' were heard above the general uproar and a stink bomb let off in the vestibule 33 11 10

1933 An inaugural meeting of the New Britain Movement was held in the Dorothy Café with Mr A Mackay in the chair. There should be a federation of European states: every day the world became more international and a policy of isolation would be disastrous. Communism and Fascism were threatening the world and England must show the rest the way out of the mess, speakers said. The power to issue money should be taken away from the financiers, only then would people receive enough to live on. 33 11 09

1933 Photographs taken during a holiday in Russia are displayed at Ramsey and Muspratt studio in Post Office Terrace. Two studies, 'Dneiprastron: the new town' and 'Moscow: the Kremlin' show there is beauty in the new and old. The human side is captured in a fine study of the 'Intourist' bus driver and a Young Pioneers' demonstration while 'The Infants School' shows the Russian child. 'Prison Settlement', is a photo of another aspect of Russian life 33 11 02

1934 anti-war ballot [1.3]

1934 anti-war exhibition [1.4]

1934 hunger marchers from Newcastle pass through en route London, Guy Burgess amongst group undergraduates who march with them through town, undergraduates provide food.

Cultured newspapers ignore them, gutter Press calls them 'mob of Red dupes whose leaders are paid weekly in Moscow gold' Marxist library & bookstall established at Girton College

1934 election contest includes United British Party candidate – 34 01 12, National Labour Party and the election – 34 01 20, Alex Wood nominated election – 34 01 25

1934 Commander Tufnell, the National Conservative candidate, toured Cambridge polling stations by motor car adorned with pink and white ribbons and artificial flowers. His wife took the wheel and proved herself a capable driver. Dr Alex Wood left the Labour Hall to a rousing reception from a drum (biscuit box) and fife (tin whistle) juvenile band while the Liberal candidate had a large black cat mascot, tied with blue and buff ribbons on the spare wheel of his buff-coloured car. However he lost his deposit as Tufnell beat Dr Wood into second place. 34 02 08, 34 02 09

1934 Cambridge showed little interest in the 100 hunger marchers who arrived from Huntingdon. They halted at Girton College where jugs of tea and buns were given. About 200 people including members of the University Socialist Society and Anti War Movement escorted them into town. Darkness was falling as a rally was held on Parker's Piece where a small crowd gathered before they made their way to the Corn Exchange where they spent the night. But police were accused of provocation when they forcibly expelled them on Monday morning 34 02 19 34 02 26

1934 Eighteen 'Blackshirts' were arrested on farms at Wortham, Suffolk by 50 police who arrived in large double-decker motor buses. The 'Blackshirts' were outside the farm gates and were arrested peacefully without any resistance. They have been at the farm for several days 'guarding' cattle and sheep which were impounded for tithe and a crowd of spectators cheered them as they left. Other Fascists were instructed to withdraw from a farm at Diss where their steel-protected cars have been keeping a watch-out for a van expected to remove animals 34 02 17 34 02 20 34 02 21 trial – 34 02 26

1934 Suffolk tithe 'Blackshirts' leave Wortham – 34 02 21

1934 Romsey Labour Club extension opened – 34 02 26

1934 Sir Stafford Cripps addressed a meeting on 'The Necessity for Socialism' at Cambridge Central School. The hall was packed to capacity with townspeople and undergraduates and he was greeted with mingled cheers, boos and hisses. His speech was interrupted on several occasions and twenty undergraduates opposed to his views waited for him at the school gates afterwards. But the proctor and his bulldogs arrived in time and he was driven away without any demonstration being possible. 34 03 03

1934 Hunger Marchers – Bishop Stortford vicar's impression – 34 03 01

1934 Herr Gerhart Seger, who recently escaped from a German concentration camp told of his experiences. Under Hitler's 'Protection Arrest' men could be taken to prison with no reason. The Storm-Troopers, sadistic and brutalised men, could do what they would with inmates. Prisoners were beaten mercilessly, slept crowded together in damp ice-cold cellars and listened to men being tortured by the Nazis. Of 42 men imprisoned with him, two were beaten to death within a fortnight. After he'd come to England his wife and baby had been taken to a concentration camp as hostages, not to be released until he returned. 34 04 12

1934 Labour and co-op demonstration, May Day – 34 05 07, May Day demonstration – 34 05 02

1934 Several hundred people joined in a peace meeting on Parker's Piece organised by the Cambridge Anti-War Council and the University Anti-War Movement before marching in a torchlight procession to the War Memorial. The procession, some 300 strong began their march along Mill Road, increasing in size as it went along. But they missed the turning into Tenison Road and crossed Mill Road Bridge before winding its way round the back streets to the War Memorial. They laid a wreath 'To those of all countries who fell in the last war from those who are pledged to prevent another' 34 11 12c

1934 Poppy Day collectors had to contend with a dismal downpour of rain. But a large crowd gathered on Senate House Hill to await the arrival of a self-styled 'Hitler' who was due to open the Caius Fun Fair. When he did come, by car, he brought a procession of about a dozen cars in his wake, all containing weird and wonderful characters. The obstinate mule, which last year lay down in the road and refused to get up until tempted by a coin, was less obstinate on the present occasion, for the wet and muddy road was hardly a pleasant bed. 34 11 10 & a

1934 Sensational revelations concerning Germany's war plans were made at a meeting in Cambridge Guildhall. Speaking to the University League of Nations Union, Mr Wickham Steed, a former editor of The Times, said they had imported enough arsenic ore to make poison gas sufficient to swamp Europe twice over. The next war is likely to come without warning and many be commenced by an overwhelming night attack. General Goering, at the Nazi Air Ministry has built 85 underground aerodromes this year and had at least 2,000 aeroplanes, he claimed. 34 11 17 & a

1934 Lord Rutherford presided at the first meeting of Cambridge University Democratic Movement. There is a great fear of the power of military aeroplanes making a sudden and devastating attack on defenceless cities involving the destruction of combatant and civilian alike. Air warfare of any kind should be abolished, he urged. Vyvian Adams praised his work at the Cavendish Laboratory. None could hope to isolate himself from the surrounding dangers. The question was did we want human development or human destruction by scientific means. 34 12 04

1934 Members of the Beaconsfield Club celebrated 50 years of work in the social and political life of Cambridge. It was opened in November 1888 and with its members unswervingly loyal to the Conservative cause the club stood as a bulwark against the inroads of socialism. While there were clubs like this the political destiny of the constituency was in safe hands. The Magpies Concert Party gave an excellent entertainment, this chorus song to personalities of the club being particularly popular. 34 12 15

1935 peace ballot - "county is peace-minded" [1.1]

- 1935 Peace-Week torchlight procession [1.2]
1935 Moseley guarded at University Arms Hotel, anti-Fascist rally, March [1.5,1.17]
1935 An open-air demonstration under the red flag against the new Unemployment Bill was held on Parker's Piece supported by the University Socialist Society and Labour Clubs. A crowd of nearly 100 assembled. There are two-and-a-half million registered unemployed but there had been an increase in production without an increase in wages. The worker had become the slave of the machine, not the machine the tool of the worker. Mr H.C. Bibby spoke on camps for the unemployed: many who took part had the best of motives but they could develop into terrible concentration camps. 35 02 25
1935 Police guarded the closed gates of the University Arms Hotel while Sir Oswald Mosley was at a dinner organised by the University Fascist Society. Outside a meeting organised by the University Socialist Society was held on Parker's Piece with speeches by John Cornford, Maurice Cornford and Maurice Dobb. Then a torchlight procession by 200 undergraduates shouting anti-Fascist slogans such as 'We want Mosley dead or alive' and singing 'The Internationale' marched to Peas Hill where more speeches were made before a Proctor arrived and they dispersed. 35 03 07c
1935 Mosley previous visits – 35 02 23a
1935 Hugh Dalton on fascism – 35 02 21
1935 Anti-Nazi play at Festival Theatre – photo – 35 04 29a
1935 Lord Eltisley spoke of the record of the National Government. If the Socialists had remained in office we should have been in a state of chaos. We required a stable, strong and safe Government and in Stanley Baldwin had a leader in the best tradition of British statesmanship. Signs were not lacking that storms were blowing up and we might again be approaching a crucial period. In Germany young people were being brought up in a creed of glorification of arms. Now they had order 12 new submarines. Our best defence was to be prepared against sudden attack 35 02 02 &
1935 Political travelling cinema, New Square car park – photo – 35 08 27
1935 In view of the apparent apathy it is surprising that the number of electors who voted was so high. The excitement, so far as there was any, was greatest in the outlying districts. Residents in the newly-added areas such as Trumpington and Cherry Hinton had the curious experience of living in the Borough and voting (for Parliamentary elections) in the County. So did residents on the Hurst Park Estate which used to fall within the Impington parish boundary. At Brunswick Council Schools a blind man arrived. The inner room was cleared except for the presiding officer who told him the names of the candidates and then made a cross at the voter's selection. 35 11 14
1935 After the Cambridge declarations the victors went round to the Central Conservative Hall, where, by the courtesy of the Little Theatre players, who were having a rehearsal, the customary congratulatory meeting was held. The voters had realised the necessity of the National Government carrying on its duty of reviving prosperity and the necessity of defence as well as peace. Prime Minister Stanley Baldwin telegraphed congratulations to Lt-Commander Tufnell. At Saffron Walden there had been a record poll for Labour though Miss Clara Rackham was still 10,000 votes behind R.A. Butler whilst in the Isle of Ely Mr J. de Rothschild retained the seat for the Liberals by a majority of 699 votes. 35 11 15, 35 11 16

1936 hunger marchers arrive, stay Corn Exchange, October [1.19]
1936 CU branch Fascists dinner, heavy police guard, November [1.4]
1936 death of George V, 'no false emotion but everywhere the mourning dress, the black boarded shop windows & a sort of subdued atmosphere have borne witness to the real awe & sorrow in our hearts'; parties cancelled, music stops at Dorothy until after funeral Edward VIII proclaimed with enthusiasm. Left-wing movement is becoming less easily discounted by the establishment. Communism 'is no longer a phenomenon that can be dismissed as an out-burst of transient youthful enthusiasm.'

- 1936 Cambridge Peace Week, 14 organisations unite [1.15]
- 1936? letter appealing medical aid for Spain published CDN Sept, Medical Aid committee public meeting 11 Oct, John Cornford killed, Basque children's home established - orphans of socialist families, Leah Manning organised Pampisford (Jan 38 moved Cambridge) [454.1.19]
- 1936 Ugly scenes were witnessed at a demonstration organised by the University Socialist Club and Anti-War Council at the Guildhall which was addressed by Aneurin Bevan. There was vocal opposition from the gallery with fighting and at one juncture all the doors were opened wide because of a strong offensive smell. Earlier 500 undergraduates took part in a torchlight procession headed by the red banner of the University Anti-War Movement shouting "We want peace" and "Stanley Baldwin must be sacked" 36 03 07 & a
- 1936 "Is any treaty made with Germany more than a piece of paper" asked Sir Austen Chamberlain when he reviewed Germany's action over the demilitarised zone in a speech he made at the annual dinner of the Cambridge University Conservative Association. The Association was flourishing and its numbers and activities greater than ever. There were a disproportionate number of Oxford men in the House of Commons but the Cambridge men made up in quality what they lacked in numbers. However there was a slackness in the Conservative Party which had no counterpart among the Socialists. 36 03 12 & a
- 1936 "I am not at all sure that if I had been a German I should not have voted freely and enthusiastically for Hitler at the last election", Dr Alex Wood told a May Day demonstration on Parker's Piece. Germany as she was today was the creation of the Allied Governments and their policy of repress and unilateral disarmament, he continued before condemning the Government's re-armament policy. It would lead inevitably to war. Only on the foundations of International Socialism and co-operation can secure peace be built. 36 05 04b
- 1936 The Tithe Bill now before Parliament would alter tithe from being a charge on the land to a charge on the person. This meant a man could be distained on his household goods and everything else to pay tithe dues. The burden of tithe should rest on the broad shoulders of the large landowners, but it had now been put on those who had not the shoulders and could not bear it, Cambridgeshire farmers were told. If they owe money fairly and squarely, they are prepared to pay. But they are not going to pay unjust taxes, a meeting resolved 36 06 08 & a
- 1936 Cambridge meeting on Spain & Fascists - 36 08 28
- 1936 Undergraduates demonstrated support for 130 hunger marchers from Durham on their way to London to protest against the Means Test and new scales of benefit. At Girton College girl students served them tea and buns before 250 undergraduates joined the procession carrying torches and banners. There were meetings in the Co-operative and Labour Halls before the protestors had an evening meal in the students' rooms. At Cheshunt College some of the marchers ate in hall. Having slept in the Corn Exchange they continued to Saffron Walden where the Labour Party entertained them with lively tunes from a loudspeaker van. The march is due to arrive in London next weekend. 36 11 02 & a
- 1937 Basque refugees arrive in Cambridge [1.22]
- 1937 Spanish refugees left 1937 to Pampisford left beginning 1938 to 1 Salisbury Villas, Station Rd [3.3.9.3]
- 1937 anti-war group issue booklet on air raid precautions [1.21]
- 1937 Germans wreath laying [456.2.10]
- 1937 At the first open meeting of the Cambridge Left Book Club tribute was paid to the memory of Mr G.C. Maclaurin, who was killed recently fighting for the Spanish Government in Madrid. He, more than anybody, was responsible for the flourishing members of the club in Cambridge where some 400 of the total membership of 35,000 are resident. The speaker discussed 'Must Capitalism Fail?' In a Socialist society, such as the USSR, all the sources of production were utilised to the full. While Russian workers were enjoying the fruits of their labour, the capitalist workers were saddled with debt. 37 01 11

1937 The death of John Cornford while fighting for the Spanish Government is a grievous loss. He had a brilliant academic career and was preparing for research work in history when the Spanish rebellion broke out. As soon as it was known that Italian war planes were being delivered to the Spanish rebels he went out as a volunteer, joining the British section of the International Brigade and fighting alongside G.C. Maclaurin of Cambridge who was killed in Madrid. He saw continual fighting for five weeks and was commander of the British section on the Cordova front when he was killed reconnoitring in advance of the lines. 37 02 03

1937 Cambridge Trades Council and Labour Party celebrated its 25th anniversary with a dinner in the Dorothy Café addressed by Mr C.E. Atlee, leader of the parliamentary party. Mrs Rackham recalled the early Labour candidates: the Rev Rhondda Williams was the first in 1918 while Alec Firth stood in 1922, 23 and 24. Hugh Dalton, hero of the spectacular by-election of 1922 and now Chairman of the National Executive, spoke of the early days of the party in the town. Dame Sybil Thorndike put in an appearance at the close of the evening, receiving an enthusiastic welcome. 37 03 08 & a

1938 When politics really were exciting: bonfires and torchlight processions – 38 05 31b, c

1938 Fireworks, jeers, cheers and shouts punctuated a meeting organised by the University Socialist Club addressed by Major Atlee, the Leader of the Opposition, in the Corn Exchange. The noise died down when he began to speak but there were frequent interruptions caused by exploding fireworks. All police leave was cancelled because of the meeting and a visit by Sir Oswald Mosley to the C.U. Fascist Association dinner in the Dorothy Café. But rowdyism was principally of the vocal kind. 38 10 29a

1938 When Jimmy Overton, retiring secretary of the Trades and Labour Council, came to Cambridge in 1909 no Labour movement existed apart from the Independent Labour Party so he set about forming one. They contested Romsey, the strongest Liberal ward in Cambridge, in 1911 to prove Labour was not just a wing of the Liberal Party. Cambridge's first parliamentary Labour candidate was Rev Rhondda Williams but stories that members of the party pawned their furniture to finance the election are untrue. However Mr Overton had a great deal to do with providing his deposit. 38 12 10a

1939 Men and women members of the International Brigade, who have seen service in Spain fighting for the Government, spoke at the Guildhall which was almost filled to capacity. The meeting was called by the Cambridge Co-ordinating Committee for Spanish Relief. In Spain rickets was becoming rife, hunger dropsy was beginning to appear and anaemia was present. Between 300 and 400 people were dying from actual starvation in Madrid every day. For the first time in history in America surplus food was not being destroyed but was being sent to Spain. 39 02 07

1939 10,000 at Gogs Fete. Over 16 years the annual Cambridgeshire Conservative bumper fun-fair, with its penny per hour programme of entertainment. Thousands of holiday-makers joined the stream of traffic, both vehicular and pedestrian. By tea-time the 10,000 people who had defied the clouds entered the carnival spirit of the occasion. The avenues and car parks of the estate were electrically illuminated at night. Parliamentary Secretary of Board of Trade, was the principal speaker at an evening meeting attended by hundreds 39 08 11 CIPof

1939 Cambridge Corn Exchange was packed with 2,500 undergraduates when Winston Churchill made a striking speech on conscription which was relayed to the Lion Hotel. There was some violence when those unable to get in attempted to force an entrance; during the melee a

policeman lost his helmet. Several hundred undergraduates remained outside until a proctor ordered them to disburse. Inside a motion accepting conscription was carried by ten to one 34 05 20 & a

1940 University Election. — The result of the Cambridge University by-election, made necessary by the death of Sir John Withers, was announced on Saturday as follows. —Dr. A. V Hill (Ind. Cons.) 9,840; Prof. J. A. Ryle 5,386; Majority 4,454. Polling, which was by post, began on February 19 and was completed on Friday. At the last election, Sir J. Withers (Cons.) 7,602 and Mr. K. Pickthorn (Cons.) 6,917 were elected, and Mr. H. L. Elvin the unsuccessful Labour candidate, polled 3,453 votes 40 03 01 CIPof

1944 Romsey Labour Club celebrate being free from debt – 44 05 06

1944 Retirement. — Having held office as district officer of the Transport and General Workers Union at Cambridge for 25 years, Mr. A. E. Stubbs is relinquishing the post to devote himself to politics in the county. Since 1936 he has been prospective Labour candidate for Cambridgeshire and has already fought six Parliamentary elections. Mr. Stubbs has had a colourful career, rising from a newsboy to become a local champion of the farm workers and working classes, and also directing his energy to other forms of public work. "I am going straight over to the political field to get ready for the General Election," he said. He has, for many years been a member of the Cambridgeshire and Isle of Ely Agricultural Wages Board, a member of the Cambridge Borough Council for about 12 years and on the Cambridgeshire County Council for a similar period. He is a member of six Joint Industrial Councils under the Whitley Scheme 44 08 25 CIPof

1944 Cambridge Trades Council unanimously nominated a Cambridge man Major Arthur Leslie Symonds M.A. to the Prospective Labour candidate for the Borough of Cambridge. Major Symonds, who is 33 years of age, is the son of Mr. and Mrs. Symonds, of 60 Scotland Road Cambridge 44 09 08 CIPof

1945 Communists decide contest Cambridge municipal elections for first time, Mrs Pearl Lilley candidate for Trumpington Ward – CDN 1945 07 14 [6.1]

1945 Labour win elections for Cambridge – Major L. Symonds and County – A.E. Stubbs – A.L.Symonds elected first Labour MP & first representative since Mortlock born & bred in Cambridge CDN 1945 07 26 [3.8]

1947 A free-for-all political argument developed on Parker's Piece last night at a meeting organised by the Cambridge branch of the Communist Party to discuss "Britain's Crisis". Among the hecklers was a small band of Conservatives who interrupted the speakers by words and music through another amplifier. Mrs Pearl Lilley declared that the Socialists were not carrying out the policy they were elected on. After several interruptions from the Conservatives over the loudspeaker, Mrs Lilley remarked on the very low level to which the Tories had got to stoop to gain their audience. Several questions concerning starvation in Russia, the secret police there and the lack of freedom of speech were answered by the speakers despite interruptions from the "opposition" loudspeakers over which was played the National Anthem and "Land of Hope and Glory" c47 08 13

1949 A hoax played on Cambridge, when notices appeared announcing a mass patriotic rally to be held on Parker's Piece which would be addressed by Sir Oswald Mosley and other members of his party, had a sequel at the Magistrates court when an undergraduate of Trinity college appeared on a summons of fixing one of the pamphlets to a tree on Parker's Piece. Defendant said: "I did it to annoy the communists" c49 01 26

1949 Picketing by Jews and Communists outside the Chesterton secondary modern boys' school resulted in the abandonment of a meeting which was to have been held there by the British People's Party. Inside the hall, which had posters, "Britain awake", on the walls, there were eight people by the time the meeting was due to start. The meeting had been well advertised however, 2,000 handbills having been circulated. The Party believe that bad as the Conservatives certainly are, they would not do so much damage to the country as an extension of Labour rule c49 06 09

1949 A great worker in the field of women's suffrage has died. Mrs Edith Bethune-Baker devoted her life to the advancement of women's suffrage. When she first came to live in Cambridge she joined the small suffrage society, the first meeting of which was held at Christ's college. On one occasion she spent 11 hours on a cross-country journey to address a meeting of 12 women. After the suffrage battle was won she carried on the work to secure equality for women. Although firm and courageous in her stand, she was essentially gentle and courteous c49 11 02

1950 University representation in parliament has been abolished by the recent Representation of the People's Act. Amongst those deprived of their seats are the two Cambridge University members, Dr Kenneth Pickthorn (conservative) and H. Wilson Harris (independent). Mr Harris has not sought another constituency but is waiting to see whether Mr Churchill will be in a position to restore the University seats University Parliamentary representation disbanded, began in 1603 c50 01 24 [2.6,3.9]

1951 Two hours before the Prime Minister, Clement Attlee, was due to address a meeting in the Cambridge Guildhall a queue which ultimately wound round the whole of the building had begun to form. By the time the meeting opened about 1,250 people were crowded inside. Some 1,500 more packed into the Corn Exchange to hear a relay of his speech. Others stood in the streets listening to a further broadcast of it. A large crowd gave cheers mingled with a few boos as he drove away at the end with Mrs Attlee at the wheel and a Special Branch detective in the back c51 10 12

1951 A strong detachment of uniformed and plain clothed police were on duty and a proctor and two bulldogs were at the entrance at the Labour Hall, Norfolk Street, Cambridge for the visit of Mrs Monica Felton. When Dr Joseph Needham, chairman of the Britain-China Friendship Association told hecklers that the Chinese viewed the dropping of the atom bomb on Japan as encouraging racial hatred. They do not believe it would have been dropped on a European nation. Mrs Felton described her visit to Korea where a town of 126,000 people had been 'systematically destroyed' by bombing by American jets and told of atrocities "too horrible to report", including civilians being buried alive. It was their responsibility to see these horrors stop and now c51 11 19

1952 Nearly 400 agricultural workers, headed by an M.P. marched with two banners flying through Cambridge city centre. They were members of the National Union of Agricultural Workers – men and women – who had come for a May Day rally. Mr Walston said we had to get as much out of the land as we possibly could simply for our national survival. The farm worker was the important factor in food production & should be compulsorily protected against the danger of toxic chemicals used on the farms. Grants be made to farmers for improving tied cottages together with loans for building new ones. CDN c 7.5.1952

1953 After a six-months stay in Cambridge 16 excited Greek children left for their own country. They came here from war-shattered Greece in the summer of last year and stayed with families under the auspices of the Cambridge Committee of International Help for Children. They met and played with English children, they attended school and as the months passed their frail forms filled out and they became normal healthy children c53 01 10

1955 Cambridge Labour Party building renamed Alex Wood Hall, January [2.15]

1955 Harold Wilson attends Labour rally, October [2.16]

1955 Members of the Labour Party fought their way through a snowstorm to get to a ceremony at which the Labour Hall was re-named the Alex Wood Memorial Hall in memory of one of Cambridge's most prominent socialists. Speakers paid tribute to Dr Wood, who was bracketed by Mrs Leah Manning – founder member of the Cambridge Labour Party – with Dr Albert Schweitzer and Mahatma Gandhi because of his 'overwhelming love for humanity'. In the early days the Party was not in very great repute and many who belonged to it were not held in great repute either, she said. c55 01 21

1956 Suez protest meeting addressed by Benn and Kenneth Younger -boos, hisses and jeers, pro Eden crowd try to storm Union. Labour party protest march ambushed with fireworks, Parkers Piece meeting broken up after fighting, November [2.19,2.20,2.21]

1956 Plain-clothes men filtered among the packed crowd which had gone to the Lion Hotel, Petty Cury, to hear the boss of Britain's Fascists, Sir Oswald Mosley. But the atmosphere was very different from when he came two years ago. Then it was trouble all the way. This time there were more cheers than jeers. He argued that armed war was now impossible due to the H-bomb. 56 03 02 [2.18]

1956 Six hundred undergraduates demonstrated at a 'No War on Suez' in one of the rowdiest meetings ever held in the Union Debating Chamber. Every inch of space was occupied and scores of people piled up on the window ledges to hear two MPs, Kenneth Younger and Anthony Wedgwood Benn who were the butt of deafening ridicule, shouting, catcalling, hissing and yelling from supporters of Prime Minister, Sir Anthony Eden. 56 11 03a

1956 A Suez protest rally was held on Parker's Piece. The back of a lorry provided a speakers' platform and round it was ringed an audience of some 1,500 people who attempted to listen to the arguments through the constant hubbub of a group of dissenting undergraduates. They carried slogans tacked on long-handled brushes saying 'Eden acts where U.N.O. fails' and 'Non-intervention is Suez-cide'. Scuffles broke out and a lone firework was lobbed on to the platform 56 11 05a

1956 Smoke bombs, water from upstairs windows and counter-cries from undergraduates accompanied the "Stop Eden's War" procession organised by Cambridge Labour Party. Eighty people carrying placards set off from the Alex Wood Memorial Hall but were joined by a second, less orderly procession of undergraduates shouting "Eden Must Stay" to counter the Labour cries of "Eden Must Go" 56 11 05b

1960 The Cambridge Left Club protested against buying South African goods – 60 04 05a

1960 refugee children arrive [6.4]

1960 Arthur Leslie Symons, former MP, death – 60 02 25

1960 A student branch of the Communist Party has been formed at Cambridge University. Membership is open to those who agree with their aims and are willing to work for the Party organisation. They will hold public meetings on topics of political interest where the Marxist approach on subjects such as philosophy, economics and culture can be discussed. Meanwhile the Labour Club will hear from Bessie Braddock, James Callaghan and Barbara Castle, the Liberals have Jo Grimond but the Conservatives speakers have yet to be announced. 60 10 06

1961 Nearly 800 University students crowded in to a meeting to hear Sir Oswald Mosley, leader of the British Union Movement. Security measures were taken to prevent incidents including plain clothes policemen in the hall. The precautions were successful although the meeting at times became lively with plenty of loud heckling. Mosley said one third of Africa should be turned over to white people and the rest looked after by the coloured races 61 12 01d
Enoch Powell at Union [6.5,6.6]

1961 Oswald Mosley banned from Christ's college, scuffles outside New Theatre – 61 02 22a (11.61)

1961 Francis Pym, who has become Cambridgeshire's Member of Parliament following a by-election, said he saw it as a vote of confidence for Mr Macmillan. But his nearest opponent, Robert Davis, felt that a fair number of people who would have voted Labour switched to the Liberals. Their candidate, Richard Moore agreed, saying they were the obvious alternative to the Labour Party. Mr Pym, managing director of a tenting manufacturing firm, owns land on the western borders of the county and hopes to live in the constituency soon. 61 03 17

1961 Harper House in Portugal Place houses 10,000 books devoted to the British Empire. It started in 1919 with informal tea parties at which students met for cultural discussions. By 1921 these had become so popular that 'Cambridge University International Teas' and conferences were started. In 1940 Mrs Irene Harper formed the Birdwood Club open to British children whose families were 'not pacifists' and had some connection with the armed forces. The postwar years which produced a Motherland 'bewitched, bothered and bewildered about the Common Market' have thinned the ranks of the membership 61 12 01 & a

1963 undergraduate threatened by fascists [3.5]

1962 A crowd of 5,000 people, mainly students, swarmed through Cambridge after police and Proctors stopped a political protest rally about the American-Cuban crisis on the Market Square. Carrying placards declaring 'Hands Off Cuba' they made their way to Parker's Piece where the meeting got under way with speakers both supporting and opposing President Kennedy's moves. One warned 'We are on the verge of a nuclear war'. Later police prevented another rally outside the Guildhall where demonstrators hammered on the side of passing buses. 62 10 24

1973 May Day strike - TUC Day of protest against Govt [3.1]

1973 Mr Harold Wilson stirred the Labour Party workers of East Anglia into a fiery fighting mood at their regional rally in Cambridge. The audience of about 1,000 people gave him a standing ovation. Mr Wilson raised cheers with promises of pensions of £10 for a single person, £16 for a couple, strict controls on big business and action to secure the public ownership of land, especially for public amenities, schools and hospitals. His speech contained many personal swipes at Mr Heath. 1974 National Front, 1st meeting Cambridge group, 30 members, 70 supporters; council bans further rallies in council-owned halls [9.11]

1974 3-day week [1.7]

1975 The Prime Minister, Harold Wilson, came to Cambridge last night. For an hour he overcame both hecklers and the notorious acoustics of the city's Corn Exchange to win a standing ovation from almost 1,000 people. His main topic was the Common Market. He then went through a list of election promises and while harassed by the hecklers, who had paid 15p to get into the meeting, spelled out how each promise had been fulfilled c75 04 11 [6.9]

1975 Cambridge University should be nationalised, the Kite area turned over to council housing and traffic banned inside the city boundaries, the Cambridge Communist Party says in a policy statement. Amongst other measures they would like to see are turning the church of St Andrew the Great into a civic restaurant, requisition of vacant accommodation if vacant for six months, industrial expansion of Cambridge with more council houses, and the banning of office expansion in favour of housing and jobs c75 02 22

1975 Political extremists failed in their efforts to break up a mass pro-Common Market rally in Cambridge guildhall last night while Mr Edward Heath was speaking. But the agitators who frequently called out their support for the National front movement and waved banners and posters succeeded in halting the meeting twice – before fighting and scuffling broke out and they were thrown out of the meeting by groups of burly stewards. Repeatedly Mr Heath parried their tirade until the noise from agitators and the counter booing and shouting of hundreds of other people in the hall forced him to stop speaking c75 05 09

1976 Moseley calls off visit due potential protest [Misc.3.3]

1976 new Labour party hall opened, faced with bricks from old building, part of site to be used for housing [8]

1976 Philip Agee former CIA agent in Cambridge, deportation fuss 1977 [9.6]

1976 There were three winners in the Cambridge Parliamentary By-election – the weather, apathy and Kojak. Together they succeeded in setting up the lowest turn-out in Cambridge this century. The biggest disappointment was that of the Liberal candidate, Dr Michael O'Loughlin who had hoped to take second place behind the Conservative, Robert Rhodes James. Labour officials were saying throughout the campaign that there was little chance of success, the Independent candidate was disappointed with his vote and the National Front result was a

humiliation for them, getting less than 2% [PER CENT] of the total vote. The only person not surprised by his lowly result was the Science Fiction Looney Party candidate c76 12 09

1977 Michael O'Loughlin, lost 5 times as Liberal candidate to quit [9.2]

1977 1st Northern Ireland peace march [9.4]

1977 Prime Minister, Jim Callaghan, arrived in Cambridge to address a Labour Party Conference in the Guildhall and talk to the Fabian Society in the Union Society building. Leaders of the city's Sidewalk Surfers skateboarding group waiting outside got no promises of support for their skateboard rink campaign. Over lunch local Labour Party leaders – including Mrs Janet Jones talked of next year's rate support grant settlement for the county. In his speech Mr Callaghan welcomed President Carter's willingness to reduce nuclear weapons and said he sought a comprehensive ban on nuclear explosions c77 10 19

1979 Anthony Blunt 4th man, became marxist 1935 [Misc.4.3]

1979 Two hundred Iranian students made Cambridge demonstration history when they knelt on Parker's Piece, preyed and recited from the Koran. In what is thought to be the first political demonstration starting with a mass prayer ritual on improvised prayer mats covering the wet turf, the Muslims called upon Allah to bless the efforts of the Ayatollah Khomeini to establish a republic in Iraq based on Koranic law. They then marched to the Market Square. No incidents were reported though some confusion existed among Saturday shoppers, knowing it was the first day of Rag Week. 1982 protest over choice SDP candidate [9.2]

1982 TUC Day of action in support health workers pay claim [3.2]

1982 In the heady days of 1981 Cambridge Social Democratic Party won a city council seat in Romsey, routing Labour after 60 years. But those heady days are over. Nationally opinion polls are showing a decline in support. Locally they are still haggling with the Liberals over who should field the Alliance parliamentary candidate – not a good image for a party who stand for an end to gladiatorial politics. There are about 500 paid-up SDP members in the city, against 450 Liberals, 1,000 Labour party members and 3,500 Conservatives 82 03 17

1984 Blidworth and Rainworth are two small Nottinghamshire mining communities locked in a bitter struggle for survival as the miners strike enters its 18th week. But in Cambridge the Trades Council has set up a Support Group and residents have raised nearly £4,000 for the families opposed to pit closure and the inevitable loss of jobs. On Saturday three local women arrived in the villages bearing gifts and hope. They are seeking homes in Cambridge which would be willing to take in a miner's family for a while to give them a holiday 84 07 17 p13

1985 The bricks which housed Cambridge Labour Party for nearly 60 years are now taking a new shape. Above the builders' board which surround the site of the old Alex Wood Hall in Norfolk Street is rising a brand new hall, faced with the bricks of the old structure. In exchange

for their new premises, the party has given part of the site to builders who will use it for housing. The new hall should be ready by March 1986. 85 09 06 (history of site)

1986 Alex Wood Hall, newly-built headquarters of Cambridge Labour Party, was officially opened by Brenda Dean, the first woman general secretary of a union. 86 10 20

1986 Controversial MP Enoch Powell sparked off an angry confrontation when he arrived for a meeting of the University Conservative Association. The 'Rivers of Blood' politician, whose views on race have prompted strong opposition, spoke inside a locked room as students jeered outside the Old Combination Room at Trinity College. Demonstrators clambered up scaffolding in a bid to disrupt the meeting and shouted slogans. A window was smashed. Mr Powell had been smuggled into his old college through a back entrance and a police escort was on hand to help him leave. 86 12 01c

1986 Robert Rhodes James has been Cambridge's Conservative MP for 10 years. He remembers the date of the election well: "It was the start of one of the coldest winters on record and there I was at two o'clock in the morning, freezing cold, in a snow storm standing on the balcony of the Guildhall waiting for the mayor to make the announcement". But his cold initiation has been more than compensated for by the warmth of the reception he has since received from electors. 86 12 02

1987 The dissolution of parliament marks the end of an era for Francis Pym who retires from the House of Commons after a distinguished 26-year career that reached the pinnacles of ministerial office. He was Government Chief Whip, Northern Ireland Secretary, Defence Secretary, Leader of the House of Commons and Foreign Secretary. Even in his final years outside the Cabinet following his dramatic sacking by Mrs Thatcher he became a leading exponent of traditional Conservative values as the founder of Centre Foreward. He says it has been 'immensely enjoyable' 87 05 18

1987 Shirley Williams' dream of using Cambridge as a springboard back to Westminster crashed in ruins. In a night of disaster for key Alliance figures, she failed to make more than a minor dent in Robert Rhodes James' Conservative majority of more than 5,000 votes. But a crowd of left-wing hecklers chanting 'Thatcher Out, Thatcher Out' narrowly missed him with some well-aimed missiles as he acknowledged victory on the balcony of the Guildhall. Enquiries show he was fearful of being drawn into the hearing of the Cambridge meat case and made to become a witness against his own brother. This undoubtedly preyed upon his mind and he became exceedingly suspicious of any stranger entering the college hall. The other day a friend observed: "I see you have a new waiter". "No", he replied, "he is a detective shadowing me" CDN 1902 05 02

1902 The Provost of Kings said that whatever good had been done by the University Spinning House it was of a very rough and ready kind. It succeeded in arresting women in a course of evil, and sending them to their homes, but one could not say much for the humanising and Christianising influence that was brought to bear upon the women there. In any town there was a probability of evil and if they added 3,000 young men in their hey-day of youth, many of them without fixed principles of right and wrong, and a number of young women coming from bad homes and bearing an hereditary disposition for evil there must be some danger. c02 12 09

1903 murderer imprisoned in County Gaol, Castle Hill transferred each day to station & to Saffron Walden for trial; crowds watch his progress [2.10]

1904 A savage attack has been perpetrated by a prisoner at the Cambridge gaol upon a warder named Andrews, which resulted in severe injuries. Amongst a gang of prisoners chipping wood was one of morose disposition who suddenly rushed upon the unsuspecting warder and dealt him a terrible blow with a hatchet. Assistance was at hand and the prisoner was secured. He has been reported to magistrates and subjected to a severe flogging for his cowardly assault. Flogging is the most severe punishment that can be inflicted on a prisoner and is only carried out in serious cases such as this, or for mutiny. CDN c 29.1.1904

1904 A few days before Christmas a young man arrived in Bristol absolutely without means but soon learned from a firm of solicitors that he was the son of the late Rev E.A. Stephens of Cambridge and entitled to a huge fortune. But the gentleman must have lived here many years ago for clergymen who have seen long service do not remember him, his name does not appear in any University calendar and even members of the police force who have proverbial long memories do not recall him. The story recalls a hoax played on a drayman who lived in Cambridge. He was informed that an uncle had died and left him a fortune so he threw up his position and went to Portsmouth to conclude the formalities, only to learn that the fabulous fortune was a myth and he had been cruelly hoaxed. CDN c 14.4.1904

1904 The unexpected death of a prisoner at the Cambridge Prison occasioned the holding of an inquest. The man's name appeared to be Patrick O'Shea, though as a matter of fact he had a variety of names – Nil, Laughton, Carrington, MacDonald, MacArthur, Montmorency and Hassan Effendi. He gave his age as 45 and his occupation that of a labourer and was committed for trial for stealing money in Wisbech. Warder Andrews said he heard a noise from the cell and found the man apparently in a fit. Death was due to apoplexy. CDN c 25.5.1904

1904 The publication of Mr John Sweeney's book 'At Scotland Yard' recalls one of the most sensational tragedies Cambridge has known. The detective mentions the arrest and subsequent death of the swindler who styled himself 'Dr Sinclair Roland' and resided at a well-furnished, expensively-rented house called Edenfield in Trumpington Road. It had been chosen for its security from observation and general utility as a hiding place. There was an elaborate system of cupboards and secret passages by which he could hide or escape. But the police blocked every exit, a systematic search was made and a secret panel discovered where the man was found. He called for a glass of water and fell dead, having taken poison which he carried in a ring. CDN 25.7.1904

1904 The quietude of Ely was rudely disturbed by news of a shocking tragedy enacted on Back Hill, one of the most peaceful parts of the old City. A bricklayer's labourer twice shot at his neighbour with a double-barrelled gun, the bullets going through her left breast and causing such deadly wounds that she shortly afterwards expired. He then coolly walked into his own house and shot himself through the head. The murder caused the greatest sensation, news spread with rapidity to all parts and the place of the ghastly murder, the humble home of a cottager, became the scene of the greatest excitement Ely has known for years, particularly evinced by the arrival on the scene of several photographers. Cdn 23.7.1904

1904 The results of the fifth of November 'rag' in Cambridge were more or less serious injuries to two policemen, considerable damage to private property and several police-court summonses. A little boy engaged in firing a squib in the midst of a 'ragging' party proceeding along Jesus Lane was knocked down by a cyclist and rendered insensible. Fortunately he was soon revived by a number of undergraduates who at once attended to him. One man fainted and another was admitted to Hospital suffering from injuries to the head caused by his being knocked down by a cab. 1904 11 07

1904 The King's birthday is one of those occasions upon which a certain section of the 'Varsity and Town consider it necessary to turn themselves into public nuisances. This year they avoided the Borough police by making a raid on Chesterton. The mob made tracks for Midsummer Common with the object of having a bonfire. Several hundred crossed Jesus Green bridge where a council of war was held. Carlyle Road was mention as leading to fuel for the fire but a number of the belligerents made an incursion down a private road. Several fences were broken down and flames shot into the air as the surreptitiously-obtained timber was thrown on to the fire. No police appeared on the scene, though a number of members of the Force were on duty on the borough side of the river CDN 10.11.1904

1905 The whole of the Duchess of Westminster's missing jewellery has been discovered in Cambridge including a very valuable pearl necklace and twenty diamond brooches. Police arrested a Cambridge man formerly employed as a night watchman at Grosvenor House; they then went to a house in Priory Road and to a field up Newmarket Road where the jewellery was found. 05 06 15a & others

1905 The burglary scare in Romsey Town has caused several amusing and one dangerous incident. A gentleman was keeping an all-night watch for the burglar and about 1.30 a.m. thought he observed his quarry. At any rate a revolver which he had in his possession went off. The bullet sped across the street and through the window of a house opposite. It cut two holes in the hanging curtains, smashed a large fruit dish and ended its career in a photographic frame. 05 08 05e

1905 The Trumpington Road has an unenviable notoriety for being frequented by shady and suspicious characters. Lately the large houses have suffered depredations at the hands of one of the burgling fraternity. Police supervision should be strengthened: one constable was not sufficient. The Chief Constable said that being with easy reach of London they offered a tempting bait to the criminals of the metropolis. The man involved pretended to be collecting for a cricket club. He was today being tried at Exeter 05 10 14b

1905 Sir - On 1st March 1904 a sergeant of the Metropolitan Police, sent to Cambridge on the occasion of the King's visit, was violently assaulted and kicked by an undergraduate. After six months' illness, during which his pay amounting to £54 was paid by the Borough of Cambridge, he was pensioned off as unfit for service. On 5th November 1904 a constable, having taken one undergraduate into custody, was brutally attacked by others and was left insensible. He has been on the sick list ever since and pensioned off. All members of the University should co-operate to prevent such scenes of riot and disorder - H.M. Taylor, Trinity College. 05 11 09

1905 It is almost incredible that any undergraduate should so far demean himself as to treat a policeman with the blackguard violence of a hooligan. If we have hitherto been inclined to take a lenient view of the occasional destruction of property it was because we felt sure the grosser acts were the work of town loafers who were encouraged by thoughtless undergraduates. But those who took part in gutting a shop should suffer the legal penalty and not be saved from imprisonment by University authorities. - Cambridge Review 05 11 09a

1905 Cambridge police have warned of a new fraud; people receive a letter from a man who claims to have served in the Cuban war and came to England bringing with him a trunk containing £39,000 which has been deposited in a bank. If the recipient will send enough money for the writer's daughter to collect it then she will give them a quarter of that sum. The swindle has gone on for years; the bait is so plausible that many simple people fall victim to the fraud. 05 11 16

1905 P.C. Broughton, a young constable, was injured during the disgraceful 'rag' of November 5th last year. He was kicked whilst on the ground and injured by an undergraduate whom it had been impossible to trace. He had been sent to a Convalescent Home for two months and medical experts called in but had suffered a spinal injury and would not work again. He had been strong but was now crippled and doubled up. He was granted a pension equal to the full pay he was receiving at the time - £1 5s 7d a week. 05 11 23

1905 Two young women were charged with frequenting the streets of Cambridge for the purpose of prostitution. One explained she was a native of Dundee, living at a common lodging house; she had been a domestic servant at Newmarket but had to leave on account of illness. Being destitute she was obliged to 'go on the streets' for a living. 05 11 30a

1906 The Isleham Baptist pastor was sentenced to seven days in Cambridge county gaol but only served four. Having entered on Monday evening he was released on Saturday, as they do not keep a prisoner over the Sunday. He brought out with him a huge lump of the brown bread that formed the chief article of his diet: it was served with tea for breakfast, with soup for dinner and cocoa for supper. 06 04 07c-d

1906 Burglar hunting as a popular amusement had 'caught on' in Cambridge. Large crowds gathered in the neighbourhood of Park Terrace expecting to see the police emerge with two or more stalwart ruffians who had the impudence to enter Mr Sturton's house and rifle his pockets. They are thought to be playing a skilful game of hide-and-seek with police in and out of the six houses which comprise part of the Terrace; eager eyes are directed to the parapet and expectations entertained of seeing a desperate chase along the roof. But no one was seen. 06 07 31a

1906 With the death of John William Cooper Cambridge loses one of its most pronounced personalities. As a barrister in the Daisy Hopkins case he ruthlessly exposed the evils of the Spinning House and few can understand the amount of good work he did behind the scenes.

Latterly folk have agreed that he was breaking up, but though he may have suffered physically he never showed signs that his mental vigour had diminished. 06 11 12a & b & c

1907 Musgrave, card sharp, arrested – stole from undergraduates at Bull Hotel – 07 12 16a, 07 12 28d

1908 A young married woman lies in Cambridge gaol accused of wilful murder. In the tiny parlour of a typical country cottage is the dead body of her year-and-four-month old baby, a bonny dark-eyed plumped-cheek babe, drowned in the filth of a cesspool. Upon a little bed in another room lies another little girl slowly recovering from the effects of immersion in the same cesspool. Too young to realise the terrible experience she has been through she murmurs “Mummy did it; she said it was best” CWN 08 11 20 [346.2.4]

1908 Borough justices considers probation service & appoints 2 men & 1 woman on voluntary basis; 1909 separate court for juveniles & police sergeant paid 10/- for each of three cases in which he acted as probation officer; within year County probation service began [6.5]

1908 Mr A.H. Hawke has been appointed Governor of the Cambridge Prison. He has served at Wandsworth, Wakefield and Hull and takes a great interest in social reform, life saving and ambulance work. His recreations are cycling, lawn tennis and chess. 08 03 09b

1908 When the jury retired to consider their verdict at the Assize Court, Castle Hill, they were taken down a flight of cold stone steps into a narrow chamber of sordid aspect, dimly lit by three barred windows and furnished with two bare wooden forms. The Court does not want the retiring room made too comfortable, but there must have been times when they have made up their minds hastily to escape from that dungeon. Now a new room has been built, with a lavatory. But the court is still illuminated by gas and flooded with fumes. Silver-tongued barristers halt while the custodian, armed with his long pole, leans from the dock to light it. 08 04 17c

1908 A wardress at the County Gaol, Castle Hill, told the inquest that a single mother and her baby had been put in the reception cell and slept on a plank bed with a mattress. In the morning the baby was dead and she concluded the prisoner had overlaid it. There was no room for cradles in reception cells, which were very small, and when they were provided in the main cells the mothers never thought of laying babies there at night. The Coroner did not attach any blame to anyone. The narrow bed was altogether insufficient for the child and mother and now they knew that would not happen again. The jury said a cot should be provided. 08 05 16b

1908 John Deeks joined the Cambridge Police Force in 1887 when it had strength of 34 – half of what it is today. In those days policemen were paid two shillings and sixpence to attend fires so they were strongly represented at each outbreak, with officers attracted from their usual beats. Men were not often ‘run in’ because of drunkenness but now they are summonsed if they attempted to fight. He became a Police Court Missionary working with habitual drunks who often signed the pledge but broke it within an hour CWN 08 08 15 07

1908 Cambridge Prison is satisfactory and discipline well-maintained. The number of male prisoners last year was 818 and their conduct generally good. They are employed at oakum picking, sawing, chopping and bundling wood, gardening and building work while the female prisoners do needlework, knitting, laundry work and cleaning. One female prisoner, aged 66, was baptised at her own request. The schoolmaster has carried out his duties with zeal in his new schoolroom where 45 prisoners have been under instruction. There has been no escape, no attempt at escape and no case for corporal punishment CWN 08 10 09 p3

1909 Cambridge Police has a special staff of men employed in looking after unoccupied houses. The intending burglar who usually watches the policeman on his beat pass the empty property he intends to break into cannot now know when he may be dropped upon. Last year 802 residents used the service and except for one house in Madingley Road, where the gates were

locked and police unable to obtain access, there has been no robbery from an unoccupied house of which they have been given notice. CWN 09 02 12

1909 The first visit of the Cambridge Police Force band to Coton some years ago will not soon be forgotten. A resident had arranged for a wagonette for their conveyance but when turning a corner by Gt St Mary's they were surprised to see a wheel careering along beside them and the wagon gracefully toppled over, depositing the bandsmen in the roadway. They continued by charabanc but their former driver was accosted by a policeman and ordered to 'clear that wreckage away' or he would be run in. Considering he had brought it over for the conveyance of the police band his indignation can be imagined CWN 09 07 23

1910 "Cambridge an irresistible attraction for professional thieves down from London"; group caught loading stolen bicycles on train [346.2.5]

1910 A stable in Water Street, Old Chesterton, was the scene of a shocking tragedy. A 50-year-old labourer had been living with a 58 year-old woman who earned her living by travelling about the county with a caravan in the summer, visiting fairs, and in the winter time she hawked coal and coke about local villages. When he appeared in court his complexion stamped him at once as a man used to working in the open air. His face and neck were alike brick red in colour and seamed with thousands of wrinkles, the black hair was cut fairly short, but the grizzled moustache was rather ragged. He was dressed in corduroys and heavy boots. He had no collar or neck wrap and his vivid red shirt showed at the top of the sleeved waistcoat he was wearing. 10 03 11a & b

1910 The courtroom was packed for the trial of a man accused of murder at a stable in Water Street, Chesterton. A nearby house was lived in by a 58-year-old woman who earned her living by travelling about the country with a caravan in summer, visiting fairs, and in winter time she hawked coal and coke about local villages. A squabble with a 50-year-old labourer with whom she was living resulted in him cutting her brother's throat with a carving knife. He was sentenced to hang. 10 06 03 b & c

1910 At the last stroke of eight o'clock in the morning James Henry Hancock paid the extreme penalty of the law for the murder of Alfred Doggett at Chesterton. The execution took place at the County Gaol, Castle Hill. Pierpoint was the executioner, assisted by his brother, and they accomplished their deadly work with marvellous celerity, death having been absolutely instantaneous. Only the Deputy Sheriff, the Governor of the Prison, the Prison Chaplain and Doctor were present but a crowd of several hundred assembled on the pavement opposite the Shire Hall. They kept their gaze fixed on the flag-staff, unaware that the practice of hoisting the black flag has been discontinued. Nor was the bell tolled. 10 06 17b

1910 It is 12 years since the extreme penalty of the law was last paid within the walls of the County Gaol. The last culprit was Walter Horsford, the notorious St Neots poisoner, who was hanged on 28th June 1898 for the murder of his cousin. Prior to that there was a long period during which the hangman was not called upon for it was as far back as December 1876 that Robert Browning was executed for the murder of a woman on Midsummer Common. The last public execution in the county was in March 1864 when a man was hanged for the murder of a girl at Whittlesey. Shortly after this the law was passed putting a stop to executions in public and the tendency now is for complete privacy 10 06 17c

1910 A gruesome relic has been discovered during renovations at the Hoop Hotel. It is a human skeleton grimly suggestive of a crime committed in days gone by, a victim's remains ingeniously hidden by a murderer. For hundreds of years generations of people have passed along Bridge Street recking nothing of the horrible trophy which lay some ten feet beneath the pavement. A workman discovered the bones of a woman placed just below the wall and floor of the wine cellar and above the foundations. 10 12 23

1912 Police accused of violence every Guy Fawkes night : always complaints of heartless & brutal conduct of police - inhuman monsters who dash hither & thither - but what are respectable people doing out [3.1, 39.3.1]

1913 A pathetic tragedy occurred in Cambridge when a German teacher committed suicide after killing his two children by shooting them with a revolver. His wife, to whom he was devoted, had died in February. He was an advanced Spiritualist and had written to the coroner stating that by the time he received the letter he and his children would have rejoined their loved one. He was firmly of the belief that the step he was taking was merely a means of reuniting the family. 13 04 11 p9 CIP [2.7]

1913 Prisoner dies in County Gaol - 13 07 04 p9 CIP

She denied having started the blaze but had been at the site and dropped her watch. It was identified by her uncle, a Norwich policeman. Pink flannelette smelling strongly of paraffin had been wound round a ladder and set alight. Her coat smelled of paraffin. She asked the jury: "Do I look like a person who would go about with flannelette and cans of petrol and set fire to houses". She was convicted. 13 10 17 p8 [346.1.9]

1913 Frederick Seekings, Brampton murder 13 10 17 p8 &.9 CIP

1913 Frederick Seekings, a Brampton man was hanged in Cambridge Gaol for the murder of his wife. Mr T.W. Pierpoint was the executioner and the hanging was expeditiously carried out, death being instantaneous. Very little interest in the execution was shown by the public. There was but a mere handful of people outside the Shire Hall, chiefly composed of errand boys and youths. The black flag was not hoisted nor was the prison bell tolled, and there was nothing whatever to indicate that anything unusual was taking place. 13 11 07 p08 CIP [346.1.10,2.8]

1914 owing to smaller number of women prisoners the female side of Cambridge gaol is to stay closed [3.9]

1914 large number special constables sworn in [3.11]

1914 special constables established, not more than 50, during WWII was 1,067 [4.3]

1916 One of the most astonishing results of the war is the effect it has, had on crime. This matter has been commented upon at every Assize and Quarter Sessions for the last twelve months or so. The calendars have been so light as to cause astonishment. Serious crime seems almost to have come to an end, and the presentation to the Chairmen of Quarter Sessions of white gloves as evidence of there being no prisoners for trial has become quite a common occurrence. As a consequence of this change in our normal conditions, some of His Majesty's prisons have hardly any prisoners, in them, and as a wartime economy, it is proposed to close some of them for the time being. Cambridge is to be added to the number closed during the period of the war. It is a remarkable proposition, although we should like to think that we could get along without a prison in our midst 16 02 09 CIPof

1922 The Borough Chief Constable's annual report of the Cambridge police establishment for 1921 has now been issued. The strength of the force during the last year was 84. The total number of indictable offences was 151. Ten persons were committed for trial. There are 40 members of the Special Constabulary full equipped with uniform, 90 to whom caps, badges, truncheons and whistles have been issued, and 80 to whom no equipment has been issued who have expressed their willingness to serve in an emergency. c22 03 27

1927 The Chief Constable, Mr R.J. Pearson said that when he came to Cambridge there used to be only one or two policemen on point duty, whereas now there were seven or eight. The force had not been increased so one had to scheme accordingly. During the past year nearly 2,000 bicycles were found in the streets; up to Thursday morning there were 300 at the Police Station but 70 had been claimed that day. One seldom saw a drunken man in the streets and returns showed they were one of the best towns from this point of view. CDN c15.1.1927

1928 Cambridge councillors debated the deplorable behaviour of certain members of the University. In the places of entertainment bad language was frequent and disorderly acts occurred in the streets. At the present time special constables were composed entirely of tradesmen and at certain times of the year the year the Chief Constable should try to enrol University fellows, tutors and dons. The proposal was rejected. c28 03 24

1930 A terrible shooting affair occurred at King’s College this afternoon. An undergraduate shot a Cambridge Detective-Sergeant twice with an automatic, then shot his tutor through the heart and himself in the head. The tutor died instantly, the undergraduate is not expected to live but the policeman is likely to make a normal recovery. The cause of the trouble is at present a mystery 30 06 03a [2.4]

1930 The third of the men in the King’s College shooting sensation, Det-Sergt Willis, has died from the effects of his wounds. The undergraduate assailant died yesterday from a bullet wound in the head whilst the tutor was killed instantly from a bullet through his heart. The undergraduate was heavily in debt and went away from Cambridge nine days ago on a motor-cycle obtained on credit. He was being interviewed by the policeman when the tragedy occurred 30 06 04

1930 A London lady has thrown fresh light on the movement of the undergraduates involved in the double shooting at King’s College. They had knocked on her door at three in the morning; their clothes were torn and dishevelled and they said they were down and out, having been walking about on the Thames Embankment. They told her they were in trouble at Cambridge, but only through disposing of some property that did not belong to them. Both had pistols and said they would end things then rather than face fresh trouble, but she had dissuaded them. 30 06 04

1930 The Cambridge Chief Constable paid tribute to Det-Sergt Francis Willis who was shot by a Cambridge undergraduate. He was born in Haverhill and joined the Cambridge force in 1920 serving as a uniformed and a cycle patrol constable until appointed a detective. He had commendations for his plucky action in stopping runaway horses and was the officer concerned in the recent 'Mr H' blackmail case. He had the making of a really great policeman and his death was a great shock. 30 06 04

1930 Further revelations of the escapades of the undergraduate involved in the King's College shooting have caused University authorities to make searching inquiries into the habits of undergraduates. The lad had surrounded himself with an atmosphere of false romance; he paid frequent visits to the Bell Hotel at Mildenhall. The landlord's daughter described him as 'a very nice boy, but terribly eccentric'. He always came in second-hand cars, but never in the same car twice, and spent time playing the gramophone. He always left in time to get back to college before the gates closed 30 06 06b – SEE OTHER STORIES AT THIS DATE WHICH NOT TYPED UP

1930 Memories of Detective Ives who was with Willis – 55 08 09

1930 Will of Wollaston, the murdered don – CDN 30 08 19

He had a vivid memory of the opening of the Corn Exchange in 1870 when undergraduates caused a disturbance and six were arrested. At their trial a mob gathered and dashed to King Street, the residence of the Mayor, John Death. But, headed by Carter, the police got there first and shut the gates. Missiles of all kinds were thrown and the fighting continued for some hours. Apart from a battered and torn helmet, Mr Carter was not hurt. 31 02 20j

1931 Over 100 attended a funeral service for a young Freshman whose mysterious death has caused such a sensation throughout the country. Press and public were excluded but a crowd gathered and police had some difficulty in controlling the traffic. He had been found lying dead on the floor of his room, gagged and bound in an elaborate manner with numerous handkerchiefs, a length of puttee, and a wire flex. Members of the Pentacle Club, the University Magicians' Society have been interrogated & Sir Bernard Spilsbury, the famous Home Office pathologist has been called in. 31 02 27d-g-h

1972 first sitting of Cambridge Crown Court [3.7]

1973 United soccer fans go wild, 2nd week, 13 arrested [14.11]

1974 change name Cambridgeshire Constabulary [4.10]

1974 The rapist terrorising girls in Cambridge's bed-sit land claimed his fourth victim in two months when he struck in the Newnham area of the city yesterday. It was the fifth attack on single girls living alone. Four have been raped and one fought her attacker off on the doorstep. The man leading the 20-strong special police squad, Detective Superintendent Bernard Hotson said today: "We are looking for an extremely sick and dangerous man" c74 12 08

1975 "Cambridge Rapist" convicted following attacks between Oct 1974 & June 1975 [4.5]

1975 Newcastle fans on rampage, Mar; afternoon of violence, 3-hour clash with police Nov [14.16]

1975 The first cannabis resin distillery to be found in Cambridge was discovered when drugs squad detectives raided a house on the north side of the city. After a tip-off police surrounded a private house in a residential area. Inside they found various pieces of equipment along with drugs substances. They took away tubing and bottles which forensic scientists are examining. They believe distilled resin has been used to impregnate non-drug vegetable matter and foodstuffs for consumption by drug users. Police regard their find as important in a city where soft drug abuse is fairly widespread c75 11 23

1976 "soccer hooligans run wild" (Aug), "hooligans run riot in night of terror" (Sep) [14.20,14.21]

1976 first community service order [3.12]

1976 police promise better liaison with gay community [6.2]

1978 "thin blue line halted rampaging city mob"; "in terms of quantity & quality Cambridge United have worst fans in the land" [15.7-8]

1979 "support is disgraceful", 27 arrests in violence [15.9-11]

1979 "Cambridge a soft touch for hard drugs" [5.1]

1979 Chief Supt Jock Proctor who did the most to contain the drugs problem in Cambridge retires from the police in December. In 1966 he formed a Drugs Squad to combat what was then a new and growing problem. Other agencies joined to set up a proper containment procedure which has been copied elsewhere. It was unheard of in those days for police, social workers and psychiatrists to meet together with addicts, parents and the clergy but soon a basis of trust was established and worried parents would take their youngsters to a police station for advice, rather than prosecution CEN 17.10.1979

1980 3 coach loads Lincoln supporters turned back en route United [6.7]

1980 The Cambridge police Patrol Group was set up in 1977. It is allocated specific targets and is free to concentrate on them until the problems are solved. Following outbreaks of crime such as handbag snatching or stolen bicycles they will 'flood' an area in an intensive detection campaign. The results are impressive with 97 arrests in recent months and a drop of 400 in the number of crimes recorded last year coupled with an increase of 500 in the number of prisoners arrested. 80 01 23

1980 Sea Cadets have discovered a hoard of sunken treasure worth thousands of pounds in the River Cam. Their boat's engine failed and it was found that a fur wrap had fouled the propeller. Whilst attempting to free it they discovered parts of a suitcase containing silver cups, candelabra and boxes of jewels. Police put a guard on the river until divers could carry out a full search. It is thought to be the proceeds of a major crime and is now locked away at Cambridge police station 80 06 30b

1981 51 arrested as fans run wild - Chelsea, "pub battle, 46 arrests"- Norwich fans [15.15-16]

1981 Three valuable painting of Henry VI, Henry VII and Henry VIII have been stolen from King's College, Cambridge. All are contemporary works in oil on wood or panel. They were taken along with their frame from the college's main hall and people thought they had been removed for cleaning. 81 04 21a

1981 Glue-sniffing first came to this country about 10 years ago and there have been isolated outbreaks since then, but the revival of the craze among a group of Cambridge youngsters has caused concern. Police say there are no more than a dozen involved and it is not a major problem yet. One 14-year-old punk, a veteran glue-sniffer of three months, admitted stealing pots of glue and said "My mother doesn't want me to do it but I just like it and don't care" 81 05 12 [5.3]

William Maltby of Devonshire Road joined the police force in 1849, rising to the rank of inspector. In those days constables wore top hats instead of helmets with cut-away coats around which they wore a belt of piratical proportions. There were only 30 constables, two inspectors and a superintendent whose headquarters were in Emmanuel Road.

1895 new County & police courts in Guildhall St [2.17]

1897

Charity Commission scheme; corporation get entire use of Spinning House to expand police station, rebuild one day 1897 02 06 CDN

1898 detachment of mounted police formed [3.1]

1898 Cambridge town council accepted a design for new police and fire brigade buildings, which it is proposed to erect upon the Spinning House site. If the new station is erected the whole of the existing buildings, which are not conspicuous for their beauty, will be removed, with the exception of the chief constable's house, and the fire station and firemen's quarters will be completely isolated from the police building. A new main entrance will be erected and it is

suggested that the present stone gateway to the police station should be removed to the back entrance in Downing place. The only elevation of any architectural pretensions will be the main facade towards St Andrews's street. A copula forming a central feature will serve as a "look-out" in connection with the fire station. The plans include provision for a mortuary CDN 1898 06 09

1898 At the Standing joint committee Mr H.G. Fordham proposed that the appointment of Parish Constables should be discontinued. In 1873 the Cambridgeshire quarter sessions had decided to continue them. That was 28 years ago and he contended that since then they had been rendered unnecessary. There was a considerable amount of friction and expense and they were of no real use except in rare instance. Six parishes in Cambridgeshire made no appointment. In Balsham the parish constable had not done duty for 15 years, and in Weston Colville no duty had been done for 40 years. In seventeen parishes there was no remuneration at all. In others the expenses varied from £10 downwards. The Chief Constable having said a good word for the parish constables expressed a hope that their appointment would be renewed c1898 07 09

1899 The days of the Cambridge Spinning House are numbered. It is to be pulled down in order that a house of detention after the best approved modern ideas may arise on its site. There is no more stirring chapter in the history of modern Cambridge than that which this forbidding looking building in St Andrews Street recalls. It speaks of many things which the Cambridge of today is glad to forget. It is an ugly monument of an ugly feud between the authorities of the University and town. The feud is dead: would that the razing to the ground of the Spinning House were sufficient to efface all memory of it c1899 04 20

1899 An inquiry held heard that half of the Spinning House was occupied as a police station. It had been built about 1840 and was far from up to date. There was no difference between the accommodation for male and female prisoners, and any women that might be kept in the police station all night had to be attended to by police constables on duty, there being no female warders or matrons. The cells were clean and in good order but were quite inadequate for the requirements of the town c1899 04 21

1901 new police & fire stations open on site of Spinning House, St Andrews Street [1.7]

1901 The police station is part of the machinery which Society has devised for its own protection and for inflicting punishment upon wrong doers. In the golden age there will be no use for Police Stations, and the fine building of which Cambridge has just witnessed the opening may justifiably be converted into a Free Library. There is no virtue in locking up a wrong doer in an ugly prison and the architect of the new station, Mr John Morley, has designed a building which is an ornament to the town. The cells are not luxurious but they are not stifling. It is true the building has cost a good deal but is excellent value for money CDN 1901 10 07

1901 The arrest was reported from Queenstown of a Cambridge man on a warrant charging him with felony. Detective-Sergt Bryne effected the arrest on the outward-bound American steamer. The accused was travelling as a saloon passenger under an assumed name. As is well-known the man held a position of trust at Messrs Foster's bank and was actively identified with politics and parochial movements in the Abbey Ward. His disappearance from Cambridge has been the subject of many rumours. Detective Marsh has been sent to Queenstown to bring the accused to Cambridge c01 12 10

1902 The Cambridge Watch Committee have disapproved of the holding of the annual Police dinner, feeling that it is not desirable that the police should be put into the position of seeking subscriptions from the public towards the meal. There are many people in the town who think kindly of the police and would gladly subscribe towards affording them a break in their laborious and somewhat monotonous lives. The CDN is ready to afford this generous feeling outlet and, providing the Committee offer no objection, a fund will be opened in our columns. There is no

doubt that the proposal to give 'Robert' a treat of this kind will commend itself to the people of Cambridge CDN 1902 01 25

1902 The funeral of P.C. Thompson of the Cambridge police was conducted on military lines. His comrades, accompanied by members of the Borough Fire Brigade, marched to Sturton Street. As the coffin was brought out of the house the police band played the death march in "Saul" and Drum Major Inspector Johnson, his staff draped with crepe, led the hearse & mourning coaches in procession to Mill Road cemetery. The route was lined by people and many were the manifestations of sympathy with the mourners. The funeral arrangements were carried out by Mr Ellis Merry. CDN 1902 05 10

1902 Well-deserved tributes were paid to the excellent work by Detective-Sergeant Marsh. It has been owing to his sagacity and promptness that a number of exceedingly slippery rogues have been brought to book during the past few months. His capture of the man sentenced for stealing the cash box from Messrs Stearn was made in the nick of time – a few minutes later and he would have been too late. One especially noticeable feature about his methods is his scrupulous fairness to accused persons, a matter of the highest importance in the proper administration of justice CDN 1902 12 03

1904 The King's birthday is one of those occasions upon which a certain section of the 'Varsity and Town consider it necessary to turn themselves into public nuisances. This year they avoided the Borough police by making a raid on Chesterton. The mob made tracks for Midsummer Common with the object of having a bonfire. Several hundred crossed Jesus Green bridge where a council of war was held. Carlyle Road was mentioned as leading to fuel for the fire but a number of the belligerents made an incursion down a private road. Several fences were broken down and flames shot into the air as the surreptitiously-obtained timber was thrown on to the fire. No police appeared on the scene, though a number of members of the Force were on duty on the borough side of the river CDN 10.11.1904

1905 Sir - On 1st March 1904 a sergeant of the Metropolitan Police, sent to Cambridge on the occasion of the King's visit, was violently assaulted and kicked by an undergraduate. After six months' illness, during which his pay amounting to £54 was paid by the Borough of Cambridge, he was pensioned off as unfit for service. On 5th November 1904 a constable, having taken one undergraduate into custody, was brutally attacked by others and was left insensible. He has been on the sick list ever since and pensioned off. All members of the University should co-operate to prevent such scenes of riot and disorder - H.M. Taylor, Trinity College. 05 11 09

1905 It is almost incredible that any undergraduate should so far demean himself as to treat a policeman with the blackguard violence of a hooligan. If we have hitherto been inclined to take a lenient view of the occasional destruction of property it was because we felt sure the grosser acts were the work of town loafers who were encouraged by thoughtless undergraduates. But those who took part in gutting a shop should suffer the legal penalty and not be saved from imprisonment by University authorities. – Cambridge Review 05 11 09a

1905 P.C. Broughton, a young constable, was injured during the disgraceful 'rag' of November 5th last year. He was kicked whilst on the ground and injured by an undergraduate whom it had been impossible to trace. He had been sent to a Convalescent Home for two months and medical experts called in but had suffered a spinal injury and would not work again. He had been strong but was now crippled and doubled up. He was granted a pension equal to the full pay he was receiving at the time - £1 5s 7d a week. 05 11 23

1908 John Deeks joined the Cambridge Police Force in 1887 when it had strength of 34 – half of what it is today. In those days policemen were paid two shillings and sixpence to attend fires so they were strongly represented at each outbreak, with officers attracted from their usual beats.

Men were not often 'run in' because of drunkenness but now they are summonsed if they attempted to fight. He became a Police Court Missionary working with habitual drunks who often signed the pledge but broke it within an hour CWN 08 08 15 07

1909 Cambridge Police has a special staff of men employed in looking after unoccupied houses. The intending burglar who usually watches the policeman on his beat pass the empty property he intends to break into cannot now know when he may be dropped upon. Last year 802 residents used the service and except for one house in Madingley Road, where the gates were locked and police unable to obtain access, there has been no robbery from an unoccupied house of which they have been given notice. CWN 09 02 12

1909 Police band visits to Coton Flower show – accidents CWN 09 07 23

1910 debate on whether to give police a day of rest - would need 5 extra policemen at cost of 23/7 (£1.18) a week (granted 1911)[1.8,1.9,2.22,3.6]

1910 police start welfare scheme & supply boots to 160 poor children[3.3]

1910 Few have any clear idea of the variety and extent of the services which the police render. They see the policeman about the streets, patrolling his beat or standing on point duty and have no hesitation in appealing to him in almost any little dilemma. But their annual report shows they keep a watchful eye upon temporarily unoccupied houses, visit common lodging houses, attend fires, take charge of lost property, inspect stage and hackney carriages and attend to dangerous dogs. There are 54 constables, average age 36 years. CWN 10 03 04h & I

1912 Borough Extension brings Police Force into the new areas [2.24]

1912 Police accused of violence every Guy Fawkes night : always complaints of heartless & brutal conduct of police - inhuman monsters who dash hither & thither - but what are respectable people doing out [3.1, 39.3.1]

1912 Telephonic communication between the police-station and certain police-officers' houses was discussed. Some police houses were simply hired in an ordinary manner and they might have to move the telephone when a new policeman came to a village and took a different house to his predecessor. At Shelford the call office was only about 20 yards from the constable's house, but you couldn't call him. The Chief Constable said he didn't want a constable sitting in the house waiting to be called. His business is to be outside, looking after the property in the village. 12 01 19

1912 At present a police constable is entitled to a pension after serving 25 or 26 years on the beat. This is as much as most men are able to stand, including as it does a share of night work in all weathers. Policemen who are past their prime, unless by unusual intelligence they have risen from the ranks, are of little use in the Force and the value of their retention is doubtful. But to reduce their pay is astounding. The present sum was fixed more than 30 years ago when living was much cheaper, duties were less exacting and men of a much lower grade of intelligence were considered suitable. A man must be hard put to it to accept such terms. – 12 03 22c

1912 The last meeting of the old Town Council rejected proposals to reduce policemen's wages. Thirty years ago any burly ruffian that could knock a man down was supposed to be good enough for a policeman. Today police must be courteous and tactful, able to render first-aid and resourceful in emergency. The presence of thousands of undergraduates made the work more trying and it says much for the present Force that even during a 'rag' there is seldom any friction of a vicious character between the 'Varsityman and 'Robert'. They must be incorruptible: often a policeman is offered a bribe to 'say nothing about it'. Yet in Cambridge the commencing wage is lower than at Oxford or Peterborough. 12 03 29b

1912 Police force report 12 05 03i

1912 The West Wrating parish constable was dismissed: a man had used abusive language to Fred Pitts, bailiff to Mr E.P. Frost. But when Pitts complained to the constable he'd taken no

action and used bad language himself. Parish constables were bound to act in the same way as ordinary constables. They were public servants and must 'come out' when called upon. To behave as this man did was scandalous. Many parish constables were very loyal; one had even 'gone against' his own son and carried out his duties without fear or favour. 12 05 10d

1912 The National Insurance Act has seen a great rush of insurable people to join approved societies and applications for cards have reached stupendous figures. Cambridge General Benefit Society was one of the first to be approved and have admitted 100 new members. To their disgust members of the Cambridge Police Force have been called on to contribute their fourpence a week under the Act. This is difficult to understand as they get almost full pay during sickness and receive free medical attendance from the Police Surgeons 12 07 19f & g

1912 Cambridge Prison Governor's annual report – 12 10 04i

1912 William Dobson, successor to the late Mr A.H. Hawke as Governor of the Cambridge Prison, was born in a police station in 1859 and has been connected with crime and criminals all his life. He was previously Chief Warder in the Borstal Institution at Feltham and believes that even judges do not realise what the system is doing to reduce crime. Mr Dobson married 25 years ago and has six children. His two eldest sons are soldiers and one of his brothers is Chief Inspector of the Newcastle City Police. 12 12 12f

1912 An inquest into a man who died at Cambridge gaol while awaiting trial was told he was a wheelwright who'd complained of pains in his insides for a long time. He'd suffered a haemorrhage. His wife said she'd had every opportunity to see him and that he'd been as kindly treated 'as though he had been a gentleman'. The officers, governor and doctor had spared nothing to save his life 12 12 20j

1919 New County "Chief," — Few appointments have met with more general approval than the promotion of Mr. William Varney Webb to the office of Chief Constable of the County of Cambridge. It is a promotion richly and thoroughly deserved, and is but fitting recognition of the services of an officer who has conscientiously and with great ability discharged his duties to the general advantage of the whole County Besides which, his attainment to the highest Police rank in the County must be an incentive to the most humble member of the Force. Mr. Webb, who celebrated his 50th birthday a fortnight ago, joined the Cambridgeshire Constabulary nearly a quarter of a century ago, and he has risen to his present position solely by his own energy and ability 19 04 02 CIPof

1919 Chief Constable Resigns,—Mr Charles Edward Holland, Chief Constable of the Borough of Cambridge since 1894, has placed his resignation in the hands of the Watch Committee of the Borough, of Cambridge, to take effect from September 29. Mr Holland has been away for some time on account of ill-health, but was in Cambridge last week to make the necessary police arrangements for the Peace Celebrations. 19 07 23 CIPof — profile — 19 07 23k

1922 Special Constables thanked for their work during War; provide motor ambulance for use of townspeople [2.19,1.22,2.8]

1922 At the Grand Council of the Red Cross Society and St John Ambulance Association Mrs Hartree raised the question of the police ambulance, and said she understood that the police ambulance was to be kept in the town, and that the Red Cross Ambulance should be used for long distances. However it was seen that the Police ambulance had gone on long distances - Ipswich and Norwich. Mrs Pryor said she knew the ambulance had been used extensively at the Evelyn Nursing Home. The Chief Constable said that the objection to the Red Cross Ambulance was that it was not heated, but they had very quietly informed him that it was heated and the ambulance had been much improved lately CDN c 30.4.1922

1922 The Borough Chief Constable's annual report of the Cambridge police establishment for 1921 has now been issued. The strength of the force during the last year was 84. The total number of indictable offences was 151. Ten persons were committed for trial. There are 40 members of the Special Constabulary full equipped with uniform, 90 to whom caps, badges, truncheons and whistles have been issued, and 80 to whom no equipment has been issued who have expressed their willingness to serve in an emergency. 22 03 27

1922 The Borough Chief Constable's annual report of the Cambridge police establishment for 1921 has now been issued. The strength of the force during the last year was 84. The total number of indictable offences was 151. Ten persons were committed for trial. There are 40 members of the Special Constabulary full equipped with uniform, 90 to whom caps, badges, truncheons and whistles have been issued, and 80 to whom no equipment has been issued who have expressed their willingness to serve in an emergency c22 03 27

1923 During the past 28 years a police-court missionary has been engaged in the Cambridge courts. It has for its main object the reformation of all, irrespective of creed, who pass through the police courts. No matter what the offence or how often repeated, none are too young to be helped, no criminal too hardened. Almost every case undertaken means some expenditure. It costs money to provide boots, clothing, travel expenses and entrance fees to homes and institutions. This is a period of numerous charitable appeals but we doubt if any object is more worthy of support and more productive of lasting good c23 12 24

1923 To the majority of Cambridge people the policeman is a man in blue uniform who apprehends "undergraduates" who ride motor cycles with noisy "silencers". Some 300 of the town's most needy inhabitants however, saw "Robert" in the guise of a cheery soul on the occasion of the distribution of gifts from the proceeds of the Borough police poor and needy funds. Some carried sacks of potatoes on their shoulders, others struggled with sheets of paper in frenzied efforts to wrap meat into neat and really tidy looking parcels. P.C. Hagger who officiated as executioner in the meat department looked thoroughly impressive as with a sharp knife and large chopper he dealt with the meat in a way that would have done credit to the most finished meat purveyor c23 12 30

1923 Miss Annie Carnegie-Brown has died at the age of 90. She was Cambridge's first policewoman in 1923 at a salary of £3 a week. Slightly built, she was stabbed with a carving knife while arresting a well-built Ely woman. A doctor clipped her wound and she returned to duty next day. During the war, as a fluent German speaker, she was involved in the interrogation of spies and retired as a sergeant in 1947. Until the end she was a clear-thinking determined old lady who enjoyed fishing but never talked about the past 86 09 28

1925 expenditure of £9,600 on police & fire station approved [1.26]

1925 Cambridge Poor Law Guardians considered installing wireless apparatus at the Institution. Mrs Keynes said some members were not entirely satisfied that it would be a very great boon to the inmates, partly because of the nature of the entertainment and partly because the best part of the performance usually came on after their inmates had gone to bed. The chairman handed round copies of the "Radio Times" to enable members to see the types of programmes

given. Messrs Allin's estimate for a six-valve set with five loud speakers was £65. Chesterton Institution had installed three loud speakers and they were appreciated c25 05 22

1927 The Chief Constable, Mr R.J. Pearson said that when he came to Cambridge there used to be only one or two policemen on point duty, whereas now there were seven or eight. The force had not been increased so one had to scheme accordingly. During the past year nearly 2,000 bicycles were found in the streets; up to Thursday morning there were 300 at the Police Station but 70 had been claimed that day. One seldom saw a drunken man in the streets and returns showed they were one of the best towns from this point of view. CDN c15.1.1927

1928 Cambridge councillors debated the deplorable behaviour of certain members of the University. In the places of entertainment bad language was frequent and disorderly acts occurred in the streets. At the present time special constables were composed entirely of tradesmen and at certain times of the year the year the Chief Constable should try to enrol University fellows, tutors and dons. The proposal was rejected. c28 03 24

1928 Members of the Cambridge public who have been mystified by the appearance of wooden huts in various places will be interested to learn they are police telephone boxes. They will be small sub-police stations. Each will contain a telephone in a cupboard which the public can use to get in touch with the Central Police Station, but not for general calls. The box itself will only be accessible to the police. Thirteen are to be erected c28 11 26

1929 The Chief Constable said that one of the cars now in use was a danger to the life of the Deputy Chief Constable; it had been used every day for the past ten years, so it had done extraordinarily well, but was now positively dangerous to go about in. The cost would be about £150. The question of payment arose and Mr Taylor objected to "this wretched system which is going on all over America of paying by instalments". It was agreed a new car be purchased and paid for now and a sub-committee was appointed to make the purchase. CDN c 9.1.1929

1930 Demolition work has begun on the Chesterton Sub-Police station, Mitcham's Corner. At one time the office of the old Chesterton Urban District Council it became a police station on the amalgamation of Chesterton with the borough. Corner improvements have made its removal desirable. Workmen are hurrying in and out and already it is windowless and completely barren internally. It will be replaced by a police-box. The familiar fire standards are also doomed to disappear; five wall boxes have been erected which will be in operation as soon as the telephones are installed. The change has been made because the public dislikes the breaking of glass in the older standards and prefer to use a telephone case of emergency 30 01 20 [3.5, 3.10]

1930 A terrible shooting affair occurred at King's College this afternoon. An undergraduate shot a Cambridge Detective-Sergeant twice with an automatic, then shot his tutor through the heart and himself in the head. The tutor died instantly, the undergraduate is not expected to live but the policeman is likely to make a normal recovery. The cause of the trouble is at present a mystery 30 06 03a [2.4]

1930 The third of the men in the King's College shooting sensation, Det-Sergt Willis, has died from the effects of his wounds. The undergraduate assailant died yesterday from a bullet wound in the head whilst the tutor was killed instantly from a bullet through his heart. The undergraduate was heavily in debt and went away from Cambridge nine days ago on a motor-cycle obtained on credit. He was being interviewed by the policeman when the tragedy occurred 30 06 04

1930 A London lady has thrown fresh light on the movement of the undergraduates involved in the double shooting at King's College. They had knocked on her door at three in the morning; their clothes were torn and dishevelled and they said they were down and out, having been walking about on the Thames Embankment. They told her they were in trouble at Cambridge, but

only through disposing of some property that did not belong to them. Both had pistols and said they would end things then rather than face fresh trouble, but she had dissuaded them. 30 06 04
1930 The Cambridge Chief Constable paid tribute to Det-Sergt Francis Willis who was shot by a Cambridge undergraduate. He was born in Haverhill and joined the Cambridge force in 1920 serving as a uniformed and a cycle patrol constable until appointed a detective. He had commendations for his plucky action in stopping runaway horses and was the officer concerned in the recent 'Mr H' blackmail case. He had the making of a really great policeman and his death was a great shock. 30 06 04

1930 Further revelations of the escapades of the undergraduate involved in the King's College shooting have caused University authorities to make searching inquiries into the habits of undergraduates. The lad had surrounded himself with an atmosphere of false romance; he paid frequent visits to the Bell Hotel at Mildenhall. The landlord's daughter described him as 'a very nice boy, but terribly eccentric'. He always came in second-hand cars, but never in the same car twice, and spent time playing the gramophone. He always left in time to get back to college before the gates closed 30 06 06b – SEE OTHER STORIES AT THIS DATE WHICH NOT TYPED UP

1930 Memories of Detective Ives who was with Willis – 55 08 09

1930 Under the Road Traffic Act Cambridgeshire has been allotted one motor car and three motor cycles to deal with the enormous growth of motor traffic. Such a force should be recruited from men best suited for the job but there is a limit to the number of tasks they can perform. This is another example of the Government forcing local authorities to make the new law work somehow. 30 12 06d

1931 2 mobile patrol vehicles supplied for borough police - motorcycle combination & solo motorcycle; they book lorries [3.5]

1931 A memorial tablet was unveiled at Cambridge Police Station to the late Det-Serg Francis Willis, who lost his life in the King's College shooting tragedy. The tablet, carried out in oak and bearing the Borough arms has been placed on the wall by the side of the Roll of Honour, at the foot of the staircase. The public had made a generous response to an appeal for the benefit of his widow and £625 had been raised with another £208 from police federations across the country. 31 01 16e

1931 Cambridge motorists were on their best behaviour when the Borough Police mobile squad went out for their first time. P.C.s Edwards and Ward are the permanent members of the squad, which is equipped with a fast motor cycle combination. The setting up of the squad has made several changes necessary. The new warrant office is P.C. Ives of the detective department and P.C. Brooks is Coroner's Officer. 31 01 23a

1931 William Carter joined the Cambridge Borough Police Force in 1867 and retired as Inspector in 1894. He had a vivid memory of the opening of the Corn Exchange in 1870 when undergraduates caused a disturbance and six were arrested. At their trial a mob gathered and dashed to King Street, the residence of the Mayor, John Death. But, headed by Carter, the police got there first and shut the gates. Missiles of all kinds were thrown and the fighting continued for some hours. Apart from a battered and torn helmet, Mr Carter was not hurt. 31 02 20j

1935 County police oppose appointment of women police constables - would cost £150-£200 pa & represent an inadequate return for the money; they will borrow one from Borough when needed [1.14]

1936 The Policewoman's Review includes an article in praise of policewomen by Cambridge Councillor Mrs Rackham. The main obstacles to an increase in their numbers are prejudice against women police constables and ignorance of the work they perform. 36 04 04

1936 Cambridge Police Force was established about March 1836 when it comprised a superintendent, two inspectors, eight sergeants and 24 constables. Now it consists of the Chief Constable, a Chief Inspector, three Inspectors, eight sergeants, 79 constables, two policewomen and the Fire Brigade which is made up of a sergeant and six men. Crime was much the same then as now: the 1837 report shows gas lamps were extinguished unlawfully and there was even a case of furious driving, the vehicle being a gig. 36 04 04

1937 The inadequate accommodation at the Fire and Police Station has now become serious. The proposed changes involve the complete demolition of the Chief Constable's house, garages, policewomen's office and the Remand Home in Downing Lane. There will be a basement for the storage of 320 bicycles and provision for eight motor vehicles together with a workshop with pit for repairs, petrol pumps etc on the ground floor. A flat for the sergeant in charge of the fire brigade will be needed together with a mess room and larder for 12 men, photograph room and offices for the chief constable, coroner and detectives. Above would be ten bedrooms for 12 single men with two bathrooms and various stores. 37 02 02b

1937 Proposed alterations to the police and fire station were opposed by councillors as it meant compulsory purchase of property belonging to St Andrews Street Baptist Church. The fire station could be moved to Maid's Causeway allowing the police space for the next 50 years. But there did need to be accommodation for constables – recently when a large number of additional men were required for emergency service the Chief Constable had to send motor ambulances and motor patrol vans to whip them up. 37 02 04a & b

1937 A number of Cambridge police officers have received promotion. Supt. Percy Sharman is in the 23rd year of service, Inspector S.J. Double, Serg W. Ainsworth, Det-Sergt A.E. Robinson, Sergts O. Cornwell, J.Kester, W. Edwards – 37 04 20a

1937 Cambridge police station is 'more decorative than useful', Inspectors report. The very inadequate accommodation is unsuitable for present day police methods. The building is out of date. The number of records that have to be kept has changed completely and there is no means of storing them. There is no proper place for interviewing prisoners, nowhere for officers to take their food and no provision for housing firemen or single policemen. To ensure communication between police and fire headquarters, they should be on the same spot and under the same chief. Butt Green was unsuitable as it was common ground so the cheapest and best place for a new station is at Parkside. 37 12 16

1938 New police houses, garages and recreation room at Shire Hall – 38 09 07 [3.4]

1938 The Inspector of Constabulary had stressed the necessity of creating a detective department so that up-to-date methods could be used for the investigation of crime, taking of photographs and keeping of records. But there were no available constables so two more should be appointed. Sergeants should have an increased allowance for the use of their own motor vehicles and bicycles. All members of the force, except one, are qualified to render first aid and the majority can swim, Cambs Chief Constable reported. 38 04 09a & b

1938 Plans for a new police and fire station on Parkside between Warkworth Terrace and East Road came before an Inspector. It was a central site with good access for engine and ambulances and suitable for future requirements. It comprised five houses with a pork pie factory behind. But owners, Peterhouse, did not want to sell. They were concerned about noise at night and some undesirable 'guests' at the police station reducing the value of adjacent property. 38 07 28

1938 Ex-Inspector Lazarus March collapsed while on his way to morning at St Paul's church. Born in 1854 at West Wrating, he came to Cambridge on joining the Borough Police Force in 1874. In April 1892 he was appointed detective-constable and, six years later, was promoted detective-sergeant. Then in April 1920 he obtained the rank of inspector, retiring a few weeks later when he received a public presentation from many friends who appreciated his work. He had lived in Covent Garden for about 50 years. 38 09 05b

1938 H.M. Inspector of Police had urged the creation of a detective department so that up-to-date methods could be used in the investigation of crime. But this would involve an increase in the establishment and is not justified at present. The two officers who have received training in detective work will be stationed in the least-busy sub-sections and be ready to help if their skills were needed. Other officers could also be trained, the Police Committee decided. 38 10 07d

1938 Cambridge Police Poor and Needy Fund ensures many needy families can enjoy a good Christmas dinner and plenty of coal. A large queue formed in Downing Place, young and old, they call carried baskets, jugs and sacks – even pillow slips. A huge pile of potatoes was in one corner and milk was handed out from churns together with butter, tea and cartons of peas. The Police Santa Claus No.1 (the Chief Constable) chatted with people as they came in. Then came a Distribution Day lunch of roast beef and Christmas pudding in the police station. 38 12 23

1939 The office of parish constable has been abolished in Cambridgeshire. They were no longer necessary for the preservation of the peace or the discharge of public business. They cost about £250 a year and every other county had abolished them. The county had 956 special constables and an additional 168 members of the Observer Corps. 39 07 07

1939 PC Brookes joined the force in January 1913 and for the first seven years was engaged mainly in plain clothes work with special reference to the campaign against the white slave trade. He also investigated the burning down of a house in Storey's Way when Suffragette troubles were at their height. Afterwards he spent time on cycle patrol, inspector of diseased animals and hackney carriages. Then he became coroner's officer and was engaged in three major tragedies – the King's College shooting affair, the five-fold shooting tragedy in Hinton Avenue and the death of a Sidney Sussex undergraduate. 39 07 20

1941 W.H. Edwards appointed Chief Constable Cambridgeshire in succession W. Winter – 41 06 21a

1941 Cambridgeshire Chief Constable W. Winter resignation due health – 41 05 19

1941 New County Chief Constable. — Mr. W. H. Edwards. Supt. of the Taunton Division, was appointed Chief Constable of Cambridgeshire, in succession to Mr. W. Winter. Mr. Edwards is 40 years of age. The appointment was made by the committee from a short list of three candidates submitted after the joint sub-committee had interviewed eight of the 22 applicants for the post. Two of the three final nominations were of men aged 33 and 29, both graduates of the Metropolitan Police College. Among the 22 applicants were five Chief Constables from other boroughs. Mr. Edwards' record showed that he joined the Somerset Constabulary in 1920, being appointed a sergeant in 1933 and ainspector in 1939. He has been superintendent of the Taunton Division since August last year. 41 06 27 CIPof

1941 P.c.'s Heroism. — "Although warned of the danger of unexploded bombs, P.c. Haynes persisted in going to the aircraft, where he did splendid rescue work, which resulted in the saving of valuable lives." These words are contained in a commendation by the Royal Air Force of P.c. Albert Haynes, of the Cambridge Division, for gallant conduct and exemplary behaviour when a British aircraft crashed and caught fire. His heroism was reported by the County Chief Constable (Mr. W. H. Edwards) at Saturday's meeting of the Standing Joint Committee, and it was added that the commendation had been promulgated to all members of the Force and "recorded in the

constable's personal record. The Chairman (Mr. W. C. Jackson) said the highest commendation was due to P.c. Haynes for his courageous attitude in saving the lives of several airmen 41 12 19 CIPof

1943 W.E.B. Vail, special constable, 70 – 43 02 20

1943 Chief Constable says goodbye. — The very great regret of Cambridge Borough Council at the retirement of the Chief Constable (Mr. R. J. Pearson) was expressed at yesterday's meeting by the Mayor (Ald W. L. Briggs). "We all regret," he said "that the time has come when we must part with Mr. Pearson. I think the resolution of the Watch Committee will be accepted by the whole of the council. I was a magistrate a year before Mr. Pearson was appointed, and I should like to bear testimony to his services." Twenty-five years ago, said the Mayor, the police force was in a very different position. It had now been humanised - Mr. Pearson in reply, said he had served under 26 mayors, "My retirement will be a very great wrench. All my life I had been a policeman, I was born in a police building, and I had gone all through the ranks. After service of 41½ years, I feel I ought to give way to a younger man 43 12 17 CIPof 43 12 03, 43 12 16

1944 New Chief Constable.—Mr. B. N. Bebbington, 33-year-old sub-divisional inspector of the Metropolitan Police, is to be the new Chief Constable of Cambridge in succession to Mr. R. J. Pearson Mr. Bebbington joined the Metropolitan Police in 1932, and after serving three years as a constable, was sent to the Metropolitan Police College at Hendon. He had served in different divisions, and had been appointed a sub-divisional Inspector at Tower Bridge 44 01 28 CIPof – photo – 44 02 02

1946 retain police powers under Police Act [2.14]

1947 On Saturday, after a quarter of a century of service to the public Sergt Policewoman Carnegie Brown, one of the pioneers of women police, goes into retirement and the Cambridge Force loses its senior woman member and the Cambridge public a well-known figure. The history of women police has evolved during her lifetime. One of the earliest policewomen in the country, starting at a time when women police were not generally recognised by local authorities, Miss Brown has done much to over-ride any prejudice that might have been held at the time and now has the satisfaction of knowing that women police are considered an essential part of the police service. In the early days women police did only welfare work, such as helping patch up matrimonial difficulties. Today they handle all matters connected with women and children who are involved in any way with the police c47 06 20

1948 fire & ambulance services previously undertaken by Borough police taken over by County Council [3.6]

1948 The Chief Constable's report for 1947 discusses the difficulty of getting recruits. He says: "A female civilian engaged in a clerical capacity in Local Government is paid 3s 1½ per hour at the age of 32 whereas a married man joining the police will at 32 be receiving 2s 9 ½ d per hour, and this figure includes his rent and boot allowance. In effect a married police constable may be working alongside an unmarried female typist in the Headquarters, doing a more responsible job

for 4d an hour less. If the civilian clerk was a man he would receive 1s 1½ d an hour more than the police constable c48 05 01

1948 An interesting feature of the Cambridge Accident Prevention Council exhibition is the relaying to the Guildhall of a commentary of the conduct of road users given from a police patrol car touring the town. Members of the public are invited to accompany the commentator in the patrol car. Though police radio is not yet in use in Cambridge special arrangements have been made to fit apparatus which will also be used when the general system comes into operation c48 11 24

1949 police & low pay - less than £5 a week [1.20]

1949 VHF wireless system introduced by County & Borough on shared basis, operational in 1950 [3.7,1.27]]

1949 A police radio network covering Cambridgeshire, the Isle of Ely, Huntingdonshire and Peterborough has come into operation. Now within a few minutes of any incident being reported the nearest cruising police cars can be speeding to the spot. Radio will help greatly in car theft cases, enabling descriptions of missing vehicles to be circulated in a few seconds over a wide area. The Fire Brigade is also in the scheme. The master station through which the whole scheme is controlled is situated at County Police Headquarters, Castle Hill, Cambridge c49 04 16

1951 Mrs Jean P. Silver has the distinction of being the first woman to be accepted as a special constable for Cambridge. She will be issued with a uniform and receive a course of instruction in police work generally. Her work will consist of help to regular policewomen, at office work, enquiries, matters affecting women and girls, and patrol duties. The Cambridge police force requires a limited number of women special constables. They must be over the age of 30, and physically fit c51 02 21

1952 police pillar box opens - messages passed to cars by radio [2.7]

1953 The Mayor (Ald S.T. Bull) formally opened the first two police houses to be erected in Cambridge. He said that some new recruits come from other parts of the county and they, like most human beings, marry and have families. There are three police houses in the area but they have no indoor sanitation. The new houses are easy to run, with light and pleasant room. There are 16 police houses being built and they will be sited at Walpole Road, Queen Edith's Way, Fulbourn Road and Coleridge Road. c53 03 17

1954 Cambridgeshire Police have been experimenting with a radio equipped motor cycle. The wireless equipment supplied by Pye Telecom gives the same facilities as that fitted to police cars. A patrolling motor cycle officer hears his call on the set; pulls up and then can receive his message through a loudspeaker, or alternatively through the hand microphone he uses for his own transmission. The range of the radio is sufficient to cover any part of the county. If adopted it would enable motor cycles to be used for many duties which at present require radio cars. CDN c 7.5.1954

1955 Cambridge police may use 'Vespa' motorcycles to combat the shortage of officers and reduce overtime. They are currently under-strength but by using police on Vespas on the outskirts of the city could increase mobility at a reduced cost. It would cost £1,440 to purchase eleven machines together with £300 for clothing and equipment and £600 for petrol but would enable a saving of £4,000 a year. 55 07 26

1955 Memories of Detective Ives who was with Willis – 55 08 09

1956 To some he is an enemy, to others a music-hall joke but to the vast majority of the public the village constable is a familiar and reassuring figure – the man who knows what to do when things go wrong. He attracts little of the glamour usually given to the C.I.D. or the high-speed radio-controlled precision machinery of his fellow-officers, yet he remains the most important man in the police service. But although he is so often seen pedalling along a country lane, the public idea of his full duties is very scanty. 56 10 12a b c

1956 If you have seen a street fight and want to report it or are a motorist lost in Cambridge and want to know your way, it is simple. You go to the nearest Police Pillar, open the door and pick up the telephone inside. At once you are in touch with the information room at police headquarters. The Mayor made the first ‘emergency’ call from the Police Pillar in Drummer Street and within minutes a sleek black saloon containing two stalwart policemen drew up. 56 12 04

1958 Harry Newell has served as a special policeman since the time of the General Strike in 1926. He has been on call at any time of day or night, has attended parades and been liable to mobilisation in time of national emergency. Now, at 68 years of age, he thinks it time to hand in his uniform. He still works regularly in his cycle and car hire business 58 03 01

1959 Cambridge Police hold an identification parade about four times a year. They invite members of the public who happen to be passing the station to take part or draw people from nearby places of employment where the management have agreed to co-operate. They need people as similar as possible to the suspect. If he has a wooden leg then the parade is lined up with their legs covered by a blanket and all wear eye patches if the suspect has only one eye. 59 09 17

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 For more than a year now, Cambridgeshire police patrol cars have been fitted with 35mm cameras mounted behind the windscreen. The photographs of road offenders in action have been used to obtain several convictions of careless drivers. Far more pictures are taken than actually used in prosecutions and constables are encouraged to use the cameras on every possible occasion. It also saves time waiting for a photographer to be sent out from Cambridge to record details of a road accident 60 07 01d

1960 A four day manhunt for ‘Gipsy Jack’ ended when he was found in a secret hideout inside his mother’s hut in the gipsy encampment near Oakington where he had been since he shot and battered a woman in the corner of a cornfield. Superintendent John du Rose of Scotland Yard realised the old railway carriage was shorter inside than out and pulled away a chest of drawers from an old wooden partition But ‘Gipsy Jack’ shot himself in the head with a shotgun before police could break in 60 07 18a 60 07 14 60 07 18 60 07 18a

1961 When at full strength Cambridge City Police Force numbers 161, including six women officers. New constables spend their first three weeks on night duty as this is the best time to get to know the district without the confusion of traffic or pedestrians. They patrol on foot in the busier areas and on bicycles further from the centre. An observant policeman on his beat notices small details such as the man with the bulky overcoat, the ladder that has been moved or the obvious unfamiliarity of a driver or motor cyclist with his vehicle. The main task during the day is maintaining an even flow of traffic, sorting out jams and directing motorists into parking spaces. 61 01 20a & b & c

1961 Cambridge Special Constabulary augments the understaffed police force in basic duties such as traffic control, first aid or patrolling a beat and are often on duty at May Races, Poppy

Day, Guy Fawkes Night and elections. They are not forced to give their services but do what they can when they can. Their average age is 43 years and they come from all walks of life. One spent time in the navy, another joined because a child was murdered near his home. All enjoy the companionship, meeting the public and feeling they are doing something useful 61 06 30e

1962 A former Grenadier guardsman and policeman has set up a personal bodyguard service in Cambridge. He and his staff will be available for bodyguarding 24 hours a day, providing a personal service as well as working for firms. The job does not necessarily mean guarding large sums of money: they also make the service available to people who live on their own and who need protection. For security reasons he can't say how many men he has on the staff or who they are. He himself is a former Isle of Ely policeman who won the military medal for bravery in the Italian campaign. 62 01 20

1964 identi-kit comes to Cambridge [4.2]

1964 With the words “V.Q.4 mobile”, a large car swings from the yard of Cambridge police station. But unlike television’s “Z-Cars” this V.Q. is inconspicuous. There are no flashing signs, bells or gongs and the two men inside are in civilian clothes. If you are walking the Cambridge streets in the early hours of the morning, the chances are they will pull up and ask what you are doing. Sometimes they spend so much time interviewing people they don't have time to travel very much. The job may not be glamorous but it helps prevent crime 64 02 10a

1964 special constables celebrate 50th anniversary – history – 64 11 27a

1864 Frederick Drayton Porter, Cambridgeshire's Chief Constable has 30 years experience and vivid memories of the 18 murder cases he has investigated in Nottinghamshire where there were 14,000 indictable offences last year. By contract in Cambridge there were 2,300 crimes, of which a large proportion concerned cycles. Traffic and parking is the major problem. Since the introduction of parking meters the movement of traffic is much better, but a policeman should be able to tell a motorist where to park, he says. 64 12 04

1965 drugs squad set up when drugs menace first began to emerge on streets [4.12]

1968 ‘Red’ Rudi Dutschke to Cambridge but Home Office refused permission stay; Maudlin came Cambridge to discuss but nobody give space except Leys where biggest security exercise ever to protect him [369.9.7]

1969 4-man drug squad, established 2 yrs [4.8]

1970 Garden House riot: police make truncheon charge against mob of undergraduates who surged forward pinning score constables against shattered plate-glass windows, £2,276 damage Garden House Hotel [369.22.12]

1970 move new HQ, closing St Andrews st & castle Hill [4.9]

1970 foundation of largest LSD ring in world laid in Cambridge, (ended up supplying 90% British & 50% world consumption, "Operation Julie", men convicted Feb 1978) [4.14]

1970 skinhead boys swarming again - may be ugliest season yet for worst of the thuggy cults to have risen in last 20 years; 1st reports violence late autumn, Dec 16 police set up mobile skinhead patrol; 3 coach loads of Lincoln supporters turned back en route Cambridge United [6.6]

1970 Parkside police station official opening – 70 10 09a

1970 Proctors not to attend student political demonstrations which take place off university premises; they will subject only to police and civil law – 70 10 13; students vote to end proctors – 70 10 13b

1971 police 'deliberate campaign against homosexuals' [6.1]

1973 United soccer fans go wild, 2nd week, 13 arrested [14.11]

1974 change name Cambridgeshire Constabulary [4.10]

1975 "Cambridge Rapist" convicted following attacks between Oct 1974 & June 1975 [4.5]

1976 police promise better liaison with gay community [6.2]

1978 "thin blue line halted rampaging city mob"; "in terms of quantity & quality Cambridge United have worst fans in the land" [15.7-8]

1979 Chief Supt Jock Proctor who did the most to contain the drugs problem in Cambridge retires from the police in December. In 1966 he formed a Drugs Squad to combat what was then a new and growing problem. Other agencies joined to set up a proper containment procedure which has been copied elsewhere. It was unheard of in those days for police, social workers and psychiatrists to meet together with addicts, parents and the clergy but soon a basis of trust was established and worried parents would take their youngsters to a police station for advice, rather than prosecution CEN 17.10.1979

1980 The Cambridge police Patrol Group was set up in 1977. It is allocated specific targets and is free to concentrate on them until the problems are solved. Following outbreaks of crime such as handbag snatching or stolen bicycles they will 'flood' an area in an intensive detection campaign. The results are impressive with 97 arrests in recent months and a drop of 400 in the number of crimes recorded last year coupled with an increase of 500 in the number of prisoners arrested. 80 01 23

1980 Cambridgeshire police will lose its cadet force and 35 extra officers it planned to cope with the increased population after £250,000 was cut from its budget. But this is half what had first been proposed. A 'frightening' number of police officers are leaving within two years of joining up; although it is a well-paid job young people today find the night duties and late turns upsetting 80 12 09

1983 Assistant Chief Constable Bernard Hotson is leaving the force after 37 years. He became internationally known as the man who led the hunt for the Cambridge rapist and also played an

important part in the conviction of the Buckden murderer in 1968. He joined the Metropolitan Police in 1946, transferring to Ely three years later. He became head of the southern section of the CID based in Cambridge. He has had a very distinguished career and his knowledge of the county is second to none 83 09 12 p13

1984 Parkside extension needed [4.11]

1984 Behind barred windows in Cambridge city police station there is an office that contains files on people of interest to the police and other branches of the security service. They are profiles of people who may have not committed a criminal act in their lives and are listed without their knowledge or consent. They include peace campaigners, trades union activists, journalists and civil rights organisers. Every foreigner coming to Cambridge must register at what is officially called 'The Aliens Office'. Its other name is the Special Branch Office, because that's what it is: all the information is made available to MI5 84 01 04 p13

1984 Twenty per cent of the Cambridgeshire police force is now away from the county helping control pickets at the Midlands coalfields. Five extra units, 110 men, leave today for Nottinghamshire, bringing to 200 the total number of county men involved in the operation. Four more are in Derbyshire helping to deal with the hundreds of miners protesting at pit closures. But Chief Supt Hardingham has no worries about local policing in their absence and can deal with all the situations which may arise 84 03 22 p1 [4.14]

1984 Cambridge is a city of fear because many police officers are being sent to the Midlands on miners' picket duties. At times there has been only one constable on patrol duty over the whole southern half of the city. Petty crime and vandalism is rising, councillors claim. Meanwhile Mrs Thatcher's arch critic Francis Pym made a bitter attack on the Government's handling of the strike at a News Literary Lunch 84 10 02 p1

1988 Cambridge Detective Agency operates from a home in Madras Road. In high-tech Cambridge industrial espionage is a danger every research company faces and domestic violence cases can turn very nasty. The most frightening job was to serve an eviction order on a group of campers in Thetford Forest. They were Hell's Angels with a habit of firing crossbow bolts through pub windows. But much of the work is tracing people, insurance investigations and divorce enquiries. The detective's wardrobe contains not only a pin-stripe suit but a host of disguises essential for surveillance such as false beards, moustaches and sideburns. When the agency started four years ago there were four private 'tecs in the city, now it is the only one. 88 02 18 & a

Station Road fire, 1897 07 07 p2 & 8th, p3 CDN

1897 There was a large attendance of the public when the annual inspection of the Cambridge Fire Brigade took place. The proceedings commenced with an inspection of the fire appliances, after which a drill for the raising of insensible men and carrying them to a supposed place of safety was gone through. The escape drill, carrying men down the escapes, bringing men off with ropes, hand-pump and bucket drill and jumping sheet drill was also gone through. The Mayor said that they would shortly be having the benefits of some more jumping sheets, which would be distributed over various parts of the town. No doubt those sheets would be a great protection to outlying districts for low houses c1897 10 12

1898 After a considerable period of immunity from serious fire outbreak, Cambridge was visited with a fire which, but for the prompt measures taken for its suppression, must have caused widespread destruction of property in the vicinity. The conflagration occurred at Mr Varty's cycle stores in Bridge Street. The cause is supposed to have been a large lamp which was hanging up in the shop falling to the floor and igniting. The building is a very old one and contains an enormous amount of timber and this, upon being seized by the flames, burnt rapidly and fiercely. A large number of bottles of lubricating and lamp oils in stock added to the conflagration. Some 60 bicycles which were stored at the back of the house, belonging chiefly to University men, were rescued, together with some horses stabled in a shed at the side of the house 1898 02 14

1898 Jesus college fire in rooms of undergraduate in third court. Room was filled with valuable furniture and large amount of unique china and pictures. The whole staircase will have to be practically rebuilt and what not damaged by fire was ruined by water CDN 1898 03 14

1898 A small fire occurred at the premises of Messrs Thomas Stearn and Son, photographers, at Bridge Street, Cambridge. The conflagration broke out in the darkroom and was probably caused by woodwork becoming overheated by gas. A considerable amount of photographic apparatus was destroyed by the flames, and some of the chemicals exploded with some violence in the heat. About 16 firemen turned out with a hose cart and three reels, causing no little excitement in the neighbourhood, but by the time they arrived on the scene the outbreak had already been extinguished by the inmates, by means of buckets CDN 1898 06 11

1898 Awful was the fate of an aged women residing in East Road Cambridge, on Saturday night. Her body was found scorched, blackened and blistered in her burning house. Every article of clothing was burned, and not a hair remained on her head. Those who saw it were sickened at the uncanny sight. As quickly as possible she was carried to a costermonger's barrow and covered up with the first things that came to hand, after which she was taken to Addenbrooke's Hospital. The fire brigade was hampered as the telegraph wires are set so low in that part of the town that it is impossible to run the fire escape along without catching the wires and causing not only damage but delay. In this instance the escape was delayed by catching the wires in Burleigh St c1898 09 04

1898 A fire in the daytime is infinitely easier to cope with than one of equal dimensions at night, when the circumstances are all in favour of the destroying element and against those who grapple with it. Messrs A W Redding and son, builders, Tennis Court Road, Cambridge, have been unfortunate victims of circumstance by which their workshops are practically gutted. Mr Redding was sitting quietly at dinner when a man rushed in with the news that the workshops had taken fire. He had once hastened to the building and seeing that there was some cause for alarm, communicated with the Volunteer Fire Brigade. Within a very few minutes the hose cart was on the scene. Under the command of Captain Greef no less than 20 fireman assembled. In the meantime two police constables had taken the police station reel to the premises and afforded material assistance in getting the fire under CDN 1898 10 05

1898 The normal quiet of Cambridge was interrupted by serious conflagration in Fitzroy Street which proved the most destructive to property that has occurred for many years. Cambridge is happily furnished with ample means of notifying outbreaks of fire, and it was through one of the electric alarms erected in various parts of the borough for immediate communication with the central fire station that the resident night watchman received an intimation that a fire was in progress. Telegraphic communications were without delay dispatched to the competent director of the Volunteer Fire Brigade and the majority of the corps. The wires running to those residing in and about Mill Road were unfortunately out of order, and seven of the willing firemen were therefore debarred from taking an early part in the work CDN 1898 10 24

1899 A fire which might have resulted in a very large amount of destruction broke out in Petty Cury, Cambridge. Mr Baynes, manager to Messrs Pollard and company, confectioners informed

police constable Leonard Savidge at 1.15am that his wife could smell something burning. It was discovered there was a fire at the back of the adjoining shop occupied by Mr George Jackson, butter merchant. The constable ascended to the roof but was unable to get into the yard. Mr Baynes obtained some buckets of water from a tap on the premises and handed them up to him to pour on the flames. Acting sergeant Wright on going into Caxton Court from Sydney Street, found a ladder by which means he got over the wall and there found that a butter barrel, containing a quantity of paper was on fire. There was a considerable quantity of empty boxes and other inflammable goods about the yard and if they had become ignited there would have been disastrous results 1899 01 18

1899 Another of England's picturesque country residences has been destroyed. A prettier spot than the residence of Mr W. Hall at Six-Mile-Bottom, it would have been difficult to find. In every way typical of an English gentleman's home it was regarded by pride. The house was on Saturday the scene of one of those fires which turn a quiet rural retreat into a scene of utter desolation. The maid noticed smoke coming out of the thatch close to the kitchen chimney. From all directions came help but it was too late to be of any avail - 1899 09 25

1899 Fire Hawkins bakery, Gold Street, - 1899 09 25 p2

1899 On Saturday night the cooks left the kitchens at King's college, as they thought, safe, but P.C. Witham saw smoke coming through the roof. For fully two hours the fire brigade had their hands full. The staircase is quite burned down and access to the cook's room above is by means of ladders. On Sunday morning the cooks went to prepare the usual meals and members of the college were served as if nothing out of the ordinary had occurred 1899 10 09

1900 Fire broke out at the rear of the premises of Messrs Laurie & McConnal, Fitzroy Street, Cambridge. An employee noticed smoke coming from stacks of brooms, a bag of feathers, a stock of confetti and other material in the cellar. The staff of the firm set to work to extinguish the blaze and by dint of the application of water from a line of buckets and from a hose attached to the water tap, the fire was practically extinguished before the arrival of the fire brigade. It is surmised that a match was dropped down the lift hole by a passer by, and so caused the outbreak c00 12 01

1900 A serious fire occurred on the premises of Messrs Coulson & Co., drapers at Peas Hill, Cambridge, and the flames were not extinguished until the entire stock of goods in the shop were completely destroyed. Captain Greef of the Fire Brigade arrived as did 14 firemen and nearly a dozen constables. The fronts of the shop were much damaged. The cause of the fire is attributed to the overturning of one of the incandescent burners in the shop window. CDN 1900 12 22

1901 fire and police stations open, St Andrews St [1.5]

1901 Great excitement was occasioned in the neighbourhood of Burleigh Street, Cambridge, by an outbreak of fire on the premises of Messrs Prime & Sons, the well-known firm of builders. The alarm quickly spread and only a few minutes elapsed before a tremendous crowd of people had assembled to watch the progress of events. It was obvious that the efforts of the firemen and police were somewhat hampered by the increasing density of the large throng of onlookers. The conflagration soon illuminated the whole of the district, the flames hovering above the housetops in alarming brilliance c01 02 02 [2.11]

1901 An outbreak of fire occurred at the works of the Cambridge Brick Company, situated between Coldham Lane and Newmarket Road on the outskirts of the densely populated district of Barnwell. The fire attracted large crowds and the flames, aided by a gentle breeze, spread rapidly, soon mounting in the air a distance of about a hundred feet. In just over two hours everything had yielded to the flames and all that remained was the damaged and broken parts of the valuable machinery. Fortunately the conflagration was confined to the corrugated iron roofed wooden building covering the machinery or the entire works could easily scarcely have escaped destruction CDN 1901 02 18

1901 The report of the Cambridge Volunteer Fire Brigade shows the number of calls received during the year was 20. Nine were received at the central station through the street fire alarms, two through the National Telephone Exchange system, eight by ordinary messengers and one by police constables. Senior fireman Fuller, having served upwards of 17 years has been made an honorary member, with permission to retain his uniform c01 02 22

1901 Cambridge Fire Brigade Committee received a letter from the clerk to Trumpington Parish Council asking whether and on what terms the services of the brigade could be engaged in case of fire. Grantchester Parish Council accepted terms for the attendance of the brigade in that parish on condition that the charge for the number of men sent should be limited to the number required. CDN 1901 05 16

1901 A fire occurred at St John's college, Cambridge and considerable damage was done before the outbreak was extinguished. The scene was the third court, where a bedroom and a sitting room on the top floor of the wing overlooking the river were completely burnt out. St John's college fire brigade were soon combating the flames which had secured a considerable hold upon the dry and inflammable material of the building and it is undoubtedly due to their efforts that the fire was not much more disastrous. It originated in the bedroom where a lighted candle was left on the chest of drawers CDN 1901 07 22

1901 Fitzroy Street fire, CDN 1901 09 16 p3 *

1902 Cambridge Volunteer Fire Brigade's new fire station in St Andrew's Street is in telephonic communication with different parts of the town through the National telephone Co and by means of ten fire alarm posts. There are three permanent salaried firemen on duty, one during the day, and two during the night. They have a double call bell to the stables of the Lion Hotel where there were two horses in readiness to be called out for the fire tender. It was contemplated to have a steam fire engine but how soon it would come it was not possible to say. CDN 1902 01 17

1902 A fire broke out in the women's ward at the top of the left wing of Addenbrooke's Hospital. In a very short time the flames secured a firm hold and the unfortunate patients had to be removed. Flames burst through the roof and worked towards the centre of the building. Nurses and probationers heroically entered the wards and brought their patients to a place of safety. Many scenes, tragically distressing, were witnessed. To such proportions did the fire assume that it was deemed advisable to remove other patients and several afflicted old men were brought to the lawn. The news of the outbreak spread quickly throughout Cambridge and some thousands of people gathered in front of the Hospital. The scene on the open plot of greensward in front of Addenbrooke's Hospital presented a curiously medley of hastily-improvised arrangements for caring for patients evacuated from the blazing building. Bed after bed, each with its living freight, was carefully lifted with stalwart arms and borne steadily to the quarters assigned to it in neighbouring houses. In the meantime the dull clouds of smoke rolling skywards from the Hospital gradually grew less in volume. The ceaseless exertions of the firemen were telling their tale and soon water pouring in a cascade down the staircase adjoining the blazing wing made it clear that the building was flooded to the extent that rendered the further spread of the fire improbable. The police report on the Addenbrooke's Hospital fire says they found a man at the top of a ladder with his head through the trap door leading to the roof of Victoria Ward, using a small hosepipe. Shortly afterwards the firemen arrived and after much trouble, mainly through the low pressure of water, got to work, but could not extinguish the flames before the roof and contents of Victoria Ward were destroyed. Police assisted to maintain order, regulate the traffic in Trumpington Street where there was a large crowd, and remove and restore patients, many of whom were in a fainting condition. CDN 1902 10 01-04

1903 fire destroys Laurie & McConnal's shop, Fitzroy St; was no fire engine although there were 6 hose reel carts & reels and escape placed at various parts of the town. They relied entirely on pressure from the mains, which was not good. Fire Brigade expected the whole street to go up

& considered wiring to London for an engine to be sent up by train but this would have taken too long. Leads to discussion of need for steam fire engine [1.25,2.2]

1903 An exhaustive test of the capabilities of a steam fire engine took place on the lawn before Addenbrooke's Hospital. At first sight the 'steamer' produced an impression of admirable workmanship and construction. For an hour and a half the mayor, councillors and a large gathering of the general public were absorbed witnessing how quickly steam could be obtained of sufficiently high pressure to start the engine. Blank cards were distributed for the insertion of the time at which smoke issued from the chimney and with these in one hand and watches in the other they stood watching. When up to pressure a great volume of water was thrown above the roof of the Hospital c03 01 28

1903 Messrs Laurie and McConnal are almost universal providers, for their extensive premises, nos.121-124 Fitzroy Street, contained many departments. Today they are no more. In their place is a great gap, a space which instead of containing the thousand and one articles wherewith to furnish the homes of Cambridge has nothing to show but heaps of charred timber, twisted iron girders and dismembered masses of masonry. The whole premises have been destroyed as completely as fire can destroy. In less than three hours they licked up goods and buildings valued at up to £100,000 c03 02 17

1903 Many thousands of Cambridge people witnessed the spectacle of the fire at Laurie and McConnal's in Fitzroy Street. The crowd increased to gigantic proportions and to keep them in check it was necessary to stretch ropes across on either side. The Mayor, Aldermen and members of the Fire Brigade Committee watched the progress of the fire and the unremitting efforts of the firemen. The interested crowd did not let the firemen work without encouragement and the fireman with the nozzle working in clouds of smoke was cheered heartily when he commenced his task. As soon as the hopelessness of saving Lauries was recognised special attention was turned to defending the adjoining premises of Messrs Sturton and Mumford. c03 02 19

1903 After the great fire in Fitzroy Street, Cambridge, public opinion was strongly expressed in favour of the Volunteer Fire Brigade being in possession of a steam fire engine. It would require, with driver and stoker, eight men to work the engine and, with reliefs of the same number, would necessitate 16 men being engaged. But with only one engine they would have been able to play four jets on either the front or back of the fire, and one side would be entirely unprovided for. The engines and paid brigade would be so expensive that the town authorities would not be justified in incurring the outlay for protecting the few buildings at which they might be necessary. c03 02 20

1903 A fire broke out in a storehouse at Messrs Lincoln's premises in Sidney Street, Cambridge; a quantity of petroleum became ignited and the fire assumed dangerous proportions. Three hydrants were quickly at work with hoses were taken through Trinity College and directed from college windows. But as the water streamed along the floor oil settled on the surface and becoming ignited created an effect of running streams of flame. At the time of going to press the fire was still burning but has been sufficiently subdued to enable some of the goods in the store-room to be removed. There were over 100 gallons of petroleum in store. c03 12 01

1904 fire at Corporation property Peas Hill, used by Bell as corn merchants premises [2.4] - CDN 3.6.1904

1904 Cambridge councillors considered the purchase of a steam fire engine. The two fires at Addenbrooke's Hospital and Fitzroy Street were bad, but took place under favourable conditions – in the first the wind took the flames away from the Hospital and in the other there was a brick wall, instead of lathe and plaster. Since then there had been two other fires, in Sidney Street and Rose Crescent which might have resulted disastrously. In the centre of town whole blocks of buildings might be burnt down. The only additional expenditure would be the cost of an engineer. But the Fire Brigade did not want one and they ought to know more than councillors. CDN c 22.1.1904

1904 A fire destroyed Mrs Cornell's fishmonger's shop on Mill Road, Cambridge. It was caused through the ignition of some fat used for the purpose of frying fish. Although the shop was sparsely stocked there was sufficient inflammable material in it to make it impossible to arrest the fire in its early stages, and soon the interior was a mass of flames which rapidly penetrated through the ceiling and attacked the contents of the front room on the first floor. The alarm was given by means of the Thoday Street fire alarm and the firemen arrived within twelve minutes with the horsed fire escape and tender and prevented the flames attacking adjoining premises.

1904 05 18

1904 Cambridge Fire Brigade committee reported on the provision for extinguishing fires in large buildings and the cost of maintenance of a steam fire engine. They visited the University Library where regular fire brigade drills took place regularly, but there was no special provision for the escape of work people from business premises except in one instance where a canvas shoot had been obtained. A fire engine would cost less than £200 a year, which was less than that paid for the police imported on the occasion of the King's visit to keep order for a single night. But there was not space at the fire station to accommodate it and most of the large buildings were protected by means of private fire appliances. 1904 05 19

1904 Cambridge Library committee referred to the recent fire on Peas Hill and the destruction of the premises adjacent to the library. But for the skill of the fire brigade the reading room must have been destroyed and the contents lost. The accumulation of books, pictures and scarce literature could never be replaced. Now the old dilapidated buildings should be cleared away and a more appropriate building erected. Next year they would celebrate the jubilee of the opening of the library and the appointment of Mr Pink as Librarian. The Library Association should be invited to hold their annual meeting at Cambridge, free of charge. 1904 06 16

1904 Up to last night there was a cluster of buildings, workshops, tool-sheds and fowl houses at the apex of a triangle formed by property facing Mill Road, Hemingford Road and Belgrave Road, Cambridge. Today nothing remains but a heap of charred timber and twisted iron. Fire has made a clean sweep of the evidences of industry of several inhabitants and caused damage of about £250. Mr G. Woolfenden, an electrician, has lost a workshop. Most people living in the three roads have a wooden erection of some kind at the end of their gardens and those burnt down stood side by side or back to back in an area covered by 20 square yards. CDN 17.11.1904

1905 An outbreak of fire occurred at the premises of Messrs Hallack and Bond, wholesale grocers, Petty Cury, Cambridge. About 11.18 pm smoke and flames were discovered issuing from a store room. The alarm was at once given and the horsed fire escape, tender and hose cart were soon on the scene. With the aid of one hydrant, the inmates of the building and the firemen succeeded in extinguishing the outbreak just in time to prevent a serious conflagration 05 05 02b

1905 Ely council debated whether to acquire a steam fire engine. Messrs Merryweather's estimate was £314 and they were willing to allow payment to be spread over three years. But they would have to build an engine house. Cambridge had many more valuable buildings and they did not think it worth having one. Many ratepayers felt it was not required; they had a system of hydrants and a very good pressure which would reach any ordinary building without an engine at all. But several shopkeepers said they should have one. 05 07 08a-cm

1905 Coe Fen was the scene of an interesting fire-extinguishing demonstration by the Valor Company. A light wooden erection had been constructed coated by three gallons of tar and a shavings and straw saturated with motor spirit was heaped around. It was ignited by a match and with such violence did the flames break out that the watching crowd was forced to fall back. The representative brought the appliance into operation and the fire was subdued in about 25 seconds. 05 07 15dd

1906 steam fire engine acquired; also buy a smoke helmet linked by 95 feet of hose to bellows so firemen can stand in smoke to fight fire [2.5,1.6]

1906 Fire gutted the Mill Road Boot Stores adjoining St Barnabas Church, Cambridge. The flames rose to a great height and melted some of the lead of the windows of the church. The building was a one-storeyed erection, largely composed of wood. A number of wooden packing cases at the rear formed a source of danger as they connected with a thatched cottage and a stonemason's yard adjoining was also seriously placed. 06 01 0

1906 A fire broke out in the roof of Addenbrooke's Hospital and extensive damage by fire and water has been wrought. A laundry maid saw wreaths of smoke above the roof of the operating theatre. The staff devoted themselves to the safety of the patients; those who could walk were hurriedly clad in warm wraps and led down the emergency staircase down which the more infirm, some on stretchers and some in their beds were carried. A similar fire broke out in October 1902. 06 01 06a-c

1906 Steam fire engine approved – 06 02 22a

1906 The smoke helmet purchased for the use of the Cambridge fire brigade is similar to a diving helmet. The upper part is made of still glazed leather fitted with square eyeglasses, the lower part is buckled tightly round the neck. Two tubes are fixed to the mouthpiece attached to a bellows worked by a colleague, which supplies a continuous current of fresh air. There is also a speaking tube. It will be useful for entering rooms filled with smoke as well as sewers and wells where foul gases may be encountered. 06 03 24a

1906 Cambridge councillors compared costs for a motor propelled steam fire engine against one pulled by a horse. They had approached insurance companies for a contribution towards the capital expenditure but they replied that it should be paid from the rates. It was proposed that a horse-propelled fire engine should be obtained from Messrs Shand, Mason and Co, at a cost of £410 06 05 17a

1906 Cambridge fire brigade undoubtedly saved a portion of King's Parade, St Edward's Passage and Peas Hill from destruction by fire. There are numerous old houses, warehouses, sheds and outhouses of all descriptions, many constructed chiefly of wood. It broke out at Mons Buol's bakery, 17 Kings Parade; the bakehouse was gutted and hundreds of pounds of chocolate, almonds and sugar damaged. 06 08 07

1906 A demonstration of the capabilities of the new steam fire engine attracted hundreds of townspeople. It is a double cylinder variable expansion type made by Shand, Mason & Co., generating steam by oil fuel resulting in the complete absence of thick smoke and sparks. Water drawn from the stream in front of Addenbrooke's Hospital was thrown high above the roof of the building. It was then moved to King's Parade and threw water 20ft above the flagpole of Gt St Mary's church. 06 08 09a

1906 Balsham fire – why Cambridge brigade did not attend – 06 08 27

1906 Chesterton fire brigade gets horses from Castle Hotel for fires like Balsham – 06 08 28

1906 'The Sleepless Watchman' – the Leslie-Walker Fire Detector – was demonstrated at the Victoria Assembly Room. It ensures that no fire may occur without warning being speedily given both to the occupiers and the fire brigade. The detector is a sealed glass partially filled with mercury which is fixed to the ceiling. Should the temperature rise this expands and completes an electric circuit which causes a bell to ring. It resets itself automatically and is ready to report another outbreak. 06 12 13

1907 fire destroys Pitt Club dining room, stewards room & offices & staircase; is new engine's first baptism of fire, pumped for 2 hours once hydrant thawed [4.5]

1907 Cambridge fire engine sent by rail to Bishops Stortford to fight fire there [2.7]

1907 Firemen fought a blaze in the roof of house in Rose Crescent. Underneath was the Modes and Ladies' Outfitting Establishment, carried on by Miss Hutchings and a large quantity of her

stock was spoilt by the streams of water. After the fire was out the assistants were kept busy in removing hats and other goods from the shop. 07 10 12

1907 A fire occurred at the Fitzroy Street premises of Messrs Sturton. The possibilities of a similar conflagration to that which occurred at Laurie and McConnal's establishment a few years ago seemed probable for close by were a large number of paraffin barrels and tanks containing oil. Capt Greef and 20 firemen were soon on the scene with the horsed fire escape and the steam fire engine was got out in readiness. But their services were not required as P.C. Gee, assisted by several civilians, extinguished the flames. 07 10 15a

1907 When the Cambridge station Night Inspector heard of a fire at Bishops Stortford he despatched telegrams summoning workers from their homes. A truck specially designed for the conveyance of the fire engine is always kept ready but the engine itself is kept unmounted, ready for local fires. Within an hour a special train comprising a locomotive, the fire-emergency truck and a brake van was thundering down the line as, on board, a little band of half-a-dozen men busied themselves with preparations for the grim contest that lay before them. 07 12 07

1908 fire engine arrives at Christ's College fire pushed & pulled by firemen, horses come later - "need motor engine or own horses, otherwise money spent is all wasted for sake of efficient motive power [3.13]

1908 rings under eaves of houses – for fire? – 08 02 26 & a

1909 Fire broke out at the Ladies Training College in Wollaston Road. Very fortunately the vacation had denuded the college of students and only Miss Ellis, the Bursar, and six domestic servants were in residence. Hastily snatching up dressing gowns they scurried out of the burning building by the servants' staircase at the back. Firemen tied handkerchiefs over their mouths and nostrils and the smoke helmet was used for the first time. Considerable damage was done but the college may find consolation in having a building remaining at all 09 04 09

1910 A serious outbreak of fire took place on the premises of John Jarvis, horticultural builder of Hills Road, Cambridge and a large carpenter's workshop which backed on to the stables of the Warwick Hotel was burnt to the ground. It had been filled with wood and a fire was always kept burning to boil down glue. The brigade was soon on the steam but the engine had such a short run it did not have a chance to get up steam. When the water did come the flames had abated. A group of those ever-invaluable little mortals, the Boy Scouts, rendered valuable assistance in keeping back the crowd and helping with the hoses 10 10 21

1910 A Clare college undergraduate, Mr R. Chadwick Leach, had an exciting experience early on Saturday morning, his sitting room burning fiercely while he was fast asleep in the bedroom adjoining. The fire was discovered by a bedmaker who called some undergraduates and they at some risk to themselves roused Mr Leach from his sleep. The rooms on 'C' staircase comprise a bedroom and sitting room which are made secure by a door on the landing. He went to bed about midnight, leaving a small fire in the grate. The contents of the sitting room were completely destroyed and the damage must be considerable 10 10 28a

1910 The new motor fire tender is the very latest and embodies a number of new features. As well as a 45-foot fire escape it can carry seven firemen and a complement of life-saving equipment including smoke helmet, jumping sheets and 1,200 feet of hose. The acetylene headlights can be lit from the driver's seat while the vehicle is travelling by simply turning on the gas and moving an electric switch. Its extreme handiness, the rapidity with which it can be started and the speed at which it can travel – up to 30 mph - will render it of the utmost value. 10 10 28c

1911 Market Hill fire – 11 03 24a

1911 Great excitement was caused in Hooper Street by an outbreak of fire in the stable and warehouse behind Mr Wheeler's shop. The lean-to erection built against some cottage property contained goods of an extremely inflammable nature and there was quickly a blaze of alarming

dimensions and intensity. Police sergeant Leonard Savidge ran for the Mill Road hose reel and firemen arrived with the motor tender. Happily there was no horse in the stable and the paraffin tank was not touched by the flames 11 05 26i

1912 The biggest fire seen in Cambridge for nine years broke out at Clement Johnson's rope, sack and tarpaulin factory facing the railway station. The building was completely gutted. The walls which must have been very strongly built when the factory was erected nearly 50 years ago, remained intact, but everything inside - sacks, ropes, twine, tarpaulins and marquees - was totally destroyed. Mr Johnson knew nothing about the catastrophe until he left a train and walked out of the station when he saw the whole factory ablaze 12 02 16f & 16a, biggest since Lauries [2.10]

1912 A splendid test of the safety of the New Theatre in the event of an alarm of fire was carried out on Saturday night when it was found that 1,400 people passed from the Theatre in less than four minutes. The audience had no knowledge that a test was taking place and the staff had no orders except to throw open all auditorium doors and emergency exits. The house was crowded to its fullest extent and, as it was pantomime week, there was an exceptional number of children. The result is of particular interest as the New Theatre is to be used periodically as a cinematograph and variety theatre in which people are needlessly nervous of fire 12 01 19b

1912 Sir - Cambridge Corporation have instructed all persons in the out-lying parts to telephone the Central Fire Station in case of fire. We in Chesterton are in a very awkward position. We have no telephones for public use. The nearest fire alarm post is at Quayside and one would have to walk, run or cycle there, and then fumble about in a very poor light trying to find out how to work the apparatus. We need a telephone call office instead. A doctor might be sent for, goods ordered from various tradesmen or one might even ring up his best girl - Philip Clare 12 04 19f

1912 Chesterton Road was the scene of a very remarkable fire. A motor lorry belonging to Messrs Sturton of Fitzroy Street, laden with cans of petrol was totally destroyed. The highly-inflammable spirit became ignited and a fire of extraordinary fierceness blocked the road with a sheet of flame. Can after can exploded flinging its contents in a blazing shower in all directions. The flames leapt to an astonishing height, reaching above the tops of houses and were accompanied by volumes of black, oily smoke. The paint on the door of a house on the river side began to blister and trees in the garden began to shrivel and smoke. It was impossible for the fire brigade to get near and it had to be left to burn itself out 12 09 27

1912 Cambridge Prison warden, C. Corby - interesting reminiscences of 30 years - 12 09 06l & m

1913 Two fires attributed to suffragettes occurred in the small hours of Saturday morning in the newly-completed houses in Storey's Way. One was almost completely destroyed but the other, being erected for the Balfour Professor of Genetics, was extinguished before much damage was done. In it were found clues which led to the arrest of a Norwich school teacher. One was a gold watch and the other blood stains on the broken glass of window. The suspect had a cut on her finger 13 05 23 p7 & 8 CIP [1.11]

1913 A blaze broke out at Messrs Macintosh's foundry in Thompson's Lane. After the day's work is done the men draw the furnace to allow the fire to die out. When this is done huge sparks fly up, giving the impression that the place is on fire. But one of these sparks was blown on to the roof and set light to a beam. Had it been left the entire premises would have burnt down. But firemen, aided by undergraduates, put it out. 13 05 30 p11 CIP

1913 Peterhouse kitchen fire 13 06 20 p8 CIP

1913 At the Assizes the top gallery was filled with women when a suffragette was accused of setting fire to a house in Storey's Way. She denied having started the blaze but had been at the site and dropped her watch. It was identified by her uncle, a Norwich policeman. Pink flannelette smelling strongly of paraffin had been wound round a ladder and set alight. Her coat smelled of

paraffin. She asked the jury: "Do I look like a person who would go about with flannelette and cans of petrol and set fire to houses". She was convicted. 13 10 17 p8

1913 The Fire escape and engine responded to the alarm of a blaze at St John's College where they found a bonfire burning in second court to celebrate the victory of a rower in the Colquhoun Sculls. Fireworks were discharged and a crowd gathered to watch the glare through the chapel windows. Later a fire broke out in a wicker chair in an undergraduate's room. It is thought a spark from the bonfire may have blown through the window, or a lighted cigarette dropped in the chair. 13 11 21 p11 CIP

1914 Under the proposed new regulation every cinematograph house should have a fireman in uniform to take precautions against fire and attend to the appliances. But when the Cambridge Picture Playhouse was built on Mill Road it met all the regulations and they had blankets and appliances with a fire drill each week. To have a fireman in uniform would be expensive and was apt to produce a panic in the even of a fire, magistrates were told 14 04 10f

1914 Disastrous Fire Messrs. Watts and Sons Ltd. Newmarket Road ... works, which include timber sawmills, drying sheds and kilns, were almost entirely destroyed by the flames, and the damage to property is estimated at several thousands of pounds 14 07 24 CIPof [1.23]

1914 Warehouse Fire Gwydir Street at Robert Charles Brown's warehouse and yards. Mr. Brown held a large stock of paraffin and other oils, matches and general stores, and in the warehouse were five loaded vans and a pony trap. The contents of the warehouse were completely destroyed and the premises were gutted. 14 04 17 CIPof

1914 Fire broke out in the warehouse and yards of Robert Brown, 32 Gwydir Street. The stock which caught fire consisted of paraffin and other oils, matches and other general stores and five loaded vans and a pony trap were completely destroyed. The warehouses were built from tarred boarding and adjoined the house. Fives horses were stabled at the back of the premises and helpers pulled down a fence to get them out, placing them in Mr Cock's stables. Stock which could be reached was thrown into the street and policemen controlled crowds of spectators numbering several thousand. 14 04 07b & c

1914 Fire at Trinity College on the third and top floors of L block in New Court. Prompt measure were taken to cope with the fire, college porters attaching a hosepipe to the hydrant and directing a steady stream of water on the flames. The Fire Brigade were called and 20 firemen were in attendance. The upstairs rooms became fiercely ablaze, and the flames attacked the landing of the staircase. The room was completely burnt out and a hole was made in the roof. The fire penetrated to other rooms in K block of buildings and two sets were destroyed and the roof was considerably damaged. Other rooms were damaged by heat, smoke and water. 14 12 11 CIPof

1914 The whole of the Watts' Timber Yard on Newmarket Road., including sawmills, drying sheds and kilns were destroyed by fire. The blaze started in the stoke hole from which flames spread to the engine room and brick-making shed adjoining. The saw-mill nearby, containing a lot of wood, was soon alight and the wind blowing from Newmarket Road swept the blaze to the drying sheds and kilns where workmen removed the bricks. The tall chimney was expected to fall at any moment but the gable end of the saw-mill fell outwards, just missing firemen standing beneath it. However sheds holding valuable stock of flooring boards were put out. 14 07 24 14 07 31

1914 Thompson's Lane fire, St Clements Gardens 14 08 21 p3

1914 A serious fire broke out in New Court, Trinity College. One room was burnt out and a large hole made in the roof; others were damaged by heat & smoke 14 12 11

1915 An outbreak of fire occurred in the narrow three-storied block of buildings forming one end of St Tibb's Row and stretching from St Andrew's Hill for some 20 yards as far as the back entrance to the Lion Hotel. Several soldiers and the New Museums Fire Brigade helped fight the

flames which had spread rapidly along the false roof and ceiling of the top storey from room to room. It originated in the brush factory occupied by Mr Barham where household brushes are manufactured after the contents of a tin of paint were spilt by a boy on a lighted gas ring. The factory was burnt out and part of the roof collapsed. Premises of Mr J. Biggs, robe maker also suffered severely 15 03 05

1915 Gwydir Street big fire premises Henry Ambrose builders paint shop 15 04 20 p7

1915 Fires at Cambridge. — The Fire Brigade received three calls to borough fires during the past week. In the early hours of Wednesday morning they were called to a serious outbreak in Fitzroy Street, and on the following day they were called upon to pay two visits to the London and North-Western Railway, where an engine shed had caught fire. Only the alertness of a police constable prevented something in the nature of a catastrophe in Fitzroy Street. Three business premises were involved in the outbreak. The fire, it appears, originated in a shed, situated at the rear of Messrs Peak's stores and used as a warehouse for the storage of empty boxes. The large quantity of wood caused the flames to ascend to a great height, and set fire to the middle room of Messrs. Peaks' stores. The flames then appear to have travelled along a beam over Mr. E. Rouse's premises and joining the stores on the New Square side. Considerable damage was done to both shops, both by the fire and the water. Premises occupied by Mr. Waller were also damaged, the staircase being badly charred and the roof ruined in one place 15 09 03 CIPof

1921 Caius College fire in rafters – 21 08 17c

1925 Two fires caused damage to the extent of thousands of pounds in Cambridge and both are believed to have been caused by fireworks. It was particularly unfortunate that one occurred a few moments after the other, for the second was a much bigger conflagration than the first, and the fire engine was not then available. The first was to a corn stack in Natal Road but the other was at Messrs Kidman & Sons' wood factory yard and workshops in Abbey Walk. The outbreak occurred at the end of the building nearest the Coldham's Common allotments, but it quickly spread along the rafters and within ten minutes there was no earthly chance of saving the building. The roof of St Columba's Mission Hall was soon alight and the outskirts of Simper's rope works also began to blaze c25 11 07

1927 buy 2nd motor engine - Dennis 300 Gallon light type engine & 1staid attachment, can be put to use before hydrant coupled up[2.1,2.3]

1927 Compared to other towns Cambridge is badly off for fire equipment; we have only one motor fire engine whilst other places have two or three. The Chief Constable has recommended

the purchase of a new “Dennis” 250-gallon Light Type Engine at a cost of £880. It will be more useful in the narrow streets than a larger type whilst the “First Aid” attachment can be got to work so expeditiously that small fires would be put out before the main hydrant could be coupled up. Will the council be convinced or will the question of pounds, shillings and pence be uppermost in their minds? CDN c 27.2.1927

1929 Hills Road blaze – private residence – CDN 28.8.1929

1929 A serious fire broke out at Caius College, Cambridge. Two rooms in Tree Court were completely gutted and others badly damaged. Policemen attracted by the blowing of a whistle in Trinity Street got a hydrant in the courtyard to work and the Fire Brigade was quickly on the scene but the inside of the building was almost a furnace. The fire was quickly got under but not before considerable damage had been done, including the falling in of a large part of the ceiling. The firemen experienced bad conditions owing to the intense cold, the water froze on their clothing and icicles were left hanging from the ledges CDN c 20.2.1929

1931 A fire was discovered in a gable of The Grove, Fordham; the damage was not great. The brigade cannot discover any cause of the outbreak. It is a part of old Cambridge folk lore that a fire always follows if a hare runs down the main street of a village. The week before a hare did run down the street at Fordham. It was perused by Mr Richard Nicholls, a septuagenarian, and was killed in a shed within three yards of the place where this fire broke out. 31 04 03m

1931 Fire completely destroyed the Rendezvous Cinema and Dance Hall at Magrath Avenue, Cambridge. The only part left standing is the fireproof operating box, which is really a separate structure. Staff removed 12,000 feet of film which, if reached by the flames, might have caused a serious explosion. The most spacious dance floor in the Eastern Counties was reduced to charred bits of wood. Renovations and improvements to the dance hall lounges were nearing completion and were to be opened as a special attraction. 31 07 17j & k

1931 A big fire destroyed four cottages beside the Chequers Inn off High Street, Cherry Hinton. They were of lath and plaster and thatch and blazed fiercely, though the fire brigade were summoned they were unable to do more than keep the fire from spreading. Only one of the cottages, which were owned by Mr Smith, a baker, and were the subject of closing orders, was occupied. The village turned out in large numbers and neighbours managed to get most of the furniture from the ground floor. 31 09 18c

1933 1933 Two sets of new apparatus for the protection of firemen against fumes, smoke and all kinds of poisonous gases have been acquired by the Cambridge Brigade. It consists of a cylinder of pure oxygen inhaled through a mouthpiece connected with a bag which purifies the exhaled air by passage over caustic soda. The oxygen lasts for an hour. They will be kept on one of the fire engines for use in any emergency. 33 03 10

1933 Portugal Terrace fire – 33 05 11

1933 Near midnight one of the fiercest fires in Cambridge for years partially destroyed the Baron of Beef, a modernised public house in Bridge Street. The premises were rebuilt only last year at a cost of between £4,000 and £5,000. The scheme involved the demolition of four old cottages and three others were destroyed to make room for the new garages. [CIP 6th October 1933]

1934 Cambridge’s new fire engine, built by Messrs Merryweather, has a maximum speed of 48 mph. It carries an all-steel 85-ft ladder which can be extended in 30 seconds. At the top is a

telephone to enable the fireman to communicate with the ground. Provision is made for four powerful fire-fighting jets of water 34 08 27

1934 Ye Olde Castle Hotel in St Andrew's Street was devastated by fire. Every fireman and policeman was called from other duties as smoke billowed from the gabled windows leaving people gasping at its pungency. Staff and volunteers busied themselves removing furniture. The Hotel ranked as one of the oldest inns in Cambridge, dating back to the 13th century. It was reconstructed about 1620 and the last extensive additions were in 1891. It is doubted whether it will be possible to restore the damaged parts of this historic building. 34 08 16 [1.2, 1.13]

1934 Thousands packed the area around Mill Pool and gathered on Silver Street Bridge to watch a demonstration of the new fire engine. The most thrilling display was lifesaving by the Davey apparatus as 'victims' were lowered from the roof of the Mill Lane Examination Rooms. The only flaw in the organisation was that the spectators were not warned when the water tower was set in use with the result that many, especially women and children, had a soaking. 34 09 28

1935 Fire destroyed the Evelyn White drapery shop in Fitzroy Street shop and the owner and his wife escaped in their nightclothes, with only a coat thrown over them. All that remains is a tangled mass of debris, blackened and ruin by the flames. Here and there the remnants of a dress could be recognised but everything was burnt beyond repair. Flames also threatened Norman Bradley's shop next door: the thin dividing wall was scorching and might have flared up at any moment. Firemen were kept fully occupied in keeping smouldering materials from catching again and were badly hampered through the insulation having been burnt off the electric light wires, several received electric shocks before it was decided to have the current cut off at the main. 35 01 22

1935 Houses were threatened when a line of flame swept three-quarters of a mile of land from Trumpington to Hills Road. In Long Road helpers beat desperately at the flames to prevent them spreading along the hedges to the gardens of near-by houses whose residents used garden hoses to dampen them down. Dozens of rabbits raced wildly over the charred ground and a leveret was turned into a living mass of flame. The verge caught alight, clouds of white smoke making it impossible for passing traffic to pass at more than a crawl. Vehicles were diverted via Cherry Hinton and all available police were mobilised to control the traffic and help fight the fire 35 08 12

1935 Peterhouse – the oldest Cambridge foundation – was threatened by a fire which broke out in a staircase in Gisbourne Court early in the morning. The Master, Sir William Birdwood (70) was one the scene from the start and did not leave until everything was safe, two hours later. Staircase H which contains six sets of rooms, was extensively damaged and several hundred books ruined. Its cause remains a mystery for the staircase, which is not far from the old Noah's Ark staircase, has been unoccupied since August 35 09 14b

1936 James Street was the scene of one of the most serious blazes Cambridge has experienced in years. It started when a Ford van caught fire at the premises of William Scott, house decorators, builders, motor and coach painters. It spread to their motor-body room where a number of cars were in for renovation. The place was soon a veritable inferno as drums of paint and oil exploded. Flames engulfed ladders and handcarts belonging to the Cambridge Window Cleaning Company then Messrs Pate's builders workshops which were reduced to ashes or scrap. The damage must run to many thousands of pounds 36 07 15 & a

1936 Old buildings at the back of shops opposite the 'Blue Boar' in Trinity Street caught fire. This is one of the densest areas with much valuable property including several college buildings. Trinity College fire-fighting appliance tackled the blaze from the back and the brigade's water tower fire engine was soon at work. Onlookers had a laugh when a frightened mouse was seen running along the pavement among the hoses. But the storehouse at the rear of Roper's shop was burnt out. 36 08 15

1937 Fire broke out at English Bros' timber yard in Newmarket Road; soon timber stacks, some of them 25 feet high were blazing with over half-an-acre of crackling 70-foot high flames. The Gasworks were far enough away but at Nightingale's garage a number of petrol lorries were in the danger zone and were moved. All three of the Brigade's engines were called into service but it was 13 hours before they were able to return to the station. A timber-drying shed was completely destroyed, a saw-mill damaged and a lorry completely burnt-out. 37 01 18

1937 Marshall's Aerodrome's special fire engine meets Air Ministry specifications for fire, first-aid and crash equipment. It is finished in fire engine red and black, the front seats are upholstered in best selected black hide and fitted with outsized fire and alarm bells. It is designed to meet any possible emergency with an impulse magneto which, together with the dash carburettor flooders and emergency gravity feed petrol tank ensures instant and easy starting in all weathers. 37 04 30

1937 An undergraduate of Peterhouse, Cambridge's oldest college, awoke coughing because of smoke and rushed through his burning sitting room to report the outbreak. Another occupant on the same floor attempted to put out the fire assisted by Mr S. Wilderspin, a porter. The Fire Brigade cut away floor boards to extinguish the blaze caused by a defective fire-place. The whole of the floor together with furniture and a wireless set was ruined. A club room beneath, situated in one of the oldest parts of the college dating back to the 15th century, was damaged by water. Another blaze of a much more serious nature occurred nearby about two years ago 37 10 20b photo 37 10 20

1937 A new police and fire station should be erected at Parkside, between Warkworth Terrace and East Road. The site is a very central one, had the great advantage of good access and egress from a fire-fighting point of view and the area is adequate for present and future requirements, councillors were told. Bearing in mind the possible future requirements for protection against air raids it was desirable that both police and fire stations should be in one unit on a new site 37 12 13

1937 An Emmanuel College undergraduate was trapped when fire broke out in his sitting room. He climbed out of the window holding the automatic life-line installed in the rooms, but as he was unacquainted with its working he was unable to use it. Porters fetched a ladder but by this time the lad, who had been standing on a three-inch ledge, had got on to a roof below his window. The fire brigade threw him a rope and, returning to his room he tied one end on to a bedpost and lowered himself on to their escape. A large hole was burnt in the floor and furniture damaged 37 12 10a

1938 Auxiliary Fire Service started, becomes National Fire Service 1941 [1.15,3.7]

1938 Five people were burnt by blazing fat by an explosion at a fried fish shop in Cromwell Road. It occurred a moment or two after boiling oil in the fryer caught fire. The force was so great that it blew the window out of the shop and a woman customer standing inside the door was blown out into the street. Blazing fat dripped from the ceiling, it was like a firework display. A 15-year-old assistant and a five-year-old girl were detained in Addenbrooke's Hospital with severe burns 38 05 30c

1938 Plans for a new police and fire station on Parkside between Warkworth Terrace and East Road came before an Inspector. It was a central site with good access for engine and ambulances and suitable for future requirements. It comprised five houses with a pork pie factory behind. But owners, Peterhouse, did not want to sell. They were concerned about noise at night and some undesirable 'guests' at the police station reducing the value of adjacent property. 38 07 28

1939 concern about number of fires in cinemas (see 76.9) [1.16]

1939 The Auxiliary Fire Service wound up their training at Cherry Hinton Hall with a demonstration using specially made incendiary bombs. Two were used to set fire to a house of

boxes kindly donated by local tradesmen which was tackled using an ordinary hand-pump with a spray jet. Many important lessons were learned. The bombs give off intense heat and coloured glasses must be worn by the fireman to protect his eyes. The application of water increases the ferocity of the flames. 39 02 07a

1939 Royston's ancient manual fire engine has been given to the Shepreth Museum Committee 39 04 14 CIPof

1939 Central Cinema, Hobson Street was burnt to a shell in the early hours of Tuesday morning. After a five hours' fight, only the walls, the fire proof operating box, the foyer, crush hall and offices and some rows of the back stalls remained intact. The damage amounted to several thousands of pounds. 39 04 28 CIPof

1939 The Central Cinema, Hobson Street, was burnt to a shell in the early hours of the morning. Only the fire-proof operating box, the foyer, crush hall and some of the back stalls remain intact. Firemen hauled hoses up to the roof of the Dorothy Café and from the high ladder of the Merryweather turntable in Hobson Street P.C. Kelly poured another stream of water on to the flames. But after an hour-and-a-half the roof fell in amid a shower of sparks. There was concern about Christ's College chapel where the roof had been removed because of damage done by the death watch beetle and only a tarpaulin covered the wooden ceiling. But a shower of rain helped to prevent it catching alight 39 04 25a, b

1939 The packing room of the Forum Cleaning Works, Hartington Grove was destroyed by fire that started in a machine in one of the cleaning rooms. This was put out with the aid of a fire extinguisher. The clothing was then put in one of the tanks and was run through a press room. When some of the staff reached the door, however, the handles of the tank burst, and the whole lot went up in flames; there was some danger of the fire spreading to a 500-gallon tank of white spirit. 39 05 26 CIPof

1939 Cambridge Fire Boat trial – photo – 39 11 08

1939 Over possessed an obsolete Merryweather manual fire engine of 1789 with three lengths of unserviceable hose and 11 buckets, it was valued at £7.10s. Willingham's had an 1827 fire engine, a trailer tank, six 60ft. lengths of 2-inch delivery hose, 20 galvanised buckets, two small ladders, two standpipes and turnkeys and two drags. Caxton equipment, valued by Messrs. Merryweather at £40 3s 3d was only worth £27, Cottenham's £37, Waterbeach's £29. Other parishes' equipment was valued as follows, Horningsea £3, Oakington £2 and Swavesey £6. 39 12 01 CIPof 39 11 30

1939 Royston Council's old manual fire engine is a venerable relic but retains its 'Directions for Use'. "Put as many men at the handles as can stand both inside and out and move the handles quickly from top to bottom", it says. "Should an obstruction of the water appear ... it should be immediately stopped to allow the rubbish to be cleaned away ... On return from a fire it is advisable to pump clean water through the engine and remove mud ... that may have been drawn into the works", But in one of the pipes we discovered the mortal remains of a rat. The engine was given to the town by Henry Fordham and was only used for in-town fires. Now it may be sold. 39 03 16 & a

1940 Oakington & Waterbeach old fire engines to be broken up – 40 03 12

1941 College blaze. — Extensive damage was done by a fire which broke out in the north wing of Pembroke College in the early hours of Saturday. The fire is believed to have started in one of the bedrooms of an upper storey, and the flames quickly spread along the whole length of the block under the roof. A fire-watcher raised the alarm, and regular and auxiliary firemen were soon on the scene with several trailer pumps, in addition to the three regular engines. Fire squads from the laboratories across the road and the college fire squad also assisted in fighting the flames. They had secured such a hold, however, that it was two hours before they could be brought under control. Most of the damage due to the flames was in the roof and upper part of the

block, but the thousands of gallons of water poured on the fire soaked through to the lower rooms. Many of the occupants of the block were roused from their beds when the seriousness of the outbreak was discovered, and some of them assisted in removing furniture to the court. The treasurer of the college (Mr. J. T. Spittle) said: "It is impossible yet to estimate the damage, as we cannot get into some of the rooms. The damage, however, is extensive." 41 03 22, 41 03 28 CIPof

1946 Fire near engine sheds, railway station – 46 09 16

1948 Fire & ambulance service operated by Borough Police taken over by County Council [2.9]

1948 Yesterday saw the passing of the National Fire Service which had been administered from the Home Office since March 1941. Under the provision of the Fire Services Act of 1947 the Cambridgeshire County Council assumed the responsibility for the provision and maintenance of fire-fighting services for the county, and the occasion was marked by a transfer ceremony at No.1 Station, Newmarket Road, Cambridge c48 04 02

1948 In one of Cambridge's worst danger spots, the closely-packed buildings of Petty Cury, the most serious fire the town has seen for two years broke out, damaging half of the stock of Messrs Montagu Burton, tailors. Firemen prevented the fire from spreading to adjoining shops but the whole of Burton's premises were gutted. Next door is Hutton's tailors where suits, coats and other clothing was covered by dust sheets to prevent damage from fumes. Burton's manager said "I went down in the cellar and saw the gas meter on fire and it was just like a giant blow lamp. We salvaged about half the stock". He added "I was flooded out at Jaywick a fortnight ago, and now ..." c48 08 21

1948 Blasting operations were carried out in Cambridge in an effort to locate an underground fire which is known to have been burning for a fortnight. It is at Messrs Duce's scrap dump in Newmarket Road. A squad of Royal Engineers from Bury S Edmunds fired three 10 lb charges of nitro-glycerine type of explosive, but the fire could not be traced. Traffic was stopped while the explosions took place and a certain amount of small debris fell onto the road. The fire is amongst scrap which has been tipped into a disused pit and covered with earth. Smoke has been seen issuing from widely-separated points in the ground and firemen have been digging in an effort to find the seat of the blaze c48 09 15

1949 Friends Meeting House, Jesus Lane, damaged by fire [1.22]

1950 When fire broke out in A-block of Jesus college, Cambridge the occupant found his room and corridor full of smoke. He jumped out of a window on to the flat roof of the porter's lodge below. The undergraduate's sudden landing roused the night porter who gave the alarm. Tongues of flame were soon licking through the roof, part of which fell in before the brigade got the fire under control. A-block is one of the oldest parts of the college, which was founded in 1496 c50 02 09

1952 A new type of smoke detector, developed and perfected in Switzerland, is being installed in the Fitzwilliam Museum. It will be the first building in the country to be equipped with the alarm which utilises the principles of radioactive disintegration. Museum authorities carried out tests with a pilot system installed at selected points in the building. Independent tests were also carried out by the Cavendish Laboratory. The system is unobtrusive and will not interfere with the aesthetic atmosphere of the building. CDN c 24.4.1952

1953 A new type of draught excluder fitted to a Trinity College undergraduates' sitting room was so effective that nobody was aware it was on fire. The occupant was sleeping peacefully while in the adjoining room furniture and floorboards were ablaze. Smoke pouring from the fire was prevented from penetrating to the bedroom by the draught excluders recently fitted. The sound of crackling timbers woke a student on the floor below who gave the alarm.

Undergraduates from other rooms on the staircase ran to safety but it was only after a ladder was raised to the first-storey c53 01 21

1954 A new tower being built at Christ's College, Hobson Street, Cambridge was slightly damaged by fire. It is believed to have been caused by heat from a small fire used for copper soldering which ignited the scaffolding and the base of the new tower. The builders working on the tower could not get down. It was well alight and the fire was beginning to spread into the college when the brigade arrived. A major pump, pump escape and turntable ladder were used to extinguish the blaze and they had it under control in eight minutes CDN c 28.4.1954

1956 Fire seriously damaged Laurie and McConnal's warehouse in Willow Place, Fitzroy Street. Children and old folk were evacuated as over 50 firemen fought Cambridge's biggest fire for years in near-arctic conditions. They were taken to the Church Army Hall where, huddling round a blazing fire, they wondered what would happen to their homes. Volunteers from the Hopbine public house assisted firemen to save their furniture. 52 02 21c & d

1956 Men who never sleep – illustrated feature article – 56 10 12d e f

1957 Plans for a new fire station at Parkside met with criticism. £15,000 seemed an 'absolutely incredible' amount to spend. There seemed to be a lot of windows – did vehicles need to see out? But there would be a howl of protest if they put up a cheap industrial building. It would be the Fire headquarters for the whole of the county and everything would be under one roof. Earlier plans to include a police station had been turned down by the Home Office. 57 07 29

1958 Cambridgeshire Fire Brigade demonstrated its new extending ladder, which is designed in three parts and can be used to reach awkward places and corners. It can reach a maximum height of 45feet and is worked into position by means of tormentor poles. The firemen showed they had learned how to get it erected in the shortest possible time and in the most cramped of conditions. With further practice no doubt even swifter erection can be possible. 58 05 02

1958 Market Street fire – 58 06 19

1959 Research and experimental work in the University's Department of Metallurgy in Pembroke Street was brought to a standstill following a serious blaze. Flames came through the roof, two rooms were gutted and a laboratory severely affected. Water used to fight the fire seeped into the basement and caused a great deal of damage to expensive machinery. 59 08 31a & b [7.7]

1959 Fire at Caius college dining hall – 59 09 01a

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 Fire swept through a dining hall at Newnham College causing thousands of pounds worth of damage. Firemen wearing oxygen breathing equipment struggled through thick black smoke to reach the heart of the blaze. A section of the flooring in the Sidgwick Hall was burned away and three hotplates damaged. Smoke has blackened the walls and panels have split outwards with the heat. It is not likely to be repaired before the undergraduates return and the girls will be split up in the other three dining rooms 60 09 17

1961 Fire swept through a warehouse and store room at the Radio and Television Service's factory in Gloucester Street. It was the second fire the firm has suffered at these premises this year, and the third to cause serious damage to the company's workshops in eight months. On New Years Day the factory was badly damaged and rebuilding work is not yet complete. Then three

weeks ago their paint spraying shops at Sawston were gutted. Detectives spent the weekend probing the cause which was identified as an electrical failure 61 08 14

1961 The proposed new Cambridge fire station on the corner of Parkside and East Road is without doubt the best situation that could be found. It is on the immediate perimeter of the inner congested centre of Cambridge, has access to good routes and is well-placed to take advantage of the proposed new bridge over the Cam. It will replace the present fire station built in 1944 at the corner of Newmarket Road and Coldham's Lane which consists of war-time huts and brick structures on the site of a refuse pit. 61 11 21a

1962 Prompt action by firemen saved one of Cambridge's largest timber yards from being extensively damaged. The fire broke out in the dust extractor plant at Travis and Arnold's premises in Devonshire Road – on the night of the Fireman's Ball at the Dorothy Café. The Chief Fire Officer, R.J. Stepney, supervised the fire fighting in evening dress, before going on to the ball. There were fears that the strong wind would fan sparks on to timber near the railway rolling stock but after four hours the blaze was brought under control. 62 02 23c

1963 Firemen fought for six hours against a blizzard to answer an emergency call from an isolated farm house at Little Chishill where a chimney was alight. Engines from Whittlesford and Letchworth were unable to get through and firemen tried digging their way clear in deep snow. One tender was re-routed but that road was blocked too. A Cambridge engine also found roads impassable but with the aid of a bulldozer managed to get as far as Chishill Grange. Firemen then plodded over fields covered by thick snow and drifts. On arrival at Rectory Farm they took 30 minutes to extinguish the blaze, then began a 150-minute journey back to base. 63 01 21

1963 Cambridgeshire Fire Brigade's new Emergency Salvage Tender replaces one built on a converted 1939 pump chassis. It is specialised appliance carrying equipment for use in the rescue of persons and animals trapped in road and other accidents, together with waterproof sheets and salvage gear used to clean up after a fire. It also has electric generator and portable lighting and breathing apparatus. With four-wheel drive it can be driven over rough country when necessary 63 07 13

1964 Fire Brigade HQ, Parkside soon to open; 'temporary' buildings in Newmarket Road built during war have outlived usefulness – 64 06 16c

1964 As the fire brigade mobiliser tape-records the warning call, the operator retrieves a file on the area in question. There are cards for every village showing the quickest route and full information on individual building with instructions on the appliances needed and the position of hydrants. The system is vital to allow fire fighters to have information allowing a safer battle against the flames but with new buildings constantly sprouting the work of documentation is never complete 64 08 21a

1964 Spillers laboratory Station Road fire, explosion fear – 64 08 26b

1964 Parkside fire station built for the future with electronic devices, a 'fire house', recreation facilities and workshops to deal with 30 appliances; chief fire officer R.J. Stepney – 64 10 26b & c

1964 Parkside fire station operational, officially opened Feb 1965 site earmarked 1939 but delayed due to war, plans for fire station 1950 but delays; replaces hutted fire station on corner of Newmarket Road & Coldham's Lane built as war-time structure 1944 & also St Andrews St buildings [3.1,3.2,3.3]

1966 St Barnabas church arson – bibles and hymn books set alight – 66 08 30, 30a

1967 Turks Head fire, engines block street; 3rd in 4 years, 1964 bar badly damaged – 67 12 18 [3.4]

- 1969 engines have difficulty getting into Trinity Lane due parked cars[3.5]
- 1969 Milletts outfitters, St Andrew's Street damaged by fire which threatened a whole block of shops and offices; may have been raided – 69 03 19, 19f
- 1969 Royal Cambridge Hotel fire – 69 10 10
- 1969 Cambridge Scientific Instrument Company second fire in two weeks – 69 10 15
- 1970 Fire Serck Services radiator firm, East Road – 70 05 28
- 1970 Fire True Form shoe shop, Petty Cury was caused by candles used during electricity cuts – 70 12 08
- 1971 Fire at gas works when oil residue caught alight as workmen using acetylene torches cut metal plates from demolished gas storage tank – 71 03 06
- 1972 Two middle-aged women who jumped from a first-floor window into the Garden House hotel's back gardens to escape the fire were later found by a Cambridge milkman wandering along Fen Causeway in their nightclothes. A friend said "The women looked like refugees with smoke-blackened hands and faces. They had walked across Coe Fen. The milkman stopped his float and asked if he could help them". Miss Sarah Wilhelm from Ohio said she was woken by a burning smell. She saw the room starting to fill up with smoke and saw the paint on the inside of the door turning brown. She jumped from the window and the other lady followed c72 04 24 [1.17]
- 1974 Important research experiments were destroyed when fire badly damaged a wing of the University Department of Biochemistry on the Downing site. Four floors of the building, which was opened in 1963 and is the workplace of about 40 people, were damaged. Expensive equipment and research papers were badly affected on the second floor where research work into proteins is carried out. The top floor, home of the chemical microbiology research centre, was also affected c74 06 91
- 1976 Two students had a dramatic escape from death when they fought their way through dense smoke after a fire broke out at historic Magdalene college, Cambridge. An electrical fault triggered off the blaze which caused widespread damage to an isolated three-storey building and at one stage threatened to endanger the famous Pepys library. It was the worst fire disaster at a Cambridge college for many years. The last severe University fire was at the Department of Biochemistry when there was £100,000-worth of damage c76 01 12 [3.9]
- 1977 firemen's strike for 9 weeks (till Jan 78); 'Green Goddess' engines used by military [3.10]
- 1978 Talk of the Town, Fitzroy St, gutted [3.11]
- 1980 Police are investigating a fire which badly damaged the former paper mill on Newmarket Road, Cambridge and spread into the roof of the adjoining Globe pub where customers were finishing their drinks. One who was using an outside lavatory spotted the blaze and alerted the landlord who evacuated the pub and called the fire brigade. The former mill, built in 1872, is owned by Norwich Brewers and has been empty for years. The roof has been badly burned and the walls damaged by smoke, heat and water. 80 09 22
- 1982 Cambridge was today stunned by a fire which gutted most of the Grove Infants' School, Arbury, and destroyed the staff block at the Manor School. Hundreds of people were woken in the early hours by the sound of the buildings being ripped apart by flames and small explosions.

They went out on the streets and watched as firemen fought to control the blaze. Many wept openly. 82 06 19 & a

1984 An American Chevrolet rescue tender is the most recent addition to Cambridge Fire Brigade's fleet. It carries no water and is just used for getting rescue equipment to accident scenes. It is fitted with the latest cutting equipment, lights, generators and decontamination gear and has been specially chosen for its speed with its big 6.2 litre engine. 84 09 22 [4.2]

1984 Ridgeon's timber store in Cavendish Road went up in flames, in Cambridge's biggest blaze for years. Appliances from all over the county were rushed to the site and more than 100 men were involved in containing the fire which destroyed more than 800 tons of stacked timber. People in nearby Cromwell Road were evacuated from their homes because of the risk of gas canisters exploding. 84 12 24 £750,000 damage [1.18]

1986 Carioca Club & City Limits pub arsonist convicted – 86 05 07

1987 The scene of carnage on the railway line at Swavesey was too much for one fireman who came to help release the dying and injured from the mangled carriages. He was physically sick at the sight of bodies littered around the burned out shell of the passenger train, but like a true professional he recovered quickly and carried on. Fortunately it was not for real, but part of a major exercise involving all the emergency services. But no-one had told those involved until they actually arrived. They thought they were heading for a major disaster. 87 09 21

1988 Cambridge police have moved into the high-tech age; now suspects at Parkside will have their interviews recorded on tape instead of laboriously taken down in writing. Five new interview rooms have been fitted with a special recording machine and a sensitive microphone fitted to the wall. Tapes will be kept for six years and a new civilian post of a tape librarian has been created. A suspect in a simple shoplifting case can now be in and out of the interview rooms within a quarter of an hour instead of the hour it used to take. 88 01 15a

1988 Fire fighters battled for two hours to stop a blaze which seriously damaged Cambridge University's Union Society buildings. The famous debating chamber was saved but the main reception room was gutted and the bar and library badly smoke damaged. It is not believed to have been a malicious attack but probably caused by a smouldering cigarette. A major fire in 1975 damaged part of the debating chamber and two floors above 88 11 28

1989 proposed redevelopment of Fire Brigade site with new station elsewhere ¢CEN 15.11.89

1989 Fire ripped through the University Zoology Department causing extensive damage and destroying important scientific work. Previous records in a laboratory used by Cancer Research Campaign workers were destroyed, wiping out years of research. The department had been on alert because of fears that it would be a target for animal rights protestors. Some experiments were saved because refrigerators continued to function, despite the intense heat 89 03 04

1989 Fifteen people were taken to hospital and a dozen evacuated from their homes after a major chemical alert in Cambridge. Forty firemen battled to prevent an explosion after highly toxic chemicals overheated at the Cleanaway plant. One was rushed to hospital when a safety wall collapsed crushing him against drums on the site in Cowley Road and three police officers were hurt as they helped families to escape the toxic fumes. Emergency services stopped all trains and the nearby Cambus depot was also affected. 89 07 28

1898 06 Walter Horsford, St Neots poisoner
1910 06 14 James Henry Hancock, murdered Alfred Doggett at Chesterton
1913 11 02 Frederick Seekings, murdered wife at Brampton 13 11 07 p8 CIP

1902 Cambridge Discharged Prisoners Aid Society heard that Cambridge prison has not been fully occupied by local prisoners during the past year but the Commissioner had sent down a number of military prisoners as well as others from London and other prisons. These transfer cases had added considerably to their work. They had investigated 186 cases, including 53 female. The Church Army Home in Fair Street & the Cambridge Female Mission had been most helpful. An Association of Lady Visitors had been established to adopt measures for setting up in honest life of those unfortunate women who come under the grip of criminal law, in whose case the attendant shame is always attended with peculiar difficulty CDN 1902 01

1904 Frederick Silk told the court that he was driving the prison van along St Andrew's Street in Cambridge when he ran into a handcart & knocked its 63-year old driver down, cutting his hands and face. The man had been drunk and pushed the cart into his wheel; there was no other traffic on the road at the time. Silk could not stop because he was going to the station with the 'Black Maria' to fetch some prisoners from the 4.30 train. He was fined £1. 1904 11 22

1913 Prisoner dies in County Gaol - 13 07 04 p9 CIP
1913 Death prison wardress, female side 13 08 01 p12 CIP
1913 Frederick Seekings, a Brampton man was hanged in Cambridge Gaol for the murder of his wife. Mr T.W. Pierpoint was the executioner and the hanging was expeditiously carried out, death being instantaneous. Very little interest in the execution was shown by the public. There was but a mere handful of people outside the Shire Hall, chiefly composed of errand boys and youths. The black flag was not hoisted nor was the prison bell tolled, and there was nothing whatever to indicate that anything unusual was taking place. 13 11 07 p08 CIP

1914 Gaol closure female side: The Chief Constable reported that as there were so few prisoners, the female side of Cambridge Prison had been closed, and in future all commitments of women will have to be made to the prisons at Ipswich and Northampton 14 07 10 p4

1916 One of the most astonishing results of the war is the effect it has, had on crime. This matter has been commented upon at every Assize and Quarter Sessions for the last twelve months or so. The calendars have been so light as to cause astonishment. Serious crime seems almost to have come to an end, and the presentation to the Chairmen of Quarter Sessions of white gloves as evidence of there being no prisoners for trial has become quite a common occurrence. As a consequence of this change in our normal conditions, some of His Majesty's prisons have hardly any prisoners, in them, and as a wartime economy, it is proposed to close some of them for the time being. Cambridge is to be added to the number closed during the period of the war. It is a remarkable proposition, although we should like to think that we could get along without a prison in our midst 16 02 09 CIPof

1916 Prison – some have hardly any prisoners and to close as war-time economy; Cambridge to close – 16 02 09b

1920 Women jurors try their first case – CDN 20 10 04

1921 Assize court figures of Law, Justice, Mercy & Power to be removed – 21 03 23f, 21 03 30e

1922 Assize Court figures of Law, Justice, Mercy & Power to remain, had been removed 22 01 04c

1952 Justice Melford Stevenson appointed 30th Recorder of Cambridge[346.1.20]

1952 The whole of the structure of the 112-year-old courts of assize at the old Shire Hall, Castle Hill, is unsafe and liable to collapse at any time. Dry rot has been attacking the floors and has now spread up the walls and plaster and into the roof. The damage is said to be irreparable and it is virtually certain that the County Council will have to write off the building as a total loss. The Court House, built of brick and stone in the Italian style has a portico supported on columns and comprises two courts and a magistrates' room from which three prisoners recently escaped by removing an iron grill over a window. c52 07 25

1953 The Cambridgeshire Divisional Magistrates Court sat for the last time in the old Shire Hall Courts, where justice has been meted out for over 100 years. It is just over eight months since it was found that the building was infested with dry rot and since then all courts, save the County Bench, have been accommodated in the Guildhall. Since then there have been many arguments in the County Council Chamber but the only solution they could find was that the building would have to be demolished. c53 04 14

1954 Assize Courts, Castle Hill, demolished; continued debate on their replacement (see c35.1) [1.19]

1955 The County Council agreed that an assize court on the Guildhall site was not practical. When the City had suggested the adapting the Central Library site they must have known it was inadequate. Some of the supporting columns of the Lending Library could have to go and hardly any of the reading rooms would be retained. Cambridge needed a new Central Library but this would not be sent from Heaven. It would have to be paid for and that was behind it – the City wanted someone else to pay for it. 55 05 02b

1956 Shire hall court tenders deferred – 56 02 25a, 56 02 26a & c

1958 120 children appeared city courts - less than 5 in 1,000 guilty of serious crime; 1949 probation service made 87 enquiries for court, 1958 273 [6.4]

1964 Fenstanton lock-up dates back to 1780 and is now a listed building. Lockups were usually inconspicuous, distinguished only by iron studded doors with small gratings. In the 17th century they were under the control of the parish constable. Prisoners were kept in them pending their transfer to the county gaol or an appearance before the magistrate. The constable was an officer of the manor and usually chief executive officer of the parish. In 1842 the appointment transferred to the parish vestry until the Police Act introduced police districts and the lock-up fell into disuse. 64 03 21

1964 Cambridgeshire County Council is anxious to buy compulsary some land at Castle Hill, including the Sir Isaac Newton public house, for their new assize courts building scheme. They also want a private house in Gloucester Street and a cycle store. Much of the other land between Gloucester Street corner and the county police headquarters has already been acquired for the court, project permission for which has been given after a delay of several years. Work should start this year. 64 06 02a

1967 Bene't Hostel for Girls closed last November; girls remanded now have nowhere to go but police cell, Holloway or Borstal – 67 06 27a

- 1969 Royal Commission on Assizes reports suggests Crown Courts to replace Assize & Quarter Sessions [3.4]
- 1971 last Quarter sessions, Guildhall - transferred to Wisbech [3.5]
- 1971 last Assizes. Guildhall - now major cases heard at Norwich or London, last Judges procession from Trinity College – 71 11 23a [3.6]
- 1972 first sitting of Cambridge Crown Court [3.7]
- 1976 first community service order [3.12]
- 1976 The Cambridge County Court moved into a new office block between Bateman Street and Norwich Street earlier this year. Both the court and the offices are uncompromisingly modern. They are efficient, comfortable but quite impersonal. The court room with simple modern furniture lacks the character of the old premises in the centre of Cambridge. But most cases dealt with are divorce and perhaps the less daunting informal atmosphere is more suitable. The witness boxes are so close to the judge's chair than an incensed witness could hit the judge and certainly see his notes c76 12 19
- 1980 The new magistrates courts, perched above the Lion Yard car park have been built to last for the next 100 years at a cost of £1.7 million. Some wonder how Cambridge managed to acquire such an expensive addition to the skyline in these times of stringent public spending cuts, the answer seems to be that it won its case just in time. Today the verdict would be different. After years of less-than-satisfactory courtroom conditions we have something of a showpiece. Compared to the old courts the new carpeted building is luxury itself. "From boarding house to Hilton" was how one prison officer described it. In fact the only criticism is that some people will consider the edifice 'too good' 80 01 30
- 1980 Cambridge's new £1½ million magistrates' courts above the Lion Yard multi-storey car park were officially opened by Prince Philip. Although he claimed to have stopped being surprised at anything he was obviously amused that they had been built on top of a car park, but said that it was often the most eccentric ideas which were the best. He hoped they would be required as little as possible 80 03 28a [3.17]

headlines

1888 County Council established under Local Government Act, much of business previously transacted by Quarter Sessions assigned to them. Offices established in various parts of the town & Council meetings held in Guildhall [3.7,3.1,3.2]

1901 Cambridge may be justly congratulated on her County Councillors. The meeting was opened and conducted throughout in a very business-like & decorous manner. Good nature, a courtly yielding to others and a desire to be conciliatory seemed to be general. The language was decidedly moderate. Another noticeable feature is the large number of young men on the Council. Youthful spirits will go on working cheerfully instead of mournfully shaking their heads and eternally speaking of the "good old times c01 03 27

1904 County Council electioneering tactics at Cherry Hinton were exposed in confidential correspondence between two potential candidates. Mr Neal, the owner of Cherry Hinton Hall, was too unknown to have the slightest chance of carrying the seat. Many scarcely knew there was a Hall and he had not had time to make it a centre of interest. The parish is Radical to the backbone and the Conservatives would be giving the seat away to the opposition were he to

stand. However Mr Brooke had great strength with the cottagers and even the Dissenters would support him. In the event of his being elected he would not serve once the Education question had been settled and would stand down, making it easier for Mr Neal to win the seat. CDN c
26.2.1904

1907 In the recent County Council elections for Castle Ward, Cambridge both A.B. Whibley and James Wootten received equal votes. Both candidates are elected but neither can vote until one or other petitions the High Court, which is an expensive process. In a similar incident in Huntingdonshire candidates drew lots but after the 1857 parliamentary election in Huntingdon both Mr Fellowes and Mr Heathcote sat in the House of Commons but were unable to vote until Heathcote gave way. 07 03 07

1907 Officers who preside at country polling districts are required to bring the boxes containing votes to Shire Hall ready for counting next morning. Usually they do so comfortably seated in a carriage. But one cycled a considerable distance laden with all the papers and paraphernalia. The feat required some courage as the journey through the mud, wind and rain must have been an unpleasant experience even to an active cyclist in a very fair state of training 07 03 09

1907 County official praised for auditing – 07 11 23a

1908 negotiate with Town Council over use of their offices [1.8]

1910 Since the inauguration of County Councils 21 years ago they have grown enormously in importance and in power. Their responsibilities over public health, sanitation, water supply and the administration of the Poor Law will probably be increased in the new future. This throws the administration more and more into the hands of the officials. Ratepayers should take care to select their representatives but unfortunately the absurd practice still prevails locally of voting for councillors according to their political predilections and the best man is frequently defeated. 10 03 04e

1910 The County Council needed extra offices for its staff. At present departments were housed in different buildings and councillors often went to the wrong one. They could take space in the Guildhall but would be paying rent that would assist the Borough to erect a very fine building in which they had no permanent share. It would be more economical to build on the Shirehall site, removing the Chief Constable's house and other police buildings, but most convenient to purchase a building on a more central site. However they must bear in mind the great difference in cost 10 11 04a & b

1910 The County Council voted to spend £1,000 to oppose plans to enlarge the Cambridge boundaries and create a county borough. It was not in any sense a manufacturing town, though it was important as a railway centre and had important markets. The County Coroner's district would be reduced with his salary cut in consequence – the Borough would pay compensation for loss of remuneration – and the County police force would be reduced by one sergeant and four constables. In addition seven elementary schools and 2,700 children would be transferred to the Borough. But Cherry Hinton residents favoured amalgamation. 10 11 04h

1912 County Council offices scattered in Regent St, Hills Rd, Sidney St & St Andrews street; options : to use Assize court as council chamber & build new offices, Shire Hall (which felt to be too far from station); to join with Borough in new Guildhall or to build new offices; decide to purchase old Hobson Street Methodist Chapel & houses adjacent for £3,000? £6,200 site & £9,740 building [1.9,3.3,3.4,3.5]

1912 County Council clerk resigns; new appointment still in hands of Standing Joint Committee, however is Bill before Parliament under which County Council will elect own Clerk [3.3,3.4]

1912 The accumulation of duties from which the County Council is suffering as increased the amount of work to be got through at the quarterly meetings. Yesterday's lasted from ten in the morning until half-past three in the afternoon and most of the members had drifted out long before the end. There is a tendency to rush things and a general spirit of indifference due to weariness of the flesh. Chairmen of committees tend to leave the chamber when they have piloted through their own reports. Some alteration must be made. 12 02 02g

1912 A new County Hall is needed. The existing clerk, a solicitor in private practice, works from his own office. The Education and Medical departments are on opposite sides of Sidney Street, the Finance Clerk in is Regent Street, the Architect in Hobson Street and the Surveyor in Hills Road. This is inconvenient and uneconomical and leads to inefficiency. 12 02 02h

1912 The last meeting of the Chesterton Urban District Council recalled the changes during the last 40 years. Before 1880 there were no street lamps, no sewage system, no street watering and an imperfect water supply. The paths were unkerbed, there was no collection of house refuse, no medical officer, no sanitary inspector, no recreation ground and very few allotments. The population had risen from 5,000 to 12,000. Now councillors would help improve the Borough of Cambridge at large 12 03 08f

1912 The County Council is to purchase Hobson Street Wesleyan Chapel and the adjoining house to build a Council Chamber and offices. The site is central and quiet and although the cost might appear to be high it would eventually result in a saving. There would be much greater efficiency to have all officials under one roof instead of them running backwards and forwards from one place to another. They would also need four less telephones, saving £30 12 03 15f

1912 The County Council had considered various sites for a new County Hall. The purchase price of Hobson Street Wesleyan Chapel was £3,500 (£324,000 today) which was fair. In the chapel they had a good deal of material and the shell and outside walls would stand and be utilised. But it would not be sufficient. So they needed to purchase a house from Christ's College; they were not desirous of selling and the price of £2,500 was the least they would accept. The erection of county hall would increase the value of the other buildings in Hobson Street and help to bring a much-needed town improvement through the widening of Sussex Street. 12 08 09

1912 Ashley Tabrum appointed Clerk to County Council – 12 10 18e

1913 A new Act of Parliament imposed further duties on County Councils. The best thing they could do was to go on strike and say they were not going to take any more burdens on or find more money for various things the Government send down, unless they paid a good proportion of the expense. But then the Government might come down, do the work and charge the Council with the expense. 13 10 31 p11 CIP

1913 Councillors queried the cost of furnishing the new County Hall. It was not a club and should not be furnished as if it were. It was suggested the Clerk should have a Turkey carpet costing £22 10s. and a writing table costing £35. This was extravagant. Councillors' seats would be of oak and covered with pigskin. But they should be cheap and uncomfortable since they would only spend a few hours there during the year. But the whole thing was already finished, and nothing could be done, they were told. 13 11 31 p12 CIP

1914 At the opening of the new County Hall in Hobson Street the chairman thanked the Town Council for allowing them to use their council chamber and committee rooms for the past 25 years. In 1747 the old Shire Hall had been built on Market Hill above arches where butchers had their stalls on market days. In 1842 this passed to the town when a new Shire Hall at Castle Hill was ready for occupation. But the enormous development of administrative business had now brought the County Council again into the centre to this new commodious and economical building, finally bringing together departments previously distributed in all parts of the town. 14 02 06, a-c [1.17]

1914 County Borough Bill Rejected in House of Commons. ... great jubilation the County ... Sir George Fordham but disappointment in the Borough, 14 03 27 CIPof

1914 The Cambridge County Borough Bill (with which were included Wakefield and Luton) was defeated in the House of Commons. It would inflict great hardship on the county. If it were taken away the rest of the area would be almost entirely agricultural, some MPs said. But the County Council would be more efficient if all members represented agricultural interests rather than the urban interests of the Borough, the Cambridge MP contended. 14 03 27f; A farce – editorial – 14 03 27d

1920 Council Staff.—The County Hall Committee has considered the resolution of the Cambs. County Council that the time has arrived when it is necessary to provide increased accommodation for the Council's staff. Sir Douglas Newton reported the result of an interview with the Bursar of Christ's College if they are prepared to sell Bene't House. The owners of the ground rents of the adjoining properties occupied by Mr. P. Morley and Messrs. Eaden Lilley and Co., Ltd., are to be approached with a view to the purchase of the freehold of the property, and Mr. Percy W. Gray. (Scruby and Gray) was asked to advise the Committee what offer they should make for the Riding School site, At a subsequent meeting the Clerk of the Council reported as to negotiations for adjoining property, and submitted a valuation by Messrs. Scruby and Gray for the Riding School site. It was then agreed to recommend the County Council to authorise the Committee to make an offer for the Riding School site for the amount of the valuation. The Committee also resolved that the amount to be reported to the County Finance Committee as the sum likely to be required for capital expenditure during the next five years should be: Extension of County Hall, including site and equipment, £21,000 20 06 30 CIPof

1920 Large German field gun offered as war memorial at Shire Hall but this would obstruct entrance; two trench mortars could be put under the portico at either side and would not take too much trouble to keep clean – both rejected - CDN 20 12 20

1920 County council war memorial, County Hall, unveiled – Ch 20 10 27a

1922 Assize Court figures of Law, Justice, Mercy & Power to remain, had been removed 22 01 04c

1925 A fire broke out in the Grand Jury Room at the Shire Hall which destroyed all the woodwork and furniture. It is a large room is situated at the front of the building on the Police Station side and contained a table and some chairs. A stairway leads from it to the grand jury gallery in the Crown Court and it was through the fire roaring up these stairs that damage was done to the court by smoke and steam c25 01 12 [1.20]

1928 order plans for a new Shire Hall, Castle Hill, on site of County Gaol, this had stood idle since prisoners transferred to Huntingdon gaol in 18 ; in 1919 the building had been fitted up as a branch repository of the Public Record Office. Site acquired for County Council, records sent away, & new Shire Hall started using bricks from the old gaol [2.2]

1928 The Home Secretary has decided to discontinue the Cambridge prison on Castle Hill and has offered it to the County Council for £4,812. The buildings consist of a central block comprising laundry, workshop, kitchen, labour cells, ladder store, hospital, photographers' hut, execution shed, schoolroom and governor's house. The Office of Works wishes to lease the main buildings to store their records in. This would not prevent the council in the future from building a new county hall on the prison site. c28 01 08

1928 An interesting discussion in regard to the future of Cambridge Prison and the Castle Mound took place at a meeting of the County Council. The Home Secretary would convey it to them for £4,812. The County did not want the mound, which was more closely connected with Cambridge than the rest of the county. All persons interested, including the Borough Council and

the Cambridge Antiquarian Society would be consulted when its future was settled. Something was also said about the possibility of removing the County Hall in Hobson Street to the Shire Hall site c28 01 28

1928 Less than 20 years ago I was doing journalistic work in a Hobson Street office. In those days there was no County Hall opposite, nor talk of one. It was begun only 15 years ago and if anyone had been asked how long it would remain the County Council headquarters he might have answered 'A hundred years at least'. But so great has been the extra work thrown on the Council that already the building has been outgrown and plans are now to be prepared for a new building on the Castle Hill site. There are now 86 officials and ratepayers may ask if such an army of officers are really necessary c28 05 09

1929 The County Architect presented sketch plans for a new building on the Cambridge castle site, containing office accommodation, with council chamber, library and storerooms. It was futile to prepare plans for their existing needs when it was practically certain that under the new Local Government Bill they would have a large amount of additional work thrown upon them. Mr Dunn had erected the present County Hall in Hobson Street & was able to compete with the best architects in the country with regard to a beautiful scheme and a beautiful building. But if he was forced to collaborate with another architect there would be delays and they would never get the building erected. CDN c 28.1.1929

1929 Certain documents of an historical nature are stored in Cambridge prison on Castle Hill and access is permitted to University students for the purpose of study. But if a County Hall is built on the site the Prison will be pulled down and the documents removed. The University fears that they would lose a very big educational factor and urge the County Council to provide accommodation for them in their new building. Having regard to the tendency of modern legislation to give Councils more work they would probably require considerably more accommodation at the end of 20 years and such storage would then be valuable for administrative purposes. CDN c 29.1.1929

1929 The Government Office of Works have made arrangements for the records at present stored in the old Prison on Castle Hill, to be removed from Cambridge to another disused gaol. It is their policy to concentrate such records at Canterbury. The Governor's House at the old Prison will be adapted to provide temporary accommodation for county council staff and rooms in the prison gatehouse used for storage purposes. This has released accommodation at the County Hall for other departments CDN 4.11.1929

1930 reject proposal that would have abandoned Shire Hall plans [2.16]

1930 The old county gaol at Castle Hill was opened to the public. Since 1916 when it was closed because of a scarcity of prisoners – it has been said there were not enough to keep the place clean – the prison has only been used for Government record purposes. Then it changed hands and became the property of the County Council; a writer to the CDN threw out the suggestion that it should be opened for public visitation, and the scheme became an actuality 30 06 20a

1930 Maids in their scanty summer frocks, flannelled youths, mothers and fathers and grandfathers queued for admission to the County Gaol on Cambridge Castle Hill. The execution shed was a popular rendezvous along with the condemned cell, the burial ground and padded cell. People searched for links with the past. They found few. The gaol is not what it was. Dirt and rust have replaced whitewashed walls and polished steelwork and certain parts have become dilapidated. 30 06 20a [2.5,1.10,2.6]

1932 Shire Hall opens without ceremony, used bricks from old gaol, "new Shire Hall shames town" [1.5,1.11]

1932 The new Shire Hall was opened with little ceremony in the presence of a handful of people. The Architect (H.H. Dunn) presented the Chairman, Ald W.C. Jackson, with a gold-covered key engraved with the County Arms with which he unlocked the door. Soon a stream of guest arrived and the corridors presented a most animated appearance. The council chamber is very similar to that at the old County Hall in Hobson Street from which all the seats and tables have been removed while every care has been taken to provide the maximum air, light and spaciousness to the offices 32 07 15e & f

1932 Cambridgeshire County Council held their first meeting at the new administrative buildings on the Castle site when the recommendation that it be called 'Shire Hall' was adopted without discussion. It was admirably suited to its purpose without any frills and decorations. But Councillor Fordham regretted the purchase of two Turkey carpets for the councillors' room at cost of £37 32 07 29a & b

1933 The County Council is to change their staff's weekly half-holiday from Thursday to Saturday, although the Clerk can to require the attendance of any member of staff on any Saturday afternoon if desirable. However senior officials should not lose their half-day. The public would have no cause for objection, though last Saturday afternoon 50 people applied for licences. The Guildhall has closed on Saturday afternoons for many years. 33 05 08

1933 The old County Hall in Hobson Street was supposed to be sold with the proceeds being used to pay for the new Shire Hall on Castle Hill. But now little tin advertising 'To Let' signs had appeared and there didn't seem to be the slightest attempt to sell it, a councillor complained. But every effort had been made to dispose of it without success and they were now hoping to let a portion to the Government's Office of Works which would suit the council equally as well as a sale. 33 07 31

1934 Chesterton Rural District Council move into County Hall, Hobson street [1.2,2.17]

1934 The first meeting of the new Chesterton Rural District Council was held in the County Hall. New councillors were told they had to consider problems such as water sewage, dust collection and lighting. They discussed a grant towards cleaning out a Harston pond. It was a 'disputable pond' – the village made use of it but it was private property. 34 04 25

1934 S.R. Ginn, county council clerk 13 years, former Mayor – 34 08 13

1943 Acute staff position.—The acute position caused by the call-up of staff, was the subject of a special statement by the Chairman of the Cambridgeshire County Council (Ald. W. J. Taylor) at Saturday's meeting of the Council. Ald. Taylor said that, just before the war the staff operating from the Shire Hall - 30 men and 25 women. Of the men, 60 were serving with the forces, 15 were no longer with the council, and seven had been lent to other services. Only 48, therefore, of the original men were left, and of these 26 were over 42. Seventeen of the remainder were liable to be directed elsewhere by the Manpower Board, but only two were under 35 years of age. "We in Cambridgeshire, therefore, cannot be accused of 'protecting' a lot of young men from the services," the speaker added. Ald. Taylor next dealt with the women, and there was a general laugh after he said, "Two are married, and two are liable to be directed. Dr. Woodman asked "What. — to marriage ?" 43 02 26 CIPof

1945 Charles Phythian appointed clerk county council – CDN 1945 05 12

1951 Last-minute disclosure of what councillors described as the "astonishing", "fantastic" and "mad" extent of proposed salary increases to chief officers of Cambridgeshire County Council was made at a meeting. They involved increases of some 50%. The council rejected proposals of which would have increased the salaries of the Education Officer & County Treasurer from

£1,460 to £2,200 & that of the County Surveyor from £1,260 to £2,200. The new scales had been adopted by 22 other councils c51 03 05

1952 Assize Courts building unsafe, repairs would cost £50,000 [2.3,2.4,2.5]

1952 The whole of the structure of the 112-year-old courts of assize at the old Shire Hall, Castle Hill, is unsafe and liable to collapse at any time. Dry rot has been attacking the floors and has now spread up the walls and plaster and into the roof. The damage is said to be irreparable and it is virtually certain that the County Council will have to write off the building as a total loss. The Court House, built of brick and stone in the Italian style has a portico supported on columns and comprises two courts and a magistrates' room from which three prisoners recently escaped by removing an iron grill over a window. c52 07 24

1952 Cambridge City Council are objecting to the County Council's proposal to demolish the Shire Hall courts at present suffering from dry rot; their consent is needed as the building is scheduled as of special architectural or historic interest. Ald Wilding thought it was hardly necessary to demolish the building just because of some defects in the woodwork & Ald Taylor put forward a plan for preserving its very fine façade, but Coun George Edwards said the best thing would be to demolish it and have a new building erected in its place. c 52 12 10

1953 demolition starts, old frontage offered to Town Council [1.15,2.6,2.7,]

1953 Cambridge city council have asked the County not to demolish the old Assize Courts which are at present closed because of dry rot. As it is a building of special architectural interest further consideration should be given to its preservation. Dry rot does not necessarily involve the demolition of the whole structure of an affected building – none of the Colleges have had to demolish their buildings, though many of them have been affected from time to time. But the County says there is no assurance that further infection could be prevented. They intend to re-erect the façade of the building elsewhere c53 01 23

1953 “Why not let the façade of the Assize Courts on Castle Hill be used as a ‘Marble Arch’ for the new Spine Relief Road” asked the Mayor of Cambridge during discussions on its removal. The City Council had been very concerned about its preservation but to dismantle and remake it would cost £12,000 and architects said it could not be placed on the new building. It was a secondary monument and not old enough to be preserved, being built in 1840. But the stone figures on the roof were to be saved. c53 03 04

1953 Sir – the Shire Hall assize courts were closed on my order in July last year because the structure had become dangerous. Dry rot had been rampant for at least 50 years and the improvised repairs had done nothing to eliminate it. During the work of demolition fragments of newspapers dated 1922 and 1925 have been found that were left by workmen repairing the dry rot in those days. The council had to decide whether to save the bare walls of the old building and rebuild the roof and the whole of the interior, or to demolish it. The extent of the damage is now clearly revealed and confirms the necessity of demolition – Wilfrid Wingate, County Architect. c53 06 12

1954 an additional building with Assize courts & offices, much opposition [2.9,2.10,2.11,2.12],

1955 Henry Wilkin, chief clerk of Cambridgeshire County Council, has retired after 55 years' service. At the age of 13 he had entered the office of a solicitor who in 1899 became Clerk to the Council, starting his career with local government and receiving five shillings a week out of which he had to hire a barrow to take books to the council office. He had served under three clerks, Samuel Ginn, Ashley Tabrum and Charles Phythian. He was presented with a small walnut bureau and a Westminster chiming grandmother clock. CDN 3.1.1955

1956 courts tender deferred, Cambridge Daily News criticised for leading campaign against the proposed building [2.20]

1957 Shire Hall – new storey proposed – 57 11 03

1958 Shire Hall is to be enlarged by an additional storey, increasing office accommodation by 20 per cent. Several councillors argued this was unnecessary in times of financial stringency when secondary education had to reduce its expenditure. But builders are short of work and will do it at a competitive figure. It was a long-term policy to achieve centralisation of the council's administration. 58 02 03a & b [2.22]

1958 Shire Hall new storey tender – 58 07 24b

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 Cambridge should be granted County Borough status and so control its own destiny, the Local Government Commission recommends in its draft proposals. But Cambridgeshire would not then be an effective administrative unit and should be merged with the Soke of Peterborough, Huntingdonshire and the Isle of Ely to be able to provide a comprehensive range of services. Royston Urban District should join the new county but Newmarket should remain in West Suffolk and St Neots be transferred to Bedfordshire. Now the recommendations will be subject to public consultation. 60 03 01 & a

1960 Proposals to amalgamate Cambridgeshire, Huntingdonshire, the Isle of Ely and the Soke of Peterborough into a new county have been described as 'local government gone mad' by the MP for Cambridgeshire. David Renton is also known to oppose any suggestion that Huntingdonshire should lose its separate identity and may resign from the Government if the proposal goes through. Major Legge-Bourke for the Isle of Ely says it is impossible for fenland areas to be efficiently government by people who do not understand their special problems. The only MP to welcome the proposal is Hamilton Kerr for Cambridge City who says he is delighted that the claim for county borough status has been recognised. 60 03 02a

1963 The Government decision to reject Cambridge City Council's claim for county borough status was described as a 'profound disappointment'. Although its case has been recognised Cambridge is to again be sacrificed on the altar of rural interests, councillors feel. The Local Government Commission says the administrative counties of Cambridgeshire and the Isle of Ely should be amalgamated to form one local government unit and that Huntingdonshire should join with the Soke of Peterborough 63 08 02

1964 The new Cambridgeshire and Isle of Ely County Council was 'thrust upon us by a dying Parliament in defiance of local history and deep-seated tradition', claimed Coun. M.S. Pease. But the new chairman, Ald Jeeps, urged councillors to try to make it a success. He has worked all his life as a farmer and fruit grower, is courteous, firm, persuasive and quick to see a compromise solution to problems. He also knows the importance of silence as chairman. This makes him an ideal person for the job, Ald Rickwood, of the Isle of Ely County Council, said. 64 10 05

1965 Speaking at the final meeting of Cambridgeshire County Council before its amalgamation with the Isle of Ely Ald P.J. Watts said there had never been and would never be a more effective unit of local government. They had been a progressive authority with a world-wide reputation in the field of education which was efficient and served by a hard-working staff of great loyalty. Now they were being abolished by people who know a great deal about local government but do not understand it, in the interests of effective convenient local government 65 03 31a

1966 Chesterton RDC new offices at Gt Eastern House, Station Road, to open – 66 07 02
1966 Former clerk to Cambs & Isle of Ely County Council, Charles Phythian, allowed to retain double salary payments when acting as clerk to County Council and chief officer of new combined authority – 66 07 30, 30a

1967 Shire Hall redevelopment envisages 15-storey block of offices and law court, car parking under pedestrian precinct – 67 05 06

1967 County Council buy Howes Close mansion and 23 acres as extension Shire Hall site, to move Country Centre students – 67 07 26

1969 Maud report on local government says Cambridge to become geographical centre of huge new authority as part of three-tier system – 69 06 11

1971 Shire Hall plan Castle Court extension with landscaped offices – 71 01 27b

1971 County Hall Hobson Street may be sold by county council to raise money for new offices behind Shire Hall – 71 02 06

1973 The £11,000 a year top management job on the new Cambridgeshire County Council has been given to 38-year-old Mr John Barratt, the deputy town clerk of Bradford. He will take control of the hundreds of staff who will ultimately be appointed to the new council or transferred from the present Cambridgeshire and Isle of Ely County Council. One of his first jobs will be to advise on the appointment of a team of chief officers who will form a boardroom style management group when the new council takes over responsibility from the old on April 1st next year c73 05 26

1976 The Government has chopped almost £10 million off its cash aid to Cambridgeshire County Council. Senior councillors have been shocked at the figure, which is almost £4 million more than originally anticipated and the most savage cut in the country. Councillors said that last year the Government took account of the county's growing population, but this year it has gone back to the old method and is working on population figures that are two years out of date. They have decided to shift money in favour of London and major urban areas c76 12 12

1985 South Cambridgeshire ratepayers can be assured there are no frills or trimmings in the new £2 million council headquarters on Hills Road. The new base is an energy-saving building which will be workmanlike and maintenance-free. There is an air-conditioned council chamber with video facilities that may be rented out for conferences. Bullet-proof glass will increase security. The idea of moving out into a village was rejected as Cambridge was felt to be a central point. But car parking is likely to be a problem with 105 spaces for the 200 staff many of whom will have to park in the streets when councillors are meeting 85 04 20

1985 The new-look Cambridgeshire County Council may descend into political chaos unless a compromise over who works with whom can be worked out. The Liberal SDP Alliance with 26 seats is seeking a three-way administration with the Conservatives (29 seats) or the Labour with 21. But Labour has turned down the Alliance Plan and the Conservatives will agree to power sharing only if the new council accepts their financial policies. Controversial plans to widen East Road have been scrapped as has a railway-road plan which would have destroyed large housing and commercial areas of Cambridge. 85 05 07

1986 Gordon Lister, a Scotsman, has been appointed as chief executive of Cambridgeshire County Council at a starting salary of £45,000 a year. He will take over from John Barratt who has held the post since the authority was formed during the nation-wide local government

reorganisation in the 1970s. The job is difficult as no overall political party has overall control so every decision is fiercely contested and instantly becomes highly controversial 86 04 03

1897 Guildhall interior designs 1896 35 03 04 & 05

1897 For several years Cambridge has been in a state of chronic poverty. With hardly a sou in the bank – not sufficient to meet tradesmen's bill as they become due - the financial outlook has been far from cheering to the ratepayer. A farthing rate to retain East Road Reading Room is denied, yet in the next breath the modest sum of £21,000 is voted for street improvements. And again there is the front of the Guildhall. No sane person can defend the retention of a monstrosity like that and if it is not to be retained it must be replaced and care must be taken that the new building is worthy of the town c1897 08 20

1898 Death H.J. Whitaker, Borough Treasurer, CDN 1898 01 06 p3

1898 Cambridge town council has issued an additional report on the proposed new Guildhall buildings. The accommodation will be considerably increased and will include in the basement, additional coal store, public lavatories for men and women and three new storerooms. On the ground floor a greatly improved entrance with grand staircase, cloak rooms, retiring rooms, two new public meeting rooms, kitchen and offices. Facing Union Street three new shops will be provided. On the first floor the Aldermen's parlour will be enlarged and improved and there will be rooms for the town clerk as well as a Mayor's reception room and a new enlarged council chamber. The cost is estimated at £38,000 CDN 1898 10 07

1898 The Town Council of Cambridge has asked the burgesses whether they are of a mind to make a beginning at once with the extension of the Guildhall, and with the building of a new front, and the ratepayers have given their answer. There is no ambiguity about that answer; the "No" is emphatic enough. The attendance at the Guildhall was so large that those who know by experience how difficult it is to get the public to take an active interest in public questions must have been surprised. CDN 1898 10 13

1899 apply for Bill to allow municipalisation of tramways waterworks, lavatories and water but this proposal rejected by ratepayers 1901 council decide that office staff should be employed directly by them, formerly the Town Clerk used staff from his own outside office [2.17]

1900 Cambridge town council considered the position of town crier. Mr Campkin said the office was a relic of Bumbledon and could well be dispensed with. They had outlived the town crier as they had the Bedell. Alderman Spalding thought it a great pity to get rid of these old

offices. The crier preceded the Mayor to church five times a year, went to meet the judges three times, attending the quarter sessions and licensing sessions and made in all sixteen appearances during the year. The salary was £20 per annum c.00 10 18

1901 My commission was to go to the Guildhall and having duly observed both men and things to put down my impressions, without fear or favour. With feelings akin to awe I approached the Council precincts and entered the chamber where the elders of the town engaged in high debate. Comfortable and commodious it was evidently designed to render the labours of the councillors as pleasant as possible, with an air of quiet repose and dignity. I had hoped for some little show of stately ceremony, but shambling and shuffling were the order of the day and the meeting began as it ended in a spirit of haste and lack of orderliness c01 03 26

1902 Chesterton amalgamation “impossible” [1.8]

1902 Education Act gives council power to manage schools [3.4]

1903 Chesterton : majority oppose [1.9]

1903 Education Act gives council power to manage schools, Cambridge Daily News find difficulty getting permission to attend committee meetings [3.4]

1903 All the arguments in favour of converting Cambridge into a County Borough having failed some councillors have threatened to petition for an extension to the town’s boundaries so as to include not only Chesterton but Newnham Croft and St John’s, Cherry Hinton as well. To silence opposition they have threatened that all children from these districts attending schools in Cambridge will have to be turned out to seek education under their own authority. This has confirmed the opponents in their opposition and alienated the sympathies of supporters. Fortunately nobody is likely to be frightened by such pusillanimous threats. c03 04 21

1903 Coun Morley said the Cambridge Borough Surveyor had met with an accident when driving in the Corporation trap. It was time they should come more up to date and go in for a motor. (Laughter). The Corporation had laughed at this before – they generally did at any matter that was up to date. It was said that motors were not reliable but he had one that had travelled 3,000 miles in six months and never had a breakdown. Motor traction cost considerably less than a pony and trap - £20 a year including petrol and everything else. He proposed that they buy a motor tandem tricycle which would cost £75. c03 09 30

1904 Cambridge Town Council honoured Alexander Peckover, Lord Lieutenant of Cambridgeshire with the Freedom of the Borough in recognition of his services to Cambridge and his munificence to Addenbrooke’s Hospital and the Eastern Counties Asylum at Colchester which has made his name a household word in the neighbourhood. The address was enclosed in an ebony casket supplied by Messrs Cole of Market Street on which was a silver plate. It was, said Peckover, something he would value very highly. The casket would go down as an heirloom to his daughter. 1904 06 16

1904 At the death of Queen Victoria, a little more than three years ago, the Mayor of Cambridge started a subscription to provide a memorial. Plans for a substantial improvement at the hospital had to be abandoned but they agreed to procure a bust of the Queen from Thomas Brock. It was a magnificent work of art by one of the leading sculptors of their generation which the Corporation would always treasure. It would be an ornament to the Guildhall and retain an honourable position in that building as long as it lasted and then take a more distinguished position in more sumptuous surroundings. 1904 06 16

1905 Cambridge has regained a missing charter granted to the Borough in 1632 by King Charles I. It is plainly written in Latin upon a huge scroll of parchment but is mutilated by having a large circular patch cut away, possibly to cover a drum used in the civil war. It was presented by

the Royal Institution of South Wales who had found it amongst their ancient papers; how it got there is not known. 05 07 13a-c

1905 Cambridge Town Council wrote to Chesterton R.D.C. saying they wish to extend their boundaries to incorporate parts of Chesterton, Cherry Hinton, Trumpington and Grantchester. Chesterton are to reply saying they will give such project its most strenuous opposition. 05 10 05-b

1905 Cambridge Corporation's new Mill Road storeyard is nearing completion on land behind the Free Library. Here material for the repair and making of roads is stored, vehicles housed and mended and appliances for any contingency kept in readiness. It has a siding to the railway for granite or cement, an open shed for refuse vehicles and stables together with accommodation for two steam rollers. There are blacksmiths, carpenters and wheelwright's shops and a men's mess room 05 12 09a & b

1906 A Cambridge Ratepayer Association was formed: there was deplorable apathy over local government and many councillors resumed their seats without a contest. Members of councils were nominated and their actions controlled by a party. Contracts were given out, not to the lowest tender, but because one man belonged to one party and one to the other. They might run candidates for the town council and board of guardians irrespective of party politics. 06 10 19b

1908 first attempt by ladies to get seats on borough council [4.2]

1908 County Council negotiate over use of Town Council offices, would mean rebuilding Guildhall front & using all corporation property on South side of Market Hill - "would prove popular

1908 Cambridge popularity as residential town [13.2]

In the repair of 50 miles of sewer trenches and the laying of miles of concrete paving he did work which deserves well of the town. When he came the roads were in an indifferent condition, many without any foundation while others were merely coated with gravel. Now all the Macadam roads have been coated with granite. His efficiency was impaired by an attack of influenza and he died at his residence in Selwyn Gardens. 08 03 13

1908 Julian Julian appointed Borough Surveyor – 08 03 24

1908 The women candidates for Cambridge borough councillors have quickened interest in the recent elections. All though the day rumours of the arrival of the Pankhurst brigade were flying about with speculation that 50 militant females had arrived from London, but nobody saw any suffragettes. The crowd expressed their pleasure in cheers when it was announced that both the lady candidates, Miss Kennedy who stood in New Town and Miss Philpott who stood in Petersfield, had been defeated CWN 08 11 06 p3

1910 seek powers to acquire waterworks, fails [1.18]

1910 borough extension : Cherry Hinton support, Trumpington & Fen Ditton oppose [1.19]

1910 "it seems fashion to represent Cambridge as a sort of wolf which is seeking to devour its innocent neighbour Chesterton" [4.4]

1910 Trumpington amalgamation scheme discussed 10 08 12i 10 08 19b

1910 The scheme for extending the Borough boundaries so as to include Chesterton, Cherry Hinton and the urban portions of Grantchester, Trumpington and Fen Ditton was formally launched. The boundary with Chesterton is an imaginary line running down the centre of the river which presents legal difficulties over dredging. The river is used by member of the University for rowing but most of the boathouses are on the Chesterton side. The Corporation own a cemetery the parish of Fen Ditton. They have constructed a sewer and laid water mains along Newmarket Road and the land will no doubt be used for building. 10 10 07e & i & j

- 1911 Borough extension proposals defeated in House of Commons [1.20]
- 1911 Local Government Boundaries Act extends area of Borough by 2,224 acres & increases population by 15,785 people, three new Wards added, councillors increased to 42 with 15 Aldermen [4.17]
- 1911 First Labour candidate, for Romsey Town, comes bottom of poll [4.20]
- 1911 The Inquiry into the extension of Cambridge borough boundaries heard that Cherry Hinton was part of Chesterton Rural District and divided into two wards. St John's was obviously an outgrowth of the town while the old village was in St Andrew's ward. The parish had the expenses of sewerage as a result of which their rates were very considerably in excess of the Borough rates. But the old village had no sewerage at all, the drainage being by means of cesspools. 11 02 03c 11 02 10b
- 1911 The Local Government Board is in favour of the extension of Cambridge to include parts of Chesterton, Cherry Hinton, Grantchester and Trumpington. 11 04 07f
- 1911 Greater Cambridge editorial: Chesterton UDC will cease to exist, parishes of Cherry Hinton, Trumpington and Grantchester will be divided and urban portions come into Cambridge 11 05 19c
- 1912 borough council extension order marks new epoch in municipal history [4.10]
- 1912 leaflet issued "In memoriam of Chesterton whose spirit of independence passed away March 31 1912 at midnight" [4.6]
- 1912 Chesterton UDC members elected to Borough council [4.11]
- 1912 additional aldermen due to borough expansion presents seating problems in council chamber [4.5]
- 1912 Cambridge applies for County Borough status, would give power over secondary as well as elementary schools, control over main roads & would save them paying County rates [4.8,4.9,5.6]
- 1912 county borough status lost as blocked by Liberal Govt in return for support of Irish Home Rule Bill [446.18]
- 1912 The last meeting of the Chesterton Urban District Council recalled the changes during the last 40 years. Before 1880 there were no street lamps, no sewage system, no street watering and an imperfect water supply. The paths were unkerbed, there was no collection of house refuse, no medical officer, no sanitary inspector, no recreation ground and very few allotments. The population had risen from 5,000 to 12,000. Now councillors would help improve the Borough of Cambridge at large 12 03 08f
- 1912 Polling opened in the three contested wards of the districts to be added to the Borough – Cambridge Without, North and West Chesterton - under the most depressing conditions. Rain fell heavily which had an adverse effect on turnout. A sharp thunderstorm came on about midday, a very unfortunate time for those who wished to record their votes during the dinner hour. Some of the flashes of lightning were so vivid and the peals of thunder so heavy that doors and windows rattled while the rainfall was almost tropical in its intensity. In Chesterton East John Bester, who has done more than any other for the amalgamation with Cambridge, was returned unopposed. 12 03 22d
- 1912 Today the population of the Borough of Cambridge is 40,560. On Monday it will be 57,073. The extension of the boundary now brings in Chesterton and the urban portions of Trumpington, Cherry Hinton and Grantchester. These suburbs were inhabited almost entirely by people whose living lay in Cambridge but were separated from it by the River Cam or purely artificial borders. It means that the residents will now be under the care of the Cambridge Town Council. 12 03 29c
- 1912 Cambridge councillors – photos & notes – H.F. Cook, R.H. Adie, W.P. Hollis, W.B. Westley, Jack French, W.E. Morrell – 12 04 05a; J. Bester, Ald Feast, Ald Johnson, H.G. Gray, Counc Conder, Counc Mills, P.J. Squires, W. Hawkins, Counc Lambert – 12 05 05b

1912 Cambridgeshire County Council does not appoint its own clerk even though he has supreme control of the whole of the county business. Some councillors felt this would cause friction with various heads of department. But it should check extravagance, waste and overlapping which has been almost inevitable in the present state of affairs with separate departments based in different buildings around Cambridge. The new clerk will be a whole-time officer and the whole of the scattered staff will be directly under his supervision in the new County Hall to be constructed in Hobson Street. 12 07 26e

1912 Cambridge should be constituted a County Borough with power to manage its own affairs, an Inquiry was told. There had been a great deal of friction and dispute over roads At present if permission was required to open a drain the matter had to go first to the Borough and then the County. There was a considerable amount of overlapping of responsibilities and the whole thing was almost unworkable. As for schools: many county pupils were the sons of farmers and others engaged in agriculture and so education was designed for that class of scholar. 12 12 06 e & f 12 12 12

1913 County Borough : Sir George Fordham leads opposition on behalf of County - if Cambridge were taken away County would be unworkable; Cambridge claim that its residents have to pay half of the County rate in addition to their own [4.15,4.16,4.21,5.6]

1913 Ratepayers Association formed, begins in Chesterton & spreads to Borough [4.22]

1913 Guildhall extension proposed using ground floor for library, postponed to opposition from Ratepayers Association [4.12,4.13,4.22,5.3]

1913 County reimburse Borough £3,554 on account of expenditure on main roads but claim £9,772 from Borough for compensation due to recent expansion

1913 "not 25 MPs who knew what the question was ... members pushed into lobbies [5.4]

1913 The Cambridge County Borough Question is occupying attention to the exclusion of everything else. The Chamber of Agriculture says it would be disastrous to the county; they should urge the Government to raise the minimum population for a county borough to 100,000. Some voluntary arrangement would have been more economical and preserved the amicable relations between the two authorities. Now there is no reason to hope that there can be anything but a fight to the finish. 13 03 21 p4 & p6 CIP

1913 County Borough Bill, deputation to Prime Minister 13 05 02 p10 CIP

1913 County Borough bill, 2nd reading carried 13 07 04 p7 CIP

1913 Guildhall extension ratepayers petition - 13 07 04 p9 CIP

1913 County Borough Bill before Select Committee 13 07 18 p8-9 CIP

1913 Ratepayers petition against Guildhall extension 13 08 01 p10 CIP

1913 Cambridge Ratepayers Association is to adopt two candidates for the November council elections. The greatest thing was that they were non-political. It was ridiculous to see all the Conservatives on one side voting one way and the Liberals the other. Voting should be done according to the good a councillor thought would be done to the ratepayers. It was hardly the thing that when a man got too old for business he should think it was time to start in public life. They were some who had lost some of their faculties and could not hear. 13 10 10 p5 CIP

1913 Plans for alterations at the rear of the Guildhall were shelved after the Ratepayers Association raised a petition. They had to face a loss on the trams, the Borough Bill, Chesterton footbridge and other improvements and as the Colleges were building rapidly the town landladies found it hard to pay their rates. Now the County Council had decided to build their new offices in Hobson Street. They had been debating since 1907 and all the expense and time had been worthless. But the Free Library was over-crowded and disease was spread in libraries where people were constantly sitting together 13 12 19 p7 CIP

1913 The tolls at Reach fair have been steadily diminishing but the cost of proclaiming it and collecting the money were increasing. The time had come to discontinue it or for members of the Council to throw away their own coppers. But the deficit was trivial for such a historically

important event that dated back to the time of King John. What would Americans think if they recklessly dispensed with such an interesting custom for the sake of a few pounds? 13 12 19 p7 CIP

1914 Cambridge Ratepayers' Association are proclaiming that they have been the means of "scotching" the Borough Council's scheme for the enlargement of the Guildhall. ... the number of signatures obtained for their monster petition being a plain indication that the great majority of the ratepayers were against such a costly proceeding. One cannot but realise the need which exists for better Public Library accommodation, and it is to be hoped the dropping of the larger scheme will not prevent the work of extending and improving the Library being carried through. 14 01 23 CIP of

1914 At the opening of the new County Hall in Hobson Street the chairman thanked the Town Council for allowing them to use their council chamber and committee rooms for the past 25 years. In 1747 the old Shire Hall had been built on Market Hill above arches where butchers had their stalls on market days. In 1842 this passed to the town when a new Shire Hall at Castle Hill was ready for occupation. But the enormous development of administrative business had now brought the County Council again into the centre to this new commodious and economical building, finally bringing together departments previously distributed in all parts of the town. 14 02 06, a-c

1914 County Borough Bill Rejected in House of Commons. ... great jubilation the County ... Sir George Fordham but disappointment in the Borough, 14 03 27 CIPof

1914 Opposition to Guildhall Enlargement - resolution condemns ... if the Corporation require further accommodation for their officials, they should hire offices outside for the Education Department 14 04 10 CIPof

1914 Borough Council Sued by Sidney Sussex College, for taking (compulsorily) of a strip of land for widening of Sidney Street and Jesus Lane. Cambridge. The total claim amounted to about £2.650. 14 07 10 CIPof

1914 It was not until 1914 that the Government were induced to bring in a short Bill 'to remove various anomalies; ...under which married women, although otherwise qualified, cannot be councillors ... of a Municipal Borough. This Act received the Royal Assent on August 7th 1914 and Cambridge was the first place to make use of the Act, but during the war ordinary elections having been replaced by co-option, only one woman councillor secured a seat 38 05 31

1914 Mrs Keynes, wife of Dr J.N. Keynes, the Registrar of the University, has been elected a member of the Cambridge Town Council, the first lady to sit – Hull Daily Mail, 14 Oct 1914

1914 The Cambridge County Borough Bill (with which were included Wakefield and Luton) was defeated in the House of Commons. It would inflict great hardship on the county. If it were taken away the rest of the area would be almost entirely agricultural, some MPs said. But the County Council would be more efficient if all members represented agricultural interests rather than the urban interests of the Borough, the Cambridge MP contended. 14 03 27f; A farce – editorial – 14 03 27d

1914 It is with deep regret we record the death of ex-Alderman George Kett, J.P. It was only in November he resigned his council seat after long and valued service, having been Mayor three times. The firm of Rattee & Kett, ecclesiastical builders was founded in 1854 and he became head on the death of his father in 1872. The Catholic Church was erected under his direction but the work of his life was the restoration of Arundel Castle where 400-500 men were employed at one time. He retired in 1904 and his son, G.R. Kett is now head of the firm 14 05 08f

1914 Guildhall extension for library, education offices, juvenile bureau and Medical Officer of Health 14 10 02

1914 It was hoped that Cambridge municipal elections would pass off without a contest but the Labour Party, who are still without a seat, have decided to attack two seats. One of these is Romsey Town where Tom Orrey will again be the candidate for the sixth time. In Fitzwilliam

Ward we have the novel experience of a lady candidate for the first time under the new Qualification Act., Mrs J.M. Keynes, chairman of the National Union of Women Workers 14 10 02

1914 The Cambridge Borough Council meeting was notable for the fact that for the first time in the history a lady took her seat. Mrs Keynes, the new representative of Fitzwilliam Ward, was cordially welcomed by the Mayor. Being the first lady councillor she had not had to contest the election, but others should not take this as a precedent. If in the future a lady ever became Mayor then she would have the first call 14 10 23

1915 Education employees, clerks and officials working for the Corporation and who fall ill receive full wages for the first eight weeks and half wages for the next eight. This is in addition to the sickness benefit and means that they are considerably better off than when at work. But in the case of workmen the Council makes no payment at all, the scavengers and roadmen simply receiving their ten shillings sick pay from the state. Both sets of employees are essential to the town's welfare and it is unjust they should be treated so differently 15 02 12

1921 A serious position has arisen in connection with the scheme for the erecting of houses by Cambridge Borough Council at Chesterton Road & Milton Road. The site was purchased some time ago and prepared for erection of 60 houses by direct labour. Construction of roads and sewers put in place. But Minister refuses to sanction other work unless whole of expense is borne by local rates. Work to stop and town will have a building site which cost over £14,000. It is impossible to proceed with building scheme without Government assistance – 21 07 27c

1923 We regret to record the death of Mr J E L Whitehead, town clerk of Cambridge. He attended Emmanuel College and took the law as his profession, being articled to his uncle who was many years Borough Treasurer. He practised at an office in Alexandra street until he was appointed town clerk in succession to Mr Edmund Foster in August 1887. For many years he was a member of the Cam sailing club and was a prominent member of the Bijou Amateur dramatic Club and played juvenile lead in many of their productions c23 09 10

1923 Cambridge town council formally received the resignation of the borough surveyor, Mr Julian Julian. He said in a letter that work on roads, bridges, planning etc had been delayed and he had found that people had attributed these delays to the weakness of him and his staff. Councillor Stubbs said they had lost a brilliant surveyor. His department had been understaffed and he had been struggling alone and it appeared that he would not have resigned had he been given help c23 12 15

1924 Councillor Mrs Hartree was elected first lady mayor of the Borough of Cambridge. She accepted the honour as a representative of the women of Cambridge who desired to work side by side with the men in the service of their town. She had consulted some authorities, and some of the women, and it had been decided the best mode of addressing the Mayor would be “Mr Mayor” as usual. (Hear, hear and applause) c24 11 11

1924 There has been quite a fluttering in the political dovecotes at the nomination of a lady as Mayor of Cambridge. There are some anti-feminists who cannot bear the idea of a woman taking any prominent part in public life. It has been suggested that if the Liberals were determined to have a woman Mayor they should have chosen Mrs Keynes, but one can imagine the outcry if an attempt had been made to bring her back to the Council by way of the Mayoral chair c24 08 16

1925 council accept £2,700 in settlement of action against former auditors [2.9,5.24]

1927 Hearty congratulations to Mr A. Townsend, the Assistant Town Clerk, who has completed 50 years’ service with Cambridge Corporation. Hard work and a cheerful disposition have contrived to keep him young. The Town Clerk presented him with a silver cigarette case. Two more officials have completed 40 years’ service. Mr N.C. Hedge joined the Town Clerk’s department as an office boy and never left, while Mr H.E. Foster joined at the same time but later transferred to the Treasurer’s office. CDN c28.2.1927

1927 Premises in Peas Hill, Cambridge, may be acquired for the purpose of extending the Guildhall. Trinity Hall, the owners of nos 15 & 16 will sell for £5,500; Mr Sennitt will sell no.17 for £3,500, the price to include compensation for disturbance of the business and the tenant to have the option of hiring the premises until required by the Corporation. Corpus Christi College has agreed £2,200 for no.19. The Council is to apply to the Minister of Health for sanction to borrow the sum of £11,700 for the purchase c27 09 18

1928 arrangement over election of Mayors changed, to be nominated by groups in alternate years, Labour disagree [2.18]

1928 An inquiry was held into Cambridge council’s application to borrow money for the purchase of property in Peas Hill for an extension of the Guildhall. There was an increase of administrative staff and the offices were not adequate to enable the duties to be carried out

efficiently. With the acquisition of the property the Corporation would hold the entire island site which would facilitate the suggested scheme for the reconstruction of the Guildhall. They had been met in a conciliatory spirit by the owners of the property and a favourable provisional agreement had been arrived at c28 01 23

1929 discuss Guildhall enlargement, consider alternative site [2.19]

1930 ask for extension of Borough boundaries to include whole of Town Planning area [2.21]

1930 queen Victoria's portrait has been moved from the Council Chamber at Cambridge Guildhall and replaced by a fine picture of Mr George Fisher who was mayor in 1840-1-2. It was originally presented by his son, but owing to its dilapidated state was not hung at the time. His grand-daughter Miss Enid Hudson has contributed to its renovation, carried out by Messrs Perry Leach and Son.. It now hangs next to the portrait of the late Ald. Kett. 30 07 19

1931 seek Bill to acquire Waterworks Company, ratepayers reject it [3.1]

1931 first woman Alderman - Mrs Keynes

1931 Cambridge led the way in making it an offence to sell short weight of food. It was usual to sell butter by the yard, with each yard weighing 1lb [ONE POUND] and a penalty was imposed for those under weight. Its position of Inspector of Weights and Measures was also unique. Prior to 1856 the University held the powers and when these were transferred to the town they were granted the right to appoint an additional inspector should they feel dissatisfied. So far they have not exercised that right. 31 05 01b

1931 Mrs Keynes elected first woman alderman – 31 06 12aa

1931 The parishes of Histon and Impington will vote on proposals for an extended Borough of Cambridge taking in the rural district within a three-mile radius. There was little desire on the part of rural residents to come into the Borough, there was no real community or interest between them. Cambridge would really be a little county with a population greater than Huntingdonshire. But what was left of Chesterton RDC would be unable to function and the administration of the rest of the county would be extremely difficult. 31 08 21c

1931 An Inquiry opened into plans to expand Cambridge's boundaries. It was the centre for education, shopping and amusement for adjacent villages where people were still dependent on cesspools: these would be provided with a sewerage system. Less than 500 acres were available for building because of the attitude of certain colleges, but it was undesirable that Cambridge should be filled up as if it were a manufacturing town. Most of the new houses in Shelford and Trumpington were of the working-class type. 31 10 16d

1932 new Shire Hall site “shames town”, consider move to Parkside, report recommends new site

1932 Apart from the large hall and council chamber the Cambridge Guildhall is worn out and absolutely unsuitable. The accommodation in every department was deplorable – dark, dismal, horrid, unlit and unhealthy. On Castle Hill there was a fine new building being erected for the County Council who were planning to spend £8,000 on furnishing alone. Never since the war had prices in the building trade been lower; this was the right moment to consider rebuilding, councillors were told. 32 02 25 & 25a

1932 A new Cambridge Guildhall should be built on the corner of East Road and Parkside where the site is three times as large, meeting the requirements of the Corporation for many years. The existing Guildhall on Market Hill should be replaced with shops on the ground floor and offices and flats above, councillors have recommended. 32 06 04a, 06a, 06aa

1932 New Guildhall debate – 32 06 09a, 32 06 20 & a, 32 06 21

1932 Cambridge councillors say the municipal buildings should remain on the Guildhall site and not move to Parkside as had been proposed. It should be a worthy building, not surrounded by shops. With four floors they could provide 70 per cent more accommodation for officials but five would add to the dignity of the building and leave some surplus space that could be let and provide a source of income. But it must not overwhelm the market place. 32 07 15 c & d

1932 The new Shire Hall was opened with little ceremony in the presence of a handful of people. The Architect (H.H. Dunn) presented the Chairman, Ald W.C. Jackson, with a gold-covered key engraved with the County Arms with which he unlocked the door. Soon a stream of guests arrived and the corridors presented a most animated appearance. The council chamber is very similar to that at the old County Hall in Hobson Street from which all the seats and tables have been removed while every care has been taken to provide the maximum air, light and spaciousness to the offices. 32 07 15e & f

1932 A half-century of work in Cambridge was recognised when Alderman Florence Ada Keynes was elected as Mayor. She had been the first woman councillor and had served as Chairman of the Board of Guardians. Mrs Keynes said that they may be compelled to make cuts, but should not make a cult of economy. They should preserve the social services and promote employment. Something like 1,300 men and women were out of work, constituting a serious situation and bringing grievous loss to the workers; she hoped to mitigate the situation. 32 11 11d

1933 Cambridge boundary extension proposals – 33 03 25 & a & b

1933 The mallet and trowel used by the Mayor, Alderman Wace, at the laying of the foundation stone of Victoria Avenue bridge has been offered to the Council. He was the first to wear the Mayoral chain presented by Colonel Harding's family and the first, certainly in recent times, to be presented with a silver cradle on the birth of a son in 1890 during his year of office. 33 04 23

1933 Cambridge councillors considered schemes for the rebuilding of the Guildhall. One would alter the whole site, the other would set back the front but the building on Guildhall Street would remain untouched and would revert to being a court. But some councillors thought the Parkside scheme was still the best and would be far cheaper. 33 04 20c & d

1933 Guildhall plans – 33 04 14a

1933 An inquiry into the extension of Cambridge boundaries was told that Girton should be included. Most of the residents worked in the town and it was their shopping and amusement centre. The sewage could drain by gravitation into Cambridge drains which were already almost up to the boundaries. Chesterton RDC did have a scheme but it was a complete mystery. The Mistress of Girton College said the question of drainage was one of urgency and she would also welcome public lighting and refuse collection. 33 05 23 & a 33 05 24a & b

1933 Two ancient silver spoons were presented to Cambridge Corporation. They were part of a collection of plate sold by the Council in 1836 – in those days even property passed into private hands in return for a good dinner - now they wanted to retrieve them. They had bought back one of six spoons and were seeking the gem of the collection, a rose bowl. 33 07 06 p8

1933 The veranda or shelter over the main entrance of the Guildhall was disgustingly dirty and unsafe and should be removed, the Surveyor reported. It had been built in 1878 and the public should get used to the Guildhall without it because it would not be incorporated in the new

building. Others said it was a useful shelter and should be maintained at all costs: the Preservation Society would be shocked if they allowed that ancient piece of architecture to be scrapped. 33 08 11

1933 Boundary decision – bigger borough approved – 33 08 10 – allows expansion to take in Cherry Hinton and Trumpington as well as land off Arbury and Milton Roads

1933 Cambridge Guildhall dated back to about 1782 and there had been various extensions. In 1928 the Corporation bought shops in Peas Hill to allow for rebuilding. The possibility of providing shops on the ground floor had been considered but this would not allow sufficient offices for the extra staff needed to cope with their increased duties, an Inquiry was told 33 09 19

1933 Mrs Keynes 2nd woman Mayor review of year – 33 11 07

1934 An inquiry into the sale of land in Scotland Road heard it had been offered to the corporation by Mr A.E. Few in 1929 but they'd turned it down. The land was subsequently bought by a private individual for £2,600. But when it was needed for the Hundred Houses Society the new owner had sold it to the council for £3,200. It was a good profit but the inspector cleared the council of any maladministration. 34 04 10 [1.24]

1934 The Mayor and councillors performed the ceremony of 'beating the bounds' to mark the addition of additional areas to the Borough. They began at the east end of the cemetery grounds on Newmarket Road then toured Cherry Hinton before moving on to Trumpington where the new boundary begins on the town side of Long Road. Here the Mayor cut a light-blue silk ribbon before formally stepping into the new territory. Then after visiting the boundary a quarter of a mile beyond the L.M.S. railway bridge on the Shelford Road they were entertained to tea 34 04 03 boundary extended, now covers 10,000 acres (1910 was 3,200 acres)

1934 Alderman W.P. Spalding started the collection of portraits of Cambridge mayors at the Guildhall and it is now traditional for outgoing Mayors to present framed pictures of themselves. But one hung for many years as Charles Humfrey, Mayor 1837-38, has now been identified as being his brother. It has now been replaced. 34 06 30

1934 'Overture to Cambridge' had its premier at the Festival Theatre. The play, written and produced by the Director, Joseph Gordon Macleod, exposes the pettiness of Town Gown and University. It tells of an invalided idealistic Mayor who comes to be regarded as a madman. His wife is killed in a car accident, his daughter becomes deranged and he falls to his death whilst addressing a meeting after being 'debagged' by a crowd of undergraduates. As he hovers between life and death he sees the future, with people living in the co-operative ideal which he preached. 34 10 10

1934 An inquiry heard that in 1835 Cambridge was divided into five wards with 30 councillors and ten aldermen. This continued till 1889 when the University were given representation. Further changes came in 1909 and 1911 but the council was now a little unwieldy and numbers should be reduced. However the University representation would be unchanged 34 11 29b

1935 Elections held for the whole council (the next such were in 1973) and the first for the extended Borough area of 1934. A number of councillors fought each other and lost their seats, including the only Bradford ever to lose an election, Chris Bradford's grandfather. [Rosensteil Aug 2013]

1935 public meeting rejects scheme, but go ahead, Small Hall demolition starts October

1935 A packed public meeting at Cambridge Guildhall voted against plans for a new building and called on the council to remodel the front to a more dignified style of architecture. Cambridge was a treasure house of architectural gems and they had no right to hand down to posterity a freak building, a flat and uninteresting example of early 20th-century abominations. Another motion

dealing with the question of shops on the Peas Hill side of the building received scant attention as most of the audience had left before the end. 35 03 13 & a

1935 The Guildhall Protest Committee criticised plans for a useless portico of a most ornate and incongruous style which could be 'put on cold' in from of the proposed façade of the new Guildhall in two years time if the town really wanted it. The main entrance should be on Market Hill. It would allow a terrace which would form a platform for addressing meetings on Market Hill and give a façade of distinction that the people strongly desire. There was also intense feeling regarding the question of shops on the Peas Hill side 35 05 01

1935 Councillors argued over proposals for the Guildhall. Some wanted to spend £200,000 on the old building and still have a patchwork quilt, whereas they could have an entirely new one for £150,000. Peas Hill never had been and never would be a business centre and shops there would never be a paying proposition. The dispute had started with an unfortunate illustration of the façade in the 'Sunday Times' but the design was undoubtedly a dignified building of its kind and the average elector would vote for anything, if it were as ugly as sin, if it would only save a bit on the rates.. However Councillor Stubbs said if it had been built on Donkey Common as he'd suggested some years ago the council would not be in the muddle it was today. 35 05 16a & b

1935 Councillors argued over proposals for the Guildhall. Some wanted to spend £200,000 on the old building and still have a patchwork quilt, whereas they could have an entirely new one for £150,000. However Councillor Stubbs said if it had been built on Donkey Common as he'd suggested some years ago the council would not be in the muddle it was today. 35 05 16a & b

1935 The foundations of the Small Room of the Guildhall, which also supported the Borough Surveyor's room, are in such bad conditions that they must be demolished earlier than planned. It had been hoped to defer demolition until the Surveyor could move into the new wing of the Guildhall being built on Peas Hill. A ditch had been found under the site. Assurances were sought that the foundations of the rest of the Guildhall, especially the Large Room, were secure because weaknesses were not generally found in one spot but existed in veins all over the area. 35 10 17a

1936 Cambridge Town Council will make history when it elects a Labour Mayor for the first time. Having retired from the railway service, Ald W.L. Briggs will be able to devote the whole of his time to the duties. But his fellow citizens will not expect him to entertain on the same lavish scale that some Mayors have been able to do. Some people think the mayoral grant is sufficient to meet all demands made upon the holder, but this is not so and it is often necessary to dig pretty deeply into one's own pocket. Ald Briggs deserves further congratulations for he has just passed his motor driving test 36 11 7a cartoon 36 11 07b 36 11 09b

1937 Ernest Saville Peck elected Mayor – 37 11 09

1938 The demolition of parts of the old Guildhall has meant that several annual functions have lost their normal home. But a Mayoral reception elsewhere than in the Guildhall must surely be unique in Cambridge history. It is symbolic of the happy relations existing between the Town and the University that the Old Schools should have been placed at the disposal of the councillors. Cars containing guests pulled up on King's Parade and a lengthy walk under illuminated awnings led to the Dome Room. The Council Room, East Room, Syndicate Room and Regent House were in use but only the dais where the orchestra played for dancing was decorated 38 01 07

1938 The old Shire Hall on Cambridge Market Hill, was erected in 1747. At that a time the 14th-century Guildhall which stood on the south of Butter Row was under repair. This was pulled down in 1782 to be replaced by the Guildhall built by James Essex. Now demolition has revealed a fragment of the medieval Guildhall. Two pieces of ancient oak carved with leaves are thought to date from 1386. They will be replaced in the new building 38 01 14b

1938 The new Cambridge Guildhall basement could be regarded as splinter-proof and it would not be difficult to render it gas-resisting, the Air Raid Precautions Committee heard. If not done they could be criticised for allowing a public building without adequate protection and could not ask other stores or factories to comply with such regulations. But it would need to have 25 feet of concrete, with earth on top, to make it bomb-proof. It was absolutely and entirely impossible. 38 06 24a & b

1938 Half a century's changes in local government – 38 05 31j

1938 Women's part in Cambridge's progress: pioneers on Board of Guardians, council and bench by Ald Mrs F.A. Keynes – 38 05 31m

1938 Mrs F.A. Keynes has rendered magnificent service to Cambridge council; her election for Fitzwilliam Ward in 1914 followed the passing of the County and Borough Councils Qualification Bill. Previously a married woman, although otherwise qualified, could not be a councillor, whereas an unmarried woman could be. Mrs Keynes was largely instrumental in persuading the Government to alter this state of affairs and it was fitting that she should be among the first women in the country to be elected. She was elected first woman alderman of Cambridge in 1931. 38 11 12

1938 Queens' College have commenced a Chancery Court action against Cambridge Corporation seeking to prevent them from diverting the Cam at the sluice near the former King's and Bishop's mill so as to undermine the college buildings in Silver Street and seeking £5.150 damages for damage already caused. The Town Clerk has been instructed to protect the Corporation's interest and take any action advised by their counsel 38 12 10

1939 Guildhall built, old Shire House was pulled down to make room for it, corn chambers at lower left-hand side of central block [16]

1939 The new Cambridge Guildhall will be opened on October 9th by the Earl of Derby. The grand staircase is much more imposing than the old one, the new small room, complete with carpet, will be very convenient and the large hall improved though it is not nearly large enough for conferences, political mass meetings or big musical enterprises. The new Council chamber also seems on the small side and the aldermanic bench has been considerably shortened. 39 07 22b

1939 Cambridge Town council held its last meeting at Shire Hall while the Guildhall was reconstructed. The Library committee asked to use the Small Room as temporary reading room during the re-arrangement of the Central Library. But it had a very expensive carpet that might get spoilt. The library might use the Corn Exchange annexe if the cycles were moved. Ald Briggs said that was not a proper alternative: "The fact is that we have had made a beautiful Guildhall, but must not use it". The carpet could be taken up. But the Guildhall might not be finished by that time and it would be unfortunate if people were allowed in the Small Room before the rest were completed. The request was denied – 39 07 28b & c

1939 County council employees called up to fight will have their army wages made up to what they would have received. But what other employer would think of many up salaries in this way? They were already more fortunate than others because their jobs would be kept open for them. But they would have to be replaced meaning wages and salaries would be re-duplicated. Many people in business would have to close, others were working for nothing. Properties would fall into the hands of the receivers and rateable values go down, councillors heard 39 09 23

Cambridge does same – 39 09 35

1939 Guildhall first council meeting – 39 10 12a & 12b [and see Memories 20th Oct 2014]

1941 The Master of Pembroke, Sir Montagu Butler, was unanimously elected Mayor of Cambridge in succession to Ald. E. O. Brown at the annual meeting of the Town Council on Monday. Proposing his election, Ald. Pollock said few of the Council members would remember the last occasion when the Head of a college—Dr. Pearce—was appointed Mayor. Ald. Pollock recalled that Sir Montagu Butler, unlike some other College Heads who have served on the Council, was educated at Cambridge, taking a brilliant classics degree at Pembroke, at which college he was made a Fellow. He had been President of the Cambridge Union, and was one of four members of three generations of Butlers to hold the office, the others including his son, Mr. R. A. Butler, the present Education Minister 41 11 14 CIPof

1943 High Steward. —Lord Keynes, one of Cambridge's most distinguished sons, received the highest order that the town can bestow on Saturday, when he was appointed High Steward of the Borough in succession to the late Lord Eltisley. The presentation of the Grant of Office by the Mayor (Sir Montagu Butler) took place at a special meeting of the Town Council, in the presence of numerous spectators, representing the Town and University, who included Lady Keynes. Lord Keynes' father and mother (Dr and Mrs J. N. Keynes. with other members of the family) the Regional Commissioner and Lady Spens, the Mayoress and the Borough Member (Lieutenant Commander R. L. Tufnell) 43 03 12 CIPof, 43 03 06

1949 “as long as we can remember the question of Borough extension has been before the Town Council” [2.8]

1950 seek County Borough Status but minimum population required is 100,000 whereas Cambridge has only 75,000 [2.11]

1951 petition King for City status [2.13]

1951 City status granted [2.14]

1951 modified representation means 2 Aldermen & 6 Councillors represent University

1951 salaries increased : Town Clerk up from £1,650 to £1,850, Surveyor from £1,360 to £1,555 [2.12]

1955 A portrait of Thomas Hobson, the Cambridge carrier who gave the world his ‘choice’ may find a quiet resting place at the Guildhall, rather than be moved to the Corn Exchange. But the ageing portraits of other former city dignitaries are never again to adorn the decorated walls of the Large Room. They are all in need of renovation and were removed before the Queen’s recent visit. Two may be hung in the members’ retiring room 55 12 02b

1956 Under the Cambridge Award Act of 1856 responsibility for weights and measures in Cambridge passed from the University to the Town authorities. The Vice-Chancellor agreed to loan the University’s standard weight and measures provided the corporation kept them in order and returned them on demand, subject to a £400 bond. Now the University has decided to make the arrangement permanent and cancel any payment due. 56 10 23b & c

1957 Cambridge - Heidelberg exchange visit [3.3]

1957 Ald Mrs Clara Rackham retired from local government work having served on the city council for 40 years and the county for almost 30. Her greatest interest was education, especially

the Open-Air School. She was always forthright in debate but recognised the arguments of others and would be remembered with affection by fellow councillors, the Mayor said 57 01 23

1957 A Government White Paper proposes wider powers for councils such as Cambridge City who wish to be free from the control of the County Council. It says they should be entrusted with responsibility for services such as health, education, roads, town planning, libraries and licensing waste food boiling plants. But the city will still press for county borough status. 57 05 11

1957 The Mayor of Cambridge reminded two councillors that it had been the custom for 400 years that councillors should wear black gowns. He asked them to conform. But Coun Edwards said he was allergic to wearing a uniform of any kind and could do the job as well without a robe. The Mayor told him it was not optional and no one had refused in the past 57 11 29

1957 Arthur Emburey, City Treasurer – 57 12 18c

1958 death of Ald George Wilding, former Mayor 1944-45 – 58 04 08a

1958 The Corporation Storeyard, Mill Road was severely damaged by fire. The alarm was raised by storekeeper, Mr Frederick Tungatt, who lives at the yard. Employees brought their own fire-fighting equipment into operation but as fast as the hoses played water on it the blaze spread rapidly and soon a large section of a store roof became an inferno of flames. More men rescued equipment including 'No Waiting' highways signs. The way they went about it – just as if the property were their own – earned the admiration of the City Surveyor, T.V. Burrows. 58 08 14 & a

1959 If Cambridge became a county borough – Isle's reactions – 59 07 18c

1960s *The Cambridgeshire Collection has detailed newspaper cuttings files from this date*

1960 Local Government Commission draft proposals suggest County Borough status but eventually rejected; also suggest Cambs-Isle-Hunts-Peterborough merger; 'keep hands off Cambs' rally [3.13,4.1,4.2]

1960 Cambridge should be granted County Borough status and so control its own destiny, the Local Government Commission recommends in its draft proposals. But Cambridgeshire would not then be an effective administrative unit and should be merged with the Soke of Peterborough, Huntingdonshire and the Isle of Ely to be able to provide a comprehensive range of services. Royston Urban District should join the new county but Newmarket should remain in West Suffolk and St Neots be transferred to Bedfordshire. Now the recommendations will be subject to public consultation. 60 03 01 & a

1960 Proposals to amalgamate Cambridgeshire, Huntingdonshire, the Isle of Ely and the Soke of Peterborough into a new county have been described as 'local government gone mad' by the MP for Cambridgeshire. David Renton is also known to oppose any suggestion that Huntingdonshire should lose its separate identity and may resign from the Government if the proposal goes through. Major Legge-Bourke for the Isle of Ely says it is impossible for fenland areas to be efficiently government by people who do not understand their special problems. The only MP to welcome the proposal is Hamilton Kerr for Cambridge City who says he is delighted that the claim for county borough status has been recognised. 60 03 02a [3.13]

1960 Thousands of people gathered at Castle Hill to protest at the Local Government Boundary Commission proposals to merge Cambridgeshire into one administrative unit with Huntingdonshire and the Isle of Ely. There was no evidence any benefit would result. The wish of the City of Cambridge to govern itself as a county borough was criticised as an act of betrayal of the county of which it was the centre. It was better to be capital of an historic and ancient shire than to be a modern statutory creature. 60 07 01b

1961 Rating & Valuation Bill would deprive University (though not colleges) of charitable status & 50% rate relief; city happy since their ratepayers paying too much as University doesn't allow industrial concerns in city [14.2]

1961 Hopes that Cambridge would become a County Borough able to manage its own affairs have been dashed by the Local Government Commission. The improvement of county government should take priority: it could not be effective without the city and would have to be enlarged by taking in other areas. Cambridgeshire should join with the Isle of Ely to form one unit and the town of Royston should come into the area. The position of Newmarket has not yet been determined. 61 08 01

1962 Saturday closing for Guildhall, except rent & rates & Food welfare office [10.2]

1962 Cambridge City Council has made a third attempt in 50 years to gain the status of a County Borough Council. During the early 13th century Cambridge had gained its freedom from the county by a special charter from King John but in 1888 when the County Council was set up it came again under the county authority. Cambridge is a market town, the headquarters of many organisations and has a good record of local government. It is strong financially and would save £2,000 a year an Inquiry was told. This would help fund the new redevelopment scheme and sewage works as well as the appointment of a City Architect 62 10 02 & a [3.15,6.2]

1962 David (Ken) Quick succeeds Horace Ingle as Sergeant-at-Mace – 62 11 10 [3.16]

1962 A Council debate to decide whether to create a post of City Architect ended in chaos after the Mayor stopped discussion. A qualified architect is vital if development is to be continued with taste. Council estates were dull in lay-out and their roads were not up to modern traffic.

Uninspired planning must be stopped now. At a time when the Lion Yard, Museum site and City Road area are in the melting pot they should have the advice of an architect, some councillors felt. 62 01 04a City Architects department established after great debate [3.14,7.4]

1962 City architect's department dispute over set-up – 62 04 19a

1963 new valuation lists increases domestic rateable value by over 3 times, the rateable value colleges reduced; city treasurer asks Inland Revenue to review rating assessment of certain houses where blatant inaccuracies; Minister sees Oxford & Cambridge petition reconsider 50% rateable relief colleges under section 11 of 1961 Rating & Valuation Act [13.4]

1963 In 1956 college rating assessments were treated like those of offices or shops and increased three or even five times, one playing field assessment increased 11-fold. These figures were far too high and an appeal was lodged. Colleges make little demand on local authority services – not one extra place in a school, not one extra book in the Public Library, no extra policemen or inch of road. But there may be slightly more college drainage and refuse. They attract tourists who cause great expense to colleges whereas the entire financial benefit goes entirely to the city. They are not even charged a modest entrance fee to the private courts which are the sole reason for their visit – J.C. Bradfield, Bursar of Trinity College 63 02 06 & a

1963 The honour of being given the freedom of the city is the ultimate recognition of service to the community. But there are no privileges attached. Amongst those elected have been Kitchener of Khartoum, the Cambridgeshire Regiment in 1901 and 1946, the US Eighth Army Air Force and Alderman William Raynes in 1951. Originally people could pay to become freemen meaning they could practice their trade, graze animals on the common and hold a booth at Stourbridge Fair. Since 1931 it has been technically possible to apply but nobody has done so. 63 04 25c

1963 Mr R.A. Butler, the Deputy Prime Minister, has been appointed High Steward of the City of Cambridge, a distinction only conferred on outstanding men 63 04 29 63 04 30

1963 The Government decision to reject Cambridge City Council's claim for county borough status was described as a 'profound disappointment'. Although its case has been recognised Cambridge is to again be sacrificed on the altar of rural interests, councillors feel. The Local Government Commission says the administrative counties of Cambridgeshire and the Isle of Ely

should be amalgamated to form one local government unit and that Huntingdonshire should join with the Soke of Peterborough 63 08 02

1963 Sir Keith Joseph, Minister of Housing and Local Government ,has refused to change his mind about the administrative future of Cambridge and will not grant the city county borough status. The Town Clerk, P.M. Vine, who was part of a deputation including MP Sir Hamilton Kerr, that travelled to Whitehall, said “We did not get very far”. The Minister thought the decision would be a good thing for the whole area – 63 10 29

1964 Kerr introduces bill on Colleges Rating Relief (Oxford & Cambridge) to remove charitable status [13.4]

1964 The House of Lords has approved two orders amalgamating Cambridge and the Isle of Ely and Huntingdon and the Soke of Peterborough into two new counties. The orders seem to permanently exclude Cambridge from becoming a County Borough: it was so important a factor in the new county that to remove it later on would destroy the county’s viability. Peterborough had been in favour since it might then become the capital of the new administrative unit and eventually perhaps get its own county borough status. But then they changed their minds. 64 03 06d

1969 Ratepayers force council to hold a public vote on their Private Bill aimed at giving council wider financial powers and improve building lines – 69 12 23

1969 proposals for Cambridge Corporation Bill rejected when ratepayers force poll (though only 6% vote) [8.1]

1969 Labour plan to abolish University seats, fails [6.8]

1970 Maud Report - Local Government Commission; proposes 3 levels - province (Norfolk, Suffolk to Lincs; 3 unitary authorities & local councils; Cambridge would lose most of powers; would start 1973 but Labour Government defeated at election [4.5]

1970 University students apply for city electoral lists - affects Market Ward & Newnham [15.1]

1971 John Elven, Tow Clerk, reflects over five years in Guildhall – 71 12 04

1971 Local Government reorganisation : city support city-based county with 7 administrative districts but 'regarded with suspicion & almost hatred' by county councillors [4.3]

1971 Guildhall News" issued as advert in CEN [6.9]

1971 Government told to scrap University seats but keep Aldermen [6.10]

1972 By ceasing to have University councillors on Cambridge city council when local government is reorganised, Cambridge would be losing the benefit of wise men's counsel, the Deputy Mayor, Mrs Jean Barker said last night. "I personally regret the passing of the university councillors elected by the university, although I know it is considered undemocratic, but we had some outstanding brains working for us". In her year as Mayor, Mrs Barker attended 290 social and other functions, 76 in company with her husband, Mr Alan Barker, headmaster of The Leys School c72 10 13

1973 Local Government Re-organisation proposals abolish aldermen & University representatives on City Council, transfers responsibility [6.14]

1973 new District Council elected, work in tandem with City Council for a year [6.15]

1973 John Elven appointed County Clerk, Bedford, Datson appointed Town Clerk & Chief Executive District Council [6.16]

1973 staff ill through work [6.16]

1973 Cresswell appointed -surveyor [7.9]

1973 Labour have taken control of the new Cambridge District Council with a landslide win over the Conservatives. When the final results were declared they had a clear majority of 10 on the new district council which supersedes the city council on April 1 next year. This is the first time in Cambridge local government history that Labour have won overall control. The Mayor of Cambridge, Ald. Stanley Bowles, a former Conservative leader on the city council was defeated. He will continue as mayor until the city council ceases c73 06 10

1973 Mr Geoffrey Datson, Deputy Clerk of Cambridgeshire & Isle of Ely County Council, has been appointed Chief Executive of the new Cambridge District Council. Yesterday Mr Datson said he was "very pleased" about his new job. "The interchange of staff between the county council and the city augers well for the future" he said. It may be some time before Mr Datson knows his exact salary. The committee wants to pay him at the top end of the nationally agreed scale for chief executives. This scale goes up to £8,300 a year c73 07 14

1974 publish Cambridge Blue Print - statement of objectives & policies [6.18]

1974 The Queen has agreed to allow Cambridge to remain a city after local government reorganisation takes effect on April 1st. Her decision means that the ancient office of Mayor of Cambridge will continue. The new mayor will be Councillor Jack Warren who has been chairman of the Labour-controlled district council since their formation last June c74 02 25 [4.5]

1974 Cambridge councillors voted to end a 400 year civic tradition when the District Council, who take over at the end of the month, voted to make the wearing of gowns optional on ceremonial occasions only. The custom dates back to 1558. Councillors wore simple black gowns

and aldermen scarlet gowns on four special “scarlet days” and black gowns at other times. Councillor John Powley said he had some regrets against seeing the end of such a long established tradition. “I shall not be disposing of my gown. It may be going into mothballs, but it may well be coming out again in two or three years time c74 03 09 [6.17] [7.11] [The Local Government Act 1972 provides no means of enforcing the ancient rule so the council had little choice in the matter (Rosensteil Aug 2013)]

1977 Heidelberg Garden opened [10.5]

1979 controversy over proposals to alter house in Orchard street, Mayor calls for resignations & locks documents in his office [7.1]

1983 County Hall sold to college in one biggest deals in city location many years, £1.25M [446.13.7]

1983 County establish formal links Kries Viersen [12.4]

1985 Cambridge City Council Act passed without difficulty : gives up-to-date control over commons, grazing rights, fairgrounds, recreation grounds & river [7.12]

1986 Cambridge sign friendship Szegred, Hungary [12.5]

1986 Heidelberg link – 86 04 28a & b

1987 city staff move from Kett to Mandela house but made need to move back due staff increase [NS.1.9]

1987 Ken Quick is retiring as Sergeant-at-Mace after 25 years during which time he has advised new Mayors of Cambridge and acted as their chauffeur. He was also Town Crier, donning top hat and red coat twice a year at the Midsummer and Reach fairs. When the Queen visited in 1984 he had to push the then mayor, Coun Betty Suckling, in a wheelchair as she had broken a leg. Until 1974 he worked on Christmas Day when civic visits were paid to the sick in hospital. His dedication was recognised with the award of the British Empire Medal. Now he hopes to write up his diary – but promises that no skeletons will be brought out of the cupboard 87 04 08 87 04 11

Guildhall construction 1936

161.58

c.35.78 : Guildhall headlines

1772 new Guildhall built to designs by James Essex; it was partially obscured behind the Shire House of Hall which moved to Castle Hill in 1842. Before long the Guildhall was too small & very inadequate

1897 Belcher design 'preserved simplicity & avoided the charge of unnecessary extravagance; cost estimated £40,000 with likelihood would rise to £60,000; considered extravagant & dropped. Meanwhile existing building had municipal offices & police court tacked on but by 1920s overcrowding was back again.

1932 decided to rebuild, design of C. Cowles-Voysey selected; design provoked outcry, protest committee formed March 13 1935, public meeting held which attacked designs. Despite protests began 1936, finished 1939.

Plans to demolish old hall & small hall & finish with concert hall 26.1.85 [9A]

In 1920s used for range events - civic receptions, stately balls, political meetings, diocesan conferences, bazaars. Concerts classical, choral, chamber, orchestral, Pop concerts. Concerts by Millers orchestra ... Messiah, Vaughan Williams great Sea Symphony conducted by Cyril Rootham with composer in audience; Max Arnold, Irene Flanders, hall packed for lecture by Arthur Conan Doyle on spiritualism - failed to materialise finest hour visit of Queen on 20 Oct 1955 when came open University school of veterinary-medicine - first official visit by reigning sovereign to Guildhall 5.6.64 [35.7-9B]

Voysey plan - 3 phases [see 10.1]

Guildhall :

1842 Shire Hall building arches sheltered Shambles of market stalls, filled in and lower portion housed municipal offices

1859 open competition for plans for new municipal offices on large scale; small part to be carried out immediately including Assembly Room to hold 1,4000, Free Library & Reading Room, Town Clerks offices, committee rooms, telegraph Office & School of Art intended at future time to build Corn Exchange, Council Chamber, Magistrates & County Courts, more committee rooms & Post office modified as went on but Assembly Room (now reduced to seat 700) & lending Library underneath finished 1865

1875 Corn Exchange

1884 Reading room

1893 Butter Row narrow alley behind Shire House leading to front of Guildhall closed

1895 county & police courts & certain extensions to borough offices

1939 Guildhall built, old Shire House was pulled down to make room for it corn chambers at lower left-hand side of central block was place Corn Exchange built to replace [16]

1893 Church Industrial School Victoria Road closed [3.1]

1894 Ross Street Boys opened [2.21]

1895 Union Road Roman Catholic School enlarged [3.6]

1896 Park Street Higher Grade opened [3.4]

1897 St John's Church Infants opened [3.14]

1898 St Mary's Convent started when convent at York decided sent nuns to Cambridge to teach; started Park Terrace; 1914-18 many Belgian refugees received; by 1981 leading private

Roman Catholic school for girls; 1984 dropped 'Convent' becoming legally & financially separate from Convent on site [12.3,1.24]

1898 St Augustine Church School opened [3.12]

1899 East Road School opened, St Georges school (started as Barnwell 1835; taken by military Nov 1914 to May 1915) [1.1,12.6]

1899 It is a piece of good fortune for suburban Cambridge that Homerton New College have provided what is bound to be a first-rate elementary school for New Cherryhinton. The Morley Memorial School, at which teachers will be taught to teach, should be a model school and the most approved methods of education will be pursued in it. The memorial stone was laid by a son of Mr Samuel Morley whose life unobtrusively devoted to the highest interests of his fellow men is one that deserves to be held in deepest honour 1899 07 08 [1.10]

1899 Morley school opened, 1899 11 04 p3

1900 Cambridge British School Fitzroy Street rebuilt Brunswick Terrace [3.5]

1900 Morley Memorial School opened; named after Samuel Morley head of hosier & knit-ware firm who used wealth to promote philanthropic work & responsible for Cambridge YMCA; was practising school for Homerton college, transferred council 1905; 1st in Cambridge with PTA [10.4]

1900 The action taken by the Technical Education Committee in opening technical day schools in Cambridge has brought about a situation which is of the highest interest to the future of education in the town. To put the matter plainly the Governors of the Perse School conceive that the new schools, at which the fees are much lower, threaten their prosperity, if not their very existence. They say that boys are likely to leave the Perse – indeed it is an open secret that some have already left. There is no doubt that the Perse is no longer what it once was – a school for the children of persons of small incomes. Fees of up to £20 a year must depend entirely upon the well-to-do CDN 1900 10 29

1900 Cambridge & County School opened 1900 specialising in agriculture – history – 90 07 05b

1901 New Street School taken over as Practising School by Homerton College [3.15]

1901 The Cambridge British Schools removed to handsome and commodious premises in Auckland Road abutting on Midsummer Common – an exceeding pleasant site where there is plenty of light and fresh air. The common will in summer afford an excellent playground for the boys and a playground for the girls and infants is laid out within the confines of the school premises. Accommodation is provided for 706 scholars and the school is already all but full. Hitherto the scholars have been educated at schools in Fitzroy Street but these buildings have become antiquated c01 01 19

1901 New Street school opening, CDN 1901 02 08 p3

1901 The new British Schools in Auckland Road, Cambridge were formally opened. The three departments – boys, girls and infants – are handsomely accommodated. Mr Alexander Peckover said education was different now from what it was when he was a lad. Then it was a common thing for a mistress of the house to have to make up the washing list – (laughter) – because the housemaid could not do so. He was a banker and a good many of their clients could not even sign their own names CDN 1901 05 03

1901 An Old Perseans Society was formed at a well-attended meeting held in the School Hall. Among the objects of the new organisation are united support of the school in all matters concerning its honour and welfare whenever occasion demands, and the compilation of a register of Old Perseans. It was a particularly suitable time for the formation of such a society at the close of a long connection with the school of the late Headmaster who struggled long against adverse circumstances, and at the arrival of a new Headmaster, Mr W.H.D. Rouse c01 12 28

1902 Education Act makes Borough the Education Authority for primary schools & subject to the jurisdiction of County Council for Higher Education [5.6]

1903 Wellington Street, St Augustine's & St John's Church Schools closed [2.16]

1903 Boys High School Hills Road opened [4.13]

1903 Passive Resistance movement starts - Citizens League for Cambridge founded, conference held. Members refuse to pay portion of their rate which used for schools & several have their property auctioned off by court to raise the money [5.5,5.8]

1903 The policy of passive resistance to the Education Act by the non-payment of the education rate is now being widely adopted in Cambridge. A marked increase in the number of those refusing to pay has taken place since the manifesto by Cambridge Nonconformist ministers. Before its issue local Nonconformists who had merely pledged themselves to passive resistance were to be numbered by dozens. Now at least 200 have withheld that part of the rate they consider would be apportioned for education purposes c03 06 04

1903 Cambridge burgesses who for conscientious reasons refuse to pay the Education Rate appeared in court. Large crowds packed the entrance as cheering in the street heralded the approach of the passive resisters. The decorum of the court broke down and applause gave way to lusty cheering which the police made no effort to subdue. George Shippey said public money should not be devoted to denominational teaching. Benjamin Liles of Fitzroy Street said the Education Act violates the British Constitution; hitherto he had an opportunity of taking part in the election of the persons who made the rate, now he would have no voice and that was why he refused to pay. c03 09 11

1903 Goods seized from Passive Resisters for the non-payment of the education rate were auctioned at Cambridge Corn Exchange. Due precautions were taken to prevent unseemly disturbances. The auctioneer was enclosed in what resembled a laager, composed of corn merchants' desks and a large number of constables kept a vigilant watch on the crowd who clambered upon desks to obtain a clearer view of what was going to happen. No sooner had the auctioneer started than his words were drowned in a perfect storm of hooting and hissing. c03 09 12

1903 The Cambridge & County School for Boys, which during the past four years has been very insufficiently accommodated at St Columba's Hall, reached an important stage in its career. The builders were displaced by the boys at the new school house that has been erected upon Hills Road and henceforth the scholars will participate in the manifold advantages that the most approved educational equipment, utilised amidst ideal surroundings, can supply. Few buildings can possess such a curious means of access. The boys are to make their entrances by means of a slope leading into the basement where they can leave their bicycles, hats and coats before climbing a broad staircase to the ground floor. c03 09 25

1903 About 400 people were present at a meeting to support Cambridge council's decision to erect a boys' school in Romsey Town to accommodate not less than 500. If ever a district needed a school it was that one. The council had voted in favour by 23 votes to nine but four gentlemen had appealed against it. What larger majority did they want. Romsey required a school in which their boys could secure a proper education without going into the town. c03 09 26

1903 The Cambridge and County School for Boys was formally opened bridging that gulf from primary to higher education which has been such a blot on our new national system; now a secondary education is placed within reach of that very wide class previously content with elementary education only. The progress of the school has been phenomenal; on the opening day three years ago 41 boys presented themselves; each term saw an increase and now there are no fewer than 210 scholars. c03 11 05

1904 Leys School new chapel & swimming baths opened [1.3]

1905 Kings Street Higher Grade School closed [2.6]

1905 Brunswick Terrace becomes first Council School in Borough [3.5]

1905 The new Romsey Town School is almost in a state of completion. The registration of intending scholars has been taking place while the painters are putting the last coats of varnish upon the interior woodwork. All that remains to be done consists of the arrangement of the furniture. There are separate entrances for boys and girls and the asphalted playground is divided by a wall to separate them during play hours. Trees have been retained providing a charming environment which will be made more delightful when the flowerbeds have been filled. 05 08 31 a/aa [1.21,3.18]

1905 The vicar of St Philip's Church Cambridge recalled he had opposed a scheme for abolishing the boys', girls' and infants' Church Schools in Ross Street. There would now be a new mixed school where nonconformist children would relieve religious instruction – but not from him. If parents cared for Church instruction they should fight to keep Ross Street schools open and support the new master, Mr Meakin. 05 09 22a & b

1906 A difference of opinion has arisen between parents of children and the Managers of the Morley Memorial Schools over the practice of opening afternoon school at 1.45 instead of two o'clock. One mothers say it is highly inconvenient: "My husband comes home to dinner at ten minutes past one; we sit down to eat five minutes later and my children have to 'bolt' their dinner and rush straight off to be at school by twenty to two. I'm sure it does them no good." But the managers say parents had asked for the change. 06 03 15 & 15a

1906 Two large meetings of Cambridge church people passed resolutions strongly condemning the Government's Education Bill. The Bishop of Ely said the dying of church schools would only be a matter of time. Religion was the only part of education worth having, the great question was how it would be taught. The Bill denied parents the liberty to have their children educated in the faith which they themselves held. 06 05 26d e

1906 Girls County School should be erected to be convenient for girls coming by train – Mill Road 06 07 05a

1906 County Girls school site problem 06 07 05s

1906 Site of proposed Higher Grade School near Parkside 06 07 12d

1906 Morley Memorial Schools have been extended by a couple of wings. One contains three classrooms and the other has rooms fitted up for cooking and carpentry. Around the infants' classroom have been placed drawing slates – or rather ground glass backed with a dark preparation – at a suitable height for children and the corners of walls are rounded off to allowing no dirt to collect. The whole block is eminently convenient and suitable to the necessities of the infant life – a point too often lost sight of in the construction of schools. 06 10 25d

1906 The fact that St Matthews's Infant School in Sturton Street was offered for sale by auction may be misconstrued, especially as some say it would be suitable for a club or warehouse. But the question of discontinuing instruction there has never been mooted. It was erected as a speculation by the late Mr B. Clifton and let to the Vicar. Now the executor wishes to realise the property. It is purely a business transaction and devoid of any relation to the education question and its local consequences. 06 12 01a

1906 The condition of Eden Street Higher Grade School gave cause for concern. The small infants room was encumbered with a huge gallery and another received practically no light. It had no playground and there could be few places in which so many children were crowded together on such a small site. Only because the staff was very efficient and the children very teachable did instruction meet with the success to which reports testified. 06 12 12 & a

1908 Milton Road Council School built to stop 360 boys & girls crossing river to St Luke's & St Andrews, which full; the first public elementary school created by County Education Authority [4.3,4.14,4.15,10.5]

1908 Girls High School Collier Road opened [4.13]

1908 St Luke's school memorial to Berridge – 08 04 04b

1908 Melbourn Place new schools plans – 08 05 14 & a & b

1908 The magnificent new schools at Milton Road, Chesterton have been equipped with every facility for instruction. Instead of sitting in cramped positions at unsuitable desks the tiny tots will be accommodated with seats to suit their various sizes and their lessons based on the Froebel principle, combining amusement with instruction. They mark a distinct advancement on elementary educational methods and the County Council is to be congratulated. CWN 08 08 21 p4

1908 See the children assemble in the great hall at the new Milton Road school. From the classrooms come files of boys and girls, not in perfect military style but in very fair order awaiting an instruction that playtime has arrived. The word given, the boys swing out of one door, the girls out at another and the paved playgrounds, separated by an iron partition, resound with merriment. Boys learn woodwork under Mr Holt and the girls commence cookery instruction under Mrs Walker of Cheveley. CWN 08 09 04 p5

1908 Allegations that a feud exists between the boys attending Milton Road and St Luke's schools is not entirely borne out by investigation. When the Milton Road School was opened a number of boys attending St Luke's migrated. Installed in the new school they 'put on side' which was too much for their late friends and some small battles ensued. This reached the ears of the authorities and they were punished. Since then rival feelings exist only in the breasts of two or three lads and possibly a snow storm will enable both sides to wipe out all accounts. CWN 08 12 25

1909 Richmond Road school opened [4.2]

1909 Commenting on plans for the Melbourn Place Schools the Board of Education thought whole building appeared to be designed on too lavish a scale. On one hand they kept an infants' department, though cutting it down to absurdly small dimensions, and built no laboratories. On the other hand they greatly exceeded the normal for the central hall. The size might be reduced and the external ornament omitted. But this was more than an ordinary elementary school and to get the facilities required money must be spent CWN 09 08 06

1909 We deeply regret to record the death of John Austin Catchpole. Few men have struggled more bravely under physical infirmity. Born in Cambridge 65 years ago he showed promise of developing into a healthy boy when the carelessness of a servant girl crippled him for life. Left in her charge, he was seated upon wet grass, illness ensued and his lower limbs became permanently paralysed. Unable to go to school he was tutored at home and decided to become a schoolteacher. He started the Auckland School private school which at one time had 60 boys upon the register CWN 09 08 27

1909 The staff and scholars of the Cambridge and County School for Girls have left the unpretentious and inconvenient building in East Road and are safely ensconced in a brand new school built on the most scientific lines and equipped with everything the modern educational establishment requires. It is approached by a drive from Collier Road and surrounded by ample grounds CWN 09 09 17

1909 The magnificent new home of the Cambridge and County School for Girls is compact and central, calm and commodious and includes laboratories for chemistry and domestic science together with a hothouse for the study of botany. Its object is to provide a sound practical middle class education at a moderate fee. The adjacent School of Arts and Crafts has rooms for life-painting, modelling and geometrical drawing. They were opened by the American ambassador CWN 09 10 22

1911 Dr W.H. Rose, headmaster of the Perse Grammar School was summoned for caning a pupil. The lad lived at Landbeach and cycled into Cambridge every day, a distance of about five miles. Ash Wednesday was a half-holiday but boys were required to attend in the afternoon. The lad had got ready but the day was very rough with a high wind. There was no train service and his mother, considering the weather, told him not to go and she would send a note next morning. But next day he had been caned and sent to detention for two hours. Dr Rouse said he did not know there was a valid excuse and expressed regret the boy was punished. 11 04 07 & a

1911 Girls at Eden Street school Cambridge should be taught domestic subjects and home making such as bed-making, plumbing and white-washing. Ald Campkin thought children ought to learn how to make beds at home and in poorer districts people had very little to cook. Ignorance of sanitation was appalling and when laundry classes were first started there had been considerable opposition, but they had been a success. However councillors objected to spending more for a trained teacher: this could be done by the present staff 11 08 11k

1911 A number of Cambridge schoolboys 'came out' on strike, some because they had a half-holiday and others because they hadn't. Some say there were several hundred boys and girls carrying 'On Strike' banners and they had chalked the same on the doors of their schools. They held a mass meeting on Christ's Pieces then marched down Emmanuel Street where they came into contact with the police (one constable). The demonstration then collapsed. But teachers say there was no strike. They were not schoolboys but hooligans; they made a disturbance outside the school but the flashing eye of the schoolmaster made them retreat 11 09 15c

1911 Melbourne Place school tenders – 11 12 29a

1912 enlargement of the Borough brings three extra schools into Cambridge [4.1]

1912 The merry sound of children's voices and laughter brought many of the residents in Melbourne Place to their doors. A host of happy schoolboys were sporting on the greensward where the old tennis courts used to be and now forms the site of the new higher grade schools, just about to be erected. A file of girls was entering from the Eden Street end while a troop of Boy Schools was drawn up, colours fluttering in the breeze near a piece of ground marked out with surveyors measuring staves. They had come to see the Head Master and Head Mistress turn the first sods on the spot where the new schools are to be built. 12 03 01a

1912 Work on the new schools in Melbourne Place is practically at a standstill owing to the strike and 50 men are idle. The contractors cannot get delivery of the facing bricks they require. "We have several thousand blue bricks on the rail somewhere between Staffordshire and Cambridge" said Mr C. Kidman. "We are promised red bricks a month after the brickmakers receive coal but they cannot get any". An interesting little machine with massive steam-powered steel jaws was champing up bricks from the curious little row of cottages which had no back premises and no back windows. Five trees had been cut down to provide log for fuel for the engine. 12 03 29f

1912 The last speech day of the Higher Girls School in Eden Street was held; soon staff and scholars will be at work in the magnificent new buildings in Melbourn-Place. History of school reviewed. 12 07 26 I & j

1913 Eden Street & Paradise Street Higher Grade Schools closed [3.2,3.3]

1913 Melbourne Place Higher Grade School opened [4.4] 13 03 07 p9 CIP

1913 The Trustees of the 'Hope' Classroom in Paradise Street have offered to present it to the Education Committee for educational purposes. The Trustees of Eden Street Higher Grade School also offered their site and building for educational purposes on payment of £200 to be invested in maintaining the St Andrew the Less Parish Institute in Fitzroy Street. The school had been closed down because the buildings were too bad and a new one built in Melbourn Place but could be used for instruction in domestic subjects 13 02 21 p7 CIP

- 1913 Newnham Croft school debate 13 10 24 CIP
- 1913 The Perse School was in crisis, they had acquired Pendene House to expand their boarders but to pay for it they had to sell Fratinghall Farm at a heavy loss on the original value of the property due to the depression in agriculture. In 1882 it was worth at least £10,000 but they had received just £4,600. To get any rent at all they'd had to build new cottages and make improvements, all of which money was lost. But next year marked the 300th anniversary of their foundation and they were launching an Endowment Fund, the Speech Day audience heard. 13 11 07 p9 CIP
- 1913 At the North Terrace School prize giving the Master of Downing said education had very much improved of later years. He remembered when his sisters were drilled at their French grammar like so many soldiers and there was 'thimble pie' in reserve. Education nowadays was very much less formal and more happy. Two things he was pleased to see at Miss Keen's school were Swedish drill and swimming. The girls should educate themselves, train their hands in embroidery and sewing and learn to darn their own socks. They should keep their tempers and be kind to everyone. The school was run purely by Miss Keen and run by the side of schools which were subsidised 13 12 12 p05 CIP
- 1913 Miss Street was appointed the first headmistress of the Perse when the school opened in January 1881 and retired in July 1909. She was signally successful: the numbers rising from 16 to 206. That was before the founding of the Girls' County School and then there was a slight decrease 13 12 12 p5 CIP
- 1914 Passive Resisters day Guildhall [5.11]
- 1914 King's Visit - Six thousand schoolchildren will next Thursday line the streets .Although visit is to the Leys School. King will proceed to the school via Newmarket Road, East Road, Lensfield Road and Trumpington Road. Upon arrival will be received by a guard of honour and met by headmaster and members of the governing body. Will view memorial South African War, inspect the gymnasium, swimming baths, science buildings, etc 14 04 24 CIPof 14 05 01 [1.11] 14 05 01e f g h
- 1914 Labour Party ask for free elementary education but large number of parents prefer to pay fee [6.7]
- 1914 Melbourn Place school taken over as billets for troops, pupils go to Emmanuel college & St Andrews street lecture hall [6.8]
- 1914 Cherry Hinton has a non-provided school with teaching of a definite Christian character. It was founded by Rev Buick Bridge and later benefactors added to it bit by bit. But it was not built to meet the ever-increasing demands of the Board of Education and 14 years ago was placed on the black list. Now it has been improved with a storeroom and staff room, modern classrooms and cloakrooms with hot water. The playground space had doubled and a field rented so the children could use it for games. 39 01 28b
- 1914 Teachers' Scale Criticised. — A meeting to consider the new scale of salaries for the County. Mr. H. G. Powell, who spoke on "The Salaries Movement in Cambridgeshire", said the increase in teachers' salaries had been anticipated for a long while. Teachers in Cambridge could not congratulate themselves on the generosity of their salaries. Class teachers were not paid well enough to enable them to fulfil their proper duties. It was impossible to obtain a man's highest standard for a paltry £120 a year, and it was unfair to pay fully qualified teachers that amount (Applause). A member of the Education Committee has expressed the opinion that it was

impossible for a secondary school teacher (then grammar school) to live decently on £160 to £170 a year 14 07 31 CIPof

1914 Higher Grade Pupils based elsewhere as soldiers have school 14 10 16 (see c. 45.5)

1915 Newnham Croft School opened [4.6]

1915 "Active Humbugs,"—Three passive resistors who still persist in their refusal to pay the educational portion of the Poor Rate, appeared at the Cambridge Borough Police Court on Wednesday summoned for the non-payment of the same, and received little sympathy from the Bench. The appearance of their names among the rate defaulters was the subject of strong magisterial comment, the Mayor (Mr. W. L. Raynes) on one occasion remarking: "Passive resistors are better described as 'active humbugs'" 15 04 02 CIPof

1915 Troops occupation of County Girls School and others – to pay rent, taxes, dilapidations 15 04 23 p6

1915 Chedworth Street school finished but as would probably be required for military use the range, cooker and boiler should be postponed for time being 15 06 11 p6

1916 Cambridge Open Air School opens in cottage, Vinery Rd, for children excluded on medical grounds from attending school [Cam p120,6.9,11.2]

1916 The Rev. C. J. N. Child;—Headmaster of the Cambridge and County School for Boys, has accepted the living of Moulton. The resignation will be a distinct loss to the cause of education. No man was more fitted for the headship of this important school and his departure will be regretted. He was appointed to the headmastership in 1900. He was Chaplain of Emmanuel College from 1898-1903 and curate of St. Botolph's, Cambridge, from 1897 until 1904. He was educated at Christ's College, Cambridge and was Winchester Prizeman in 1898 16 12 06 CIPof

1918 Over 900 with the Colours. — Since August, 1914, up to the present time over 900 Old Leysians had joined the Colours, of whom, 120 had given their lives. Since the last Speech Day five more D.S.O.s and 23 more M.C.s had been won, making their total up to 10 D.S.O.'s and 39 M.C.'s. In addition to those they had two C.M.G.s to their credit 18 96 26 CIPof

1919 New Head of The Leys, — The new headmaster of The Leys School, the Rev. Harry Bissek, who is to succeed the Rev. Dr Barber when the September Term opens, has been a frequent visitor to The Leys of recent years, and has annually preached in the school chapel. He was Chaplain and Assistant Master at The Leys from 1901 to 1904 19 06 04 CIPof

1919 Princes at dinner. — The Old Persian tercentenary dinner was held in the Perse School Hall on Friday evening, the Bishop of Woolwich presiding. He was supported by Prince Albert, Prince Henry and others. The toast of "The King" having been honoured, the Bishop of Woolwich submitted "The Royal Family." Prince Albert, replying, said: "My brother and I feel at present like two simple minnows among a number of Tritons in a sea of knowledge." He congratulated the school on the prominent position it had taken in the pioneer work of modern education, "due, in so large a measure, to the brilliant and energetic efforts of Dr Rouse (headmaster) and his colleagues". "Your war record," he went on is one you may well be proud of. Your losses have been I fear heavy, and with you I mourn the brave men from your school who have given their lives for country and Empire 19 11 12 CIPof

1918 Communal Dinners - midday meals at the East Road schools started on January 14, are supplied by the Fitzroy Street communal kitchen, and each child pays a small sum per week for five dinners. When the school was first started there were only 23 children who availed themselves of the opportunity but now the number has increased to about 40. The dinner is served in a room which was formerly the baby room of the old school, but which for a number of years has been used as a storeroom. The room has been cleaned, distempered and decorated, and presents quite a cheery appearance 18 02 06 CIPof

1919 Perse school investigation into financial position – report of committee – 19 10 22a

1922 Sturton Street School closed [2.14]

1922 A special meeting of the Cambridge Education Committee was held at Brunswick School on the report of the Borough Surveyor. He said that the rooms at the north end of the building were not safe for occupation and would have to be pulled down. He could not be responsible for the safety of the children if that portion of the school were opened after the holiday. They looked over the building and found that the foundations were slipping, the bricks in many cases were loose and breaking away. The buildings had been a source of trouble and anxiety for some time but there was no need for the alarming reports that had been spread - one that a portion of the school had fallen down and some children had been injured. No injury had been done at all c22 09 05 Brunswick School building found to be slipping so pupils transferred to Fitzroy Street & Paradise Street schools [3.16]

1923 Malting House school opened [10.7]

1924 St Peter's School Castle End closed [2.5]

1925 Cambridge council was told that the Brunswick school did not exist at the present time because the Borough surveyor drew attention to the giving way of the building, and they first of all had to pull down the Boys' School because it was dragging the other part down, and eventually they pulled down the Girls' School. The girls were in temporary premises at Paradise Street school and the boys in Fitzroy Street. They had to bear in mind that a new bridge was going to be built at Walnut Tree Avenue some time – (laughter) – and when that was done they would have to accommodate some children from old Chesterton c25 06 09

1926 The Mayor of Cambridge (Ald E.O. Brown) addressed the New Street Men's Bible Class, which was the outcome of the Ragged School. He took them back to the old school, before the new road to Sturton Street was made, and visualise the children that assembled outside. The teachers were devoted to their work. There were working parties where shirts were made for the boys and petticoats for the girls. Public houses were numerous, rows and fights were the order of the day. There were fighting men prepared to take on all comers, rat catchers, beer tasters. Those days had passed and gone, and they were benefiting from the seed that was sown by the devoted teachers many years ago c26 11 09

1927 Leys School new buildings opened [1.16]

1928 Park Street Higher Grade School closed [3.4]

1928 W.H.D. Rouse retires after 26 years as head of Perse School [1.18]

1928 School of Arts, Crafts & Technology new wing opened [5.3]

1928 Close to the windmill on the north side of Milton Road, opposite Chesterton Hall Crescent, occupying one of the highest and healthiest sites in the locality and surrounded by spacious lawns and trim walks stands the new open-air school for defective and sub-normal

children. It is an ideal school, admirably adapted to its purpose and planned and equipped on a generous scale, a veritable children's paradise. The opening ceremony was an open-air function. Open air schools for delicate children have come to stay and in the future all schools will probably become open-air c28 07 11 [1.15]

1929 began transforming Elementary Schools into Senior, Junior & Infants [1.9,5.4]

1929 Kings Street Girls & Infants closed [2.7]

1929 Brunswick School new buildings Walnut Tree Avenue open [3.17]

1929 Mr Geoffrey Pyke of the Malting House School, Cambridge appeared at London Bankruptcy Court. He'd opened the school in October 1924 as a research school for children's education and never had any idea of making money out of it. He had expended £15,000 on it as against fees amounting to some £600. It was amply staffed and records were kept of the sayings and doings of the boys. That formed part of the research work and although the records were of scientific value they would fetch only ten shillings as waste paper. In fact he would not expect to receive a 'bean' for them from anybody who bought the school. CDN c 6.2.1929

1929 The Inspector of Schools said that in recent years there have been great improvements in Cambridge; they had got rid of such places as Sturton Street Infants and Occupation Road schools which were not fit to teach children in. Not only was it impossible for the teachers to give of their best but it was absolutely cruelty to children to make them go there. Occupation Road in particular was really insanitary. They had done exceedingly well in the reduction of the number of unwieldy classes; there are now 11 classes of over 50 children and 35 with from 40 to 50. CDN c 26.1.1929

1930 After considerable discussion it was agreed to purchase apparatus for artificial sunlight treatment at the Cambridge Open-Air School. Some felt it might be dangerous unless carefully used and children could be burned and blistered. But Dr Paton Philip, the County Tuberculosis Officer, is an expert in this treatment and a nurse had worked with the great specialist, Sir Henry Lovain. Most of the children went there not from any disability but because they had the suspicion of tuberculosis hanging over them 30 09 10a

1930 Miss M.H. Catley, headmistress of the Perse High School for Girls, took her degree at Oxford and came to Cambridge in 1926. She is with all her heart and all her desire, a trainer of girls. The keynote to her success is her understanding of youth – she is herself barely out of this category. She takes full part in sports and is an enthusiastic Girl Guide. There is still a long vista of years ahead of her and her success will be reaped when the young girls she is today training have themselves come to maturity. 30 12 16

1931 The sound of girls' voices, high and clear, punctuated the interview granted by Miss Dovey, headmistress of the County School for Girls. Cambridge born, she was educated at the Higher Grade School when Mrs Evans was the Principal. She took a degree at London University and was appointed headmistress in 1926. But the Girl Guides' concert meant we could not settle to our conversation and instead we watched part of a farce performed by some of the teachers who appeared in pyjamas, dressing gowns and sleeping caps, to the great delight of their pupils. 31 01 02d

1931 Many will mourn the loss of Miss Katharine Wilson, creator of the Chesterton Preparatory School. She had an amazing power of understanding children so that the most difficult little people became happy and tractable. Boys and girls of whatever nationality, whether Italian, Russian, American, Estonian or English, from toddlers to twelve years old, all found themselves equally at home and grew into resourceful little citizens. 31 09 11b

1932 Union Road School closed [2.9]

1932 Sedley & Shirley Infants Schools opened - first with up-to-date nurseries for infants 3 to 4 years; Sedley design broke tradition, single-storied classrooms round open grassed courtyard [4.7,4.8,1.8,10.10]

1932 The new domestic block at the Central Girls' School was formally opened. It includes a coal-fired Eagle range, electric and gas cookers, gas griller and iron heater. Cookery and dressmaking was a very important part of their teaching. Any girl who goes into domestic service with a good mistress has a ten times better chance than the girls who go into factories, the Mayoress said. 32 01 13

1932 The Prince of Wales landed in his red Puss Moth monoplane at Marshall's aerodrome. He jumped hatless from the plane, then donned a boater and drove to the Leys School where he opened the new squash courts and sports ground. On his return he was assisted into his raincoat in preparation for a lofty flight in search of a favourable wind before he stepped into his monoplane, soared gracefully aloft and headed for London. 32 06 22a

1932 Paston House School for girls, Cambridge, goes from strength to strength. The number of pupils is greater than ever and parents were satisfied with the work conducted under the care of the Sisters of the Institute of the Blessed Virgin Mary. The school improved morals and character and a girl's soul receives that training which sets her on her way to face the problems of life with a firm grounding in the things that matter 32 12 16a

1933 Barnwell Abbey National School closed [2.12]

1933 Sedley Taylor school, Malta road [6.5]

1933 St Luke's school overcrowding – 33 03 21a

1933 Perse school extension – 33 11 18

1934 St Faiths prep school established [12.8]

1934 Perse School extensions opened by Stanley Baldwin – 34 11 17b

1935 The new Senior School off Gilbert Road, Chesterton contains separate departments for senior boys and girls, each with its own assembly hall fitted with a stage and cinema projection room. The boys department has science laboratory and woodwork and metalwork rooms while the girls' includes provision for cookery, laundry and dressmaking. A changing room, fitted with shower baths, has been included in connection with organised games. 35 10 25a Chesterton Secondary Modern opened - first of its kind with new facilities as libraries, practical work, halls etc [4.9,1.9]

1935 The new additions to the County School for Boys were opened by Lord Rutherford and many heads of colleges were amongst those present. The new wing includes a large Assembly Hall which will be used as a gymnasium, an art room and a classroom. Over the existing workshops another storey has been built, giving a new chemistry laboratory. The court outside will be turfed and if anybody feels disposed to offer a fountain then the County Council would pay the extra water rate for playing it on very special occasions. 35 02 06 & a

1935 It was time something was done about St Luke's School. The headmistress had a class of 54 in a large room divided only by a curtain from another class of 50. It was very trying for the teachers and not very satisfactory for the children. Putting another teacher into the room would not be much use. Romsey Council School also had large classes but to move one upstairs would be difficult: the natural lighting and ventilation was poor and there was insufficient head room. The head would prefer to have eight classes under normal conditions than take a class in an attic, councillors were told. 35 02 20b

1935 The foundation stone of the new Roman Catholic Schools in Union Road was laid by the Bishop of Northampton. Such schools were almost as important as churches. Catholics cannot be satisfied with a sort of elementary Christian faith: their children must be taught as soon as they

are able to read and understand. Cambridge Catholics would have to make very considerable sacrifices: more than £8,000 would be required when the new schools were completed. 35 08 02 1935 More than half the girls attending the Cambridge & County High School are above the average physique for their age and less than one per cent are poorly nourished. Nearly all the pupils are sensibly clothed and school uniform plays a useful part in this. Many take advantage of an excellent school dinner system and systematic training in a good gymnasium is open to all. Taking into account the intensive curriculum and the long distance many of the girls have to travel the results are very creditable, the Medical Officer reported. 35 12 18 & a

1936 Union Road renamed St Andrews Roman Catholic School [3.6]

1936 County High School for Girls site agreed in Long Road 36 07 09a

1938 St Giles & New Street Schools closed [2.8,3.19]

1938 Cherry Hinton National School building reconstructed [3.13]

1938 St Faiths school acquired Leys; was founded as prep school 1884 as result of Revised University Statutes 1878 which allowed Fellows to marry [12.7]

1938 The Cambridge & County Girls School started in 1900 in the Drill Hall, East Road, then known as the Technical Institute. By 1903 they overflowed into rooms belonging to the Zion Chapel Sunday School and it was not until 1909 that they moved to the present buildings, retiring headmistress, Miss Dovey said. But in August 1914, when war broke out, the school was taken possession of by the Welsh Fusiliers and other regiments. For a year the school was housed in Emmanuel College lecture rooms and St Andrew's Street Sunday School. Soon they would move to new premises in Long Road 38 10 28 & a

1939 Cambridgeshire High School for Girls started [8.10]

1939 Mr. Stanley Barker, of Orchard Road, Sawston holds the bronze medal, with six bars, awarded by the Cambs. County Council for unbroken attendance for seven successive years, 1904-10, at the same school, Sawston Board School. For a time, also the County Council awarded a silver watch for seven years' unbroken attendance, but by the time Stanley had qualified, the Council had raised the period to eight years, and he was not allowed to stay on for another year to qualify. Mr. Stanley Churchman, also of Sawston, holds the medal and the watch for the seven years' record - altogether, he attended Sawston Board School for eight years without being absent, two years at the Infants' School and the six years following at the Senior School. 39 08 18 CIPof

1940 Boys from the Leys School, Cambridge have formed teams for seasonal work on the land. The July number of the 'Sugar Beet Review' has two pictures of them, taken on Mr. R. B. Taylor's farm, Ashley, near Newmarket, where the boys put in several days' work. About 50 boys were engaged on each occasion, with four or five masters, and more than 100 acres were singled. 40 07 19 CIPof

1940 More Farmers' Boys. - A party of 32 lads from the Central School Melbourn Place, Cambridge, arrived in Melbourn and commenced farm and orchard work where required. The lads are accompanied by the Headmaster, Mr. J. D. Livingstone, and take the place of the 30 lads from the Coleridge School, who returned home on Saturday after a fortnight's work in the orchards. After a fortnight in the village, the Central lads will leave, and their place will be taken by another party. The boys sleep in the infants' room of the Council School, and have their meals in the Church Room. 40 08 09 CIPof

1940 Leys School morning to Scotland as needed by Addenbrooke's Hospital - 40 09 06a

1941 County High School for Girls new buildings opened – photo – 41 09 29

1941 It was at 03:55 on the 16th that a very low flier, by sound definitely a Ju 88 and thus almost certainly of I/KG30, placed a container of incendiaries over the Hyde Park Corner area of Cambridge. About 250 bombs rained down, several slithering across the southern part of the Catholic church roof, slightly damaging it. Others clattered on to Flinders store, which was soon engulfed by a major fire. Most of the bombs, though, burst on the Perse Boys' School Hall, an imposing chapel-like structure containing many wooden beams and trimmings which burnt fiercely, the whole impossible to save. As the fire brigade arrived the Ju 88 made a second, north-south strafing run, its gunners firing into both blazing buildings.

The Perse School Hall was still burning furiously at 08:30. Despite the devastation, and the multitude of hoses necessary because, due to the icy conditions, water had to be widely tapped, buses were still passing close to the huge fire. Sitting atop a double-decker I watched as much of the hall roof, or its remains, suddenly collapsed into remnants of the familiar form and erupted into a tremendous burst of flame, the blaze showering sparks widely. The conductor leaned across and said 'I think we've had enough excitement for one day'. We all agreed, especially as fragments rained onto the roof during as exciting a bus ride as one could expect, and survive! Presumably the target had been Cambridge station (Bowyer p134)

1945 Leys School return after 5 years evacuation in Pitlochry, Scotland [1.6]

1946 Miss M.H. Catley, headmistress of Perse for 20 years, resigns; numbers had increased from 284 to 486 – 46 11 04

1948 At Paston House school speech day the Headmistress, Mother Paul, gave a brief sketch of the development of the school during the past 50 years, for it was just half a century ago when it was founded. She referred with regret that so many applications for vacancies had to be refused as kindergarten places were filled up to 1951. The premises were still far from adequate, for an assembly hall, a permanent gymnasium, a studio and a library were all needed. The war did not dislocate the work of the school as much as might have been expected, but it roused special interest in nursing and first aid c48 12 07

1949 Fawcett School opened [3.9]

1949 East Barnwell community centre handed to Borough Education Committee [5.1]

1950 Trumpington School closed [3.8]

1950 Technical College : proposed new site, Trumpington Road (rejected 1951, to stay Collier Road) [5.2]

1950 Dr W.H.D. Rouse, headmaster of the Perse school, Cambridge, from 1902 to 1928 and one of the greatest teachers of his time died yesterday. His most famous work for education was his method of teaching Latin and Greek. Pupils acquired them by being taught in the language from their first lesson and by speaking in the language in class. He gathered round him a brilliant staff who shared his qualities of originality of mind and enthusiasm. Teachers from all over the world come to the Perse to see how those pioneer methods now followed in many schools were carried into effect c50 02 11

1951 Priory School opened [4.12.10.1]

He joined the staff in 1900 as a Senior Classics Master, a position he held until he retired – for the first time – in July 1929. Almost immediately he was recalled to act as Deputy Headmaster for a year. Again he retired but when in 1940 the School moved to Pitlochry he came out of retirement and for five years was form master of the Classical Sixth. In July 1950 he left Cambridge for a summer holiday and never returned. He died on July 15th c51 10 19

1954 Saying farewell to Mr Henry Morris who is retiring from the post of Chief Education Officer after 34 years the County Council presented him with a portable typewriter and a filing cabinet. He had seen that modern transport which would otherwise transform the countryside into a widespread suburb and the rural hinterland into a cultural void, could be harnessed to create a rural region for the provision of educational and social amenities. He created the Village College as a rural community centre providing facilities for the countryman as good as those offered in towns. He had reinvigorated the school curriculum, improved the quality of teaching and established school gardens at Bottisham and Bassingbourn. CDN 23.12.1954

Cannon who spoke of the first headmaster, George Flavill. Then the old boys gathered round the piano to sing 'Forty Years On' and other old songs he had taught them. 55 10 07b

1955 The new extensions to the Paston House School, now called St Mary's Convent School, in Bateman Street were dedicated, marking an important milestone in its 50 years' history. It began in one little house and now had 370 pupils. Speaking of the value of independent convent schools the Bishop spoke of 'the unfriendliness of Mr Butler, who won't let us build schools as we should like to'. But the religious orders managed to carry on and there was something about convent schools that make parent want to send their pupils, although there were good, efficient and free, schools elsewhere 55 12 12 & 12a

1957 Central High School new buildings Queen Edith's Way open [8.12]

1957 Television sets are to be installed at Chesterton Secondary Modern School in an experiment to assess the value of this type of visual aid. In the years to come they may be as common as radios. However Coun Gardner-Smith claimed children spent a lot of time watching television: "Is it any wonder they are illiterate. This is simply another way of wasting time". 57 04 02a

1957 J.D. Livingstone retires as head of Central School – 57 06 29

1957 St Andrew's Catholic School was established 111 years ago and was the only Catholic school in the whole of Cambridgeshire. They had been in their new building for 21 years but now a new school would be built in the Birdwood Road area to accommodate more than 300 pupils and the existing premises would become a primary school. During the war it had housed 50

evacuated people: they slept on the stage and the balcony but the school carried on. They were shut only two days, for police reasons. 57 10 31

1958 Netherhall School opened, 1st sec school since war to meet need post-war housing on south side of Cambridge [1.23,13.7]

1958 Dr W.G. Humphrey, who has been Headmaster of the Leys School since 1934, has resigned. He feels to continue on until the normal retiring age would be too long for any Headmaster to stay at one school. On three previous occasions he has told the Governors of his feelings, but on each occasion they persuaded him to reconsider. Now he will work for Fisons. 58 01 23

1958 The Central School was founded in 1873; it became the Central Technical School in 1953, a Grammar and Technical School in 1954 and a full Grammar School in 1956. Now that the Boys' School was moving to new premises the Girls' School would develop and expand with a new library, laboratories and classrooms for specialised subjects. Miss Irvine was retiring as Headmistress after 24 years. 58 02 12

1958 Perse School plans, Hills Road – 58 03 29b & c

1958 Netherhall School, the first new secondary school in Cambridge since the war, was officially opened by Lord McNair. The smaller the class, the more effective the teaching and they should do all they could to reduce sizes, he said. The 300 children under the headmaster (Mr Holden) and the same number under the headmistress, Miss Wilkinson, was correct. They should cut time spent on administration and teach as much as possible. In this way they could consolidate the staff. 58 06 20a

1958 St Matthew's Junior Mixed School to close – 58 06 11b

1958 St Faith's School has a new swimming pool built by voluntary labour. The Headmaster, Mr F.M. White, says it only cost £280. They were encouraged by the success of a small primary school in Huntingdonshire which was funded by their Parent-Teach organisation three years before. The basic requirements are an enthusiastic staff, an able school handy-man and above all the technical advice of an enthusiastic expert. He must remain nameless, otherwise he'd be inundated with similar requests. 58 08 01a

1958 Miss Mary Cattley was Headmistress of the Perse School for Girls from 1926-1947. She introduced the house system, saw the building of the new school block in 1930, the establishment of the games field and the river bathing place which was acquired in 1934. During the war the school welcomed refugee girls from Europe, many of whom have married and settled down in Cambridge. 58 09 24

1958 New extensions at Cambridgeshire High School for Boys were something of a landmark in its history. The physics laboratories, medical room and gymnasium with its internal jumping pit in the floor were long overdue but the post-war years have been marked by shortages of every kind. They were part of a larger scheme but it would be rash to suggest what the next stage would be. The last major improvements had taken place in 1938 when the hall was opened together with the art room and chemistry laboratory. 58 10 11

1958 St Mary's Convent School started in Park Terrace in 1898 and during the 1914-18 war many Belgian refugees were taught there. Since then its story has been one of cultural progress made possible by the generosity of nuns, teachers and parents. Last year 21 pupils received a needlework certificate and many girls had gone in for nursing and the various therapies. 58 10 31

1958 Coleridge Girls' School celebrated its 21st anniversary; the girls were now much more lively, efficient and adaptable than those of 21 years ago headmistress Miss D.M. Howlett said. Then there had been no playing field and the school children had worn far too many clothes. Boredom was the main cause of juvenile crime so they had instituted leisure time work for the girls evacuated from Islington during the war years. The idea had been that children in modern schools were only intelligent enough to read picture books but in both academic and practical work Coleridge was achieving good results. 58 10 08a

1958 County Boys school new wing – 58 10 07

1959 Grammar School for Boys opened [1.25] 59 04 28 & a

1959 St Barnabas Church of England school closed after 71 years [13.3]

1959 Perse school new roof – 59 04 09

1959 The Headmaster of Fawcett Junior School, Trumpington (Mr F.N. Walker) declared the school's new swimming pool was "well and truly open" after he had been pushed fully dressed into the water. Roars of laughter came from the Mayor (Wallace Cole), Mayoress and parents who were present but the Head took his ducking in good part and swam vigorously for half a length. The pool has been built by the parents with the help of the children themselves. 59 09 23

1959 Miss W.M. Farnsworth, headmistress of Chesterton Girls' School is retiring. She has been in charge since the school opened in 1935. It was the first of its kind to be opened in Cambridge as a result of the Hadow report of 1926 which recommended special provision for all children over 11 years. Previously it was thought that children not at grammar schools must be taught to be practical and develop handicraft skills rather than developing academic intelligence. She says schoolgirls are now taller, healthier, more graceful and beautiful than they used to be, as a result of anti-natal care and welfare services or increased facilities for physical education. 58 12 16 & a

1959 Grammar School for Girls first speech day – 59 11 21

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 The small independent Kimway School is to close when the twin sisters, the Misses M.L. and E.A. Macleod retire. They have run the school in Millington Road since 1941 on the ideas proved successful with Brownie packs and 621 pupils have passed through their hands. The children range from three to 11 years and stay to take their 11-plus or try for scholarships to the Perse. Recently the number of children from university families has dwindled and now the wooden part of the school premises has rotted and the cost of heating and repairs is becoming increasingly expensive. 60 06 24c [8.8.]

1960 Perse new school film 60 03 23a

1960 The Leys School, having passed through the stages of war-time requisition and evacuation and the post-war restrictions on building, is now undertaking a large programme of building expansion. Extra science laboratories have been built and the kitchens, gymnasium and the swimming baths modernised. Now West House is to be completely reaccommodated in a new modern building on the edge of the playing fields over looking Coe Fen. Builders lorries are passing in and out of the gates with busy regularity. Self-contained as it is – with its own chapel and theatre and even its own water supply – it arouses the curiosity of passers by. 60 04 12a

1960 Islip House Preparatory School in Huntingdon Road is one of those good things in independent education which, after many years of unobtrusive excellence, will have to fade away under the onslaught of modern financial difficulties. Miss Mildred Turner, its Principal, is taking no more new pupils. The nine she teaches at the moment will be taken to the point where they are reader to enter the Perse or another Grammar School, but will be the last pupils that Islip House will ever have. 60 06 03b

1960 Annie Dovey, Headmistress of Cambridge & County High School for Girls 1926-1938 – 60 12 08

1961 The Lady Adrian special school in Courtney Way had taken a long time because children who found it difficult to learn did not arouse as much sympathy with the public as those who were either deaf or blind. But they needed this type of school to provide educational facilities

where their self-confidence could be built up, Lady Hester Adrian said as she officially opened the building 61 05 02 [7.9,10.8]

1961 The Manor Secondary Schools in Arbury Road were officially opened by the Vice-Chancellor of Cambridge University. The new buildings are designed to accommodate 450 boys and 450 girls in two separate departments linked by shared dining facilities and with a single boiler house. The Boy's Department opened in September 1959 and was shared by the girls until theirs became available in September 1960. It is the third secondary school project to be completed in Cambridge since the war 61 06 29a [13.6]

1961 The Queen Mother opened the new Erasmus Building at Queens' College designed by Sir Basil Spence and West House, a new block of classrooms and living accommodation at the Leys School. By joining it on to the existing range of squash and fives courts opened by the Prince of Wales in 1932 it has created an attractive court with a fine view of Coe Fen and the River Cam. Now all boys can move into a study after two years in the common room. There is a penthouse for two bachelor masters which could provide accommodation for nursing staff in the event of an epidemic. 61 06 05 & a, 61 06 06 & a & [8.13]

1961 The new Perse School building at Hills Road was opened by Princess Alexandra of Kent. The new large assembly hall was filled to capacity, guests overflowing into a large marquee. The old buildings in Gonville Place, dating from 1890, had proved inadequate for a rapidly-growing school and here, on the extensive playing fields was a noble site beyond the noise and traffic of the city. It includes the Mummery miniature theatre, a biology laboratory with its own pool for the growing of specimens and a special room for school prefects. 61 07 03 & a & b

1962 The school population in Cambridge has increased by 80 per cent since 1939. Council houses have been built in large numbers leading to a movement of population into new estates and new schools could not be provided in time. Serious overcrowding of infants classes reached a peak in 1953 and spread on to secondary schools in 1957. Over-large classes have been unavoidable and children are taught in halls, dining rooms and even store rooms. 62 01 02 & a

1962 St Bede's Roman Catholic Secondary School in Birdwood Road was formally opened by the Bishop of Northampton. It is a co-educational school for 300 pupils with eight classrooms and a library, together with craft, woodwork and housecraft rooms and laboratories. There is a combined hall and gymnasium together with a kitchen and dining hall which can be used for teaching space. The facilities are excellent in every direction. The school was opened to pupils after Easter. 62 07 20b 1962 Advisory Centre for Education comes to Cambridge : help parents with educational problems

1962 Grove primary school named – 62 02 21a

1962 Grove School opens - were 2 oak tree groves near School [8.11]

1962 Mayfield Primary school opened [10.6]

1962 St George's Church of England Secondary School opened in 1835 with separate departments for senior boys and girls. For 100 years it was called East Road School until the infants section closed in 1931. Pupils will attend other secondary schools until new premises are built on a site in St George's parish. The old school will be rebuilt to house the St Matthew's Infants School 63 07 31a [12.6]

1962 St Andrews RC school renamed St Albans, founded 1843 [13.3]

1963 St Luke's school demolished [7.11]

1963 Opening the new Mayfield Primary School, Mrs C.D. Rackham said many things had changed since the first council school in Cambridge was opened in 1905 in Romsey Town. It has its own library – youngsters are voracious readers, a unit for partially deaf children which allays their fear by allowing them to mix with others and join in school life, and a swimming pool. This helped children gain confidence besides being fun. It is a change from the old idea of 'chalk and talk' 63 06 18a

- 1964 National Extension College begins [8.1]
1964 city vote to end 11+ [17.2]
1964 St Luke's church schools in Victoria Road are outdated and almost sub-standard. However since 1962, when children were shivering in classes, electric heating has been installed to take the load off the open fires. The school is fifth on the list for rebuilding within the next four years, but may slip down the list. Until a new one is built parents will have to remain dissatisfied with the accommodation. The council is not rejuvenating the decaying areas of the city but concentrating on new ones. 64 02 29a
1964 Cambridge's Old Church Schools date back to 1700 when school for poor children were started by clergy. After the Education Act of 1870 introduced compulsory education Newnham School was opened in 1872 and followed in 1875 by Park Street for girls and infants. St Barnabas, Sturton Street, York Street, Catharine Street & Ross Street schools followed. St Matthews is the newest – and the most modern of all schools in Cambridge - 64 11 28
1964 The second phase of new Church of England school being built in Flower Street will be finished in September. The first involved the building of two classrooms and a hall, the second another two classes, kitchen and staff accommodation. Another hall and more classrooms will follow. The school was formerly St George's Secondary School for 150 pupils aged 11-15. In July it adapted to a new age range and became St Matthew's Primary School. A two-storey building of the old school has been demolished and the school is being adapted to suit the needs of primary education. 64 12 28a
- 1965 St Matthews school opening [7.12]
1965 county short of teachers - quotas full [17.3]
1965 city's non-selective scheme [17.4]
1966 Coleridge 1st to be converted co-educational & named Coleridge secondary mixed school [NS.1.1]
- 1966 New nursery school opened in Station Road by Cambridge Association for Advancement of State Education – 66 04 25
1966 Grove Primary School, Campkin Road opened; Lady Bragg reminisces – 66 04 28a
- 1967 Kings Hedges school opening [7.13]
1967 county comprehensive schools may have to await city plan [17.6]
1967 city move abolish 11+ in favour 3-tier system defeated city council [17.7]
1967 Leys School extensions opened – 67 06 19
1967 King's Hedges Infants' school delay increases costs; dispute over blame – 67 07 12
- 1968 St Laurence's Roman Catholic School opening – 69 10 09
1968 King's Hedges School, built two years ago, needs major structural alterations – 68 10 28; two schools to be re-roofed – 68 11 27
- 1969 Stanley Stubbs retires as head of Perse – profile – 69 04 21
1969 St Luke's CofE Primary School official opening – 69 07 19
- 1970 DES go-ahead planned college Further Education at Long Road to replace York Street Further Education centre [17.9]
1970 St Faith's School new hall opened – 70 04 31
1970 Hope Tebbutt started first nursery school in Cambridge 45 years ago, Stagsholt Nursery School Gresham Road for poorer areas; was 15 years before another – 70 07 10

- 1971 St Luke's school demolished [7.15]
1971 Grammar School for Boys centenary, established 1871 Jesus Lane Sunday School Paradise Street, 1913 moved Melbourne Place 1958 Queen Edith's Way [9.2]
1971 Chesterton County Secondary Schools for Boys & Girls close, Chesterton County Secondary School opens [9.4]
1971 comprehensive plans unveiled, city favour scheme, cheers as committee back scheme [17.10, 17.11]
1971 City council reject plans for comprehensive education which would have ended 11-plus – 71 07 29
- 1972 Chesterton Preparatory School closes, opened 1910 [9.3]
- 1973 Parkside becomes first community college when comprehensive system starts September, based on Grammar School for Girls [8.2]
1973 Grammar School for Girls celebrates centenary, opened as Higher grade Girls School 1873, became Girls Grammar School 1958 [9.1]
1973 Byron House School, independent Pre-Prep merges St Johns College School, founded London to Cambridge 1939 as evacuation [9.6]
- 1974 Cambridgeshire High School Girls & Boys become Long Rd & Hills Rd VI form colleges [8.9]
1974 St Luke's school centenary [12.4]
- 1975 Leys : Queen Mother opens extensions 1961, was founded 1875, temporary hospital WWI, WWII, 'Mr Chips' was W.Balgarnie, classics tutor 1900-1951 [13.5]
- 1976 proposals for restructuring 16-plus education [15,18.1]
1976 Kings college school takes girls [8.7]
1976 Sancton Wood private school started 5 years ago, small unit mentally handicapped children [10.11]
1976 St Faiths prep school (founded 1934) leaves Cambridge after losing accommodation [12.8]
- 1977 Cranmer nursery school, oldest in Cambridge, closes after at least 53 years, was founded by Susan Isaacs [14.1]
- 1978 Advisory Centre for Education moves back to Bethnel Green [7.2]
1978 report says "too many primary places by 1980, threatens Brunswick & Park St schools (1979 Government stop Park St closure but Brunswick converts to Further Education college) [8.3-4]
1978 St Matthews school threatened with closure (but expanded to take Brunswick 1980) [12.2]
1978 A County Council report recommends that two old church schools in the centre of Cambridge, Park Street and St Matthew's, should close. It says no school will take more than 60 infants a year; all schools will have nursery classes from three-plus, and that separate infants and junior schools will be merged into one school taking children right up to 11. Catchment zones will be introduced for primary schools. At present Morley Memorial is under a great deal of pressure and children are taught in a rented church hall across a busy road while Sedley Infants and Romsey Junior have empty places. c78 02 17

1978 Both St Matthews and Park Street schools in Cambridge are housed in high-ceilinged, drab buildings. There are no green playing fields, the playgrounds are cramped and asphalted and Park Street has outside lavatories. But for all this they inspire a great deal of loyalty from parents who see them as small family schools within a community. Both are in the central area and a few years ago found their rolls were dropping. But now there is a definite trend bringing young families back into the city centre terraced houses and they are battling to save the schools from closure. c78 03 11

1978 Protestors against the proposed closure of Park Street School Cambridge stepped up their campaign by marching on the Guildhall. The television commentator and personality, Clive James, who is leading the fight said: "There will be no financial gain from closing the school. The main reason for shutting it seems to be the size of the playground which they say is insufficient for the kids to fulfil themselves". Park Street Residents Association has joined the campaign as they feel much of the community spirit of the area will be lost if the plans go ahead. c78 09 29

1979 2 more schools threatened [8.4]

1979 Cherry Hinton Community School opened [9.5]

1981 Perse school for girls centenary, opened 1881; £400,000 extensions Perse Upper & Prep opened [11.1]

1981 Arbury Junior Silver Jubilee [9.8]

1981 The Perse School for Girls celebrated its 100th birthday with a mammoth birthday cake made by the school cooks. It was left to the youngest pupil, Amanda Higgins, to blow out the candles. Head girl, Rachel Bendall presided over the cutting while the headmistress, Miss Mary Rose Bateman, help with the serving to each of the 701 pupils and staff. Later there was of a film depicting its history and a thanksgiving service. 81 01 17

1981 The old St Paul's school, designed by Ambrose Poynter, a pupil of the Regency architect John Nash, is destined for demolition. It dates from 1845 and is Cambridge's earliest elementary school. Last year pupils moved into new buildings close by and now the Education Department is seeking to demolish it and use the site for a playground. Old stones showing the former name, the National School' and the boys and girls' entrances will be put into the new building 81 03 04

1982 Grove School destroyed by arson, reopened 1985 [8.11]

1982 foundation new school Nuffield Rd laid 1980, old closed 1981 [11.3]

1982 When the Queen Mother opened St Paul's Church of England Primary School, Cambridge, she went from class to class, looking over the shoulders of the children as they continued their work. Three infant classes showed her their Captain Cook project, their dressing-up clothes, demonstrated how a canon works and gave an impromptu music lesson. Some were too busy to talk; one hurried busily up to the teacher with a problem: "I have to do his braces for the loo", she told the Queen Mother. "Oh that's much more important", she replied. 82 01 29a old Nash building dated from 1845 & earliest elementary school; by 1985 waiting list full [11.4]

1982 Brunswick School started as a British School in Eden Walk; it moved to Auckland Road about 1900 but had to move again to Walnut Tree Avenue when the buildings began sliding gently down to the river. Now falling rolls and cash cutbacks means it will close and the site used for further education premises. Teacher Miss Marjorie Battersbee attended as a girl and has taught there her entire career. Many of the 92 children will go to St Matthew's.

82 02 16a - Queen, Lords; was British School, Eden Walk; moved Auckland Road but buildings began to slide into river, Walnut Tree Avenue 1913 [9.7]

1982 The Headmaster of Cambridge Manor School was forced to close his school at lunchtime after pupils went on the rampage. Children set fire to rubbish at the back of a building, smashed a door and set off a fire alarm. The trouble came on the first day of a teachers' work-to-rule which

cut mealtime supervision to a minimum leaving the head with only four elderly dinner ladies for help. 83 03 12

1982 When the Duchess of Gloucester officially opened St Andrew's Community Junior School at Chesterton she picked eight-year-old Wendy Braybrook to help her pull the cord to unveil a plaque. Then she was presented with a posy from Lorraine Clark and a book of pupils' work by Brian Hall before being escorted round the building by headmaster Derek Nightingale. Pye provided video equipment to record the visit that was watched by people on close circuit television 82 06 12

old opened 1844 need rebuild by 1967; "no hope for new school" 1975
1982 Cambridge was today stunned by a fire which gutted most of the Grove Infants' School, Arbury, and destroyed the staff block at the Manor School. Hundreds of people were woken in the early hours by the sound of the buildings being ripped apart by flames and small explosions. They went out on the streets and watched as firemen fought to control the blaze. Many wept openly. 82 06 19 & a

1982 Renovation work on St Matthew's Primary School has transformed the area. The original school dates from 1835 but part was demolished in the 1960s. Now it has been refurbished with open plan classrooms with internal courtyards built on the original playground. Before rebuilding it catered for 180 children, now there are 370. 82 06 30

1982 Preservationists have won a long fight to stop the old St Paul's School buildings in Russell Street from being demolished. They are the oldest primary school buildings in Cambridge, designed by Ambrose Poynter, a pupil of the great Regency architect, John Nash. They have not been used since the new school was opened a year ago
82 08 26

1983 Secondary Review Working Party says a major comprehensive to close "are 850 spare places but will be 1,500 by 1991" [8.5,13.6]

1983 The Manor Comprehensive School in Cambridge – threatened with closure – has now been offered a reprieve. Conservative councillors have bowed to intense public pressure and thought of a new plan to keep the school open. It is to reduce the number of new entrants to 120 pupils and year and hand over the remaining buildings to the Cambridge College of Further Education. When plans to close the school because of falling numbers were announced by the News, a massive protest from parents and politicians swept Cambridge. But the problem of falling secondary pupil numbers will not go away and must be solved somehow 83 12 22 p1

1984 St Phillips community primary school, to replace St Phillips Junior & Infants; old school demolished 1985 [12.1]

1984 Manor comprehensive school has been saved from threatened closure, though it will in future take only 120 youngsters a year and the county council will keep a close watch on its numbers. But councillors decided by just two votes to close Lode school and transfer the children to Bottisham, even though that school did not want them. The infants' school at Fulbourn will also be shut down and the buildings put to good use – perhaps as a teachers' centre 84 02 29 p3

1984 Falling numbers of pupils have forced the Shrubbery School to close its doors to senior pupils. However juniors up to 11 years old will still be able to attend the private school which charges £250 a term. The Shrubbery opened its doors in Hills Road before moving to Barton Road 37 years ago and has been run by Alfred Wainwright and his wife since 1962 84 06 01 p9
charges £280 term, to demolished 1986 [10.9]

1984 St Mary's Convent School is to drop the word convent but it will not become any less Catholic in character. The nuns of the order of the Blessed Virgin Mary, which founded the school, will now draw salaries but the money will go to the convent on the same site. Sister Christina, the school's present headmistress, will remain in post at the 600-pupil school, which has always welcomed girls from other Christian denominations 84 06 21 p20

1984 The Leys School is admitting girls to its sixth form for the first time this autumn. Amongst the first will be Julia Fairey from Linton and Helen Sherwood who is head girl at Soham Village College. Not all the boys are enthusiastic about their arrival and others are jealous of the shiny newness of their accommodation in a special boarding house with attractive study bedrooms. The girls will live in a semi-protected environment without the freedom of a sixth form college but in a more liberal atmosphere than the usual girls' boarding school. They will not be allowed out on weekday evenings without special permission 84 07 18

1985 parents registering children at birth for places in certain schools [12.2]

1985 Police are investigating a massive fire which ripped through the Perse School for Girls in the early hours of the morning. Two laboratories were gutted and the rest of the building was severely smoke damaged. Today the school was closed. Many of the 540 pupils arriving for classes were unaware of the fire and were sent home. Headmistress Miss Mary Bateman said it was a serious nuisance but not a tragedy and hopefully the school would reopen on Monday 85 07 05

1985 Pupils at Grove School in Arbury have celebrated the opening of their primary school – just days before the summer holidays start. Two classrooms and other buildings lost in a blaze on the site two years ago have been replaced. The school now has a bigger hall, new changing rooms, kitchen, library and administration and staff rooms. One of the new classrooms will be used as a unit for visually impaired children. A second stage in the rebuilding work will see the erection of a unit for physically handicapped children

1985 Chesterton Community College is celebrating its Golden Jubilee with a book of anecdotes. Old boy Chris Morton remembers headmaster R.C. Brown. "We used to call him 'The Major'. He used to have this habit of picking you up by the ear. He was a real gentleman. He would give you the cane and you used to feel he was being military about it". Rex Freeman was one of the favourite teachers and could bring the best out of anyone. He taught English and history, later music and remedial classes 85 10 10 & a

1985 Morley Memorial Primary School has been waiting for improvements since the beginning of the Second World War. It suffers from leaking roofs and a totally inadequate school hall. Now parents fear that the County Council plans to sell property at 100 Blinco Grove for building development. It is densely populated area with virtually no playing space and the school uses the grounds for infants' sports, nature trails and other functions. Parents hope to form an action committee to oppose the suggestion. 85 12 10

1986 St Phillips school centenary; began 1886 as school for girls & mixed infants Catharine St, boys opened 10 years later Ross St; merged; amalgamated 1984 & new site Vinery Rd; 2nd phase officially opened [12.1]

1986 When St Philip's School opened in Catharine Street in 1886 it had 127 pupils on the roll. But as railway workers moved into new homes in the area only boys up to seven and girls up to 14 were allowed to attend. A senior boys' school was built in Ross Street in 1894 and a new community primary school opened in Vinery Way in 1983. Now children have been preparing to celebrate its centenary with a reunion, a concert in St Philip's Church and a Punch and Judy show by former pupil Chris Kostecki . 86 06 19b

1986 Newnham VI form centre, private school, opens in former Shrubbery School buildings [10.2]

1986 Newnham Croft school to be rebuilt on different site after protest; old pt built 1915 became dilapidated, dining hall demolished 1982 [10.3]

1986 Perse Girls massive fire, 2 labs gutted [11.1]

1986 proposed super college replacing Hills Rd, Long Rd & CCFE [11.5] [8.6]

1986 Milton Road Infants is one of eight Cambridgeshire schools linked through a modem to an electronic mail system, the 'Times Network System'. Using word processors the children

begin a story which is then finished by children at the Beeches School in Peterborough where 70 per cent of the pupils are Pakistani. They are also hoping to link up with Newcastle and America or a kibbutz in Israel. If teachers use the links imaginatively the pioneering new project will prove its worth. 86 12 12 & a

1986 St Bede's school threatened with closure due falling rolls, suggested merger with Coleridge but saved by turnaround by councillors 1986 [2.2,7.10,13.2]

1987 Secretary of State endorse decision to close Roger Ascham school, only unit for physically handicapped; Open Air school opened 1916, 1928 opened present site; for TB which virtually eliminated by modern drugs [11.2]

1987 St Catharine's preparatory school starts due phasing out of St Mary's school junior classes [13.1]

1987 Roger Ascham school to close [NS2.3]

1987 For over 60 years the Roger Ascham School served the needs of children. In the early days there were 120 pupils some with physical ailments. Others, kept rigidly separate, were backward and retarded. In recent years it was a vigorous, innovative school mainly for the physically multi-handicapped. The largest group were cerebral palsied children followed by spina bifida and a small number of those with muscular dystrophy and the emotionally fragile. It built a reputation for catering for the bright and more slow-learning pupil so they could succeed beyond expectations in spite of their physical disabilities. 87 09 11

1987 Secondary school shake-up rejected ϕ CEN 2.12.87 1989

1987 Kings Hedges Infants and Junior Schools in Cameron Road may need to be knocked down and completely rebuilt. The schools, which celebrate their 21st birthday this year, have fallen into a state of 'disgraceful neglect', Governors claim. The roofs leak, the windows are loose, there is no paint on the outside. It will be cheaper to demolish them rather than undertake repairs. 89 02 21

1987 Cherry Hinton new primary school opens ϕ CEN 7.9.89

1988 Education Secretary Kenneth Baker has given permission to turn St Bede's Roman Catholic School into a new inter-church school, one of only five in the country. It marks the final triumphant move in a turbulent chapter which almost ended with the secondary school being closed down after a drop in the number of pupils. It was reprieved following a determined battle by parents and teachers. Now headmistress Sister Dolores looks forward to an exciting future as a Christian secondary school for up to 600 Anglican and Roman Catholic children drawn from places as far apart as Littleport and St Neots 88 02 04

1988 Parkside Community College has been fighting officialdom since it opened 75 years ago. In 1913 the school faced the might of the British class system when many saw no reason why working class children should be educated 'above their station'. At the opening even the Mayor expressed doubts and a writer to the CDN urged that children of the working classes should be taught just the three Rs since roadsweepers, farm labourers and domestic servants would always be needed. Those who wished it could learn a trade later. Now it is celebrating its achievements. 88 02 24a

1988 The Perse School for Girls has opened a new science and crafts building at a cost of almost £1 million. The four-storey block, to be used by over 600 girls, was opened by eminent scientist Dame Rosemary Murray, the first woman vice-chancellor of Cambridge University. It has facilities for the teaching of electronics, computing, design technology and photography and includes the Maddocks physics laboratory, named after a former pupil who made a major donation to the fund. 88 10 17

1990 W.P. (Freddie) Kingdon, who was headmaster at Coleridge Boys School from 1947 to 1966 still attends school regularly – only now as a pupil at art classes. He joined as a teacher of PE in 1936 before becoming head in 1947. During the war he was put in charge of the ‘Ringleaders’ – the naughtiest boys. This was made easier as corporal punishment was still in use and he always allowed the boy to decide how many times they were caned. Later he organised courses for pupils who had to stay an extra year when leaving age was raised from 15 to 16 in 1966. He ran courses on drugs, drink and addiction and organised the Duke of Edinburgh Award Scheme – 90 03 12b

1990 Spinney School Cherry Hinton official opening – 90 05 17a

1990 St Luke’s school, French’s Road opened in 1874, closed in 1969 when new school constructed – feature – 90 06 14a

M.J.Petty. A Chronicle of Cambridge News 1888 - c.36.52

c.36.52 : Language schools.

Language school students gather on Peas Hill, 1988

170.95

1952 Davies school opened, moved Bateman St 1958 so oldest of kind in city [NS.1.12]

1952 boom in teaching English to foreigners; were 30 foreign students outside University; this summer more than 1,000 in local language schools, some of which taken over colleges for Long Vacation; fees £2.10.0 week [1.1]

1955 The Bell School of Languages in Cranmer Road, Cambridge was opened by the Chancellor of Cambridge University, Marshal of the Royal Air Force, Lord Tedder. This term 50 men and women from 22 countries including Germany, Cambodia, Saudi Arabia and Finland are studying there. The Principal, Mr Bell, said the aim was not only to teach the way we say things but the way we do them and warned students not to be 'a little colony of foreigners in England' 55 10 01 & a

1957 "our foreign students are bored to tears" [2.4]

1958 There are more foreigners in Cambridge than ever before who were often here for months without getting to know any English people. There used to be an international clubhouse part of which was divided into flats to help finance it but the present premises in Falcon Yard were inadequate. A group of foreign students had formed the Overseas Club which had a membership of 400 with a meal service, newspaper, dramatic society and travel bureau. 58 02 27

1958 The Bell School of Languages held a garden party in the spacious grounds of their newly-acquired premises in Red Cross Lane, the former St Anne's House. Three hundred guests attended the 'house-warming', giving them the opportunity to celebrate the move to the splendid building in large and lovely grounds. It was the first social occasion at the new premises hosted by the Principal, F.E. Bell and the eighty students. 58 08 08

1959 One of the developments in the field of education since the war has been the growth in Cambridge of schools of English for foreign students. Now Mr C.H. Jarrett is establishing a new one at Salisbury Villas, Station Road. It will cater for the Cambridge Lower and proficiency Certificates as well as offering courses for beginners and the teaching of Russian. My own observations of some of the foreign students in our midst leads me to hope further courses may include the rudiments of good manners! 59 02 28b

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 The newly-opened Cambridge International Centre is a place where foreign visitors irrespective of race, colour or nationality may meet to further friendship and understanding. It has a lounge, library and restaurant serving inexpensive snacks. It is hoped some 300 people will use it daily for talking, drinking, coffee or reading. Activities include record recitals, illustrated talks, dances and lectures together with organised outings to places of interest 60 06 28

1960 The British Council's new International Centre in Trinity Street is a club formed to promote international friendship and understanding by providing a social and cultural centre for foreign residents in Cambridge and their English friends. 60 10 22 International Centre opened, promote international friendship & understanding & social intercourse of foreigners temporarily resident in Cambridge, based 14 Trinity St [Misc.2.4] [2.6]

1963 Union International social club foreign students founded Union Society during vacation [369.27.15]

1964 Overseas students are charged ridiculously high rents for inadequate accommodation and food but are prevented from leaving lodgings as they have to pay a term's rent in advance. Landladies are cashing-in on the name of the University, a student claims. But landladies not only spend time washing and cooking but also talk to students and virtually give them English lessons. However there will always be the greedy ones and there will always be the mugs who are willing to pay 64 03 03

1965 Cambridge's welcome to foreign students – about 1,000 full time– major feature – 65 01 18

1966 Cambridge International Centre to close at end of summer; was formed seven years ago by Frank Bell and intended for promotion of international friendship and understanding – 66 03 14b reopens YMCA Alexandra St, moves Regent St 1967 [Misc.2.4]

1968 Union International - social club foreign students founded Union Society 5 years ago, during vacation [369.27.15]

1974 Cambridge Integration Centre Club by Agarwala, Gwydir St, applies licence in last desperate financial through to make it viable [Misc.2.4]

1976 Cambridge's newest language school, the Newnham Language Centre, was officially opened at a reception. It is the brainchild of Mr Michael Short who was adult tutor at Comberton

village college for ten years. Students pay £70 for a four-week vacation course or £165 for a ten-week term and stay with Cambridge families. Tours to colleges and local country houses are arranged. It aims to provide facilities for small groups to learn the language in really attractive surroundings c76 06 21

1978 Frank Bell has stood down as director of the Bell School of Languages in Cambridge and called for tighter controls over foreign language teaching. "There are some cowboys who simply open during the summer in any old hall they can", he said. When he started in 1953 most of the students were simply finishing off part of their private education. Now the majority have a professional interest in learning the language and are financed by their firms or governments. He envisages an even greater boom and the Bell School, at present attended by Princess Marie Astrid, seems certain to expand and adapt to a changing role. c78 06 06

1980 Two Cambridge language schools are up for sale. The New School of English, founded by John Barnes in 1962, is being sold because of his imminent retirement and the Jarrett school, one of the city's oldest, is also seeking a purchaser. Neither say Iranian crisis which is severely restricting the number of students has been a contributory factor 80 11 12b

1981 Cambridge International Centre Club closed [Misc.2.4]

1982 Cambridge planners say no more permanent language schools or secretarial and tutorial colleges should be permitted unless they are specifically for city residents. In the last ten years the number has trebled from 19 to 57 and the number of students has doubled to 15,000. Although they bring in about £13 million each year, are a major industry and create jobs they frequently irritate city residents 82 08 09

1984 The annual summer influx of foreign students into Cambridge is only just beginning. More than 15,000 came in 1981, outnumbering University students by almost 3,000. They had an estimated expenditure of £13 million and families offering lodgings benefited most from student revenue. But there were problems of overcrowding of public amenities and traffic congestion. Foreign students think England is a bit socially. The young people have nothing to do in the evenings. Many are too shy to go into pubs or strike up conversations with strangers. International clubs leave much to be desired: people sat round making boring conversations about the weather 84 05 01 p13

1989 Frank Bell, who founded the prestigious Bell School of Languages started his interest in teaching languages when he was a prisoner of war during WWII. After the war he worked at the University Board of Extra Mural Studies before founding his own language school in 1955. Later he set up the Bell Educational Trust with schools in Norwich, Bath and London. He was awarded an OBE in 1975 89 07 18a

CCAT building, East Road 1983

c.36.7: adult education

TECHNICAL COLLEGE

In 1850s attempt to start a School of Art had failed, in 1858 held soiree with an inaugural address by Mr Ruskin. School opened November 1858 at 9 Sidney Street, by 1862 had moved Guildhall & in 1889 the Technical Instruction Act was passed & Borough Council made grant of 3100 & built small Institute for Technical Education in East Road. 1902 Education Act changed status of school for County made responsible for Higher Education though Borough continued grant & housed school. Collier Road site opened 1909 by American Ambassador. 1921 Education Act pioneered day continuation schools pointing need for systematic technical education. By 1923 had department of Commerce & provides courses for apprentices in building, printing & scientific laboratories. 1920s saw period continual growth & appearance of full-time students - 15 in 1921, 117 by 1930.

These are evidence of development of the Trade School from which many departments present college grown - train boys & girls for employment in skilled industries - though give no guarantee of work due unemployment situation.

During WWII carried out contract work for Govt & trainee department for Ministry of Labour. At end ran full-time course for Gas engineers - forerunner of 'sandwich' course. Expansion in numbers & range of courses - to degree standard - matched by changes in site. original Edwardian red-brick shared with County Girls school. Another wing 1925 & further extended 1931; 1939 girls moved to Long Road & tech took their rooms. Pre-fab in 1947, new & more solid buildings 1956 & 58. 3rd extension under construction & 4th planned.

Much expansion in last 10 years as need for trained engineers, Scientists & technicians has grown. 1948 GCE classes started; many degrees, apprentices from all over ... FROM : THE CAMBRIDGESHIRE TECHNICAL COLLEGE & SCHOOL OF ART 1858-1958

1893 Church Industrial School Victoria Road closed [3.1]

1898 The annual Tea of the Friends adult school was held in Sturton Town Hall, Cambridge. The objects of the school are to promote self-help, brotherly kindness, and a practical Christian life. They had 167 members on the books, 114 at Nelson Street, 31 at River Lane, and 22 at Swavesey, with an average attendance of 117 in the three schools on Sunday mornings for the year. It was difficult to get much interest manifested in the intellectual pursuits by labouring men at the end of a day's work, although the friends of the school believed if they made efforts in this direction they would find it a real relaxation. It was much hoped that this way of employing leisure, so much more sensible and profitable than the absolute waste of time in comic singing and other senseless amusement in vogue in some of the young people's guilds, would become more common among them CDN 1898 03 15

1909 Fire broke out at the Ladies Training College in Wollaston Road. Very fortunately the vacation had denuded the college of students and only Miss Ellis, the Bursar, and six domestic servants were in residence. Hastily snatching up dressing gowns they scurried out of the burning building by the servants' staircase at the back. Firemen tied handkerchiefs over their mouths and nostrils and the smoke helmet was used for the first time. Considerable damage was done but the college may find consolation in having a building remaining at all 09 04 09

1920 Perse School may transfer to larger site on Hills Road and use existing buildings near Hyde Park Corner for a Polytechnic or Municipal Institute for the borough – proposals 20 09 29

1930 Never did learning of so weighty a nature sit so lightly on so smiling a personality as Miss Wood, principal of the Cambridge Training College for Post-graduate Women. She has a formidable list of classical achievements but proves that learning does not inevitably mean dullness. The College opened in two small cottages in Newnham Croft in 1885 and has provided hundreds of teachers for secondary schools in many parts of the Empire. 30 11 25a

1931 Miss Enright came to Cambridge in 1924 to help in the reorganisation of the School of Arts, Crafts and Technology and became the first woman to be elevated to be head of a technical school in the UK. There were odd classes for unemployed boys and girls with 54 students, now the number in the Day Trade School has grown to 151. They train women in domestic science, needlework and simple home hygiene but few show much interest in so essential an art. 31 03 06a

1944 Cambridgeshire Technical School is in future to be known as Cambridgeshire Technical College and School of Art. Other institutions in the country doing advanced work of a similar nature were called colleges, and it was felt only right that their school should have the same standing. 44 10 06 CIPof

1949 East Barnwell community centre handed to Borough Education Committee [5.1]

1951 Proposals for the future of the Cambridge Technical College and School of Arts were discussed. One involved provision of 34,000 square feet on a new site at Long Road for the School of Art, including printing and commerce department; the other was for extra

accommodation to be provided at Collier Road together with alterations to the existing premises. This site would relieve the needs of the building, engineering and science sections. It was central and near to the railway and bus stations. The disadvantage was that it was small and would be expensive to expand. The Collier Road scheme was approved c51 07 26

1958 Technical College centenary [17.3]

1958 When Charles Leeson joined the Cambridgeshire Technical College in 1925 there were six staff and a few hundred students. When he retired there were nearly 100 staff and 5,000. 1971 Cambridge Students Union link with CCAT, outnumbering undergraduates in an organisation they brought into being at the beginning of last term – 71 02 24 17.5]

1971 CCAT – how long to wait for polytechnic – feature – 71 02 24a

1973 DES go-ahead planned college Further Education at Long Road to replace York Street Further Education centre [17.9]

1973 York Street further education centre begins in temporary buildings, need better site [15]

1973 York St & Young St renamed CCFE, moved Brunswick 1982, cash crisis 1985 [11.5]

1974 The first full degree awarding ceremony of Cambridgeshire College of Arts & Technology was held in an atmosphere of austerity. There was dignity but no frills as more than 130 degrees were awarded – no academic gowns or hoods, no flowers. The college officials felt that such “extras” might have offended the ratepayers c74 11 26

1979 Technical College close down classics teaching [17.6]

1979 Brunswick school converted to Further Education College [8.3-4]

1982 The Centre for Management Development, Cambridge operates from a private house but is the headquarters of a money-spinning operation that draws hundreds of students from the top echelon of life in the Third World to Cambridge. The founder-chairman is an American who claims to have a doctorate from Harvard – though they have no knowledge of him. He invited influential African civil servants to courses, got the best brains to teach them and charged them for the privilege. Now it is subject of a court case. 82 02 10a & b

1983 Technical College £2M 4-storey new building opens [17.7]

1983 A £10million plan for building a huge ‘tertiary college’ at Howes Close off Huntingdon Road has been secretly dropped by the County Council. The proposals for a three-storey building to accommodate at least 2,000 students caused a wave of protest when it was first announced as it would have worsened the already bad traffic conditions. But plans for an alternative site for a new college, which would mean the end of the present sixth-form college system, will continue 87 05 05a

1985 Technical College eligible for poly status [17.8]

1985 The Cambridgeshire College of Arts and Technology needs polytechnic status. It would boost cash levels, encourage more students and do a lot for its prestige. College principal Roy Helmore says Cambridge is an extremely attractive city for students; if you compare it with Chelmsford, which is another college making a bid, it is culturally and socially a desirable place to stay. But staff would have to be relocated and paperwork would increase. He is retiring after nine years and says it is a right time for somebody new, younger and vigorous to take on the challenge. 85 11 12

1986 £26M super college suggested replacing Hills Rd, Long Rd & CCFE [8.6] would close CCAT section dealing vocational training 16-19 year olds [17.9]

1986 Cambridge College of Further Education has increased rapidly and now has nearly 1,000 full-time together with 3,000 part-time and evening students. The expansion is due to the rise in unemployment, the need to provide course places quickly and vocational courses being moved from the CCAT. But it has to operate on six sites around the city and struggles with poor-quality accommodation, lack of student facilities and duplications of materials. Options include a takeover of the Manor Community College, a new building on the Brunswick Site or a new college on the city outskirts. But none are likely in the near future 86 02 13b

1987 88% undergraduates & 59% postgraduates in college-owned accommodation, 90% CCAT housed privately øCEN 2.9.87

c.36.72 : teacher training; started 10 05 2011.

1936 Cambridge Training College for Women celebrated its Jubilee. It had started in two cottages at Newnham when Miss Hughes, the principal, was the sole staff and lectured on every subject. Early staff, if they did receive their salaries, paid them back into the college in some way until the new buildings were started. When it moved into Queen Anne Terrace 1,000 guests gathered in a marquee for the ceremony. So great was the crush that those who were to sit on the platform could only get to it through a hole cut in the marquee. 36 06 02 & a

1938 Cambridge Training College for Schoolmasters had gradually disappeared during the War but in 1919 Charles Fox was told to re-establish it. There was no building, no library or archives and no staff – only a debt. But there were ex-Service men keen to get on and shoals of applications arrived He not only had to function as director, lecturer and demonstrator, but also as tutor to 150 students, a retirement presentation heard. 38 06 20 &

1947 The Principal of the Cambridge Training College for Teachers maintained that what was needed above all else was some kind of stability for the young people, who had not had the pre-war background of the older generation, and were trying to find themselves in a difficult world. "Bed time has been an immense problem; many mothers have allowed girls of 12 upwards to stay up and keep them company. The result was there were now so many young people - possibly at the Universities - who had simply not had enough sleep for the length of their life". Youth clubs were affecting the older girls who went in for dancing that kept them out late. The wireless, too, was a disturbing influence during homework c47 10 29

When Charles Darwin came to receive his Honorary Degree in the Senate House, years ago, undergraduates rose to the occasion. A thin chord had been quietly run across from one gallery to the other and just as the Orator began his choicest Latin praise, there suddenly slid down and swung, exactly over Darwin's head, the huge airy imitation of an ape dangling a rusty chain labelled 'Missing Link'. The laughter baffled all the efforts of the proctors to maintain order, even the grave and reverend dons could not help joining in. CWN 09 07 02

Students who are likely in the future to be owners or managers of land will have the opportunity of acquiring a knowledge of the scientific principles underlying the sound practice of agriculture and of the ways in which our ancestors met problems and difficulties which they, like us, had to face - 1899 02 10

1900 02 17

The scene at the door of the Senate House on the morning on which the lists in the Mathematical Tripos are published, and the ceremony of the wooden spoon, belong to the life of Cambridge as much as the May Races. But this is not all. Within a few minutes of the announcement on the steps of the Senate House, the name of the winner of the Cambridge Mathematical trophy is telegraphed to the ends of the earth. It is because Cambridge offers the Senior Wranglership that men have come from every part of the earth to pursue their studies in Cambridge. It would have made a great change if the recommendations of the Mathematical Board of Studies towards its the abolition had been sanctioned by the Senate c00 02 17

1900 06 16

The Vice Chancellor of Cambridge University has published a letter received from Mr Macfarlane-Grieve of Impington Park. "I have watched the successive efforts of the University to help the teaching of agriculture on an intelligently scientific basis since 1893. It would be a distinction for Cambridge to be the first to found a University School of Agriculture. A Professor of Agriculture without a farm, conducted on both model and experimental lines wherewith to illustrate his teaching, is like a Professor of Chemistry without a laboratory. A farm on this estate will fall vacant at Michaelmas and I am prepared to offer it to the University rent free till 1909". The Senate has accepted the offer with thanks CDN 1900 06 16

1900 08 31

We deeply regret to announce the death of Dr Henry Sidgwick, until recently Professor of Moral Philosophy at the University of Cambridge. Though he was at some slight disadvantage in the matter of enunciation his lectures were unusually attractive and even eloquent. He married Eleanor Balfour, sister of the Rt Hon Arthur James Balfour, the present Leader of the House of Commons. She rendered great assistance in the organisation of Newnham College, being appointed principal in 1892. Her husband resided with her at Newnham and took much interest from the first in the foundation and development of the college. With his death the country loses one of the clearest thinkers that the later half of the 19th century had produced c00 08 31

1901 06 12

Yarmouth Guardians received a report on the dissection of paupers' bodies. They had been sent to Cambridge by officials of the workhouse since 1881. Professor Macalister sent a cheque for £6 14s 6d for each body but only £5 10s 0d was really incurred for expenses. The railway charge for the carriage of a body was £4 6s.0d but the Master's clerk said it was £4 9s.0d and that he put the

other 3s. in the poor box. £1 was paid for a coffin but he received 1s. from the undertaker. All the clerk had to do was to see the body was screwed down, go to the railway station and pay the charge. He said he gave the porters sixpence each but inquiry proved they only received a pint of beer c01 06 12

1901 06 20

A large number witnessed the quaint custom of the presentation of the wooden spoon to the last man in the University Mathematical Tripos. This year two candidates were bracketed at the bottom of the list and both gentlemen received large spoons emblazoned and trimmed with their college colours. The spoons were lowered down to their owners from the gallery in the Senate House amid much interest. Mess Crisp & Co of King's Parade, Cambridge, again supplied the spoons, which were artistically painted and decorated. Mr D. Buchanan, who comes from South Africa, has had an additional spoon presented to him by his South African friends, with the arms and coloured ribbons of Cape Colony c01 06 20

1901 07 18

Great Yarmouth board of Guardians revived the question of paupers' bodies being sent to Cambridge Anatomical School for dissection. Every friendless person who died in the workhouse should be asked before death if he had any objection to his body being sent away for dissection. Mr Saul thought that was a gruesome and unseemly idea. Dissection was perfectly legal and right; if they declined to allow unclaimed bodies to be used surgeons would be compelled to make experiments on living people or resort to paying for bodies stolen from newly-made graves. The practice will continue c01 07 18

1903 06 19

Sir – it is well-known that owing to inadequate incomes some of our foremost resident mathematicians, whose work reflects honour upon the University, are compelled to divert their energies to routine work of a remunerative character. It is very desirable that means should be found to obviate this difficulty which has become more pressing owing to the shrinkage of college incomes. Very substantial benefits would accrue if funds were available to raise the stipends of two lecturers in mathematics from £50 to £250 a year – G.H. Darwin. c 03 06 19

1905 03 03

The University threw open the Senate House to the four thousand and odd voters on the electoral roll to say 'aye' or 'nay' to the proposal that Greek shall in future be an optional subject in the curriculum of this ancient seat of learning. There is at present none of the wild excitement which characterised the rejection of the claim of women to University degrees in 1896, but there is at least equal interest for in half-an-hour about a hundred votes were registered. Masters of Arts

from all parts of England have been summoned and poured into Cambridge by rail and road, the motor-car, as in political elections, bringing many electors to the poll. 05 03 03a

1905 03 04

Cambridge streets have not presented for many a long day such an animated appearance. Trams and cabs have been doing a roaring trade, foot passengers throng the narrow thoroughfares and motor cars dodge in and out of the traffic in a manner that is somewhat bewildering. All this is caused by the closing scenes of the Greek controversy. Dignified decorum is gradually giving way to infectious excitement. When the Prime Minister, Mr Balfour, arrived at the Senate House to record his vote he was given a rousing reception. Photographers snatched up their camera and raced across the grass to the voters' entrance whilst University dons covered the ground in a manner reminiscent of the racing track. 05 03 04

1905 03 04

A large crowd was attracted to the vicinity of the University Senate House by the unusual spectacle of clusters of electric lights suspended from its exterior walls and the sounds from within of intermittent loud cheering. Members of the University and a number of ladies clambered on to the window sills to watch the proceedings within as the vote reached its conclusion. One of our reporters, whose Greek had grown rusty, sought the assistance of a policeman to decipher an inscription. "Well, it means 'Alas for Greek', doesn't it" he replied promptly. But Greek was triumphant and is to remain a compulsory subject within the University. The end was heralded to those without by a burst of cheering 05 03 04 – 06 1.12]

1905 10 06

Cheshunt College opened its doors to theological students without any ceremonial. It was founded in 1768 by Selina, the Countess of Huntingdon, and is strictly undenominational. It moved to Cheshunt in 1792 where it was recognised by the University of London and has now transferred to Cambridge. Houses in Cintra Terrace, Hills Road, have been adapted for the 15 students; most will become members of the University and read for degrees. 05 10 06

1906 05 03

The University discussed proposals to restructure the Mathematical Tripos; the competitive nature should be abolished and instead of publishing the names in order of merit from the Senior Wrangler downwards they should be given in alphabetical order in three divisions – Wranglers, Senior Optimes and Junior Optimes. But the order of merit was the greatest stimulant to continued exertion and a great advertisement for the university. Prof J.J. Thompson said pure mathematics was of very little use. Numbers had decreased until last year there were only 56 taking the examination 06 05 03

1906 06 12

A crowd of dons and undergraduates congregated in the Senate House to learn who had gained the coveted distinction of Senior Wrangler but those who were expected to obtain good positions awaited in the seclusion of their rooms the news brought by friends. The examiners stood in the gallery holding the fateful papers in their hands and announced that Mr A.T. Rajan, an Indian student, and Mr C.J. Sewell, both of Trinity, were bracketed as Senior Wranglers. When the order of merit in printed form came fluttering down from the gallery the customary wild scramble for the sheets ensued. 06 06 12

1906 06 19

At the Senate House two Wooden Spoonists received their degrees. H.R. Bell and W.Crouch, both of Selwyn, were bracketed last in the Mathematical Tripos and each was presented with a

wooden spoon. Years ago this was a shovel with the college arms hastily painted on the bowl. Now it has become a thing of beauty, a trophy handsomely decorated which would not be out of place in the most artistic study. They were lowered on strings from the gallery and each recipient was handed a pair of garden shears with which he cut the string, bravely shouldered the spoon and marched out accompanied by a perfect tornado of cheers. 06 06 19a & b

1906 06 31

The University is deciding who shall be their representatives in parliament. But voting is not by secret ballot. Three polling stations are furnished with desks and packs of voting cards of different colours with a space for the voter's name, college and degree to be written. Two electors arrived together, one in academics and the other cap and gownless. He had to wait until his companion had completed his business before borrowing his gown & thus be allowed to vote. 06 0 13a&b

1906 06 31

The owner of the Holme Wood Estate went to court to restrain four undergraduates from trespassing on his land to catch moths. They had arrived on the reclaimed mere with elaborate paraphernalia for luring unwary insects to their doom and remained twelve days, to the annoyance of gamekeepers. They swung lanterns in the pheasant covers, placed 'sticky stuff' on trees and erected a sheet on the roadway. They were fined one shilling. 06 03 31 & a

1906 12 22

We regret to have to record the death of Mr Frederic Wm Maitland, Professor of English Law. He was at the Grand Canary whither he had gone for the winter. He was a prolific writer on the subject of law but his final writing was a memoir of Miss Mary Bateson, with whom he did literary work. One of his last acts was to attend her funeral. By his death Cambridge has lost not only a distinguished scholar but a man of charming and courteous personality who despite his great learning was one of the most unassuming of men. 06 12 22

1907 01 31

Election on Senior Wranglership – 07 01 31, 07 02 01, 07 02 01a, 07 02 04a

1907 02 01

Only members of the University in academic dress are admitted to the Senate House to vote on the abolition of the Senior Wranglership. But one voter managed to elude the vigilance of the janitors and outraged the proprieties by stalking up to the barrier in a light 'dust' coat, swinging his cloth cap in hand. The situation was explained to him and after a hasty retreat he reappeared in the decorous black garment. 07 02 01a

1907 02 04

The doom of the Senior Wrangler has been sealed, and after 1909 that world renowned and historic personage will be as extinct as the Dodo. It is impossible not to feel regret for his passing. He has been so intimately associated with Cambridge as to have become a sort of trademark by which the University is known. But the tendency of modern education is towards specialisation and a University that failed to keep abreast of the times would soon be in decline. 07 02 04

1907 03 18

A movement is on foot amongst English Roman Catholics to establish a college for women, on the lines of Girton or Newnham, at the University. The leader is Miss Eleanor Warner who recently visited the Catholic Convent in Bateman Street. She is now in Rome for a meeting with

the Pope. Opinion is strongly favourable and that Cambridge may soon see an addition to her institutions. 07 03 18a

1907 04 20

St Johns and Trinity more senior wranglers – 07 04 20

1907 05 14

There is a close educational bond between Cambridge and Japan. A number of Japanese boys come to the Leys School to receive a modern Western education. More young men come to the University to fit themselves for taking high places in the nation which has cast off the swaddling clothes of Oriental lethargy and become one of the great Powers of the world. It is therefore appropriate that when his Imperial Highness Prince Sandanru Fushimi, the special envoy of the Emperor of Japan, visited

Cambridge he should return with the degree of Doctor of Law, honoris causa. 07 05 14

1907 06 12

There was great glee at the award of Honorary Degrees at the Senate House when a toy paper balloon floated down from the gallery and settled on a lady's head. With characteristic imprudence the juniors wanted their balloon returned but the lady was released from her embarrassment by a diversion elsewhere. Cheering greeted the arrival of Sir Henry Campbell-Bannerman, the first Liberal Prime Minister the University has educated since Palmerston. 07 06 12a

1907 06 18

The scene in the Senate House was very tame and it was not until the presentation of the wooden spoons to the last Wrangler that there was any fun at all. This year three men were bracketed for last place. The original wooden spoon, about 30 years ago, grew into a malt shovel with the man's college arms upon it, but this year they were more elaborately decorated than ever and are quite works of art, beautifully adorned from bowl to handle.

07 06 18 & a

1907 07 25

Dr Edward John Routh, was the most famous mathematical coach of his day. He coached 27 Senior Wranglers, 41 Smith's Prizemen, and over 500 Wranglers and was the author of numerous works on statics and dynamics. He died at Newnham Cottage, Queen's Road leaving an estate valued at more than £80,620. 07 07 25

1907 12 11

Cambridge undergraduates joined the 'Brown Dog' agitation in sympathy with members of University College London who feel they have been libelled by anti-vivisectors. They object to an inscription on the statue of a dog in Battersea Recreation Ground which reads: "In memory of the brown terrier dog done to death in the laboratories of University College. Also in memory of the 252 dogs vivisected during the year 1902." Students planned to remove the statue and throw it into the river. But the 'secret' arrangements were too well known to the police. 07 12 11

1908 05 18

Sir - The last Senior Wrangler will be chosen in 1909 and Trinity and St John's are fighting to ensure success in that examination. Trinity secured a lad from the most famous scientific family in England. St John's retaliated by obtaining a boy of extraordinary merit from an East-end slum. Then Trinity secured an Australian and St John's put another man on their mathematical staff specially to coach their candidate: they brought back Professor Bromwich from Galway.

Normally lecturers go away to become professors, professors do not get brought here as lecturers to foster unfair College competitions – Pro Bono Publico 08 05 18

1912 03 22

The King has appointed Sir Joseph John Thomson, Cavendish Professor of Experimental Physics, to the Order of Merit. Throughout the world of science this recognition of one of the most eminent of living physicists will be received with satisfaction. His experiments and writings on

electricity and magnetism have profoundly influenced scientific views. He has been honoured by innumerable societies and six years ago was awarded the Nobel Prize for Physics. 12 03 22

1912 04 19

One of the ancient University privileges is the power to grant licences for the sale of foreign wines. Licences have been granted to Bursars or stewards of colleges, college butlers or managers of college kitchens and to the custodian of Fitzwilliam Hall. Hotel keepers, grocers, chemists, confectioners, restaurant keepers, the manager of the refreshment room at the railway station and wine merchants also have a Vice-Chancellor's licence which is free. But a wine-dealers licence cost ten guineas annually. Now this last relic of University control over the market and sale of provisions in Cambridge may be abolished 12 04 19b & c

1912 05 24

Mrs H. Bonnett of Lensfield Road has offered to build, equip and endow a Clinical Laboratory for the benefit of Addenbrooke's Hospital as a memorial to her son, the late Mr John Bonnett, who was for many years secretary and legal adviser to the Hospital and one of its most earnest advocates and supporters. It is not often that such a generous, one might almost say princely, benefaction is offered for such an invaluable object. It is a most generous gift at a time when the Governors are about to decide on plans for a new Children's Ward and out-patients' department. 12 05 24f

1912 06 24

The wealth of Cambridge in scientific fields seems to grow almost daily. Today is to be opened the new Cambridge Research Hospital for the study of rheumatoid arthritis. The condition can be one of almost ceaseless pain but it arouses less sympathy and lacks the sentimental element that helps hospitals for children and the consumptive. Success will bring about a greater diminution in human misery than the discovery of a cure of cancer. 12 06 24g

1924 05 10

At the opening of the Sir William Dunn Institute of the Cambridge University School of Biochemistry Sir Jeremiah Coleman said they had heard a great deal lately about the horrors of cancer and the necessity for co-operative effort throughout the world to deal with that great curse. He believed that the causes of that scourge would be discovered by a student who had not been thinking especially of cancer. Why should it not be done in the building in which they were assembled that day? C24 05 10 [43.2]

1925 08 18

Members of the veterinary and medical sciences cemented feelings of professional friendship with the laying of the foundation stone of the Field Laboratories, Milton Road, in connection with the Institute of Animal Pathology which is to be erected in Tennis Court Road, Cambridge. Recent benefactions to the University of £100,000 from Mr Gates, the Rockefeller Foundation & the Corn Repeal Act Fund are to be drawn upon for the erection of the new unit. The vice-chancellor remarked jestingly that he was relieved that it was proposed to keep the greater number of animals here, "some little distance from Cambridge & from where I live" (Laughter) c25 08 18

1925 10 20

Something of a new departure is to be made in the outward appearance of the Pro-Proctor and his satellites. Commencing next week he will patrol the streets on foot but minus cap and gown, and the 'bulldogs' will wear some less conspicuous headgear than 'toppers'. It is said that some students will keep their motors outside the town and cycle out to fetch them but should any resort to such expedients they will probably receive an unpleasant surprise c25 10 20

1926 08 30

Sir – Probably the hardest-worked and the poorest paid college servant is the kitchen porter. In full term he puts in from 13 to 14 hours a day and at the end of the week if he draws 25s. (£1.12) (his food included) he may consider himself lucky – and perhaps the less said about the quality of some of the food the better. They get few tips – an average of 4s. (20p) a term, and perhaps nothing, and in all probability have to stand off during the Long Vacation. These men are honest and trusted servants who should be paid a living wage – A British Worker c26 08 30

1927

Dunn Nutritional Laboratories established [43.3]

1927 02 08

A momentous event in the history of extra-mural teaching at Cambridge University was marked by the opening of Stuart House. Standing in Mill Lane it is a beautiful house and a worthy addition to the architectural wealth of the town. It is named after the Right Hon. James Stuart, Fellow of Trinity College, who founded extra-mural teaching work in the University and was largely responsible for its extension to other parts of the country. CDN c 8.2.1927

1927 06 26

When the honours degree men were presented to the Vice Chancellor there was distinct evidence of a movement to break down the tradition of wearing evening dress. Many graduates were in morning dress and soon the sight of men walking about the streets of Cambridge at noon in evening dress will be a thing of the past. The old statutes prescribed that recipients of Bachelors' degrees must appear in black clothes and since the war impecunious undergraduates found their only black suits were their dress clothes. The new statute states that dark clothes must be worn which brings in the lounge suit. The evening dress tradition is not very old and rests on nothing but undergraduates' customs c27 06 26

1928

Rockefeller fund grant University 700,000 for teaching research & a new University Library as old becoming too small [3.20, 8.16, 10.5]

1930 03 19

The death of Lord Balfour the former Prime Minister, great statesman, philosopher and Chancellor of Cambridge University will be particularly felt here. At Trinity College in the 1870s he was rather shy but fond of music and once owned four concertinas on which he delighted to play Handel's oratorios when anyone could be found to accompany him. He was renowned for the hours he would lie in bed and for his passion for blue china and pleasant knick-knacks. His seclusion nourished the fastidiousness of his mind and temper. 30 03 19

1930 06 05

Scenes of academic splendour marked the ceremony of the installation of Mr Stanley Baldwin as Chancellor of the University of Cambridge at the Senate House. The historic building was filled to capacity with a brilliant array of distinguished Cambridge figures. Crowds waited in the precincts and Mr Baldwin's arrival was the signal for a prolonged outburst of cheering. 30 06 05a

1930 12 03

Sir Ernest Rutherford, in a special interview, gave the CDN details of the work which has prompted the Royal Society to present the University of Cambridge with £15,000 for a new science cryogenetic laboratory. It will support the work of Dr Peter Kapitza, the young Russian scientist who has been carrying out investigations at the Cavendish Laboratory into magnetic fields which involves exceedingly low temperatures. 30 12 03

1931

World's scientists gather to honour James Clerk Maxwell, Director of Cavendish Laboratory [6.14]

1932

Neutron discovered, Cavendish [12.4]

1932 05 06

Prof Albert Einstein lectured on electricity and relativity in the Cambridge Senate House, filling a blackboard with mathematical symbols and diagrams. A tall, thick-set figure, with a great mane of unruly grey hair, he was totally unacademic in appearance, speaking in quiet broken English with occasional burst of German. He lectured quite informally while his quiet humour set the dons and undergraduates laughing many times. The audience included members of the women's colleges and a puzzled-looking group of young school girls. 32 05 06 – photo – 32 05 07

1932 06 25

C.P. Snow prepares Vitamin A by artificial means [1.17]

1932 08 12

The University of Cambridge has accepted Messrs Rattee and Kett's tender for the superstructure of the new University Library. They are also building an extension to the School of Agriculture and the Royal Society Mond Laboratory while Mr Sindall is building the new block of lecture rooms in Mill Lane and Coulson and Son have the contract for the extension to the Physiological Laboratory. These valuable contracts have been made possible largely by the munificent gift of the Rockefeller Trustees 32 08 12b

1933

Mill Lane Lecture Rooms opened [8.15]

1933 02 02

Cambridge's most modern laboratory, the Royal Society Mond Laboratory, provides unique facilities for research under the most powerful magnetic fields ever developed and intense cold temperatures. It is the outcome of researches by Dr P. Kapitza in the Cavendish Laboratory which might have far-reaching effects. 33 02 02a & b [1.4] opened by Baldwin – 33 02 03b & c, photo 33 02 04c

1933 02 04

The opening of the new Mond laboratory by Mr Stanley Baldwin has thrown into prominence the work of Professor Kapitza, the young Russian from whose investigations the laboratory has spring. He combines the physicist and the engineer and the mere scale of his apparatus is almost daring. When a party of pressmen visited Kapitza demonstrated some of the low-temperature hydrogen, and then said if anything went wrong they would probably be decapitated! 33 02 04d

1933 02 18

The Cavendish Laboratory seems unable to keep out of the limelight. Sensation follows sensation as the invisible atom is mercilessly attacked. And now comes news of the discovery of a minute

particle of positive electricity which may lead to entirely revised conceptions of the ultimate nature of matter. 33 02 18

1933 05 15

Members of Clare College were awakened by the sounds of banging and hammering at every entrance gate: each had been securely padlocked and barred so staff were unable to gain admittance. Axes had to be procured to break the stout chains. Then it was discovered that all the locks had been carefully filled up with putty so a considerable time elapsed before the normal college routine could be resumed 33 05 15b

1934 05 26

Sir – we scientific workers and teachers of the University wish to affirm out fundamental opposition to the use of scientific research in war and the preparation of war. A situation may soon arise when scientists will be pressured to engage in research directed to the purpose of war Signed: Joseph Needham (Biochemist), E.O. Whetham (Agriculture), Marjory Stephenson (Biochemistry), M.L. Oliphant , C.P. Snow, B.M. Crowther and Alex Wood (Physics) and others 34 05 26

1934 10 19

Cambridge University Department of Zoology's new building looks rather like the upper decks of some huge liner when viewed from Corn Exchange Street. It has been built of concrete and steel so that should the study of zoology ever fall in favour it can be adapted for other purposes. Inside it is possible to be perspiring in tropic heat in one moment and shivering in Artic cold the next. The Elementary Laboratory, the largest of its kind in the world, is on the ground floor so that the vibration caused by students entering and leaving should not be felt throughout the building. 34 10 19

1934 10 28

University Library finished, Eaden Lilley move 1,270,000 volumes; opened by King [8.16, 10.1,10.3, 10.4]

1934 11 07

The All People's Association Cambridge clubhouse was opened by the Vice Chancellor. One of the chief functions of a university was to attract people of all kinds and nations. There were a large number of foreign students here for short periods and colleges made the position rather difficult for a young man brought up in a different tradition. The A.P.A. was doing good work by taking a special interest in the short-term student. The world had gone mad: it was depressing to find principles of liberty of speech and the freedom of the press going by the board. The next 20 years were going to be the most vital in the history of humanity and we must make a serious attempt to understand the other fellow's point of view. 34 11 07 & a

1934 11 16

The new Scott Polar Research Institute was opened by the Chancellor of the University, the Rt Hon Stanley Baldwin. It was founded as a memorial of Capt Robert Falcon Scott to assist polar exploration by collecting information and providing a centre where those contemplating future explorations can profit by the experience of those who have gone before. Later Baldwin opened the new extensions of the Perse School buildings 34 11 16, a was established 1920 [1.3,114.1]

1934 11 24

There have never been more than 15 Japanese undergraduates at Cambridge in any year since the war – there are currently seven and the number may drop to three. But Mr M.Y. Sawatake is prepared to stay on to form a Japan Society to encourage discussion and understanding of topics of mutual interest. Viscount Hijikato, another undergraduate, said it was a pity the added expense of the exchange rate prevented more coming as undergraduates. The supply will not dry up altogether as long as Cambridge welcomed Japanese students: apart from instruction in economics and the sciences it was the atmosphere that the Japanese valued 34 11 24c

1935

University Registry moved from Pitt Press to Old Schools [11.4]

1935 03 02

Two Cambridge scientists on team combating air attacks by scientific investigation [1.20]

1935 01 19

Guests came to the University Zoological Department to inspect the new Balfour and Newton Libraries. Francis Maitland Balfour, who was killed in the Alps in 1882, started the science of embryology. He became one of the most distinguished biologists of his century, founding the finest zoological laboratories in the world. Prof Alfred Newton gave the University his unique collection of very early ornithological books. The honorary Librarian is Mr Ambrose Harding of Madingley, an authority on birds and leeches 35 01 19a

1935 04 24

Professor Peter Kapitza, a leading University physicist, who went to Russia to attend a conference last summer, has been told that he cannot return to Cambridge. Lord Rutherford, director of the Cavendish Laboratory, has described it as ‘a severe shock and most unfortunate’. A special Royal Society Mond Laboratory was built with machines producing as much electrical power as those at Battersea Power Station, when Kapitza carried out experiments with them mild ‘earthquake shocks’ occurred in the building. 35 04 24. Kapitza, a Russian scientist working at the Cavendish Laboratory is not allowed to return to Cambridge after visit home. Rutherford expresses concern that he should come to the new lab prepared for him but eventually the equipment is sent to Moscow, (visits April 1966) [1.2,1.21,2.2,12.11]

1935 06 08

The official announcement that Stanley Baldwin is to succeed Ramsey MacDonald as head of the Government is of special interest to Cambridge because it is the first time in history that we have had a statesman occupying the position of Prime Minister and Chancellor of the University at one and the same time. Nothing has commended Baldwin more to the public than the loyal way he, as an ex-Prime Minister, has served under Mr Macdonald in the last six years. Now MacDonald is to serve under him 35 06 08a

1935 10 18

Controversy surrounded the offer of £10,000 from Sir John Davenport Siddeley for developing aeronautical research in the University. Some dons felt it would subsidise research of a military character of pecuniary value to armament manufacturers. But others say the ultimate influence of the aeroplane upon civilisation will be pacific rather than warlike. It was abhorrent that the University should become a centre of specifically military research but this money would be used for work of a fundamental and non-military character 35 10 18b

1935 11 13

Important pieces of apparatus were installed at the Royal Society Mond Laboratory in Cambridge to enable Dr Kapitza to study very intense magnetic fields and experiment on low-temperature liquid helium. This work is of fundamental importance relating to properties of atomic nuclei. Now Lord Rutherford had agreed it should be sent to a laboratory being built by the Government of the USSR so that Kapitza can continue his research there, following his recall to Russia. 35 11 13

1935 12 07

For the past 14 years Professor P.L. Kapitza, the famous Soviet scientist, has been doing research in England. The laboratory he used at Cambridge was erected specially for him by the University authorities. Now the apparatus has been purchased by the Russians and installed in a remarkable building on the outskirts of Moscow. It has rock-like foundations of special cement to ensure complete freedom from vibration. The walls are lined with barium plaster through which the strongest X-Rays cannot penetrate and the doors covered with massive sheets of lead. His work will deal largely with research into the magnetic and electric properties of metals under extremely low temperatures 35 12 07d

1936 05 02

Cambridge University's world-famous Cavendish Laboratory, the leading centre for modern physical research, has benefited by the magnificent gift of £250,000 from Sir Herbert Austin, the motor magnate. The frontage on to Free School lane will be left as will Clark Maxwell's original lecture theatre and the rooms in which Sir J.J. Thomson discovered the electron and Lord Rutherford disintegrated the atom. The rest will be pulled down and a new five-storey block erected with a laboratory for the utilisation of very high voltages to allow experiments in the transmutation of matter by high speed particles and by radiation. 36 05 01a 36 05 02

1936 10 01

The Vice Chancellor spoke of the overcrowding of the Medical Schools and suggested that despite extensive additions to departmental buildings the University would have to consider placing a limit on the number of undergraduates for medicine or any other subject. Unless something is done the situation may become one of even greater embarrassment than already exists. But the donation by Sir Herbert Austin of £250,000 for new buildings and equipment at the Cavendish Laboratory was the largest ever made by a single person to the University 36 10 01b

1937 10 20

Cambridge and the scientific world have suffered an irreparable loss by the death of Lord Rutherford. Cavendish Professor of Experimental Physics and Director of the Cavendish Laboratory since 1919, he thrilled the world five years ago when two young scientists working under his guidance split the atom. He won the Nobel Prize in 1908, was knighted in 1914 and awarded the Order of Merit in 1925. Rutherford made very little use of mathematical machinery and worked surrounded by a body of assistants and students who were devoted to him. He died in a nursing home following an abdominal operation 37 10 20b His room locked (cleaned 1946, reopened 1977 [12.6])

1937 01 07

Dr Paul Dirac was appointed as-old Lucasian Professor of Mathematics at Cambridge University in 1932 a few days before his 30th birthday, becoming the youngest occupant of this famous chair which was once occupied by Isaac Newton, and remains the youngest professor in Cambridge. He has a reputation for being of a particularly shy and retiring disposition." A London newspaper stated: "More than publicity he fears women. He has no interest in them and even after being

introduced to them cannot remember whether they are pretty or plain". He has now wed in London. The marriage was unexpected in Cambridge and even his colleagues at St John's College were unaware of the ceremony. 37 01 07

Fire at Cavendish Laboratory [7.10]

1949 05 14

Move to abolish Latin rejected [7.5]

1949 10 29

The hope that it would be "a very long time" before Cambridge University elected a permanent Vice Chancellor was expressed by the Master of Christ's, Dr C.E. Raven. He said that occasionally one did get the almost perfect holder of that office, but in the main such men either had not sufficient character to run such a great administrative machine, or they had so much that no one else got a word in hedgeways! "You cannot get rid of a permanent Vice Chancellor unless he is definitely immoral or definite insane!", the speaker added c49 10 29

1950 01 24

University representation in parliament has been abolished by the recent Representation of the People's Act. Amongst those deprived of their seats are the two Cambridge University members, Dr Kenneth Pickthorn (conservative) and H. Wilson Harris (independent). Mr Harris has not sought another constituency but is waiting to see whether Mr Churchill will be in a position to restore the University seats c50 01 24

1950 04 25

Another fire at Cavendish Laboratory [7.10]

1950 09 12

Flags flew at half-mast in Cambridge as the University and Town mourned the death of Jan Christiaan Smuts, scholar, soldier, statesman & Chancellor of Cambridge University. His was a short-lived chancellorship lasting just over two years but is rich in memories. In June 1948 thousands lined the streets to see him walk in procession from the Senate House to Christ's College and their hearts warmed to the slight, sunburned figure who acknowledged their cheers. Distinguished men are commonplace visitors to Cambridge, and often pass unnoticed; but all restraint went overboard on this occasion and the chancellor was obviously moved by the warmth of his reception c50 09 12

1951

Holford Report allocates land West of Backs for college & University development [8.25]

1951 06 07

Installed as Chancellor of Cambridge University before the brilliantly robed dignitaries of the University and a crowded Senate House, Marshall of the Royal Air Forces, Lord Tedder, described it as "The greatest honour that can ever come to a Cambridge man". King's Parade was crowded with people seeking a glimpse of this unique event whilst inside the Senate House itself

every available inch of room was taken up with people standing inside the windowsills. The gallery too was crowded, mostly with undergraduates and girl students c51 06 07

1951 11 01

Air Ministry proposals to use the Stella Maris nursing home to accommodate members of an Inter-Services course learning Russian at the University was described as a “scandal”. It was admirably equipped for use as a hospital, has accommodation for 40 patients, two completely equipped operating theatres and could relieve the 2,000-strong waiting list at Addenbrooke's Hospital. A proposal by the Ministry to acquire the Heritage guest house in Silver Street and 9, Newnham Terrace, Cambridge, had not gone through after college freeholders had ‘dug their heels in’ c51 11 01

1952 07 05

1952 09 27

Nuffield Foundation gives 25,000 to Maths Lab for calculating machine [6.5]

1952 11 14

The visit to the University of Cambridge by the Duke of Edinburgh was enriched and enlivened by the reception which the young consort received at every stage of his tour. It was a “dusk and darkness” tour but the car's interior lighting was on and the crowds had a clear view of the slim, fair-haired Duke. The outstanding items in the programme were the conferment of the Honorary Degree of Doctor of Law upon the Duke at the Senate House, his opening of the new laboratory at the University Engineering Department and his visit to the University Union where he was made an honorary member. The Duke left a happy memory of an unassuming young man with a ready smile and a keen and intelligent interest in all that he saw. c52 11 14

1952 12 31

Radio Telescope set up [6.8]

1953

DNA discovery, James Watson & Francis Crick [NS2.10]

1953 01 03

In a field at the rear of the University Rugby ground a team of Cavendish Laboratory workers, led by Mr. M. Ryle, have set up a station for the study of the very weak cosmic radio waves which are reaching the earth from outer space. This new study has become known as radio astronomy and the large aerial systems used are now known as radio telescopes. Since 1946 the Cavendish have pioneered observations in this new branch of astronomy. The construction of a large version of the telescope would have involved great expense, but in conjunction with Mr D. McKay an entirely new method of constructing the aerial was devised which enabled it to be built at a fraction of the cost. c53 01 03

1953 12 01

Representatives of the British Electrical and Allied Manufacturers Association whose members have subscribed £72,000 to ensure the perpetual endowment of the chair of Electrical Engineering presented the University Vice-Chancellor with a rosewater dish. He told them that the electrical industry has grown to one of great eminence and importance; there is an urgent need in the industry for advanced men and specialists and the University is working to provide the men we need. c53 12 01

1954 03 24

Mr A. Rutherford Almond, head of the old-established tailoring and robe-making firm was awarded an honorary M.A. degree by Cambridge University. The Orator said: "We attach great importance to the correct and traditional academic dress and the Proctors are watching with eagle eye for any breach in sartorial regulations. There remains a great many uncertainties about the different varieties of academic vestments but Mr Almond had a deeper knowledge than anyone else and was always ready to put it at the disposal of the University" CDN 24.3.1954

1955 06 25

Members of the Amateur Radio Club visited the University Mathematical Laboratories to see the electronic calculating machine, EDSAC 1, popularly known as the 'electronic brain' which was built in 1949 from Government surplus equipment. It is capable of doing 40,000 calculations a minute and uses 3,800 valves. When they arrived Fred Hoyle, the famous cosmologist and broadcaster was using it for calculations on the evolutions of the stars. It also plays noughts and crosses. 55 06 25a

1955 10 21

There was heavy rain as the Queen and Duke of Edinburgh arrived for the ceremonial opening of the new Veterinary School where a batch of undergraduates lay down their gowns in a Sir Walter Raleigh act. The Queen was much taken and amused but her private detective, fearing that Her Majesty might trip on the loose gowns, asked for them to be taken up. But a loud cheer greeted the her smile at the gesture. 55 10 21a & b [6.12]

1955 10 24

Dr Albert Schweitzer, the famous 80-year-old philosopher, received an Honorary Degree in the University Senate House. He was warmly applauded by a large gathering with people even climbing on the window ledges in the hope of witnessing the ceremony. Hundreds waited in the rain to cheer him as he entered and left 55 10 24b & c

1956

University General Board recommends halt to expansion in scientific research - is in direct conflict with corporate college life [6.18]

1956 05 10

Cambridge University is to lease the R.A.F. station at Lord's Bridge as the site for a new Mullard Radio Astronomy Observatory. Planning permission has been obtained for the aerials and a building will be erected to provide a laboratory. Costs will not exceed £180,000 much of which will be met by a generous benefaction from Mullard Ltd. 56 05 10 [6.16]

1956 10 23

Release city from 1856 bond re weights & measures [11.5]

1956 12 14

The Low Temperature Research Station was set up during the Great War to investigate problems of preserving the freshness of food supplied to forces overseas and imported from abroad. They started with retaining the freshness of apples throughout the winter and have moved on to the storage of potatoes for the outdoor clamp, though the blackening of the fenland potatoes remains a baffling mystery. The most recent developments have been the radiation of foodstuffs to destroy bacteria. 56 12 14

1957 07 13

telescope from Cambridge Observatory presented to Athens; Newall refractor made 1870 when largest in world, to Cambridge 1891 but white dome very old & cost lot & different type of work now [13.7]

1957 07 26

The new Radio Astronomy Observatory just opened at Lord's Bridge was made possible by a grant of £100,000 from the Mullard Company. Prof N.F. Mott praised the work of the engineering and electronics companies of D. Mackay & Morley and Duke. It was fortunate for radio astronomy that there were in Cambridge firms led by men who were able to understand quickly what the scientists wanted and had the skill and enthusiasm to provide it rapidly and cheaply. 57 07 26 [7.2,7.3,13.8]

1957 09 19

Cambridge scientists are perfecting a new instrument at the University Observatory which will help in the study of sun 'spots' and 'flares'. Housed in a special 100-foot long building, the Magneotgraph is the most advanced in Europe, capable of detecting solar electrical and magnetic impulses which play havoc with radio and television communications. 57 09 19

1957 10 07

Cambridge Observatory obtained the first reading from the Russian satellite on Saturday night. Bruce Elsmore and George Whitfield worked feverishly to construct a suitable type of aerial to pick up the signals. When the first faint 'peeps' began they knew they had been successful. On Sunday they improved the aerial system and that night the Observatory was crowded by pressmen as further readings were taken. The satellite may be visible tomorrow morning, shining like a tiny star in the dark sky. 57 10 07 & a

Princess Margaret opens Chemical Labs [7.4]

1957 12 02

The Senate House has been restored and redecorated. The roof was strengthened, large chandeliers removed and soft diffused pink coloured electric lighting installed in alcoves around the balcony to shed a clean warm light over the whole building. It now looks very similar to how it was nearly 130 years ago. 57 12 02a

1958 02 26

Cambridge University's Department of Engineering came to its present site behind Scroope Terrace in 1920 and building has been going on ever since. Now a new wing has opened with a steel frame designed by the plastic method developed in their own laboratories. The original residence, which used to occupy the site exclusively, now looks dwarfed among the great laboratory blocks which surround it. One day it will have to come down but for the moment it is used for offices and lecture rooms. 58 02 26 [19.3]

1958 05 15

A proposal for a new college for men, to be called Churchill College, is announced today. Sir Winston himself will donate £25,000 and an appeal has been issued. It is needed as the University has embarked on a scheme for an extension of research in scientific and technical fields but existing colleges are already beyond their maximum size 58 05 15a & b

1959 05 14

Compulsory Latin abolished for entrants [7.5, 7.11, 11.13]

1959 08 31

Research and experimental work in the University's Department of Metallurgy in Pembroke Street was brought to a standstill following a serious blaze. Flames came through the roof, two rooms were gutted and a laboratory severely affected. Water used to fight the fire seeped into the basement and caused a great deal of damage to expensive machinery. 59 08 31a & b [7.7]

1959 09 25

Sidgwick Avenue site : first building in use this term [17.8]

1959 10 01

Cambridge University's science departments were first to occupy the central area and there is now a great concentration of laboratories on either side of Downing Street. The few open spaces between them are already overflowing with cars. There is no room to allow for the growth of research and teaching in subjects outside the established hierarchy, Lord Adrian, the retiring Vice-Chancellor told academics. Science has enlarged its premises so much that the arts faculties could not begrudge their expansion across the river 59 10 01c

1959 10 13

The University's Mullard Radio Astronomy Laboratory employed a helicopter to transport one of their big parabolic aerials from a site in Grange Road to Offal End, near Haslingfield. An airlift was the only practical way of moving such an unwieldy load, 27 feet in diameter and so intricately built that it would have been difficult to dismantle it. Cambridge engineer, Mr Donald MacKay was responsible for preparing the complicated piece of freight for its journey 59 10 13

1959 10 22

Government Veterinary Investigation Centre opened near Vet School – 59 10 22a

1959 12 10

The University's new Department of Chemical Engineering building in Pembroke Street was opened by the Chairman of Shell. The firm had made a grant of half-a-million pounds and since the first Shell Professor took up his appointment in 1946, 187 students have graduated. They carry out a research programme during their final year instead of a formal laboratory course and already some information of genuine value had been obtained. In its early days the Department was housed in a temporary building in Tennis Court Road before finding a permanent site next to the Cavendish and Zoology Laboratories. 59 12 10a [7.8, 12.7]

1960 04 09

new microscope designed by University team – 60 04 09

1960 04 22

A suggestion that radioactive waste from the University laboratories was being buried in Madingley Woods has been denied. The University had a store which was locked and shielded

with thick walls where radioactive waste was kept until packed and shipped off to Harwell who finally got rid of it. The Department of Radiotherapeutics acted as a clearing house for other departments which used smaller quantities. The greatest care was taken that liquid waste did not get into the public drains and laboratory technicians are instructed on the handling and disposal of such substances. 60 04 22

1960 04 25

The Department of Metallurgy in the Cavendish Laboratory was badly damaged by fire for the second time in eight months. Last September a number of teaching laboratories were affected and rescued equipment moved to the area now ablaze. Prompt salvage work by firemen and students prevented damage to a £30,000 electron microscope. Part of the roof of the Physical Chemistry block had to be hacked away by firemen watched by about 300 spectators. 60 04 25a [20.15]

1960 04 26

William Topper who left school when he was nine years old and who has worked with his hands for the last 70 years is to be made an honorary Master of Arts of the University, becoming the first master stonemason to receive one. He has restored the Gate of Honour at Caius College, replacing pieces which had been missing for 300 years and has been in the Senate House once before, when he laid some tiles. Now he will take the day off from work and in mortar board and gown receive the degree from the Vice-Chancellor. 60 04 26b

1960 05 16

On Saturday Stonemason William Topper, watched by his wife and family, was made an Honorary Master of Arts of Cambridge University. He sat among dons in the Senate House where he had been only once before – to lay some marble floor tiles. Then he stood bareheaded while the Orator read a speech in Latin which praised his excellent craftsmanship. It had been a great help to the University and its colleges that Mr Topper was available whenever their venerable walls or arches or towers were crumbling. Today he was back at work, chipping away at the steps of the new Perse School. 60 05 16

New Museums site redevelopment plans – 60 10 01b

1960 10 17

A firm of poultry food manufacturers have given a Cambridge University scientist a new laboratory and office building so that he can further his research into the rearing of broiler hens. Dr D. Sainsbury is an authority on poultry and livestock breeding. His advice had often been sought by Silcocks of Liverpool who made the presentation. A small wooden structure, it stands in the grounds of Merton Hall Farm which is run in conjunction with the Veterinary Department. 60 10 07b

1960 12 07

The Low Temperature Research Station, Downing Street, is a strange place. Occasionally in some forgotten corner of one of its temperature-controlled rooms, one comes across perfectly preserved war-time stew that was meant for the civilian population but never produced in great quantities. At that time the Station was responsible for producing the 24-hour battle pack of dried food for the Commandoes who went across to France for D-Day. Now they are investigating why potatoes go brown after they have been peeled and chemically examining peas to discover why they lose sweetness and juiciness in the three days between being picked and canned. 60 12 07d

1961 03 29

University plans for the New Museums site off Downing Street include an underground ring road with parking for 300 cars and 1,400 cycles. A maze of narrow passages would be replaced with pedestrian walkways six feet above ground. Many old dilapidated buildings will be demolished and two 15-storey high blocks for the Department of Mathematics erected. These ‘skyscrapers’ might not be built to their full height immediately but would gradually grow as the department needed more space. The 1934 Zoology building, the Shell chemical engineering laboratory and the Physics Department’s high tension laboratory would be retained 61 03 29 & 30 61 04 01b

1961 05 26

Exam Syndicate move to rebuilt Perse school building, Hills Rd, phase 1 (complete 1965) [20.17]

1961 06 13

Sir – some of the tower blocks proposed by the University for the New Museum site would be twice the height of King’s College chapel. They are opposed to the very character of the historic centre. If approved it would be impossible to object to other towers such as those of the Lion Yard that have been criticised by the Preservation Society. Would it not be better for the gradual transfer of science buildings to the west of Cambridge where a development architecturally worthy of the University could take place? – V.I. Glaster 61 06 13

1961 11 01

University Medical School saved by salary increase 61 11 01a

1961 11 04

City planners have turned down Cambridge University’s plans for a £2million ‘science island’ scheme on the ‘New Museums’ site bordered by Corn Exchange Street and Free School Lane. It would have meant the disappearance of many old laboratory building. Councillors were concerned that the three multi-storey structures, two of which were 200 feet high, would spoil the skyline. No new buildings should be higher than the present Guildhall. 61 11 04 & 06

1961 11 16

A cluster of balloons was flown over Cambridge to give an idea of how the proposed 200ft towers of the ‘Science Island’ off Corn Exchange Street would look from the Backs behind the famous King’s College Chapel. Theodolite readings were also taken from Rose Crescent. The proposal has been rejected by planners 61 11 16a & b

1961 11 16

Corpus Christi College has embarked on a plan to fulfil two great needs in the university. It has created a graduate extension at Leckhampton House in Grange Road to enable research students

to enter fully into university life and to extend to teaching staff the social advantages and responsibilities which attach to being a Fellow of a college. Only about half the research students and unmarried Fellows normally wish to live in college rooms. 61 11 16d

1961 12 01

Harper House in Portugal Place houses 10,000 books devoted to the British Empire. It started in 1919 with informal tea parties at which students met for cultural discussions. By 1921 these had become so popular that 'Cambridge University International Teas' and conferences were started. In 1940 Mrs Irene Harper formed the Birdwood Club open to British children whose families were 'not pacifists' and had some connection with the armed forces. The postwar years which produced a Motherland 'bewitched, bothered and bewildered about the Common Market' have thinned the ranks of the membership 61 12 01 & a

Westfield House has been formally opened as a Lutheran House of Studies with an inaugural lecture by the Bishop of Gothenburg in the presence of an invited audience of senior members of the University. The spacious building on Huntingdon Road will take students from home and abroad who are preparing for the Lutheran ministry and will have a library specialising in Reformation studies. 62 02 23

1962 08 15

The Low Temperature Research Station at Cambridge was founded during the First World War when Government was concerned about the storage of food supplies. The first patent for 'drying freezing' foods was taken out from Cambridge and subsequently taken up by commercial enterprises. Another concerned the gas cold storage of foods now widely used for storing apples. 62 08 15

1962 10 01

The Government has told universities that an extra 40,000 undergraduate places ought to be provided by 1966. In Cambridge numbers had risen to 7,579 in 1959 but then declined as colleges reduced the overcrowding caused by the 'ex-servicemen's bulge. But the new target will restrict funds for graduate students who had increased by 40 per cent in the past five years. An addition the new universities will need additional teaching staff, a considerable number of whom would come from Cambridge, the Vice Chancellor, Sir Ivor Jennings, warned 62 10 01

1962 11 02

The announcement that Dr Max Perutz and Dr John Kendrew have been awarded the Nobel Chemistry Prize means that there are now four Nobel prizewinners working at the small Medical Research Council molecular biology unit at Cambridge. Dr Frederick Sanger gained the Chemistry award in 1958 and less than a month ago Dr Francis Crick was awarded the prize for Medicine. 62 11 02

1963 05 22

Cambridge's new radio-telescope at Lord's Bridge will be the most advanced in its field. Three giant reflector dishes, two fixed and one moveable, will receive radio signals from the universe. The mobile aerial will travel on a half-mile length of rail at a speed of one mile an hour. Prof Martin Ryle said that ten years ago nobody could have dreamed about this type of radio telescope. It was unique in the world today. The millions of copper needles launched into space by the Americans would not affect its working at present, but might well do so in the future. 63 05 22a [13.8]

1963 05 24

Revised plans for the Sidgwick Avenue site include parking for 300 cars underground. But it will not include the West Hall which was to have contained 1,000 seats and provided for symphony concerts and full-scale theatrical productions. A site closer to the city centre would be needed if this was to be a success. The Faculty of History will include studies for academic staff and a library with space for 300 readers. But the need of faculties 20 years hence cannot be accurately forecast and some of those now planned may be accommodated elsewhere. 63 05 24 [17.8]

1963 06 15

Zoology Department feature article – 63 06 15

1963 10 01

Under the 1961 Rating and Valuation Act the University now has to pay rates on the full annual value of all its properties and as new buildings are erected, their liability will increase. Even though Colleges receive 50% rate relief on old buildings they will still pay more on new. Without that relief rates would be prohibitive. The long legal wrangle had been a great inconvenience to the local authority but the changes are very complex. Now however they will pay full rates which will be a heavy burden on their income 63 10 01

1963 10 05

A series of television lectures will be given by members of Cambridge University in a programme called 'Dawn University'. They will be transmitted at 7 a.m. over the whole of the ITV network to demonstrate the usefulness of television as a teaching medium. It is the first time such programmes have appeared so early and it is impossible to say how many people will get up early to watch them. There will also be two-way lectures between Cambridge and the new University of East Anglia at Norwich and a closed-circuit link with scientists at Imperial College, London. 63 10 05

1972 02 26

Undergraduates at Downing College today continued a 24-hour occupation of the dining hall despite a warning that violent protest could close the college for the rest of this term. They are protesting against the expulsion of two undergraduates and the rustication of a third for their part in sending an obscene leaflet to Downing college dons and undergraduates. A supported by a march last night by more than 500 students blocked Regent Street for more than an hour, with demonstrators seated in the road outside the college c72 02 26

1972 03 11

The former Ministry of Housing and Local Government simultaneously agreed to the building of one of the world's biggest radio telescopes near Cambridge and the routing of a major road straight through it, the inquiry (into the Western bypass) heard yesterday. Professor Sir Martin Ryle said in 1966 an application for a grant to build a 5 km radio telescope along the line of the old Bletchley to Cambridge railway at Lord's Bridge and extend it as far as the bridge over the River Cam was being discussed. A grant of more than £2 million was made for the telescope. Later it was learned that discussions had led to a route for the Cambridge Western bypass which passed through the line of telescopes. As a result the size of the telescope had to be reduced to 4.6 km with a considerable loss of power and the instrument was site half-a-mile further west. In 1970 it was announced that the by-pass was to be built as a motorway. Then it became known that radar devices were being developed for long-distance vehicles to prevent multiple motorway crashes. It seems likely that some of these devices will be introduced during the next five years.

1973 10 01

Titan computer phased out, 10 years old [20.3]

1973 04 14

The £2.25 m complex for the Cavendish Laboratory on Madingley Road, Cambridge, was declared open by the Vice Chancellor of the University, Prof. A.W.Deer. Large earth banks will hide the new Cavendish site from the Cambridge Inner Relief Road, if it is ever built, and it is hoped the University will not continue to crowd buildings in upon the new site until it achieves another science slum like that left behind in Downing Street c73 04 14 [12.2]

1973 12 22

Cambridge University has been given £10 million to build and endow a new college for graduate and undergraduate students, the Vice-Chancellor, Prof Jack Linnett, announced today. The lump sum gift has been handed over by the Newmarket racehorse owner, Mr David Robinson, who started his career at the age of 15 as an apprentice in his father's cycle shop in Cambridge. The new college will be built on a 12½ acre site on land bounded by Herschel Road and Grange Road
c73 12 22

1974 06 01

Important research experiments were destroyed when fire badly damaged a wing of the University Department of Biochemistry on the Downing site. Four floors of the building, which was opened in 1963 and is the workplace of about 40 people, were damaged. Expensive equipment and research papers were badly affected on the second floor where research work into proteins is carried out. The top floor, home of the chemical microbiology research centre, was also affected c74 06 01 [19.5]

1974 07 29

A Cambridge undergraduate accused of cheating in an examination has been found guilty by the University Court of Discipline. He has been rusticated for the whole of next year and deprived of the chance of obtaining an Honours Degree. This was announced in a statement from the court, who had only their second sitting in history to hear the case. The undergraduate has the right of appeal to the Septemviri. They are the higher court of senior University members who would be convened specially for the occasion and who have not sat since before the last war c74 07 29

1974 10 18

For the second year in succession the world's top physics accolade has come to Cambridge. Two of the University's foremost radio-astronomers, Prof. Sir Martin Ryle, and Prof. Antony Hewish have jointly won the 1974 Nobel Prize for physics. Sir Martin's major work in Cambridge has been the development of the Jodrell Bank radio-observatory and the construction of the five kilometre telescope there. In 1967 Prof. Hewish started a series of observations which led to the discovery that some radio sources in space – later given the name pulsars – emitted extremely regular radio signals. As a result of this discovery it has been possible to establish the presence of neutron stars in the universe c74 10 18

New electron microscope at Cavendish [14.8]

1977 06 11

Only a man of towering pride and total lack of sensitivity could fail to be awed by assuming the ancient and distinguished Chancellorship of Cambridge University, Prince Philip told a packed Senate House. "I give a solemn assurance that I shall yield to no man in my devotion to the interests of the university and its students". About 70 demonstrators from the University Nursery Action Group stole the limelight as he led the procession to the ceremony. They were protesting about the lack of nursery facilities for the under-fives. The Prince gave the shouting mothers a quizzical look and a smile. c77 06 11 [02.4.17]

1977 06 12

More than 1,500 people packed into Great St Mary's Church, Cambridge to hear the Calcutta missionary, Mother Teresa, talk about her work among the dying and destitute of India. She asked the congregation "not to give from their abundance but to give from their love, till it hurts". Earlier she had been the first to receive an honorary degree from Prince Philip. The University Orator, Dr Frank Stubbings spoke of her work: "She saw the multitudes and had compassion on them; she went alone, in poverty, to the homes of the poorest, tended their illnesses and set up a school in the midst of the slums" c77 06 12

1977 08 09

Lord Adrian, Chancellor of Cambridge University for seven years and one of the world's leading scientists, has died. He was one of the most eminent of the Cambridge scientists and won the Nobel Prize for medicine in 1932. He was a Professor of Physiology and preceded Lord Butler as Master of Trinity College. He had more than a score of honorary degrees from universities all over the world c77 08 09

1977 12 09

Fears that there may be danger of radiation created by the Cambridge atom-splitting team of the 1930s has resulted in a decision to open up a laboratory locked up and sealed for the past 30

years. The room, at the top of the tower in the old Cavendish Laboratory, was locked when Lord Rutherford died in 1937. Since then it has been opened only once – in 1946 when it was cleaned and all materials taken out of it. The room was immediately sealed again because of possible danger of radioactivity from the walls, ceiling and floor. His successors were prepared to live with the locked room but the new tenants of the building – the university's social scientists – need reassurance. c77 12 09

1977 12 30

It was the dawn of the atom age and in small, cluttered and uncomfortable rooms in Cambridge great scientists set about a momentous experiment – splitting the atom. The rooms then moved into the space age, but in one room time stood still as the doors were locked at the top of the stairs of Lord Rutherford's old Cavendish Laboratory. Only the ghosts of the pioneers remained behind the doors and, according to some, so did the deadly product of their work – radiation. Safety experts have now gone into the room to remove every trace of radioactive material but some are still unsure that the old building will be completely safe. c77 12 30

1978 03 16

Quaternary Research sub-dept opens new Godwin Lab, New Museums site [20.11]

1978 05 14

Cambridge's place in the forefront of test-tube life took another step forward when mice that were put into frozen suspended animation more than five years ago at the Physiological Laboratory were running around in a cage. They were frozen in liquid nitrogen as three-day embryos, then thawed and implanted into a female mouse. Frozen embryo banks are likely to become an increasingly important feature of future animal husbandry and one day embryos of whole herds of cattle may be shipped across the world in frozen containers, by-passing disease controls and ensuring preservation of rare breeds. c78 05 14

1978 12 01

A leading Cambridge scientist and Nobel Prizewinner, Dr Frederick Sanger of the Laboratory of Molecular Biology has been presented with an American award for new advances in the chemistry of genetics. His work on the sequencing of DNA in a type of virus used by scientists to study genetics might well warrant the awarding of another Nobel Prize to add to the one he won in 1958 for his study of the structure of the hormone insulin. He has also received other leading scientific awards. c78 12 01

1985 02 07

The Old Addenbrooke's Hospital site in Trumpington Street has been bought by Cambridge University for a record £5.75 million – double the expected price. This reflects nationwide interest in what is the last major site likely to become available in the central area. There had been a gentleman's agreement to give the university first refusal when the old hospital closed, but East Anglian Regional Health Authority decided to go out to tender. It will now be used for expanding university teaching, research and laboratory departments. 85 02 07

1985 03 06

The Government research axe, which has already cut a swathe through Cambridge science laboratories, may fall on the Culture Centre for Algae and Protozoa in Storey's Way which could be closed down and its internationally-renowned research work distributed among other centres around the country. Cuts first hit a year ago when the Neurochemical Pharmacology Unit, the Biostatistics Unit, the Cot Death unit and even the 'jewel-in-the-crown' Molecular Biology unit, which carries more Nobel prize-winners than any other, were affected. Only the cot death unit was completely saved – by massive injections of public money. 85 03 06 [14.9]

1985 03 18

University scraps old Cambridge Colleges Examination, allow only 6th formers in A-level term to stake STEP (Sixth term entrance procedure), encourage state schools [16.11]

1985 06 21

Cambridge University is considering employing a Press and Public Relations officer following Government announcements that future funding will be based on excellence and on good reports of research. A Press officer would ensure news of the university's achievements reaches a wide audience. But they have to weight up the benefits of employing someone to publicise the university's research as against the benefits of employing people to actually do that research. 85 06 21a

1985 07 31

The History Faculty building on the Sidgwick Avenue site has been saved. After nine months of reports and meetings the university has decided to carry out extensive repairs rather than knock it down and rebuild. Each option would cost about £2million but the repairs could be spread over a number of years. Now work will start on weather-proofing it to stop rain penetrating through the façade and terraces. The building received an architectural award in 1970 and its designer, Mr James Stirling, was awarded a Gold Medal for Architecture in 1980. 85 07 31c

1985 08 30

1986 06 18

The University's plans for the old Addenbrooke's Hospital site will see the former outpatients' department being converted to a restaurant. The main hospital block and some single-storey buildings will be demolished and replaced with a commercial car park, the private patients' wing let for commercial use and the nurses' buildings on Tennis Court Road used for student hostels. The southern half of the site will be redeveloped to house the departments of biotechnology, pharmacology and biochemistry 86 06 18b

1986 09 24

Cuts in funding for higher education will be worse than expected. Bursars estimate colleges will suffer a drop in income of 15 per cent over the next three years. Fees paid by local education authorities have been cut, the government has imposed restrictions on the number of students and there are pressures from students to reduce the cost of rooms, meals and cleaning services. What is at stake is a unique way of life in a collegiate system whose virtues of personal contact in small, flexible institutions, have been prized for generations. 86 09 24

1987

MRC Lab of molecular biology 40 years old, 1947 was unit Cavendish, 1962 lab in own right; Dr Max Perutz director won Nobel prize for haemoglobin structure, 1953 DNA, Nobel prizes 1962 (3), 1980,82,84; reception 7 Nobel prizewinners [NS2.14]

1987 09 18

Cambridge's Strangeways Laboratory celebrated its 75th birthday with a £500,000 donation from Ciba Geigy Pharmaceuticals. This will enable the internationally known biomedical research laboratory to undertake a new phase of work into arthritis. Originally known as the Cambridge Research Hospital it was set up in 1905 by Dr T.S.P. Strangeways and pioneered the use of tissue-culture methods in biological research which are now an alternative to animal experiments. Today there are 100 staff representing a wide range of expertise 87 09 18c

1987 09 29

A Government bid to clamp down on universities handing out jobs to dons for the rest of their careers has been rejected by the Vice Chancellor, Lord Adrian. He says Cambridge's hi-tech boom is a direct result of such a system and supports the policy of offering posts to academics until the retiring age of 67. "It is terribly difficult to know who is or is not a 'sleeping don'", he says. But dons who do not teach a lot could help run the university or put back vital knowledge into the community and business. 87 09 29

c.36.92 : undergraduate life

includes rags, protest, women etc which also listed separately

headlines

towards close of Edwardian era at 20 Trinity St “young gentlemen reclined in their rooms consuming larks on toast using silver cutlery brought with them at the beginning of term - suite consisted of sitting room and bedroom, 9 sets in building converted from two houses into one boarding establishment; each had laden coal scuttle each day, baths run & gentlemen called at predetermined times; 9 suits of clothes carefully cleaned & pressed the day before were placed at ready, anything-g other than suits was seldom worn; 9 fires lit & 9 breakfasts served in own room; as day went on all chairs etc covered by sheets and dusting would begin. Typical breakfast include fish, fruit or popular mixed grill featuring devilled kidneys. In kitchen a large wickerwork basket housed each mans silver cutlery, a large wardrobe contained individual sets of linen brought up at beginning of term while large cellar contained nine racks for each mans stock of wine or the occasional maturing pheasant. Lunch often served in house but -cooked in the college kitchen. Turtle soup, fish, snipe, saddle of lamb ... would involve four separate journeys and an average of 18 to 20 such meals left the college kitchens each day - enormous menu - no portions, if man ordered chicken he got the whole bird to do with as he liked. When meal finished enormous basket on wheels collected dirty crockery & returned it to college. Tea was usually served just after 4 and at right time of year crumpet and muffins, still hot from Matthews bakery were consumed in front of blazing fire. At end of term would get present in silver and 5.00 for staff who earned wages 7/6 week paid once a term [44]

Cambridge Dining Clubs recalled in old issue of ‘The Idler’, 1898 – Beefsteak & True Blue – 37 01 30e

History of the Apostles – 85 09 26a

1873 The court heard how, 30 years ago, a young man had been sent to Cambridge University, his father allowing him £250 a year, which was intended to cover all his college bills. Like a good many other young men he became seriously involved with the worst class of moneylenders. His father was extremely angry but arranged the payment of £6,000 to his creditors. He had been taken away from Cambridge and sent first to Boulogne and then Australia. Arrangements were made to tie up his inheritance to prevent him from borrowing another shilling and to settle everything upon his wife if ever he got married. He and his father never saw each other again. CDN 4.11.1904

1897 University debate women’s degrees; poll 1,707 to 661 against; exciting scenes at Senate House, bonfire Market Hill [1.8, 3.5, 8.10]

1897 undergraduate carnival following decision not to allow women to take degrees [3.5]

1898 people hurt & Senate House railings pushed over when Kitchener receives Honorary Degree [2.8]

1898 Cambridge is itself again. The university town has put on its university aspect; Gown has come back to town, and town has made it welcome. The devotion of Cambridge graduates to their Alma Mater has not been wanting during the past year. The Vice Chancellor mentioned the formation of the Cambridge University Association which has been opened to provide new buildings for the Law and Medical schools. £6,000 have already been subscribed. Cambridge is rich in scholarship; the real need of the hour is money that will enable the university to keep in the van of scientific research; to meet the demands that rapid progress in all departments of knowledge has made upon it CDN 1898 10 03

1899 The etiquette of University life is a thing by itself, but “The Freshman at Cambridge” is veritably a royal road to knowledge. One might be some time without learning that it is ‘bad form’ to wear one’s gown and carry an umbrella at the same time. Yet here is the useful rule and many others of the same character set forth clearly. Every Freshman, cast adrift upon the unknown sea of University life, should get this book and make it the subject of careful study c1899 10 06

1900 underground toilets on Market Hill raided for wood to fuel bonfire to celebrate relief of Ladysmith; undergraduate convicted but Home Secretary reversed decision [1.5]

1902 peace in South African War marked with bonfires & struggles [1.6]

1902 Peace in South Africa produced strife in Cambridge – one of those fierce contests between the police and the united forces of town and gown which, combined with the destruction of property, constitutes a “rag”. In King Street a large double gate was attacked as wood for a bonfire but a vigorous-looking dame appeared from the other side. Her only weapon was a duster,

but such a formidable appearance did she present that the crowd melted away before her advance. Skirmishers went towards the Circus of Varieties to obtain a hoarding but this was well guarded and soon they were retracing their steps. c02 06 05

1902 The following notice has been issued by the Vice Chancellor of Cambridge University. "Whereas the attendance of members of the University at certain public exhibitions, performances and places of dramatic entertainment has been productive of grave disorder, notice is given that the attendance of any member in statu pupillari at the Circus of Varieties, Auckland Road, is prohibited and will render him liable to be punished by suspension, rustication, expulsion or otherwise." c02 06 06

1903 Rag when French awarded Honorary Degree thought 'likely to become historic as improbable scenes will ever occur again' (2.1.04)

1904 May Week described as "the brief week in which the permanent part of the population takes much coin of the realm from the floating part" (10.6.04)

1904 claim that tradesmen commission people to recommend their services to undergraduates & supply 'necessities' to rooms for which bedders draw commission [7.17]

1904 Granta holds bedders competition [7.18]

1904 the last procession of boats held following Bumps (10.6.04)

1904 Metropolitan Police brought in to control Rag after King opens new University departments on Downing site in March; on November 5 2 policemen hurt in Rag [7.19]

1904 St John's College students carried out a mock funeral for an undergraduate who was ejected from the New Theatre on three occasions in one week for having infringed the rules adopted to preserve order. The college authorities decided he should be 'sent down' and his friends showed organised a process of 13 cabs which filed along the streets at funeral pace to the railway station. A halt was made outside the New Theatre to allow the travellers to indicate their disapproval of the management. During the whole journey shouts, singing and the blowing of horns was continuous. CDN c 12.3.1904

1904 During the next few days some 800 to 1,000 young men will be coming into residence at Cambridge University. One of the first things they will notice is the number of people who are anxious to recommend them to tailors or robemakers. These people draw five shillings commission for each customer recommended. The fresher will also find in his room a number of 'necessities' from other tradesmen. If he keeps these his 'bedder' draws the commission he had to pay. There are many tradesmen who do not indulge in this kind of toutting and young men are advised to go straight to their tutor to find the best traders to deal with. CDN 8.10.1904

1904 The King's birthday is one of those occasions upon which a certain section of the 'Varsity and Town consider it necessary to turn themselves into public nuisances. This year they avoided the Borough police by making a raid on Chesterton. The mob made tracks for Midsummer Common with the object of having a bonfire. Several hundred crossed Jesus Green bridge where a council of war was held. Carlyle Road was mention as leading to fuel for the fire but a number of the belligerents made an incursion down a private road. Several fences were broken down and flames shot into the air as the surreptitiously-obtained timber was thrown on to the fire. No police appeared on the scene, though a number of members of the Force were on duty on the borough side of the river CDN 10.11.1904

1904 The bedmaker is an institution. Without her the University would be sadly disorganised. Now The Granta has been conducting a bedmakers competition which Mrs Jacob of Magdalene has won. She was born in 1829 and has served the college for 62 years. Mrs Hills of St Johns has a record of continuous service since 1839 while Mrs Nichols has served 28 years at Corpus with 11 at Peterhouse before that. But several ladies entirely declined to take the contest seriously, one saying she had read in The Granta 'articles which no gentleman could possibly have written' CDN 26.11.1904

1905 Sultan of Zanzibar hoax - mayor fooled into greeting & entertaining Undergraduates dressed as visiting Sultan [2.13]

1905 serious rioting on November 5th, women defend their property against undergraduates seeking fuel for bonfire, University pay over 200 to defray damage [2.16,1.7]

1905 Sir - On 1st March 1904 a sergeant of the Metropolitan Police, sent to Cambridge on the occasion of the King's visit, was violently assaulted and kicked by an undergraduate. After six months' illness, during which his pay amounting to £54 was paid by the Borough of Cambridge, he was pensioned off as unfit for service. On 5th November 1904 a constable, having taken one undergraduate into custody, was brutally attacked by others and was left insensible. He has been on the sick list ever since and pensioned off. All members of the University should co-operate to prevent such scenes of riot and disorder - H.M. Taylor, Trinity College. 05 11 09

1905 It is almost incredible that any undergraduate should so far demean himself as to treat a policeman with the blackguard violence of a hooligan. If we have hitherto been inclined to take a lenient view of the occasional destruction of property it was because we felt sure the grosser acts were the work of town loafers who were encouraged by thoughtless undergraduates. But those who took part in gutting a shop should suffer the legal penalty and not be saved from imprisonment by University authorities. - Cambridge Review 05 11 09a

1905 One does not associate Sidney Sussex College with the rowdyism that is rampant in Cambridge. Yet on Saturday night the porter found the door of his lodge refused to open: it had been securely screwed up and he was a prisoner. After a troubled night he was aroused by the bedmakers' loud ringing at the gate and saw there was no option but to smash the window and escape through the jagged aperture to admit the waiting and wrathful 'bedders'. 05 11 11a [2.15]

1905 Sir - twenty years ago undergraduates at Oxford had two types of 'rag'. On the 5th of November we went out and provoked people who didn't wear caps and gowns to hit us, and we hit them back. Then whenever our college had done something great in sport we burnt up a good deal of the college property in the 'quad' and paid for it in our 'wattels' at the end of term. But when the authorities thought there had been too much friendly hitting they used to 'gate' their colleges en bloc at nine o'clock. Now Cambridge undergraduates have discovered a third sort - plundering, robbing and annoying citizens to get wood for bonfires. This is hooliganism and the Riot Act might not be out of place - V.S.N. 05 11 15

1905 Rag - great damage to property - 05 11 10 a & b

1906 "Cambridge surrenders to May Week" - it means increased profits for tradesmen [2.17]

1906 Modern undergraduates' dress is a neat disorder. Flannel trousers, brogues, a fancy waistcoat, a shooting jacket and low golfing collar is the costume in which he lounges into his lectures or goes to the theatre in the evening. Dons are hardly known for their strict attention to the latest fashions but they have never known men so careless in their dress before. 06 02 03b

1906 A sad fatality occurred at Jesus College. A Freshman was engaged in cleaning with benzoline a pair of gloves, which he was wearing on his hands and arms when the gloves took fire from a lighted candle. Help was near at hand and a doctor was promptly in attendance, but the shock was so great that despite every attention he sank rapidly and died in little more than an hour. The deceased should have rowed in the Lent Races but in consequence of the accident the Jesus boats did not take part. 06 02 28a

1906 Undergraduate dress - 06 02 10a

1906 One of the most disgraceful 'rags' occurred a few days ago. An undergraduate had been celebrating his birthday by giving a party to his intimates where they dined too well. Shortly before midnight the raiders returned to the room but their victim had not retired and succeeded in repelling the onslaught. Later they came back, breaking and destroying indiscriminately. The graduate was a great traveller and his room contained many valuable Eastern trophies which he had collected in out-of-the-way parts of the world. 06 05 12a

1906 Cambridge has surrendered to May Week visitors very completely. These pretty butterflies, who transform our mundane streets into kaleidoscope scenes of colour and animation, mean increased profit for the tradesman and are a source of joy to the lodging-house keeper. They must have somewhere to lay their heads, dainty dinners and mayonnaise for supper. They cause money to circulate and many is the summer holiday they provide for the householders who provide rooms for their comfort. 06 06 09b

1906 Mrs Moyes of the Lion Hotel claimed payment from an undergraduate for the hire of horses. He had entered Trinity College and associated with men of means and even of wealth. He stated his allowance was £300 a year (this was denied by his father who said it was £15 per term plus tailor's bills – about £150). The bill was for the hire of three horses on the same day – he had tossed up with two friends and lost. But this was not a 'necessary' and, being under 21 years of age, he was not liable to pay it. 06 06 28

1906 Money lending allegations – Cambridge tradesmen and students – 06 11 17d

1907 The famous Pitt Club was damaged in a disastrous fire which commenced in the dining room at the top of the building destroying the roof above. Fortunately the club records together with some of the valuable engravings of William Pitt were saved but many interesting portraits of former members were destroyed. The Fire Brigade used their new steamer for the first time and but for their efforts the club would have been a thing of the past

07 01 24

1907 All over the country old Pittites offer sighs of relief at the comparatively small amount of damage caused to the Pitt Club, whose dining room was burnt out. The committee is to be congratulated on the speed with which it made new arrangements for dining, and the fortitude of the cook, who sent out breakfast on Saturday morning from a kitchen several inches deep in freezing water, deserves to be recorded in letters of gold and hung up in every kitchen. 07 02 02

1907 In such a cold spell undergraduate etiquette is apt to go by the board. It is an unwritten law that no junior member of the University should, on pain of merciless chaffing, appear in academical dress plus an overcoat. The idea of cap and gown and gloves was simply horrifying. Yet both these laws have been broken with impunity. One young man appeared in public with cap, gown, overcoat and a pair of very aggressive yellow-brown gloves. 07 01 26a

1907 It would show a little more consideration for the feelings of other people if the dog-fancying undergraduate would go a little farther afield than Midsummer Common for their rat-worrying exhibitions. I have no objection to the extermination of the rodents nor to the training of dogs for the purpose, but to many people the sight of the 'sport' in full view of Victoria Avenue is repulsive and disgusting. Such displays should not be permitted in places which force the sight of them willy-nilly upon every passer-by 07 01 26a

1907 A Chinese undergraduate of St Catharine's college was summoned for driving a motor car in Jesus Lane at a furious rate. Frederick Siggers, a college porter, said he was wheeling a plate basket when the car passed within two feet of the wall on the wrong side of the road at 18 miles an hour. The student said it would be a wonderful car that could get up to that speed after a sharp corner. But he was convicted and his licence endorsed. 07 02 12

1907 The University Vice Chancellor has condemned the undergraduates who wrecked Kier Hardy's meeting at the Guildhall. It is one of the University traditions that honest opinions, however unpopular, should receive a fair hearing. Cambridge is not unsympathetic towards the Labour Party and its leader should have been given a chance of expressing his views. 07 02 21

1907 About ten years ago some undergraduates of St John's College removed one of the stone balls from Clare College bridge. They transferred it to a Rob Roy canoe but this capsized and the purloined ball sank to the bottom of the Cam. There it has remained ever since. One of the other balls was put in its place and a new one made, now partly obscured by ivy. (Item from the 'Table Talk' column on 1st April) 07 03 30b

1907 Trinity Hall undergraduates have subscribed £6 3s. towards the fund for repairing the damage done to Mr Glasscock's cab on the night of the visit of Kier Hardy to Cambridge. It was smashed beyond repair but as vehicle was not covered by the Riot Damages Act he had no compensation for the loss sustained. At the commencement of term the News published the facts, calling the attention of undergraduates to the heavy loss they had caused and inviting them to put the matter right. 07 05 03

1907 Dinner for the ordinary, healthy undergraduate is an event of importance. But students at one of the largest colleges trooped into the dining hall, bowed their heads while grace was said, and then to the utter astonishment of the senior members, rose and without a word solemnly walked out. The action was a protest against the kitchen management: there has been dissatisfaction not so much with the quality of the food, but with the quantity and the manner in which it has been served. The protest has caused an improvement in the cuisine. 07 05 18

1907 The boat procession used to be the most popular of the May Week gaieties. The brilliant blazers of the collegians, the varied colours of the ladies' charming costumes, the prettily adorned boats together with the enlivening strains of an excellent band all combined to make a scene of colour and animation. The gathering fell through owing to the apathy of the boating men who objected to dressing up to be looked at. But it is a great pity 07 06 08a

1907 A College Fellow sued an undergraduate for nearly £100. He had paid the lad's loans, lodgings and tobacconist's bill and given him a horse as a present, together with a quantity of saddlery, which he'd kept in his stables for nothing. But then they'd quarrelled. The judge said it was the most disgraceful case he'd ever tried 07 09 26

1907 Magdalene welcomes member English Royal Family as undergraduate for first time – Prince Leopold of Battenberg – 07 09 30b

1907 It is always interesting to see the young freshmen come up in October with their fathers, mothers, sisters, cousins or aunts. As you gaze upon their fresh faces, full of hope and expectation, you think of how their devoted parents will deny themselves many luxuries in order that their sons may receive the best possible education. But the freedom from restraint often proves too much for those not possessed of strong wills. The University is not the place for them – as they learn to their sorrow. 07 10 12a

1907 The visit of Royalty to Cambridge was made an excuse for an outburst of destructive exuberance on the part of undergraduates, errand boys, and others. A rush was made for the bandstand on Christ's Pieces, but it was guarded by police so they proceeded to Victoria Bridge, which was held by sturdy country policemen. Some then kindled a fire near the Cutter Ferry, dragging some palings from the Ferry House, which filled the souls of the 'raggers' with glee. 07 11 12

1907 A 'mock funeral' saw a procession of 100 cabs boarded by undergraduates who scrambled to the roof of the vehicles for the journey to the railway station. The cabbies had decorated their whips with pieces of crepe and 'mourners' with mouth organs and a miniature bagpipes played hideous music. The 'deceased' was 'sent down' for being out of Caius College after midnight – he had gone to London but his car had broken down. 07 11 26

1907 Thirty years ago there was far more drinking and drunkenness amongst undergraduates than now. There are still occasions when too much wine is drunk, such as when the college boat goes out of training and the end of the Lent and May Races. But what else could be expected with 3,000 young fellows drawn from every kind of home and rank of society? 07 12 10

1907 "For an isolated policeman to be attacked and beaten to death by eight or ten students is an occurrence which happens almost once a week at Cambridge or Oxford", writes a correspondent in the 'Messagero', (Rome). He adds that it is common for a group of about 50 undergraduates to wreck a shop as if a dynamite bomb had exploded in it when "the honest tradesman had refused them credit". In the theatre undergraduates do what they like, interrupt the

actresses, start discussions with the actors on the stage, beat the orchestra and upset the stalls, he alleges. 07 12 10

1908 undergraduates climb Backs trees, roped together in Alpine fashion - 08 03 14

1908 There has been an Alpine fever amongst undergraduates, finding a vent in climbing trees along the Backs. The wireless telegraphy station on the Huntingdon Road has been the site of the latest exploit. This is a pole over 200 feet in height which receives messages from Cumnor Hill near Oxford. Two undergraduates merrily commenced the ascent by means of the metal spikes driven in at convenient intervals and managed to reach the top. But the return voyage was not so easily accomplished and they reached terra firma with a distinct sigh of relief. It is a matter for common wonder what object will next receive the attention of this strange species. CWN 08 06 05 p5

1908 Three terms ago the undergraduates of Caius College indulged in a strike against the kitchen arrangements. They refused to eat what was provided – but still had to pay for what they would not eat. Their example was infectious and spread to Trinity. But there they meals have now returned to their old price and standard – they are as exorbitant as they are disgusting. The present arrangements present all the worse features of the less cultured American municipalities. But whoever met an undergraduate who didn't grumble about 'Hall'

08 05 02d

1908 Tragedy surrounds the death of a Trinity College undergraduate who took rooms in Park Parade and acquired a reputation for studiousness. A revolver shot was heard and a fellow undergraduate bursting the door open, found the young man reclining in an easy chair. His right hand still clutched a revolver and in the centre of his forehead was a bullet wound. A doctor was called, but the lad was beyond human aid. Only one chamber of the revolver, which was practically new, had been charged.

CWN 08 05 22 p5

1908 A number of prominent rowing men, objecting to the known Socialistic proclivities of Messrs Gomme and Bull, and believing they had dared to hold a Fabian meeting within the precincts of Trinity Hall, fetched them forcibly from the rooms of a friend and ducked them in a bath which had been prepared in the middle of the Court. A circular was issued that was sent to every Member of Parliament, setting out the facts. The 'raggers' have been punished. 08 06 05 p5

1908 Considerable annoyance has been caused to the dons of Trinity and St John's by gramophone concerts given by undergraduate punting parties. As the Cam is technically a highway the police were asked to put a stop to the nuisance and a constable patrolled the river in a 'tub'. As he was rowing quietly along an undergraduate propelled his craft with such force that its gunwale was smashed in and the policeman narrowly escaped a ducking. The lad has now received a summons for 'obstructing the highway' CWN 08 06 05 p3

1908 Proud papas and mammas in great number congregated in the gallery and upon the floor of the Senate House to watch their sons in clothes of sombre hue wearing upon their shoulders the hood of a Bachelor of Arts kneel before the Vice-Chancellor to receive their degrees. According to ancient custom the Senior Wrangler was first presented and at the tail of the list came the wooden spoonist, Mr R. Pask, a master at the Cambridge and County Boys' School. Strung upon strong twine stretching from either gallery was the trophy, a handsome wooden spoon, which danced over the heads of those seated on the floor in obedience to the string-pulling of undergraduates 08 06 26 p3

1908 There is a rule at the New Theatre which degrades that undergraduates may not charter a box unless they are accompanied by a lady. So four fertile brains sought to overcome it. No relative of the softer sex being available it was determined that one of the four should undergo sufficient outward transformation to satisfy the authorities. The charming gown was of white satin bespangled with sequins designed by Kate Reilly of Dover Street, the beautiful head of hair

was done by Clarkson who came down himself to direct the final 'touching up'. The group dined at Buol's and taxied to the theatre. But what happened afterwards and how the 'lady' was smuggled into college we are not at liberty to divulge CDN 08 12 03 [8.29]

1909 Carrie Nation hoax – 09 02 26

1910 A party of five undergraduates attempted to repeat the 'Merry Widow' hoax at the New Theatre but were sadly unsuccessful. It is a well-known rule that undergraduates may not purchase boxes unless accompanied by ladies or some elderly chaperone. A box was ordered in the name of the Hon Miss Neville of Magdalene College, which aroused suspicion. The party comprised three undergraduates and two 'ladies' who were very tall, walked with mannish strides and spoke in a quaint high-pitched falsetto. Mr Redfarn did not take many seconds to spot the disguise. 10 03 11f

1910 Saturday's bump suppers proved exceptionally popular. It is customary for bonfires to be held in college courts and the frequent discharge of fireworks kept the fun flowing until the early hours. Jesus, who retained their position as head of the river, held a magnificent bonfire on the Close. A large crowd attracted by an enormous pile of old boxes dumped near the tennis courts, assembled in anticipation of fun before the pile was set ablaze by firing Roman candles into the heart of the inflammable mass. 10 06 17

1910 One of the biggest mock funerals for many years resulted as a difference of opinion between the authorities of Emmanuel and several junior members of the college as to the proper conduct of a 'bump supper' after which they had lit a bonfire on the lawn in the front court. Some ten undergraduates in their third year were rusticated for a week. A string of hansom cabs appeared at the gates, the 'corpses' clambered on to the roofs and mourners in evening dress and wearing old silk hats swathed with crape accompanied them to the station. 10 06 17a

1910

An undergraduate was fined for assaulting a policeman on Guy Fawkes night. A considerable amount of damage had been done, hoarding demolished, gas lamps broken, the railway station raided and milk churns overturned. The most serious incident occurred at Jesus Sluice footbridge where a battle royal took place between members of the County Constabulary and a large party of undergraduates and town roughs. They stoned the police, all of whom were hit, and PC Johnson was struck on the forehead by a piece of board and rendered unconscious. Only the arrival of police reinforcements had averted further trouble. 10 11 11 & a

1911 "Mock funeral" held when Trinity Hall undergraduate sent down for disciplinary offence, 100 horse & motor vehicles in procession with brass band on coal wagon leading (others held in March 1912 & February 1913) [1.2,1.3,10.11]

1911 At the head of the funeral procession was a hansom. Seats on the top with legs dangling over the side, was the undertaker. His mournful calling seemed to have cast a settled gloom over his countenance. His eyes were mournful and sad, and his clothing was of the deepest black, save for his socks (he wore no shoes), which were of the brightest scarlet. In his hand he waved a long whip (an emblem of his mournful trade), with a bright handkerchief to match his wonderful socks tied to it. 1911 undergraduates forbidden to take part in any musical or dramatic production outside University buildings; proctors booed by 300 undergraduates on way to University service [10.10]

1911 Two daring swindlers victimised a number of University tradesmen by representing themselves as 'Varsitymen and ordering goods to a small amount to be sent to their rooms. They paid with cheques for £5 'from their father' which they got the shopkeeper to cash. The swindlers looked typical undergraduates in grey flannel trousers and tweed jackets, one of them had a gown

over his arm. They gave Magdalene as their college and their names were found on the University register. 11 11 10g

1912 Varsity cads disrupt cinema [8.27]

1912 Cambridge undergraduates formed a Strike Emergency Committee to avert the disaster with which the nation is threatened by the coal strike. The men were extremely enthusiastic and any reference to 'getting the coal' brought vociferous cheers. If they carried out their desire to work in the mines they would require protection: while half were underground the others should be on guard to see the cages and ventilation apparatus were not interfered with. Police would not be able to send help. Postcards were distributed on which students placed their names and addresses which would find them in the vacation if an emergency arose 12 03 15b & c

1912 Undergraduate plans to organise a strike emergency committee have been attacked by the 'Cambridge Magazine'. It reports: "The strike-smashing Saturnalia of Mr Calderon and his Comic Coal Heavers, which began in Cambridge to the mingled disgust and amusement of King's was continued on Friday night. We hope they will not take themselves seriously, and that their endeavours to make this ancient seat of learning ridiculous will soon cease

1912 R.C. Lehmann told the Authors' Club that when he was at University a Trinity Hall undergraduate with plenty of money had published a paper called the 'Gadfly' containing an irreverent account of a Cambridge institution, Mr Oscar Browning, who was then responsible for its closure. Later they'd heard that Browning was planning a serious and thoughtful magazine to be called the 'Granta'. So they immediately launched their own journal of that name before his could come out. Their most brilliant scoop was to publish the answers to the problem paper in the Mathematical Tripos 12 12 12 & a

1913 Vice Chancellor takes steps to suppress "mock funerals" [10.17]

1913 November 5th : 100 yards wooden fencing torn down Tenison Rd & bonfire made in GER yard, mounted police disperse [10.12]

1913 An undergraduate told the court that he was a relative of the Khedive of Egypt and living at Shelford with a private tutor. He told his valet to get tickets for the New Theatre. But when refused admission he'd got involved in a struggle with an attendant and fell to the ground. The manager said he'd been drunk and had used bad language. But this was a serious matter from a moral point of view and would affect his career here and in his own country if upheld. He was convicted. 13 11 14 p10 CIP

1919 400 Navy & 120 Army students join 500 Freshmen. enormous influx means limits for undergraduate lodgings have to be extended to within 2.5 miles of Gt St Mary's [3.7,3.12]

1919 Prince Albert & Prince Henry amongst undergraduates [3.13]

1919 "May Week" celebrations revived after 5 years absence due to War [3.11]

1920 Undergraduate Princes go down - speeches [12.21]

1920 undergraduates in evening dress & degree robes exercise their right to play marbles on steps of Senate House (follows TT article) Ch 20 06 23a, photo 23d [3.15,12.22]

1920 "Chariot of fire" - cab commandeered & set alight, driven round Market Hill, repeated in 1921 when it collides with telephone kiosk

1921 rags seemed to have reached climax after WWI, by 1920 "a new kind of misdirected energy, originality & daring is being poured into organising elaborate stunts, hoaxes & escapades; Michaelmas 1921 was great term for rags : Senate opened academic year by debating granting degrees for women; became political issue; first rag of burning gates of Newnham, then on voting day a colossal mock funeral for 'The death of the Varsity' with corpse of last male under-graduate being borne on a bier surrounded by aged mourners whose long grey beards

dragged in dust; Armistice Day heralded by great Gun Day when German gun removed from Jesus college

1921 first collection made on 26 November passed smoothly (not done by undergrads); undergrads asked that this collection be organised entirely by their committee & take full responsibility that no incidents [38]

1922 first Poppy Day rag : procession of 'animals' toured town with police escort, one of happiest rags ever seen' [38]

1922 5,000 undergraduates (compared to 3,000 pre war [2.22])

1922 Impressive scenes were witnessed at the funeral of an Indian undergraduate. The funeral was carried out according to the Mohammedan ritual, and the interment was at St Giles' cemetery, Huntingdon Road, Cambridge. The coffin was conveyed in a hearse and was followed on foot by over 50 Indian undergraduates. Arrived at the cemetery the coffin was placed on the lawn at the entrance. Then several of the mourners, removing their shoes, conducted a short form of service, after which the coffin and mourners were photographed by an Indian student. The body was carried to the graveside and lowered by a party of the mourners. Nobody who was not directly concerned with the ceremony was allowed within 25 yards of the grave CDN c 21.4.1922

1923 main feature of Rag was match between two ludicrously dressed football teams; Guy Fawkes incidents became less violent & Senate decreed it no longer necessary for University lodging houses to have ground floor shutters as protection against bonfires [38]

1924 trails of pennies at Rag [38]

1925 undergraduates take over sale of poppies [38]

1925 Cambridge University Senate agreed that no member of the University shall be allowed to keep or use a motor car unless he obtained a licence through his college. If any tradesman or keeper of motor garage shall let out any motor car or motor cycle for hire to any person in statu pupillari he shall be liable to be discommuned. Anyone who houses upon his premises a motor vehicle on behalf of a member of the University must furnish a written description to the Junior Proctor c25 02 10 [11.11]

1925 The minds of motoring undergraduates in the University are greatly perturbed over certain proposals which have been made for the total prohibition of motor vehicles by junior members. The proctors state that "a few undergraduates use their cars and motor cycles after dark to drive undesirable young women into the country and they consider it their duty to prevent them". It is ridiculous for them to walk the streets after dark chasing pedestrian undergraduates for having no caps whilst boisterous merry-markers rush by in cars c25 05 16

1925 During the last few days undergraduates have been busy taking out licences for motor cars and motor cycles under the new regulations made with a view to decreasing the traffic in our narrow streets. Undergraduates are not allowed to use any motor vehicle before 12.30 in the morning or after 8.30 at night. An amusing rumour is that proctors are to patrol the streets in a motor car, followed by 'bulldogs' on motor cycles, but there is no necessity for such 'flying squad' methods as garages are to report any undergraduate who has his car out during the prohibited period c25 10 19

1926 "Scrum" rag one of wildest since war, 52 arrests, 100 in fines (11.26)

1926 Cambridge court heard that when an undergraduate came to Magdalene College he brought with him a bay gelding, worth £200, which was placed in stables in Cambridge and hunted with the Cambs Hunt and the University Draghounds. In December an agreement was

reached with the L.N.E.R. for the carriage of the horse to Berwickshire. During loading into the horsebox at the station it lurched forward, fell out and broke its spine c26 05 28

1926 An appeal for the modification of the ban on gramophone music has been addressed to the Vice Chancellor on behalf of a party of musical undergraduates. University orders forbid the playing of gramophones in punts on the river during the May terms and gramophone music has been banned from certain colleges altogether. "We have no wish to express any opinion upon the playing of jazz records but suggest the playing of good music, such as the London String Quartet, by students in their hours of relaxation on the river could do nothing but enhance the beauty of the surroundings and the taste of the modern young man", they say c26 05 29

1926 Mr Ramsay Macdonald, ex-Labour Prime Minister and Leader of the Opposition will not be one of the recipients of honorary degrees at Cambridge. His name was included in the Grace to come before the Senate but certain members intended to "Non Placet" it & a flysheet was to be issued declaring this intention. News to this effect reached Macdonald who signified that he did not wish it to go forward unless it was absolutely unanimous. Opposition was more or less spontaneous because he was a party to an illegal act in bringing about the General Strike c26 06 08

1926 How does the cost of living at Cambridge today compare with the pre-war days so far as an undergraduate is concerned? A writer in the Morning Post says "With an income of £210 a year, I went down at the end of my fourth year owing a year's income; and my debts were accounted for by entertaining on a rather lavish scale during my last year. I know post-war undergraduates with an income of £250 who went down owing nothing." He says that nowhere in the world has the cost of living risen less & adds that University expenses are surprisingly reasonable c26 11 08

1926 A Cambridge dispenser claimed he used drugs to make up "pick-me-ups" for undergraduates in the morning. The judge: "Do they require 'pick-me-ups' in the morning?" (Laughter.) "They do things now that we never thought of". He made them up out of his head, usually mixing three tinctures. They were drunk in a wineglass of water. They were used every day during term time. The undergraduates looked something of a wreck in the morning and owned to having had a little refreshment at night. (Laughter.) c26 11 19

1927 anti-feminist rag [3.18]

1927 "The first marriage according to the new Prayer Book" was solemnised in Cambridge when an undergraduate "bride" and "bridegroom" were joined together in unholy matrimony on King's Parade. The blushing bride with the bowing bridegroom was preceded by a piper and a clergyman who was wearing "flannel bags" under his surplice and carried a doll's sunshade. The bride's dress was a pair of white lace curtains and she carried a large bouquet of Brussels sprouts. The bridegroom wore a dilapidated silk hat and a red nose – and carried a banana. They stepped into a waiting carriage followed by a motley throng of ludicrously attired "relations and friends" CBD c25.2.1927

1927 Cambridge Undergraduates took upon themselves the duty of opening "Joanna Southcott's" famous box on the Market Hill. A crowd of mammoth proportions assembled. A melancholy dirge was heard from Petty Cury and there appeared a party of pipers and following them in one of Dale's lorries came a weird array of 24 "bishops" and a delegation of "Mormons" wearing huge straw sombreros. One "archbishop" proceeded to open the box, producing several layers of red tape, a teddy bear, a pair of old football boots and a number of bananas with which he pelted the crowd. The "rag" was organised to provide funds for the Cambridge Fruiting Campaign to help strawberry pickers in the Wisbech area. 27 06 09 [3.19]

1927 One of the largest crowds in memory witnessed the last of what may go down in history as the "Microphone Mays". Both banks of the Cam at Ditton presented the spectacle of an unbroken line of sightseers. There were three men up a tree at Ditton Paddock; they and their friend the microphone were telling all England what was happening and theirs was truly a

romance of the tree tops. One wonders how many old Cambridge men were listening-in to a drama in which they once played a part. 27 06 13

1927 According to the Master of Balliol, not even a Scot can now manage in Oxford on less than £200 a year unless he had not enough to eat. But £250 should suffice for anybody. One undergraduate thinks a man can do “fairly comfortably” on £300 a year, providing he had not expensive tastes. A Cambridge Fresher says he has spent £150 on college bills, £30 on furniture, clubs £16, clothes £30, books £13, tips £15, gate fines £2 this term. If he goes on at the same rate for the next two terms he is in for an expensive first year! c27 12 06

1928 An inquest into the death of a student at Emmanuel College, Cambridge, was told he had been attending a meeting of the Twelfth Club, a literary society which held a dinner once a year. Afterwards he went to a student’s room and whiskeys and soda went round in the ordinary way. He was a scholar of great promise and it was to be regretted that someone out of youthful folly had filled his glass with neat whisky. He had slipped down in one of the courts sustaining severe injuries. It was quite possible that the fresh air affected him. c28 03 17

1928 Sir – Undergraduate fashions have changed since I came up to Cambridge in 1877. I never saw an undergraduate wearing knickerbockers nor carrying an umbrella and on our heads we had to wear hard felt hats when not wearing cap and gown, winter and summer. Perhaps half a dozen men would venture out wearing straw hats but they were spoken of as ‘snugs’ – strange and weird people. Of course straws were worn by men who had gained a place in their college boats and was part of the rowing costume, but not worn in the streets. We all had to look smart and well-dressed, with no slouching about with hands in trouser pockets. What a change! – Senex c28 12 12

1929 worst rag in recent years [3.21]

1929 The University Proctors have considered regulations for students who desire to use aircraft during term time. Undergraduates flying their own or civilian aircraft may lead to annoyance from low flying and accidents. A Light Aeroplane Club has already been formed which gives facilities for flying within a few miles of the University. Now no student may fly as pilot or passenger during term time without written permission from his parents and tutor. Those offending will be liable to be punished by suspension, rustication, expulsion or otherwise. CDN c 16.3.1929

1929 A Cambridge undergraduate was fined for an assault on a taxicab driver who attempted to push him off the running-board of a stationary cab. It took place after a bump supper when he was in a very excited condition. Robert Osborne said he went to the ADC Theatre and left his cab on the rank on Jesus Lane. The undergrad and others came along the road and turned the starting handle of the taxis. He jumped on his running-board and would not get off, so he pushed him off. The lad then hit him several times. CDN c 19.3.1929

1929 Cambridge undergraduate eloped with heiress CDN 22.4.29

1929 The best-dressed sections of the University undergraduates are wearing more whole suits – as compared with the single jacket and flannel trousers. The plus four suits are made up in quiet materials and the knickerbockers are cut medium both in width and length. A pinkish brown colour is likely to prove a fashionable sports suiting. Restraint is the principle determining everything from lounge suits to socks. All the best tailoring shops are making overcoats and golf jackets in camel and llama pile and undergraduates are accepting the vogue with enthusiasm. Cambridge is better dressed than ever. Gone is the sloppiness that at one time was regarded as smart. CDN 16.11.1929

1930 motor cars & motor bikes banned to undergraduates from 6 colleges [6.13]

1930 A mock funeral procession paraded through Cambridge as undergraduates bade farewell to one of their number who had been sent down. It was headed by an old horse-drawn landau in

which the 'corpse' sat, his face disguised beneath a war-paint of lipstick. He was joined by various persons who were to officiate at the ceremony; beneath top hats, black cloches and wideawakes were suits of grey flannel, blazers and plus-fours. All were garnished in crepe streamers on which hung rhubarb, beer and wine bottles, remains of the 'wake'. At the station the funereal party moved along the platform hilariously singing a dirge and the 'corpse' was installed in a third-class compartment where gifts of fruit and rhubarb were handed solemnly in. 30 05 26

1930 Cambridge is a lurid place – according to the 'Daily Herald'. Days are spent in drunken dissipation, commencing with a champagne breakfast at 11.30 a.m. or later. At night bands of students invade the peaceful rusticity of the county in motor cars and on cycles causing general annoyance. Villagers have set up their own 'defence committee' – a determined band of sturdy young men who will be quick to stop misbehaviour. But a resident tells me "I have heard of the Flower Show Committee but a Defence Committee is news to me" 30 06 10a

1930 All records were broken at Trinity ball when 1,700 guests attended the most brilliant of the May Week functions. Many townspeople waited to see the guests arrive and crowds flocked to Garret Hostel Bridge to view the grounds in all their evening glory. Up to mid-day next morning occasional stragglers, heavy-eyed but cheerful could be seen walking driving about the town. One such pair were mutually photographed beside their car in Silver Street. Sports coats over white waistcoats were common and in one a dishevelled figure in a flannel dressing gown lolled at the wheel, like a character in a Edgar Wallace film. 30 06 17a

1930 The policy of building more rooms in college and drawing in as many men from the lodging houses is creating a serious outlook for the lodging-house keepers. Many have been told their rooms will not be required next term. If the University cannot continue to utilise services which came into existence to serve their needs some then other employment will be needed. If the University ceases to provide adequate support Cambridge will have no alternative but to seek other means of livelihood. We will be loath to see the town industrialised but people must live. 30 07 05b

1930 General regulations affecting the use of motor vehicles first-year men are already in force but in view of the numerous road fatalities last term much more stringent bans will be in operation next year. Clare College says that the possession of motor cars and motor bicycles prevent undergraduates from making the best use of their residence in Cambridge and none of its students will be allowed to bring or drive a motor vehicle. Cars must be kept in a public garage or in one of the college garages on Castle Hill. 30 07 12a

1930 Poppy Day rag – 30 11 11e-g

1931 Varsity launched 1931 intention to revel in vulgar affluence, until start WWII becoming Varsity Weekly & then Cambridge Varsity Post it fostered image of Cambridge good-life [45]

1931 first meeting Cambridge Socialist Society 'solid band of presumably Tory undergraduates at back of hall began to shout, heckle & sing patriotic songs', police called, threw stink bombs [45]

1931 Over 100 attended a funeral service for a young Freshman whose mysterious death has caused such a sensation throughout the country. Press and public were excluded but a crowd gathered and police had some difficulty in controlling the traffic. He had been found lying dead on the floor of his room, gagged and bound in an elaborate manner with numerous handkerchiefs, a length of puttee, and a wire flex. Members of the Pentacle Club, the University Magicians' Society have been interrogated & Sir Bernard Spilsbury, the famous Home Office pathologist has been called in. 31 02 27d-g-h

1931 Sidney Sussex student death verdict 31 03 06f –h

1931 A Cambridge motor firm – W.E. Harding of Seven Sisters garage, Newmarket Road – has been barred from trading with undergraduates by the Vice Chancellor. Under university rules tradesmen must notify tutors by the end of term of any debt exceeding £5 incurred by an undergraduate. But Mr Harding had not been told this. Only two other such notices have appeared

within living memory. Now any student having any dealings with the firm may be suspended or rusticated. 31 06 12b

1931 An undergraduate rag in celebration of examination success let to two young army officers appearing in court charged with the theft of coloured lenses and other fittings belonging to traffic lights on the corner of Lensfield Road. They were of no conceivable value except as a trophy. One was the son of a distinguished soldier in the Coldstream Guards killed at Arras during the war. If convicted it would have a grave effect on his army career. The case was dismissed. 31 07 17b & c

1931 The Poppy Day collection in Cambridge has again smashed all records with undergraduate collectors struggling with money still coming in. Nearly two tons of coppers have passed through their hands. Early in the day the stock of poppies was exhausted and a fresh supply had to be brought in by train. Market Hill was the scene of half-a-dozen well organised 'rags' and at Silver Street the Demon Diver jumped in flames into the river and the collectors drew in good sums for his 'widow' and 'children' 31 11 13 I & j

1931 A Trinity Hall undergraduate appeared in court following a collision. Students were not allowed to have motorcars and he was endeavouring to leave Cambridge without being seen, but had an accident in Coleridge Road and failed to stop. A number plate was knocked from his car and by that means the driver was traced. As a result he had been sent down for good. He did not think the penalty would have been so severe. 31 12 04d

1932 Moseley's party greeted as 'interesting political experiment', 1936 CU Fascist Society which Moseley had also founded was lambasted for being anti-semitic & bloodthirsty [45]

1932 Overnight two unfurled umbrellas were securely tied to the pinnacles of King's College chapel so they stood straight up. The college called a window cleaner to remove them, but despite his long ladder he was unable to get within ten feet. Two undergraduates went on the roof with shotguns and endeavoured to shoot them down. One fell but the other proved more difficult. The shots knocked the handle sideways. For some hours it floated gracefully from side to side in the wind like some gigantic weathercock. 32 05 18

1932 What would papers do without Cambridge undergraduates' pranks? During a hard frost years ago some 150 callow youths had a 'curling' bonspiel on the pond at Emmanuel College. Each had a china bowl in lieu of the orthodox curling stone – and each bowl contained a lighted candle. Overnight a thaw set in and visitors watched gardeners salvaging the 'curling stones' from the bottom of the pond. Shortly afterwards undergraduates took a donkey dressed in cap and gown into dinner in hall. Most of the aged dons mistook him for one of themselves! But in those days no newspaper commented. 32 05 21a

1932 The inner history of the King's College roof-climbing escapade has been revealed. The hazardous feat was carried out by two parties of undergraduates, including several well known athletes, who are members of a secret organisation composed of skilled mountain climbers. They used the lightning conductor which has been loosened by previous generations of climbers. It is the climax of a series of climbs during the past few months; now they proposed to publish detailed accounts of their exploits 32 05 21

1932 'Varsity Weekly', an undergraduate newspaper conducted on sensational lines, claimed that errand boys had been sumptuously entertained by members of the University in rooms in Trinity Street. As a result the writer was challenged to a duel. But police were waiting outside Girton College when a car drew up early in the morning. Inside they found three fencing epees with their protective buttons cut off and the points filed down to needle sharpness. 32 05 25b

1932 The 'Brighter Roofs for Colleges' movement is growing. Overnight at Ridley Hall two cords were stretched from one of the college towers. On them pyjamas, pyjamas and still more pyjamas were floating in the wind. Large ones, small ones, brightly-coloured and silk examples were proudly swaying in the breeze and in the middle was suspended a parson's hat. After they

had been lowered to the ground their various owners joined in a frantic scramble for their particular pairs which had been removed from their rooms. 32 06 01a

1932 A Cambridge doctor claimed payment from an undergraduate for a course of sun ray treatment. He sent his account to the college but the tutor had not been told the student had been ill and queried the charge. When undergraduates are going down it is extremely difficult, if not impossible to get them to pay their bills, he lost more from undergraduates than any other kind of patients, the doctor complained. 32 06 17 c& d

1932 Night-climbers Kings chapel & Eton – 32 05 24

1932 King's nightclimbing – broolly removed – 32 06 02

1932 Nightclimbing craze spreads to Emmanuel – 32 06 06d

1932 The vast majority of undergraduates come up to Cambridge to work; hardly anybody fails to take a degree of some sort, and about 60 per cent take an Honours degree, T.W. Blackwell, a third-year student of Magdalene, told Cambridge Rotary Club. The average undergraduate driver compares favourably with the drivers of those buses which charge down the street, scattering everyone before them, while the complaint that students never pay their tradesmen's bills is as biased as saying that shopkeepers doubled their prices at the beginning of term. 32 11 04c & d

1933 Saturday was one of the quietest bump supper nights on record. A few blazered undergraduates wearing dress shirts roamed the streets and occasionally a cheer could be heard. Then there was a squad of those who went through various drill movements, using the pavement as a parade ground. But they were remarkably steady, and mild, possibly because the bump-supper beer was likewise! A constable remarked, "Sid Moon (the News cartoonist) should draw a cartoon of an empty Market

Hill with a yawning policeman, because that all there's doing tonight" 33 06 12a

1933 A Newnham College student was summoned for dangerous flying. Mary Barnard said she had taken off from Marshall's flying school on a solo flight and descended to 1,000 feet over her College. But Dr John Bury, who had flown for five years, said she had descended rather rapidly, then flattened out and crossed Corpus Christi gardens at about 600 feet, he could read the letters on the plane quite clearly. As it was the first prosecution of its kind the magistrates decided to dismiss the case with a caution. 33 06 08a

1933 The roof-climber who 'pinched' the two weathervanes off the Squire Law Library building seems to have had an attack of conscience, for the missing cock and fish were replaced last night. But they also left tasteful decorations and souvenirs in the shape of two sherry bottles at each end of an arch high over the entrance to the Geological Museum. They are said to be full and so act as 'bait' to other scalers of walls and roofs. 33 06 13

1933 Over 1,300 dancers disported themselves at the First and Third Trinity Boat Club's ball. As usual there were large crowds of spectators lining all the entrances and not a few on the river but great precautions had been taken to avoid gate crashing with two lots of 'sentries'. Inside the place was aglow with thousands of coloured lights while the dance tent itself, with its famous parquet floor, was electrically lit. From a dais in the centre the Embassy band played a sweet programme of dance music until the early hours of the morning. 33 06 13b

1933 The roof-climber who 'pinched' the two weathervanes off the Squire Law Library building seems to have had an attack of conscience, for the missing cock and fish were replaced last night. But they also left tasteful decorations and souvenirs in the shape of two sherry bottles at each end of an arch high over the entrance to the Geological Museum. They are said to be full and so act as 'bait' to other scalers of walls and roofs. 33 06 13

1933 The greater part of the undergraduate population is now in residence and the Dorothy café is once again thronged with young men over the tea hour. The prevailing fashion is to wear striking sports jackets with the proverbial flannel trousers and hats but the new arrivals, despite every effort to appear 'old hands' generally reveal their 'freshness' by walking about in their gowns. 33 10 09

1933 The film 'Our Fighting Navy' has been withdrawn from the Tivoli Cinema following lively scenes. Fifty members of the Students' Anti-War went to make a protest but a rival party, numbering about a thousand undergraduates, marched to the cinema with two bands playing war-time songs and carrying Union Jacks. Several tried to push their way in until the arrival of four policemen who, with drawn truncheons, managed to keep the crowd at bay whilst a dozen more raced to the scene in motor vehicles. Cries of 'Down with Hitler' and 'Hail Hitler' were heard above the general uproar and a stink bomb let off in the vestibule 33 11 10

1934 "True Blue" club requires candidate to drink 1© glasses of claret in 20 seconds [1.18]

1934 40 arrested on November 5th [1.1]

1934 Trinity College was the venue of a carefully-planned 'rag' involving a large number of fireworks. The roof was chosen as the main display ground. The first rocket went up and landed in Neville's court before all sorts of fireworks went off in rapid succession, including a couple on the two turrets of the Great Gate. Next day porters were trying to identify the owner of a walking stick on which a Catharine wheel had been fixed. 34 02 22

1934 A Cambridge police constable was injured during the 'rag' which followed the inter-college rugby cup final between Clare and St Catharine's. At Burrell's Walk undergraduates used wooden palisades to make a bonfire. The fire engine was called out but was surrounded by a crowd of students some of whom pulled the hose off the drum. Others clambered on to the engine and took the front and side lamps off. The fire was put out by college porters. In Queen's Road the police were forced to defend themselves. Truncheons were used to prevent their helmets being snatched off. There was some hard fighting. A number of street lamps were broken and a window was smashed in King's Parade. Two undergraduates were arrested, charged with assaulting the police 34 03 05

1934 A student, Cecil Hutchinson, made a dramatic race against time to attend the Cambridge Entrance Examination. He docked at Cherbourg early today on the Olympic on which he had travelled from New York, then chartered an Imperial Airways taxi which arrived at Croydon at 8.45. After snatching a hasty breakfast he flew on the Cambridge where he arrived a few minutes before the examination was due to start. The ship had decided in mid Atlantic not to dock at Plymouth, from which he had arranged to travel by train, so he cabled his father who arranged the air taxi. 34 06 15

1935 tops removed from new Belisha Beacons after Bumps supper [1.20]

1936 An undergraduate was discovered with his head terribly injured on King's Parade at midnight. He was removed to a nursing home in the police ambulance but died on the way. He had apparently fallen from the fourth-floor window of the house where he lodged and was dressed only in pyjamas, coat and socks. His landlady found the door of his room sealed up with adhesive tape and there was a smell of gas. A sealed letter was found. 36 02 25

1935 Cambridge met Oxford in the spirit of peace, not of semi-lethal combat. The ceremony took place near the pump on the green at Sherington, Buckinghamshire, exactly half-way between the two universities. Two morning-coated representatives vied in the vehemence of their protestations of fraternal feeling and in the sartorial elegance of their attire. Then to the whirr of newsreel cameras they buried a hatchet beneath the pump. Afterwards a village worthy who had forgotten his tie, collar, shaving water and washing water in the excitement of the morning, came up to the immaculately attired Master of Ceremonies, thanking him putting Sherington on the map. 35 02 25a & b

1936 hunger marchers made headline news, readers exhorted to welcome & entertain them [45]

1936 Undergraduates last night hazardously climbed to the roof of Emmanuel College North Court and decorated six chimneys with chamber pots. They were removed by Mr S. Burgess of Messrs Prime's the builders who is often called in to remove various objects placed in inaccessible positions by exuberant undergraduates. "Some of them can run up brick walls", he said: one took off his shoes and went down a wall by means of his feet and hands alone to remove a gown that had been placed in a particularly difficult spot. 36 03 14

1936 Undergraduates demonstrated support for 130 hunger marchers from Durham on their way to London to protest against the Means Test and new scales of benefit. At Girton College girl students served them tea and buns before 250 undergraduates joined the procession carrying torches and banners. There were meetings in the Co-operative and Labour Halls before the protestors had an evening meal in the students' rooms. At Cheshunt College some of the marchers ate in hall. Having slept in the Corn Exchange they continued to Saffron Walden where the Labour Party entertained them with lively tunes from a loudspeaker van. The march is due to arrive in London next weekend. 36 11 02 & a

1937 John Cornford killed in Spain [45]

1937 'refuse to fight for any other nation in any war ... shall always be prepared to die if need be for King & Country but for nobody and nothing else' but soon concerned that neighbours fowls being eaten that ours are safe [45]

1937 Union carry motion of no confidence in His Majesty's government [45]

1937 'The Harassed Harrises', a play by local author Gerald Light, features a father who keeps a fried fish shop in a town that is obviously Cambridge. His son, a young man of brains, has won a scholarship to the university but feels he is looked down on because of his father's job. What makes things even more awkward is that his aunt is a bedder at his college who is very fond of whisky. Without a doubt the play was greatly appreciated by the audience at the performance given by the CUP Amateur Dramatic Society 37 10 02

1938 strongly against conscription but within year Churchill meeting had overwhelming supported it [45]

1939 first woman Professor - Garrod [1.1]

1940 Woolwich & Sandhurst closed, students come to Cambridge, Latin & Greek dispensed with, for first time are members of University who have never studied a word of Latin in their lives [4.13]

1940 Easter Term comes to abrupt end with Dunkirk evacuation [4.14]

1941 King Peter of Yugoslavia at Clare - first time a reigning monarch at university [2.9]

1942 Recent raid damage at Cambridge: bombs on Union Society; debating hall escapes; flying at less than a hundred feet and in full view of many people a German raider dropped HE and incendiary bombs. Main damage was done to the library, writing room, committee room and the lounge. Masonry which was flung about by the explosion burst through the roofs and all the windows at the front of the premises and overlooking Round Church Street were blown out. The debating hall was only very slightly damaged and that mostly by water. The end of the library received a direct hit from a small high explosive bomb and several fire bombs but the steel stacks in which the books were housed saved them from the effect of the blast. The collection of music books were lost. One stained glass window of the Round Church was blown in, otherwise the church escaped - 42 08 01, 42 08 01a [raid was July 23rd]

1943 Announcement that undergraduates need not in future wear caps with their gowns on academical occasions is no surprise. For some time there has been trouble in getting material – 43 05 01 [2.10]

1943 Electron microscopes – Cavendish Laboratory, Cambridge has one of only eight – 43 08 19

1944 November 5th falls on Sunday, plans for Rag opposed [1.9]

1945 landau soaked in petrol set alight & paraded through Cambridge [1.8]

1946 Undergraduates under 22 banned for keeping a motor vehicle within 25 miles Gt St Mary's if proposals accepted; those eligible to drive will need licence from Proctor – 46 07 19

1947 women admitted as full members of University, to wear academic dress, Newnham & Girton accepted as Colleges [2.14,2.21,5.3, 8.24]

1947 Queen Elizabeth awarded Honorary Degree as first Cambridge woman graduate [8.24]

1947 There will be a warm welcome for "Varsity Handbook", the Undergraduate's Guide to Cambridge, produced and published by "Varsity". This is a brand new publication, printed on good paper and contains a mass of information of interest and value to University men. Much of the material has never been collected before. For the first time, for instance, a full detailed list of the 180 odd University societies is published. And then "One Man's Opinion" contains some frank advice - possibly a little too frank - for the Freshman on a variety of matters c47 10 13

1948 hand grenade thrown at Senate House on November 5th, damages glass [2.16,1.11]

1951 It was an affair of honour, to be settled with pistols, that drew a crowd of spectators to Trinity Backs. It arose when a letter written by a third-year Trinity undergraduate to a Girton College law student was intercepted by another Trinity man and the challenge was issued. Half of London's national newspapers got wind of the duel and two reporters laid an all-night siege to the contestants' rooms. Early this morning the protagonists slipped through the cordon of pressmen who waited for the duellists to appear. On Trinity bridge the crowd drifted away until all that were left were the newsreel cameraman taking shots of their journalistic colleagues waiting for the duel that did not take place c51 12 04

1953 Mortar boards abolished [6.9,6.10]

1953 A House of Commons committee considered the question of allowances for naval students at Cambridge University. Officers go to Dartmouth for two terms and then go to sea before being sent to Cambridge where they read the Mechanical Sciences Tripos for three years. During the long vacation they are put to work in industries around the countryside. On the completion of their Cambridge course with a degree they enter the electrical school at Farnham. The Chairman asked how their pay was affected when at Cambridge and did they receive an allowance in addition, so they did not become 'broke'. They must have something in the way of an allowance. c53 06 13

1953 The incidence of suicide at Oxford and Cambridge is higher than at other universities in the U.K. Some years ago the proportion of the population which constituted sound University material was thought to be over 40 per cent. Now that percentage was no higher than 15. "I believe a great deal of frustration, unhappiness and waste is caused by forcing students into University courses when they have neither the intelligence, training, personality or mental fibre to meet the standard of such education. Many breakdowns arise because men are forced into work against their true inclinations, often for family reasons. Sexual disturbances are not important

causes of failure, though from time to time students seek refuge in drink or drugs”, said the senior tutor of St Catharine’s College. c53 09 02

1954 New Hall founded

1955 A gaping hole, nine feet in circumference and about a foot deep, was blown in the path beside Trinity College bridge last night. It is believed that a stick of dynamite was used as a student said he heard a terrific explosion and the building shook. The explosion caused leaves to be blown off trees nearby. This is the third time within a year that a deep pit has appeared near the bridge and last week it was decorated with planks and trowels. But two porters and a gardener denied all knowledge and the college spokesman had nothing to say. 55 05 12a [1.22]

1955 May Balls are with us again. At Trinity Nat Temple and his band played for a large number of dancers, at St John’s guests danced to the music of Hedley Ward and his orchestra while at Clare Tommy Kinsman provided music for everyone – one room being set aside for jiving! Downing had a marquee setting where two hundred couples danced to the music of Chappie D’Amato, who also played at Christ’s. 55 06 15

1956 first Societies Fair, Corn exchange [7.1]

1956 The Cambridge lodging-house landlady is part of the education of every young man who comes to study at the University. She is part-mother, part-landlady & part-disciplinarian who must maintain a difficult blend of deference and firmness in dealing with her young gentlemen. He is told how much rent he must pay, that he pays extra for a piano, hot water for his bath or a scuttleful of coal. But unless lodgings are peaceful and conformable men will not study well. 56 10 06a & b

1957 The Night Climbers of Cambridge are at it again. At daybreak two objects had been placed on the spires of King’s college chapel. One is the globe of a Belisha beacon, the other a nylon stocking. There was a turret-climbing episode in May 1932 on the eve of Empire Day when a Union Jack was flying from the north-east turret. Two nights previously the pinnacles were decorated with open umbrellas 57 05 24

1957 Cambridge Night Climbers spend the small hours of the night among the college piers and pinnacles. They work in groups of two or three and their equipment is a pair of soft shoes and gloves with sometimes a punt cushion for crossing the spikes and broken glass set in concrete. They climb for the love of climbing and regard the leaving of flags or underclothes as an error of taste bordering on exhibitionism. 57 06 15c

1958 Austin 7 van placed on ridge of roof of Senate House during Saturday night, Sunday morning using some equipment left by workmen; is engine-less, caller says was taken up in complete form except for axle which taken up separately; Civil Defence people take it down Tuesday after cut in pieces(9-11.6.58)

1958 gown & Teddy Boys, about 60 taunt proctors [21.8]

1958 A unique answer to the Cambridge traffic problems was found during the weekend. Somebody, obvious with an acute parking problem, decided that all the flat space on top of the Senate House was going to waste – so they decided to park an Austin 7 van there! Early-morning passers-by goggled and stared in amazement at the strange sight of hefty firemen and policemen struggling to make the van safe from the wind. Nobody seems to know who put it there. The big problem is: how to get it down. 58 06 09a

1958 Hundreds of students watched – and offered advice – as Civil Defence volunteers tried to remove the Austin 7 van from the roof of the Senate House. It was moved on to the parapet, but it would not pass between the legs of a derrick. Men hammered at its jutting corners and thudded upon its protrusions before deciding that it must come down in pieces. A good deal of parts were

lowered on a pulley and stored in a rescue vehicle. Then they drove away. Despite the real courage of the Civil Defence men, the day went well for undergraduate Cambridge. 58 06 11 & a 1958 Civil Defence men have succeeded in bringing down the van from the Senate House roof. It was cut in half with the aid of an oxy-acetylene torch, then cut up again, and again, until all the parts were of a suitable size to be lowered, starting with the bonnet and wings, then the radiator and steering column. Part of the roof and a side were the last down. The proceedings were watched by the Vice-Chancellor of the University and two or three students who climbed on the roof of the Old Schools building and offered suggestions as to how it should be dismantled. 58 06 12a

1958 'The Freshman' film has already established itself on the Cambridge scene. The appearance of cameras, technicians, stars and generators at various locations still causes a stir and there is never any lack of people watching the action. German film star Hardy Kruger, who plays an undergraduate, has had a bewildering initiation into real student life. He has seen the May Balls swinging on till dawn. And he has seen that car park on the Senate House roof. No wonder he looks worried! 58 06 13c, 58 06 12

1958 Many householders opened their doors early to a young man in pyjamas or an undergraduate turbaned like a caliph and bought a poppy, then poured into Cambridge to see the fun. Every entrance was barricaded, every vehicle stopped, and toll demanded. Progress was difficult in one street because Mr John Day of Trinity was having breakfast with Miss Alexandra Hearnshaw, a Newnham mathematician, on a Belisha crossing. In Petty Cury two rival dragons occupied most of the road – a dinosaur quite 70 feet long and containing numberless undergraduates of whom only the feet were visible and a toothy monster centipede writhing from the direction of the Senate House. 58 11 08

1959 roughest November 5th for 20 years, banger battles on Market Hill, £200 damage caused (6.11.59)

1959 University Proctors generally visit dance halls in Cambridge, they could (but rarely did) visit the licensed houses and never visited private houses unless invited. One of the routine duties was the "walking at night". It was their job to see that undergraduates were prevented from annoying citizens, which was more important than fining them for not wearing gowns. There was very close cooperation with the police as proctors had a greater variety of more suitable punishments; students could be rusticated, gated or fined or even have their university driving licenses withdrawn, Dr E.R. Lapwood told businessmen. 59 04 03

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 tailor on trends in student dress - trend to jeans & duffle-coats, sloppy-joes, 17" trouser bottoms; 80% on grants so fashion informal clothes [21.9]

1960 Granta censored - Highwayman 474 used 4-letter word, Frost editor [18.1]

1960 undergraduates banned from Market Square 7-12 pm Nov 5, 200 police patrol, no trouble [18.2]

1960 David Smith, known as 'Dave' to thousands of members of the University Union, could remember the more leisurely days when as a turkey-carpeted gentleman's club it was the Sunday mecca of hundreds of letter writers, quill pens provided. Before TV, billiards and the gramophone fine gentlemen moved in quiet splendour about the premises. When one of the Society's servants retired they would make a short speech before the Tuesday debate in front of a crowded house. They would then quietly return next day on a part-time basis without any anti-climax and much to everyone's relief. 'Dave' will always be remembered as one of those 'characters' without which the University and life would be the poorer 60 02 16

1960 University 'Image' magazine launched 60 03 25a

1960 The Vice Chancellor has banned all undergraduates from taking part in Guy Fawkes Night celebrations in the city centre. In recent years November 5th had been marked by particularly destructive and violent acts, including the use of home-made fireworks, which have caused painful injuries to innocent bystanders. Although students have played only a minor part at the occasions the University are under an obligation to help the city authorities check such disorderly conduct. Now Market Hill and the surrounding area will be out of bounds to members of the University 'in statu pupillari' between 7 pm and midnight 60 10 18

1961 students committee formed [18.5]

1961 civil disobedience campaign against gowns, 150 march through town, queue to give names to Proctors [18.6]

1961 BAs & research students freed of wearing gowns in streets after dark [15.7]

1961 Buckets of water cascaded over undergraduates who marched along King's Parade as a protest against having to wear gowns. About 250, many without gowns, walked four abreast to the Senate House escorted by a solitary policeman. Other students chanted 'Keep the Gown'. When they reached Senate House Hill three Proctors accompanied by two Bulldogs took down some of the names – they are liable to a fine of six shillings and eightpence. The only 'casualty' was a Bulldog who had his top hat snatched by an undergraduate who ran off in Trinity Street 61 11 17b [21.11]

1961 undergraduates banned from centre Guy Fawkes Day, follows last years example to enable police to control danger of home-made fireworks [21.10]

1961 May Week : Popsey expresses pulling into station & city fast filling with young girls ... will be 20 concerts, 10 theatrical productions & 12 May Balls; undergraduates burn works of T.S.Eliot - members Christ's college Milton Society, traditional annual pilgrimage from college to GSM

1961 Thirteen members of the Christ's College Milton Society took part in the traditional annual 'pilgrimage' to the main door of Great St Mary's Church to burn the works of T.S. Eliot. With caps and gowns, and carrying a bust of the poet Milton, the undergraduates walked in procession through the crowded Market Square. Then in front of the church the 'damnable and dangerous works' of T.S. Eliot (Penguin edition) were set in flames on the paving stones. Crowds appeared from nowhere, cameras were clicked, and passages of Milton read before the procession returned towards Christ's and noggins of nut brown ale 61 06 08a

1962 University freshmen to be no longer presented to Vice Chancellor during Matriculation ceremony [15.8]

1962 Samaritans started after 6th student suicide in year [7.14]

1962 May Ball rockets bring storm protest calls, Civil Defence man was pulling on uniform before realised it was fireworks [21.12]

1962 Union Society women may now speak [26.8]

1962 A 'mock funeral' was held for two undergraduates, Philip Gurdin of Magdalene and Simon Keswick of Trinity, who were sent down for failing their exams. Their 'coffin' was carried on a sports car while in the 'cortege' at the rear was Prince William of Gloucester who is at Magdalene College 62 10 16 [446.9.6]

1963 Union ballot allows women, first Janet Hogg [7.16]

1963 first organised procession of 35 floats Austin car suspended under Bridge of Sighs [12.9,21.14]

1963 CND Fallex 63 plan [21.15]

1964 blind-folded student cycles rush hour traffic [21.16]

- 1965 strict male-female segregation rule scrapped by Queens college which makes way for new foundation taking both sexes [15.9]
- 1965 Cambridge undergraduates may soon be able to go out at night without their gowns. A Council of Senate report supports proposals for the abolition of compulsory wearing of gowns after dark by the Proctorial Syndicate. In June 1961 rules governing academic dress and discipline were amended to allow graduates to go out at night without gowns. But the practice of 'walking' would be continued for other disciplinary reasons including visiting licensed premises and places of entertainment – 65 02 10b
- 1965 Proctorial powers and prospects – are archaic and out of touch with modern thought SRC report on discipline – 65 05 01a
- 1965 vote on undergraduate gowns, abolished after dusk but needed library, lectures etc [15.10,26.5]
- 1965 lab test on 'dope' sold in pub [22.1]
- 1965 "Peace in Vietnam" banner at kings [22.2]
- 1965 Union Society 150th anniversary [26.9]
- 1965 report on student suicides
- 1965 King St run record 28 minutes, founded by Ted Dexter, twice a term [18.8]
- 1966 Union Society favour mixed colleges
- 1966 Senate House demonstration [12.13]
- 1966 King Street run cancelled for first time in 40 years; banned by proctors; 1 pint in 4 pubs, 2 pints in 2; but held in defiance [22.3]
- 1967 protest at Wilson visit [22.4]
- 1967 US ambassador in Vietnam protest [22.5]
- 1967 Union Society first woman president Anne Malleliu [26.10]
- 1968 no rag due to rowdyism previous year
- 1968 Hawks club opening [12.14]
- 1968 wild scenes as Healey leaves, "runs gauntlet of mob", 4 arrested; police federation call for curb on student political demos; University criticised for taking no disciplinary action; new rules - all students who organise procession or demonstration must give written statement of intention to Proctors [22.6-7]
- 1968 Enoch Powell visits, police stop demonstration, October [1.24]
- 1968 'Red' Rudi Dutschke to Cambridge for treatment bullet wound in Berlin, offered place Clare but Home Office refused permission stay; CSU backed case, mounted its first ever national march in London; left
- 1969 Undergraduate sit-in at Old Schools in solidarity with students at LSE – 69 01 30, 30a, 69 01 31
- 1969 Undergraduates try burn academic gowns on laws of Senate House in protest against examinations – 69 05 02, a
- 1969 Enoch Powell gives slip to chanting city students [22.11]
- 1969 changes to Student Representative Assembly in line proposals for reconstituted student representative body with full-time student leader, uproar stops first chaotic meeting., opponents want no formal representation students [26.6]
- 1969 Prince Philip and Princess Anne watch Prince Charles perform in Trinity College revue, handed protest leaflet about tour of South Africa by undergraduates who broke into auditorium – 69 03 01a

- 1970 Garden House riot : Greek demonstration, July [5.6,12.15]
1970 police make truncheon charge against mob of undergraduates who surged forward pinning score constables against shattered plate-glass windows, 2,276 damage Garden House Hotel [22.12]
1970 city demand punishment for rioters 1000 march to Greek rally, 300 admit to being at anti-Junta demonstration 4 guilty of riot, 7 acquitted; 6 sent prison periods 5-18 months, 2 borstal "GHR changed course of events; afterwards student violence died off, 11,280 at dinner, climax of Greek Week promoting holidays under Right-Wing military dictatorship; Police invoked Riot Act, not used for years, Judge Melford Stevenson said it most complete example of intelligent young people getting involved in complete bloody nonsense ... passed deterrent sentences [39]
1970 anti-proctorial meeting at union Oct; students vote to end Proctors [23.3,12.17]
1970 Vice Chancellor to meet students who present ultimatum demanding abolition Proctorial system & equal representation with dons on 'inner cabinet' - council of Senate (reject) [23.3]
1970 Proctors to no longer attend political demonstrations off University premises, leaving students answerable to civil law [15.11]
1970 Red Rudi Dutschke must leave Sep[23.2]
1970 Home Sec. Maudling calls off visit [23.4]
1970 Clare College consider admitting women [5.8]
1970 Prince Charles awarded BA, maiden speech Union Soc on technological advance, Lord Mountbatten [23.1,27.11,34]
1970 CSU set up by undergraduates as fighting union [25.3]

1971 Cambridge Students Union link with CCAT, outnumbering undergraduates in an organisation they brought into being at the beginning of last term – 71 02 24
1971 A bulldog's life – Edmunds Hill, University Constable 40 years – feature – 71 06 12
1971 call for strike over Dutschke, patchy, 1,000 students march London; Maudling visits, raps 'violent few' [23.4]
1971 new Court of Discipline where undergraduates sit in judgement on colleagues established; 2 of 5 men panel are students [23.5]
1971 "no undergraduate present for Senate discussion on abolition of proctors ... Cambridge militancy in decline this term - little interest in demonstrations; militancy unfashionable, apathetic majority hold sway ... two of most prominent undergraduate politicians have not returned after sitting their Summer examinations ..." (Oct) [34]
1971 Chamber of Commerce strongly disapprove of shops giving discounts to students, but 'students could retaliate by taking their business to London & leave some city shops with hardly any customers' [23.6]
1971 Maudlin came Cambridge to discuss but nobody give space except Leys where biggest security exercise ever to protect him [9.7]
1971 Kings college accept students on college council [18.11]
1971 Regent House approve consultative committee to consider University matters - 7 undergraduates, 2 graduates, 7 senior members [18.12]

1972 600 occupy Old Schools in exam protest - against unwillingness of General Board to support faculty proposals for reforming exams [23.7,5.7] 24,12.18]
1972 100 demonstrate at Cambridge University Court of Discipline first & only sitting at Guildhall following Old Schools sit-in; 11 arrested [15.12,23.8]
1972 6 new proctors appointed [23.8]
1972 Lord Devlin inquiry - High Steward instituted (1972 calls for tougher line on student sit-ins ... should be persuasion by proctors & university constables followed by police & criminal

proceedings, he satisfied that deliberate policy of CSU to resort to direct action; sit-in Lady Mitchell Hall in protest, 1000 march Old Schools as ends [23.9,35]

1972 Clare, Kings & Churchill become mixed [5.9]

1972 Union Society reject merger CSU, lease part of building CSU to provide facilities all students, undergrads want building similar Graduate Centre [26.12-14]

1973 students join NUS march Shire Hall for grants rise; ambushed by counter-demonstrators [23.11]

1973 report wants greater participation students in running University; 4 non-voting representatives on Council of Senate & voting students on University faculty boards [24.1]

1973 CSU secretary first undergraduate to speak in Senate discussion - on report [24.2]

1973 students reject representation University government [24.4]

1973 report cuts proctors power to fine students & judicial function transferred summary court; Walking should cease, office of special proctor motor vehicles abolished [24.6]

1973 1200 march try admit more women & abandon single-sex colleges - oppose attempts to get special Oxbridge legislation in Equal opportunities Bill [24.6]

1973 produce 'Alternative Prospectus' [24.3]

1973 Cambridge Undergraduates are to continue their occupation of two university buildings until Monday morning. The Sidgwick site sit-in is now Cambridge's longest student occupation on record. Last year's protest at the Old Schools lasted just 48 hours, while the one two years previously was a short-lived 36 hours. The Sidgwick occupation was sparked off by university rejection of some Economics Tripos reforms and now incorporates a protest against Lord Devlin's recommendations to the university c73 02 20

1973 Cambridge Students' Union secretary, Mr Rodney Smyth, made university history yesterday as the first undergraduate to speak during a Senate discussion. Normally only Dons are allowed to take part in discussions but for consideration of the joint Don-Student Committee report on student representation in university government both undergraduates and postgraduates were given a special dispensation. Mr Smyth, who had earlier listened to criticisms of the C.S.U. told Dons that he did not think the organisation at present was representative enough of Cambridge students. Proposals to put four students on Cambridge University's "inner cabinet", the Council of the Senate, got a frosty reception c73 05 11

1974 Senate say undergraduates thrown away chance of say [24.7]

1974 Things have changed since Mr Edgar Blincoe went into service at Cambridge University. "When I first went to the University all the undergraduates came up in lounge suits and bowler hats. Now you see them going down the street eating fish and chips". The discipline has gone. It was for this reason that by the time he carried out his last duties as a Bulldog (or University policeman) he had seen his role reduced. 27 years ago, when he began work, undergraduates had to be in by 10, wear gowns one hour after sunset, and refrain from smoking in academic dress. And when they were caught they faced a 6s.8d fine for not wearing a gown. For returning to college an hour late the price was 1d. c74 06 29

1974 A Cambridge undergraduate accused of cheating in an examination has been found guilty by the University Court of Discipline. He has been rusticated for the whole of next year and deprived of the chance of obtaining an Honours Degree. This was announced in a statement from the court, who had only their second sitting in history to hear the case. The undergraduate has the right of appeal to the Septemviri. They are the higher court of senior University members who would be convened specially for the occasion and who have not sat since before the last war c74 07 29

1975 Dame Rosemary Murray first women Vice Chancellor [5.10]

1975 taunts as General Gowon of Nigeria takes Honorary Degree [16.3]

1975 occupy Senate House over provision nursery & crèche facilities [24.8]
1975 King St run banned by 3 pubs [24.9]
1975 students win fight for seats on Senate Council by 6 votes, allow way for change rules allow 2 undergraduate & 1 postgraduate to join [24.10]
1975 Union Society : great revival interest, Harold Macmillan made Honorary member society; debating chamber blaze [26.16,41]

1976 elections to put students representative for first time in University Council of Senate, little interest [16.5]
1976 Union society financial difficulty [28.1]

1978 Girton College admits men

1978 The "Cambridge Students' Prospectus" aims to give the student view in parallel with information sent out officially to people applying for places. It says "King's College social life centres around a large, rather squalid bar where undergraduates and the friendlier fellows gather at lunchtime. The college is as cliquey as any other institution but tolerant. It is probably the happiest college with quite a lot of sex, drugs and rock-and-roll". But the Senior Tutor said he thought the remark was 'an unfortunate one which might better have been left out' and had spoken to the publishers. c78 04 23

1978 Cambridge University Library tower, the last great challenge to the student night climbing fraternity, has been scaled. Two men took just four hours and 15 minutes to climb to the base of the flagpole and attributed their success to the unsuccessful attempts of others during the past twelve months who left bolts attached to the brickwork for safety purposes. It is without doubt the most difficult and dangerous building to climb. On the ascent they caused damage to a small window on the top of the tower. "This was completely unintentional and very much regretted. We have already sent off money to pay for the damage", one student said. c78 06 25

1979 Dr Marie Axtom first woman Proctor [5.11]

1979 6 more colleges take women [16.7]

1979 dons refuse recognise CSU as representatives body undergraduates until referendum supports [25.4]

1979 Forty per cent of Cambridge students are potential psychiatric cases, according to a report published by the Students' Union. There are a large number of reasons but whether Cambridge attracts people with a predisposition to mental illness or creates that illness once they arrive, the university has a responsibility to its students. The women in men's colleges are far more stressed than their counterparts in single-sex colleges and the male students about to be introduced into Girton, the oldest women's college, could end up suffering a corresponding weight of stress. The report is bound to spark off controversy among dons. CEN c 21.5.1979

1980 Cambridge May Balls are four nights of student-organised revelry which will delight some and disturb the sleep of others. This year the cost of a double ticket has peaked at £52.50 and some feel they will be pricing themselves out of existence. But the same was being said ten years ago when Jesus and Trinity were charging eleven guineas. Some tickets do go to outsiders, with adverts often placed in London papers, but the majority of ball-goers are still students. 80 06 09a

1980 Chanting demonstrators broke through a security cordon at Queens' College Cambridge to protest at a stag night being held by male undergraduates. They 'invaded' from punts and burst through padlocked college gates before marching around outside the dining hall where 150 people were watching two strippers. The entertainment which included a blue comedian and a dirty limerick competition was organised to mark the college's last days as an all-male preserve. 80 06 10b

1980 Arthur Prior joined the staff of Trinity in 1935 as the youngest porter ever employed by a Cambridge college for the princely wage of £2.15s. a week in the days when porters expected tips for their services; today he retires after being Head Porter for 14 years having served five different Masters.. He is philosophical about major changes such as the admission of women.

“These youngsters think they invented sex, but we had women here when I first came. They used to stay all night even then, and we knew all about it”, he said. 80 07 25

1980 The Chilean Ambassador was forced to clamber to safety across the rooftops of St John’s College after demonstrators burst into the locked room in which he was addressing a private meeting of the Monday Club, a right-wing undergraduate society. He was ushered along a narrow ledge and through another window into a don’s room while other opponents of the Chilean regime chanted and jeered from the courtyard below. He was unable to leave the college until police arrived to escort him away. 80 11 13a

1981 13 arrested RTZ demonstration Garden House Hotel (S.African interested mining co) [25.1]

1981 A Cambridge student has set up a computer dating service for lonely hearts in the university. For just 50p the unattached undergraduate is promised an introduction to the partner of his dreams. Confidential questionnaires drawn up by a student of experimental psychology were sent out and the results loaded on a computer. It matches them up to produce ideal partners and bliss ensues. It is hoped the first couples will be paired off by St Valentine’s Day 81 01 28

1981 People do not realise just how hard is concentrated mental study, hour after hour. A conscientious University student who is set on an academic career often works alone but can get bored with subjects they have studied for many years. Arts students tend to come to terms with loneliness sooner than the science students working in the laboratory and are more likely to suffer breakdowns. The University Counselling Service provides 90 hour-long psychotherapy sessions each week to help them cope. 81 03 11a

1981 The veil of secrecy hanging over the Apostles, one of the world’s most exclusive societies was lifted when they held their annual meeting at Christ’s College. Members have included the spies Anthony Blunt and Guy Burgess and it was thought the society might have collapsed following their unmasking. But weekly meetings have continued and last ‘as long as they are interesting’. 81 10 05b

1982 Ten thousand copies of the Cambridge student newspaper “Stop Press” have rolled off the presses of the News, the first time it has been printed in the city. With the introduction of direct-image camera and laser printmakers student journalists hope it will save them £150 an issue and enable it to be distributed earlier than before. “Stop Press”, a 12-page tabloid-style paper was set up by Cambridge Students Union in the mid 1960s as a radical campaigning alternative to the established student paper, “Varsity”, which subsequently folded. 82 01 16

1984 Proctors report : “disappointed at the very small amount of peaceful dissension ... & are concerned about current political apathy on the part of students in the presence of numerous national & international problems ... deplores reluctance to use their free speech” [40]

1984 Despite rain and a wicked wind Cambridge University undergraduates astonished bystanders with their Rag Day activities. Prince Edward started a sponsored crawl to Grantchester, there were parachute jumps, exhibitions of motorbike skills and a tug of war. Some students with distinguished careers ahead of them leapt from Silver Street bridge into the Cam wearing whiskers, tails and picnic plates for ears in an attempt to fly across the river. Two perplexed French visitors summed it up: “If they are so clever, how can they be so stupid?” 84 03 12 p7

1984 Cambridge Students’ Union has finally won official recognition from the University’s dons. The move brings to an end a long and sometimes bitter struggle over the union’s status which started more than 14 years ago when CSU was formed. But the dons have voted against

formal recognition on four separate occasions since then. Now students are hoping the recognition will lead to financial support from the University 84 06 12 p7

1984 About 1,000 students protesting at Government proposals on student grants marched from the Senate House to Lady Mitchell Hall where they staged an 18-hour sit-in. Students from CCAT also staged an overnight 'work-in' in their college library. Next day they demonstrated on the steps of Shire Hall where they met Councillors and officials. They are disturbed at proposals that parents should start paying for part of their tuition fees. Nigel Lawson's plans are an attack on the principle of a free education for all who are able to benefit from it, they claim. It was the biggest show of student protest in Cambridge for 10 years. 84 11 22

1985 Peterhouse admits women

1985 The young men of Cambridge University who admit to being 'Young Fogeys' are rather proud of the title. They saunter out of the Pitt Club on Jesus Lane planning another cocktail party and pretending the 'Orrible Eighties' have simply not arrived. Forget computers, aluminium briefcases, digital watches and body-building. These young men would swap the whole lot for a good wine, a Betjeman poem and a bank manager who called them 'Sir' and did not try to distribute cash-dispenser cards. 85 06 05 & a

1987 The world-famous Cambridge University Hawks Club, founded in the early 19th century, is to open in the city's up-market Portugal Place. It will turn the former Blue Boar Hotel's staff hostel into a club for the university's top sportsmen similar to the better gentleman's clubs in St James, London. Residents have expressed worries about noise and one councillor thought it wrong to spend such money when Cambridge urgently needs student accommodation. But supporters say it is a 'very valuable little house' that would be exceedingly well looked after. 87 03 27b [25.2]

1888 Prince of Wales birthday - farm wagon drawn by 2 horses & packed with undergraduates in various attire followed by crowds parades street (6.11.88)

1897 University debate women's degrees; poll 1,707 to 661 against; exciting scenes at Senate House, bonfire Market Hill [1.8, 3.5, 8.10]

1897 After the Senate House scenes yesterday (when the University voted against degrees for women) there was a brief respite. It was the calm before the storm. About 7 o'clock there was a grand gathering of the clans. Undergraduates began trooping through the streets to what was obviously a pre-arranged rendezvous - the Market Hill. From the four corners of the square fire was opened upon everybody and everything within range. Bombs, hand-rockets, and every description of firework manufactured were flung haphazard into the crowd until the scene resembled nothing so much as the bombardment of a hostile camp, It is no exaggeration to say that hundreds of pounds worth of stuff were got rid of during the five hours the proceedings lasted c1897 05 21

1897 Scarcely a week ago the Vice Chancellor entertained a distinguished company of judges at a banquet in the hall of Downing College, after which an adjournment was made to the rooms of one of the Fellows. Certain ardent spirits deemed it a favourable opportunity to indulge in a little diversion, suggested by the obtrusive handle of the door behind which the distinguished guests were killing time. "Why not fix it with stout wire to some neighbouring object?" The wire was forthcoming, the connection was made, and just sufficient length was allowed to admit of the door being opened a few inches - but no more. The judges tugged and tugged and tugged and all

the Queens' judges and all the Queen's men would not make the door open sufficiently wide to enable them to get out. One valiantly put his hand through the small opening and tried to sever the wire with a carving knife. When he withdrew his hand it was copiously covered with red paint - and the wire remained intact. It is stated that the distinguished guests took this practical joke in good part - extract from the "Daily Mail c1897 11 19

1898 Great crowds had been assembling outside Great St Mary's and the railings before the Senate House with the exception of a pathway of about five yards which the police were endeavouring to keep clear for those attending the honorary degree ceremony for Lord Kitchener. It was evidence that the constables were having hard work in keeping the crowds from encroaching. At length the looked-for rush took place and such was the force that the police were quite powerless to check it. A general scramble to get upon the railings ensued when without the slightest warning the railings suddenly gave way and fell outwards carrying many unfortunate persons to the ground with them. The solidity of this great piece of ironwork is well known and it is wonderful that more were not seriously injured c1898 11 25 [2.8]

1898 The enthusiasm aroused by Lord Kitchener's visit to Cambridge increased as the day wore on. Varsity men, brimful of high spirits, gathered in the streets in large numbers. For upwards of an hour thousands of people paraded the streets. It was not until eight o'clock that the cries of "bonfire" were heard. The call was eagerly taken up by hundreds of undergraduates and some boxes from a shop hard by were seized on as the fuel with which to start the blaze. Bands of men bearing massive wooden structures came up from all quarters and the flames mounted to an enormous height, so that the fire could be seen for miles around c1898 11 26

1900 underground toilets on Market Hill raided for wood to fuel bonfire to celebrate relief of Ladysmith; undergraduate convicted but Home Secretary reversed decision [1.5]

1900 There was great rejoicings in Cambridge on the relief of Ladysmith and despite the edict sent forth by the University authorities the conduct of the undergraduate element was again such as to necessitate the intervention of the police. The Varsitymen managed to draw police attention off the market place to scenes elsewhere and, during their temporary absence, succeeded in lighting a bonfire. There was great excitement as one by one the wooden frameworks of the stalls was committed to the flames. The band-stand on Christ's Pieces was attacked and the seats removed to the Market and quickly consumed. Similar damage was occasioned in all parts of the town CDN 1900 03 03

1900 The University has the power to stop these things. But what did the University do to prevent the destruction of property – practically nothing. A year ago an edict forbidding bonfires was issued, that edict was torn to shreds. The University cannot afford to have it said that the people of Cambridge had property stolen or destroyed in order to furnish forth an undergraduate carnival. The firmness of the Mayor and his brother magistrates in dealing with the men who came up at the police-court has been much commended. The Barnwell rough belongs to the past. The unfortunate thing is that his mantle had fallen upon the rowdy undergraduate of the present CDN 1900 03 05

1900 The ire of the undergraduate once roused, not even the powerful hand of Alma Mater suffices to entirely quell the wrath that has been kindled. An attacking force of undergraduates gathered many recruits as it made its way along Hills Road and it was at once seen that the objective was the Mayor's residence in Brooklands Avenue. They were dismayed to find the thoroughfare barricaded by a posse of police constables. The mob made a bold rush. The police partially yielded but not more than half of the 'Varsity flank passed through the cordon when the police closed ranks. The trap that had been set proved effective for those who marched triumphantly down the Avenue had not negotiated more than fifty yards when they were encountered by the Proctors mustered in strong force CDN 1900 03 07

1900 Cambridge is beginning to tire of the “rag”. We cannot go on celebrating the relief of Ladysmith forever. Nor can the more right-minded citizens countenance meaningless ebullitions against magistrates, however they may disagree with their decisions in the police court. It was confidently expected that if the undergraduates charged with assaulting the police were convicted there would be nothing short of a riot in which a gigantic fire, a fabulous number of barrels of tar and a torchlight procession were to be a conspicuous feature. It is true there was plenty of noise and plenty of aimless rushing about the streets but it all ended in nothing c00 03 12

1900 The list of those who have signed the petition in favour of a free pardon for those undergraduates who were recently convicted by the Cambridge magistrates of felony during the Ladysmith celebrations, fully justifies its description as the petition of Cambridge. Over 1,200 residents in the town and members of the University have put their names to it. Cambridge Town and University are unanimous in the hope that the hot-headed enthusiasts of Ladysmith Day may be forgiven for what was done in the excitement of the hour. It remains with the Home Secretary to decide whether the prayer of the petition is to be granted c00 03 13

1900 The Home Secretary has granted the petition of Cambridge and has recommended the Queen to grant a free pardon to all the defendants. He does not say the undergraduates did not commit felony, but there were extenuating circumstances. This is undoubtedly a slap in the face for the magistrates who share the responsibility for these convictions. Clearly the Home Secretary does not think much of their law, and he thinks less of their capacity for judging of evidence. Some timid people may be apprehensive lest it encourages the demonstratively-inclined magistrate to be more demonstrative in the future CDN 1900 03 16

1901 Sanguine people imagined that the rejoicing for the return of the South African Volunteers would pass off quietly. A parental Corporation had taken the wise precaution to secure materials for a fine bonfire on Midsummer Common to prevent the destruction of property. This time it was a plan doomed to partial failure. The fire was comparatively short-lived and undergraduates found a wealth of additional fuel in King Street where a wooden hoarding was dragged off to the Common and triumphantly flung upon the bonfire. Policemen stood guard over the bandstand on Christ’s Pieces. CDN 1901 05 07

1901 It being the King’s 60th birthday it was expected that nightfall would be the occasion for rowdyism and possibly an attempt to illuminate Cambridge Market Hill. The authorities cleared away the stalls, but their action left the historic centre of all “rags” open and free for the antics of the crowd. For a long time nothing occurred except the explosion of a few crackers or the discharge of a pistol from a window overlooking the hill. Large numbers of police were hustled about considerably, and were compelled to defend themselves, but compared with other ‘rags’, they did not have to exert themselves very much. It was a very tame, spiritless affair that will doubtless be deemed by the “bloods” to have been a complete failure, considering that practically no damage to property was done CDN 1901 11 11

1902 Peace in South Africa produced strife in Cambridge – one of those fierce contests between the police and the united forces of town and gown which, combined with the destruction of property, constitutes a “rag”. In King Street a large double gate was attacked as wood for a bonfire but a vigorous-looking dame appeared from the other side. Her only weapon was a duster, but such a formidable appearance did she present that the crowd melted away before her advance. Skirmishers went towards the Circus of Varieties to obtain a hoarding but this was well guarded and soon they were retracing their steps. CDN 1902 06 03

1902 The following notice has been issued by the Vice Chancellor of Cambridge University. “Whereas the attendance of members of the University at certain public exhibitions, performances and places of dramatic entertainment has been productive of grave disorder, notice is given that the attendance of any member in statu pupillari at the Circus of Varieties, Auckland Road, is prohibited and will render him liable to be punished by suspension, rustication, expulsion or otherwise.” CDN 1902 06 04

1903 Rag when French awarded Honorary Degree thought 'likely to become historic as improbable scenes will ever occur again' (2.1.04)

1903 The accounts of 'ragging' at a Cambridge Theological College led to an interview with a Cambridge minister acquainted with one of the victims – the man who had the adornment of his upper lip removed by amateur barbers. The undergraduate did not have the whole of his moustache removed, but only half of it, the operation performed while he was held down in his bed. He had a splendid moustache. It was quite the pride of his mother who was terribly upset over it. His life has been made thoroughly unbearable by his tormentors, who wanted him to give up preaching. They have broken all his windows several times and the young fellow has been thoroughly broken down and ill. 03 04 14

1904 Metropolitan Police brought in to control Rag after King opens new University departments on Downing site in March; on November 5 2 policemen hurt in Rag [7.19]

1904 St John's College students carried out a mock funeral for an undergraduate who was ejected from the New Theatre on three occasions in one week for having infringed the rules adopted to preserve order. The college authorities decided he should be 'sent down' and his friends showed organised a process of 13 cabs which filed along the streets at funeral pace to the railway station. A halt was made outside the New Theatre to allow the travellers to indicate their disapproval of the management. During the whole journey shouts, singing and the blowing of horns was continuous. CDN c 12.3.1904

1904 The King's birthday is one of those occasions upon which a certain section of the 'Varsity and Town consider it necessary to turn themselves into public nuisances. This year they avoided the Borough police by making a raid on Chesterton. The mob made tracks for Midsummer Common with the object of having a bonfire. Several hundred crossed Jesus Green bridge where a council of war was held. Carlyle Road was mention as leading to fuel for the fire but a number of the belligerents made an incursion down a private road. Several fences were broken down and flames shot into the air as the surreptitiously-obtained timber was thrown on to the fire. No police appeared on the scene, though a number of members of the Force were on duty on the borough side of the river CDN 10.11.1904

1905 Sultan of Zanzibar hoax - mayor fooled into greeting & entertaining Undergraduates dressed as visiting Sultan [2.13]

1905 The death of Willie Clarkson, the London theatrical costumier and make-up expert recalls two of the greatest hoaxes of the century. The hero of the famous visit of the Sultan of Zanzibar to Cambridge and of the Abyssinian dignitaries to the Dreadnought was H. De Vere Cole. But he would not have escaped exposure but for Mr Clarkson's masterly make-up. He became more famous than many of the actors and actresses who he costumed and gowned during his association with the stage. 34 10 13

1905 Sir - On 1st March 1904 a sergeant of the Metropolitan Police, sent to Cambridge on the occasion of the King's visit, was violently assaulted and kicked by an undergraduate. After six months' illness, during which his pay amounting to £54 was paid by the Borough of Cambridge, he was pensioned off as unfit for service. On 5th November 1904 a constable, having taken one undergraduate into custody, was brutally attacked by others and was left insensible. He has been on the sick list ever since and pensioned off. All members of the University should co-operate to prevent such scenes of riot and disorder - H.M. Taylor, Trinity College. 05 11 09

1905 It is almost incredible that any undergraduate should so far demean himself as to treat a policeman with the blackguard violence of a hooligan. If we have hitherto been inclined to take a lenient view of the occasional destruction of property it was because we felt sure the grosser acts were the work of town loafers who were encouraged by thoughtless undergraduates. But those

who took part in gutting a shop should suffer the legal penalty and not be saved from imprisonment by University authorities. – Cambridge Review 05 11 09a

1905 One does not associate Sidney Sussex College with the rowdyism that is rampant in Cambridge. Yet on Saturday night the porter found the door of his lodge refused to open: it had been securely screwed up and he was a prisoner. After a troubled night he was aroused by the bedmakers' loud ringing at the gate and saw there was no option but to smash the window and escape through the jagged aperture to admit the waiting and wrathful 'bedders'. 05 11 11a [2.15]

1905 Sir – twenty years ago undergraduates at Oxford had two types of 'rag'. On the 5th of November we went out and provoked people who didn't wear caps and gowns to hit us, and we hit them back. Then whenever our college had done something great in sport we burnt up a good deal of the college property in the 'quad' and paid for it in our 'wattels' at the end of term. But when the authorities thought there had been too much friendly hitting they used to 'gate' their colleges en bloc at nine o'clock. Now Cambridge undergraduates have discovered a third sort – plundering, robbing and annoying citizens to get wood for bonfires. This is hooliganism and the Riot Act might not be out of place – V.S.N. 05 11 15

1905 A practical joke of a particularly senseless character has just come to light. The incident recalls a similar hoax that was effected during the visit to England of the Shah of Persia years ago. The CDN became apprised of the visit but in view of the former hoax refrained from publishing any account and our suspicion was confirmed by a telegram from the Carlton Hotel saying 'No member of the Sultan of Zanzibar's suite was away from London'. The Mayor was very cautious and took care not to make any elaborate preparations for the reception of the visitors. 05 03 04 [& see Memories 23 Feb 2005]

1905 Undergraduates started a bonfire on Parker's Piece with the aid of a wooden fence from the front of a house in Melbourne Place. One of the proctors who arrived on the scene before the appearance of the police became the object of the amusement of a large number of roughs, some of whom, after having smashed the hats of the 'bulldogs' began to hustle him. He escaped actual injury owing chiefly to the stalwart and vigorous defence of the 'bulldogs' assisted by one or two townsmen. The fire was extinguished by a bucket of water 05 03 06b

1906 One of the most disgraceful 'rags' occurred a few days ago. An undergraduate had been celebrating his birthday by giving a party to his intimates where they dined too well. Shortly before midnight the raiders returned to the room but their victim had not retired and succeeded in repelling the onslaught. Later they came back, breaking and destroying indiscriminately. The graduate was a great traveller and his room contained many valuable Eastern trophies which he had collected in out-of-the-way parts of the world. 06 05 12a

1907 The University Vice Chancellor has condemned the undergraduates who wrecked Kier Hardy's meeting at the Guildhall. It is one of the University traditions that honest opinions, however unpopular, should receive a fair hearing. Cambridge is not unsympathetic towards the Labour Party and its leader should have been given a chance of expressing his views. 07 02 21

1907 About ten years ago some undergraduates of St John's College removed one of the stone balls from Clare College bridge. They transferred it to a Rob Roy canoe but this capsized and the purloined ball sank to the bottom of the Cam. There it has remained ever since. One of the other balls was put in its place and a new one made, now partly obscured by ivy. (Item from the 'Table Talk' column on 1st April) 07 03 30b

1907 Trinity Hall undergraduates have subscribed £6 3s. towards the fund for repairing the damage done to Mr Glasscock's cab on the night of the visit of Kier Hardy to Cambridge. It was smashed beyond repair but as vehicle was not covered by the Riot Damages Act he had no compensation for the loss sustained. At the commencement of term the News published the facts, calling the attention of undergraduates to the heavy loss they had caused and inviting them to put the matter right. 07 05 03

1907 The visit of Royalty to Cambridge was made an excuse for an outburst of destructive exuberance on the part of undergraduates, errand boys, and others. A rush was made for the bandstand on Christ's Pieces, but it was guarded by police so they proceeded to Victoria Bridge, which was held by sturdy country policemen. Some then kindled a fire near the Cutter Ferry, dragging some palings from the Ferry House, which filled the souls of the 'raggers' with glee. 07 11 12

1907 "For an isolated policeman to be attacked and beaten to death by eight or ten students is an occurrence which happens almost once a week at Cambridge or Oxford", writes a correspondent in the 'Messagero', (Rome). He adds that it is common for a group of about 50 undergraduates to wreck a shop as if a dynamite bomb had exploded in it when "the honest tradesman had refused them credit". In the theatre undergraduates do what they like, interrupt the actresses, start discussions with the actors on the stage, beat the orchestra and upset the stalls, he alleges. 07 12 10

1908 There is a rule at the New Theatre which degrades that undergraduates may not charter a box unless they are accompanied by a lady. So four fertile brains sought to overcome it. No relative of the softer sex being available it was determined that one of the four should undergo sufficient outward transformation to satisfy the authorities. The charming gown was of white satin bespangled with sequins designed by Kate Reilly of Dover Street, the beautiful head of hair was done by Clarkson who came down himself to direct the final 'touching up'. The group dined at Buol's and taxied to the theatre. But what happened afterwards and how the 'lady' was smuggled into college we are not at liberty to divulge CDN 08 12 03 [8.29]

1909 Carrie Nation hoax – 09 02 26

1909 One of the most successful undergraduate hoaxes ever perpetrated was carried out in the hall of Emmanuel College. Mr W.M. Malleson, a prominent member of the University Amateur Dramatic Club, disguised by a florid countenance with a grizzled grey moustache and beard impersonated Mr G. B. Haddock, the Liberal MP for North Lonsdale. He delivered a pithy address on Women's Suffrage. From first to last, despite the name of 'Haddock' there was no suspicion of 'cod' on the part of the audience who took the debate in real earnest CWN 09 11 19

1910 A party of five undergraduates attempted to repeat the 'Merry Widow' hoax at the New Theatre but were sadly unsuccessful. It is a well-known rule that undergraduates may not purchase boxes unless accompanied by ladies or some elderly chaperone. A box was ordered in the name of the Hon Miss Neville of Magdalene College, which aroused suspicion. The party comprised three undergraduates and two 'ladies' who were very tall, walked with mannish strides and spoke in a quaint high-pitched falsetto. Mr Redfarn did not take many seconds to spot the disguise. 10 03 11f

1911 Locker-Lampson MP hoaxed by Horace de Vere Cole – 11 03 03d

1911 A motor car drove into Sawston with several undergraduates. They visited the Stores and bought women's hats then commenced their fun by knocking people's hats off in the street and replacing them with those they had bought. The lads next went to the Queen's Head where they compelled the landlord to sit down while they drew the beer. They took pictures from the wall and placed them in the car – but the chauffeur took them back - then quite upset a cinematograph show, one hanging by his toes from a crossbar in the tent. It was a relief to the villagers when the motor left for Cambridge. 11 11 10e

1911 Undergraduate disrupt Saffron Walden fair, one received broken jaw from showman – 11 11 10e

1920 Union of Democratic Control attempted to hold 'Bolshevik' meeting but disrupted by undergraduates; senior proctor, T.R. Glover, hit by flour bomb; speaker Norman Angell rescued by police – Ch 20 02 03d

1920 From outbreak of war have been pacifists proclaiming against action taken against Germans who would have moved heaven and earth to bring war to early conclusion. They possess not a spark of British pluck ... led Cambridge gaining reputation as hotbed of Pacifism.

University tried to stop this vile work; now opposition to such pro-German propaganda and return of pacifist Bertrand Russell to Trinity. Should prohibit pacifist meetings – Ch 20 03 10d

1920 'Chariot of fire' rag – cab soaked in petrol – Ch 20 11 17e, f # c.36.93 #, repeated in 1921 when it collides with telephone kiosk

1920 Norman Angell, author of 'The Great Illusion' ragged – bitterly hostile reception; police could not stop undergraduates entering the windows - CDN 20 03 02

1920 Recent 'Rag,'—A report will be presented to Cambridge Town Council tomorrow (Thursday) by the Watch Committee in respect to claims under the Riot (Damages) Act arising out of the recent "rag" in Cambridge. The Town Clerk reported to the Watch Committee that three claims had been received under the Riot (Damages) Act in respect of damage to the Castle Hotel amounting to £6.19s; Merton Hall amounting to £87 and St. Andrew's Hall, amounting to £14 11s. The Committee agreed that the claims in respect the Castle Hotel and At Andrew's Hall be admitted and included in the next list of bills, and that the consideration for the claim in respect of Merton House be deferred pending the receipt of a further report thereon from the Borough Surveyor. 20 03 31 CIPof

1920 Armistice 'Rag', chariot of flame on Market Hill, siege of Newnham College, burst through gates where for half hour of bliss ... few odd battalions of infuriated Dons and hysterical Newnhamites, police charge - CDN 20 11 12

1921 Armistice night rag, students assault police; heavy fines – 21 11 16l

1922 On strolling along Kings-parade this morning we saw a crowd of undergraduates. Mingling therewith we became aware of the presence of a number of cyclists accoutred with hockey sticks. We divined then that a bicycle polo stunt was about to be "stunted". In short, it was a stupendous scheme schemed for the laudable purpose of brightening Cambridge. We waited a short time. Then cheers burst forth and the game (?) commenced. After wielding their weapons vigorously for about five minutes and hitting the "pill" (i.e. a spotless tennis ball), the players raised their battered and war-worn cycles aloft and to the accompaniment of cheers bore them tenderly to a place of safety. Motor 'buses, cycles and handcarts were enabled to get through the press by the help of the police. Ardour became somewhat damped until the ball was arrested by the police, when cheers once more broke forth, but the ball was remanded, and whence it flew we knew not. Thus ended the now customary end-of-term rag. Although not what it might have been it was amusing, which is one point in its favour c22 01 05

1923 'Phineas' rag - Phineas, mascot seized – recalls Cambridge rag of March 1923 – 30 09 06a & b & photo – 30 09 06c

1923 A merry and light-hearted party of undergraduates, despite police vigilance, succeeded in obtaining their hearts desire - they manage to light a fire on market Hill. Certain of the undergraduate community attracted the attention of some constables to a gas lamp on the one corner of the square. They demonstrated a desire to figure on the charge sheet of the police court by the charmingly simple process of putting out the light. The police “fell for it” and kept watch on that particular part of the market place. Meanwhile another body of the faithful rushed on to the Market Hill with a rowing eight filled with petrol and had it alight before people realised what was towards c23 11 12

1925 Celebrating the Lent Races gave gowmsmen the traditional excuse to break the bonds of conventional conduct and create some hectic scenes on Saturday night. From the viewpoint of roughness the ‘rag’ proved to be one of the worst during recent years, and the endeavours of the police to impose limitations on some of the more disorderly acts were not received with the good-natured co-operation which usually characterises such outbreaks. Besides having their helmet knocked off, several constables received nasty kicks about the legs and one was taken to Addenbrooke’s Hospital with injuries to the head c.25 02 14

1925 The bright idea was to unveil a ‘statue’ of Eros on Cambridge Market Hill, but they did not appear till quite three-quarters of an hour late. The crowd got tired of waiting and certain of their number pelted some adventurous spirits perched on the Market cross with oranges, and this little incident led to a general exchange of soft and ‘squashy’ fruit. Oranges gave place to tomatoes, which were followed by eggs and bags of flour. Besides being unpleasant, practice of this sort is dangerous c25 03 07

1927 anti-feminist rag [3.18]

1927 “The first marriage according to the new Prayer Book” was solemnised in Cambridge when an undergraduate “bride” and “bridegroom” were joined together in unholy matrimony on King’s Parade. The blushing bride with the bowing bridegroom was preceded by a piper and a clergyman who was wearing “flannel bags” under his surplice and carried a doll’s sunshade. The bride’s dress was a pair of white lace curtains and she carried a large bouquet of Brussels sprouts. The bridegroom wore a dilapidated silk hat and a red nose – and carried a banana. They stepped into a waiting carriage followed by a motley through of ludicrously attired “relations and friends” CBD c25.2.1927

1927 Cambridge Undergraduates took upon themselves the duty of opening “Joanna Southcott’s” famous box on the Market Hill. A crowd of mammoth proportions assembled. A melancholy dirge was heard from Petty Cury and there appeared a party of pipers and following them in one of Dale’s lorries came a weird array of 24 “bishops” and a delegation of “Mormons” wearing huge straw sombreros. One “archbishop” proceeded to open the box, producing several layers of red tape, a teddy bear, a pair of old football boots and a number of bananas with which he pelted the crowd. The “rag” was organised to provide funds for the Cambridge Fruiting Campaign to help strawberry pickers in the Wisbech area. 27 06 09 [3.19]

1929 worst rag in recent years [3.21]

1929 The University Proctors have considered regulations for students who desire to use aircraft during term time. Undergraduates flying their own or civilian aircraft may lead to annoyance from low flying and accidents. A Light Aeroplane Club has already been formed which gives facilities for flying within a few miles of the University. Now no student may fly as pilot or passenger during term time without written permission from his parents and tutor. Those offending will be liable to be punished by suspension, rustication, expulsion or otherwise. CDN c 16.3.1929

1931 first meeting Cambridge Socialist Society ‘solid band of presumably Tory undergraduates at back of hall began to shout, heckle & sing patriotic songs’, police called, threw stink bombs [45]

1931 Over 100 attended a funeral service for a young Freshman whose mysterious death has caused such a sensation throughout the country. Press and public were excluded but a crowd gathered and police had some difficulty in controlling the traffic. He had been found lying dead on the floor of his room, gagged and bound in an elaborate manner with numerous handkerchiefs, a length of puttee, and a wire flex. Members of the Pentacle Club, the University Magicians’ Society have been interrogated & Sir Bernard Spilsbury, the famous Home Office pathologist has been called in. 31 02 27d-g-h

1931 A Cambridge motor firm – W.E. Harding of Seven Sisters garage, Newmarket Road – has been barred from trading with undergraduates by the Vice Chancellor. Under university rules tradesmen must notify tutors by the end of term of any debt exceeding £5 incurred by an undergraduate. But Mr Harding had not been told this. Only two other such notices have appeared within living memory. Now any student having any dealings with the firm may be suspended or rusticated. 31 06 12b

1931 An undergraduate rag in celebration of examination success led to two young army officers appearing in court charged with the theft of coloured lenses and other fittings belonging to traffic lights on the corner of Lensfield Road. They were of no conceivable value except as a trophy. One was the son of a distinguished soldier in the Coldstream Guards killed at Arras during the war. If convicted it would have a grave effect on his army career. The case was dismissed. 31 07 17b & c

1932 Overnight two unfurled umbrellas were securely tied to the pinnacles of King’s College chapel so they stood straight up. The college called a window cleaner to remove them, but despite his long ladder he was unable to get within ten feet. Two undergraduates went on the roof with shotguns and endeavoured to shoot them down. One fell but the other proved more difficult. The shots knocked the handle sideways. For some hours it floated gracefully from side to side in the wind like some gigantic weathercock. 32 05 18

1932 What would papers do without Cambridge undergraduates’ pranks? During a hard frost years ago some 150 callow youths had a ‘curling’ bonspiel on the pond at Emmanuel College. Each had a china bowl in lieu of the orthodox curling stone – and each bowl contained a lighted candle. Overnight a thaw set in and visitors watched gardeners salvaging the ‘curling stones’ from the bottom of the pond. Shortly afterwards undergraduates took a donkey dressed in cap and gown into dinner in hall. Most of the aged dons mistook him for one of themselves! But in those days no newspaper commented. 32 05 21a

1933 The roof-climber who ‘pinched’ the two weathervanes off the Squire Law Library building seems to have had an attack of conscience, for the missing cock and fish were replaced last night. But they also left tasteful decorations and souvenirs in the shape of two sherry bottles at each end of an arch high over the entrance to the Geological Museum. They are said to be full and so act as ‘bait’ to other scalers of walls and roofs. 33 06 13

1934 Trinity College was the venue of a carefully-planned ‘rag’ involving a large number of fireworks. The roof was chosen as the main display ground. The first rocket went up and landed in Neville’s court before all sorts of fireworks went off in rapid succession, including a couple on the two turrets of the Great Gate. Next day porters were trying to identify the owner of a walking stick on which a Catharine wheel had been fixed. 34 02 22

1934 A Cambridge police constable was injured during the ‘rag’ which followed the inter-college rugby cup final between Clare and St Catharine’s. At Burrell’s Walk undergraduates used wooden palisades to make a bonfire. The fire engine was called out but was surrounded by a

crowd of students some of whom pulled the hose off the drum. Others clambered on to the engine and took the front and side lamps off. The fire was put out by college porters. In Queen's Road the police were forced to defend themselves. Truncheons were used to prevent their helmets being snatched off. There was some hard fighting. A number of street lamps were broken and a window was smashed in King's Parade. Two undergraduates were arrested, charged with assaulting the police 34 03 05

1942 Punts and canoes placed on NFS reservoir on lawn in front of King's – photo – 42 09 17a

1945 landau soaked in petrol set alight & paraded through Cambridge [1.8]

1955 A gaping hole, nine feet in circumference and about a foot deep, was blown in the path beside Trinity College bridge last night. It is believed that a stick of dynamite was used as a student said he heard a terrific explosion and the building shook. The explosion caused leaves to be blown off trees nearby. This is the third time within a year that a deep pit has appeared near the bridge and last week it was decorated with planks and trowels. But two porters and a gardener denied all knowledge and the college spokesman had nothing to say. 55 05 12a [1.22]

1958 van placed on roof of Senate House (9-11.6.58)

1958 Austin 7 van placed on ridge of roof of Senate House during Saturday night, Sunday morning using some equipment left by workmen; is engine-less, caller says was taken up in complete form except for axle which taken up separately; Civil Defence people take it down Tuesday after cut in pieces (9-11.6.58)

1958 A unique answer to the Cambridge traffic problems was found during the weekend. Somebody, obvious with an acute parking problem, decided that all the flat space on top of the Senate House was going to waste – so they decided to park an Austin 7 van there! Early-morning passers-by goggled and stared in amazement at the strange sight of hefty firemen and policemen struggling to make the van safe from the wind. Nobody seems to know who put it there. The big problem is: how to get it down. 58 06 09a

1958 Hundreds of students watched – and offered advice – as Civil Defence volunteers tried to remove the Austin 7 van from the roof of the Senate House. It was moved on to the parapet, but it would not pass between the legs of a derrick. Men hammered at its jutting corners and thudded upon its protrusions before deciding that it must come down in pieces. A good deal of parts were lowered on a pulley and stored in a rescue vehicle. Then they drove away. Despite the real courage of the Civil Defence men, the day went well for undergraduate Cambridge. 58 06 11 & a

1958 Civil Defence men have succeeded in bringing down the van from the Senate House roof. It was cut in half with the aid of an oxy-acetylene torch, then cut up again, and again, until all the parts were of a suitable size to be lowered, starting with the bonnet and wings, then the radiator and steering column. Part of the roof and a side were the last down. The proceedings were watched by the Vice-Chancellor of the University and two or three students who climbed on the

roof of the Old Schools building and offered suggestions as to how it should be dismantled. 58

c.36.94: bonfire night

1898 11 06

Saturday was a typical "fifth" in Cambridge. Faithfully following the precedent set in former years a number of Varsity men and townspeople assembled in the market place, which for three hours or so was crowded with excitable and pugilistically-inclined youths, representing Town and gown. The Gown driven from pillar to post by the howling mob, appeared to be greatly terrified, and despite the vigilance of the police, of whom a large number were told off for special duty, the celebration was not entirely free from violence. Neither town nor gown missed many opportunities of displaying their physical prowess and many are the reports circulated as to the results of the pugilistic encounters that ensued c1898 11 06

1899 02 09

The attention of the University Council of Senate has been called to the disorder which attended the bonfire on November 24th, 1898 when the actual destruction of property was considerable. They recommend that members of the University are forbidden to take part in making or lighting of bonfires in public places within the precincts of the university. Members offending will render themselves liable to be punished by suspension, rustication, expulsion or otherwise c1899 02 09

1899 Almost as soon as it was dark a large number of youths made their way to Cambridge Market Hill which was in a short time alive to the crackling and bangings of the smaller fireworks. The 'Varsity', after hall time, joined the townspeople and from eight to eleven there was a roaring, rushing crowd of several hundreds about the hill and neighbouring streets. Certain of the townsmen who had begun the day not to wisely by profusely drinking were responsible for the greater part of the disorder and were seized and marched off by the ever-vigilant gentlemen in blue - 1899 11 07

1900 05 25

Cambridge has celebrated the relief of Mafeking and it has done it right nobly. There was no recurrence of the riotous scene witnessed on the occasion of the relief of Ladysmith, no destruction of property. This was due to one thing, the discretion shown by the powers that be in organising a bonfire on Midsummer Common. People poured in in thousands from the country in anticipation of the festivities and so great was the influx that some streets were rendered well night impassable. Still, the crowds were orderly and the police had no difficulty regulating the traffic c00 05 25

1900 11 06

The 'Fifth' was celebrated on Cambridge in a very orderly fashion. The effigies that once characterised Guy Fawkes Day were conspicuous by their almost entire absence. The best attempt at an effigy was made by three or four men who were rigged out in minstrel fashion and paraded the streets with a vehicle in which were seated representations of Mr Kruger and his wife. This attracted a good deal of attention until the rain came and washed the colour from the faces of the dejected looking figures, and sent the minstrels home c00 11 06

1901 11 06

There is little survival of the old celebrations of "The Fifth" in Cambridge, save one or two groups of youngsters with an eye to stray coppers carried around "guys" which may have been effigies of anything. Builders, having a recollection of losses of material on bonfire nights, had men guarding scaffolding poles, but they were not called upon. The most noticeable thing was the fog – thick, damp and irritating. It was not the kind of weather suitable to a rag or even a bonfire in the back-yard. It was better fun sitting by a snug fireside than standing with cold hands and feet in a choking fog letting off small pyrotechnic fry CDN 1900 11 06

1903 11 07

Time once was when the concentrated animosity between Cambridge Town and Gown found annual outlet on 'The Fifth'. There are many old inhabitants who have seen the traditional riots gradually die down with the building up of mutual ties between University and Town. Athletic Varsitymen and pugilistic townsmen no longer belabour each other; they join issue in attempts at bonfires with police baiting thrown in as a sideline. At Castle End undergraduates managed to secure a shutter with the intention of making it the nucleus of a bonfire; a constable was rolled to the ground, his helmet knocked off and his whistle and truncheon lost before more policemen arrived and three arrests were made – one member of the Varsity, a soldier and a townsman c03 11 07

1904 11 07

The results of the fifth of November 'rag' in Cambridge were more or less serious injuries to two policemen, considerable damage to private property and several police-court summonses. A little boy engaged in firing a squib in the midst of a 'ragging' party proceeding along Jesus Lane was knocked down by a cyclist and rendered insensible. Fortunately he was soon revived by a number of undergraduates who at once attended to him. One man fainted and another was admitted to Hospital suffering from injuries to the head caused by his being knocked down by a cab. 1904 11 07

1905 11 06

It is a recognised custom in Cambridge, which no amount of protest seems able to abolish, to make the celebration of the Fifth the occasion for a rag. This year it fell on a Sunday but this did not deter them and a huge bonfire was started on Midsummer Common. The chief sufferer was G.P. Hawkins whose premises in Parsonage Street was attacked during the Nelson rag and on

Saturday another unsuccessful assault was made. But on Sunday several hundred undergraduates returned, smashed the fence and seized egg cases, barrels and a tarpaulin to add to the flames. 05 11 06b [2.16, 1.7]

1905 11 06

The information that a number of Varsity and Town roughs broke into Mr Hawkins' premises on Sunday night and stole and destroyed property to the value of £20 will surprise even Cambridge people. To disturb the peace of a Sabbath by forcibly entering a tradesman's premises and to burn the stolen material in a public place is just as truly a robbery as if the marauders had broken into the Guildhall and taken £20 from the safe. We trust the University authorities will look facts in the face and that such activities will be promptly scotched. 05 11 06a-d

1905 11 10

Rag – great damage to property – 05 11 10 a & b

1905 11 15

Sir – twenty years ago undergraduates at Oxford had two types of 'rag'. On the 5th of November we went out and provoked people who didn't wear caps and gowns to hit us, and we hit them back. Then whenever our college had done something great in sport we burnt up a good deal of the college property in the 'quad' and paid for it in our 'wattels' at the end of term. But when the authorities thought there had been too much friendly hitting they used to 'gate' their colleges en bloc at nine o'clock. Now Cambridge undergraduates have discovered a third sort – plundering, robbing and annoying citizens to get wood for bonfires. This is hooliganism and the Riot Act might not be out of place – V.S.N. 05 11 15

1909 11 12

Bonfire night scenes – CWN 09 11 12

1910 11 11

An undergraduate was fined for assaulting a policeman on Guy Fawkes night. A considerable amount of damage had been done, hoarding demolished, gas lamps broken, the railway station raided and milk churns overturned. The most serious incident occurred at Jesus Sluice footbridge where a battle royal took place between members of the County Constabulary and a large party of undergraduates and town roughs. They stoned the police, all of whom were hit, and PC Johnson was struck on the forehead by a piece of board and rendered unconscious. Only the arrival of police reinforcements had averted further trouble. 10 11 11 & a

1911 11 10

Serious 'ragging' took place in celebration of the 5th of November. A number of undergraduates carried 'life-preservers' and a violent assault made on the premises of Messrs Rattee and Kett where an employee was seriously injured. A mounted policeman was pulled from his horse and a police sergeant received a nasty cut over his eye. A member of the University was arrested for assault. But beyond the smashing of a number of street lamps little actual damage was done to property 11 11 10a & b

1912 11 08

It was one of the noisiest 'rags' seen for some years, for the introduction of a variety of bomb-firework, which gives a report louder than a rifle shot, more than compensated for the fewer Varsity men than usual. The liveliest scene occurred in King Street where the crowd were attracted by the sight of the hoarding outside the partly-demolished Hobson Street Chapel. Instead they turned their attention array of woodwork in connection with the building of the new Wesleyan Chapel near Christ's Pieces, but this was strongly guarded by police. Another battle broke out in Grange Road where some 400 undergraduates damaged the fence around Mr Ebenezer Smith's garden. 12 11 08a & b

'Fifth' celebrations, undergraduate rag and its police court sequel. Station Yard scene, mounted police charge, Homerton college attacked 13 11 07 p7 CIP

1919 11 12

"Fifth" fizzles at Cambridge,--The stage was set on Wednesday evening for an old-time celebration of the 5th of November. Proctors, "bulldogs," special constables, mounted police, mere "Roberts", undergraduates, townspeople and schoolboys turned out to play their respective roles, but nothing happened. A few fire-works - cannons, crackers etc — were discharged on Market Hill but the proceedings were almost as tame as the original affair arranged by Mr. Guy Fawkes and a few of his fanatical friends 19 11 12 CIPof

1920 11 06

Guy Fawkes rag, no serious damage but several arrests; raid on New Theatre and siege of police station

1922 11 06

A lamp-boy, G.E.R. of Thoday street, Cambridge was summoned for throwing a firework on Senate House-hill on 4th inst. Fined 1s. Ten shillings was the fine imposed upon an undergraduate of Trinity College for a similar offence on Market-hill. Defendant said he did not know they were arresting people for letting fireworks off, or else he would not have been fool enough to do so in front of half the police force. An undergraduate of Corpus Christi who was fined 10s. stated that he came on to the square and saw a lot of police loafing about so he thought he would like to throw some fireworks c22 11 06

1923 11 06

Cambridge would be disappointed indeed if the Fifth of November failed to produce a rag of some sort. Last night's effort was, to say the least of it, feeble and was sustained for the most part by such residents of the town as come out for excitement on such occasions, and a handful of very callow freshmen. Fireworks there were in plenty, but the old spirit was lacking. Had it not been for the mounted police and the proctors, the market square would have been its usual desolate self soon after 9.30 pm. It was noticeable that as soon as the mounted police left the crowd decreased by 50 per cent c23 11 06

1924 11 08

The night of the 5th of November was clear and calm, and there was a bright moon to light the way of revellers – ideal conditions for a “rag”. So evidently thought a large crowd of undergraduates and townsmen that gathered on Cambridge Market Hill in hopes. Police stood around in little groups taking a giving chaff good humouredly with the crowd. Squibs and occasional small rockets broke the peace and were heralded by faint cheers and feminine shrieks if they happened to go off in the press. The first intimation of anything interesting was the sight of a small youth, pale and very troubled looking, marching up St Andrew's street, firmly held by a constabulary hand c24 11 08

1925 11 06

Cambridge usually expects a ‘rag’ on Guy Fawkes’ night but this year’s affair was of a harmless character, plenty of noise being the chief characteristic. Fireworks galore were discharged and the Market Hill was occasionally lit up with flame-coloured flares. But this was rather a tame sort of amusement for undergraduates and they proceeded to accomplish the now stale feat of extinguishing the gas lamps in the neighbourhood of the Hill. Some undergrads took it into their heads to relight the lamps in the centre, which enabled one of their number to climb the fountain on the top of which something indistinguishable was placed. This being done out went the lamps again, coins being the smashing factor once more c25 11 06

1925 11 07

Two fires caused damage to the extent of thousands of pounds in Cambridge and both are believed to have been caused by fireworks. It was particularly unfortunate that one occurred a few moments after the other, for the second was a much bigger conflagration than the first, and the fire engine was not then available. The first was to a corn stack in Natal Road but the other was at Messrs Kidman & Sons’ wood factory yard and workshops in Abbey Walk. The outbreak occurred at the end of the building nearest the Coldham’s Common allotments, but it quickly spread along the rafters and within ten minutes there was no earthly chance of saving the building. The roof of St Columba’s Mission Hall was soon alight and the outskirts of Simper’s rope works also began to blaze c25 11 07

1929 11 06

Nearly thirty arrests were made during a Guy Fawkes ‘Rag’ on Cambridge Market Hill. Early in the evening an attempt was made to light a bonfire in Petty Cury and there was a considerable blaze in front of Falcon Yard before the police noticed it and it was extinguished. In Rose Crescent an effigy was soaked with petrol, stuffed with fireworks and deposited near the Market Hill end. This was quickly extinguished and the effigy confiscated, but the petrol continued to burn for a long time afterwards. A new feature of the scrimmages was the use of police whistles by undergraduates which added to the confusion. 29 11 06

1929 11 07

A sheep farmer, who became annoyed on Guy Fawkes night at being mistaken for an undergraduate, was summonsed for assaulting the Senior Proctor, Mr Frederick Dykes. He

testified that he had been with his constables when he sent one after an undergraduate who attempted to evade him. He then heard a shout of 'Get the Proctor' and felt two blows on his head. One of his constables seized the man now in the dock. Defendant said he was a stranger to Cambridge and had been told that if he followed the proctors round he would see some fun. He was not dressed like an undergraduate. He was fined £3. 29 11 07

1930 11 06

Cambridge police had cold feet with waiting for something to turn up in a temperature several degrees under freezing point. But the dreaded 'Fifth', that traditional battle between University and police failed to explode in the time-honoured fashion. There was a constant bombardment on the outskirts of town and some spasmodic firework throwing on the market where smoke screens were used to some effect. Using the cloud as cover two lamps were extinguished under the very nose of a sergeant. There were a few arrests but no helmets were knocked off. 30 11 06b

1933 11 06

Bonfire night demonstration & Hitler Nazi meeting – 33 11 06

1934 11 06

Cambridge saw one of the most riotous celebrations of the 'Fifth' for many years. In the course of demonstrations around Market Hill nearly 40 arrests were made, many of the police lost their helmets, several more had their tunics ripped right down the back and not a few sustained split knuckles and bruises. When supplies of fireworks began to run low parties of undergraduates attempted to put out every light but carried their efforts too far and smashed the glass of two shop windows and the traffic signal at the top of Petty Cury. There were 35 defendants including seven for assaults on the police, three for resisting the police a number for obstructing the police. Other summonses were for extinguishing street lamps and throwing fireworks. A Trinity undergraduate was fined for 'tipping' a policeman's helmet. Several times during the hearing there were outbursts of laughter. 36 11 06, 34 11 06a & b [1.1]

1935 11 06

Guy Fawkes – traditional rag, few arrests – 35 11 06b

1936 11 06

Guy Fawkes night disorder, truncheon charges, riotous scenes – court case – 36 11 06

1937 11 06

The treat of severe action had a salutary effect on Cambridge undergraduates during the 'Fifth' celebrations. Last year a number of students were rusticated and others heavily fined by Borough justices. The Gas Company surrounded their lamp posts with barbed wire and fitted specially toughened glass over the actual light. Although a number of the taller standards were clambered up in every case the mountaineers had to return baffled. Not a light was extinguished. However two bus windows were broken with bricks and a pane of glass in a telephone kiosk was smashed. Photographers who used flashlights to take pictures had to retire in face of a barrage of missiles. Police arrested a woman but no serious attempt was made to rescue her. 37 11 06

1944 11 08

Bonfire Night rag protests – 44 11 08 & a, b

1947 11 06

Six undergraduates and two RAF men were arrested during the usual Guy Fawkes Night scenes in the centre of Cambridge last night. From 7.30 crowds grew steadily on Market Hill. Fireworks were discharged freely and the din reached its peak between eight and half-past. Members of the University who earlier had been outnumbered by more than ten to one were in force by nine o'clock, several minor scuffles occurred about this time, and the first of several policemen's helmets disappeared. Proctors and their "bulldogs" early kept undergraduates on the move. After that the crowd gradually thinned away, and by 1.15 there were only groups here and there c47 11 06

1948 11 06

Hand grenade thrown at Senate House on November 5th, damages glass [2.16,1.11]

1948 11 06

Cambridge's annual Guy Fawke's battle was waged in the market square and surrounding streets . Five undergraduates were amongst those who were arrested and placed in the Guildhall cells until being bailed. There were three charges of assaulting the police. Though a strong warning had been given by the university authorities there was considerable rowdyism. RAF men from nearby airfields and US service personnel were banned from Cambridge for the night. Ten people were taken to Addenbrooke's hospital having received slight injuries or fainted in the large crowds c48 11 06

1949 11 08

The quietest Guy Fawkes night "rag" long-service Cambridge police officers can remember passed off without even a street lamp being extinguished – another "within living memory" record. A crowd gathered on the Market Square by 7pm and fireworks were thrown. A police car which arrived on the scene radioed for reinforcements. These shepherded the crowd off the square. After that police posted at the entrances to the square prevented people entering the area. Early in the evening a few rotten eggs were thrown, and a smoke bomb exploded in the Sidney Street area. These incidents, and the intermittent throwing of fireworks, constituted about the only "excitement" of the evening, though there was an occasion when a "bulldog" pursued a man at full speed in front of the Guildhall c49 11 08

1950 11 06

Although four arrests – three townsmen and one undergraduate – were made, Guy Fawkes night this year was about the quietest since the war. Undergraduates were not as lively as in years past.

The reason for the lack of activity on their part was probably the fact that they had been warned verbally by their tutors. Just to make sure seven watchful Proctors with their top-hatted 'bulldogs' maintained a constant patrol of the main streets c50 11 06

1954 11 06

Police helmets will be treasured possession in the homes of undergraduates and Cambridge 'Teddy-Boys' who contributed to the Guy Fawkes Night high jinks. One police constable, helmet-less, went back to base for another. But in double-quick time this went too! Frequent clashes broke out between police and revellers. In Market Square a crowd of more than 5,000 screamed, shouted, pushed and laughed but it was 'good natured fooling'. "Teddy" girls screamed at each bang, unsuspecting undergraduates were pounced on by Proctors and 'Bulldogs' and there were boos and hisses each time an untidy-looking urchin was led away, and each time the urchin would protest his innocence of throwing any fireworks.

1959 11 06

Roughest November 5th for 20 years, banger battles on Market Hill, £200 damage caused (6.11.59) 59 11 06g

1961 07 12

A new car park attendant's hut has been installed on Cambridge Market Square. The original hut was badly damaged by fire during the Guy Fawkes celebrations two years ago and replaced by a temporary one. It is expected to be in use later this week 61 07 12

1961 10 31

Undergraduates have been banned from the centre of Cambridge on Guy Fawkes Day. This will enable police to control the danger from homemade fireworks which have caused injuries to innocent bystanders. A similar ban last year made it the quietest for many years 61 10 31

1962 11 06

Bonfire Night was very quiet this year. Police appeals for people to stay away from the city centre met with a good response and the streets were almost empty. Extensive use was made of radios and police with walkie-talkie sets moved on any groups from street corners. A University ban on students entering the city centre during the five hours before midnight was equally effective. Major incidents were few and far between and the elaborate measures taken proved more than adequate on one of the quietest Guy Fawkes nights for many years 62 11 06

1972 11 06

A firework, probably a rocket from a Guy Fawkes party, is thought to have caused a fire which almost burned out a historic 18th century thatched cottage at Landbeach. The cottage, built in the 1760s by the then Rector, had been unoccupied for the last three years. Fireworks were also believed to have started a fire which badly damaged an old wooden barn used by Bar Hill junior school as a storeroom. Almost the whole of the 2,000 sq. ft. building, part of the original Bar Hill Farm and one of the new village's oldest buildings, was destroyed

1973 11 06

6,000 people turned out to support the second firework spectacular presented by Cambridge Round Table at Cambridge United's Football ground. Hundreds of children were amongst the spectators to watch the £400 firework display. A variety of set pieces, most of which largely featured Catherine wheels won plenty of admiration. But for many sitting high in the terraces the displays of rocket fireworks were unseen and wasted, obscured by the covered stands. Bonfire

night in Cambridge was one of the quietest for many years. The Fire Brigade had only one call - and that was a false alarm

1983 01 20

A bonfire night prank by three Huntingdon teenagers misfired when their home-made bomb blew up a wartime pill box. They used their classroom knowledge to build the bomb using household ingredients, a gas lighter and a watch as a timing device. They thought it would illuminate the inside of the pill box for a pretty bonfire night display. Instead it ripped apart the 12ft-square brick and concrete structure with walls two feet thick. 83 01 20a

'Magic Roundabout' at Rag Day 1971

155.01

c.36.95 : Poppy day rag

1921

Rags seemed to have reached climax after WWI, by 1920 "a new kind of misdirected energy, originality & daring is being poured into organising elaborate stunts, hoaxes & escapades; Michaelmas 1921 was great term for rags : Senate opened academic year by debating granting degrees for women; became political issue; first rag of burning gates of Newnham, then on voting day a colossal mock funeral for 'The death of the Varsity' with corpse of last male undergraduate being borne on a bier surrounded by aged mourners whose long grey beards dragged in dust; Armistice Day heralded by great Gun Day when German gun removed from Jesus college

1921

First collection made on 26 November passed smoothly (not done by undergrads); undergrads asked that this collection be organised entirely by their committee & take full responsibility that no incidents 62 11 08 [38]

1922 11 12

If the Cambridge undergraduate can find any excuse for a "rag" he invariably organises a more or less elaborate affair. Yesterday's "circus" was a rag that everybody could enjoy; it did no harm to anybody and above all as a result of its labours aided Lord Haig's fund - "Poppy Day" - to the extend of £115 or thereabouts. The circus was a screamingly funny affair and brought everyone to doorways, windows and, in some cases, roof tops. The signal for the two minutes Armistice

silence was heard in Downing-street and immediately the procession pulled up. The two minutes over pandemonium started as suddenly as it had ceased c22 11 12

1923

Main feature of Rag was match between two ludicrously dressed football teams; Guy Fawkes incidents became less violent & Senate decreed it no longer necessary for University lodging houses to have ground floor shutters as protection against bonfires 62 11 08 [38]

1924

Trails of pennies at Rag 62 11 08 [38]

1924 11 09

Cambridge undergraduates were busy today selling poppies. They were stationed in the centre of the town and in all the main thoroughfares leading thereto. Among their number were several very persistent in their efforts and “held-up” anybody – pedestrian, cyclist or motorist – who was not wearing a poppy. By way of pushing business a group of undergraduates hired a donkey and barrow, attired themselves as costers – complete with “pearlies” and other effects and went around the town rattling money boxes c24 11 09

1925

No Rag, Armistice day solemnly observed

1925

Undergraduates take over sale of poppies 62 11 08 [38]

1926

“Scrum” rag one of wildest since war, 52 arrests, 100 in fines (11.26)

1930 11 11

Poppy Day rag – 30 11 11e-g

1931 11 13

The Poppy Day collection in Cambridge has again smashed all records with undergraduate collectors struggling with money still coming in. Nearly two tons of coppers have passed through their hands. Early in the day the stock of poppies was exhausted and a fresh supply had to be brought in by train. Market Hill was the scene of half-a-dozen well organised ‘rags’ and at Silver Street the Demon Diver jumped in flames into the river and the collectors drew in good sums for his ‘widow’ and ‘children’ 31 11 13 I & j

1934 11 10

Poppy Day collectors had to contend with a dismal downpour of rain. But a large crowd gathered on Senate House Hill to await the arrival of a self-styled ‘Hitler’ who was due to open the Caius Fun Fair. When he did come, by car, he brought a procession of about a dozen cars in his wake, all containing weird and wonderful characters. The obstinate mule, which last year lay down in the road and refused to get up until tempted by a coin, was less obstinate on the present occasion, for the wet and muddy road was hardly a pleasant bed. 34 11 10 & a

1938 11 11

Undergraduates invaded the streets, skilfully extracting all the spare coppers with various ingenious stunts. In white sweaters and kilts of many clans the University Pipe Band paraded to Market Square for a display of Highland dancing, then toured public houses. The ‘Peace Group’

were perched on a cart disguised as a camouflaged tank decorated with “Atlee’s pants” – which appeared to be pale pink in colour. Standing on the tank were two dictatorial-looking figures in uniform. Amongst the individual performers was a man on a pair of stilts made from skulls while barrel-organ players were dressed as ghosts 38 11 11

1939 11 11

Set against the tragic background of a new war, Poppy Day in Cambridge presented a much more subdued scene. The war-wrought necessity of avoiding large gatherings of crowds and the blocking of streets considerably curtailed the undergraduates’ carnival-light activity. Decorated vehicles had been banned. The German Chancellor was the favourite target for shafts of wit and the Cosmopolitan Cinema advertising vehicles offered an invitation to ‘Beat up Hitler’ by piercing a pip with a dart. 39 11 11a

1939 12 01

Poppy Day total is now £2,328 14s. The exceptional circumstances last year produced a sum of about £2,819, but the 1939 total is already near the £2,382 collected in 1937 and the £2,452 collected in 1936. Pembroke heads the list of individual college collections with a sum of £223 - £80 more than the runner-up, Christ’s. 39 12 01 CIP0f

1945 11 06

1950 11 10

In the main streets of Cambridge today it looked as though a zoo, a circus, a host of foreign invaders and history’s immortals had been let loose – not to mention members of species hitherto unknown. It was the Poppy Day pantomime again and students were ‘on the make’. Poppy sellers were on the street and some 70,000 poppies were on sale. The Mayor, Ald Taylor, was kidnapped, his hands bound with a scarf and marched out of the Guildhall into a Rolls Royce while police thoughtfully held back the crowds c50 11 10

1951 11 13

Undergraduate collectors set out to break all previous Poppy Day collection records. The “ban” on well-known Middle East personalities made no difference to the high degree of ingenuity shown in extracting money from an ever-willing public. A seductive harem scene on a lorry featured “the Proctor” smoking surely nothing less potent than hashish while on the Magdalene college lorry a European “twist” was given by a “Don” reclining on cushions smoking a “hookah”. A collection of the weirdest Oriental gentlemen ever preceded the lorry with collecting boxes c51 11 13

1958 11 08

Many householders opened their doors early to a young man in pyjamas or an undergraduate turbaned like a caliph and bought a poppy, then poured into Cambridge to see the fun. Every entrance was barricaded, every vehicle stopped, and toll demanded. Progress was difficult in one street because Mr John Day of Trinity was having breakfast with Miss Alexandra Hearnshaw, a Newnham mathematician, on a Belisha crossing. In Petty Cury two rival dragons occupied most of the road – a dinosaur quite 70 feet long and containing numberless undergraduates of whom only the feet were visible and a toothy monster centipede writhing from the direction of the Senate House. 58 11 08

1959 11 07

Harlequins and Columbines, spacemen and fishermen, artists, engine drivers, unmarried 'Mummies' (Egyptian variety), balloon vendors, winged wonders, hot dog sellers, ghouls and luscious lovelies, all filled the streets of Cambridge to collect money for the Earl Haig Fund. The City was crammed with floats, blasted with instruments and its pedestrians and traffic forced to pay tolls before being allowed to pass. One of the most sombre 'floats' was that lamenting the Labour Party's third consecutive defeat at the polls. Another proclaimed "Life's better under the Conservatives" 59 11 07 & aa

1962 12 03

Seek distribute money more widely [25.8]

1962 11 10

Traffic was brought to an almost complete standstill in Cambridge as the Poppy Day Rag got under way and the streets became blocked with floats. Altogether 4,000 students with dustbin lids, tin cans and saucepans collected for the Earl Haig Fund. Dr Kildare performed 'bloody operations' on the streets, Trinity Hall undergraduates shaved Belisha beacons, girls from Girton dressed as blackbirds 'plucked ready for cooking' did hectic business while the 'new Hally Orchestra' gave a command performance with bicycle chains on dustbin lids and old mangles. Pedestrians found it hard to resist a forlorn and bedraggled donkey with an equally forlorn undergraduate clutching a box of soggy poppies. 61 11 10b

Poppy Day rag history – 61 11 08

1963 11 09

Cambridge had a carnival atmosphere for the annual Poppy Day Rag. A procession of 35 gay noisy floats was the first 'organised' procession in rag history. They depicted the Great Train Robbery and the Channel Tunnel. Degrees were sold outside the Senate House, passers-by were menaced with toy guns and undergraduates scrubbed zebra crossing, delaying motorists who were surrounded by students waving collecting tins. It was claimed that The Beatles pop group had been kidnapped and would be sold in Market Square. But News Agency reports say they were returning to Liverpool by car after a tour of Ireland. 63 11 09, a,b Austin car suspended under Bridge of Sighs [12.9,21.14]

Last to support only Earl Haig fund [36]

1965 01 14

Rag Day proceeds may be used to fund a youth centre for young people who live and work here. The bankside opposite Magdalene College would be an ideal site. There are good reasons: the college buildings are now awkwardly sited in relation to town development and will always be an encumbrance in terms of planning. Townspeople have to pay higher rates because of the specially low rating allowed the colleges and industrial development has been restricted which would have provided new industries. As it is many children have to go to other towns to earn their livings. And when they reach marriageable age they have difficulty finding housing since so much land is taken up by the university.– 65 01 14a

[37]

1985 03 11

Cambridge's student prince, Prince Edward, has helped to make this year's Rag Week a record-breaker. His appearance in the Rag Revue made the show a sell-out and he is guest-of-honour at the first Charity Ball where the raffle winner will lead off the first waltz with the fair-haired prince. Other rag events included mud wrestling, birdmen leaping from Silver Street Bridge and silly sports such as a tug-of-war across the river and an egg-throwing competition. It ended with punt-jousting and a mixed three-legged rugby match. 85 03 11b

Mock Funeral, Market Street, 1962

104.64

c.36.96 : mock funerals

Mock Funerals

1899 02 17

Yesterday afternoon the attention was attracted by what seemed to be an imposing funeral procession. But this was no ordinary funeral for instead of the usual hearse an open landau led the way and this was occupied by three young men who wore “the trappings of woe” very lightly. Following were nearly a score of hansoms. It is alleged that at the end of last term a student of Queens’ college “ragged” a couple of Freshmen’s rooms. The matter was reported to the University authorities who came to the conclusion he should be sent down for a year. His friends resolved to show their disapproval. Before the train left the company whistled the “Dead March” and it left amid ringing cheers 1899 02 17

1899 11 02

When residents in St Andrew’s street, Cambridge, saw a procession of cabs passing onward “all mournful and slow” to the railway station the people knew that someone had been sent down from the University. From Emmanuel college a youth emerged and under a shower of rice made hurriedly for the cab waiting at the door. The driver, “Gentleman Joe” wore a tall hat draped with crape, and so did the drivers of some four cabs what followed. The hero of the hour entered the Great Northern Station, the train moving out to the strains of “Auld Lang Syne”. Meanwhile the cabbies grove back to their respective stands. They were of more cheerful aspect on the return journey and each puffed a festive cigar 1899 11 02

1904 03 12

St John's College students carried out a mock funeral for an undergraduate who was ejected from the New Theatre on three occasions in one week for having infringed the rules adopted to preserve order. The college authorities decided he should be 'sent down' and his friends showed organised a process of 13 cabs which filed along the streets at funeral pace to the railway station. A halt was made outside the New Theatre to allow the travellers to indicate their disapproval of the management. During the whole journey shouts, singing and the blowing of horns was continuous. CDN c 12.3.1904

1907 11 26

A 'mock funeral' saw a procession of 100 cabs boarded by undergraduates who scrambled to the roof of the vehicles for the journey to the railway station. The cabbies had decorated their whips with pieces of crepe and 'mourners' with mouth organs and a miniature bagpipes played hideous music. The 'deceased' was 'sent down' for being out of Caius College after midnight – he had gone to London but his car had broken down. 07 11 26

1910

Mock funeral includes members of CUOTC in uniform with rifles reversed - thought to be bad form so soon after King's funeral [2.24]

1911 03 10

At the head of the funeral procession was a hansom. Seats on the top with legs dangling over the side, was the undertaker. His mournful calling seemed to have cast a settled gloom over his countenance. His eyes were mournful and sad, and his clothing was of the deepest black, save for his socks (he wore no shoes), which were of the brightest scarlet. In his hand he waved a long whip (an emblem of his mournful trade), with a bright handkerchief to match his wonderful socks tied to it. Behind the hearse were nine carriages filled with loudly lamenting mourners – extract from a report of a 'Mock Funeral' for an undergraduate sent down from university 11 03 10b

1911 05 19

In a little side passage in King Street a barrel organ was draped with black and mauve as hansoms, taxis and growlers arrived in their dozens. The coffin was covered with crepe surmounted by cap and gown while plumes barely concealed the lines of an express delivery van in which sat the 'corpse' smartly dressed in grey suit and felt bowler. There were about 100 horses and motor vehicles in the procession to the station where the tops of the railway carriages were filled with figures clad in varying garb from pyjamas and rowing shorts to mourning suits and dress suits. It was the most imposing mock funeral ever seen in Cambridge 11 05 19d & e

1912 03 08

A mock funeral started from the "corpse's" lodging in Lensfield Road. There was a long line of taxis, hansoms and even four-wheelers stretching some distance down Trumpington Street. There was no elaborate "hearse" as in previous funerals: the body was placed quite simply in a hansom bearing the words "Alas! My poor brother" and smoked cigars throughout. His "cabby's" hat was draped with crepe while the majority of the fancifully-dressed mourned wore complimentary black-eyes out of respect for the 'deceased'. There were an extraordinary number of "flappers" – quite stunning flappers some of them were too. One of the best was a suffragette and Mrs Pankhurst also figured in the procession. 12 03 08

1913 02 14

An unusual feature of the Mock Funeral (of an undergraduate 'sent down' from college) was a miniature coffin borne by a Chinaman. It was, like the 'corpse' completely hidden in the 'hearse', for the hansom was covered by men who seemed to cling to it as bees swarm on a tree. The

procession was preceded by a two-seater car driven by an old fellow with a red beard and enormous straw hat sitting beside his 'spouse', a lady with a high complexion, a shawl alone betraying her age. The 'cortege' numbered nearly 50 vehicles including a 'flapper' riding a bicycle meant for three men. Her green hobble skirt was not as demurely worn as are the dresses of typical Cambridge girls. 13 02 14 p10 CIP

1926 05 08

Cambridge had a Mock Funeral today, after a lapse of many years. Undergraduates, dressed in outrageous attire, paraded the streets of the town and marched to the station to observe "funeral obsequies" to two Trinity men who have been sent down for a breach of college discipline. The procession made its way to the college to collect the "corpses". On arrival however they found their unfortunate colleagues had made use of their newly-acquired wings and flown, but nothing daunted the party proceeded to the station headed by a drum-major and a figure in clerical attire. Amongst the occupants of the horse-drawn 'hearse' were two musical geniuses with a banjo and saxophone c26 05 08

1930 05 26

A mock funeral procession paraded through Cambridge as undergraduates bade farewell to one of their number who had been sent down. It was headed by an old horse-drawn landau in which the 'corpse' sat, his face disguised beneath a war-paint of lipstick. He was joined by various persons who were to officiate at the ceremony; beneath top hats, black cloches and wideawakes were suits of grey flannel, blazers and plus-fours. All were garnished in crepe streamers on which hung rhubarb, beer and wine bottles, remains of the 'wake'. At the station the funereal party moved along the platform hilariously singing a dirge and the 'corpse' was installed in a third-class compartment where gifts of fruit and rhubarb were handed solemnly in. 30 05 26

1931 02 27

Over 100 attended a funeral service for a young Freshman whose mysterious death has caused such a sensation throughout the country. Press and public were excluded but a crowd gathered and police had some difficulty in controlling the traffic. He had been found lying dead on the floor of his room, gagged and bound in an elaborate manner with numerous handkerchiefs, a length of puttee, and a wire flex. Members of the Pentacle Club, the University Magicians' Society have been interrogated & Sir Bernard Spilsbury, the famous Home Office pathologist has been called in. 31 02 27d-g-h

May Week celebrations, 1969

98.33

c.36.97 : May Week

(see also c. 38 : rowing)

1899 The gaieties of the May Term have today been enhanced by the appearance of the Australian cricketers. Last night famous Grassy and Ditton Paddock were the scene of brilliant assemblages of beauty and fashion. Cambridge is full for the Eights week and looking at her best. The fair sex - a mighty host - seem to be arrayed in their most killing attire. Almost everybody - who is anybody - seems to have got his people "up", and everybody's people appear resolutely determined to enjoy themselves - 1899 06 08

1901 On the occasion of the annual ball the precincts of picturesque Clare college were lavishly illuminated and decorated. The centre path of the court was covered in and carpeted; palms were placed in groups on the lawn and the whole court made brilliant with hundreds of fairy lamps and Chinese lanterns. Rows of fairy lamps along the river side gave the garden a particularly beautiful appearance. Dancing took place in the hall and the combination room. There were 21 dances on the programme and three supper dances. Supper was set in the reading room c01 06 14

1904 May Week described as "the brief week in which the permanent part of the population takes much coin of the realm from the floating part" (10.6.04)

1904 During 'May' Week the permanent part of the population takes much coin of the realm from the floating part but this year visitors seemed likely to be well down because of the weather. Then on Thursday sunbeams brought a large number of visitors bringing with them awe-inspiring loads of luggage. Airy dresses of muslin and chiffon and a boating excursion are inseparable to the feminine. They were very comfortable during the all-too-brief spell of sunshine but then the

ladies grew colder and colder until in desperation they gratefully accepted loans of jackets and even overcoats from their male escorts. Thus the racing was not as picturesque as it might have been. 1904 06 11

1904 Few realise the lavish expenditure on the May Balls held in Cambridge Corn Exchange. After the corn merchants have vacated the building on the Saturday evening a small army of workmen take possession. They labour until midnight when the advent of the Sabbath and the strict rules governing municipal buildings shut them out for 24 hours. With the first hour of Monday morning they re-enter and by eight that evening the place is transformed into an artistic ballroom through which not a vestige of the prosaic Corn Exchange is seen. What of the cost? There is not less than £2,000 worth of goods in the ball room; add to that the cost of utilising the Guildhall as a supper room and include the china and plates for the supper and you have a total of some thousands of pounds to provide our moneyed visitors with an evening's entertainment. CDN 2.7.1904

1906 "Cambridge surrenders to May Week" - it means increased profits for tradesmen [2.17]

1909 Record number of May Week visitors – 09 06 11

1910 George Fawcett Winter, the well-known boatbuilder, became the proprietor of the boatyard near Victoria Bridge in 1876, succeeding the late Edward Searle. Ten years later he was connected with the boat-building industry at Eton: he used to spend the summer there and the winter at Cambridge. In 1900 he decided to relinquish his Cambridge business which came into the hands of Mr F. Pocock who is now carrying it on. He was well-known amongst University and Town rowing men and took an interest in the affairs of Old Chesterton. 10 08 19h

1911 May week celebrations – 11 06 16e

1913 'If you want to spend a gay week, Come to Cambridge for the May Week, And we'll promise lots of merriment and fun'. Cambridge May Week is now in full swing. We have long ceased to wonder at the anomaly of a May Week which comes in June and lasts a fortnight. According to the 'Onlooker' it was in the year 1882 that the May Races, around which all the festivities have grown up, changed their date from May to June. But custom dies hard and people would be horrified if anyone were so bold as to suggest an alteration now 13 06 06 p7 CIP

1914 May Week will be remembered as the low-water mark in the long series of "Mays" Tradesmen unanimous that business has never been so dull. The gaiety and brightness has diminished and the number of visitors shows considerable decrease as compared with last year 14 06 19 CIPof

1919 May Week Revival,—Favoured with brilliant weather, without even the proverbial thunderstorm, May Week, revived in Cambridge this year with all its glory, has been one great success. The festivities have been very much as in pre-war days. There have been the usual brilliant and select functions, including balls, college Concerts, garden parties, etc. The revival has been welcomed by University and Town people alike but the number of visitors has not been as great as had been anticipated generally 19 06 11 [3.11]

1922 "May week" has reached its second phase and the gaiety of the "Boats" has given places to a wonderful round of college balls and concerts. The May Week Ball of the First and Third Trinity Boat Clubs was probably one of the largest affairs of the kind that has ever been held in Cambridge. Hitherto, owing to a lack of accommodation the numbers attending has had to be restricted to about 650. Mr D.G. Marshall of Jesus Lane, however, found a way out of the

difficulty with a somewhat novel scheme. A marquee 100 feet by 40 feet was erected on Market Hill facing the Guildhall and therein supper was laid. A delightfully cool effect was obtained by leaving open a part of the side of the tent nearest the fountain and having the fountain lit up with coloured electric lights in the background. Provision was made for some 1,100 guests and supper was served in three relays of 375 each, a special staff of chefs from the House of Commons was specially engaged for the occasion c22 06 12

1923 The opening days of the second week of the "Mays" celebrations are usually noted for the array of college balls and concerts, and this year is well in keeping with tradition. On Monday there were three of these functions, - Caius, Clare, and First and Third Trinity in addition to four concerts and a special dinner-dance at the Rendezvous, and in each case a success can be recorded. The weather had improved to such an extent that it allowed the usual outdoor part of the events to be carried out to the full, and ample sitting out accommodation provided in various courts and grounds. The largest function was at Trinity, where the attendance numbered something like 1,400 or 1,500. c23 06 10

1926 So far May Week has been a pale and melancholy ghost of its former self. What with the powerful counter-attraction of Ascot, the fact that a good many of the men have already "gone down", the restricted train service and the gloomy uncertainty of the weather, Cambridge is having a bad time just now and tradesmen, hotel and lodging-house keepers, boat-proprietors and others who look to May Week to bring a little much-needed grist to their mill have received a severe blow. Usually May Week comes before Ascot, and visitors to the Mays have been accustomed to go from Cambridge to Ascot. Now that Ascot is over there seems to be no reason which the process should not be reversed c26 06 25

1927 One of the largest crowds in memory witnessed the last of what may go down in history as the "Microphone Mays". Both banks of the Cam at Ditton presented the spectacle of an unbroken line of sightseers. There were three men up a tree at Ditton Paddock; they and their friend the microphone were telling all England what was happening and theirs was truly a romance of the tree tops. One wonders how many old Cambridge men were listening-in to a drama in which they once played a part. 27 06 13

1930 All records were broken at Trinity ball when 1,700 guests attended the most brilliant of the May Week functions. Many townspeople waited to see the guests arrive and crowds flocked to Garret Hostel Bridge to view the grounds in all their evening glory. Up to mid-day next morning occasional stragglers, heavy-eyed but cheerful could be seen walking driving about the town. One such pair were mutually photographed beside their car in Silver Street. Sports coats over white waistcoats were common and in one a dishevelled figure in a flannel dressing gown lolled at the wheel, like a character in a Edgar Wallace film. 30 06 17a

1933 Over 1,300 dancers disported themselves at the First and Third Trinity Boat Club's ball. As usual there were large crowds of spectators lining all the entrances and not a few on the river but great precautions had been taken to avoid gate crashing with two lots of 'sentries'. Inside the place was aglow with thousands of coloured lights while the dance tent itself, with its famous parquet floor, was electrically lit. From a dais in the centre the Embassy band played a sweet programme of dance music until the early hours of the morning. 33 06 13b

1935 May Week entered its ballroom phase with the twinkle of fairy lights and the dazzle of evening frocks. The biggest ball was that arranged by the First and Third Trinity Boat Club which was attended by 1,200 people. The flood-lit bridge stood out pearly white against the shadowy outlines of college buildings and hundreds of fairy lanterns made a necklace of living fire round

the lawns of the Backs while Chinese lanterns hung in the trees along with coloured light indicators which showed the number of the dance in progress. Here and there a brazier gleamed dully, spitting steam in protest against the rain which sought to dampen their fire. 35 06 18

1936 Burning the boat at Jesus College following success at Lent Race – photo – 36 02 24

1937 At King's college May ball over 400 guests assembled to dance and make merry. It was a pity the night was not warmer but even so quite a few ventured on the river or wandered into the darkness to admire the scene from afar. The chapel was floodlit – though not with that subtlety one might have desired – and the college hall presented a gala atmosphere, contrasting with its customary sombre appearance. There was dancing to novelties such as the 'Lambeth Walk', fox-trots like 'The Loveliness of You' and a Noel Coward waltz. 38 06 16

1939 The weather was unreasonably dull for the annual First and Third Trinity Boat Club's Ball. and rain meant that the delightful after-dance wandering over the grass was only indulged by the less cautious. Most welcome were the braziers delivering heat to shivering bodies. In the blue-and-white marquee Joe Loss and his dance orchestra reigned supreme playing the 'Eton Boating Song', 'Jeepers Creepers' and other dances. There were three suppers and the dance ended at 6 o'clock with a photograph. Amongst those present were M. Swithinbank, J.C. Balfour and the Earl of Euston. 39 06 13a

1947 The revival of May Week Balls in something of their full glory brings back to Cambridge something of the spirit of gaiety and colour which we knew before the war and which is now more than ever welcomed as much by townsfolk as by members of the University. The courts of Trinity presented a fairyland-like appearance with its lantern lit cloisters which were also decorated with palms. At Clare College the dining hall was used for dancing to the melodies of Tommy Kinsman's Band from London. Cyril Stapleton and his band provided the music for dancing at Downing College c47 06 10

1949 The May Balls have brought out a crop of new evening dresses. White, ideal for a summer dance was a favourite colour and diaphanous floating tulle tell to the fore as a material. I noticed several gaily striped or checked stiff taffetas, and a few with big flower patters, but plain colours predominated. Tiered skirts – three or even four of five tiers – are back. One or two of the ladies had fringed, silk shawls, draped over their shoulders and I noticed one carrying a pink feather fan c49 06 15

1950 In the sweet perfection of a fine tuned evening on the Backs, a record crowd listened to what is surely the loveliest of all events of May Week, the programme of madrigals sung by the Cambridge University Madrigal Society from punts moored beneath King's Bridge. An audience estimated at between 7,000 and 8,000, lined both sides of the bank as the oppressive heat of the day became tempered by the cool of evening. Even the loud moo of a cow in the paddock failed to break the spell, nor did the faintly-threatening note of a high-flying bomber, reminder of the sterner world out of which the magic of the setting and the sweetness of the singing lifted the listening thousands c50 06 08

1950 The dusk-to-daylight part of Cambridge May Week festival began last night. For seven or eight hours several of the colleges put on over their grey stone a party dress of coloured lights and other decorations to welcome dancers at their May Week balls. At Downing scintillating fountains spraying sparks, gorgeous aerial cascades of magnificent colour, night turned to day by brilliant rich light, the whole punctuated by an obbligate of crackles and bangs of varying volume made up the main framework of a memorable display. There were even "flying saucers" just to show that firework-makers move with the times c50 06 14

1961 The 'popsey expresses' are pulling into the station and the city is fast filling up with young girls, here to watch the eights chase each other along the Cam and to dance through a succession of May Balls. There are also 20 concerts, 10 theatrical productions apart from the Footlight's annual frolic and countless exhibitions. Once again Cambridge will take May Week in its stride. It has become used to seeing the revellers in full evening dress walking through the streets for a good day's sleep just as we are beginning another good day's work. 61 06 08a

1980 Cambridge May Balls are four nights of student-organised revelry which will delight some and disturb the sleep of others. This year the cost of a double ticket has peaked at £52.50 and some feel they will be pricing themselves out of existence. But the same was being said ten years ago when Jesus and Trinity were charging eleven guineas. Some tickets do go to outsiders, with adverts often placed in London papers, but the majority of ball-goers are still students. 80 06 09a

1986 A May Ball is the most glamorous, ritzy event of the year and undergraduates don't mind paying for it. The most expensive double ticket for Peterhouse costs 125 guineas but includes dinner and free champagne all night. Trinity charges diners a more affordable £90. But the Ball everyone wants to go to is at Clare College where £220 has been paid on the black market by a couple desperate to attend. Its serene setting with the riverside gardens makes it the most romantic and Germany's 'Stern' magazine is covering it. 86 05 28a

1986 St John's College May Ball once featured the Rolling Stones and the Beatles on the same night. This year they have booked Imagination and Ruby Turner together with the Coldstream Guards and rock group The Inspirational Choir. There will be free drinks and a buffet all night long although roast swan is no longer served. The 1,700 guests include 20 from the New York banking firm Goldmann Sachs and officers from the Sultanate of Oman will also be flying in. 86 05 28b

1986 Cambridge-based chart-toppers Katrina and the Waves will be the star attraction at Trinity College May Ball while Sandie Shaw will also be returning to the college where she sang before in the swinging Sixties. Jazz and steel bands – even Scottish pipers – will play till dawn. An all-night casino, laser displays and cabaret acts will also ensure there is no time to be bored. But King's College stopped holding May Balls in the sixties: students decided they were too expensive and not the sort of entertainment they wished to be associated with. They now hold June Events instead 86 05 28b

M.J.Petty. A Chronicle of Cambridge News 1888 -

Women's degree vote, Senate House 1897

74.03

c.36.98 : University - women

1873 The very first girl student to attend University lectures in Cambridge, Miss Dove, is going to be the first lady mayor in English history. She must not be confused with the common or garden suffragette. All her life she has been something of a pioneer. She was one of the little group of twelve ladies who enrolled at Miss Emily Davies' college, then carried on at Hitchin, and the very first to enter the new building at Girton where the students re-assembled in October 1873 CWN 08 10 30 p5

1890 Phillippa Fawcett placed above Senior Wrangler in part 1 Maths Tripos (appointed Principal Assistant London County Council Education Department in 1905) [4.2, 7.20]

1895 Training college for women teachers new building [13]

1897 University debate women's degrees; poll 1,707 to 661 against; exciting scenes at Senate House, bonfire Market Hill [1.8, 3.5, 8.10]

1897 While the members of the University Senate are engaged in a fierce contest to decide whether women shall be admitted to the titles of degrees, the undergraduates have given most

emphatic expressions to their opinion. A committee was formed and within six days over 2,100 signatures (the total number of undergraduates and Bachelors is only 2,840) have been sent to a memorial expressing the conviction that the giving of degrees to women would prove injurious to the position and efficiency of the University as a University for men c1897 05 05

1897 undergraduate carnival following decision not to allow women to take degrees [3.5]

1897 Last night a brilliant debate took place in the Debating Hall of the Cambridge University Union on the question of Women's Degrees. Mr T.F.R. McDonnell of St John's college said that one would suppose that as soon as the report had been passed a plague of women would descend upon Cambridge and infest everything. It was asked why women did not found a University of their own. A University was not built in a day and this would not prevent them from building one c1897 05 12

1897 After the Senate House scenes yesterday (when the University voted against degrees for women) there was a brief respite. It was the calm before the storm. About 7 o'clock there was a grand gathering of the clans. Undergraduates began trooping through the streets to what was obviously a pre-arranged rendezvous - the Market Hill. From the four corners of the square fire was opened upon everybody and everything within range. Bombs, hand-rockets, and every description of firework manufactured were flung haphazard into the crowd until the scene resembled nothing so much as the bombardment of a hostile camp. It is no exaggeration to say that hundreds of pounds worth of stuff were got rid of during the five hours the proceedings lasted c1897 05 21

1897 'The University of Cambridge' (the "Daily News" thinks) 'has not improved its reputation for sense and judgement by its votes (not to award women degrees). Not a single argument worthy of the name has been produced in favour of the decision'. 'Of the wisdom shown by the Cambridge Senate there can be but one opinion' (says the "Morning Post"). 'In rejecting by an overwhelming majority the Graces for giving Titles of Degrees to ladies they have done much to revive the reputation of their University for forethought and discretion' c1897 05 22

1907 Some disappointment has been occasioned by the moderate success of women mathematicians this year. Only ten sat for the Tripos and Miss Eva Smith of Newnham is the only wrangler. The highest position ever attained by a woman was in 1890 when Miss Fawcett, daughter of the former blind Postmaster-General, was placed above the Senior Wrangler – G.T. Bennett, Fellow of Emmanuel College. 07 06 11

1910 A party of five undergraduates attempted to repeat the 'Merry Widow' hoax at the New Theatre but were sadly unsuccessful. It is a well-known rule that undergraduates may not purchase boxes unless accompanied by ladies or some elderly chaperone. A box was ordered in the name of the Hon Miss Neville of Magdalene College, which aroused suspicion. The party comprised three undergraduates and two 'ladies' who were very tall, walked with mannish strides and spoke in a quaint high-pitched falsetto. Mr Redfarn did not take many seconds to spot the disguise. 10 03 11f

1913 Harrods are offering 12 positions to girls educated at Girton College, though they are not sure such a class of women are appropriate: "I cannot imagine the Girton girl selling woollens over the counter", a manager says. Their temperament is altogether unsuitable and they would find it difficult to adapt to the surroundings. The girls agree: their training fits them for professions. They could do no good in a shop and their knowledge would be wasted. They lead a healthy outdoor life and do not want to be boxed up with just a fortnight's holiday. 13 09 28 p6 CIP

1914 Miss Ethel Sargent, the well-known botanist of Girton College, enjoys the distinction of being the first woman to hold the office of President of any section of the British Association. But

she is refusing to pay the King's Taxes as a protest against being taxed without having a vote. Articles, including microscopic accessories and Zeiss lenses were seized and sold by auction on the Green at Girton. It is the third such sale since 1912 14 03 27b & c

1920 Women and degrees – syndicate appointed to consider whether they should be admitted to membership or how university could co-operate with the women's colleges, are unable to agree - CDN 20 05 12

1920 University reject admission of women by 192 votes - CDN 20 12 09

1921 Rags seemed to have reached climax after WWI, by 1920 "a new kind of misdirected energy, originality & daring is being poured into organising elaborate stunts, hoaxes & escapades; Michaelmas 1921 was great term for rags : Senate opened academic year by debating granting degrees for women; became political issue; first rag of burning gates of Newnham, then on voting day a colossal mock funeral for 'The death of the Varsity' with corpse of last male undergraduate being borne on a bier surrounded by aged mourners whose long grey beards dragged in dust;

1921 University votes against women's degrees; undergraduate mock funeral – photos – 21 10 26b

1922 There was issued yesterday the report of the Royal Commission on Oxford and Cambridge Universities. "We are unanimous in thinking" (says the Commissioners) "that ample facilities should be offered for the education of women. On the other hand we strongly desire that Cambridge should remain mainly and predominantly a men's university. To give a sense of security we consider that the number of women undergraduates should be 500, which would give a proportion of about one in each ten of the total number of undergraduates" c22 03 25

1927 Three well-known Cambridge sportsmen who have completed their academic careers distinguished themselves by spending part of the night in the grounds of one of the women's colleges and part in another. At midnight on Saturday they climbed into Newnham, taking with them a tent which they pitched in full view and were not discovered until they were all snug in "bed", when they commenced community singing. Newnham Dons became alarmed and phoned for the police, who turned them out. They then motored to Girton, scaled a twelve-foot wall and pitched the tent. They were not discovered until the early hours of the morning when the earliest risers amongst the lady students saw the strange sight in the middle of the court. c27 06 14

1929 Women students packed the gallery at the Cambridge Union Society when a motion supporting full University rights for women was carried. A sensation was caused before the debate when it was proposed that in view of the importance of the issue involved the gallery should be cleared but the President ruled that this would cause too much disturbance. Women students lived under a code of rules that could only be described as fatuous; one of the women's colleges allowed its students to go unchaperoned to King's Chapel, but to no other. Girton allowed them to go to the theatre 'provided the party was of reasonable size', whilst Newnham were permitted provided the party 'was not of unreasonable size' (laughter) CDN 27.11.1929

1936 The Cambridge University Mummies, who are still the only University Dramatic Society to admit women members equally with men in all their activities, are presenting 'Heartbreak House' by Bernard Shaw. In the cast there are four members of Newnham, the most prominent of whom is Miss Teresa Mayor. She will be supported by Beryl Eeman, Cecilia Hopkinson and

Deirdre Moore. The play will be produced by George Rylands who is well known for productions at the A.D.C. 36 02 06a

1939 Miss Dorothy Annie Elizabeth Garrod, of Newnham College, was elected the first woman professor at Cambridge University. Miss Garrod, who is an archaeologist of distinction, was educated at both Oxford and Cambridge, and succeeds Dr. E. H. Minns, of Pembroke College in the Disney Professorship of Archaeology 39 05 12 CIPof [1.1] 39 05 06

1947 The word "Placet" (Latin for "It pleases") said by the Senior and Junior Proctors in unison as they raised their caps concluded the less-than-a-minute-long part of the Congregation in Cambridge Senate House by which it was formally agreed that women should have full status within the University. A handful of women students, undergraduates and other visitors in the gallery heard the decision made. It is planned that the new regulations shall come into force at the beginning of the next academic year in October; they will come under Proctorial supervision and will wear academic dress - 47 12 08 [2.14,2.21,5.3, 8.24]

1948 The women students of Newnham and Girton will emerge in their New Look in the October term. The gowns which their full University status now entitles them to wear have now been designed, and are on sale at £3 3s. each, no coupons. They are identical with those of the men, except that they have closed sleeves instead of a slit at the opening. This is because it was felt it would be unsuitable to have bare arms showing in summer time, when the girls wear short sleeved dresses. As far as headwear is concerned stiff board was preferred to a soft cap, and squares have been decided upon. These are still in such short supply that most girls will, like the men, go bareheaded for the moment c48 05 04

1948 When the Queen stood before the Vice Chancellor in Cambridge Senate House today to receive the Honorary Degree of Doctor of Law she was not only a Queen receiving an Honour but also a symbol of the passing of a 700-years-old "tradition" in the university. For, during the whole of the University's history no Queen - and no other woman - has ever before had a degree conferred upon her, because until the recent changes in the statutes giving women full membership the conferring of such an honour was not possible. As the Queen entered the Senate House there was a burst of cheering and clapping. Her scarlet Doctor's robes and her black velvet doctor's cap, made a charming ensemble with the Cambridge blue shade of her dress c48 10 21

1948 It really was women's day at the university Senate House on Saturday. Following the Queen's visit last month came the first historic degree ceremony to include women graduates. Previously they had held only the title of their degrees but now a decree has been passed admitting them to full membership they can proceed in person to take them. 114 were conferred in all. The recipients included a number who had left the colleges many years ago - two from Girton had graduated in the 1890s. Side by side with them were young women who had graduated last year. All were enjoying the first fruits of a successful outcome of a struggle that had lasted 70 years c48 11 13

1948 Soon the sight of women students in their gowns and proceeding to degrees alongside the men, will become common place, and no one will give them a second thought. It is the "first time" however, which makes news and even the occasion of the first woman to be "progged" becomes a minor act of University history. Members of the colleges had awaited with interest to see on whom this "honour" would befall. Their curiosity was satisfied within three weeks of the beginning of term. The "honour" - said to have been coveted by a number of women students, who tried to attract the attention of the proctor - fell to a third-year anthropology student of Girton, Miss Valida Turner, who was fined for not wearing her gown after dark c48 11 18

1949 Training college for women teachers changes name to Hughes Hall after first principal as becomes recognised institution; had been founded 1885 in Newnham, expanded; new buildings 1895 [3.15,13]]

1952 Cambridge University is considering the possibility of increasing the number of women permitted to the University in any one year. The Council of Senate recommends there should be a new autonomous foundation for women students, the number not exceeding 100. They consider there is a great need for women graduates but any increase should not lead to a lowering of standards. Present regulations permit of 1,400 women, one-fifth of the total of men students. Cambridge is doing considerably less than other Universities in providing women with a University education. c52 06 14

1954 New Hall opens as 3rd foundation for women [2.14,8.6]

1957 Is a university education wasted on a woman? Many people are convinced that for a girl to have a long and expensive education, only to get married at the end, is a waste of time and money. Now Cambridge graduate, Judith Hubback, has interviewed married university women for a book 'Wives who went to college'. It is impossible to forecast who will marry and who will not: if a woman never marries she will have to compete with men in her profession, but if she has a family she will need education of other skills. 57 10 16

1959 A 21-year-old blonde sat down with 200 students in the dining room of Christ's College – and went completely unnoticed. That was not surprising because she was dressed in a grey suit, bright yellow waistcoat and wore thick glasses and a black beard! Elizabeth Grant, a third year medical student had decided to avenge the fair sex for a hoax played on Girton students last week. College regulations allow students to bring in their (male) friends but women are banned. Everything went off beautifully. She kept her voice down during the meal and although second glances were cast by some, nobody said anything. 59 10 19d

1961 A team from Pan American Airways visited Cambridge speaking to applicants from the girls' colleges to fill their quota for air stewardesses, one of the most glamorous carers in the 20th-century.. One said "We thought we might get a nice type of girl from the University – the sort who, once she has got her degree, would like to spend a year or 18 months flying with us. By the time they're 23 they want to marry; you can't blame them really". The firm were quite reconciled to it and it kept their service fresh and active. In spite of the attractive prospects there were very few applicants for interview from Girton or Newnham students 61 02 20

1961 Women undergraduates are rather spoiled, with ten men to each girl, and marry at a younger age so Newnham has problems finding College Fellows, the Principal complained. Sometimes girls staying in Cambridge after their marriage could continue their work but often it meant recruiting Dons from outside. This brought other problems as Newnham could not afford to pay a good income meaning many candidates were unable to take up the appointment 61 03 21

1961 Women undergraduates should stop trying to be competitive with the men and become complementary to them instead. There should be optional University classes in cookery, needlework and floral arrangements for the benefit of women, a Girton undergraduate writes in the 'Cambridge Review'. But two Newnham students are indignant that anyone should suppose they are not already proficient in domestic matters when they came up to Cambridge and deny women have no recreation other than working or taking tea 61 05 04

1961 A 20-year old law student at New Hall was carried unconscious from the Cambridge Union Society debating chamber. She was one of three girls who fought their way in as a protest against 'a niggling absurd and out-of-date rule' which forbids women as debating members. As

the guest speakers, Peter Thorneycroft, the Minister of Aviation and Labour MP Richard Crossman looked on, the debate was adjourned. In the scuffles that followed the girl fainted. She was taken to Addenbrooke's Hospital. The debate then continued. 61 10 18a

1962 Union Society women may now speak [26.8]

1963 History was made when Janet Hogg, a 321-year-old New Hall undergraduate, became the first woman member of the University Union Society since its formation in 1815. Two Girton women became the first to take part in a debate on the motion "Till death do us part is ridiculous". The motion was rejected. To return home to a wife and family after a day of fighting for his existence was one of the most pleasant and happy things that could happen to a man. 63 11 05, 13a first Janet Hogg [7.16]

1965 Lucy Cavendish college, Britain's 1st graduate college for women to be all-woman college helping those whose careers interrupted : one of a number of 'recognised collegiate societies' rising in Cambridge to meet need of the growing numbers of University officers and active senior members without fellowship and the increasing number of research students, are experimental & University reserves right to withdraw recognition of any that fails; others are Darwin college for men founded by Trinity, St John's & Caius & University College founded by the University for men & women[1.16,7.19.14]

1965 New Hall new college buildings opened Queen Mother [8.8]

1965 strict male-female segregation rule scrapped by Queens college which makes way for new foundation taking both sexes [15.9]

1966 Union Society favour mixed colleges

1967 Union Society first woman president Anne Mallelieu [26.10]

1969 Churchill announce plans to admit women in 1972 - first co-ed move in Cambridge undergraduate college in 700 years [5.9]

1969 Girton celebrate centenary [6.7]

1969 Hughes Hall becomes approved society [7.1]

1969 King's College to become second to admit women – 69 05 28

1969 Prince Charles crowns Rag Queen- 69 02 08b, 69 02 15a

1970 Clare College consider admitting women [5.8]

1971 Clare College to offer places to 36 girl undergraduates – 71 12 17

1972 Clare, Kings & Churchill become mixed [5.9]

1973 1200 march try admit more women & abandon single-sex colleges - oppose attempts to get special Oxbridge legislation in Equal opportunities Bill [24.6]

1973 The Master of St Catharine's college, Professor Edwin Rich, was involved in a scuffle with women's lib demonstrators last night when 30 of them interrupted the Cambridge college's dinner. College Fellows left the high table and with waiters rushed to the 69-year-old Master's assistance when women demonstrators began struggling with him after he had grabbed a bugle which one woman attempted to blow in his face. The demonstration was aimed at drawing attention to the lack of places for women in Cambridge University. The trouble started immediately after grace had been said and halted waiters in their tracks leaving them poised with

trays of grapefruit. The demonstrators - all women - swept into the hall led by a bugler and carrying an assortment of placards on the theme "Sexism – out c73 03 05

1973 After 700 years of male domination the first woman to be chosen as Vice Chancellor - the effective head of Cambridge University - does not anticipate any particular problems in dealing with her male colleagues. Miss Rosemary Murray, who is president of New Hall, was nominated by the Council of Senate. She will take up her post in two years if the nomination is accepted by the university, usually a formality. She is due to take charge at a difficult time in the university's history, when students are demanding more and more say in the running of its affairs c73 05 25

1974 Trinity Hall to admit women [10.6]

1975 Trinity to take women from Oct 76 - graduates & Oct 78 - undergrads [10.1]

1975 Dame Rosemary Murray first women Vice Chancellor [5.10]

1975 Cambridge's largest all-male college, Trinity is to admit women. Graduate women students will be admitted from October 1976 and undergraduate women from October 1978. The college decision puts Trinity fourth in line amongst previous all-male colleges who are now planning to open their door both to women dons and students. In 1976 Sidney Sussex and Selwyn colleges will become co-educational, followed in 1977 by Trinity Hall c75 05 30

1975 The number of women seeking Cambridge University places has remained virtually unchanged despite the opening of three previously all-male colleges to girl applicants. At present, with three women's and three mixed colleges about 500 women a year are being admitted. By 1978 four more colleges will have become mixed, bringing the expected number to 650 women. Miss Sheila Edmonds, Vice-Principal of Newnham College said while some well-qualified candidates still do not secure a Cambridge place, this would not be true if the total admission were 650, instead of 500 c75 11 21

1976 Selwyn start to take women [9.9]

1978 Girton College admits men

1979 Dr Marie Axtom first woman Proctor [5.11];

1979 6 more colleges take women [16.7]

1980 An exclusive university dining club may open its doors to the public. The Pitt Club is a miniature men-only London club where prospective members are vetted carefully and anyone without a public school education is likely to be black-balled. It also houses the Hawks Club for university sporting Blues. But it is no longer making money and is looking for tenants to share the former Turkish bath house in Jesus Lane. Strudels, one of the restaurants in the Kite facing eviction, is amongst a number to express an interest. 80 11 08

1981 Corpus admit women [6.2]

1981 A Cambridge student has set up a computer dating service for lonely hearts in the university. For just 50p the unattached undergraduate is promised an introduction to the partner of his dreams. Confidential questionnaires drawn up by a student of experimental psychology were sent out and the results loaded on a computer. It matches them up to produce ideal partners and bliss ensues. It is hoped the first couples will be paired off by St Valentine's Day 81 01 28

1982 St Johns to take women from October [9.7]

1983 Peterhouse to admit women in 1985 [8.12]

1985 Peterhouse admits women

1985 Hughes Hall centenary - set up 1885 to train women to teach in secondary schools [7.2]

1986 Magdalene, the one college in the Oxbridge system where a chap could count on being in the exclusive company of other chaps, is set to go co-educational. The governing body has voted to overturn 444 years of historical precedent and amend the statutes. The news was greeted with glum resignation by some of the present undergraduates. That other bastion of entrenched traditionalism, Peterhouse, finally said yes to women students last year, a trend that started in 1972 when Churchill, Clare and King's went mixed. 86 10 1 [8.5]

1988 Magdalene is the only college in Cambridge to host candle-lit dinners in the grand hall every night of the week. But other traditional values are changing. The decision to admit women dons and undergraduates has prompted refurbishment of the college's Spartan amenities, bringing in floral curtains and pastel pink wallpaper to the rooms of even the hardest rugby players. Today much of the opposition to the decision has subsided, although the 'Black October' dining society still celebrates the masculine virtues of single-sex colleges. Whether the college's character can survive this quantum leap into the present remains to be seen 88 05 20b

1988 The trend towards admitting female undergraduates began in 1972 when Churchill, Clare and King's Colleges went mixed. Two of the first girls were from Cambridge schools. By June 1982 when Pembroke 'fell' there were only two colleges left as all-male preserves, then Peterhouse reluctantly bowed to pressure. But when Magdalene's governing body overturned 444 years of historical precedent by voting to let in women an indignant porter flew a black flag at half mast and undergraduates sported black armbands. Three of the original four women's colleges are still single sex, though Girton admitted men in 1977. 88 05 20c

1988 Thirty-six women undergraduates arrived at Magdalene College amid a blaze of publicity breaking 444 years of history as a male-only college, the last in Cambridge. They had been warned about the dreaded Black October dining society whose members donned funereal armbands when it was announced that the college was to 'fall', and expected a lukewarm welcome. Surprisingly the reverse is true. One said "I think some of the men were frightened that the girls were going to be extremely militant or feminist. But they seem quite pleased and say it is a lot more social" 88 10 12

St Barnabas Institute opening (illus), 1897 11 02 p3 CDN

1898 The Cambridge YWCA, having found its old quarters growing too small and inadequate to its requirements has obtained Geneva House, Regent Street, and there established its headquarters. Yesterday a meeting was convened at which the Vice Chancellor of the university presided and spoke. He said that the new premises were in every way more suited to the needs of the Association. In their new house the windows of the back rooms, which he fancied would be those most used by the young women, overlooked his garden, and he was unable to disabuse himself of an idea they would keep an eye on him. The Master of Trinity then rose. He said he had known nothing of the removal, and had been ignorant of the nature of the gathering he was to address. He did not like to trust his eyes, which were not of the best. He had never in all his experience known an educational establishment change its quarters without bettering itself
CDN 1898 06 03

1904 The Cambridge Female Refuse is sorely in need of increased support for their accounts show a deficit of over £250. The amount realised by laundry work during the last six weeks was very much higher than for a considerable time past but they could not rely on a continuance of a large amount of washing and must get more subscribers. During the year nine girls had been admitted to the Home and eight sent out to service after the completion of their training. But for the first time in many years there were four cases to record of probable failure. 1904 11 23

1906 One of the most important activities of Friendly Societies is the provision of skilled medical advice in time of sickness. Cambridge Medical Association was formed in 1883 with a membership of 1,740 and one medical officer. It now serves 7,350 and has engaged two and sometimes three. It is important to keep good doctors: you must treat them as gentlemen and their services should be made as pleasant as possible 06 04 16a

1907 Temperance Societies have every reason to rejoice: the Cambridge of today is far more sober than 50 years ago and far less money is now spent on intoxicants. The first society was the Independent Order of Rechabites in 1841 but this closed after the 'Illegal Assemblies' Act. It was revived in 1905. Now 3,300 adults and children pledged to total abstinence paraded on Parker's Piece. 07 10 15

Franklin when Cambridge Rotarians assembled at the Dorothy Café to hear an address from the founder of Rotary, Mr Paul Harris. Mr Galloway said they were content to assist in the cultivation of this great movement and offered its founder their most grateful and affectionate tribute. 32 08 12d & e

1934 Youth Hostel group formed [1.4]

1934 The Cambridge Social Club, all that survived of the old Liberal Club in Downing Street, has been wound up. It moved to Market Passage and for the last five years old party labels have gone by the board. Each year it has been difficult making ends meet but happily the club finished up free from debt. The Ranjitsinhji Billiards Bowl has been offered to the Central Conservative Club and the portrait of its donor to the Hobbs' Pavilion. 34 11 03a [2.1]

1936 New Chesterton Institute organised grand social at the Dorothy Café to celebrate their Golden Jubilee. The whole of the Dorothy had been booked for the occasion but even then the number had to be limited to 800 and several hundred were disappointed. There was dancing to Reg Cottage's band, a progressive whist drive and a concert in the Oak Room. Miss Queenie Chapman's pupils gave an excellent dancing display and Pat Peddle and Joan Metcalfe produced a version of 'Top Hat'. Suppers were served through the evening when a gramophone provided appropriate music. Many tired people were very glad of buses to various parts of the town. 36 01 10a

1936 There was a need for providing a community welfare centre for the housing estates on the outskirts of Cambridge where a large proportion of the houses were occupied by youngish married couples with growing children. Chesterton is like a new town, the people are isolated, lonely, vague and have no centre. Youngsters wandered aimlessly about with nothing to do and nowhere to go. They need a building for public meetings, concerts, dances, films and medical inspections. But it would not be suitable as a library and a site in Ascham Road would offer quietness and room for any necessary growth, councillors were told. 36 01 31 & a

1952 Townswomens Guild doubles membership in first year [2.8]

1953 Cambridge United Nations Association branch is largest with 1,000 members [2.9]

1955 University Assistants club opens [2.10]

1955 One of the finest clubrooms for civil servants opened next door to the bowling green in Brooklands Avenue, Cambridge. It is within easy reach of the officer and membership is one-

penny a week. It would enhance the civil service's reputation for high standards of integrity and once members entered they should completely forget about rank. 55 09 06

1955 The idea of a recreational club and canteen for University Assistants was first suggested in 1946 and eventually a 'disreputable warehouse' was acquired in Mill Lane. It has now been transformed into a magnificent club that was officially opened by the Vice Chancellor. It will be managed by the Assistants themselves; they have called innumerable meetings choosing decorations, furniture and china and also acquired a piano and a radiogram 55 09 30b & c

1960s *The Cambridgeshire Collection has detailed newspaper cuttings files from this date*

1960

Since the opening of the New Chesterton Institute in 1885 members have not been able to obtain any alcoholic drinks in the club. But now it has opened a bar in an effort to increase the dwindling membership. One of the first to patronise it was 89-year-old Sam Gawthrop, who has been a member of the club for 72 years. His drink was a non-alcoholic ginger-ale. "I don't touch much of the stuff now, I am too old for that lark", he said. 60 10 21b

1964 Cambridge Library maintains lists of local societies. Some have grown up out of the trials of war including the Dunkirk 1940 Veterans Association, Lifeline, which aids displaced persons and the Association of Nazi Camp Survivors. Lesser-known organisations include the Tibet Society, an association of Ukrainians and the British Association of the Experiment in International Living. Then there is the Reindeer Council, the Saltire Society, a Science Fiction group and the Stephenson Locomotive Society. 64 10 16c

1964 Cambridge Central Aid Society say problems have increased in complexity. Some young married couples get into difficulties when they take furnished rooms beyond their means. When they eventually get a council house they have to continue paying in lieu of notice as well as having the cost of moving and buying furniture. One of their happier tasks is to arrange and finance holidays for some overburdened person worn down by ill-health or anxiety – 64 10 28a

1964 Cherry Trees, a club for the elderly, has opened in new buildings in St Matthew's Street which have been donated by Miss Evelyn Boake. It will be run by the W.V.S. on similar lines to their successful Hill Top Club on Castle Hill. The main room with a lounge opens out to a sun terrace. The décor is rich and colourful with easy chairs in orange blue, green and red. Coffees and lunches will be served each weekday to men and women of pensionable age who are not in full employment. At present the main problem is obtaining sufficient volunteers to help serve. 64 11 18

1967 Cheshunt College bought by Freemasons – 67 07 27

1980 The Rathmore Club was founded 63 years ago as Cherry Hinton Liberal Club but with the changing political climate became a social club about 20 years ago. Now the general financial situation, falling membership – they have only 350 members - and reduced bar sales means it may cease to operate at the end of the month. 80 09 24a

1982 The 100-year-old Beaconsfield Club was closed following complaints of loud music and rowdiness by members leaving the premises in Gwydir Street and problems with skinheads. Neighbours claimed there was disorderly behaviour, vomit in the streets and fighting. The management said there had been a purge and it was now run in a proper manner. Local residents had changed over the years from working class to professional people who were trying to force the club to close. 82 10 28

1984 The Cambridge Working Men's Club was inaugurated in 1863 when a hall was erected where members would be provided with coffee, books, newspapers and 'quiet and proper amusements'. The original building was demolished to make way for the Grafton Centre but the newly-opened replacement is a great improvement with a dance floor, pool and billiard rooms. It holds regular monthly socials with bingo on Fridays and Saturdays and a children's Christmas party in January 84 12 13a

1985 The New Chesterton Institute was founded 100 years ago to promote the moral, mental and physical well-being of its members. Today with 1,100 members the NCI Sports and Social Club is still going strong. Meetings were originally held in the Coffee House, Searle Street until the present building was erected in 1891. In the early days it was famous as a debating society. Now it is known more for its sporting achievements and even has a crib team. 95 08 07a

c.37.9 : youth groups

1902 The members of the Cambridge Y.M.C.A. celebrated their jubilee with a soiree in their rooms in Alexandra Street. 50 years ago the Church of England Young Men's Society and the Sunday School Teachers' Institute amalgamated, forming the Association. It settled in Rose Crescent. In 1853 it moved to larger premises at 5, Sidney Street, moving to Hobson Place in 1858 and then St Edward's Passage. In 1870 the first stone was laid of their present building; it was completed a year later. To call the soiree a success is scarcely adequate; the visitors never had a dull moment from the time they entered the door until the National Anthem brought the evening to a close CDN 1902 10 24

1905 The Cambridge "Girl's Realm" Guild was founded in connection with the "Girl's Realm Magazine" and members do all they can for the sick by sending toys, picture-books and garments for distribution among the poor. Any boy can become a 'squire' at a subscription of one shilling. A Factory Girls Home has been built in Kennington Road, London to assist tired work-girls who would not otherwise gain relief from the year's toil 05 12 02a

1906 One of the most worthy objects of the Rev T.W. Woods of St Barnabas Parish is for a drill hall, gymnasium and rooms for young men and boys to be erected on a piece of ground at the bottom of Covent Garden. Tenders have been opened from local builders and that of Messrs Willmott and Sons, for £1,045 was agreed. Mr Reginald Tollitt is the architect. 06 06 21

1908 Lieut.-General R.S. Baden-Powell, the famous defender of Mafeking, propounded his 'fad' – peace scouting for boys as a means of instruction in good citizenship – before a large audience at the Perse School Hall. The Vice Chancellor gave apologies from the Bishop of Ely and various college Masters, all of whom were most heartily in sympathy with the objects of the meeting. 08 02 22

1908 Following Lieut.-General Baden-Powell's recent visit, a meeting was held to consider forming a branch of the scheme of boy-scouts, perhaps as a development of the present Boys' Brigade. But Capt Norton-Fagge thought there were a large number of boys not eligible for the Boys' or Church Lads' Brigades who would be just the lads for this scheme. A number of men might take three boys each and teach them a few of the elementary principles. 08 03 06c

1908 In the St Matthew's area of Cambridge are many public houses and the poverty of small homes threw the young people into the streets in search of amusement. There were thirteen different buildings in which social evenings and gymnastic clubs were continually held throughout the week., but some young men find infinitely more pleasure in racing through the streets and hooliganism. A boys' club at the Barnwell Theatre Mission or the Coffee Tavern on Newmarket Road would be worth trying. 08 03 12b & c

1910 Owing to the rapid increase of the Boy Scout movement in Cambridge a meeting was held at the Perse School to inaugurate a Boy Scouts Association. It will nominate suitable persons to act as scoutmasters, register troops and patrols, encourage the movement and work in co-operation with other boys' organisations. The Chief Scout, Sir Robert Baden-Powell will be invited to inspect the Cambridge scouts in the autumn. 10 06 10

1911 1st Girl Guide company formed [Misc.2.2]

1911 Boy Scouts rally, Baden-Powell inspects [Misc.4.5, 1.2]

1911 Sir Robert Baden-Powell is to inspect Cambridge boy scouts in May when troops will give demonstrations of their work. Cambridgeshire is a county in which the movement has made little progress and it is hoped his visit will arouse greater enthusiasm. A prize of a regulation B flat bugle will be awarded to the best patrol raised in a new centre. There are already twelve troops in Cambridge, which is now one of the best organised scout centres in the kingdom but more men are needed to volunteer as scoutmasters 11 02 17a

1911 Histon Troop of Peace Scouts was inspected by Sir Francis Vane, President of the British Boy Scouts who said the Histon Troop was not only the First of All in England, but the First of All in the world (great applause). War is an awful thing and the Peace Scouts were an order whose role was to rescue and save, not destroy. Their ambulance work was performed with enthusiasm, the Morse signalling was good and the Swedish drill excellent. But they should be given training in Fire Brigade work so they could assist in passing buckets of water in an emergency. 11 03 24e

1911 Sir Robert Baden-Powell inspected 500 Boy Scouts at a grand rally in Grange Road. The assembly was one of the most remarkable that has ever taken place in Cambridge, certainly nothing like it has ever been seen in the locality before. 'B.P.' has set in motion a mighty engine. Like an electric train it has gathered way with amazing swiftness and desolate is the place that has not heard the call of the Boy Scout engaged in an errand such seeking some lost child or succouring someone in danger or distress. 11 05 26b-e

1911 A terrible shock has been dealt to scouts in Cambridge by the death of Scoutmaster William Wright, a second year undergraduate of Queens' College. Joining when he first came to Cambridge he worked with Scoutmaster Spiller of the 7th and Scoutmaster Curzon of the 1st and had already attained the 24 highest honours badges which secured him the title of 'Silver Wolf'. To him is due the success of the Cambridge Rally when Baden-Powell reviewed 500 scouts. At his home at Duffield he had a troop of his own including a patrol of fellows over 18 years of age. 11 09 29

1911 The Cambridge Chapter of the Order of World Scouts was inaugurated in St Giles church. It is intended to bind Scoutmasters and officers more closely together in their great work and ensure good men for the positions. Every member swears solemnly to obey the Scout Law. The Histon Troop of the British Boy Scouts was present as were a patrol of the Cambridge B-P Scouts. The order was inaugurated in the Chapel Royal Savoy by the Grand Scoutmaster, Sir Francis Vane when the Cambridge British Boy Scouts were represented. 11 12 08

1912 About 150 Boy Scouts took part in a convoy scheme at Histon. The idea was that a Blue Force, about 40 in number, was besieged in Histon village by a Red Force of over 60 Scouts, while a Blue relief column from Cambridge, some 40 strong, divided into two parts, each with a trek-cart, endeavoured to relieve them. The relief party, under Scoutmaster Curzon, advanced via Milton but met with serious opposition at Impington. A detachment of the Red Force was sent to hold the level crossing on the Histon-Girton Road but was ambushed. After the 'Cease Fire' the scouts had tea at Histon Institute 12 02 23h

1912 Romsey Town children had been in court charged with playing in Ross Street or St Philip's Road to the annoyance of the householders. Efforts had been made for 14 years to secure a public recreation ground; now land between the Council School and Mill Road is advertised for sale. It represents one of the last chances to secure an open space. The children of Romsey Town are on the whole healthy and strong and should have an opportunity of breathing fresh air on this open space, a meeting was told. 12 04 26c

1912 Two Cambridge 13-year-old boys were summonsed after P.C. Moss saw them with pistols in Fen Ditton Lane. The boys, who were in Scouts' uniform, said they'd gone there to try them and did not know they were doing wrong. The guns contained loaded cartridges which they'd bought at a shop in Sussex Street. The magistrates said he would write to the Scoutmaster. The Scouts' movement was a good one and it was bad for the corps that they should do this in uniform. The pistols were forfeited. 12 05 03b

1912 Boy Scout annual church parade – 12 05 17e

1912 The need of a better playground for the children of St Giles' Infants School has long been felt and no real surprise was occasioned when the Board of Education insisted the youngsters cease to play in the ill-adapted yard adjoining the school and that a new ground should be provided. A piece of ground was purchased and made into an excellent playground, part of it being converted into a grass plot. It was officially opened by Lady Albinia Donaldson when the opportunity was also taken to celebrate Empire Day. 12 05 31e

1912 Mr I.G. Elworthy told a meeting at Morley School that he had been one of the first members of Cherry Hinton parish council in 1894. When he first came there were only 50 houses but the district had developed enormously and the need for a recreation ground was very urgent. With the enormous increase of motor traffic it became more and more dangerous for children to play in the streets. The Council should purchase a site between Cherry Hinton Road and Mill Road and in the meantime the Cattle Market field should be laid out as a temporary playground. It could be planted with trees like Christ's Pieces and would preserve the beauty of the district 12 06 07d & e

1913 scouts : 400 at rally, Downing College [1.3]

1913 Cambridge Sea scouts opened their new riverside headquarters at Pocock's Boatyard. It consists of two capital rooms like cabins on board ship, one fitted up as a workshop, the other containing various games. They also launched their new boat, named The Albert, built of pine and elm with six oars and a mast, capable of carrying 10 boys. 13 06 06 p10 CIP

1913 The Romsey Town holiday play centres organised by the National Union of Women Workers have met with great approval. The centre for girls and infants is the Cambridge United Football Ground. It is a pretty sight to enter the spacious well-shaded field and see the children all at their happy occupations, crayoning, building castles out of bricks or tugging toy engines about.

On the grandstand children dress dolls or knit while in a shady spot there are swings. Games such as cricket, shuttlecock and the maypole have been arranged. 13 08 15 p12 CIP

1913 Romsey town play centre was the first time an effort has been made to provide organised games for elementary school children during the summer vacation and had more than justified itself with over 9,000 youngsters at various times. Romsey was essentially a working class district where children are unable to spend a week by the sea. Two centres had been opened, the girls using Cambridge United Football Club's ground, the boys on a field near the allotment. It was much better than street games which are dangerous because of motor cars and the youngsters were not running wild about the streets. 13 08 29 p6 CIP

1914 Cambridge scouts guard telephone exchange - 14 08 14 p2

1914 When the war began Cambridge Scouts were anxious to help and a committee was formed. Requests came from every quarter. For the first fortnight Scout patrols, aided by members of the C.U.O.T.C., guarded by day and night the important telegraph wires on the Newmarket to London road. Some were sent to Ramsgate and Sandwich to do coastguard work until replaced by military authorities. Others assisted in the recreation and refreshment tents for the military camps on Midsummer Common, Coldham's Common, Coe Fen, Parker's Piece, Huntingdon Road and Stourbridge Common. They have provided a secretary and bugler for Major Comber at Pembroke College and at Corpus the Board of Military Studies has used them as messengers. They have collected large quantities of magazines and papers for the military hospitals at the Leys School and Trinity College. Now they are returning to school 14 09 11

1915

The YMCA is doing invaluable service to troops. Their headquarters in Alexandra Street is crowded with soldiers and 'ping-pong' or billiards is popular. In the basement a lady was giving a French lesson. Troops who prefer a book and cosy chair appreciate the reading room or write letters. Two centres are managed entirely by students while at the Cherryhinton Hut Barracks a large hut has been erected. This is currently open to soldiers only because of the illness prevalent at the camp. At Hartington Grove a house has been furnished with tables and chairs, Tracy Hall in Romsey Town is also popular and 80 men visit Emmanuel Church Hall nightly where concerts are promoted with soldiers as artistes. 15 02 19

1917 1st Cambridge Brownies believed be oldest Brownie pack in world, 1st meeting 3.1.1917 [Misc.2.2]

1917 Chief Scout at Rally. — Although some disappointment was felt at the non-appearance at the appointed time of General Baden-Powell, the Chief Scout, the rally of Cambridge, Newmarket and Ely Boy Scouts on Sheep's Green, Cambridge last Wednesday was carried through with great success. "The Chief," after being delayed several hours through an air raid over London, turned up later in the afternoon, accompanied by the Member for the Borough (Mr. Almeric Paget 17 06 20 CIPof 17 06 20a; pictures 20c

1919 Girl Guides inspected - the rally of the Cambridge and District Girl Guides in the grounds of Homerton College (Cambridge) and the inspection by Lady Baden-Powell, proved a highly attractive and successful venture. 1922 The Chief Scout, Lieut.-General Sir R.S.S. Baden-Powell is on a visit to Cambridge and yesterday witnessed a Scout rally by the Cambridge & District Boys Scouts in Queens' College Grove. On entering the Grove the Chief was surrounded by Scouts, who had been in ambush. They cried his Zulu name as they gathered around him and then sang him a chorus of welcome called "Ingonyama". Translated the words sung mean "He is a lion. He is a lion. He is greater than a lion. He is an hippopotamus c22 06 27

1922 Councillors and representatives of Boys' Clubs met to discuss the possibility of providing recreation, together with some useful occupation for the ninety odd lads between the ages of 14 and 19 who are now unemployed in Cambridge. A large number of these boys were running the streets and probably deteriorating through idleness and lack of discipline. The Council had tried an experiment in the form of a gymnasium, but it fell through. The boys were at a very critical stage of growth, and it was dangerous for them to be going about the streets with nowhere to go. At home they were not wanted. They were getting in a very dangerous frame of mind, for they felt they were inferior to others c22 12 09

1924 Two hundred children are in attendance four nights per week at the play centres at Barnwell Abbey and New Street schools. There the number attending exceed the accommodation and the staff, one woman had 98 children to look after & voluntary help was continually breaking down. Alderman Starr asked if they were taking children from parents who wanted to go to the pictures. The centres were established some years ago under voluntary control, the Education committee providing accommodation, light and heat c24 10 07

1926 Cambridge councillors heard that in 1912 a piece of land in Shelley Row, together with the house adjoining was given anonymously to the Corporation as a perpetual playground to the children of Castle End. It was assumed that the rent of the house would be available for the upkeep and improvement of the playground. £80 would be required to make a really satisfactory playground; it was resolved to spend £20 on putting the ground in order c26 06 04

1926 The old Albert Institute, Grafton Street, Cambridge was the scene of great enthusiasm on the opening of new headquarters for the Cambridge Boy Scouts' Association which will supply a much-felt want. Afterwards the presentation of medals for athletics and swimming took place. An enjoyable sing-song followed and then a meeting of leaders who discussed the uses to which the headquarters could be put. Meanwhile refreshments were served to allay the pangs of hunger caused by such enthusiasm. Lantern slides on India and China were shown by Assistant Commissioner W.B. Gourlay and the evening closed with everybody in the best of spirits c26 10 19

1928 Over 1,000 Scouts raised their voices in a Zulu chorus when their Chief, Sir Robert Baden-Powell attended their mammoth rally at Cambridge Guildhall. They packed the hall nearly to the point of solidity including Sea Scouts and University Rovers and some 600 Wolf Cubs. The Chief Scout was accompanied by Dr Eastman, the Great Chief of the Sioux Indians, who is commissioner of the Scouts of America. He wore complete Redskin garb with the traditional head-dress of eagles' feathers. The scouts were very interested in his tomahawk. c28 03 13 [1.10]

1931 Christmas Day festivities at the Home of Mercy in Christchurch Street, Cambridge were spent in the usual manner. The chapel was decorated with lilies and carnations presented by two of the married girls as a mark of appreciation. Everyone attended Christ Church at 7 and 11 am and then enjoyed a bountiful dinner. Each girl found in her pudding a piece of money which is to

be presented to Addenbrooke's Hospital building fund. Evensong was sung in chapel after which a pantomime (on the wireless) was enjoyed until the day came to a close at 9.30. 31 01 02e

1931 Scouters and Rovers mingled with grave dons in academic dress at the Senate House when a degree of Doctor of Laws honoris causa was conferred upon Lord Baden-Powell. The Chief Scout wore his accustomed uniform with his scarlet doctor's robe above it. The Public Orator said his soldiership in Mafeking made him so famous and popular that the boys of Britain chose him as their exemplar in many virtues and patriotism. 31 11 13f g h [1.5, 1.11]

1931 Baden Powell message scouts – 31 11 13g & photos of his degree – 31 11 13h

1932 Cambridge Young Men's Christian Association cancelled the letting of their hall to an exhibition on education in Soviet Russia. Amongst the exhibits were anti-religious posters which upset several prominent clergymen who wrote to the News protesting. 1932 The greatest Guide camp Cambridgeshire has ever known is taking place in Chippenham Park to commemorate the 21st anniversary of the movement. As I motored round the camp we saw on all sides healthy, merry, laughing girls, filled with the zest that only life in the glorious open can give. A clump of huge beeches is the site of a huge camp fire where every one of the 600 Guiders gather round the blazing logs to sing and yarn, the night sky overhead and the smell of wood smoke in their nostrils. Then are friendships made. 32 08 12f & g

1935 The new West Chesterton children's playground off Histon Road was opened by the Mayor and hundreds of youngsters thronged the ground for the occasion. Since it was bought as an orchard three years ago an immense amount of work had been necessary. It was not complete and they were hoping for swings and perhaps a roundabout later. It is primarily intended for younger children and not for the playing of hard-ball games such as cricket but old and middle-aged people could also enjoy the ground for sitting about. 35 05 11b

1945 New YMCA for East Barnwell opened – CDN 1945 10 03

1947 Twelve months ago, when landing craft were offered for sale to the public, the 12th Cambridge Scout Group bought one, and under the direction of their Scoutmaster, Mr W.A. Mackrow, they set to work with a will to convert it for troop use. On Saturday the result of their hard work and skill - a trim looking and extremely comfortable seaworthy craft was named the "Adventurer". Founder of the troop in 1911, its first Scoutmaster - and a staunch supporter ever since - Mr J. Murrish performed the ceremony, which took place at Peterhouse boat yard. In just under twelve months the group have transformed the hull and converted it into its present form, complete with bridge, containing full navigation equipment and remote engine controls etc. It has a ward room which sleeps 12, and a galley which would delight the heart of many a housewife
47 04 09

1947 In the converted green and cream day nursery, and to the happy shouts of the little ones playing in the spacious garden outside, the Harvey Goodwin House, Harvey Goodwin Avenue, which has been adapted from a Home for boys to a nursery for babies and toddlers in the care of the Church of England Children's Society (formerly the "Waifs and Strays") was opened by Lady Whitby. It will accommodate 20 children who remain there until adopted or boarded out. Many friends gathered in the day nursery which has been ideally adapted for the purpose with its cheerful colour scheme, gay chintz curtains at the big windows, nursery pictures on the walls and evidence of its young occupants in the soft toys scattered around
c47 10 06

1947 The S.O.S. Society's Boys' Hostel at Winston House, Brooklands Avenue, Cambridge was officially opened in the presence of a large audience, including magistrates from the surrounding district. Lord Huntingfield spoke its work in relation to its care for boys who had either come into contact with Probation Officers or had homes that were not particularly desirable. He commented "Youth, being what it is, does not always recognise the laws of the grown-ups and they are inclined to do things which bring them into conflict with the long arm of the law. These are the kind of boys taken in here and looked after".
c47 11 17

1948 When the East Road Boys' Club reopens in its new premises behind the St John's Mission Church in Wellington Street, Cambridge, another year of really constructive work by its members will have begun. This club has proved what great feats can be accomplished when a team of boys learn to work together and understand their responsibilities to the community and club. The boys' ages range from 14 to 18 and their programme is designed to create a balance in their physical, spiritual and mental development. During the past year, for example, they won the Pointer Cup for boxing. It is run entirely by voluntary effort and has a membership of 100 boys
c48 09 11

1949 The proposal to buy St John's hall, Wellington St, Cambridge, for use as the East Road Boys' Club was criticised. The building was described as "a filthy hovel, scheduled for demolition and without sun and air", part had been condemned as unsafe some years ago. "It is a place I would not want to put pigs in", said Coun. Dennard. Mrs Rackham agreed it was a poor neighbourhood, but thought it would take years and years for the whole of the district to be demolished
c49 10 07

1949 Another step in the plan to provide nursery schools throughout Cambridge has been taken in the opening of the new nursery school at Cherry Hinton. Priority is given to the children of mothers who are working or are ill and although it is a town school it has a strong local bias. It is ideally situated on the ground floor of Cherry Hinton Hall. The house was acquired by Cambridge council in the 1930s and has subsequently been used as a youth hostel and a maternity and child welfare clinic
c49 10 11

1950 Dennis Collins and his wife, Jean, are two local people making good in the entertainment world and much in demand at parties. Dennis got a job with the Hunstanton council to act, with

Jean, as universal uncle and aunt to children on holiday there. Throughout the summer they were to be found on the sands, running children's games, skipping contests and sand-design competitions. Dennis taught himself conjuring with the aid of a couple of books borrowed from the Cambridge public library and is now a member of the Magic Circle. Jean, who was a pupil of the Mackenzie School of Music and Drama, played the piano and sang c50 12 19

1951 Congratulations from the town, University and church were showered upon the Cambridge branch of the Y.M.C.A. at a special luncheon to commemorate the foundation of the birth exactly 100 years ago. The Mayor said he had personally known the Y.M.C.A. for at least half of its existence in Cambridge and had seen with great pride its growth. He referred to their object of helping in the spiritual side of a young man's life and their wish to make them grow up into healthy, strong and virile young men. In the 1914-18 war they went to great lengths to provide entertainment for the troops c51 03 01

1951 Members of a new company of the Boys' Brigade were seen in their first church parade and march past in the Newmarket Road area of Cambridge on Sunday. The company, that of Ditton Fields Free Church, is at the beginning of its career; it is hoped that by October there will be a sufficient number of recruits to justify the company being fully enrolled in the Brigade. It was augmented by the 5th Cambridge Company which has been established more than 50 years. Mr H.A. Twinn told them: "You must have discipline if you are to do anything at all". Some boys organisations had been compared with Hitler's youth movement but their members were trained in a helpful and Christian way of life, he said c51 10 05

1952 Members of the Boy Scouts' Association will unite in congratulating Mr W.A. Mackrow, Assistant County Commissioner and scoutmaster of the 12th Cambridge (Viscount Clifden's Own) Scout group on the award of the Silver Acorn in the St George's Day Honours List. He has played a prominent part in Cambridge scouting for many years and has special interest in the Sea Scouts whose well-equipped motor boat 'The Adventurer' is a well-known feature of the Cam. CDN c 10.4.1952

1955 Cambridge Boys Club in Wellington Street is meeting a real need since it opened six years ago. Councillor Burkitt said the first time he went there the noise was terrific, there was not a single pane left unbroken and the club was very disorderly. Now it was well-run and had established a tradition of decent behaviour and loyalty; the boys took pride in making it a credit to the community 55 11 17a

1956 Chesterton Men's Club celebrated its 25th birthday. In 1931 Mrs R. Clark decided to purchase the then Mission Hall to provide men with a means to meet socially. It started off with one billiards table and facilities for darts and cards. 72 members joined on the first night and it soon had football and cricket teams. Ladies were admitted as honorary members in 1952 and the cycle accommodation was improved, a much-needed feature.56 03 19a

1957 In the early days in Cambridge a scout would buy a broomstick, which cost 2d, and a billy-can and spend weekends in the woods and country places round the city. Later such boys became scoutmasters but during the Great War troops had to run themselves. Then in 1925 they secured headquarters in Grafton Street which they'd sold to the Co-operative Society. Now the new Scout Headquarters in Perne Road was opened. 57 05 13d [Misc.4.5, 1.12]

1957 Daphne Harrington suffers from 'fragile bones' which means she must spend her days in a plaster cast and be moved about in a wheeled bed. But she runs an active Brownie company, earns money by typing, designing knitting patterns and making small household articles. So she was not going to let her disability prevent her going on holiday. She left her Selwyn Road home

in an ambulance to journey to Norway where she will join other handicapped girl guides in a camp halfway up a mountain. 57 06 12a

1957 Last year an Adventure Playground started on a patch of rough ground bordering Newmarket Road. Cambridge council gave a generous quantity of odd timber, other people provided tree trunks and old motor tyres. But it all vanished during the winter. Now they are seeking more together with an old motor car chassis, corrugated iron, bricks, pick-axes, hammers, nails and other lumber. They also need a strong lockable shed to keep it in. 57 07 01

1957 The Adventure Playground off Newmarket Road does not seem to be wanted, judging from a lively meeting. Residents said was being used by hooligans who broke up the equipment and should be moved far from homes where a nuisance is likely to be caused. They called for the area to be used as tennis courts instead. 57 07 22 & 22a

1957 Scouts from 84 parts of the world attended an International Conference in Cambridge, following the World Jubilee Jamboree. The bright blue caps from Finland, flowing white kaffiyeh and agae from Lebanon, broad hats from Mexico and the red tarbouch from Morocco were a colourful sight in the Guildhall where they were welcomed by the Mayor, Councillor B. White 57 08 14a & 17 [Misc.4.5, 1.13]

1957 Residents living near the 'adventure playground' on the Whitehill Estate, Newmarket Road have protested against the things that happen there. Bad language – really filthy barrack room stuff – is a constant annoyance, noise is at a high level with children beating on drums and fuel tanks and the staccato bark of the old motor cycle housed on the ground, especially when it is running without a silencer. It is a place where parents of decent families prevent their children from going, attracts the wrong type of youth and encourages the formation of gangs 57 09 13a & b

1957 Adventure playground abandoned – 57 10 19

1958 Cambridge Boys Club in St John's Hall, Wellington Street is flourishing under the leadership of Chris Silcock. Despite the volume of noise the youngsters are not idle. In well-equipped workshops they are taught woodwork and metalwork while the more artistic are instructed in modelling and painting. There is table tennis, P.T. and boxing along with photography, chess, talks and trips abroad. Parents attend on open nights when the fun is shared by all 58 02 22

1958 Boys Brigade hut, Chesterton Methodist church – 58 04 23b

1958 Leys School scouts jubilee – 58 06 27b

1958 An Adventure Playground run at Newmarket Road attracted 60 youngsters. There was bad language at first, destructive activities by local roughs created great difficulties and neighbours objected. The children tunnelled, built huts and dens, made swings of ropes and tyres, lit fires and roasted potatoes. They also made boats, guns, swords and a puppet theatre. Some put an old motor cycle into running order. 58 09 13 & a

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 Cambridge Boys club Wellington St, formerly East Road Boys Club; borough took over 1949, bought Wellington St St Johns Hall 1951, workshops etc 1958; to close 1960 due decreasing membership [1.2]

1960 Freebooters Coffee Bar & club opens Wellington St by student Ridley Hall, no rules, appeal £20,000, 400 members 1961, closed down, student resigned, decline membership, financial difficulties 1963

1960 Cambridge boys club to close – 60 01 06a

1960 Cambridge Children's Playground Association was started after builders complained about children playing destructively with their building materials and when it was noticed that the

ordinary playgrounds did not attract many youngsters. The first experimental playground was in Newmarket Road and now one may be formed on the Arbury Estate. There are hundreds of children who have already formed the habit of playing in the streets and in the shopping precinct while the estate has waited six years for a playground. The spinney at Cherry Hinton would also be an ideal site for an 'adventure playground' 60 02 17

1960 East Barnwell's new scout hall opened – 60 05 17

1960 In order to rescue the Arbury Estate from the 'grave danger of creating deserts of asphalt' a playground should be constructed on a site between Alex Wood Road and Mere Way. It would have a mound of earth 15 feet high and an open flat area providing scope for ball games, tricycles, marbles etc with a play park equipped with vertical and horizontal tree trunks. The ground is to be made deliberately uneven with mounds and hollows for imaginative play. But swings have been condemned as dangerous and expensive 60 07 07

1960 Tents of all colours and groups of girls kneeling before wood fires in the grounds of Pampisford Hall mark the celebration of the Silver Jubilee of Guiding. Many of the nearly 680 Guides and Rangers aged between 11 and 21 year are experiencing this type of outdoor living for the first time. They include girls from Lithuania, Germany, Greece and Nigeria together with one suffering from poliomyelitis and another encased in a spinal jacket who cannot even lift her head. The amenities are perfectly adequate. Water had been laid on, each group collects its daily rations from a central source and milk is delivered from a nearby farm. 60 08 04

1960 This week some 61 youth clubs will open their doors to admit close on 3,000 teenagers. After a short summer break they will become the centre of activities from jazz to judo, coffee drinking to canoe building. Whether in a small village hall or a new village college the records go on for dancing, out come the table-tennis bats and badminton rackets. In fact anything to keep youth happy, anything useful, anything which stimulates thought or encourages interest 60 09 16a

1960 Jive session at the British Legion Hall in Fisher Lane, Cherry Hinton, attract teenagers from the surrounding villages. There is no problem with the dancing which was marvellously well organised and no alcoholic drinks are sold. It filled a need for young people and had been successful since it started a year ago. But residents complain that the noise of motor cycles revving up and roaring down the lane keeps children awake and also ruins their television pictures. 60 09 38

1960 The Freebooters Coffee Bar and Club in Wellington Street was set up through the determination of John Ewen, a theological student at Ridley Hall. It has full-sized billiard & table-tennis tables & a dart board. But there are no rules. Soon youngsters banned from other coffee bars because of damage started to drop in. A key concern was motor cycles but plans are under way for a maintenance shop and a 'scramble'. They had teething troubles: the record player was stolen and all the records taken, but they were brought back and now various sports clubs have been formed. 60 10 14

1960 Freebooters Coffee Bar and Club appeal – 60 12 16b

1961 Freebooters coffee bar appeal for funds – 61 01 11a

1961 Freebooters Coffee bar redecorated – photos – 61 02 16

1962 When Miss I.G. Long was asked to start a Wolf Cub pack she did not know anything about the movement. But armed with the Jungle Book, on which the clubs are based, she formed a pack in the parish of St Barnabas and boys came from as far away as Comberton and Abington. That was in 1930, the same year as the St John's pack began under the leadership of Miss F.E. Isaacson. Both ladies are still working for the cubs 62 02 16

1962 The Central Youth Centre in York Street has closed after twelve years. The farewell dance, with music provided by Johnny Cullen and his Dawnbreakers, was a great success. The

hard core members were quite subdued and seemed really sorry that the club was having to close. But youth leader L. Casey is leaving and the lease is expiring. However there are ample facilities for those who wish to join other clubs. 62 03 26

1962 The Freebooters Club opened two years ago in an old converted church hall in Wellington Street, Cambridge, which is damp, dingy and has dry-rot. At that time school-leavers wishing to join youth clubs had to join in formal activity. Not wishing to do this they drifted to the coffee bars on the outskirts of the city. When these closed they were left with nowhere to go. The Freebooters filled the gap with a coffee bar and juke box. Originally it was a 'toughs' club but times have changed. Now it will be modernised with a dance hall, tv lounge, snooker room and motor cycle repairs workshop 62 11 15f

1963 The Freebooters Club has closed down. It was started in Wellington Street for youngsters who could not fit into the regular pattern of youth activities. It had done good work and some of the young people who had been 'unclubable' had settled down in other established youth clubs. But there has been a recent heavy decline in club membership and an adverse financial position had been reached. John Ewan, the University theological student who started it two years ago, was thanked for his inspiration in forming the club and wholehearted devotion to the task of running it. 63 01 02

1964 East Barnwell youth centre opened – 64 06 24a

1964 At Coleridge Youth Centre the hall vibrated with the sound of the latest pop tune. Outside the air was filled with the sound of motor cycles and scooters as more youths arrived. Youngsters were playing cards, table tennis and billiards, in one corner a group of girls sat talking. In between dances they sauntered to the canteen for a cup of coffee, a Coco Cola and a glance at the pile of magazines specially chosen for young people. It has a current membership of 300 of which two-thirds are boys. The future will depend on a comprehensive new youth centre to be started shortly at St Matthew's Piece 64 11 19c

1964 The twin estates of South Arbury and King's Hedges has hardly any social amenities with just one youth club which runs one evening a week in the Manor School canteen. Now Arbury Amenities Association has called for the development of a community centre and recreation ground on the corner of Campkin and Arbury Roads. There is always the danger of young children getting involved in accidents if they have to play in the roadway, especially as heavy lorries use it on their way to building sites. The licensee of the Snowcat public house says there are several hundred teenagers who have nowhere to go in the evenings except city centre dance halls. 64 12 02b

1964 East Barnwell Youth Club meets in specially-built premises. The décor of the hall is purposeful and modern, the coffee bar is well patronised and the quiet room provides seclusion for a chat away from the noise of table tennis balls and record player. Activities include chess, draughts and billiards. But girls complain the boys won't dance unless organised dance nights are arranged. Members are working on a pantomime which they plan to give in children's homes. They are also collecting silver paper to purchase guide dogs for the blind. 64 12 03

1964 The Sunday night 'Drop-in' Youth Club in Wellington Street provides somewhere for youngsters to get to know each other. There is table tennis, snooker and badminton together with a coffee bar and a juke box providing music for dancing. Some girls complain that boys will not ask them to dance but the boys say if they do they get stared at. They come because they are bored, there is nothing to do, nowhere else to go. Many houses are so small they can get little privacy and parents may lose their peace because a radio or record player is blaring, they say. But it's sad they cannot find companionship and interests at home, just one night a week. 64 12 09

1965 Rag Day proceeds may be used to fund a youth centre for young people who live and work here. The bankside opposite Magdalene College would be an ideal site. There are good reasons: the college buildings are now awkwardly sited in relation to town development and will always be an encumbrance in terms of planning. Townspeople have to pay higher rates because of the specially low rating allowed the colleges and industrial development has been restricted which would have provided new industries. As it is many children have to go to other towns to earn their livings. And when they reach marriageable age they have difficulty finding housing since so much land is taken up by the university. – 65 01 14a

1965 Victoria Road Congregational Youth Club attracts 50 15-21 year-olds each week. There is a large hall and they can dance or play games, talk and drink coffee. The highlights include punt parties, sausage sizzles and barbecues. In spite of the austerity of the hall there is a genuine air of friendliness. Organisers have tried to introduce more serious activities but they have not proved too popular. The evenings end with a short epilogue, though the influence of religion is not particularly stressed. 65 01 21a

1965 Sturton Street Methodist Church youth club has a membership of 50. Meeting on Friday evenings their activities are a little restricted but they offer a fairly varied programme. Most activities take place in the church hall and the adjoining kitchen is used for light refreshments. But in addition to the social and recreational aims, they also have an educational and spiritual element with talks, film shows and a discussion on topics of interest. A short lesson, hymn and prayer is given at the end. A youth fellowship meets on Sunday afternoons for bible study 65 02 04b

1965 Cambridge Sea Cadet unit was formed in 1941 to provide healthy recreation for young citizens. They used school premises until 1950 when Nissen huts were made available on the riverside at Halingway. But these are now altogether untenable and a new headquarters, "T.S. Ganges" built complete with quarter deck, lecture rooms, canteen and a wireless office. 65 03 24b Sea Cadet new HQ to open – history - 65 08 28a

1965 Guide headquarters in Perne Road opened by Chief Guide, Lady Baden-Powell – 65 04 26a

1971 Boy Scouts 1,200 scouts & cubs at St Georges Day service Guildhall [Misc.4.5]

1971 YMCA to celebrate centenary by move from Alexandra Street to Gonville Place – 71 03 30a

1971 Dr Barnardo's home in Fitzwilliam Road to close after 20 years; only five children remain – 71 04 05

1971 World Chief Guide, Lady Baden-Powell visits Perne Road HQ – 71 09 27

1972 Leading groups from the world of Soul, Beat and Pop are to be booked for a new season of entertainment at the Howard Mallett Youth Club, built at a cost of £60,000, four years ago as a "drop-in" club for youngsters in the city. Discotecheque equipment costing £200 is also being installed for a new programme of Sunday discos. "We intend to get back our crowds of 200 for the discos and 500 for the dances" said the warden. Nearly half the area of the club is devoted to the coffee and snack bar and lounges. "There is no sort of membership. Anyone over 17 can drop in to meet friends and talk. The admission is 5p c72 05 09

1973 new Manor youth centre opens [1.12]

1973 YMCA building [2.2]

1974 YMCA new building opened; established 1851, foundation stone 1870, was designed Alfred Waterhouse & opened 1870, move Gonville Place temporary building 1971 when closed [Misc.5.2]

1974 The 1¼ acre Arbury adventure playground looks like a wild west stockade, with tall telegraph poles visible above the high fencing and a tattered union jack blowing in the breeze. It lies on the northern edge of the housing estate. As many as 250 children are likely to be there during the school holidays. It was parents on the estate who got the venture going and raised the initial money. Fencing alone cost more than £1,000. Since then the city council have helped with grants c74 08 03

1975 Cambridge's 13th scout group officially opened its new headquarters in Romsey Town. In little more than a year they managed to raise the £6,000 needed and get the building constructed on the site of two old scout huts. Some 200 people watched Dr Winifred Nott, the sister of the original Nott brothers who helped establish the group before the first world war, cut the tape and unveil a plaque to mark the official opening c75 09 19

1976 The Cambridge Scouts' shop in Perne Road celebrated 50 years of existence. Known first as the Equipment Store it opened in a rifle range half way up the stairs at the old Grafton Street headquarters on 13th December 1926. The shop's manager, Mr Kenneth North, took over in 1934. He remained when the shop moved temporarily to Russell Street and then to the new Scout headquarters in 1956. Mr John Chambers has been associated with it since he joined as a boy in 1940 & Roger Woollard, Scout leader running the 13th Cambridge Scouts Group, also helps out c76 12 13

1980 Romsey Mill centre opens - former Methodist church [1.13]

1983 Boys Brigade centenary year celebrations – 83 01 04a

1986 Young people in Cambridge have come up with a revolutionary idea for a new late night rock music venue in the middle of the busy roundabout in Elizabeth Way. It is centrally situated and its underground location would cut down disturbance. But it would be expensive and there would be problems of access for emergency vehicles. Councillors think the former Cattle Market on Clifton industrial estate is a better option. If the venture failed the site could be converted back to industrial use with a smaller financial loss. But they have asked officials to make a feasibility study of both sites 86 03 08

1986 'Thirty Three' is a new walk-in centre for young people funded by Save The Children. Based in Clarendon Street the confidential service has voluntary counsellors who will listen to youngsters' fears on any aspect of life including difficulties with parents or boy friends, anorexia or abortion. They will offer no criticism and never pass judgement but instead offer positive help. College students have their own counselling services, but there is nothing comparable for other 86 09 21a

1987 European Scouts, distinguished on parade by a traditional uniform of wide-brimmed hats and shorts, are making their mark in the Cambridge area. Locally they were born amid controversy three years ago when a Girton group, then belonging to the mainstream Scout Association, switched to the Federation of European Scouting. Together with groups in Waterbeach and Chesterton, bringing numbers to 140, they now account for 10% of European Scouts in England. They stick closer to the original Baden Powell principles – concentration on skills that can't be classroom learned. 87 03 19

1988 Joice Taylor of Girton comes from an academic family. She has organised the Cambridge Lectures for young people which have run each Christmas at the University Engineering Department from 1963. Under the chairman, Dr Ronald Gray, the lectures by experts in their field cover topics such as spiders, snakes and scorpions, how the weather is forecast, a talk by Mary Archer about solar energy [and even some by a young Mike Petty]. 88 01 27

1988 Boy Scout groups tracing history – feature - 88 02 16

1990 Romsey Mill community centre Romsey Town opened 1980 to promote relations between youth and the community; opens alcohol-free bar for young people – 90 06 27b

1899 sailing : Cam Sailing club formed [4.11]

1901 cricket : death of Robert Carpenter [1.9]

1904 Cambridge University Polo Club commenced their May Week activities with a polo pony show, the first held by the club. A driving competition through posts separated from the wheels of the vehicles by only two inches was productive of some amusement as some competitors used hansoms and one a large brake. Ladies took part and the first prize was obtained by Miss de Freville. Later a fair number of spectators watched the polo tournament and had the satisfaction, or otherwise, of listening to amorous melodies rendered by Pierrots whose accompaniment proceeded from a harmonium. 1904 06

1904 Chesterton Council has purchased land in Carlyle Road, Cambridge, for a recreation ground. They bought rights in the Brickfield Estate from Mrs Wragg-Gurnie and frontages to Alpha Road from Mr Thoday for £1,350. They then sold off the frontages and after paying for the land were left with a bill for £425 together with a further amount for fencing, laying out and planting the ground. This was a very small sum for so large a piece of land and they had carried out a great improvement in Carlyle Road by widening it from Dalrymple Terrace to the end of the road CDN 3.11.1904.

1905 rowing : "yet another boathouse - Trinity Hall ... are 3 handsome boathouses next door to each other - all that is wanted now is the river" [6.22]

1905 running : marathon race Milton Road school to Stretham bridge & return held (last one) [5.12]

1905 It is seldom that a Cambridge tradesman, in the short time he can allow himself for a holiday, undertakes such a hazardous venture as that successfully accomplished by Mr Alphonso Smith. He has succeeded in ascending Mont Blanc only to find the little observatory on the summit so covered with snow that he could not find the door. It was so bitterly cold that he made only a very short stay. He has no wish to make a second ascent. 05 09 09 & a

1906 swimming : on Christmas Day [6.23]

1906 The family of Rowell has long been identified with sport in Cambridge. Now Edward Rowell, a cousin of one time Go-as-you-please Champion, 'Charlie', is making a name for himself as an all-round athlete in Australia where he has won enough money to secure a fine business: one match over hurdles brought him £300. He added to his reputation as a footballer and when that season ended he took up cricket, being voted the best batsman in West Australia. 06 09 22

1907 cycling : Arthur Markham holds world cycling record - 307 miles in 24 hours (also 50 miles in 2 hours & 100 miles in 5 hours) [3.3]

1907 In the records of sport there is no instance of one family attaining greater re-eminence in any particular branch of sport than that of the Gray family of Cambridge, in racquets. From 1863 onwards there have been five professional champions. Henry James Gray who was the first, is a town councillor and head of the well-known firm of athletic outfitters of Sidney Street. 07 04 30a & b

1908 athletics : Cambridge & County Liberal Association flat races in difficulty : no cycle races allowed at Fenner's & these attract crowds [6.28]

1908 Mammoth Show weather will soon be a synonym for a cloudless sky and a balmy atmosphere. There have been five of these huge exhibitions on successive August Bank Holidays attracting thousands of visitors to Midsummer Common and discouraging Cambridge residents from scampering off to other places. There were competitions for dogs, poultry, cage birds and fancy rats together with athletics and motor cycle races. CEN 08 08 07

1908 The Boxing Day Costermonger's Marathon Race started from Abbey Street with each competitor pushing a barrow to the Bottisham Swan (a distance of six miles) and back. Performances of the romantic drama 'From Shop Girl to Duchess' at the New Theatre appealed to many, while there were cinematograph exhibitions at the Guildhall and at Sturton Town Hall CWN 08 12 25

1913 athletics : Borough police athletic society sports the most successful held [7.17]

1913 rugby : suffragettes try to set fire to Varsity pavilion [7.15]

1914 There were animated scenes along the road between Cambridge and Bottisham on Boxing Day when the annual Costers' Marathon took place. A big crowd saw the 14 competitors start from Abbey Street. They had to travel to Bottisham and back, a distance of 11 miles, pushing a coster's barrow before them. Ben Warren led practically all the way covering the distance to Bottisham rapidly, but facing the wind on the return leg left all competitors severely tired. Most finished and received half-a-crown. 14 01 02c pic 14 01 02d costermongers race : last one held [2.10]

1914 football : Town & united clubs amalgamate [8.1]

1914 motor cycling : banned from Cambridge Town & County Charity sports due to danger, even though capacity reduced from 300 to 250 cc [7.20]

1914 tennis : brickfields on Milton road reclaimed & converted into tennis courts, 6 hard & 9 grass with 6 more in preparation [7.18]

1915 Councillor H.J. Gray held the Professional Raquets Championship for some years. At the racquets court at the back of St John's College he trained most of the players of note and established a famous racquets school where he trained most of the professionals of the great public schools. In 1866 he established the athletic outfitting firm in Sidney Street, retiring in 1896. He was also one of the best local cricketers and was a member of the Cambridge team that played against All England in the memorable match on Parker's Piece 15 03 05

1919 athletics : H.M. Abrahams wins Freshman's sports 100 yards, mile & long jump [2.18]
1919 skating : held due to severe frost [2.17]

1922 bowls : Romsey recreation ground bowling green opened [2.20]
1922 football : Cambridge Town Football club ground, Milton Rd, opens [2.19,7.23]
1922 rowing : 99 first boat starts 5th in division & makes bump every night to finish Head of River, Wick Alsop in crew [3.4]
1922 swimming : Coldham's Common bathing pool opened [2.21,8.2]
1922 tennis : Lawn Tennis league inaugurated [6.26]

1923 boating : Motor Boat club new pavilion opened [2.23]
1923 swimming : Jesus Green swimming pool opened [2.24,6.25]

1924 A huge crowd witness Cambridge Mammoth Show events. The Rodeo displays, which were expected to be a great attraction, were disappointing. The only part of the programme that created any real enthusiasm were the steer riding, steer wrestling from an automobile and broncho riding. Montana Bob, the world's champion steer rider was the chief performer. He had no easy task in overtaking the steer and even when he had done so he had considerable difficulty in bringing it to the ground. In doing so the steer trod on his arm but he was in sufficiently good form to ride the bucking broncho a few minutes afterwards c24 08 09

1925 bowls : Christ's Pieces bowling green opened [3.6]
1925 County bowling association formed [3.8]
1925 cricket : Jack Hobbs scores his 127th century, breaking Grace's record [3.7]

1926 shooting : Grange road rifle range closed due to danger to Coton, OTC transfer to Coldham's Common [1.11]

1927 bowls : 1st County bowls match in Cambridge [4.3]
1927 cricket : K.S. Duleepsinhji scores 254 not out - record for Fenner's - in Varsity match v Middlesex [4.1]
1927 golf : putting green starts, Jesus Green [5.24]
1927 rowing : May Bumps broadcast by BBC for first time, the Boat Club Ball a brilliant function [4.2]

1928 bookmakers raided by police [4.5]
1928 bowls : £3,000 scheme for improvement announced [4.6]
1928 greyhound racing : track prepared off Cherry Hinton Road & Cambridgeshire Greyhound Racing club formed, churches protest, [4.5]

1929 bowls : 2 Cumberland turf greens, 1st in district, opened Brooklands Avenue [4.7]
1929 football : Cambridge Town football club announce assets of £5,000 compared to poverty of a few years ago [4.8]

1930 cricket : Hobbs Pavilion, Parkers Piece, opened [5.14]

1930 The successful crews in the Lent bumping races celebrated in traditional manner. Hundreds of excited undergraduates in 'bump supper' costume filled the streets till midnight and over it all flickered the light and smoke of bonfires. Boats were burned amid shouting and bacchanalian merriment at St Catharine's, Selwyn and Emmanuel who for the first time in history had finished head of the river. An 'eight' was sacrificed in the paddock of the college upon a huge pyre. The manoeuvre of getting the boat into the college proved by no means an easy one and traffic was held up as the unwieldy craft, borne on the shoulders of the crews, was shunted into Downing Street before being passed through the narrow gate. At St Catharine's the boat was escorted to the burning by a procession headed by a band of unemployed ex-Servicemen who had been playing on the towing path 30 20 24a

1930 The Cambridge Skittle League was formed in August and proved that the average man was a sportsman; a lot of people were inclined to 'run down' the public house games such as darts, dominoes and shove ha'penny. The Skittles League met the requirements of these people and what should be more natural than they should go to the poor man's club – the local inn. Publicans went out of their way to provide every amusement and recreation 30 04 11

1930 'Pickwick' amusement machine used in pub - - bagatelle – 30 09 02aaa, bbb & ccc

1932 football : Abbey Football Club new ground, Newmarket Rd opens [1.8]

1932 rowing : Jesus college boathouse destroyed by fire [5.18]

1932 Mr E.C. Green recalled that when he was a boy skittles were played by country people in a large shed; then it was brought into Cambridge with a club room converted into an indoor skittle alley. Both the pins and balls were made of India rubber with the sides of the room padded so there should be no noise. After a time the game died out but had now once again become a growing pastime with a Cambridge League started three years ago. 32 04 22a

1932 Overnight two unfurled umbrellas were securely tied to the pinnacles of King's College chapel so they stood straight up. The college called a window cleaner to remove them, but despite his long ladder he was unable to get within ten feet. Two undergraduates went on the roof with shotguns and endeavoured to shoot them down. One fell but the other proved more difficult. The shots knocked the handle sideways. For some hours it floated gracefully from side to side in the wind like some gigantic weathercock. 32 05 18

1932 The inner history of the King's College roof-climbing escapade has been revealed. The hazardous feat was carried out by two parties of undergraduates, including several well-known athletes, who are members of a secret organisation composed of skilled mountain climbers. They used the lightning conductor which has been loosened by previous generations of climbers. It is the climax of a series of climbs during the past few months; now they proposed to publish detailed accounts of their exploits 32 05 21

1932 Mr F. Plumby of Abbey Walk, who looks after the Cambridge Greyhound racing track on Newmarket Road, said he was at work in the middle of the track when a hare dashed on to it, closely pursued by a pack of harriers. It ran right round the whole 565 yards length of the course, and just as it reached the winning-post the dogs came up with it. It ran into the space reserved for the judge, and there the pack killed it. 32 12 23b # c.

1933 bowls : indoor bowling green Brooklands Ave opened [1.7]

1933 cricket : on Parkers Piece : 25 runs scored in 3 balls (10,7,8) [1.6]

1934 cricket : Bradman bowled for a duck at Fenner's [2.25]

1934 H.J. Gray, the Cambridge sports manufacturers are flourishing and announced plans to extend their Playfair Works into which they moved from Searle Street 25 years ago. Now a new

mill and motor engine would be introduced to keep up with demand. Henry John Gray started his career in a racquets court on the site of the present University Arms Hotel nearly 90 years ago. He became champion racquets player of England – a title that had stayed in the family for 22 years - and two his brothers became champions of the world. 34 01 12

1934 A Cambridge chess club was first mentioned in 1835 and in 1837-8 it was sufficiently organised to play a match of two games by correspondence with Nottingham's "Town and Gown" club. But an experiment in holding a Chess Congress in Cambridge in 1880 was a complete fiasco. The British Chess Association had selected Cambridge as the meeting place but little support was forthcoming from the University Chess Club, founded four years earlier, and visitors were very few, a new book reveals 34 05 26

1935 swimming : Coldham's Common swimming pool opens [1.14,8.6]

1935 swimming : proposed new swimming stadium, Parkside [8.5]

1938 billiards : Joe Davis' billiards club – women's world champ [1.2]

1938 boxing : Boon wins boxing championship [1.3]

1939 boxing : Boon retains title [1.1]

1943 baseball: American baseball match on Fenners – first seen – 43 05 14

1943 horse racing: Plane crashes Newmarket racecourse, racing postponed – 43 05 13a

1944 boxing : Eric Boon stars in film "Champagne Charlie" [1.21]

1944 darts : Newmarket Road & district darts league starts at Corner House due to blackout [4.16]

1946 athletics : Cambridge city athletics club reformed [4.9]

1947 athletics : Harold Abraham, Olympic champion in 1920,24 & 28 appointed Regional Controller of Ministry of Town & Country planning at Cambridge [3.11]

1950 athletics : Chris Brasher, St Johns wins University mile in 4 minutes 27.7 seconds [3.10]

1951 roller skating : starts at Rex Ballroom [3.19]

1951 rowing : Oxford sink in boat race [3.18]

1951 wrestling : banned from Corn Exchange, then allowed, first bout Jack Demsey v Mick McManus [3.21,3.22]

1953 cricket : funeral of Dan Hayward [4.20]

1953 cricket: Australians play at Fenner's [5.2]

1953 cricket: Jack Hobbs knighted [5.3]

1953 football : new stand built, Cambridge City football club [5.6]

1954 athletics : new Whit-Monday gala - sports, 3,000 attend [5.11,5.20]

1954 cricket : new Fenner's score box replaces one badly damaged during War [5.10]

1954 Real American softball came to Cambridge Football Club ground when the US Air Force Hospital Wimpole Park beat a team from USAF Molesworth entirely against the formbook. But for British spectators the game was a succession of shocks. They saw an umpire hustled and pushed by players disputing a decision, two players somersaulting as they tried to catch a ball and some magnificent hits and catches that made it look like cricket. The game seems to be a glorified rounders akin to baseball. There was 'strike one', 'ball one', 'blunt' and a host of other

expressions which are difficult to explain but easy to follow on the diamond-shaped field until the victorious team had notched up their win and were cheered again and again CDN 9.7.54

1956 roller skating : approved at Corn exchange [5.21]

1956 The White Horse Riding Establishment in Barton Road, Cambridge, has been used as a riding school for 35 years and has stabling for 24 horses. Much of the teaching takes place on land down Grange Road and it would reduce the dangers for inexperienced riders taking horses down Barton Road if they had an Indoor Riding School. But neighbours complained that it was noisy and smelly and a relic of the past. Horse boxes unloaded on the pavement and children stacked their bikes against the wall when they popped in to give the horses tit-bits.56 05 16a

1957 The Night Climbers of Cambridge are at it again. At daybreak two objects had been placed on the spires of King's college chapel. One is the globe of a Belisha beacon, the other a nylon stocking. There was a turret-climbing episode in May 1932 on the eve of Empire Day when a Union Jack was flying from the north-east turret. Two nights previously the pinnacles were decorated with open umbrellas 57 05 24

1958 City & United Football clubs elected to new Southern League [6.7,6.9]

1962 football : proposal to amalgamate City & United Football clubs [6.15]

1962 Cambridge Ladies Fencing Club started just before the war and was coached by Madame Perigal whose daughter, Caroline Drew, reached international status. By the late 40's the growing interest in the sport meant it became mixed. But it has always maintained a strong link with the County Girls' School Fencing Club which has a proud record in the National Schools championships. Now it has a professional instructor, Reg Cullum, while some fencers visit Prof Harmer-Brown, the University coach. Its members range from firemen to a wine merchant, a vet to a mental welfare officer. But they always welcome new blood. 62 10 02d

1963 rowing : Lent Bumps cancelled due to weather, first time in 136 years [6.17]

1963 swimming : new indoor swimming pool, Parkside [6.16]

1964 bowling : 10-pin bowling alley opened Mill Road (closed 1970) [7.22]

1964 Cambridge has one of the few public croquet lawns in England. It is on Christ's Pieces, next to the bowling green. It is almost exclusively used by undergraduate members of the University Croquet Club to whom most of the equipment belongs. Although only three years old they have gained a reputation for their enthusiasm and high standard of play. Anyone can take part but it is not a game suitable for the infantile or the senile 64 05 11

1966 Plans for indoor sports stadium next to Parkside pool discussed – 66 04 26b

1968 Howard Mallett club opened [9.1]

1972 It was “eyes down” for the first time last night in Cambridge's new £10,000 bingo hall which will offer enthusiasts an almost non-stop programme throughout afternoons and evenings six days a week. The bingo hall which can accommodate nearly 1,000 players at a single sitting, is in the converted former Central Cinema in Hobson Street CEN c.24.3.1972

But try as he would to keep still the board had a will of its own and he had to hold on to one of a group of teenagers who went to see him about finding a proper skateboard rink in the city. He told them he had already made a firm request for the Amenities Committee to consider their 1,637-name petition and asked if some of the city's lottery money can be spent on one. The

slopes of the Lion Yard present an ideal combination of smooth surface and different angles to turn in but shoppers say it is dangerous and large areas of plate glass windows are likely to be broken c72 08 16

1974 football : Bill Lievers, manager Cambridge United sacked [2.5]

1974 Arbury community centre opened [9.2]

1975 The Cambridge Sports Hall, opened on July 1st, is already beginning to attract enthusiastic support. Trampolining and weight training have proved particularly popular with families who have also taken advantage of the squash courts. Volley ball and handball have done particularly well through the participation of Language School students c75 08 25

1977 skateboarding : proposed skateboard park in middle of roundabout [2.6]

1977 Members of the Cambridge & District Skittles League see themselves as men of great skill and dexterity, pitting their wits against other eight-man teams in a three-dimensional game that has its own terminology. They hurl, toss or spin a flat, flying saucer-shaped cheese at a table resembling a large, sparsely padded armchair upon which are spaced nine wooden pins. Each player has a maximum of four throws to demolish as many as he can. The dedicated band of serious skittles players are a dying breed. Gone are the days when coachloads of players used to arrive long before the game to limber up. CDN c 11.2.1977

1978 rowing : Cambridge sink in outrace [2.7]

1981 The crack of blazing shotguns was heard for the last time at Madingley as Gallyons closed their shooting ground after 70 years. Ernie Johnson has spent his entire working life there and so after 44 years of teaching, advising and correcting the technique of sporting gunmen from all walks of life he is facing his first change of job. The site is surrounded by roads and cannot expand to stage big shoots.81 06 19

1984 rowing : Cambridge boat rams barge at start boat race [2.8]

1985 American football came to Cambridge with all the razzmatazz and fun which makes it a real family affair across the Atlantic. The air was filled with the smell of quarter-pounders, the sun blazed down Californian-style and even the lady selling fan club paraphernalia was saying 'Have a nice day' as Cambridge Cats made their home debut against Basingstoke Cavaliers at the Cambridge City Stadium in Milton Road. No-one had thought to provide any popcorn and there were no Budweisers but the 600 spectators enjoyed the game. 85 06 03

c.38 : Athletics

includes running, marathons

188- Charlie Rowell long-distance champion – feature – 60 01 07b

1880 Champion runner Mike Newton came to Folk Museum Cambridge in search of a legend. There he was able to wear a belt won 100 years ago by Charlie Rowell, the 'Long Distance Champion of the World'. He first won it at Madison Square Garden, New York in 1879 and went on to gain it outright with three six-day wins in succession the following year. Charlie's record of running 258 miles in 48 hours has remained unbeaten for over 100 years. 82 02 13a

1902 The fifth annual race promoted by the Cambridge Cross County Union was decided over the county course. The competitors having been photographed were send on their journey. The Champion of the County, F. Hewish was the first man home. C.A. Mitchell ran well for the second place and H.H. Stacey was third. The Albert Institute Harriers who won the first race in 1898 got all their men home in the first seven CDN 1902 03 21

1905 marathon race Milton Road school to Stretham bridge & return held (last one) [5.12]

1906 The family of Rowell has long been identified with sport in Cambridge. Now Edward Rowell, a cousin of one time Go-as-you-please Champion, 'Charlie', is making a name for himself as an all-round athlete in Australia where he has won enough money to secure a fine business: one match over hurdles brought him £300. He added to his reputation as a footballer

and when that season ended he took up cricket, being voted the best batsman in West Australia.
06 09 22

1908 The Boxing Day Costermonger's Marathon Race started from Abbey Street with each competitor pushing a barrow to the Bottisham Swan (a distance of six miles) and back. Performances of the romantic drama 'From Shop Girl to Duchess' at the New Theatre appealed to many, while there were cinematograph exhibitions at the Guildhall and at Sturton Town Hall
CWN 08 12 25

1908 Mammoth Show weather will soon be a synonym for a cloudless sky and a balmy atmosphere. There have been five of these huge exhibitions on successive August Bank Holidays attracting thousands of visitors to Midsummer Common and discouraging Cambridge residents from scampering off to other places. There were competitions for dogs, poultry, cage birds and fancy rats together with athletics and motor cycle races. CEN 08 08 07

1908 In all probability we have seen the last athletic flat race meeting in Cambridge. After struggling for several years the Liberal Athletic Union received one last blow in with the poorest attendance on record. For a large gate at least cycle races, and perhaps motor races, are required but the University will not permit these at Fenner's although similar cinder tracks are used for both. The weather did not help with three inches of snow on the ground in the morning. But the sun shone with great power and the track dried. 08 04 25a & b [6.28]

1909 football : Cambridge schoolboy football starts with formation of Cambridge Schoolboys Athletic Association [4.14]

1909 'Charlie' Rowell, one of the greatest long-distance runners the world has ever seen, died at his residence in King Street. In the days when six-day races were popular Rowell was a name to conjure in two continents. He won races innumerable, won a cart-load of trophies and cash prizes to an enormous value. He paid several visits to America where on one occasions his opponents drugged his food but he still finished second! CWN 09 09 03 Runner : 100 miles in 13 hrs.26m.30s.; 200 miles 35.9.28; 300 58.17.6; won 'Long distance champion of world' belt USA 1879; set 48 hour 257^a miles - oldest running record, lasted over 100 years; year before died took part in professional marathon, was out of training & fell out but strain contributed to death, for 6 months an invalid [12.5]

1909 The Costermongers Boxing Day Marathon race was run between East Road and Bottisham and back. It is open to men who earn their living by hawking and the fact that 17 came forward with their barrows in such unfavourable conditions says a good deal for their hardiness.. Soon mud began to bespatter the runners. Tom Nunn took the lead in the outward journey but was finally beaten by Sam George CWN 09 12 31

1913 Borough police athletic society sports the most successful held [7.17]

1914 costermongers race : last one held [2.10]

1919 H.M. Abrahams wins Freshman's sports 100 yards, mile & long jump [2.18]

1923 An attendance of upwards of 5000 at the first athletics meeting held on the Town Football Club's ground, Milton road, may be regarded as entirely satisfactory. The first part of the day was taken up with six-a-side football. The various races were keenly contested on a track which made the cyclists very cautious. In two of the races there were two nasty spills. Sir Douglas Newton presented the Invicta cycle to Mr Fuller of Shelly row, who was the fortunate winner of a handsome machine given to the purchaser of a ticket before the day of the event. The proud processor was apparently not a cyclist, for he wheeled it around the track, notwithstanding that the spectators invited him to "jump on and ride" c23 05 22

- 1924 H.M. Abrahams won 100 meters at Olympics [12.4]
- 1928 Lord Burghley won 400 metres, D.G.A. Lower 800 metres at Olympics [12.4]
- 1936 Harry Pitt of Manor Cottage, Church Road has written recalling 'The Walking Lady of Chesterton'. "She walked for a wager 'a thousand miles in a thousand hours' in a private garden in Church Street, Chesterton 60 years ago. I have been told that she walked in tights with high-topped boots, a jockey's cap and whip in hand. The story goes that she kept up her one mile per hour, walking day and night until she completed her task and won the wager." Other readers may enlighten us still further 36 03 21c

1912 league set up [4.17]

1913 Billiard league first annual meeting 13 10 17 p10 CIP

1938 Joe Davis' billiards club - women's world champ [1.2]

1954 Since the inauguration of the C.D.N. Snooker Cup for the amateur championship of Cambridgeshire in 1946, only three names have previously been inscribed on this coveted trophy. Now that of L.T. Ambrose has joined the names of P.G.T. Hughes, A.L. Batterbee and R.E. Williams. In the final he beat W. Philpott through superior tactical play. Philpott played the bolder type of snooker and at times got in some delightful pots. He was always prepared to go for 'near impossible' shots and twice got two glorious pinks only to see the white disappearing also. But Ambrose relied on the 'safety first' motto, which in the end paid dividends. CDN c 13.4.1954

1982 Snooker has gained a new respectability, operating from high-class, exclusive clubs. Now the Dodgers Snooker and Billiard Club has opened in the old historic Newnham Watermill. It has

five new tables of the finest Brazilian mahogany and an antique match table which has been restored to its original condition. With each table weighing over a ton, the floors have been reinforced. Members are issued with a computer-controlled access card with video cameras acting as a double check against gatecrashers. 82 04 23a [17.7]

1989 Cambridge Snooker Club is to close after five years because of redevelopment. Memberships will be transferred to Frames in Coldham's Lane, a popular social & sports mecca. Each has 800 members and 20 tables 89 06 26

1939 Waterworks Company new bowling green opened, the only one with an air raid shelter –
39 07 25

1957 Cambridgeshire Women's Bowling Association was founded in 1937. Now their new flag in the County colours of light and dark blue and old gold was hoisted for the first time at a bowls drive at Brooklands Avenue to celebrate its 21st anniversary. 57 07 17

1958 new bowls club for ladies – 58 01 31

1967 Chesterton Bowls Club was founded in 1931 with HQ in Milton Road. The lease expires next year; now found new site on St Andrew's Road – 67 11 07a; 67 12 30

1974 The opening of Cambridge's new indoor bowls centre at Chesterton brings to a climax many months of work by a group of bowlers who can now boast the only six-rink indoor green in the country. Sited next to their outdoor green in Logan's Way, the impressive new building is the next best thing to bowling on a warm summer's day. Already there are 400 bowlers on the membership lists and secretary N. Harper-Scott says there is still room for more c74 09 21

1977 Chesterton open #80,000 indoor rink [13.2]

c.38 : bowls, 10 pin

1961 A London company who hope to build a 24-lane ten-pin bowling centre on land at the 'Willows' in Chesterton has offered to pay the expenses of any residents wishing to see their Stamford Hill, London, facilities. There would be a social centre and bowling alley with restaurant and snack bar as well as a nursery for the babies while their parents play. The centres are well-run, clean and open, giving very little trouble, they claim 61 11 10

1962 Plans for a 24-lane ten-pin bowling centre to be built on The Willows site at Cam Road have been rejected. Planners say it would be out of character in a residential area and should be located near a community centre or shops. The application by Contemporary Homes Ltd for a bowling centre with restaurant and a place where parents could leave their children had brought objections from local householders. 62 01 15c 17.13

1964 bowling : 10-pin bowling alley opened Mill Road [7.22]

1964 Plans for a 24-lane ten-pin bowling alley on Mill Road have been approved subject to conditions that the premise should be closed between midnight and 8am. It would include a snack bar, changing rooms, kitchen and offices. But now developers want to extend the project to include either a dance floor or ice-rink, a public house with flat over, service station with office and parking for 150 cars. 64 01 07

1965 Tenpin bowling alley, Mill Road to open; one of principal recreation places in city – 65 04 08c

1970 Tenpin bowling rink, Mill Road, shuts down suddenly by Magnet Bowling who opened it in 1965, had been running at loss for 3 years – 70 02 17

Boxing match, 1950s

c.38 : Boxing

1905 The Cambridge Hippodrome has secured the services of Alec Bain, one of the best-known wrestlers in the country. He offers £20 to any man he fails to defeat in 15 minutes or £50 to anyone who defeats him. His opponent in a 'catch-as-catch-can' contest was Mr Davis, a well-known local exponent of physical culture. For eight minutes he extricated himself from dangerous holds but then was fixed in a 'hammer-lock', a hold he claimed was not allowed as it was very dangerous. But the referee's judgement was in favour of Bain. 05 11 14a

1906 An assault-at-arms at the Conservative Hall, Soham, included a ten-round boxing contest between 'Happy' Pinfield of Newmarket and 'Porkie' Archer of Soham. Pinfield proved himself the best boxer and hardly a minute had elapsed ere Archer had enough; he dodged through the ropes and hit behind the screen amidst the laughter of the spectators. Later Steve Canty guaranteed to defeat three men in nine rounds, but only two accepted the challenge and were quickly disposed of. 06 03 01b

1907 1907 Wrestlers' Arms reminiscence – boxing – 07 06 22d

1909 In a shoeing forge at Northampton Street, Cambridge, is to be seen a massive silver cup, the trophy of the Middle Weight Amateur Boxing Championships for 1909. In the same forge is a young smith, a splendid specimen of manhood with arms and legs of remarkable development. He is Mr William Child who for two years has carried off the Middle Weight Championship of England 09 04 16

1910 Harry Cox of King Street was an old pugilist who learnt in a hard school where gloves were regarded as unnecessary. He started in a travelling fairground booth but when he visited Midsummer Fair decided to settle in Cambridge. He took part in many open-air fights without the sanction of the law which were witnessed by large numbers. Pupils from the University attended his rooms at the Green Lion in Short Street and later at the Royston Arms, Jesus Lane. "Professor Cox" also gave lessons at St John's and other colleges and several University champions passed through his hands including T. Milvain of Trinity Hall who was heavyweight champion of All England in 1868-69 and is now Judge Advocate General. 10 02 11c

1924 Many local boxing enthusiasts will learn with regret that the death has occurred of Cox Griffiths, the wrestling and boxing champion. His record at wrestling was a lengthy and creditable one. He had met several champions on the music hall stage. By trade he was a blacksmith and a toolmaker but he was perhaps best known as University instructor. For 20 years he was a publican in Cambridge and recently carried on business as a bottle merchant and general dealer c24 04 02

1932 Stan Waller, the Cambridge middle-weight boxer and one of the best in the country, has returned from a tour to South Africa designed to re-establish boxing in the public taste, for they have gone all-in-wrestling mad. He beat Eddie McGuire, the South African champion in a bout in Johannesburg. Meanwhile Cambridge had its first taste of open-air boxing with a tournament on the Town Football Ground promoted by Arthur Waller 32 06 07a aa b

1933 The early days of the Cambridge Amateur Boxing Club were recalled by W. Child, the well-known referee. They began by buying a second-hand pair of gloves and fighting under a street lamp until chased by a policeman. Then they hired a washhouse and met in various public houses. The club had passed through hard times and been near to pawning everything they had. But the fighting had always been clean in the best sporting spirit. On one occasion two Princes had attended a contest at the Corn Exchange to see their chauffeur box. 33 04 07 & a

1949 Amateur Boxing Association reformed 1949 in former PoW camp chapel, Coldham's Lane [11.5]

1961 In a former prisoner-of-war camp chapel in Coldham's Lane members of the Cambridge Amateur Boxing Association celebrated the start of a new season by flailing themselves, and each other, almost to husks. Membership is restricted only by the inability to pay the annual subscription – boxing ability is immaterial. Boys from the age of seven are provided with equipment and training and competitive bouts begin at the age of 11. One lad accumulated a host of silver-ware but became too successful as officials were unable to find anyone who would fight him 61 10 27

1962 Cambridge Amateur Boxing Club is seeking for a piece of land on which it can build a gymnasium in place of their headquarters in Henley Road. They have more new members than at any time in their history and have collected over £2,000 towards a new building which will

include kitchen and seating accommodation. In addition the club's President, Arthur Cooper, has promised a brand new £100 ring. The season opens with a fixture against the University at the Corn Exchange with another in the Drill Hall, East Road 62 09 26b

1981 Cambridgeshire is the centre for illegal bare-knuckle fist-fights; they are straight knockabouts until one of the fighters drops and as much as £3,000 can change hands with single bets of around £50. A fight at Fen Road Chesterton involving two teenage boys from the gypsy fraternity and watched by a noisy crowd of more than 500 was abandoned when police moved in to break up the crowd, some of whom had travelled from all over the country. 81 02 02 [13.4]

1981 bare-knuckle fights – history – 81 02 03

Night climbers with equipment, 1930s

136.67

c.38 : climbing and night climbing

1905 It is seldom that a Cambridge tradesman, in the short time he can allow himself for a holiday, undertakes such a hazardous venture as that successfully accomplished by Mr Alphonso Smith. He has succeeded in ascending Mont Blanc only to find the little observatory on the summit so covered with snow that he could not find the door. It was so bitterly cold that he made only a very short stay. He has no wish to make a second ascent. 05 09 09 & a

Night climbing

1908 undergraduates climb Backs trees, roped together in Alpine fashion - 08 03 14

1908 There has been an Alpine fever amongst undergraduates, finding a vent in climbing trees along the Backs. The wireless telegraphy station on the Huntingdon Road has been the site of the latest exploit. This is a pole over 200 feet in height which receives messages from Cumnor Hill near Oxford. Two undergraduates merrily commenced the ascent by means of the metal spikes driven in at convenient intervals and managed to reach the top. But the return voyage was not so easily accomplished and they reached terra firma with a distinct sigh of relief. It is a matter for common wonder what object will next receive the attention of this strange species. CWN 08 06 05 p5

1922 Roof escapades by undergraduates have been numerous of late and the missing prehistoric fish weather vane on the Geological Museum dome is the outcome of one of those. Another high altitude "rag" took place recently when handkerchiefs and clothing were tied to one of the towers of King's Chapel. A story has been told that a proposal of marriage was made and accepted on a college roof during a nocturnal excursion in which undergraduate students of the fair sex took part. Can it be that this story was circulated to try and throw the blame on the ladies for removing the prehistoric fish? c22 06 03

1924 A particularly sad story was related to the Cambridge coroner when an inquiry was held into the death of a 18 year old student at Girton College. The girl, who was stated to be fond of rock climbing, attempted to ascend the Tower of the college with the intention of seeing an owls nest. Apparently she slipped and fell to the ground. From the injuries sustained to her legs she evidently alighted on her feet, which goes to prove that she hung on somewhere for a moment before she fell. Before she died she had said, "I so wanted to see the little owls" c24 01 26

1932 Overnight two unfurled umbrellas were securely tied to the pinnacles of King's College chapel so they stood straight up. The college called a window cleaner to remove them, but despite his long ladder he was unable to get within ten feet. Two undergraduates went on the roof with shotguns and endeavoured to shoot them down. One fell but the other proved more difficult. The shots knocked the handle sideways. For some hours it floated gracefully from side to side in the wind like some gigantic weathercock. 32 05 18

1932 The inner history of the King's College roof-climbing escapade has been revealed. The hazardous feat was carried out by two parties of undergraduates, including several well known athletes, who are members of a secret organisation composed of skilled mountain climbers. They used the lightning conductor which has been loosened by previous generations of climbers. It is the climax of a series of climbs during the past few months; now they proposed to publish detailed accounts of their exploits 32 05 21

1932 The 'Brighter Roofs for Colleges' movement is growing. Overnight at Ridley Hall two cords were stretched from one of the college towers. On them pyjamas, pyjamas and still more pyjamas were floating in the wind. Large ones, small ones, brightly-coloured and silk examples were proudly swaying in the breeze and in the middle was suspended a parson's hat. After they had been lowered to the ground their various owners joined in a frantic scramble for their particular pairs which had been removed from their rooms. 32 06 01a

1932 Night-climbers Kings chapel & Eton – 32 05 24

1932 King's nightclimbing – brolly removed – 32 06 02

1933 Nightclimbing craze spreads to Emmanuel – 32 06 06d

1933 The roof-climber who 'pinched' the two weathervanes off the Squire Law Library building seems to have had an attack of conscience, for the missing cock and fish were replaced last night. But they also left tasteful decorations and souvenirs in the shape of two sherry bottles at each end of an arch high over the entrance to the Geological Museum. They are said to be full and so act as 'bait' to other scalers of walls and roofs. 33 06 13

1935 At Trinity Hall porters were busy pulling down a motley assortment of bedroom and bathroom utensils which had mysteriously appeared on the roof and pinnacles of the college. Water jugs, tied to the roof with gay scarves, formed a large part of the amateur decorators' efforts, but even an armchair somehow got on to the roof and caused no small trouble in getting in down. The college say it was 'just a bit of sport' and have not discovered the identity of the persons responsible 35 02 11a

1936 Undergraduates last night hazardously climbed to the roof of Emmanuel College North Court and decorated six chimneys with chamber pots. They were removed by Mr S. Burgess of Messrs Prime's the builders who is often called in to remove various objects placed in inaccessible positions by exuberant undergraduates. "Some of them can run up brick walls", he said: one took off his shoes and went down a wall by means of his feet and hands alone to remove a gown that had been placed in a particularly difficult spot. 36 03 14

1936 Some members of King's College went mountaineering last night. A Union Jack and the Abyssinian emblem were fixed to the pinnacles at the east end of the chapel with a large banner slung between them bearing the words 'Save Ethiopia'. The flags were still flying during the morning but the banner was blown down by the wind. A man who was astir early claimed to have seen four undergraduates climbing up at four o'clock. Unfortunately he was unable to see what means of assistance they were using in their climb, otherwise one of Cambridge's age-old mysteries would have been solved 36 04 27c

1937 Roof-climbing – Ronald Searle cartoon – 37 10 16a

1949 A bicycle appeared on the weather vane of the Cambridge school of geography, Downing Place, over the weekend. Various articles are put on university buildings from time to time, but usually without much point. This escapade has a real point to it. The weather vane is on the roof where weather observation is carried on, with the aid of rain graphs, thermometers, barographs and other meteorological equipment. The practical joker apparently thought it would be a good idea to give the meteorologists a new weather cycle c49 01 29

1957 The Night Climbers of Cambridge are at it again. At daybreak two objects had been placed on the spires of King's college chapel. One is the globe of a Belisha beacon, the other a nylon stocking. There was a turret-climbing episode in May 1932 on the eve of Empire Day when a Union Jack was flying from the north-east turret. Two nights previously the pinnacles were decorated with open umbrellas 57 05 24

1964 In the very early hours young men venture out intent on scaling some of the university buildings. Night climbers are not an organised society, just individuals who know the other students who participate. The porter's lodge at King's is an irresistible challenge, not because of any climbing difficulty but because of the imminent danger of being discovered by college porters below. Climbers usually tie a piece of rope at the top of a building, though sometimes an item of female underwear is seen flapping gaily in the breeze the next morning. 64 04 24e

1965 'Peace in Vietnam' banner strung across pinnacles at King's chapel by night climbers – 65 06 07

1975 Tourists and passers-by took little interest as two men groped their way up the south pinnacle of King's college chapel. They were steeplejacks from a London firm engaged by the college to remove a lavatory seat which has crowned the chapel since it mysteriously appeared on the pinnacle three weeks ago. It all looked easy as one man finally stood at the top waving the offending object high over his head c75 08 17

1889 County Cricket Association formed [4.10,5.1,13.8]

1892 Fenner's purchased [2.15]

1900 Sir – I was pleased to notice that someone has at last had the courage to write about the wretched condition of Parker's Piece. Our last wicket was not only full of holes but we had a little hill rising a yard and a half in front of the block. Twelve shillings were paid for this wicket and a tent, whereas a college ground and pavilion (with a splendid wicket) can be hired for 7s.6d. Our cricket club have been so disgusted with the wickets that we have decided not to play again this

season on Parker's Piece unless it is impossible to get a wicket elsewhere – Disgusted Cricketer
c00 07 24

1901 Cricketers will learn with much regret at the death at his residence, Mill Road, Cambridge, of the veteran cricketer and umpire, Bob Carpenter. He was 27 when he played in his first match at Lord's for the United England XI. A powerful hitter, his favourite stroke was to square leg. Playing for Cambridgeshire against Surrey in 1861 he made an innings of 100 described as "probably the greatest display of batting the world has ever seen". He played regularly for England in company with two other Cambridgeshire cricketers 'Pepper' Tarrant and Tom Hayward' CDN 1901 07 15

1902 Tom Hayward, the cricketer, was the recipient of an expression of that pride and admiration which his fellow-townsmen so unstintingly entertain for the man and the sportsman. It took the form of the time-honoured complimentary dinner at the Lion Hotel, Cambridge on the occasion of his return home after a most successful cricketing tour in Australia. Mr Hayward thanked the company for the kind reception which made him more nervous than playing before 40,000 people. As to the tour they had a very pleasant time. There was only one thing to mar it and that was losing four out of five of the test matches. But they had bad luck, all their best bowlers being ill or injured. CDN c 25.4.1902

1904 Cambridge Victoria Cricket Club celebrated its jubilee. From as far back as 1855 there are complete histories of matches played. The first took place between teams captained by Mr Goody and Mr Merry. In 1859 an All England XI played 22 of Cambridge Town on Parker's Piece, five of whom were from the Victoria Club. In the early 1860's there was keen rivalry with village of Abington who possessed a very decent eleven composed of people gathered from surrounding places such as Linton, Hinxton and even Cambridge. The Victorians were so keen they played cricket whenever the opportunity offered, even on ice when 'the ball was returned very quickly and a number of men run out' – CDN 10.6.1904

1906 Mr W. Saunders of Histon has had a remarkable cricketing career over the last 52 years. He learned to play on Parker's Piece and formed a club at Impington until its field was sold. In the 1860s Cambridgeshire occupied the premier position in county cricket and he was numbered amongst some of the finest players in the country being chosen to play against the first All England eleven to visit Australia. 06 06 16b

1906 Mr. W. Saunders is well-known in cricket circles throughout the county. His unbroken cricketing career extended over 50 years - probably a record never beaten in England - and was captain of the famous cup-fighting, village cricket club (Histon and Impington) for 25 years. He was presented with a silver rose bowl to commemorate the event. The first time an England XI returned from Australia (in the sixties) they were opposed by another team, picked from all England, on Parker's Piece. The latter side, for whom Mr. Saunders made 22 and took a number of wickets with his slow bowling, won. In those days, playing for Cambridgeshire against such sides as Yorkshire and other counties, Mr. Saunders - an amateur, was a successful bowler. Cambridgeshire at that time had some of the finest cricketers in England, including Bob, Carter, George Tarrant, Tom and Dan Hayward (uncle and father respectively of Tom, of Surrey fame 17 01 31 CIPof

1906 Tom Hayward, cricketer, may retire. 06 07 07c

1910 Daniel Hayward senior was brother of Tom Hayward, the famous All England cricketer of the 1850s and 60s and father of the present Tom Hayward, the well-known Surrey batsman. His other sons include Dan, the present University custodian of Fenner's and Frank who frequently appears in local cricket. In his early youth he was a cricketer of more than ordinary ability as a wicket-keeper whose form gained him a place in some of the great matches. He was landlord of the Prince Regent for 42 years having entered into occupation on 24th June 1868. 10 06 03i

1912 Jack Hobbs dinner at Lion Hotel – 12 04 26 & a

1914 Tom Hayward, the great Cambridge and Surrey cricketer was quietly married at Wandsworth Registry Office. The arrangements were kept very secret but a 'Daily Sketch' photographer saw the happy couple leave. His wife, Matilda Mitchell, is one of the most famous of women detectives; a tall vivacious blonde, she was head of the secret service staff at Selfridge's. Tom will retire from cricket next year, she says – 14 01 23b

1919 The future of cricket – cricket association – detailed article – 19 04 23b

1925 cricket : Jack Hobbs scores his 127th century, breaking Grace's record [3.7]

1927 K.S. Duleepsinhji scores 254 not out - record for Fenner's - in Varsity match v Middlesex [4.1]

1930 Ideal cricket weather favoured the long-awaited opening of the Hobbs Pavilion on Parker's Piece by the Mayor of Cambridge in the presence of Mr & Mrs Jack Hobbs. He was the greatest cricketer the world had ever known and had learned to play within sight of this new pavilion. All that was needed was a record of his achievements to hang in the building, but those were not yet over. It would induce the younger sportsmen to become keen again and to carry on the traditions so that in future Cambridge would never be without its representatives in first-class cricket. 30 03 27a [5.14]

1930 Jack Hobbs came for the first time since the opening of the pavilion that bears his name. He brought one of the most brilliant cricket teams that Parker's Piece has ever seen with seven who have captained England including Hobbs himself and O'Connor, both of whom learned the game in Cambridge. By two o'clock there were at least 5,000 spectators massed three and four deep round the entire field. Others stood on the running boards of cars drawn up in Park Terrace to see the game. 30 09 18b-c

1931 The question of cricket on Lammas Land, Newnham produced a spirited debate: old ladies crossing the grass might be hit with the hard cricket ball. The Commons Committee is going through a spasm of kill-joy spirit: boys played on the streets but as soon as they went to open space they were told they must not do so. Perhaps a soft ball could be used – or a golf ball. Newnham Institute sought permission for a cricket pitch, but this would turn it into a second Parker's Piece 31 07 17f & g

1931 Cambridge Rabbits' Cricket Club, formerly Heals, held their annual dinner at the Corner House Café, Petty Cury. They had enjoyed a most successful season and were thoroughly established and well-known. Mr D. Burton further showed his generosity by offering to present yet another cup for the most outstanding bowling performance of the season. His cup for the most outstanding performance went to Mr R.P. Fuller. 31 12 25d

1933 Ranjitsinhji appreciation – 33 04 08 & a

1933 cricket : on Parkers Piece : 25 runs scored in 3 balls (10,7,8) [1.6]

1934 Donald Bradman, Australia's wonder batsman, keeps very much in the news. In most cases it is his century habit that brings him the limelight – but not so against Cambridge University at Fenner's. For 'Don' was out for a duck, clean bowled by a slow leg-break from J.G.W. Davies of St John's. Two thousand people cheered Bradman when he went in to bat but the fourth ball sent down found his stump 34 05 09 [2.25]

1935 John Berry ('Jack') Hobbs has bidden farewell to first-class cricket. His retirement will cause general regret. "Mrs Hobbs thinks I ought to go on to get my 200 centuries", he said, but he needs two new legs: "after many years in the field mine get very tired nowadays about four o'clock". He will continue to play in club cricket and all in Cambridge hope to see that flashing bat in action again on Parker's Piece, the scene of his early triumphs 35 02 26

1936 Jack Hobbs unveiled a tablet in the Hobbs Pavilion setting forth his wonderful achievements in first-class cricket. The proceedings had been delayed as Hobbs would not stop making records. Jack said that although wobbly at the knees, he still played. "I can visualise the youngsters coming and looking at the board and saying 'He must have been a real good player'. When I look at that board I begin to think I must have been". (Laughter and applause) 36 06 04c

1936 Fenners cricket ground was opened in 1846 but there have been only three groundsmen, Tom Parmenter who remained to 1862, Walter Watts and Dan Hayward who took over in 1908. He has also been custodian of the University Football and Hockey Grounds. His father used to look over the Rugger and Soccer pitches on Parker's Piece where they played until the Grange Road ground opened in 1896 and the two clubs amalgamated. Dan's own sport is cricket and he once took all ten wickets for 32 runs, though he considers his nine wickets for eight runs against Bury to be his best performance. Now he is retiring 36 09 04a

1939 Death of Thomas Walter Hayward at his home in Glisson Road. Was one of the most famous professional batsmen that cricket has even known. He was 68 years of age, and although many years had elapsed since he last played, he still held many records at the time of his death. His father was Daniel and his uncle, Thomas another fine batsman in the sixties. Tom Hayward was born in Cambridge on March 19, 1871, and first came into the public eye by some fine performances when playing with the Cambridge Y.M.C.A. He went to the Oval in 1891 and qualified for Surrey. At first he was a good medium pace bowler and outfielder, but later concentrated on run-getting. When he finished his first class career at the end of 1914, he had made 43,518 runs, with an average of nearly 42, and had scored 104 centuries. He was the first batsman after W.G. Grace to complete 100 centuries, and in 1906 scored 3,518 runs. It was at Hayward's persuasion that Jack Hobbs decided to abandon second class cricket. The two made prolific opening stands for Surrey. Their association began in 1905 and two of their partnerships produced over 300 runs and 40 over three figures. In one week in 1907 they topped the 100 four times. On the only occasion on which they played together for England they were not particularly successful. Hayward visited Australia three times, and altogether played in 29 Test matches and batted 51 times. During 1906, he scored four centuries in succession, and 13 centuries. His highest score, 315, was made against Lancashire at the Oval in 1898. 39 07 21 CIPof

1950 Not many people seem to realise that women have been playing cricket now for over 50 years and that in these sex-equality days there are still some who think it is still not quite the right sort of sport for young ladies to indulge in. Cambridge Women's Cricket Club has been in existence for just over two years – and as yet no one quite experienced enough has played for her county. Cambridge has an overarm bowling rule and has little or no experience against the underarm method. They were rather flummoxed when they first played a village women's team who used this style of delivery, but they are getting accustomed to it now c50 06 19

c.38 : Cycling

see also c. 26.485 bicycles

1899 At the Granta Cycling Club smoking concert the chairman said all cyclists in Cambridge were determined to have a cycle track. Every kind of athletics was catered for except cyclists. It was not fair to those who placed stock on Midsummer Common to have it there, and unless it was enclosed they would not get a 'gate' as people who paid to see races generally liked to go on a stand. If cyclists were determined to have a track they should collect a sum equivalent to that paid by those who put stock in the Common and then they could have their ground enclosed c1899 11 12

1903 The Granta Cycling Club ceased to exist when the annual meeting was held at the Blue Boar Hotel, Cambridge. When the track at the Backs of the Colleges was in use the membership rose to 50 but it has been gradually dwindling for the last three years since no cycling track has been available in Cambridge. In the event of a cycle track being obtained they will make an effort to revive the club. The balance sheet showed that the club died solvent. c 03 06 13

1905 Proposed cycle track, Midsummer Common – 05 08 15a & b

1905 Dartigan, the only exponent of the daring and sensational acts of cycling around a loop heads the bill at the Auckland Road Hippodrome. The wonderful sight of a cyclist careering head downwards along the inverted part of the track aroused a storm of applause. Since he began his dangerous occupation he has experienced many accidents. Once at Yarmouth he fell from the top of the loop and his head crashed through the track with the result that his jaw and nose were broken and his head so severely injured that he sustained concussion of the brain. 05 11 07a

1906 Sidney Lack, the champion cyclist, has been suspended by the National Cycling Union and his licence cancelled, after taking part in a race at Wellingborough. Local crowds will be sorry if he is unable to compete as an amateur again. He was a great favourite, largely because of his reputation for riding 'straight'. But he has been approached by the British agent of the Paris Velodrome with a view to a career as a professional cyclist in Paris 06 02 15

1906 Sid Lack of Histon, whose exploits on the cycle track are famous, has left Cambridge for America. Mr Lack, who filled the position of second engineer at Chivers' factory, aims at finding more scope in his vocation and for a time will be engaged in a motor car business at Boston. He has at present no intention of taking up racing over there. 06 04 27

1906 Sid Lack, the famous Histon cyclist, has found that the American climate did not suit him and returned to Histon. But since losing his status as an amateur he has an inclination to go abroad. Now the whole of his household effects have been put under the hammer including his two racing machines, and he has set sail for Australia. If he takes up racing 'down under' his career will be watched with interest. 06 09 29

1907 Arthur Markham holds world endurance tricycle record - 307 miles in 24 hours (also 50 miles in 2 hours & 100 miles in 5 hours - world tricycle record), name given to Markham Close on Kings Hedges estate [21.7] [3.3]

1907 A.G. Markham is amongst the front rank of road cyclists. At the North London Fifty Miles Invitation Road Race he was the only competitor riding a tricycle, covering the course in three hours, the fastest time ever accomplished on one. This is remarkable as 25 of the 50 miles were covered against a strong wind. Even after such a punishing race, his stamina was such that he rode another 30 miles to his Cambridge home. 07 05 06

1908 In all probability we have seen the last athletic flat race meeting in Cambridge. After struggling for several years the Liberal Athletic Union received one last blow in with the poorest attendance on record. For a large gate at least cycle races, and perhaps motor races, are required but the University will not permit these at Fenner's although similar cinder tracks are used for both. The weather did not help with three inches of snow on the ground in the morning. But the sun shone with great power and the track dried. 08 04 25a & b [6.28]

1909 A.G. Markham cycling record – CWN 09 07 23

1909 Edwin Banks, captain of the Belmont Cycling Club created a record at the Mammoth sports by winning four championships in one afternoon. He became infatuated with the sport at the tender age of 13 and later became a member of the famous Manchester Wheelers, the wealthiest club in the world. He came to Cambridge in 1908 and last year won 17 prizes. He has had spills innumerable, suffering dislocated shoulders, a broken collar bone and a broken wrist. CWN 09 08 13

1912 Mr A.G. Markam, the ex-holder of the 100 miles' world's tricycle record and present holder of the 24 hours' Eastern Counties tricycle record, covered the splendid distance of 192 miles in twelve hours. For over 60 miles he had to struggle with a dead head wind which blew with tremendous strength across the open fenland. To make things worse, at 140 miles his stomach went wrong and he went all to pieces. Four times he gave up the ride as hopeless but his followers would not let him rest and after dosing him with brandy and bathing his head they managed to keep him at it. It is doubtful if any other man of his age – he is 44 and has been taking part in violent athletics for 26 years – would have done such a ride. 12 08 02aa

[21.8]

1934 Arthur Markham was always of a cheery disposition and made friends in every walk of life. He was best-known as a cyclist and his 24 hours' tricycle record of 301 miles has never been eclipsed. He did many rides at 100 miles and his record made with the old steel wheels is still recognised as one of the best ever done. Even after his race days were done he would cycle long distances to assist with events. 34 06 02

1954 Mr Charles F. Morley, who died recently, was a cyclist who won the Eastern Counties championship for every distance from sprint to fifty miles. He was truly a great little sportsman. He was a founder member of the Granta Cycling Club & many of his successes were gained on the quarter mile circular dirt track of the University Bicycling Club off Grange Road. As a speed skater he was up with the amateurs of his day; he was elected chairman of the National Skating Association Fen Department and presented a handsome challenge cup. He was the sole survivor of a quartet of friends who made local and national history at the turn of the century including J.H. Priest, one-mile cycling champion, F.J. Christmas, cross-country champion and A.E. Tebbutt, amateur skating champion of Great Britain. CDN c 3.2.1954

1958 The 60 miles, six-lap Gog Magog cycle road race started from the Red Lion, Cherry Hinton. It was neutralised over Limekiln Road but then three of the Cambridgeshire Road Club team, J. Morley, D. Cook and M. Pilsworth, made a break. Before Sawston, on the second lap, Mick Ward from Haverhill had to make mechanical adjustments but he was in fourth place by the time they came over the Gogs for the last time 58 04 29a

c.38 : Darts

Star Brewery league one of first to be formed [21.10]

1930 The Cambridge Skittle League was formed in August and proved that the average man was a sportsman; a lot of people were inclined to 'run down' the public house games such as darts, dominoes and shove ha'penny. The Skittles League met the requirements of these people and what should be more natural than they should go to the poor man's club – the local inn. Publicans went out of their way to provide every amusement and recreation

30 04 11

1944 Newmarket Road & district darts league starts at Corner House due to blackout [4.16]

1958 Castle and District Darts League involves about 30 teams and incorporates the majority of the darts experts so a high standard of play was witnessed at the Rex Ballroom when both the men's and women's finals were held. Arthur Fordham (Jubilee) beat B. Smith of the British Queen in the final while the ladies' singles champion was Mrs Asby (Brewers Arms) who overcame Mrs Dickson (Robin Hood). Twenty games were played after which the company of 500 enjoyed dancing for three hours to the music of the popular Ken Stevens band. 58 05 24

1963 Darts is still a popular sport which appeals to all classes. The Star Brewery League began 30 years ago and is a very lively concern with 300 registered competitors in its 20 clubs. George

Woolley of 'The Hoops', Long Stanton is one of their leading performers but 'The Jubilee', 'Haymakers' and 'Five Bells' have all won the championship in recent years . Ely City Darts Organisation, which started around 1932, has nearly 800 on its register, including 90 women. 63

c.38 : Fishing

1905 Two undergraduates said they were fishing at Holywell when Baron de Ketschemdorf arrived in another punt and asked them to move. They declined, saying the river was public, at which the Baron said he would throw them in the river. There was a wrestle during which he tried to throttle them. The German said he had driven a pole in the bed of the river showing that he had already occupied that water and it was a point of etiquette not to fish there. The men had threatened to hit him with a bucket. He was fined £1. 05 08 5b – d

1906 An extraordinary sight, which ought never to occur again, is to be witnessed at Baitsbite Lock. For a hundred yards the surface of the water is literally covered with dead and dying fish – pike, roach, bream, dace and a host of smaller fry. Fishermen would never have dreamed there were as many fish in the waters. They have been slaughtered by the introduction of some noxious substance into the river. 06 10 04 & a

1907 There was unusual excitement among the juvenile fraternity and considerable bustle in arranging fishing rods and other paraphernalia. The occasion was unique, for there was to be a juvenile fishing competition. Nowadays children are admitted to pleasures and privileges hitherto enjoyed only by the adult portion of the community and this is the very latest form of amusement arranged for them by the Albion Angling Society 07 08 20

1918 Suggested Netting Of The Granta. —it seemed hard to net a fresh water fishery where there were so many wounded soldiers. It was excellent sport for wounded soldiers to sit on the bank if the owners would only throw the river open to them 18 07 07 CIPof

1930 Extensive netting was carried out in the ponds at Madingley Hall; over 8,000 fish, mostly roach and rudd, were transferred in tanks to Newnham Mill Pool. The party, which included Mr Ambrose Harding and Horace Coulson arrived equipped with nets and tanks which strongly resembled dust-bins. The first haul was made across the bridge end of the pond and resulted in the capture of about 400 small roach which were taken to Cambridge by lorry. The next produced upwards of 2,000 fish, too many for the lorry so Mr Coulson took some in pails in his car. The third pond yielded a still finer catch CDN 10.1.1930

1931 The Ouse and Cam Fishery Board want permits issued to people who catch eels as a livelihood, or to destroy them. John Barnes of Manea said men had fished for eels for centuries, it was part of their rights. He used the same implements as his great-grandfather before him; they were worth £50 and of no use for other purposes. Some years he caught £10 worth of eels, other years £80. The best time was when the flood water had almost receded that that was during the close season. He had a strong objection to getting a permit for something he'd done for years. It was the thin end of the wedge. 31 03 06b

1934 Some 750 young anglers assembled on Parker's Piece and were played to the station by the band of the Boys' Brigade to catch a special train to St Ives to take part in the Albion Angling Society's annual fishing match for youngsters. The miniature army of anglers disported themselves along the river bank at Hemingford meadows. It was not unusual to see gathered in one small space at least half a dozen children with lines and rods crossed and floats completely submerged. The winners of the President's cup for the best catch were F.Parr (boys) and Marjorie Benton (girls) 34 08 24

1935 With rods and a look that combined gladness and determination, a children's army a thousand strong gathered on Parker's Piece, intent on getting their fish. A free outing to St Ives, an afternoon's fishing, a tea, sports and prizes was arranged by the Albion Angling Society. Ice-cream men did a roaring trade and one enterprising draper sold a number of Panama hats before the quarter-mile long procession set off for the station headed by the band of the Boys' Brigade. The children's match was started about 30 years ago but stopped during the war and was not revived until 1928 or 1929. 35 08 22a

1938 When the lake at Madingley Hall was netted the result was not just a matter of kettles of fish but bins full. The ever-growing number of anglers makes such demands on the available fish that annual re-stocking is essential so the Ouse and Cam Fishery Board relies on a number of owners of private lakes who have given permission for some of their fish to be transferred to other waters. The lake at Longstowe Hall has also yielded a large number – once the haul was so heavy that the net broke. Anglers no longer regard fish as something to kill; at one time it was common to see fish left to die on the river bank. Now they are returned at the end of the day 38 02 11b

1956 Cambridge Albion Angling Society celebrated its 50th birthday with a dinner at the Dorothy Café. They owed much of their success to the work of the late Jack Cartwright, the 'Grand Old Man' of the Albion during the difficult years of two world wars. Since the war no sport had recruited the vast numbers that angling had done. They now had more than 1,500 members. 56 05 19

1956 Samples of water taken from the River Ouse at Huntingdon after many fish were killed on the Newton stretch of the river contained traces of cyanide. It came from the normal effluent discharge from Huntingdon Council's septic tank at Hartford. No other sources of pollution were found and the only chemical spraying was using a non-toxic weed killer. It was important that the

district pollution prevention officer should be on the telephone, but the Post Office did not have the necessary equipment. 56 07 20b

1961 Cambridge & District Sea Angling Society set up [21.12]

1969 Challis & Sons fishing tackle shop in Newmarket Rd to close after 31 years, was formerly Hardings; made Pembroke and Trinity reels – feature – 69 01 30b

1981 It is likely to take more than 10 years to restock a polluted stretch of the River Cam in which hundreds of thousands of fish died. Anglers say that fishing in the city has now been entirely wiped out. Around four tons have been removed from the river near Bait's Bite lock but many are still floating. It is feared that as well as causing a smell, the rotting fish could cause further pollution. It is suspected that raw sewage was washed into the river during heavy rain. 81 07 15a

1913 Abbey United match in 1913 – predates United history – 87 11 10a

1913 It seems practically certain that Cambridge United will lose their popular captain, Jack Rowell, for he has gone into business on his own account which will necessitate him giving up playing on Saturdays. Visiting clubs should note that Jack has taken over at the Hopbine in Fair Street where he will be able to accommodate them when playing in Cambridge. It is a great thing for teams to have somewhere to go where they will be well looked after and he understands their requirements. Jack is about to assume other responsibilities, for in a very short time he will have taken unto himself a wife.13 01 24 p3 CIP

1913 1913

An important development in local football took place when the Cambridge Town F.C. was elected a member of the Southern Amateur League together with Weybridge. This was the fourth time they had applied and their success is largely due to their excellent performances in the last two seasons. This means they will compete against some of the leading amateur teams in the country on the Hills Road bridge ground with a home match practically every Saturday
13 07 04 p3 CIP

1914 Football Amalgamation - Cambridge Town and Cambridge United Football Clubs, agreed the clubs should amalgamate. If they were to succeed in the bigger competitions they were going in for next season they must play better football, and to that end they must get the best men possible. This was what they could do through amalgamation.14 05 22 CIPof [8.1]

1920 Camden Football club formed [14.5]

1921 Cambridge Town Football club new ground Milton Road – photo across site – 21 10 12a

1922 The new ground of the Cambridge Town Football Club, situate to the north of the junction of Milton-road and Victoria-road was formally opened by the Mayor of Cambridge on Saturday, after which the Town played their Southern Amateur League return fixture with Merton, and started their record in the new ground with a satisfactory victory by three goals to none. The Mayor said that just after the war he was approached to act as trustee of a fund for purchasing a ground for the Town F.C. Without a suitable ground it was impossible to carry on for any length of time. He hoped the club would be successful, because it owed the bank something like L1,100 - but he was told a man thinking of big things was not a successful man of business unless he owed a considerable sum to the bank CDN c 1.5.1922 [2.19,7.23]

1929 Cambridge Town football club announce assets of £5,000 compared to poverty of a few years ago [4.8]

1929 F.A. Ridgeon, the Cambridge Town Football Club's inside left, travelled by aeroplane to Sussex for the F.A. Amateur Cup tie with Southwick. There was some doubt whether he could

make the match owing to duties in Stamford preventing him from travelling by train. Hearing of his difficulty Mr D.G. Marshall of Aviation Hall generously placed his Moth aeroplane at his disposal. His son, Arthur Marshall, would have piloted the machine but he had gone on an air trip to Austria so a de Havilland pilot was engaged for the journey. This is, we believe, the first time an amateur footballer has travelled to a match by air. Cambridge won 2-0. CDN 14.12.1929

1930 Sensational scenes were witnessed when Cambridge Town met Ipswich in a vital football match at Milton Road. The crowd, numbering over 7,300, were annoyed by some disputable rulings by the referee. At the final whistle they surged on to the field and surrounded him. The situation looked very ugly when Cambridge players and police with drawn truncheons went to his assistance. They got him to the pavilion but the crowd tried to storm the building. When the Chairman, W.R. Paige, tried to gain order with the aid of a megaphone he was shouted down. But for the quick work of many police, both uniformed and plain clothes, players and officials, the referee might have been very roughly handled. 30 04 25

1930 Milton Road heroes – football cartoon – 30 12 01a

1931 The complete reconstruction of the Cambridge Town Football Club is underway and when supporters pay their money at the gate next season they will be confronted with an entirely new sight. The old stand has been demolished and the network of frames for the new one seating 800 people erected together with a new pavilion. There will also be a full-sized Cumberland turf green for the Chesterton Bowling Club. 31 06 12l

1931 Cambridge Town Football Club's £4,000 stand was officially opened by the Mayor as Milton Road took on again its usual Saturday afternoon activity. In the centre of the pitch the Railway Band played crowds into the new stand and the lily badges of the Town Supporters' Club were well to the fore. The new dressing rooms were not in use and players used the old pavilion. Cambridge won 4-3 31 09 04f

1932 Abbey United started their football campaign in fine style. Not only did they play their first match on their new ground but they won it. The ground is situated close to the former pitch at Newmarket Road and has been levelled and fenced-in. All this was possible through the generosity of the club president, Mr H.C. Francis and it was officially declared open by Mr R.J. Wadsworth 32 09 02b [1.8]

1940 Suspended for Duration. — The Cambs. F.A. decided to suspend all competitions promoted by the Association for the duration of the war, with the exception of the Minor League. It was considered that as Minor League clubs only included players under 18 years of age, the competition would be well supported. The officers and council were re-elected to carry on for the duration of the war. 50 08 09 CIPof

1944 The scheme to open a sports ground at the Cambridge Town Football Club's ground evoked considerable debate and criticism. After the debate the council agreed to a resolution that the Entertainments Committee be asked to continue their efforts relating to a sports ground, with wide facilities, for Cambridge. By a large majority the committee were given power to continue negotiations with the Football Club "on a peaceful basis" 44 06 16 CIPof

1946 'Foot-the-ball' match as part of best rag for years – 46 12 04, 04a

1948 The newly-formed Abbey United F.C. Supporters' Club launched out into the social sphere and their first dance arranged at the Guildhall was gratifyingly successful and the happy relationship between Abbey and the Cambridge Town F.C. was in evidence by the presence of representatives of the latter. Approximately 300 dancers enjoyed themselves to the music of Len Tibb's band. The Ladies Section of the Supporters' Club was responsible for the catering and the committee intend that this effort shall be the first of a series of social functions designed to put Abbey United F.C. "on the map c48 03 26

1951 Abbey United change name to Cambridge United [14.8]

1955 Stanley Matthews, the greatest soccer player of the century made his first visit to Cambridge. Local football officials and celebrities laid aside the rivalries of the field for the opportunity to shake his hand. At the end a schoolboy collared him for his autograph; Stanley said: "When I was your age I was always in bed by eight o'clock". He then left for his hotel and bed – dead on 9.30 pm 55 12 17c

1952 Three seasons ago Cambridge United (then Abbey United) Supporters' Club embarked on an ambitious scheme – the building of a £3,000 pavilion and clubroom with office accommodation. At first the loyal band of supporters was beset by building material difficulties and then hampered by the weather. There were scenes of great enthusiasm when the building was handed over to the football club management. It is just 40 years since the club was formed as Abbey United as the outcome of the desire to play football by a Sunday School class. "Our set-up is now really wonderful and there is no reason why the club should not go on from success to success", said Harry Habbin, chairman of the Supporters Club. CDN 52 05 02

1952 Cambridge council objected to the proposed development of land at Stourbridge Common as a professional football ground. The land was acquired for tipping purposes and they wished it to be zoned for storing Civil Defence materials or for use as a lorry park. The Chief Constable said that, assuming the aim was to bring Third Division football to Cambridge with possible crowds of 15,000 people, it would not present much difficulty in dispersing them from Newmarket Road after a match. The City council proposed a municipal sports ground at Trumpington Road. The class of football envisaged would attract gates of not more than 1,000 and would not be in the same class as Cambridge City or United football clubs. c52 11 12

1953 Cambridge City Football Supporters Club members gathered to witness the opening of their new headquarters. The Supporters Club was founded 25 years ago and several of the original members were present, including R.J. Wadsworth, the first President. The new building is constructed of brick and wood and decorated in blue and white, with check curtains to match. It has a bar, committee room and other amenities together with a canteen. In the main room hang photographs recalling the early days of the club. Players' wives and young ladies are welcome. c53 07 23

1953 football : new stand built, Cambridge City football club [5.6]

1954 Real American softball came to Cambridge Football Club ground when the US Air Force Hospital Wimpole Park beat a team from USAF Molesworth entirely against the formbook. But for British spectators the game was a succession of shocks. They saw an umpire hustled and pushed by players disputing a decision, two players somersaulting as they tried to catch a ball and some magnificent hits and catches that made it look like cricket. The game seems to be a glorified rounders akin to baseball. There was 'strike one', 'ball one', 'blunt' and a host of other

expressions which are difficult to explain but easy to follow on the diamond-shaped field until the victorious team had notched up their win and were cheered again and again CDN 9.7.54

1957 'Footballer of the Year', Tom Finney, has been signed to write for the popular 'Cambridge Daily News Football and Sports Review' each Saturday evening. He has been capped 67 times since 1946 and is one of the most versatile forwards of the post-war period. Tom was offered a huge sum to sign for an Italian team but declined, saying he was happy to remain with Preston North End for whom he scored 22 goals last season. He knows the game inside out and will present a lively commentary on the soccer scene each week. Do not miss them. 57 08 19

1958 City & United Football clubs elected to new Southern League [6.7.6.9]

1958 City Football club professional [446.15.1]

1958 Elfleda Road residents complained that when they bought their houses Cambridge United was a little football team with about 200 spectators playing on an open ground with no banking. Now the ground had been built up with floodlight pylons and there were 3,000 at matches. There was the noise from the loudspeaker equipment, the shouting and even beastly cigarette smoke. The Supporters Club was a nuisance – 'having finished their evening, these boisterous individuals, fortified by their beer, make their way down the unmade road to the Council estate', one resident said. 58 02 06

1958 Cambridge United turning pro – cartoon – 58 04 19a

1958 Cambridge United's development – enters Southern League – 58 05 10

1959 Cambridgeshire Football Association was launched on 24th January 1884 at a meeting in the Guildhall. A trial game was organised between two teams selected from Old Perseans, Modern Perseans and Cassandra on one side and the Granta, Rovers, Printers and Albert on the other. Newmarket, Linton, Sawston Swifts and Cam affiliated at the outset. In those days the game was controlled by two umpires, one in each half of the field. Should they disagree the matter was referred to a referee who sat outside the field of play. 59 01 02 &a 59 01 06a

1959 The memory of the night the lights that were turned on at Milton Road football ground will live for a long time judging by the way the inaugural match between Cambridge City and West Ham United was received by the 11,000 crowd. Even though the First Division club beat their hosts to the tune of five goals to two, they endeared themselves to all the spectators by the manner in which they did it. They even had the courtesy to allow the City to be the first to score under the new floodlights – although perhaps it wasn't intended! Barry Kin drove the ball hard from the wing and it matter not that the West Ham goalkeeper helped the ball into the net. 59 02 26b

1972 United "to stamp on hooliganism" [14.9]

1973 United soccer fans go wild, 2nd week, 13 arrested [14.11]

1973 Exultant Cambridge United players shared the glory with the fans after Saturday's epic 3-2 win against Mansfield - the win which takes them into the Third Division. The United players, directors, officials and their wives will be guests at a civic reception at the Guildhall. It has never been done before and will probably never be done again. That was Cambridge United's chairman Geoffrey Proctor's view of the club's startling 22-year rise to the Third Division since turning professional. "It all started in 1950-51 when we turned professional in the United Counties League and now we are in the Third Division. Naturally we want to go up to the Second Division and even First Division football. Meanwhile manager Bill Livers, the author of so much emotion the day before, spent yesterday morning helping groundsman Alec James take down the Abbey Stadium goalposts in readiness for full-scale work on levelling the pitch at the Newmarket Road end c73 05 01 [14.10]

1974 Cambridge City taken over by new company who clear their debts [14.13]

1974 United sack Livers, Ron Atkinson appointed [14.14] [2.5]

1974 Cambridge city football club have submitted plans for a £500,000 night club at their Milton road ground. It is planned that the 1,000-seater cabaret theatre will be built at the Milton Road end of the ground on a site that present houses the supporters' club. "Modern football is in the doldrums and will never pay for itself again", said the chairman. If the club get the go-ahead they intend to engage international stars and provide first-class food and drink c74 09 13

1975 Newcastle fans on rampage, Mar; afternoon of violence, 3-hour clash with police Nov [14.16]

1975 Cambridge United have taken the first major step towards a merger with their Southern League neighbours, Cambridge City. United's chairman David Ruston said "It was decided that the best way to approach amalgamation was for us to make a proposition that if city agreed, we would in due course make an offer for their shares. Both sides are agreed that something like this is in the best interests of football in the city". Jack Ginn, City's former chairman said, "Nothing can save football in Cambridge other than amalgamation. I understand City have lost £15,000 in the past year and United more than £30,000. This cannot go on" c75 06 16

1976 City trading at loss again [14.18]

1976 season of drift away from football - 500 people fewer per United match [14.19]

1976 "soccer hooligans run wild" (Aug), "hooligans run riot in night of terror" (Sep) [14.20,14.21]

1976 United champions Division 4 [14.22,15.1]

1976 The landlord of a public house in Newmarket Road, Cambridge, issued a blunt warning to customers: "Watch out, there's football fans about". This is an area which has taken the brunt of local soccer hooliganism and violence. Walk along the Road on a Saturday afternoon when United are at home and you will sense an underlying tension as supporters trek to and from the Abbey Stadium. When the final whistle blows the United supporters and the respectable part of the crowd are allowed to leave. Nearly half an hour later the visitors are permitted to make their exit under escort c76 08 22

1977 United to cage in their fans [15.2]

1977 Cambridge City Football Club's move to quite the Southern League for the Isthmian League third division brought a blazing Milton Road mutiny last night. City chairman Laurie Boost was presented with a petition of 221 names calling for the directors to reverse their decision – or resign. Manager Roy Johnson announced he would quit at the end of the season, club secretary John Aves, groundsman and trainer Bill Brignell and even ball-boys Paul Craft and Philip Butler said they would follow suit if the directors stick to their decision. The players also repeated their view that none of them would drop into the Isthmian League with City. CDN c11.3.1977

1977 Corks bounced off the ceiling – and Steve Spriggs' head – and the champagne flowed long after Cambridge United's dramatic 3-2 victory over brave Brentford. They were celebrating promotion to Division Three. It will be one of the major shocks of football history if Ron Atkinson's team do not coast home to the Fourth Division title, sitting four points clear at the top of the table. They would have to lose their four remaining matches by at least three goals while the four teams below them would have to win all of theirs. It is all safely tucked away in the realms of fantasy, says Randall Butt CDN c 25.4.1977

1978 "thin blue line halted rampaging city mob"; "in terms of quantity & quality Cambridge United have worst fans in the land" [15.7-8]

1978 Cambridge United have appointed club coach John Docherty team manager and made assistant manager Paddy Sowden general manager in a move to fill the gap left by the former manager Ron Atkinson's move to West Bromwich Albion. Docherty was appointed by Atkinson after quitting as Brentford manager in a clash with the London club's chairman early last season. He joined in a part-time capacity but was given a full-time one-year contract in recognition of his contribution to United's successful playing style. A former Brentford, Notts County, Reading and Queen's Park Rangers forward, Docherty turned down the chance to join First Division Leicester as youth coach earlier this season. c78 01 21 [15.3-4]

1978 Cambridge United, planning for Second Division football next season, want part of Coldham's Common for new £100,000 expansion plans. These include a skateboard park running nearly the length of the Habbin stand, extra car parking and a 2,500-seater stand over terracing on that side of the ground. Facilities at the Abbey Stadium have already been stretched to breaking point in the Third Division, most notably when Peterborough played a local derby in front of 10,998 people in January. c78 04 04 [15.6]

1978 It would cost nearly £300,000 for Cambridge United to move to the Cambridge City club's ground in Milton Road – and the facilities would be no better than those at the Abbey Stadium. The suggestion had been made repeatedly over the years by supporters of both clubs and has come to a head again with United's plans for expansion and a skateboard park. Directors

know their plans to take over common land would be an emotive issue, but it is a waste area and they would pipe a stream which is usually nothing more than a foul ditch. c78 04 18

1979 “support is disgraceful”, 27 arrests in violence [15.9-11]

1979 United make £100,000 profit [15.10]

1980 United at bottom attendance league [15.12]

1980 Cambridge United’s dramatic transformation from Fourth Division minnows to a respected Second Division club has brought them to heights undreamed of just a couple of years ago. But the shock resignation of two directors raises nagging doubts. They fear the club might be in danger of over-reaching itself financially. There have been examples of clubs sinking back to the lower reaches of the Football League with players’ contracts acting like millstones around their necks. However if they had not taken risks they would not probably have been in the Football League today. 80 03 28b

1980 The first football excursion train to leave Cambridge station in almost three years set off for Wolverhampton packed with United fans hoping to cheer John Docherty’s men to a place in the third round of the League Cup. The train was one of the first to use the no-alcohol regulation which British Rail hopes will reduce the incidence of vandalism. There was no problem. No matter who they were – schoolboys, skinheads, middle-aged mothers and fathers – no-one tried any surreptitious supping. 80 09 03a

1980 Cambridge United is poised to become the first club in Football League history to play a competitive match behind closed doors. The move to curb soccer hooliganism at the Abbey Stadium would involve next season’s visit by Chelsea and its notorious fans – should the two teams still be in the Second Division. The move follows troubles at Saturday’s match when Chelsea fans urinated in public causing some local supporters to leave in disgust. 80 09 16

1980 This has been a good year for Cambridge United who played Aston Villa, probably the most famous cup side in England, in the FA Cup. There was a mad scramble to tickets; 12,000 lucky fans were treated to a cup thriller and most were happy with a 1-1 draw though United were trimmed 4-1 in the replay. Then they met Wolves in the Football League Cup, beating them over two legs in a performance that brought praise from England manager Ron Greenwood. They went on to beat Aston Villa but then lost to Coventry. 80 12 31a

1981 1980-81 was best season in history [15.13]

1981 United make £40,000 loss (last year profit £171,000) due transfer dealings [15.14]

1981 51 arrested as fans run wild - Chelsea, “pub battle, 46 arrests” - Norwich fans [15.15-16]

1981 Cambridge City Football Club has crippling debts of about £65,000; this financial millstone is a legacy from earlier days when the club had been run without any administrative ability at all. A club, once the pride of Cambridge until United was elected to the Football League in 1969, has now sunk into a virtual backwater. They have gone 40 games without a win and attract about 200 spectators. But they have a ground with a capacity of 17,000 that is the envy of most non-league clubs. 81 02 05b & c

1981 Football hooligans left a trail of destruction after Cambridge United’s match against Chelsea. Mobs of youths rampaged through streets hurling bricks, stones and other missiles at police. Windows were smashed in about 30 homes which line the route to the railway station. Now the city council will be urged to provide buses to take supporters to and from the match. 81 10 05a

1982 people “willing to defend houses with pitchforks” [15.17]

1983 Cambridge United record £129,000 loss; plan £6M sports complex [11.9,15.18]

1983 United cup run [15.19]

1983 Cambridge United has signed the biggest sponsorship deal in their history with brewery company Ind Coope Benskins. They will be backing the second-division club with a three-year package worth more than £30,000. The Club has also retained a £5,000 per year backing of Norwich Breweries, which holds the franchise for the supports club, and fixed up a new kit sponsorship worth several thousand pounds with Yorkshire sportswear company, Mileta 83 08 11 p1

1983 George Reilly, Cambridge United's £140,000 record signing, has been sold to First Division Watford for 100,000. The fee is £40,000 less than United paid Northampton for him four years ago, but that reflects the state of the transfer market. The giant Scottish centre forward, who was the club's top scorer last year, has not been at the Abbey since he had pay talks with Manager John Docherty. He had a year of his contract to run and a review of his pay was due in summer 83 08 17 p1 & 83 08 24

1984 Cambs FA centenary [15.20]

1984 United fans to blame in battle Chelsea, throat slashed, 92 arrested, 3 convicted Old Bailey May 85 [16.1]

1984 United relegated from Division 2 [16.3]

1984 Cambridge United have sacked manager John Docherty, ending his reign at the John Ryan appointed Abbey Stadium as the longest-serving soccer boss in the Second Division. His dismissal comes after 10 weeks in which United have not won a match and have slumped deep into the relegation zone. He came to Cambridge as part-time coach in September 1976 and steered them through the Third Division campaign of 1977-78 after Ron Atkinson left. But unlike his extrovert predecessor his low key style failed to capture the imagination of fans who have been clamouring for his dismissal for at least 18 months 83 12 13 p1 [15.21-22]

1984 Controversy surrounded the result of the first game of foot-the-ball played since 1946: it was either a 13-all draw or 13-14 to the Ditton Players. More than 400 people turned up on Parker's Piece to watch the contest between the Players, in Edwardian dress and the Ditton Irregulars. Amongst them was the son of the game's inventor, the late Prof Bill Howell who organised the first match between the Universities of Oxford and Cambridge. The match is played like football except that it has three balls and 15 players to a side 85 01 05

1984 Cambridge United have appointed former Norwich City and Luton player, John Ryan, as their new manager. He takes over immediately at the struggling Second Division club. John Cozens, caretaker manager since the sacking of John Docherty will remain for the time being. Ryan takes over a United team who are 10 points adrift at the bottom of the Second Division and looking doomed to relegation after going 20 games without a win 84 01 20 p1

1984 Planning permission has been given for a £10 million redevelopment scheme for Cambridge City Football Club's ground at Milton Road. The present pitch, greyhound track and stands will be demolished and be replaced by a three-storey block of research and development buildings with an underground car park. The development will guarantee the future of the club 84 02 01 p1

1984 A police operation on a military scale was necessary to deal with the threat to Cambridge posed by Saturday's match against Chelsea who have some of Britain's most notorious football fans. But most of the trouble came from Cambridge supporters. In a rampage of violence a man's throat was slashed, another was stabbed, two policemen were attacked and 92 people were arrested. Police held at bay a mob of fans who tried to stop them arresting a streaker on the United pitch. Parts of the city were left vulnerable to crime because of police commitments to the match 84 02 13 p11

1984 One of the landmarks of Cambridge's skyline has gone. Cambridge City football club's floodlights were pulled down as demolition men clear the ground in preparation for the construction of a science park. West Ham played at Milton Road to mark the erection of the lights

when City entered the Southern League in 1958. Work has also started on pulling down the two stands as the club moves its ground to an area at the far end. 84 05 22 p34

1984 The symbol of Cambridge City Football Club's rebuilding programme has risen from the ground at Milton Road. The new pitch is down, the lights are up but there won't be soccer action there until the turn of the year. Then there will be the prospect of real comfort for the 400 or so who will be able to watch from the new stand. In addition to changing and other rooms there will be a social club and café and even a glass-fronted viewing room for directors and guests 84 10 26 p44

1985 Cambridge United Manager John Ryan was sacked last night by David Ruston, the club chairman who himself reportedly resigned earlier in the day. His 403-day reign has seen United win only seven out of 50 matches. Hopes had been high when he was appointed as the natural successor to the former boss Ron Atkinson. He balanced the books and cut the wage bill. But a patchwork team of youngsters aided by a few old heads continued to slide to the bottom of the Third Division, disillusionment set in on the terraces and the drift away sabotaged the gate figures leaving the Directors little choice 85 02 26 & a

1985 Shellito appointed, Chris Turner appointed [16.2,4,9]

1985 United bottom Division 4 [16.6]

1985 United appoint John Ryan from Chelsea 85 03 15

1986 Cambridge city council loan United £40,000 : relegation Div.2-3 cost £78,000 in gate receipts [16.7-8]

1986 Cambridge United got their reward for beating Ipswich with a draw against First Division giants, Tottenham Hotspur in the Littlewoods Cup. The Spurs team includes England internationals Glenn Hoddle and Chris Waddle, Belgian superstar Nico Claesen and Argentinean World Cup star Osvaldo Ardiles. The dream fixture will pack the Abbey Stadium with more than 10,000 fans. Ticket prices will be raised to £8 for seats and £5 for the terraces. 86 10 30 & 30a

1987 Cambridge United has turned the corner financially under the leadership of manager Chris Turner. Last season's Fourth Division failure left the club with a massive debt of £122,000. But the six months to last November showed a profit of around £40,000, putting them on their way to the best financial figures since their Second Division heyday seven years ago. After having to apply for re-election to the League they reached the Fourth Round of the Littlewoods Cup, earning a money-spinning match against Tottenham Hotspur and their gates are up by an average of 1,000 per game. As well as the club lottery the Lotto and Lifeline has also made a big contribution 87 02 06

1987 Cambridge United are aiming to build a major office complex at the Abbey Stadium in a bid to win their battle for soccer survival. The idea is to provide office space over the car park adjoining Newmarket Road which would produce £30,000 a year. Other options are to seek help from the city council or consider part-time football. Chairman David Ruston told shareholders that he might quit unless the club's cash position improves. 87 92 27

1988 joint city/United stadium planned ¢CEN 25.8.88

1988 Sainsbury's hopes to buy Cambridge United's famous Abbey Stadium for a DIY superstore and give the club a new ground, perhaps at the former Blue Circle cement works site off Coldham's Lane. The Abbey site covers four acres and United have already put forward plans to develop the car park for offices. Trafford Park Estates have won permission to build four office blocks on the front of the Cambridge City ground, three of which are already half-let. 88 06 24

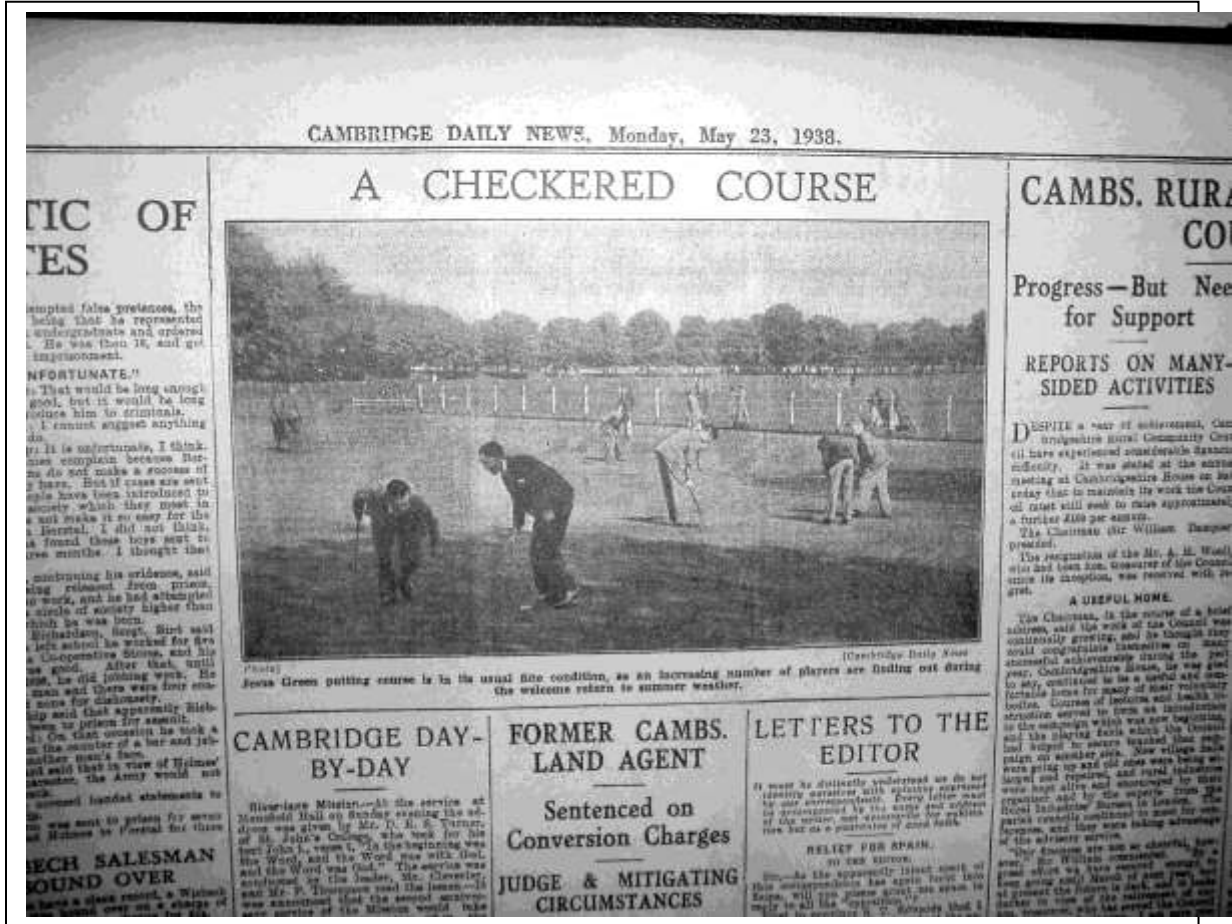

1989 Cambridge United income drops 40% ¢CEN 15.2.89

1990 Secret talks are under way for Cambridge United to move to a site on farmland at Teversham. The news comes only a day after it was revealed the club lost £98,000 last year and Chris Turner was sacked as general manager. If the club moves from the ground it has occupied since the 1920s it would allow the sale of the Abbey Stadium site for housing or commercial development. This would realise enough cash for the new venture 90 02 10a Fans views – 90 02 15c

Golf on Coldham's Common historical article – 61 02 17

1875 Cambridge Golf club began to play 9-hole course, Coldham's Common, about 2 years later name changed Cambridge University Golf Club; 1887 altered to 18 holes [16.10]

1895 Grays golf links open Grantchester Meadows [16.10]

1899 The subjugation of England to golf proceeds at a rapid pace. Cambridge has already done homage to the Scottish game, and announcements made this week on behalf of Caius College shows that the popularity is still on the increase. Caius propose to devote about 250 acres of land on the Gog Magog hills to the formation of a golf links. A suggested course of 18 holes has already been staked out by Duncan, the professional - 1899 01 27

1901 Gog Magog Golf club formed (75 anniv 1976) [16.11]

1901 Dr George Cunningham invents Lon-Golf (lawn golf) & Cambridge Graphic 25.5.1901

1907 Sir – Sunday is being desecrated with often a score of persons playing golf on the Gog Magog course during church hours. Even females are now to be seen there amongst the Sabbath-breakers. Not content with golf, on Sunday evening a target was stuck up and rifle practice was

being carried on. Under the terms on which the links are held no golfing is to be allowed on Sunday and the gates must be kept locked. – ‘Observer’ 07 07 27

1910 Three labourers were charged with stealing nine golf balls and an overcoat from Charles Willmott, a groundsman at the University Golf Links at Coton. The men went to the fields adjoining the course and picked up golf balls knocked some distance by players which they sold to an athletic outfitter of Downing Street. Willmott said he had left his overcoat in a shed on the links and it had gone missing. Later he found it in a ditch. Nine golf balls that had been in the pocket had gone. He went to the shop and identified them because of peculiar marks, one of them was quite unique. If men could not sell the balls they would not trouble to pick them up. 10 10 28

1911 An undergraduate from Trinity College was fined for playing golf on Jesus Green to the danger of passers-by. The lad said there was no notice and he had seen people playing there for the last two years. There could be a danger if anyone had been on the Green, but there was nobody there when he was playing. The constable had seen him with his club and could have stopped him but allowed him to play before asking for his name, college and year saying third year men generally got more heavily fined than Freshmen. But the Chief Constable said that Freshmen were often let off with a caution 11 05 05

1912 ‘why no municipal golf course, only links club is so exclusive as to be inaccessible to town & county residents’ [7.5]

1926 A Duxford aeroplane crashed on the Gog Magog golf course, killing the pilot. The fatality occurred on the first tee, the machine first hitting the road and crashing through the hedge; as it struck the ground it burst into flames and was soon reduced to ruins. Bullets were flying around all over the place. Some time after the accident the pilot’s tunic was found with a fountain pen and letter, both only slightly damaged. His hat was found intact and inside this was his name. We understand he had recently inherited a large sum of money c26 08 20

1927 putting green starts, Jesus Green [5.24]

1927 Sir – I am surprised to find the facilities for the Cambridge business man to play golf are so small. They can never get a round as the courses are so far from the town that they cannot get there. It is not everybody who can afford a car or motor cycle. They would welcome a municipal or public golf course near Cambridge and I am sure if the Town Council could entertain the idea of establishing a course it would be a paying concern – Robin CDN c 8.1.1927

1928 I enjoyed a couple of rounds on the Cambridge putting green on Jesus Green and found quite a lot of patrons there. There are some folk who think that putting is only a temporary craze and will not enjoy continuing prosperity in the same way that tennis and bowls do, but a single tennis court takes ten years to pay for itself while the first putting green paid for itself within the first year. The committee has received a petition for a similar putting green on the Lammas Land, but they are a little timid about having a second one prepared until they see whether the success achieved last year is repeated. The rockery being constructed at the entrance to Lammas Land is being made from pieces of old and disused cattle troughs from Midsummer Common c28 04 22

1930 Cambridge is a wonderful place in these days, what with new cinemas, new restaurants and new shops, not to mention the midget golf centres. Another is being laid out at Belle Vue Gardens. It is an 18-hole course with fairways averaging 30 feet in length made of tarmac with a green fibre surface. In some holes it will be necessary to send the ball over a five-barred gate, through the muzzle of a gun and down a nine-foot ‘snake’ curled round a tree trunk. 30 10 11a

1930 Five miniature golf courses are now in operation in Cambridge. There are Messrs Grays in Sidney Street and the octagon course in King Street. The Premier Hall, Old Chesterton, has added midget golf to its other attractions and the Newmarket Road has the course in the club-room at 'The Bell'. Its holes represent hazards encountered during a trip from 'Trafalgar Square' to 'The Oval'. The latest 18-hole course at the Belle Vue Gardens is all-weather and open-air. It features a howitzer gun and a water jump and has been laid down by Capt Mullett who has constructed others in Vancouver and San Francisco. 30 10 16c

1933 Sir – Coldham's Common could be turned into a municipal nine-hole golf course now it is no longer required for shooting. The Corporation have £700 from the War Office in compensation for not putting the Common in the state it was before the rifle range was constructed. The various firing points and the lower portion of the butts could be used in the construction of a very sporting course, providing work for the unemployed. It would be no new thing to have golf played on the Common as the first University course was there – RG 33 01 07d

1951 The golden jubilee of the Gog Magog Golf Club was celebrated with a dinner at the Dorothy Café. Guest of honour was Mr Bernard Darwin, the famous authority on the game who was an early member of the club when an undergraduate at Trinity College. Recalling his early golfing days he mentioned some of the local courses, including one on Coldham's Common, one at Coton and another "somewhere near the Grange Road". The Gogs club was founded for the recreation of the senior members of the University and the first rules provided that the number of undergraduates permitted to play should not interfere with the convenience and enjoyment of the senior members of the University c51 11 07

1971 Gog Magog Golf club new 9-hole relief course ready [16.11]

1980 Girton Golf club 8 year development ends - extended 18 hole course, clubhouse [16.12]

1986 Girton Golf Club celebrated its 50th anniversary. It has come a long way since the days when a special rule had to be introduced to cope with the sheep grazing on the greens. It was founded in 1936 by Scottish professional Allan Gow as a privately run organisation. Membership was three guineas for gentlemen and a round of the nine-hole course cost one shilling and sixpence. The course flooded several times a year and members squelched across water-logged fairways for most of the winter. In summer they had to negotiate huge cracks when the ground dried out. 86 11 26c

Coursing meeting, c1900

185.83

c.38 : Greyhound racing

1902 A rabbit coursing and whippet race meeting was held in a field near the Milton Road, Cambridge and some good sport was witnessed. There was a smaller programme than on some former occasions. A good entry was received and some fine dogs were in the field. A proposal has been made to organise a coursing society for Cambridge and the idea is receiving considerable support. CDN 1902 01 28

1921 Whippet racing revived; first meeting after war – 21 08 31a

1922 The Whippet meeting arranged by the Cambridge Whippet Racing Club was held in the club's straight running ground, Arbury Road, Cambridge, when a good crowd of spectators witnessed some very decent running. The weather conditions were far from ideal for dog racing, and undoubtedly were responsible for some indifferent running CDN c 23.4.1922

1928 track prepared off Cherry Hinton Road & Cambridgeshire Greyhound Racing club formed, churches protest, [4.5]

1932 Mr F. Plumby of Abbey Walk, who looks after the Cambridge Greyhound racing track on Newmarket Road, said he was at work in the middle of the track when a hare dashed on to it, closely pursued by a pack of harriers. It ran right round the whole 565 yards length of the course, and just as it reached the winning-post the dogs came up with it. It ran into the space reserved for the judge, and there the pack killed it. 32 12 23b

1947 For over five hours the pros and cons of a proposal to erect a greyhound and sports stadium at Cherry Hinton were argued at a local inquiry into an appeal against the Borough Council's refusal of an application by Messrs Bartlett, Dash and Evans. The intention was to establish a handsome stadium, which would become a sports centre for the Eastern Counties. A

promoter said Cambridge was the centre of by far the largest area in England without a greyhound track. The borough surveyor said the whole idea of the town planning scheme was to make Cherry Hinton a self-contained village community. He considered it highly important that the five mile green belt should remain inviolate. The Minister's decision might be expected in five or six weeks 47 04 30

1964 Nearly 500 people attended a greyhound race meeting at Chesterton Fen Road, one of eight to be held during the next few weeks. Now organisers are planning a campaign for a permanent track equipped with floodlights and facilities 64 07 22b [11.8]

1964 During the summer a series of greyhound racing meetings were held on an improvised track, near a car breaker's yard at Fen Road Chesterton. But plans for a permanent stadium may prove impractical because of drainage difficulties. If buildings containing lavatories are to be erected the problems of foul sewage disposal might prove insurmountable. There are also problems about access to the site over the Fen Road level crossing. The road is inadequate for the kind of traffic that would be attracted to race meetings. Before the war a proposal to build one at Teversham was turned down 64 11 14

1967 Greyhound racing track approved at City Football Club twice a week – 67 10 13a # c.38 : greyhound, gets 4-year approval for track [16.13]

1973 Cambridge greyhound stadium moves from the dog racing backwoods in February next year when their twice-weekly meetings will come under the auspices of the National Greyhound Racing Club. At present their meetings at Cambridge City Football Club's Milton Road ground are continuing on Wednesday and Saturday during the floodlighting ban with the aid of a generator installed at Milton Road c73 11 26

1978 Milton road course to end, revived & restarts [16.15]

1981 Milton Rd new £100,000 stand packed [16.17]

1982 Cambridge greyhound track has obtained a contract with the Bookmakers' Afternoon Greyhound Service to relay its meetings to bookmaking shops on Tuesdays for 13 weeks. They have installed more security with an anti-doping chromatography unit and veterinary surgeons at each meeting. They also plan to become the only dog track offering a bookmaker service for horse race meetings the same afternoon 81 12 10a

1983 "no room in new development", finishes 1984 after 16 years, was launched to save debt-ridden Milton Road in 1968 [16.17]

c.38 : horse riding

1938 The King Street Riding School is the largest and most up-to-date indoor riding school in the country. The Principal (Capt E. Cooper), as an instructor and horseman ranks second to none, having the reputation of being one of the finest riding masters to serve in the British Army. The long list of successes gained by his pupils in all branches of equitation during his thirty years at King Street testify to his outstanding ability as a Riding Master. 38 12 02a

1956 The White Horse Riding Establishment in Barton Road, Cambridge, has been used as a riding school for 35 years and has stabling for 24 horses. Much of the teaching takes place on land down Grange Road and it would reduce the dangers for inexperienced riders taking horses down Barton Road if they had an Indoor Riding School. But neighbours complained that it was noisy and smelly and a relic of the past. Horse boxes unloaded on the pavement and children stacked their bikes against the wall when they popped in to give the horses tit-bits.56 05 16a

Ladies hockey teams at Homerton College, 1953

123.79

c.38 : hockey

1911 rinking very popular, carnivals at Chesterton rink & hockey club associated with it [7.12]

1931 Every woman who plays hockey is proud of Miss Gaskell. In 1914she took the first women's hockey team to Australia and has taken teams to the United States and South Africa. During the war she became Commandant of the Red Cross Convalescent Hospital for soldiers at St Chads that was open until 1919. She then started Barton W.I. and joined the Folk Dancing Society. 31 03 13a

1938 A pavilion erected in memory of H.G. Comber and W.F. Smith was opened on the University Hockey Ground, Barton Road. Comber had been captain of the University side in 1893, chairman of the council of the Hockey Association and first President of the Eastern Counties Association formed in 1908 while Mr Smith had been its Secretary for many years and had played for England from 1911-21. Inside is a case containing a collection of old hockey and bandy sticks 38 12 05

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 Mrs J. Blackburn has been chosen to play at right inner for the East Anglian Women's Hockey Association team in their match against the Midlands, becoming the first Cambridgeshire-born player to represent the East since the 1920's. She is the daughter of Sir John Cockcroft the atom bomb scientist who is to be the first Master of Churchill College. 60 02 12

Hunting hounds beside river, 1950s

172.90

c.38 : hunting

started 23.8.2005

1907 A stag chased by the Cambridge Drag Hounds jumped into the garden of a house in Gower Road, Royston, then plunged through the window into the parlour. Two young ladies were terribly frightened as the animal dashed round, breaking chairs, pictures and mirrors until huntsmen secured it. Meanwhile the hounds entered the kitchen and devoured the whole of the family's dinner. The huntsmen continue their sport after leaving an address to which the owner should write for compensation. 07 03 01

1909 Following a prosecution of an undergraduate for alleged cruelty to a deer when hunted by the University Draghounds the Vice Chancellor has ordered that the stags kept by the hunt are to be sent away from Cambridge. In future the hunting of deer or other animals kept in confinement renders members of the University amenable to the Court of Discipline. The practice, therefore, so far as the University is concerned, is at an end CWN 09 12 03

1910 The Master of the University Draghounds was accused by the RSPCA of abusing a hind. The keeper's house at Shelford Crossing is surrounded by a wooden palisade and the animal made its way into the yard. The men used poles and brooms to drive it out and flicked it with whips. Eventually it was dislodged, only to go back again. It finally left in so exhausted a condition that it fell down and died. 10 07 15

1919 Cambridgeshire Hunt saved from extinction; Master offers to hunt county for £800, against £1,100 before the war. Could not keep a pack of hounds at that price before the war and needed more – 19 01 22a

1919 Hounds meet again. - After a lapse of six years, the Cambridgeshire Hounds met at Anstey Hall, Trumpington, the residence of Mr. G. R. C. Foster, last week. There was a good muster. 19 12 10 CIPof

1930 The heavy rain did not deter a large number of members of the Cambridgeshire Hunt from assembling on Cambridge Market Hill for this traditionally English spectacle. The scene was one worth a soaking to witness. Figures in the traditional red and black mingled with macintoshed horsemen, their steaming mounts were restless, the hounds silent and around was a rain-drenched crowd of about 1,000 people. They took a great deal of interest in a small terrier who looked out from the mouth of a haversack slung across a red-coated huntsman's back 30 12 27a-b

1931 Cambridge University Drag Hunt first meet on Market Hill – photo – 31 10 23e

1932 Cambridge market hill presented an animated appearance when the University Drag Hounds held a meeting. Thirty horsemen gathered to be welcomed by the Mayor and a silver stirrup cup was handed round to all who could persuade their mounts to remain still for 30 seconds. They then moved off followed by all but one of the hounds which soon received 'instructions; from the crowd of 200 spectators and joined his comrades. 32 10 14a

1957 In the 1920s when Col. W. Whitbread was at Cambridge University he was Master of the Trinity Foot Beagles which hunted in the Swavesey district. A public house called the New Inn on the Huntingdon Road was well known to him so when his brewery bought it from Greene King they decided to rename it the 'Trinity Foot'. Now it has been completely renovated with a new sign. It was delayed when the van carrying it broke down but was quickly erected just before the unveiling 57 10 17

1860 Sir – I remember the winter of 1860 when Midsummer Common was covered with water. A severe frost set in and for two months there were torchlight processions and skaters appearing and disappearing like phantoms along the course. There was horseracing in the summer and two large wooden stands erected. Some things have not changed: the miserable, horrid, slow old 'grinds' or ferries. When will Cantabs wake up and have free bridges for foot passengers? – An Ely Old Boy 06 06 23c & d

1876 first skating rink opened Jan 1876 Downing St [17.2]

1888 skating : proposal to flood Stourbridge Common for skating [5.25]

1895 skating : man skates from Cambridge to Denver Sluice & back in a day [1.12]

1895 Skating on Lingay Fen in 1895 by aid of floodlighting – picture – 62 01 20a skating : floodlighting generator installed Lingay Fen [6.14,17.6]

1900 For the first time the British Amateur Skating Championship has been decided at Littleport. At no venue in Great Britain are the arrangements so up-to-date. All Cambridge sportsmen will welcome Albert Tebbitt's success. He has had to wait five years to have his third race for the championship which has always been held by a man from Welney – the little hamlet known as the metropolis of speed skating c00 02 09

1905 Skating would have been quite possible on the Electric Light Ground, Newnham, today had not some evilly disposed person drawn the water from the ground the other evening. The work was done with a care and thoroughness worthy of a better cause. The bank of the ditch which runs from the river to the pump was cut through and so great a fall allowed that the whole of the water on the ground was drained away. Two ladies heard somebody at work on the bank but imagined it was the proprietor and paid little heed. In addition to the annoyance caused the proprietor has suffered a considerable financial hardship. 05 01 27a

1906 When Albert Tebbitt was handed the King's Cup by the President of the National Skating Association he was without progeny. But within 24 hours he became the father of a sturdy boy. His own father, when 50 years of age, was still a formidable opponent and it was predicted that any son of his would become a future champion. A few jokes were cracked about a future young Tebbitt skating gaily away to the North Pole. It is possible that the glacier age may arrive during the lifetime of the latest addition to this athletic family and the predictions be quite within the bounds of probability. 06 03 24a

1907 In glorious weather a large number of professional skaters competed for the Fifty-Guinea Cup at Littleport. On the outward journey on the mile-and-a-half course the competitors reached a quite extraordinary speed but the return leg was quite a different tale; great stamina was essential to push against the powerful wind. W. Housden beat E. Moxon in the final. 07 01 26

1908 Hundreds of London skating enthusiasts availed themselves of train excursions to the fens which presented a practically unlimited area of ice in good conditions. Miles and miles were available. Not since 1895 have Cambridge people had such a large extent of frozen river with a splendid run from the Railway Bridge to Baitsbite Locks. Even man's modern eyesores were transformed: telegraph and telephone poles were linked with strands of silken beauty and wire-netting was outlined in crystals with the fragile delicacy of old lace. 08 01 10g

1908 Ancient inhabitants rack their brains in vain for a parallel to the extraordinary weather of the past fortnight, bringing in its train a record crop of influenza. The changes from 20 degrees of frost to a damp muggy air and then back again have caused the National Skating Association to rearrange the Championships which took place at Lingay Fen in almost perfect conditions. The ice was hard and entries above average. 08 01 17b

1909 George 'Fish' Smart, the prettiest and fastest skater Britain has ever produced, has from injuries sustained in an accident at the new dock which is being constructed at Hull. He was the most famous of the three famous 'Welney Division' of fen skaters founded by the renowned 'Turkey' Smart. He started skating as a boy and beat his all-conquering cousin, George See in 1878. But he retired when beaten by his younger brother James. 'Fish', who was 51, had been completely lost sight of in sporting circles in recent years. CDN 09 10 27

1911 rinking very popular, carnivals at Chesterton rink & hockey club associated with it [7.12]

1911 field opposite South Green Road illuminated, barrel organ [17.6]

1911 There was skating on Mere Fen Swavesey. In the centre the ice was fairly good and safe but at the sides it was weak and many got their feet and legs wet. Three visitors from Cambridge

afforded some amusement. Declining the services of the men with chairs they sat down on the bank after spreading out handkerchiefs to protect their clothing. They put on their skates and went boldly forward. But the thin ice near the bank gave way and one man dropped about two feet into the water. The chairmen laughed heartily and the visitors beat a hasty retreat – 11 02 10d

1912 The weather was brilliant and the ice splendid for the race for Littleport Skating Club's 50-guinea challenge cup. There was a strong wind blowing down the course, the winner of the toss having the advantage of the shelter of the spectators after the last turn, this accounting for one or two wins. This wind made the necessity of three races a trying ordeal. After a dispute over the toss in the final round C.Brett lead all the way but Greenhall, by crossing over and finishing up on the wrong side of the course was placed fourth. 12 02 09c & d

1919 skating : held due to severe frost [2.17]

1922 Bartholomew's Electric Light Skating Rink, Grantchester Meadows

1925 The overnight frost in Cambridge was sufficiently severe to ensure another day's sport for skaters. At the Cambridge sewage Farm, Milton Road, where the ice had a thickness of about two inches, skating was continued with safety and there were quite a number of people, chiefly Varsitymen, "making gay while the ice holds". The popular plus four suit and warm pull-over, is just the thing for this kind of sport, but one noticed a number skating in ordinary suits. CDN 2 Feb 1925

1925 Sir – I must utter a strong protest against the action of some person in authority in the town in trying to put a stop to skating on the Corporation Sewage Farm at Milton. It does seem a pity that when the opportunity for such a splendid form of recreation occurs only once in a generation, that some kill-joy should throw hot water, in this case, on such inexpensive pleasure for the public, with notices of 'keep off the ice', barbed wire entanglements, and a policeman taking the names of trespassers on skates. There were hundreds taking the risk of being prosecuted rather than miss the opportunity of such splendid sport - Bertram Pearson c12 12 04

1926 Skating has been in full swing over the weekend. The Cambridge Sewage Farm has been the rendezvous of the majority of skaters and on Sunday over 500 skaters were 'on' in the afternoon. Mr Nicholls' field in Grantchester Meadows was flooded and many skaters availed themselves of the opportunity it offered, whilst others went over to Swavesey. Hundreds indulged in winter sports on the slopes of Royston Heath, tobogganing and ski-ing were general c26 01 23

1927 Syd Greenall, the famous fen skater and professional champion of 1901, has died of double pneumonia. He was born in Cambridgeshire 42 years ago. At Belle Vue Kennels, Manchester, last summer, he was bitten by a dog and said, "This will kill me". Greenall was not only one of the world's fastest skaters, but was also a fine figure skater. c27 11 22

1929 For the first time since 1895 there was skating on the River Cam. A thick sheet of ice powered with white snow, stretched unbroken from Silver Street to the electric light works. It was too inviting to be resisted and several skating parties took advantage of it. Many undergraduates took to the ice in front of King's College and at Quayside a man was seen cycling on the slippery surface. However the ice bore and he neither came off nor went in. At Silver Street it was possible to cross to the mill on the ice but below Jesus Lock, where the dredges is at work, the ice was broken up by the flow and black pools and crevices had appeared in the thin surface. CDN c 16.2.1929

1929 All Cambridge seemed to be skating or carrying skates this morning and there is something like five inches of ice on many parts of the Granta. Eight hardy spirits took the plunge

at the Town Bathing Sheds though it took nearly half an hour to break the ice. There have been bathers ever since the front began and many of them have hardly missed a day. The cold was so severe that the comb stuck in the head of one of them who was doing his hair. But the Open Flying Mile Straight Race, fixed to take place at Cowbit Wash, near Spalding, was abandoned after the Skating Association reported that it was not possible to provide a straight mile course to conform with the conditions. CDN c 17.2.1929

1929 C.W. Horn did not, as he had hoped, beat the professional time for the three-miles' circular skating course at Lingay Fen. The ice, though hard underneath, was distinctly soft on top and it gave the officials some anxiety owing to the large number of people who insisted on clustering round the finish. The crowd numbered several hundred. The closest heat was between G.E. Martin and F. Bebas from Spalding, there being only two-and-a-half seconds between them CDN c 23.2.1929

1929 Sir: Quite a number of people took advantage of the frozen river last weekend to skate to Ely and among them were three Newnham girls. It is 34 years since last such a journey was possible. It was February 1895 that I and two friends undertook the journey. On arrival it was suggested we continue to Denver Sluice but after two miles the ice was very bad, so we returned. I wonder how many have ever succeeded in it, a distance of 72 miles there and back. I am fond of skating and have been to Ely five times – 'Septuagenarian' CDN c 24.2.1929

1931 Mr Charles Morley has presented a handsome trophy to the National Skating Association for a one-mile race for amateurs who are not holders of the first-class speed badge. At present 90 per cent of skating contests have been practically foregone conclusions as one or two skaters carry off all the prizes, by debarring these men the race will be much more open. It is to be skated on an oval course rather than one requiring a length of 600 yards. This will enable fen skaters to compete more successfully on indoor rinks and Continental courses. 31 01 16f & g

1933 skating at Lingay fen – 33 01 27a

1933 A crowd of 200 people saw skating races for the Duddleston Cup at Lingay Fen. The ice was not of the best and records remained intact. The winner was C.W. Horn, the National Skating Association champion, whose time was very much faster than ever previously recorded, though the race has never before been over an oval course. Runners up were R. Wyman of Stretham, G.W. Martin of Nordelph and L.B. Carter of Over 33 12 18

1935 L.B. Carter the young amateur skater and cyclist of Over is proceeding to Switzerland for a fortnight's training, followed by competition as a representative of Great Britain in some international matches at Davos where all the finest speed skaters do their training. The International Ice Hockey Association is sending a team and wanted some speed skaters to join the party. The Fen Committee first approached C.W. Horn, who is in a class by himself. He was unable to accept at such short notice but Messrs Chivers allowed Carter time off work to attend. 35 01 15a

1936 Skating at Newnham – photo – 36 02 10

1938 Albert E. Tebbitt formerly of Milton and farmer of 400 acres at Wentworth was British amateur skating champion 1895-1905; won the cup outright, also winning Duddleston Cup and Cameron Cup twice. In 1895 skated dead heat with H.A. Palmer over 37.5 miles on the Cam. 38 03 04d

1954 The skating championship of the fens was held at Cambridge Sewage Farm when the Ralph Moore Cup was won by D. Beba of Moulton Chapel. 2 Feb 1954

1956 The British Amateur Ice-Skating Championship held at Bury Fen, Earith, was attended by eight skaters who had received trials for the British Olympic team. The entry of 32 was the largest ever known but the bulk of the competitors were London rink men and local skaters had little opportunity to shine. The Drake Digby Memorial Shield for boys resident within a 40-mile radius of March was won by A Bloom of Bressingham. 56 02 06

1959 British amateur skating, Mare Fen, Swavesey – 59 01 17

1961 The British Amateur fenland skating championships at Bury Fen, Earith, were curtailed by snow falls. Skaters and spectators tried out the cleared patches and made a journey to the only source of heat – a small hot-dog stand on the edge of the fen. Then the noise of a starting pistol presaged the whip of skates over the ice. Later the noise was changed to the gentler swish of drizzle and when this accumulated into small pools, the racing was abandoned. 61 12 30a

1963 W.B. Holttum recalls people skating from St Germans sluice to Boston, then skating back; describes trip – 63 01 18d

1963 By river to Grantchester – walking on ice – 63 01 25b

1963 Parts of the Backs should be flooded and turned into skating rinks, says a Cambridge botanist. There are a few natural ideal spots, used for lawn tennis, which could be easily flooded to provide skating. The initial cost would be insignificant but the benefit for the young and ‘young at heart’ (meaning dons) would be enormous. The maintenance of the skating rink would be easily covered by a small entrance fee. And it wouldn’t spoil the tennis courts as ice and snow give the best protection for the species of grasses which might otherwise be damaged by the continuous cold. 63 02 02a

1973 ice skating rink proposed but no council backing [17.1]

1978 agree in principle to ice skating rink on council land; [17.3]

1981 Cambridge City Football Club hopes to set up an ice rink at their Milton Road ground using synthetic ice. It would be housed in a semi-permanent aluminium and heavy-duty PVC structure which could also be used for five-a-side football, tennis and exhibitions. They hope it will be in place by June and prove a licence to print money 81 04 08

1987 The skating French brothers from Peterborough are once again kings of the Fens. They dominated some of the fastest racing ever seen at Bury Fen, Earith. John French, a British Olympian at Lake Placid, beat Alan Fisher in one of the best finals of recent years to win the Fen Championship. His older brother Paul, who had driven through treacherous conditions from Cardiff, beat Willingham teenager Stephen Parker and Sutton-based David Smith for the Melton Morley Trophy. 87 01 14 & 16

Lister Jaguar

201.16

1909 Trinity student killed at Brooklands motor racing track – CWN 09 07 09

1958 Early reports of Archie Scott Brown's tragic accident gave the erroneous impression that a mechanical fault in his Cambridge-built Lister-Jaguar had resulted in the crash. This was not true: the car was performing as well as ever. Archie was fighting for the lead in the Grand Prix of Spa when he hit the wall just before the La Source hairpin. Snetterton Motor Racing Club has announced that a Memorial Trophy Race will be held in his honour. 58 05 27

1959 A short ceremony will be held just before the flag drops at the next race at Snetterton. The memory of the late Archie Scott Brown will be commemorated by the unveiling of a permanent memorial in the form of a bronze head and shoulders sculptured in relief. The new Lister Jaguars are expected to make their first appearance alongside the new Lotus Seventeens and the first of the new Cooper Monacos. There is more prize money this year: the winner of the British Empire Trophy will get £400, which works out at £10 a lap, or about 70 shillings a mile! 59 02 23a

1959 Brian Lister has two great passions, jazz and jalopies. He lives on excitement, yet to see him you wouldn't think so. He's a stocky man with an India rubber face. And a grin that's as wide and welcoming as Woodcote corner. He looks a quiet man, a placid man, a jolly man. The last he is. The others he certainly is not. Otherwise he would not have had his sensational success in the business of motor racing with the Lister Jaguar 59 07 03

1959 Lister Jaguar leave motor racing – detailed article – 59 08 24 & a

1960s *The Cambridgeshire Collection has detailed newspaper cuttings files from this date*

1960 Mrs J.A. Rayment of Cambridge was not impressed when her husband bought a go-kart and could not be persuaded to try it for some time. But when she did she was soon keen on the craze which is sweeping the country. Their son shares his parents' keenness and their 18-year-old daughter also occasionally has a drive. The Cambridge Go-Kart club has 75 members of whom four are women. The vehicles travel up to 45 mph but give a tremendous impression of speed as they are near to the ground. 60 12 30

1980 Thomas Orbell, the owner of a garage in Milton Road Cambridge for almost 50 years has died. He was widely-known in motor-racing circles because of his son, David, who won the second round of the Clubmans Register Championship at Brands Hatch in April. He was still involved in engine development for his son's present venture in Formula Three racing. 80 12 30

1981 Grass track racing is the cheapest form of motor sport. You can take a car from a scrap yard and by putting a wire grill in the place of a windscreen, pulling out all but the drivers seat and adding an anti-roll bar you are ready to go. It's a family sport with kids following their fathers into it and a friendly atmosphere in the pits where drivers and mechanics help each other out – but on the track nobody does you any favours.

c.38 : motorcycling

Scrambling, 1950s

64.15

1914 motor cycling : banned from Cambridge Town & County Charity sports due to danger, even though capacity Reduced from 300 to 250 cc [7.20]

1931 Cambridgeshire had its first taste of dirt-track thrills when a crowd of 5,000 witnessed some excellent racing on the new speedway at Caxton. The management had not anticipated such a crush with the result that the solitary entrance was sorely taxed and the pay-box nearly pushed over by the pressure of the queues. Despite showers the track rode well and although there were several falls only one rider – Buster Cray – was injured. The Eastern Counties' scratch event was one by Puff Morley, who rode in fearless style. 31 04 10h

1931 Cambridgeshire speedway advertisement – 31 06 12s

1938 Speedway enthusiasts visiting Wembley Stadium were unaware that amongst the finalists was a local man. Tommy Price was born in Cambridge and attended the old County School. An enthusiastic mechanic he acquired an A.J.S and took part in his first grass-track race at St Ives. Having moved to London he graduated to a pukka speedway machine and began his racing career with the Wembley team competing against the finest riders in the world. He also studied aeronautics and has built several model planes which he flies at Northolt Aerodrome.

38 09 02

1954 Motor cycle scrambles have gradually caught on and last year the number of spectators has reached 10,000, the Centaur Motor Cycle Club were told at their annual dinner dance at the Dorothy. Mr L.W. Hallen, who was celebrating 21 years of business, welcomed a local prodigy, Mr Tommy Price the former World Champion speedway rider. Mr George Savage, 'Dickie' Davies and Aubrey Thompson – men whose names are bye-words in the motorcycling world – were also present. Highlights of the year included trick riding events arranged as part of the Coronation celebrations and the revival of the old game of grass track racing c54 01 05

1954 One cold December night just before Christmas 1933 a dozen motor cycling enthusiasts gathered in a room over a public house in Chesterton and decided to form the Centaur Motor Cycle Club. Pre-war it was mainly a social club catering for the weekend rider. With war came petrol rationing and shortage of oil but the club somehow kept going. In 1945 it began to get back on its feet, organising the first scramble at Caxton. They then pioneered events such as trials, grass track racing and sidecar events. Now, 21 years later, over 160 members crowded into the Dorothy Restaurant to celebrate the club's coming-of-age CDN 23.12.1954

1955 Motor cycle side-car scrambling came to the area for the first time on Sunday – and what an exciting debut it made! The Matchless Club event at Elsworth proved so exciting and such a spectacular attraction that a special handicap race was held. Brian Stonebridge, the 25-year-old scramble star from Rampton won both. Nothing could touch his B.S.A. 500 combination; he roared into every turn and jumped the bumps at full throttle. 55 07 19

1959 Brian Stonebridge, the ace scrambler, was sponsored by King and Harper and had several seasons riding BSA and Francis Barnett machines. Later he rode Matchless, then moved to B.S.A. to become one of their 'works' riders. Recently he went to work for Invacar, producing the Greeves motor cycles which were used for scrambles. He was killed when his Austin Atlantic coupe collided with an Austin 16 and was then hit by a lorry. 59 10 22

1981 A car sales manager for Salisbury's in Cambridge, Terry Nightingale is swapping his 135 mph Dolomite Sprint for a Mini-Metro. But this will zip along at around 120 mph and should boost his chance of winning the British Saloon Car Championship. He is one of the most successful racing drivers in his class but only races as a hobby. It can cost about £2,000 to take part in one race meeting and he has to rebuild the engine and gearbox after two. 81 06 26

1920s Quoits : in '20s was centre of quoits playing in East Anglia, own league & rules;

1926 one of last years league existed [12.3]

c.38 : racquets

1907 In the records of sport there is no instance of one family attaining greater re-eminence in any particular branch of sport that of the Gray family of Cambridge, in racquets. From 1863 onwards there have been five professional champions. Henry James Gray who was the first, is a town councillor and head of the well-known firm of athletic outfitters of Sidney Street. 07 04 30a & b

1934 H.J. Gray, the Cambridge sports manufacturers are flourishing and announced plans to extend their Playfair Works into which they moved from Searle Street 25 years ago. Now a new mill and motor engine would be introduced to keep up with demand. Henry John Gray started his career in a racquets court on the site of the present University Arms Hotel nearly 90 years ago. He became champion racquets player of England – a title that had stayed in the family for 22 years - and two his brothers became champions of the world. 34 01 12

Roller skating in Corn Exchange, 1974

101.74

c.38 : roller skating & skateboarding

1909 The new skating rink at the back of Hertford Street was constructed to avoid any noise nuisance. Rinking was a fashionable amusement and there would be a charge so it would not be overrun with the rough element. They wanted to have a string band, with no drums, to play at intervals. There was not the slightest intention of making it a dancing saloon but they would like a licence so it could be used for subscription dances during May Week. CWN 09 12 10

1910 A grand fancy dress carnival at the University and Town Skating Rink attracted a large crowd and many ingenious costumes were seen. When a number of undergraduates were on the rink some wonderfully complete and extensive costumes were displayed. The rink presented a very pretty appearance when the ever-changing stream of skaters was illuminated with kaleidoscopic tints from the lime lights. Roller skating is not a sudden whim and the 'craze' has not died out. Young and old are trying to skate in thousands of rinks all over the country and the splendid floor of the Cambridge rink has been crowded almost every day since it was opened. 10 03 18g, photo 18d

1910 Roller skating racing holds a prominent position in the world of sport. In Cambridge a large crowd were attracted to the University and Town Rink in Magrath Avenue to witness a half-mile amateur championship. It is undoubtedly one of the largest rinks in the Eastern Counties and

well suited for racing. The floor was in excellent condition and the times recorded very good indeed. H.P. Pilbeam, a youngster of much promise, was leading up to the last lap but lacked training and could not stay the course. It was won by A. Gray who skated very finely 10 12 16 1910 Dr George Cunningham, dentist of King's Parade, conceived the idea of inventing a curling stone that could be used on roller skating rinks. He sought assistance from Henry Birch, a scientific instrument maker. At first the wheel carried the dust into the ball races and clogged them, so he invented a device to prevent the dust from getting in. Then he tried rubber wheels but these were a complete failure. Dr Cunningham never complained of the prices charged but disputed the number of hours it had taken. 10 12 23f

1910 Roller skating craze at height in 1910 with University and Town Rink in Magrath Avenue, Victoria Assembly Rooms, skating rink on Market Hill and in Pythagoras Gardens where was open-air skating and shooting range – 41 05 03b

1911 Roller Skating Extraordinary. Last evening at the Victoria Rink on Market Hill, Monohan, the most remarkable skater in the world, gave an exhibition which evoked the greatest admiration. He performed many original turns, such as the candle maze, waltzing with a life-sized doll and concluded his wonderful display by jumping over five chairs. 11 04 07e

1911 The University and Town Roller Skating Rink will open its doors as the County Rink Cinema, Magrath Avenue. A small portion of the large building is being converted into an up-to-date picture theatre where the very best films will be shown. The ticket will also give free entry to the rink and use of skates. The ring will certainly be smaller but still allow for racing and hockey. Gymkhanas and carnivals will continue to be held. 11 11 24b

1928 Sir – May I draw attention to a new form of pastime which should be nipped in the bud before some fatality is recorded. I refer to the increasing practice of boys using roller skates in the streets and on the pavements. This afternoon two lads were careering along Regent Street amongst the traffic. Other towns have already taken action to put a stop to this new boyish craze and it is to be hoped that Cambridge will do likewise – “Safety First” c28 03 25

1951 Local roller skating enthusiasts are now able to get awheel in fine style at the Rex Ballroom, Cambridge, on Monday and Thursday evenings when grown ups take to the floor to music by Austen Paine and his orchestra. There appears to be no lack of demand and skaters from the surrounding villages can often be seen gyrating on the floor. The introduction of roller skating to the Ballroom has entailed no alterations to the floor, because the skates, which are supplied by the Management, have composite wheels that do not damage the polished surface c51 04 05 [3.19]

1955 The National Skating Association tests for figure, dance and pair skating were held at Cambridge Corn Exchange. All the candidates were pupils of resident instructors, Brian and Mary Jackson. Those successful included Alan Southgate (inter-silver figures), Mrs Bundy, Pat Reynolds and Myra Ellis (preliminary dance) and Ivan Ayres (bronze dance). During the evening a roller dance contest was staged between teams from U.S. Forces, St Neots and Cambridge. 55 08 13

1956 Maureen Jackson, the 21-year-old Cambridge girl who has been British Roller-Skating Champion for the last three years is to compete in the World Championship in Barcelona. She only started reluctantly after the war but when her ballet dancing ambitions faded she became more engrossed in both roller and ice-skating. Her father is the instructor at the Cambridge rink. 56 10 03a

1956 roller skating : approved at Corn exchange [5.21]

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 Councillors expressed disappointment over the lack of success of the new roller skating rink on Christ's Pieces. Opened at the beginning of the present school holidays it was expected to attract youngsters. Instead it has remained unused. But children did not know the new amenity existed: there was only a small notice on a gate that was kept closed 60 08 17

1960 Cambridge roller-skating enthusiasts will be able to enjoy an extra day's pleasure this season because the man who rents the Corn Exchange rink is superstitious. John Harris, who runs a chain of rinks round the country, never likes reopening on Fridays. Local skaters took full advantage and several dozen were speeding round the wooden floor within minutes of opening time. His Cambridge manager W. Lloyd-Worth, who has spent over 50 years in the roller and ice-skating business, hopes to organise National Skating Association championships and has sought proctorial permission from the University. 60 08 26

1960 The roller skating rink at Cambridge Corn Exchange attracts enthusiasts from a large area. Saturday morning is the children's morning and with its yards of bunting, the otherwise sombre building has a carnival air. From the very young to the really quite grown up they were tumbling about, wobbling precariously round the perimeter or pirouetting stylishly in the centre. Some of the girls swooped round in short costumes while the run-of-the-mill dressed for the rough and tumble in trousers. Skaters pay one shilling and sixpence (8p) which includes the hire of skates. The rink is leased to J.W. Harris, who also has one at Hunstanton, and is managed by Mr Lloyd Worth who has been a professional in the skating business for 53 years. 60 09 09c

1972 The Mayor of Cambridge had a go at skateboarding, the latest craze among youngsters. But try as he would to keep still the board had a will of its own and he had to hold on to one of a group of teenagers who went to see him about finding a proper skateboard rink in the city. He told them he had already made a firm request for the Amenities Committee to consider their 1,637-name petition and asked if some of the city's lottery money can be spent on one. The slopes of the Lion Yard present an ideal combination of smooth surface and different angles to turn in but shoppers say it is dangerous and large areas of plate glass windows are likely to be broken c72 08 16

1977 skateboarding : proposed skateboard park in middle of roundabout [2.6]

1977 Four Cambridge schoolboys, keen supporters of the latest skateboarding craze to hit Britain following its spread from America, have been banned from practising during the holidays on the playground of the Priory School, Galfrid Road, Cambridge. It is the second school to ban skateboards and is creating some controversy in education and road safety circles. A senior county education administrator said if there was an accident the education authority would be responsible but a senior county road safety officer said it was better to have them off the road and on to places like school playgrounds. The boys hope to establish a skateboarding club with proper facilities. CDN c 8.4.1977

1978 Skateboard firms have been quietly going out of business over the summer. Few of the country's 84 skateparks have proved a success and a recent survey claimed that there were only 15,000 skaters left. This has spelled disaster to hundreds of would-be skateboard tycoons. In Cambridge there is still a hard core of skaters who show no sign of losing interest. You can find them most weekends up at the Cheddar's Lane skateboard park. "I wouldn't dream of giving up" said one 14-year-old. "I am at the height of it and I want to get more stuff". But stuff is not cheap; a reasonably sophisticated board and set of protective clothing can set you back as much as £65 c78 10 31 (closes Nov 1979) [22.14,22,15]

1980 An 11-year-old Fen Ditton girl, Lisa Colclough, has won a British women's title in roller-skating – the sport's youngest-ever national champion. She was also runner-up in figure skating. Roller-skating is run along parallel lines to ice skating – much to seriously for Lisa to take her skates out on the Fen Ditton primary school playground with her friends. They cost £200 a pair and the wheels would soon crack. 80 07 11e

1980 proposal skateboard rink Barnwell Rd, goes Peterborough instead [17.4]

1981 another skateboard plan, approved [17.5]

1985 Artistic roller skating was demonstrated at the Kelsey Kerridge Sports Hall. Most of the skaters started when the Bury St Edmunds Rollerbury opened three years ago and since then several groups have been formed in village halls. Gail Jolley of Soham took up artistic skating with her daughter Laura and has already passed three exams. Eventually it is hoped it will become recognised as an Olympic Sport 85 02 25

1987 A group of enterprising skateboard fans have set up their own club and raised £800 (£1,840 today) to buy ramps to skate on. They have been loaned £400 by Townsends toy and cycle shop and have saved the rest. Now they are looking for new members to join the club which will be based on Heath Farm, Shelford Bottom. Charles Bradford, whose parents run the farm, said "There is nowhere in Cambridge for us to skate. We have even had to go to London to find somewhere". Membership will be £10 per year. 87 08 05a

1987 Skateboarding is back! The old Skate Park at Cheddars Lane was awful, the transitions were bad and you could feel every bump. But Billy's Ramp Skate Club at Shelford Bottom is completely different allowing newer, better tricks practised by dedicated skateboarders determined to be 'rad' and not 'lame'. The right gear is a must. Outrageously decorated T-shirts, below-the-knee Bermuda shorts, baseball-style boots and the essential protective helmet, wrist-guards, knee and elbow pads are all hallmarks of a hip skateboarder. 87 09 04a

A bump, c1910

c.38 : Rowing

Cambridgeshire Rowing Association history – Briscoe Snelson – 63 03 09a

The City of Cambridge Rowing Club was founded on April 20 1863. ‘Town’ rowing had flourished in the 1840s with half-a-dozen clubs capable of manning an eight apiece . But by the mid 50’s it was mainly confined to gig-pairs and four-oared activity. At times no local crew owned even a rudder string and depended on College Boat Clubs for the loan of equipment. In 1953 the club organised the first open regatta to be held on the Cam for over 50 years and in 1961 the Leys School decided to add rowing to their athletic activities, a centenary dinner heard. 63 03 29c 63 03 29c

1868 Cambridgeshire Rowing Association formed; Cambridge Town club established 1863, followed by United College Servants & Albert Institute; CEYMS & YMCA & Pitt Press followed & felt need for governing body; because of bad state of Cam - sewage etc- University had lost every race with Oxford since 1860, subscription list opened for improvement of river, Queen Victoria gave £100; old railway bridge too narrow for rowing eights & agreement with ECR for new bridge with clearway of 60 ft; banks straightened, river scoured to depth 7-8 feet & new bridge to give uninterrupted course of 3 miles 3 furlongs from Jesus Locks to Baits Bite which improved quality of rowing [19]

1868 bumping races re-established for local clubs [20]

1876 Rowing costs 1876 and 1960 – 60 07 08a

1883 Amateur Rowing Regatta 1883 – feature – 61 07 27

1888 undergraduate killed in Bumps accident when pointed bow hit ribs when rowing & ribs pierced his heart, Stearn the photographer took photo which proves rudder defective [5.26,5.27]

1892 undergraduate hit by lightning during May Races [3.15]

1892 last procession of boats after Bumps races, 'sent down' relating to men sent down for taking part in bonfire at St Johns [2.11, 3.13,22.3]

1899 Out of the recent split in the ranks of the Cambridge Y.M.C.A. a new 99 rowing club has sprung and already it has a promised membership of 30. The authorities had adopted a policy over smoking and it was plain to them that the Boat Club would fail unless something was done to keep the members together. Mr Digby referred to the recent controversy on smoking. He was a father of five boys and if they did nothing worse than smoke when they had arrived at the age of men, he should be perfectly satisfied - 1899 05 31

1900 An accident such as that which befell Mr G. Flowers of Emmanuel College on the Cam is always to be regretted. He was rowing in the Emmanuel College boat when it was bumped by the St John's boat the nose of which came violently against his chest and he received a severe injury. Had it occurred in the days before it was compulsory to put indiarubber balls on the noses of the boats there is much reason to fear he must have been killed c00 06 12

1901 After the rowing races at Ditton Corner & when the crush of small boats was at its height, a steam launch crowded with people endeavoured to force its way through the block of boats. Frantic endeavours were made to get out of its way but the launch crashed into a boat which contained two men, who were thrown into the river. Shouts from bystanders eventually brought the launch to a standstill but no effort was made to render any assistance. What would have been the results had the boat contained ladies. All launches should have a look-out man on the bow as it is impossible to see from the stern what is happening in front CDN 1901 06 10

1904 A serious accident occurred following the 'Mays'. After the half-past six race there is usually a scramble from the course to the boat-yards and collisions are frequent. But when a steamer and pleasure craft collide the consequences are unpleasant for the occupants of the smaller boats. Two of these were overturned and their eight occupants, including ladies, were precipitated into the water but happily all were rescued. One lady excited admiration for her cool behaviour in a perilous position and managed to climb into one of the small craft. CDN 1904 06 10

1904 The Rev N.W. Shelton, vicar of Old Chesterton and his party, half-a-dozen in all, met with an unpleasant experience at the 'Mays'. The party, in an ordinary rowing boat, had left the scene of the action and arrive, after the usual difficulty, at the Pike and Eel ferry where their progress was barred for a time. During the period of waiting a big houseboat, towed by a horse, 'crashed' into the boat which it sunk and precipitated the occupants into the water. After a short period of excitement the party, which included several ladies, were landed safely on the houseboat, which proceeded on its course. It is an abominable shame that these large houseboats are allowed to travel on the river when it is crowded with smaller craft. It was going at from six to seven miles an hour and was in charge of a small boy on a horse. 1904 06 13

1905 "yet another boathouse - Trinity Hall ... are 3 handsome boathouses next door to each other - all that is wanted now is the river" [6.22]

1905 An extraordinary incident occurred at the May Races. The stroke of the Downing boat was experimenting at the Laboratory in the morning when he was the victim of an unfortunate accident which greatly affected his eyes. To requisition another stroke would be impossible so

with indomitable pluck he decided to row. This he actually did, but was blindfolded. Sadly his energies were of no avail and his boat was bumped by Trinity Hall. 05 06 10

1905 The sinister hand of Death has cast its shadow over Cambridge in its most joyous mood. In the very midst of the May Week holiday three people were drowned through the capsizing of the ferryboat known as the Red Grind at Fen Ditton. Two journeys had been made after the racing, the ferry crowded each time and when the boat was ready for the third about 20 people commenced the fateful voyage. Two University men jumped on at the last moment, the ferry gave a lurch and turned turtle pitching the screaming occupants into six feet of water 05 06 12

1905 Words cannot describe the scene at Fen Ditton when the ferry sank. People in the grounds of the Plough rushed to the bank, one or two men plunged into the water, others seized chairs and hurled them towards the struggling mass in the river. Pleasure boats hurried and scurried in answer to frantic appeals for help and the Ditton men shoved off in their black fishing boats. Of the twenty or so who went down with the ferry all but three were saved.

05 06 12a-c

1905 Miss Violet Handscombe was engaged to Mr Thomas Day and together they enjoyed a visit to the May races. From the Plough pleasure gardens they stepped aboard the ill-fated Red Grind ferry. When it sank Mr Day became separated from his intended bride and managed to reach the bank unassisted. Eagerly he looked for his betrothed but she had become entangled with the rail when the ferry capsized; he plunged into the river again and brought her to dry land but she had been so long under water that life was extinct. 05 06 12

Miss Minnie Murkin is the central figure of the Fen Ditton ferry sinking. Today she was to have been a happy bride but now her body will be borne to the tomb. At her home in Selwyn Terrace the last few days have witnessed all the preliminary events that precede the wedding; presents have been arriving and her finance came from Swansea. He was on the bank, witnessed the upsetting of the boat and endured the agony of seeing his prospective bride dragged beneath the surface by the sinking craft. 05 06 12a-c

1905 The inquests on the three victims of the ferry sinking was opened in Fen Ditton schoolroom. The jury proceeded to the melancholy task of viewing the bodies. Those of Mrs Annie Thompson and Miss Minnie Murkin were laid side by side in a darkened room at the Plough, attired in white as for burial, and awaiting outside were the coffins. They then proceeded to a house in which Miss Handscombe was already laid in her coffin. Next they viewed the boat which had been raised from the river. 05 06 13a

1906 The Boat Race – special report – 06 09 08a & b

1907 The boat procession used to be the most popular of the May Week gaieties. The brilliant blazers of the collegeians, the varied colours of the ladies' charming costumes, the prettily adorned boats together with the enlivening strains of an excellent band all combined to make a scene of colour and animation. The gathering fell through owing to the apathy of the boating men who objected to dressing up to be looked at. But it is a great pity 07 06 08a

1907 The origin of the Cambridge Town Bumping Races is surrounded by some obscurity. It is said there were eight-oared races as far back as 1820. In 1868 the Amateur Eight-Oar Town Races were commenced but lapsed owing to the rival attractions of lawn tennis and cycling. In 1888 a silver plate was presented to the Rowing Association and since then the names of the head of the river crew have been inscribed on it, with one exception – 1894. 07 07 27

1910 Saturday's bump suppers proved exceptionally popular. It is customary for bonfires to be held in college courts and the frequent discharge of fireworks kept the fun flowing until the early hours. Jesus, who retained their position as head of the river, held a magnificent bonfire on the Close. A large crowd attracted by an enormous pile of old boxes dumped near the tennis courts, assembled in anticipation of fun before the pile was set ablaze by firing Roman candles into the heart of the inflammable mass. 10 06 17

1912 boat race - bad weather, Cambridge give up & boats sink, race void, re-ran & Cambridge lost [2.24,7.6]

1913 Cambridge rowing coach Capt J.H. Gibbon featured in 'The World' magazine 13 03 21 p4 CIP

1913 Two undergraduates told the court they were coming up the Cam in light sculling boats when they met a tug towing a string of six barges belonging to Colchester and Ball of Burwell. The barges smashed their boat and threw them in the river. The bargee said the wind had blown the rear barges across the river and the scull had got nipped between them and the bank, despite attempts by two men with poles to avoid the accident. But a Met Office witness testified there had been little wind that day. The judge said were too many barges in the chain and the back ones would always swing. He spoke from personal experience as an old oarsman on the Cam 13 05 30 p10 CIP

1913 The Fire escape and engine responded to the alarm of a blaze at St John's College where they found a bonfire burning in second court to celebrate the victory of a rower in the Colquhoun Sculls. Fireworks were discharged and a crowd gathered to watch the glare through the chapel windows. Later a fire broke out in a wicker chair in an undergraduate's room. It is thought a spark from the bonfire may have blown through the window, or a lighted cigarette dropped in the chair. 13 11 21 p11 CIP

1922 99 first boat starts 5th in division & makes bump every night to finish Head of River, Wick Alsop in crew [3.4]

1927 rowing : May Bumps broadcast by BBC for first time, the Boat Club Ball a brilliant function [4.2]

1927 Jesus College were the fastest rowers on the river and deserved to succeed in the May Races. As in other years a huge bonfire was lighted in the grounds of the college and the undergraduates celebrated the return of the Headship by dancing round the flames, shouting and singing. The "orgy" was kept up to midnight. The revels were watched by a large crowd of townspeople and some of the merrymakers engaged in good-humoured banter, amusing them with impromptu speeches. c 13th June

1929 Cambridgeshire Rowing Association oarsman's service starts (50th 1979) [22.11]

1930 The successful crews in the Lent bumping races celebrated in traditional manner. Hundreds of excited undergraduates in 'bump supper' costume filled the streets till midnight and over it all flickered the light and smoke of bonfires. Boats were burned amid shouting and bacchanalian merriment at St Catharine's, Selwyn and Emmanuel who for the first time in history had finished head of the river. An 'eight' was sacrificed in the paddock of the college upon a huge pyre. The manoeuvre of getting the boat into the college proved by no means an easy one and traffic was held up as the unwieldy craft, borne on the shoulders of the crews, was shunted into Downing Street before being passed through the narrow gate. At St Catharine's the boat was

escorted to the burning by a procession headed by a band of unemployed ex-Servicemen who had been playing on the towing path 30 20 24a

1930 A crowd of nearly 3,000 massed in front of the loud speaker which Pye Radio had installed in the main window of the Cambridge Guildhall. Business in the market was suspended and the lanes between the stalls were solid with people. In the shops and offices there was a general cessation of work; counters and desks were forsaken and faces appeared at every window. There was a cheer when the Cambridge boat crew drew level and overtook Oxford. Workers hurrying home eagerly bought copies of the special edition of the CDN and pictures are being shown at the Central and Tivoli cinema this evening. 30 03 12

6a cautious. Diaphanous frocks gave way to less flamboyant costume and what colour there was came from the blazers of the undergraduates. On the river the most conspicuous figures was a balloon vendor selling his wares by boat. An inflated rubber swan and frog trailed behind his craft, while from the 'mast' hung all kinds of air-filled curiosities 30 06 12a

1932 May races opening – crowds – 32 06 09

1932 Jesus College boathouse was damaged by fire; the upper floor was gutted and the stone ground floor reduced to the dismal prospect of two dozen boats of all kinds, either charred beyond repair or only slightly blistered by the heat. They included ten eights, two fours, two light pairs, two whiffs, two funnies, three tubs and three bank tubs. But the clock tower still stands and the clock still works. The blaze was spotted by a man on the opposite bank but the mist was so thick at the time that he was in doubt whether the building was actually on fire 32 09 23g

1933 Steve Fairbairn on rowing – 33 01 18

1933 Jesus college boathouse demolition following fire – photo – 33 03 02

1933 Cambridge boat race success – 33 04 01

1933 Jesus College's new boathouse was opened, nine months after the disastrous fire which had destroyed one of the landmarks of the river. It was a mitigated disaster as the original was gradually becoming too small. The clock, which was the only survival of the burnt boathouse, was still keeping good time in the new clock tower. It had been presented by Dr Morgan shortly after the old boathouse had been built. 33 06 13a

1934 Jesus College boat crew celebrated their Lents victory with a bonfire on the grass in front of the college and flames forty feet high dried the pavement in Victoria Avenue. An old boat helped to keep the fire going and when the supply of fuel ran short branches from trees were used. Police kept a wary eye on hoardings which might have been looked upon as sources but no raids were made. 250 paper glasses were provided to hold the beer but some preferred it straight from the bottle 34 02 26

1935 Edward ('Ted') Phillips was Cambridge's best-known and most popular watermen. He was Light Blue waterman, or badgeman, up to the time of his death. He started work in a boatyard at the age of 12 and was appointed Varsity waterman in 1868, erecting starting and finishing posts, repairing boats and sometimes breaking ice on the river. As a coach he had some remarkable successes. One of his most prized possessions was a photograph of his father, his seven brothers and himself in an eight together 35 08 16

1936 Town Bumping Races changes to course: to be three finishing posts - 36 05 26a

1936 A pilot summonsed for flying at a low altitude over the Cam at Fen Ditton told the court he was carrying a photographer for the Sport and General Press Agency. Herbert Cook was taking pictures of the Bumping Races from a side window using an ordinary camera with a long focus lens. They had to fly across the river and would not have got good photographs if they'd come down to the tree tops. There were a number of other planes from Marshall's flying about.

Spectators complained he was too low and had caused one of the waitresses at The Plough to spill the things on a tray in the tea garden. The case was dismissed. 36 10 01 & a

1938 Downing College rebuilt boat house opened – 38 10 17b

1948 By the death of William Hines Odams the river Cam rowing fraternity has lost possibly its most colourful personality whose record is unprecedented in the history of local rowing. Stroking his first winning crew in 1887 he was recognised as the greatest oarsman that the town has produced. He never trained for any event and smoked his pipe up to the very commencement of the races, in which he continued to be engaged for upwards of 30 years c48 10 28

1949 The Cambridgeshire rowing association held their annual regatta on Saturday over the new course from the middle of the Long Reach to the Pike and Eel. A good crowd of rowing enthusiasts with their friends took advantage of chairs on the lawns of the Pike and Eel and enjoyed in comfort a good afternoon's racing. There can be little doubt that the finish at the Pike has come to stay, for few of the spectators will lightly forgive the CRA if they ever again return to the discomfort of a finish at the Railway Bridge c49 09 07

1950 The May Races for another year began with all their magic. The biggest disaster came during Division VI and was watched by the hundreds who lined the Gut. The bumping of Magdalene IV by First and Third Trinity VII resulted in a glorious "pile up". Peterhouse IV rammed the Trinity boat which was driven sharply into a willow tree and the water's edge. The force of the collision ripped off the bows and sent the unfortunate crew into the "swim". For the remainder of the day the crippled boat lay on the bank as a grim warning to other crews c50 06 08

1951 Oxford sink in boat race [3.18]

1953 A chapter in rowing history was written when members of the Rob Roy Boat Club initiated their first boat, the 'John Collin' clinker eight to the river with a champagne send-off. It commemorates a man who for nearly 60 years had a brilliant record with the Club. He coached the Robs when they held the Head of the River plate on 22 occasions, and from 1914 to the present day they have always been in the first three boats on the river. c53 06 25

1955 More than 100 local oarsmen gathered at the Lion Hotel to pay tribute to two Cambridgeshire Rowing Association officials, Mr Briscoe Snelson and Mr Red Alsop. They both came on the rowing scene about 1910 when there were nine clubs and 18 crews in the bumping races. At that time the Rob Roy Club had been head of the river for 14 out of the previous 15 years. From 1914 the Association was dormant for five years. It was in 1930 that the Oarsmen's Service was originated; Snelson said: "I went along to see Canon Church, Rector of Fen Ditton and fixed it up. I told him we wanted to come in blazers and he replied: 'That's all right, my dear boy, come in pyjamas if you like!'" 55 02 26

1955 A sculling boat to the memory of Mr Roy Burrell, a member of the '99 Rowing Club for over 30 years was named at Banham's Boatyard. He was a great sportsman who had done much for the rowing in Cambridge and a schoolmaster who had given every encouragement to youth. He would never be forgotten in the annals of the club and the records of the Cambs Rowing Association. 55 07 08d

1957 A new shelter has appeared on the towpath near the Pike and Eel. From the beautifully executed Latin inscription it is clear it has been built in memory of the late Roy Meldrum who devoted his considerable rowing knowledge and coaching skill to Lady Margaret and the Cambridge University Boat Club. This simple, dignified tribute will do a service to all who love the river, especially those who coach on the exposed banks of the Cam

1957 Rowing leviathan – 16 seater boat built by Banham – 57 12 03

1958 The first college boathouse to be built in Cambridge for more than 25 years was formally opened by the Masters of Corpus Christi and Sidney Sussex colleges whose Boat Clubs will share the facilities. The land had been earmarked by Sidney as a boathouse over 50 years ago. Until work started it had been used by college gardeners as a delphinium bed. 58 11 03a [22.1]

1958 college masters unveil new boathouses – 58 11 03a

1959 The '99 Rowing Club now has a boathouse of its own in this, their diamond jubilee year. They have bought the boathouse owned by Messrs Banham's at the bottom of Kimberley Road, used by Sidney Sussex College. It is in need of repair and alteration and various members have volunteered help as electricians and plumbers. It should be ready by the summer 59 02 04c

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 to hold open regatta, 1st time crews all parts of county can compete, (by 1976 now largest one-day regatta in country) [22.2,22.10]

1960 Cambridge boat builder H.C. Banham has been asked to build a new stern section for a racing clinker which was damaged when a hippopotamus took a bite at it. They are to ship it out by air to the Zambezi Boat Club. Mr Banham says that local oarsmen should appreciate their good fortune. 60 03 15

1960 The '99 Rowing Club had been accused of being more of a social club than a rowing club, said the Mayor when he opened their new boathouse, the first to have a licensed bar. It has been converted from a ramshackled building with much of the work done by members. Councillor Mole recalled that when he came back to Cambridge in 1930, one of the first things he did was to join the '99 and he had soon made many friends. R. Alsop, Club President had showed him the Bailey Cup for Senior Championship Fours which included the inscription ' C. Mole, 1932' 60 07 04

1962 This year marks University boatman Alf Twinn's silver jubilee as the man in sole charge of the Cambridge University Boat Club, although he has been with them much longer. He took over from 'Cooie' Phillips in 1937 and is only the fourth boatman in the 133 years' history of the Light Blue Club. Excluding the war years Alf has had charge of 12 winning crews, but has never seen a Boat Race. He is the only man outside the realms of inter-Varsity sport who has been awarded his 'Blue'. He got his cap in 1939 when Tom Langton was President. 62 01 10

1963 Lent Bumps cancelled due to frozen Cam, first time in 136 years [6.17]

1963 The City of Cambridge Rowing Club commemorated its centenary by unveiling a new weather vane at its boathouse. It is the oldest 'town' club and was 'Head of the River' for eleven successful years from 1951-1961. The weathervane, made by Messrs George Lister, was presented by the well-known Cambridge artist, Raymond Lister, who has a long association with the club. 63 04 22 had played considerable part in re-establishing bumping races in 1868 [20,22.6]

1964 1st & 3rd Trinity burn boat - & fencing [22.7]

1964 A student prank ended in tragedy on Saturday evening when the cox of a Clare College crew drowned in the river. He had been celebrating at a dinner with the rest of the crew

afterwards gong to Clare Bridge where he was thrown in. He called for help and three of his companions dived in to save him. They failed and one had himself to be rescued. Earlier the cox had been given the traditional ducking by the boat crew when he swam to the bank safely 64 03 02b

1974 Cambridgeshire Rowing Association want 2,000 yard rowing course at Milton using soil for Northern bypass embankment [22.9]

1978 Cambridge sink in boat race [2.7]

1983 Two of Cambridgeshire's oldest boathouses were destroyed in a spectacular blaze; one was owned by the '99 Rowing Club, the other by the CRA. Crowds lined the banks and boat club members who had been drinking in a nearby pub risked their lives trying to save their valuable boats, flinging them into the river. By midnight only charred shells remained of the two historic landmarks 83 09 01 p1 foundations of new laid 1984, opened 99 Dec [22.12]

1984 After losing its boathouse in a spectacular fire 15 months ago, the Cambridge '99 Rowing Club is now celebrating the completion of its attractive replacement. Fortunately none of the club's eights were in the boathouse at the time of the fire. The club takes its name from the year it was founded and Banhams, the then well-known boat builders supplied the first clinker eight in 1949 to mark their golden jubilee. At the same time they were the first local club to buy a new eight. This has just been refurbished and is returning to the river looking nearly as handsome as it did in its heyday. 84 12 10

1984 Cambridge boat rams barge at start boat race [2.8]

1988 College boatmen restore and repair rowing eights and fours which are easily damaged during practice or racing. They fix shoes, slides and stretchers needing attention. The number of boats has doubled since women's rowing came into its own. Alf Twin is 72 and for 53 years worked at the Cambridge University Boat Club. He served his seven year apprenticeship under the senior boatman, 'Cooley' Phillips, watching his master by day and attending classes at night. It was much more of a gentleman's sport in those days. Now the crews train harder and the boats are changing from wooden to plastic. 88 02 03a & b

A tackle at rugby match, 1950s

175.88

c.38 : Rugby

1904 Last week some Frenchmen visited Cambridge. There was no doubt about their being Frenchmen. They displayed many of the features of their race, but they were also possessed of phenomenal dash and staying-power. They came to play Rugby football against a team which nominally represented Trinity College but which was far stronger than any single college could put in the field. And they beat this team completely. Many seemed surprised: "I wouldn't have thought a Frenchman could last out a game of 'Rugger'" one said. The shoulder-shrugging, frog-eating Frenchman of the story-books is a rare creature. So let's banish this nursery-bred illusion and hope one day for the friendship of this great people. CDN 12.11.1904

1905 The Cambridge University v Dublin rugby match stopped suddenly and the players hastily gathered together in a group and remained perfectly still. It seemed a new way of playing rugby, even less comprehensible than the ways of the New Zealanders. Then one of the crowd ran out with a lengthy overcoat and out of the circle emerged the form of a famous three-quarter back, shrouded in the voluminous garment. Sedately he commenced a journey across to the pavilion, but then he ran and the secret was revealed – he had rent his football knickers 05 12 02b

1907 Ever since the Cambridge University Rugby Football ground was acquired in Grange Road ten years ago, the absence of dressing rooms has been a problem. When famous clubs like the 'Springboks' and 'All Blacks' visited they had to change in the cottage at the corner of the ground. Now the new pavilion contains showers, lavatories and kitchens with a stand for 200

people. The old roofless wooden stand, long regarded as an eyesore, has been moved to the opposite side of the ground 07 10 10

1923 One hundred years ago the Royal and ancient game of rugby football was initiated, and today an alleged representation of the first game was given in Cambridge market square. Some time before noon the square was roped off and surrounded by police. The fountain was converted into a Royal box and the telephone kiosk into a press box. At noon the teams marched on to the ground. At their head was carried a large and considerably elongated football on a butchers tray. With the teams marched a portly and bearded Proctor, complete with "bullers" and a nasty looking birch, which he did not hesitate to use when occasion demanded c23 11 09

1959 Dickie Jeeps to retire from Rugby – profile – 59 10 06a & b

1961 Cambridge Rugby Union Club dates from 1923, although there may have been a rugby club of some sort in existence before the first world war. The Old Cantabrigians were founded sometime in the 1920s as part of the County High School old Boys' Society but lapsed and was not reformed until 1945. Shelford followed in 1935, being established by young players unable to get a game, and finally came the Old Perseans who as the Perse Wanderers appeared in July 1949, a new book on the history of the Eastern Counties Rugby Union records. 61 01 08a

1962 The University rugby ground in Grange Road is one of the finest in the country. Two years ago millions of gallons of water were pumped during the heat of the summer and hundredweights of seed used to repair the ravages of the winter season. After months of loving and expert care the groundsman defied me to traverse the pitch and produce a dozen weeds. I didn't bother to accept the challenge. The playing surface looked, if shaved, fit for bowls. It was a credit to the efforts of the Hayward family who care for it. 62 01 06

1983 Grange Road is being lit up as Cambridge University take delivery of a £20,000 present – a complete set of floodlights. The lights, which are the final stage of a campaign to turn Grange Road into one of the best-equipped rugby grounds in the country, have been given to the Light Blues by a firm of London merchant bankers. 83 09 28 p30

c.38 : Sailing

1899 Cam Sailing club formed [4.11]

1959 The Cam Sailing Club celebrated their diamond jubilee with a lavish ball in a marquee on the club site. Mr S. Evans, the Ground Steward, now owns 500 coloured fairy lights which originally belonged to his grandfather, and he used them to illuminate the carefully-tended flower beds. 'The Duchess', a well-known motor launch took the guests from the car park to the lawn and there was a bar on board. With a membership of 300 the club holds a high reputation in the sailing world 59 08 01 & a

c.38 : Shooting

note: see c. 45.4 for other reports of rifle ranges

1909 The Saxon Cement Works' Miniature Rifle Range was opened by Major Bourke, of Rorke's Drift fame. It has a range of up to fifty yards where rifle shooting may be practiced in fair weather and foul, in daytime or at night, electricity affording the requisite illumination. In rain the bull's eyes are accessible to the bullet fired from the verandah of a comfortable club house. Every member possesses his own rifle.09 01 22

1910 Henry James, a watercress seller from River Lane, was accused of searching for spent bullets in the soil at the Rifle Butts without having permission of the Commanding Officer of the Cambridgeshire Regiment. He'd got some girls to help to pick up about 6lbs of bullets that he'd sold to Mr Charles Carless, a marine store dealer of Broad Street. Two boys were also cautioned for picking up bullets. The Territorial Army said a good deal of damage had been done to the Rifle Butts by people picking up the bullets and they wanted to stop people buying them 10 07 15b

1926 Grange road rifle range closed due to danger to Coton, OTC transfer to Coldham's Common [1.11]

1933 Sir – Coldham's Common could be turned into a municipal nine-hole golf course now it is no longer required for shooting. The Corporation have £700 from the War Office in compensation for not putting the Common in the state it was before the rifle range was constructed. The various firing points and the lower portion of the butts could be used in the construction of a very sporting course, providing work for the unemployed. It would be no new thing to have golf played on the Common as the first University course was there – RG 33 01 07d

1939 Haymaking on Grange Road rifle range – photo – 39 07 06

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 Mrs Louie Wallace of Maid's Causeway has been the ladies champion of Cambridgeshire Small-bore Rifle Association for ten out of the past eleven years. She is a member of the Gogs Rifle Club which was originally the 5th Battalion Home Guard Club. It is a good sport for women as it needs enormous concentration and self-discipline. Club and county badges are worn on the back of the shooting jackets so they can be seen while the competitor is actually firing. 60 06 22

1964 A group of women meet twice a week in a corner of Cambridge police station. Some are typists, some work in laboratories and banks, but the majority are ordinary housewives. They are all rifle shooting enthusiasts who practice on the police range. They change into slacks and firing jackets, then erect target cards and collect ammunition. Their ambition is to be selected for the county women's smallbore team. Husbands and boy friends used to be rather patronising when they took up shooting as a hobby. That is until they were invited to the range one evening and given the opportunity to shoot. 64 06 26c

1981 The crack of blazing shotguns was heard for the last time at Madingley as Gallyons closed their shooting ground after 70 years. Ernie Johnson has spent his entire working life there and so after 44 years of teaching, advising and correcting the technique of sporting gunmen from all walks of life he is facing his first change of job. The site is surrounded by roads and cannot expand to stage big shoots. 81 06 19

c.38 : skittles

1930 The Cambridge Skittle League was formed in August and proved that the average man was a sportsman; a lot of people were inclined to 'run down' the public house games such as darts, dominoes and shove ha'penny. The Skittles League met the requirements of these people and what should be more natural than they should go to the poor man's club – the local inn. Publicans went out of their way to provide every amusement and recreation
30 04 11

1932 Mr E.C. Green recalled that when he was a boy skittles were played by country people in a large shed; then it was brought into Cambridge with a club room converted into an indoor skittle alley. Both the pins and balls were made of India rubber with the sides of the room padded so there should be no noise. After a time the game died out but had now once again become a growing pastime with a Cambridge League started three years ago. 32 04 22a

1977 Members of the Cambridge & District Skittles League see themselves as men of great skill and dexterity, pitting their wits against other eight-man teams in a three-dimensional game that has its own terminology. They hurl, toss or spin a flat, flying saucer-shaped cheese at a table resembling a large, sparsely padded armchair upon which are spaced nine wooden pins. Each player has a maximum of four throws to demolish as many as he can. The dedicated band of serious skittles players are a dying breed. Gone are the days when coachloads of players used to arrive long before the game to limber up. CDN c 11.2.1977

c.38 : Swimming

1888 swimming : Cambridge University & Town Swimming Baths Company established [5.28, 6.1]

1896 women's bathing place completed [2.16]

1906 Cambridge Amateur Swimming club formed [17.9]

1906 Christmas bathing in the river needs a Spartan spirit and a robust constitution. But in Cambridge sufficient men enjoy a jovial gathering at the Town Bathing Sheds every Christmas morning. With the mercury hovering above freezing point, water in dykes coated with ice and a keen wind blowing across the Fen, about 30 bold spirits plunged in and one swam to the Leys School. When he emerged from the water his skin had a bright red hue, but he was perfectly happy. 06 12 29b [6.23]

1908 Charles Henry Driver was appointed custodian of the Town Bathing Place on Sheep's Green five years ago. Since then he has saved 31 lives, mainly residents but a few visitors. Small wonder that recognition should be shown of his promptitude in saving life as well as of his skill in restoring animation in half-drowned persons. He was presented with a substantial silver cigarette case and a handsome illuminated address. CWN 08 08 11 p5

1910 water-polo : team successful but would improve if could practice during winter months in good indoor swimming pool [6.21]

1911 swimming : exercise shows how Kings Mill might be converted to open air swimming bath [7.10]

1913 Swim through Cambridge – 13 08 29 05 CIP

1914 There were two rescues from drowning at the Ladies Bathing Sheds. There were about 200 ladies and children when one lady tried to stand and found she was out of her depth, this unnerved her and she sank. The assistant, Miss King jumped in fully dressed and swam to her aid but could do little until the custodian, Mrs Alden, came to her assistance. So far gone was she that artificial respiration had to be resorted to. Later Mrs Alden, who had changed into her swimming costume, jumped in and pulled out another lady. 14 06 26 p8

1920 Swimming – only one man responsible for supervision of men's and boy's bathing places, frequently by up to 3,000 in a few hours – inquest on 10-year-old boy hears; not right that small boys should bathe so close to the girls – everyone ran about half-clad – not good for morals - CDN 20 06 21

1922 Coldham's Common bathing pool opened [2.21]

1922 The proposed new bathing places provided a lively debate at Cambridge Town Centre. Plan A was for a bath on the far side of Sturbridge Common, not far from the railway. Plan B was for a bath on Jesus Green parallel to the river and a little above Victoria Bridge. It would be supplied by water taken from the Cam through pipes from above Jesus weir. The Bullen's Grove site on Sturbridge Common was less overlooked but the great point in favour of Jesus Green was that it was far more accessible and it was finally agreed to approve it c22 10 20

1923 Jesus Green swimming pool opened [2.24,6.25]

1924 Sir - Cambridge council practically excludes modest women - and men - from the new bathing place, unless they are prepared to do violence to their own decent instincts. What the council practically declares is in effect, 'Go and bathe as domestic animals do, male and female all together - they never object so why should you?' What this atrocious decision means is that decent men and modest women are to be excluded from all reasonable participation in a very pleasant summer exercise - A Decent Englishwoman c24 04 28

1925 The annual swim through Cambridge may be said to rank as one of the finest races witnessed since its inception. There were 37 competitors, including 14 ladies. The course followed by the swimmers from the Old Mill, Mill Lane to Strange's Boathouse, Jesus Lock, via the Backs of the colleges is approximately 1,360 yards. The town turned out in force at every point of vantage to watch the progress of the swimmers. H.P. Lavender passed the winning post barely five yards in front of Miss Lavender amidst the applause of the onlookers 24 07 03 c

1925 Whatever the merits of the controversy which the site of the Jesus Green Baths aroused a few months back, there can be only one opinion as to the usefulness of the baths themselves. Thousands of happy, healthy hours have been spent there this season; in the last four months 20,000 tickets have been issued for male bathers alone. With such vast number of swims it is inevitable that mishaps should occur. Mr W.Clee states that 25 rescues from drowning have been made. In most instances bathers of indifferent ability have ventured into deep water and then lost their nerve at the thought of not being able to swim to the ladders. In addition nine children have

had to be pulled out of the river opposite the bathing sheds. Despite a warning board children persist in paddling and frequently venture into water that is too deep c25 08 31

1931 A unique performance has been accomplished by Jack Overhill of Trumpington who, although only three years of age, has mastered the art of swimming. The tiny record breaker is also the youngest member of the Cambridge Amateur Swimming Club. He has been a real 'water baby' since his first introduction to the river at the age of one year and nine months. Since May he has been in the river twice daily, even during cold spells 31 07 24a

1934 Granta swimming club formed, starts swim from Grantchester Mill to Sheeps Green (later changed to swim through Cambridge) [17.10,18]

1935 The new swimming bath on Coldham's Common was opened by the Mayor, Alderman R. Starr. There was some regret that his Worship did not take the first plunge into the 150 feet long pool, which takes its water from the high level stream, and youthful spectators had to be restrained from going in as soon as the doors were unlocked. There is a diving tower and spring board at the deep end with dressing sheds and a space fenced off for sun bathing. 35 08 02a [1.14]

1935 plans for palatial swimming stadium announced, behind Parkside, 100 ft x 42 ft with glass screen in tea room allowing patrons to watch bathers; did not materialise; 2 years later two privately owned syndicates decided erect indoor bath, came to nothing [25]

1937 Charles Henry Driver, custodian of the Town Bathing Sheds at Sheep's Green since 1903 is to retire. He has saved over 90 lives, receiving several life-saving certificates. It will be children who will miss him most, even though most of them only know him for the firm way he suppresses outbreaks of youthful over-enthusiasm. He has taught hundreds of them to swim. His fancy dives are a speciality and his appearance on the diving board is the signal for a crowd to collect to watch him 37 07 29

1938 'Charlie' Driver, the popular custodian of the men's bathing place, Sheep's Green, was presented with a chiming clock at his retirement after 34 years. It was a credit that there had been no drowning cases during his term of office. Parents knew that their children were in safe hands and he took care about its appearance. The Superintendent of Commons, A.O. Richardson, recalled that he had been reprimanded by a small boy for walking on the grass with his boots on – "You won't half cop it when Mr Driver sees you". 38 01 15

1938 petition in favour indoor swimming pool raised but spoilt when ink upset over it; by time recirculated war broke out & plan shelved cCEN 17.12.87

1938 Plans for an indoor swimming pool for Cambridge were rejected by councillors. Swimming was healthy exercise for children and there was no evidence that epidemic diseases were spread by indoor baths. It would help solve unemployment in the building trade and Cambridge was one of the few towns without one. But Saffron Walden baths were built in 1910 when costs were much lower than today and they did not pay. People would still prefer the river in summer time. It would be better to have baths just for children that adults could use in the evening. 38 03 24b

1938 Indoor swimming pool possible – cartoon by Searle – 38 10 15bb

1947 The Cambridge sporting fraternity has lost one of its most colourful characters by the death of Mr Charlie Driver. His aquatic achievements are legion and more than 90 people owe their lives to his life-saving prowess in the water. Among many tangible reminders of his contributions to the art of life-saving is a silver cigarette case presented to him as long ago as

1908 on behalf of readers of the Cambridge Daily News in recognition of his skill and promptitude in saving 31 lives from drowning at the Town Bathing Place. He retired after 34 years of service as custodian of the ton bathing sheds on Sheep's Green, only to come back again and carry on during the war years. Putting the clock back some 60 years one recalls how, at the old swimming sports at the Old Ladder on Sheep's Green, he made us envy his skill in bringing to the surface the largest number of plates cast in the river, to win the prize for that event 1947 04 22

1953 Cambridge councillors approved a £22,000 scheme for the improvement of Jesus Green Swimming Pool despite fears that this might prejudice chances of an indoor pool. It was an outdoor pool, used for about 110 days a year; last year 55,000 people used it but it ran at a loss and each one cost the City sixpence. It would be filled from the mains & filtered to remove impurities. More would use it if they could go into water that looked like water and not soup. Others thought they ought to enclose half the present bath so it could be used all year – but this would make it look like a shed and bring criticism c53 12 05

1957 A giant super-modern heated indoor swimming pool with a roof-top restaurant may be constructed on Donkey common. It would have space for 230 bathers with 600 spectators, parking for 35 cars and 200 cycles and a view across Parker's Piece from the restaurant. Changing rooms for footballers and crickets could be installed later. It could be in use within three years. 57 07 20a & c

1958 Manor school heated pool plans – 58 02 26d & e

1958 St Faith's School has a new swimming pool built by voluntary labour. The Headmaster, Mr F.M. White, says it only cost £280. They were encouraged by the success of a small primary school in Huntingdonshire which was funded by their Parent-Teach organisation three years before. The basic requirements are an enthusiastic staff, an able school handy-man and above all the technical advice of an enthusiastic expert. He must remain nameless, otherwise he'd be inundated with similar requests. 58 08 01a

1959 The Headmaster of Fawcett Junior School, Trumpington (Mr F.N. Walker) declared the school's new swimming pool was "well and truly open" after he had been pushed fully dressed into the water. Roars of laughter came from the Mayor (Wallace Cole), Mayoress and parents who were present but the Head took his ducking in good part and swam vigorously for half a length. The pool has been built by the parents with the help of the children themselves. 59 09 23

1963 Parkside indoor pool was opened by Ald Ridgeon and dozens of young members of Cambridge swimming clubs who had been sitting round the edges of the pool jumped into the water, splashing and cheering. A colourful and exciting gala followed featuring Linda Ludgrove, the double gold medallist at the Empire Games, and several Olympic swimming stars. The new building, which took three years to erect at a cost of £250,000, contains two heated pools; the main one has diving boards while the beginners' pool has a constant dept of two feet six inches. 63 04 01 talked of for 100 years [6.16,17.8]]

c.38 : Table Tennis

1901 “Ping-Pong was invented by Mr James Gibb, an old Cambridge athlete now living at Croydon. It was started one evening with champagne corks cut as nearly circular as possible, and the lids of cigar-boxes for battledores. Then he tried indiarubber balls covered with cigarette paper to make them look very white but he was not satisfied and sent to America to have some celluloid balls made. Mr Gibb was one of the best all-round athletes of his day. The game he invented continues to rage virulently in society c01 04 30

1902 In at least one thing Cambridge is abreast of the times. She has the craze for ping-pong, or to call it by its more dignified name, table tennis. For a long time past the ping of the racket could be heard coming from the houses of the up-to-date. By Christmastime ping-pong parties had become quite general, ping-pong clubs were formed and now Cambridge has been brought into line with the metropolis by holding a tournament. It was to be held at the Conservative Club, but owing to the large entry it was decided to transfer operations to the Corn Exchange. The one table reserved for ladies was always an attraction. The lady competitors, generally in smart costumes, played a milder game, though there were some who would have made the male sex jump about. CDN 1902 02 04

1902 We have all heard of the rise of ping-pong as well as predictions of its decline and fall. It would appear that Cambridge people, who were not behindhand in the appreciation of the attractive game, have already lost some of their liking for it. The opportunity that the Imperial Ping Pong Tournament offered to local players to compete for handsome prizes valued at 45

guineas has not been extensively accepted. At no time during the evening was there a very large attendance. CDN c 12.2.1902

1902 We understand a Ping Pong Club, open to residents in the New Town district of Cambridge has been started. The large room of the New Town Conservative Club, Russell Street, has been secured, and two Whitmore patent tables are provided. The hon secretary is Mr E. W. Illsley of 23, Bateman Street CDN 1902 02 25

1930 Cambridge has yet another claim to distinction. Mr James Gibb, who died recently, was the inventor of the game of ping-pong which enjoyed a tremendous vogue about 30 years ago. He was an old Cambridge athlete and started the game one evening with champagne corks cut as nearly circular as possible and the lids of cigar-boxes for battledores. Then he tried India-rubber balls covered with cigarette paper before finally sending to America to have celluloid balls made. 30 04 19b

1936 Cambridgeshire Table Tennis association formed [17.12]

1962 Cambridgeshire Table Tennis Association was formed in September 1936 and won their first match against Bury St Edmunds with a team comprising Messrs Humphries, Betterman, Stearn, Constable and Nunn. The finger spin service which was then very fashionable tended to bemuse the Cambridge players to a certain degree. Youngsters John Thurston and George Lawrence made a name for themselves while John Cornwell had several fine victories over international players. The Y.M.C.A. team were county champions in the inauguration year and repeated the feat in 1962 – the Silver Jubilee year. 62 05 19

c.38 : Tennis & Real Tennis

Cambridge University Croquet & Lawn Tennis founded before 1885 by & for senior members of Universities of Oxford & Cambridge [17.14]

1914 brickfields on Milton road reclaimed & converted into tennis courts, 6 hard & 9 grass with 6 more in preparation [7.18]

192- Arbury Rd rapidly growing... post WWI fields converted University Tennis Courts, George VI & Duke of Gloucester played; [446.8.5]

1922 Lawn Tennis league inaugurated [6.26]

1925 Despite a shower of rain a number of tennis enthusiasts were present on Jesus Green when the Mayor opened Cambridge's first public hard tennis courts. They are situate opposite Strange's Boatyard and a part of the council's plans to develop Jesus green into a recreation ground, with facilities for a variety of games. Directly adjoining are the grass courts, nearby is the bowling green whilst further afield cricket pitches are being laid. All these will be in use by May c25 02 24

1939 Cambridge Town & County Lawn Tennis club to have last season on existing ground in Madingley Road and Wilberforce Road; will move to fine ground nearer centre town with 16 to 20 first-class grass and one hard court 39 01 07

1964 Cambridge University Croquet and Lawn Tennis Club, known as the 'Cock and Hen' club is moving to a new home on Madingley Road. It is the oldest tennis club in Cambridge founded before 1885 by and for senior members of the Universities of Oxford & Cambridge who were expected to join in pairs – hence the name. Now half are townspeople. Croquet has not been

played since the Great War but some say a lawn could be laid at Gilling Paddock.64 04 09b
[17.14]

1964 Cambridge has one of the few public croquet lawns in England. It is on Christ's Pieces, next to the bowling green. It is almost exclusively used by undergraduate members of the University Croquet Club to whom most of the equipment belongs. Although only three years old they have gained a reputation for their enthusiasm and high standard of play. Anyone can take part but it is not a game suitable for the infantile or the senile 64 05 11

1969 Real Tennis : in 1900s were 9 courts, Grange Rd sole 118 year-old survivor [12.2]

1984 Young Cambridge tennis starlet, Ginny Humphreys-Davies has become a British champion for a second time. The 12-year-old St Mary's Convent pupil overcame an attack of nerves to win the Prudential hard-court championships in Edinburgh. Cambridge now has two British junior tennis champions following Teresa Catlin's victory in the under-14 age group last year 84 06 02 p1

c.38 : Tiddlywinks

Tiddlywinks contest in Guildhall, 1958

201.19

1955 launched in modern form by undergraduates from Cambridge [11.12]

1958 University v goons tiddlywinks match – 58 01 18

1958 The Duke of Edinburgh sent a message regretting that he was unable to take part in a tiddlywinks watch at Cambridge Guildhall: “While practising secretly I pulled an important muscle in the second or tiddly joint of my winking finger. But wink up, fiddle the game and may the Goons’ side win””. In his absence the Goons team, including Spike Milligan, Harry Secombe and Peter Sellers were defeated by Cambridge University. They were not helped by an eccentric uniform and intervals for refreshments such as leeks, sticks of rhubarb and glasses of Champagne perry 58 03 01a

1977 Cambridge University Tiddlywinks Club now has 21 members. In action in a dingy cold room upstairs at the Castle pub, Castle Hill they slouch on all fours over the felt mat playing area and talk intensely of tactics using weird words like bristolling, crudding and squopping surface. To a certain extent the dedicated members of the winking world feel under threat, their skills unrecognised by the mocking, unwinking masses, but say that tiddlywinks can give back health and mental stability to those who are ravaged by the complexity and over-mechanisation of modern life CDN c22.3.1977

1980 Cambridge University tiddlywinks club sponsor 1st world championships singles competition [11.13]

1985 Tiddlywinks world championship held at Churchill college – 85 11 26a & b

1986 Tiddlywinks players competed for the Prince Philip Silver Wink, the universities annual championship established by the prince in 1961. Cambridge University developed the now internationally-accepted rules in 1955. Each game lasts 25 minutes and there are five complete rounds to shoot. The most important skill is ‘squoping’ – the art of covering up winks. A Varsity match was established against Oxford University in 1958 but in this year’s competition Cambridge was beaten by Southampton despite having a world record number of players to choose from 86 03 11a

Water

pol

o

1910 water-polo : team successful but would improve if could practice during winter months in good indoor swimming pool [6.21]

c.38 : wrestling

1905 The Cambridge Hippodrome has secured the services of Alec Bain, one of the best-known wrestlers in the country. He offers £20 to any man he fails to defeat in 15 minutes or £50 to anyone who defeats him. His opponent in a 'catch-as-catch-can' contest was Mr Davis, a well-known local exponent of physical culture. For eight minutes he extricated himself from dangerous holds but then was fixed in a 'hammer-lock', a hold he claimed was not allowed as it was very dangerous. But the referee's judgement was in favour of Bain. 05 11 14a

1926 A demonstration of ju jitsu was given in Cambridge by Mr A.J. Morgan and C.W. Boxsell who deputised for Professor Saddington and the son of Professor Sitton, the old University boxing instructor. A carpet about five feet square was requisitioned for a mat and Professor Saddington supplied ju jitsu costumes. The proceedings opened with a demonstration of "Kime-no-Kata, or ju jitsu self-defence methods. This was followed by methods of defence against an armed assailant which was loudly applauded. A display of ju jitsu wrestling literally brought the house down c26 06 06

1938 Wrestling at Corn Exchange – 38 01 11

1951 wrestling : banned from Corn Exchange, then allowed, first bout Jack Demsey v Mick McManus [3.21,3.22]

1958 The re-introduction of professional wrestling to Cambridge by Dale Martin Promotions proved very popular. Large crowds filled the Corn Exchange to watch an international heavyweight contest between Tibor Czakacs (Budapest) and Joseph Zaranoff of Russia. Spencer Churchill (London) lost to Charlie Fisher of Eltham and Tommy Mann of Manchester beat Al Nicol of Nottingham by two straight falls. Then Mick McManus knocked-out Packie Pallo with a flying shoulder charge. 58 09 20

1978 'Giant Haystacks', otherwise known as Luke McMasters, towers above every other wrestler in the British ring at 6ft 11in and 32 stone and you could only pity tiny 15½ stone Mike Marino as he stepped into the Corn Exchange ring to pit his strength against him. The bout looked over when Haystacks body-slammed Marino to the canvas and, with a contemptuous glance, headed for the dressing room. But incredibly Marino managed to stagger to his feet before the count ended and Haystacks could not lumber back into the ring in time. Earlier a crowd of 700 watched Bert Royal and Vic Falkner beat Hungarian exile Zoltan Boscik and Britain's Chris Bailey. c78 03 05

1889 death J.W. Skeels, town crier 28 years [Misc.6.4] Ch 25.10.1889 p3 1932

1897 May Day is the name of a holiday that calls up all sorts of pretty rustic associations. In Cambridge the first day of the merry month is a most unromantic reality. A few small children straggle about the streets with more or less pretentious garlands and a Jack-in-the-Green may occasionally be caught sight of, but beyond this May Day in Cambridge is a memory of the past. In connection with Hobson-street chapel there was a "May morning breakfast" at which there was a large attendance. The room was decorated with flowers and the gathering was a most enjoyable one c97 05 01

1898 Shortly before the clock of Great St Mary's with deep-toned impressiveness proclaimed the exit of 1897 and the advent of 1898 King's Parade was thronged with people awaiting the fiery messengers sent up year after year by Ald Beck. We have a shrewd suspicion that the unusual sight of letting off rockets at midnight attracted the bulk of the people who visited King's Parade last night. "Beer, beer, glorious beer" chorused a lively portion of the crowd. Precisely upon the stroke of 12 there was a swish and roar in front of the portals of King's and the first rocket soared aloft proclaiming abroad the significant fact that the old year was out. A second

rocket heralded in the new year, and after some slight ebullition of feeling and a feeble attempt at "Aud lang syne" the crowds dispersed, and the streets resumed their normal state c1898 01 01

1898 An eerie story of a puritan maiden who appeared to a visitor in a house near Cambridge is recorded in the "Westminster Gazette". The incidents were recounted by Mr Ames, who besides being psychic herself, is a writer and lecturer on psychic matters. "My daughter's house near Cambridge was an ancient one and on entering it a feeling of strange discomfort overcame me. That night I dreamed that a puritan girl, beautiful and sad, sat at the foot of my bed. The story was laughed at by my family, but strangely the vicar of the place took it quite seriously and by a study of local records was able to establish that the house had been in the possession of a Puritan family c1898 03 31

1898 The pretty and interesting ceremony of electing and enthroning a May Queen was observed at the Higher Grade School, Eden Street. Teachers and girls had been busy transforming their room into a perfect garden of flowers, and the Royal dais, covered with a green carpet. The retiring Queen (Ethel Norman) having robed and put on a crown of pansies she ascended the throne and abdicated at the end of a very happy reign. May Rossendale was elected the new Queen by a large majority and to the strains of a stately march she appeared, preceded by her bodyguard bearing garlands of flowers with which they made a triumphal arch for her May Majesty's procession. c1898 05 01

1898 Seven labourers were summoned for "tin kittling" in Great Shelford. PC Chater said they were banging tins and trays, and such things, as well as shouting and yelling at a lady. Two of them had pails half full of tar which they used for burning the woman in effigy. This entertainment continued for about two hours. The woman said: "My husband won't part with his money, and that's why I left him." The magistrate: "What is your husband's name?" - "I don't know what his name is. I never took the trouble to remember his nasty name". Defendants were fined 2s.6d each CDN 1898 05 28

1899 As 12 o'clock draws near on New Year's Eve in Cambridge the interest of the crowd is directed towards the House of Alderman Deck. For many years he has made himself responsible for a display of rockets on King's Parade as the Old Year gives place to the New; and he is not going to disappoint his fellow townspeople tonight. Just a few minutes before twelve he leaves his house and set up the stand from which two rockets are to be fired on the causeway in front of the gates of King's College. While the expectant crowd eagerly looks on, he lights a fuse and just on the first stroke of twelve the first rocket, that in honour of the Old Year, is set off. It has hardly completed its flight when another rocket, that in honour of the New Year, shoots up into the sky 1899 01 02

1899 Yesterday afternoon the attention was attracted by what seemed to be an imposing funeral procession. But this was no ordinary funeral for instead of the usual hearse an open landau led the way and this was occupied by three young men who wore "the trappings of woe" very lightly. Following were nearly a score of hansoms. It is alleged that at the end of last term at student of Queens' college "ragged" a couple of Freshmen's rooms. The matter was reported to the University authorities who came to the conclusion he should be sent down for a year. His friends resolved to show their disapproval. Before the train left the company whistled the "Dead March" and it left amid ringing cheers - 1899 02 17

1899 Once a year the good feeling existing at Pembroke College between members of the colleges and the servants is given expression to. In recent years, largely owing to the efforts of Mr A. Chapman, the butler, undergraduates and servants have united in a festive gathering in the Long Vacation, and it has now assumed the aspect of an annual affair. During the day a cricket match took place, the servants played in the ordinary way, while the collegians used broomsticks as bats. Dinner in hall followed and after this came a concert *al fresco* - 1899 08 09

1900 Farewell to 1899 and welcome to 1900 were symbolised by the two rockets that were sent up from King's Parade just before the stroke of 12 on New Years Eve. The custom of discharging rockets has been religiously observed since 1825 by the Deck family and it is now one of the established institutions of Cambridge life and a much-looked-for feature of the season's festivities CDN 1900 01 01

1900 For several years past the 1st of May has been observed at the Eden Street Higher Grade School, Cambridge, by a ceremony which is at once attractive and imposing. The scholars assemble in costumes suitable to the best traditions of the sunny month and elect one of their number as Queen for the year. It is a happy survival of May Day festivities, which it is hoped will be perpetuated. Queen Kate and her retinue walked to the throne which was bright with a profusion of spring flowers. The children voted for the new Queen and Ellie Fisher was elected. She was crowned with a wreath of white flowers and saluted with a sisterly kiss by the dowager Queen CDN 1900 05 01

1900 It is a matter of regret that the celebration of May Day has been so largely discontinued. The Maypole has to a large extent disappeared. It was a praiseworthy custom, and its associations were fragrant of rustic purity, but the Maypole has gone the way of the spinning jenny. Children still gather wild flowers on May Day, but the garlands that one sees have too much of the coloured paper and ribbon brought from the draper in their composition CDN 1900 05 01

1900 Cambridge town council considered the position of town crier. Mr Campkin said the office was a relic of Bumbledon and could well be dispensed with. They had outlived the town crier as they had the Bedell. Alderman Spalding thought it a great pity to get rid of these old offices. The crier preceded the Mayor to church five times a year, went to meet the judges three times, attending the quarter sessions and licensing sessions and made in all sixteen appearances during the year. The salary was £20 per annum CDN 1900 10 18

1900 Cambridge Town Council invited applications for the post of Town Crier, at a salary of £20 per annum, with allowance for delivering and posting handbills, and uniforms to be provided. The crier might be a little out of date, but he was a picturesque figure. Three candidates were interviewed and asked to read one of the Proclamations used at Midsummer Fair. The committee strongly recommended that Henry James Thompson, of Perowne Street, be elected CDN 1900 12 20

1901 All over the country people keep up the practice of watching the Old Year out and the New Year in, but Cambridge is probably unique in the sending up of rockets. Mr Alderman Deck has religiously observed the practice inaugurated by his father and the townspeople are grateful to him for it. Hundreds of people gathered on King's Parade. The two rockets were placed in a crate and just as King's clock was striking the midnight hour the venerable Alderman applied a light to one of the rockets and with its flight was symbolised the flight of 1900. A few moments later the second rocket was sent up, heralding the birth of the New Year and the New Century c01 01 01

1901 A large number witnessed the quaint custom of the presentation of the wooden spoon to the last man in the University Mathematical Tripos. This year two candidates were bracketed at the bottom of the list and both gentlemen received large spoons emblazoned and trimmed with their college colours. The spoons were lowered down to their owners from the gallery in the Senate House amid much interest. Mess Crisp & Co of King's Parade, Cambridge, again supplied the spoons, which were artistically painted and decorated. Mr D. Buchanan, who comes from South Africa, has had an additional spoon presented to him by his South African friends, with the arms and coloured ribbons of Cape Colony CDN 1901 06 18

1902 The one event in Cambridge on New Year's Eve that rises superior to all others is the midnight ceremony on King's Parade, where for many years past the public have assembled to bid farewell to the old year and welcome the new, in a manner that obtains in a few other towns in the Kingdom. There was little except the associations of the ceremony to tempt hundreds of people to make a midnight journey. The space in front of Alderman Deck's house, facing King's College was densely packed and shortly before 12 o'clock the first rocket ascended and about a

minute later the second followed. A few illuminative fireworks were discharged near the church and King's Parade resumed its normal appearance by 12.15 CDN 1902 01 01

1902 Old English customs are, unhappily, dying out slowly but surely. Even the romantic revels which formerly attached to May Day have to a large extent disappeared and but little remains to mark what was an important day in the calendar. May Day is essentially a day for youthful jubilation and in one place in Cambridge is at least observed as such. Scholars at Eden Street Higher Grade Schools annually take part in a quaintly pretty ceremony of choosing a May Queen. Queen Nellie – last year's queen was escorted to her throne and formally abdicated. Votes were taken and it was announced that Miss Daisy Coulson had been elected and she was crowned with a crown of roses CDN 1902 05 01

1903 Young men and matrons, old men and children, gathered on King's Parade, Cambridge, at midnight to speed the dying year and welcome the new. Everyone was waiting for Alderman Deck who left his house a few minutes before the hour, carrying the rockets, to see the flight of which so many people flock to the Parade. Standing in front of King's gate the venerable alderman lighted the rockets and the crowds broke into hearty cheers. c03 01 02

1903 Itinerant vendors of the delicacy inseparable from Good Friday awakened citizens to the fact that a public holiday was at hand. While the majority of householders were still sleeping peacefully, unmusical voices in the streets below broke the stillness of the morning with offers to sell 'two a penny' and a proportionate number for 'tup-pence' in a sing-song for which three notes of the scale provided the tune. All modes of traction were utilised by holiday-makers, affording evidence of the growing popularity of the motor. Dusty and noisy they may be, but that they continue to grow more popular there can be no doubt and motorists comprised no mean section of the Good Friday road traffic. c03 04 11

1903 A Fulbourn wood dealer claimed his horse had been bewitched and conducted an experiment to see who had bewitched it. He took two bottles to the blacksmith's shop and filled them with nails and pieces of hoof from the floor, then bought some pins and needles. At midnight he put water in a saucepan and boiled it with the parings of hoofs nails, pins and needles in. He sat quite in the dark. At last somebody came to the door but he was so frightened he blundered off upstairs. The magistrates attributed the condition of the horse to starvation rather than the evil eye and imposed a heavy fine. It is almost incredible that such fooleries should be believed c03 02 04

1903 The most famous wise woman in the fens lives in the town of Cambridge itself. On market days farmers and labourers and servants come to seek her advice, cross her hand with silver and go away with spells for love and marriage, for the cure of all kinds of ills and good luck in cattle-dealing. Another famous Wise Woman lives in a cottage in a village near Newmarket. She does a good business in spells and charms, from wart-curing to love philtres. She has cured thousands of warts by a process of rubbing the root of the dandelion plant on the hard skin to the accompaniment of some incantation gibberish. On stormy nights she is still fondly believed to go for midnight rides on a broomstick. c03 02 11

1904 Show Night one Christmas custom still lamented; all Cambridge and his wife used to turn into the streets on Show Night when every shopkeeper did his best to make a display of his wares and catch the public eye by some novel form of window dressing. The chief objects of attention were the butchers and poulterers shops where the carcasses of prize beasts and prize poultry were exhibited in prestigious quantities, meanwhile the proprietors dispensed hospitality to their customers in their private offices or parlours ... In their endeavours to beat one another the butchers killed more meat than they could get rid of ... then sentimentality came on the scene - felt it barbarous 'unworthy of nineteenth-century civilisation' so died out ... talk of advisability of reviving it next year [4]

1904 Plough Monday dancers absent [1.25]

1904 Christmas at Cambridge - some good old customs [CDN 24.12.04]

1904 procession of boats to be buried [2.8]

1904 Cambridge magistrates said the custom of sending round for 'Christmas Boxes' was a bad one and liable to be greatly abused. They heard how a groom from Castle Street had obtained a shilling from the cashier at Hallack and Bond's shop after claiming that he was an ostler at the Carrier's Arms. He also tricked Eaden Lilley's into giving him a similar sum. No less than 11 similar charges could have been made against the prisoner who was sentenced to seven days hard labour. CDN c 26.1.1904

1904 For a span of seventy-odd years Cambridge has had a rallying point from which to speed the Old and welcome the New Year. The venerable Alderman Deck has sent two coloured rockets skyward and attracted a portion of the population to King's Parade. For the first time a similar event took place at Old Chesterton when his son ignited the fireworks close to the Horse Grind ferry. But it was not known that a new ceremony would take place and not a single resident left his abode to witness the rockets' flight c04 01 05

1904 On Good Friday Cambridge residents now expect their repose during the early hours of the morning to be broken by the appropriately mournful cries of the purveyors of the stodgy hot cross bun. As early as half-past four in the centre of the town the 'Two-a-penny, four-for-tuppence', pitched for the most part in a minor key, commences and continues without intermission until the disturbed sleeper in sheer desperation gives up attempted repose and descends to breakfast, at which meal the Good Friday bun is usually of more ornament than use. The custom of taking a supply of the buns shows little decline & manufacturers say there is still a good demand. As far as the weather was concerned, after the snowstorm, hail-storms and rain of Thursday, it was a pleasant surprise, but amusements were restricted by the high wind. Easter is the commencement of the season for pleasure patrons of the wheel, but few cared to face the grind of many miles in the teeth of such strong currents and the roads were but little CDN c 9.4.1904

1904 The bedmaker is an institution. Without her the University would be sadly disorganised. Now The Granta has been conducting a bedmakers competition which Mrs Jacob of Magdalene has won. She was born in 1829 and has served the college for 62 years. Mrs Hills of St Johns has a record of continuous service since 1839 while Mrs Nichols has served 28 years at Corpus with 11 at Peterhouse before that. But several ladies entirely declined to take the contest seriously, one saying she had read in The Granta 'articles which no gentleman could possibly have written' 1904 11 26

1904 Last term in the small hours of the morning an undergraduate in the old part of Corpus Christi College saw something of a supernatural appearance. It so unnerved him he became quite ill; he refused to continue to occupy the room and moved to another staircase. Naturally the college authorities deemed it desirable to prevent the story from gaining publicity and until now have succeeded in suppressing the circumstances. But now the harrowing and gruesome facts have leaked out and the recent visitation of 'something' to the undergraduate is beyond dispute. 04 12 24 [1.15,2.10]

1905 Sultan of Zanzibar hoax (follows article in TT about Shah of Persia visit 1873) [2.13]

1905 The alleged appearance of an apparition at Corpus College is recorded in 'The Occult Review'. It describes attempts to exorcise the spirit who says he is Thomas Harding and killed himself in the rooms in 1707. It is a known fact that a former Master, Dr Butts, hanged himself in these rooms but of Harding nothing has yet been found. There are mice in the rooms but it would be difficult for any noise they make to be mistaken for footsteps, nor could they shake a wash-stand to and fro. 05 04 08f-j

1905 A sensational report in the London papers that 'the body a woman upon whose body a variety of curious tattoo designs was found was discovered in the river at Cambridge' actually refers to a tragedy at Chatteris a fortnight ago. Two women of the tramp class were pulled from

the river. One had tattoos of the crucifixion on her chest, a soldier, sailor and flags on her right arm and a fully-rigged ship, English and American flags, the letter M and a woman in tights on her left. Her left leg had a representation of a Highlander playing bagpipes 05 06 19a

1905 Mr Prevett, the clever local Punch and Judy man was performing at a garden party near Cottenham and demonstrating the unhappy relations between Punch and his spouse with much vigour. At the conclusion of the show he was accosted by a lady who protested his manipulation of the dolls was too brutal and would have a demoralising effect on the poor innocent rustics. A short time after the lady married, and quite recently was fined for assaulting her husband with a garden rake! 05 07 08a

1906 St John Ascension Day custom introduced (10 years ago 1916) [1.4]

1906 The old custom of assembling on King's Parade to witness the death of the old year and the birth of the new, as signalized by the discharge of a couple of rockets, was again observed by a large number of the inhabitants of Cambridge. The crowd was in a happy frame of mind but there was nothing to complain of in their behaviour. A few seconds before midnight one rocket soared skywards to the accompaniment of cheers. Shortly afterwards 1906 was heralded by a second. The custom, which was initiated by the late Mr Deck, has now reached its 80th anniversary. 06 01 01a

1906 'Hare scramble and bottle-kicking' custom, Hallaton – 06 04 14

1906 A crowd of dons and undergraduates congregated in the Senate House to learn who had gained the coveted distinction of Senior Wrangler but those who were expected to obtain good positions awaited in the seclusion of their rooms the news brought by friends. The examiners stood in the gallery holding the fateful papers in their hands and announced that Mr A.T. Rajan, an Indian student, and Mr C.J. Sewell, both of Trinity, were bracketed as Senior Wranglers. When the order of merit in printed form came fluttering down from the gallery the customary wild scramble for the sheets ensued. 06 06 12

1906 At the Senate House two Wooden Spoonists received their degrees. H.R. Bell and W.Crouch, both of Selwyn, were bracketed last in the Mathematical Tripos and each was presented with a wooden spoon. Years ago this was a shovel with the college arms hastily painted on the bowl. Now it has become a thing of beauty, a trophy handsomely decorated which would not be out of place in the most artistic study. They were lowered on strings from the gallery and each recipient was handed a pair of garden shears with which he cut the string, bravely shouldered the spoon and marched out accompanied by a perfect tornado of cheers. 06 06 19a & b

1906 Newmarket Road was the scene of a demonstration which proves that whatever the morality of a district individually, collectively it is on the side of strict morality. The people who incurred the displeasure of the neighbourhood were the objects of a considerable amount of hustling in the streets and a crowd gathered in front of their house beating tin kettles and similar utensils. 06 08 25a

1906 For many years it has been the custom for men employed in the various bakery businesses in Cambridge to hold an annual supper known as the Bakers' Clem, provided through the generosity of the master bakers and millers. This year 70 men and boys sat down to a substantial meal at the Star Tap, Newmarket Road after which songs were sung. 06 11 19

1906 Christmas bathing in the river needs a Spartan spirit and a robust constitution. But in Cambridge sufficient men enjoy a jovial gathering at the Town Bathing Sheds every Christmas morning. With the mercury hovering above freezing point, water in dykes coated with ice and a keen wind blowing across the Fen, about 30 bold spirits plunged in and one swam to the Leys School. When he emerged from the water his skin had a bright red hue, but he was perfectly happy. 06 12 29b

1907 The Cambridge custom of ushering in the New Year by the discharge of rockets from King's Parade has rarely been observed under more favourable conditions and a good crowd congregated near King's gate where a wooden stand had been erected. The Chief of the Fire Brigade and the Chief Constable stood by with a number of 'blue lights' spluttering in their hands ready to fire the symbols of farewell and welcome. 07 01 01

1907 For many years a weird figure, clad in a red chintz dress, has haunted a farmhouse on the Thorney estate in the fens. During the creepy hours of the night it appeared in one particular bedroom and pointed a long, lean finger to a roof. Sometimes it made a rattling noise. Then it vanished. The house was long occupied by the Caves, a noted fen family. Now a new tenant investigating the beams above the room has found secreted there the will of John Caves, made in 1797, relating to an estate worth about £10,000. Probably the mystic lady's perambulations will now cease 07 01 08

1907 Mrs Verrall, wife of a Fellow of Trinity, first attempted to obtain automatic phenomena by means of the planchette but without success. She then tried automatic writing. Seating herself before a sheet of paper she began writing rapidly although it was dark and could not see what she wrote. The writings have been in Latin and sometimes Greek but the phraseology is medieval. A good many other Cambridge people are interesting themselves in such phenomena and there was previously a branch of the Psychical Research Society in the town. 07 01 12 & 12a

1907 Only members of the University in academic dress are admitted to the Senate House to vote on the abolition of the Senior Wranglership. But one voter managed to elude the vigilance of the janitors and outraged the proprieties by stalking up to the barrier in a light 'dust' coat, swinging his cloth cap in hand. The situation was explained to him and after a hasty retreat he reappeared in the decorous black garment. 07 02 01a

1907 The doom of the Senior Wrangler has been sealed, and after 1909 that world renowned and historic personage will be as extinct as the Dodo. It is impossible not to feel regret for his passing. He has been so intimately associated with Cambridge as to have become a sort of trademark by which the University is known. But the tendency of modern education is towards specialisation and a University that failed to keep abreast of the times would soon be in decline. 07 02 04

1907 The boat procession used to be the most popular of the May Week gaieties. The brilliant blazers of the collegeians, the varied colours of the ladies' charming costumes, the prettily adorned boats together with the enlivening strains of an excellent band all combined to make a scene of colour and animation. The gathering fell through owing to the apathy of the boating men who objected to dressing up to be looked at. But it is a great pity 07 06 08a

1907 The scene in the Senate House was very tame and it was not until the presentation of the wooden spoons to the last Wrangler that there was any fun at all. This year three men were bracketed for last place. The original wooden spoon, about 30 years ago, grew into a malt shovel with the man's college arms upon it, but this year they were more elaborately decorated than ever and are quite works of art, beautifully adorned from bowl to handle. 07 06 18 & a

1907 A family has fled a two room, one up and one down, cottage in the parish of St Andrew-the-Less because of a supernatural visitation. Mysterious knockings come from beneath a truckle bed in which an eight-year old, named Rose, sleeps with another girl. People have tried to reproduce the noise by shaking the bed, stamping on the floor and striking the wall. The floorboards have also been taken up without result. Hard-headed men who pooh-poohed the story waited outside and distinctly heard the noises which only happen when Rose is in the bed, asleep. 07 09 05 & a. The Cambridge 'ghost' has declined further manifestations for the delectation of hundreds of curious persons who, having discovered its situation, throng the narrow thoroughfare at all hours up to midnight. Neighbours discuss little else: Rose the girl at the centre of the disturbance, is the offspring of a former marriage, her mother having been married a second time. The theory is that the spirit of her deceased father is endeavouring to communicate with her, for monetary advantage. 07 09 07 & a. Two CDN reporters waited for hours at the 'haunted cottage'

with all the paraphernalia for bogus-spook-laying. News of the investigation had leaked out and the street was filled with men, women and children whose remarks were overheard by those behind the drawn blinds. Some agreed they were foolhardy and a bottle of brandy was a necessary item – but a spook-hunter is a teetotaller if he is wise. As the hours progressed the crowds melted away before the persuasions of the police. 07 09 07a. News reporters in the Cambridge ‘haunted house’ heard a ‘thump-thump-thump’ repeated twice. Had the spook obliged? Not a bit of it – the sound came from next door. Either the neighbour found a spot which required hammering or he thought he would reward the investigators with something to investigate. No noises have ever occurred after eleven o’clock so the pair packed up their paraphernalia and left without having heard anything more ghostly than the scratching of rats and mice. But outside the excitement remains as real as ever 07 09 07 & a

1907 Many recall the ‘Knocking Ghost of Barton’ when a succession of thumps were heard in a farmhouse and many a skilled ghost-layer were at their wits’ end for an explanation. The real reason was hit upon by accident. Near at hand was a stable and beneath the floor was a disused iron pipe. When the horse kicked the sound was communicated to the house but so muffled and mysterious that no other cause than the supernatural was supposed. The Barton ghost had a good run before being run to earth. 07 09 30a

1907 A ‘mock funeral’ saw a procession of 100 cabs boarded by undergraduates who scrambled to the roof of the vehicles for the journey to the railway station. The cabbies had decorated their whips with pieces of crepe and ‘mourners’ with mouth organs and a miniature bagpipes played hideous music. The ‘deceased’ was ‘sent down’ for being out of Caius College after midnight – he had gone to London but his car had broken down. 07 11 26

1907 There is considerable perturbation in regard to the application of the Prevention of Corruption Act to the time-honoured custom of giving and receiving Christmas boxes. The housewife may still give her maid a half-crown upon Christmas morning, the master may have the satisfaction of a grin from his man upon receipt of a similar sum, the postman may still be rewarded with his Yuletide trifle. But beyond Christmas boxes of this character is it not safe to go. 07 12 14b

1908 death of Arthur Deck, New Year ceremony : 2 rockets set off as Kings clock struck the hour; took punch in Deck’s back parlour, now abandoned by son [3.7,1.1]

1908 Good Friday celebrations – 08 04 17

1908 There has been an Alpine fever amongst undergraduates, finding a vent in climbing trees along the Backs. The wireless telegraphy station on the Huntingdon Road has been the site of the latest exploit. This is a pole over 200 feet in height which receives messages from Cumnor Hill near Oxford. Two undergraduates merrily commenced the ascent by means of the metal spikes driven in at convenient intervals and managed to reach the top. But the return voyage was not so easily accomplished and they reached terra firma with a distinct sigh of relief. It is a matter for common wonder what object will next receive the attention of this strange species. CWN 08 06 05 p5

1908 A wise woman living in a village near Newmarket does a good business in spells and charms, from wart curing to love philtres. She has cured thousands of warts by rubbing the root of a dandelion on the hard skin to the accompaniment of some incantation gibberish. On stormy nights she is still fondly believed by many people to go for midnight rides on a broomstick – or so claims a London paper hard up for copy during the silly season. CWN 08 08 22 p5

1908 Witches stories – CWN 08 08 22

1908 Frederick Myers was well known in Cambridge during his lifetime and, being interested in spiritualism, promised that if communication between the dead and the mind of the earthly were at all possible he would get in touch with his friends on earth. Now Mrs Henry Sidgwick, president of the Psychical Research Society, claims to have established communication through a system of automatic cross-correspondence. CWN 08 11 20

1909 The Costermongers Boxing Day Marathon race was run between East Road and Bottisham and back. It is open to men who earn their living by hawking and the fact that 17 came forward with their barrows in such unfavourable conditions says a good deal for their hardiness.. Soon mud began to bespatter the runners. Tom Nunn took the lead in the outward journey but was finally beaten by Sam George CWN 09 12 31

1910 Crowds of several hundred people thronged King's Parade awaiting the hour of midnight when they would bid farewell to the old year and welcome in the new by the discharge of rockets. This tradition has been carried on by the well-known family of Deck for 84 years. To while away the time sundry vocalists started choruses of popular tunes until the solemn hour drew near and a cheer was raised when the rockets were brought out and fixed in readiness in the gateway of King's College. As the clock struck 12 the first rocket went up straight and true and as the glare of the firework died away the bells of Great St Mary's struck up a merry peal and toasts were drunk. 10 01 07

1910 death George Randell lived Honey Hill, blind man sold matches on street corners, so tall coffin made 7 ft long [Misc.6.6]

1910 An old Cambridgeshire custom says that an inhabitant who transgresses the conventions shall be accorded a 'tin-kettling'. One took place at Fen Ditton where 200 people assembled outside the house of a couple, many provided with tin-kettles, tin-pans and whistles. What noise could not be made by thumping these with pieces of wood was contributed by the yelling of many voices. Popular songs were also bawled out and a special chorus composed for the occasion was sung to the accompaniment of much booing. This continued for an hour. Then effigies of the offending parties were carried high above the heads of the jeering crowd and set on fire in the middle of the roadway while the crowd danced round, jeering and shouting the names of the couple. 10 02 04h

1910 Dr R. Vaughan Williams lectured on 'The Folk Songs of East Anglia' and the enjoyment was enhanced by Mr J. Steuart Wilson of King's College who gave expressive renderings of a number of Old English ballads. Vaughan Williams had discovered the early folk ballad 'Geordie' at Fen Ditton but whether there was a great deal more to be found he did not know. At Fowlmere the Rev Campbell Yorke had got the 'May Day Song' from an old gentleman who rejoiced in the name of 'Hoppy' who preferred to do odd jobs and sleep in sheds and outhouses. He often started the first verse of a song with an entirely different tune and only got into the right swing at the end. 10 02 18 & a

1910 Saturday's bump suppers proved exceptionally popular. It is customary for bonfires to be held in college courts and the frequent discharge of fireworks kept the fun flowing until the early hours. Jesus, who retained their position as head of the river, held a magnificent bonfire on the Close. A large crowd attracted by an enormous pile of old boxes dumped near the tennis courts, assembled in anticipation of fun before the pile was set ablaze by firing Roman candles into the heart of the inflammable mass. 10 06 17

1910 One of the biggest mock funerals for many years resulted as a difference of opinion between the authorities of Emmanuel and several junior members of the college as to the proper conduct of a 'bump supper' after which they had lit a bonfire on the lawn in the front court. Some ten undergraduates in their third year were rusticated for a week. A string of hansom cabs appeared at the gates, the 'corpses' clambered on to the roofs and mourners in evening dress and wearing old silk hats swathed with crape accompanied them to the station. 10 06 17a

1910 A man told the court that he earned £1 a week playing a street organ. It had cost him £18 10s.6d, he'd spent £5 for new tunes, twelve shillings on a new wheel and three-and-six on tuning. A motor car had run into the back of it, knocking it over and causing considerable damage. A four-year old boy who had been in the shafts was knocked over and his hands were cut. There was nobody in Cambridge who understood the instrument and it would have to go to London to be repaired. Repairs would cost at least £3. He had another organ which his son took out. He was awarded £5 for damage to the machine and £3 for loss of earnings. 10 09 23 c & d

1910

An undergraduate was fined for assaulting a policeman on Guy Fawkes night. A considerable amount of damage had been done, hoarding demolished, gas lamps broken, the railway station raided and milk churns overturned. The most serious incident occurred at Jesus Sluice footbridge where a battle royal took place between members of the County Constabulary and a large party of undergraduates and town roughs. They stoned the police, all of whom were hit, and PC Johnson was struck on the forehead by a piece of board and rendered unconscious. Only the arrival of police reinforcements had averted further trouble. 10 11 11 & a

1911 hot cross bun seller shouting wares 5.30 am, then 2 more [3.4]

1911 The observance of Plough Monday in Willingham has degenerated into parties of boys calling at houses and asking for coppers. This year an old custom has been revived. A party of young men, wearing top hats decorated with ribbons and carrying whips dragged a plough round the village. On their way they met an old ploughman and on his declining to assist them financially, they harnessed him to the plough and he drew it for some distance. He was soon released but not before he had afforded much amusement to the onlookers and the young men - 11 01 13j

1911 Mock funeral – TT 10 Mar 1911 - At the head of the funeral procession was a hansom. Seats on the top with legs dangling over the side, was the undertaker. His mournful calling seemed to have cast a settled gloom over his countenance. His eyes were mournful and sad, and his clothing was of the deepest black, save for his socks (he wore no shoes), which were of the brightest scarlet. In his hand he waved a long whip (an emblem of his mournful trade), with a bright handkerchief to match his wonderful socks tied to it. Behind the hearse were nine carriages filled with loudly lamenting mourners – extract from a report of a 'Mock Funeral' for an undergraduate sent down from university 11 03 10b

1911 In a little side passage in King Street a barrel organ was draped with black and mauve as hansoms, taxis and growlers arrived in their dozens. The coffin was covered with crepe surmounted by cap and gown while plumes barely concealed the lines of an express delivery van in which sat the 'corpse' smartly dressed in grey suit and felt bowler. There were about 100 horses and motor vehicles in the procession to the station where the tops of the railway carriages were filled with figures clad in varying garb from pyjamas and rowing shorts to mourning suits and dress suits. It was the most imposing mock funeral ever seen in Cambridge 11 05 19d & e

1912 New Year welcomed by rockets – 12 01 05c

1912 always complaints on November 5th - heartless & brutal conduct of police, inhuman monsters who dash hither & thither - but what are respectable people doing out [3.1]

1912 Deck stops people smashing bottles after New Year custom [3.2]

1912 On Plough Monday it was the custom at Bottisham for ploughboys to have half a gallon of beer at each of the five public houses. Police found two of them drunk in the road. One had collided with a wall and could not get up; he was taken home in a wheelbarrow. The landlord of the Swan Inn said he'd only supplied them with beer. But his wife said she'd served the men with whisky that farmer Woollard had paid for. He confirmed that he'd put sixpence in the

ploughboys' box and treated them to whisky. He would be surprised to find men sober who had visited at the public houses in the village. But they were sober when they left. 12 01 26 & a

1912 Ghostly rappings on the back door of a cottage at Tydd-street, St Mary, a village near Wisbech are causing great excitement. At first the noise was supposed to be the work of a practical joker, but constant watching disproved that theory. The noises occurred between nine in the morning and seven in the evening. On Wednesday fully 100 people assembled round the cottage and the noises were distinctly heard by all. The owner of the cottage has consulted two Wisbech spiritualists and nothing has been heard of the knocking since then. 12 02 02e

1912 A mock funeral started from the "corpse's" lodging in Lensfield Road. There was a long line of taxis, hansoms and even four-wheelers stretching some distance down Trumpington Street. There was no elaborate "hearse" as in previous funerals: the body was placed quite simply in a hansom bearing the words "Alas! My poor brother" and smoked cigars throughout. His "cabby's" hat was draped with crepe while the majority of the fancifully-dressed mourned wore complimentary black-eyes out of respect for the 'deceased'. There were an extraordinary number of "flappers" – quite stunning flappers some of them were too. One of the best was a suffragette and Mrs Pankhurst also figured in the procession. 12 03 08

1912 Workmen digging at the rear of a shop in Peas Hill discovered the skeleton of a man and women, lying side by side. Nearby is the site of an old monastery and the assumption is that the remains were found in a former burying-ground. If so it knocks the bottom out of one of the best ghost stories in Cambridge, involving a wealthy banker whose young, beautiful wife took a lover who then disappeared. Half a body was later discovered in excavations at the Bijou Theatre Club's cellars. Now it appears they may all be linked. 12 10 18

1912 Mr Herbert Reynolds was presented with a street piano purchased following a benefit concert in the Beaconsfield Hall. Many local gentlemen had subscribed to alleviate the misfortune of Reynolds' blindness by giving him a means of an honest livelihood. The piano would prove a boom to him in his affliction and – they hoped – he would always conduct himself as befits an Englishman. The first tune was then played on the instrument which was made by Pasquale and Co and has a round of ten of the latest melodies. An explanatory board is being gratuitously painted and with the collecting-box and the piano cover the outfit is complete. 12 12 20b

1912 Christmas of 1912 promises to be as happy as any of its predecessors. The complaint of 'low wages and high prices' is heard in many quarters but evidence of material prosperity is afforded by the increased bulk of trade. Cambridge tradesmen have seldom shown such enterprise in regard to the stock exhibited and their reward promises to be forthcoming in the hearty response of shoppers. The football match on the Town grounds on Christmas Day is sure to prove a great attraction and the 'Barnwell Derby' race for costermongers pushing their barrows from Cambridge to Bottisham Swan will take place on Boxing Day 12 12 21c

1913 Valentines cards practically died out, some comic ones [3.3]

1913 The weather was far from ideal for the Easter Holidays. There was the usual crowd of young people engaged in the traditional Good Friday skipping on Parker's Piece until rain drove them away but the football matches attracted large crowds. On Saturday the wind was strong and a very sharp thunderstorm passed over. Sunday saw brilliant sunshine but it was rather too early in the season for much boating and the rough winds of the last few days had rather discouraged cycling. On Easter Monday a good number of people went off by the excursion trains or by motor launch to Clayhithe and bowling was in full swing on Christ's Pieces 13 03 28 p5 CIP

1913 The Fire escape and engine responded to the alarm of a blaze at St John's College where they found a bonfire burning in second court to celebrate the victory of a rower in the Colquhoun Sculls. Fireworks were discharged and a crowd gathered to watch the glare through the chapel windows. Later a fire broke out in a wicker chair in an undergraduate's room. It is thought a spark

from the bonfire may have blown through the window, or a lighted cigarette dropped in the chair.

1914 Cambridge possess one of 4 tattoo artists in England, very decorated, tattooed one of Shackleton's South Pole party [Misc.6.9]

1914 There were animated scenes along the road between Cambridge and Bottisham on Boxing Day when the annual Costers' Marathon took place. A big crowd saw the 14 competitors start from Abbey Street. They had to travel to Bottisham and back, a distance of 11 miles, pushing a coster's barrow before them. Ben Warren led practically all the way covering the distance to Bottisham rapidly, but facing the wind on the return leg left all competitors severely tired. Most finished and received half-a-crown. 14 01 02c pic 14 01 02d last costermongers race [1.13]

1914 In accordance with custom the widows of Haddenham made their house-to-house call on St Thomas' Day to receive their contributions. Several years ago there were upwards of 70, this year only 22 made their appearance. The youngest was 30 and the oldest 50. Notwithstanding age the senior old lady managed the tramp through the village with as much vigour as the younger ones. It is gratifying to know that this mark of respect paid to the needy poor has not fallen off 14 12 25

1914 Costers' Marathon took place on Boxing Day but rain deterred spectators, robbing it of the animated scenes anticipated. Eight competitors with their barrows took part 15 01 01

1915 troops billeted Newmarket Rd house find it haunted [3.5]

1915 slump in hot cross buns - usually waken 5am by seller 'one a penny, 2 a penny' - but now no 0.5d buns; will go same way as muffin man, few will miss its passing [3.6]

1915 The New Year rocket custom did not take place. Mr Arthur Deck did not consider the present was a time for such a function, especially as fireworks were forbidden on November 5th as likely to cause alarm. Again the event might disturb soldiers in the hospital or encourage soldiers to keep late hours. But people sat up to welcome in the New Year and many of the soldiers from the north were seen on the doorsteps of their houses singing "The Miner's Dream of Home". Bugles were to be heard sounding the Last Post and the bells of Great St Mary's Church rang in the year 1915 15 01 01

1915 Mysterious happenings have been experienced at Argent's Farm near Hempstead. One night a chair, on which stood a sack containing six stone of flour, suddenly leaned forward and deposited its burden on the floor. This happened three times. Next morning all the chairs played similar pranks and their toppling was witnessed by several residents. Two candles on candle sticks also toppled forward and when the candlestick was placed on a window-sill it gave a great jump on to the bed, a yard and a half away. The owner has lived in the house for 50 years and nothing of that kind had previously taken place 15 02 26

1921 death Crutchey Newman, boot cleaner Cambridge station [Misc.6.8

1921 custom of keeping Saturday nearest Armistice day starts [369]

1922 New Year rockets for Parkers Piece because hemmed in by building on what formerly open ground Pembroke St; will be 87th time, custom dates back to 1820 but stopped 1914-18 war & after that DORA forbade it [2.25]

1923 For most people the practice of watching the Old Year out and the New Year in has considerable attraction. It had that attraction for some 700 people when Mr Arthur Deck revived the ancient custom of letting off one rocket for the departing year and one for the New Year. For the first time since 1913-14 when the War put a stop to the practice has the New Year been welcomed in Cambridge in this way. The proceedings were not marked with that liveliness that some of us remembered was evinced on previous occasions, but still the interest taken speaks well for the continuation of the custom. The firing of rockets was started in 1820 by Mr Deck's grandfather c23 01 01

1925 As midnight approached a small group of about 200 brave souls gathered on Parkers Piece, huddled together waiting for 1925. Fierce wet gusts swept by, the old year was going down fighting stubbornly. As the hour approached a silence fell upon the crowd. A minute before there was a flash and a whizz and 1924 split into a thousand coloured lights in the sky. As the first chimes of the Catholic church battled with the wind there came another flash, a soaring, roaring trail of light into the sky – 1925 had come c25 01 03

1925 Good Friday dawned damp and dismal. Parker's Piece was the great gathering place of the merry makers. In accordance with custom many people produced skipping ropes and skipped away to their hearts' content. Old men & maidens, young men & children – likewise grand dames – jumped up and down to "Salt, mustard, vinegar, pepper" and similar meaningless jungles. Hawkers of balloons, ices, fruit and sweets had secured "pitches" at the East Road corner and did good business. Ices, yesterday morning – b-r-r-r! c25 04 14

1925 Something of a new departure is to be made in the outward appearance of the Pro-Prctor and his satellites. Commencing next week he will patrol the streets on foot but minus cap and gown, and the 'bulldogs' will wear some less conspicuous headgear than 'toppers'. It is said that some students will keep their motors outside the town and cycle out to fetch them but should any resort to such expedients they will probably receive an unpleasant surprise c25 10 20

1926 1925 was sent from among us, and 1926, was ushered in by the century-old custom of firing two rockets on Parker's Piece at midnight. A small band of townsfolk gathered to attend the funeral obsequies of the dying year. At ten minutes before midnight Mr A. Deck arrived with the rockets and the crowd stood in silence. Then the bells of Great St Mary's were drowned out by a mighty rushing noise, a whiz and a bang and 1925 had gone. Then as the first chimes of the Catholic church reached the ear there was a second whiz followed by another loud bang and 1926 was here c26 01 01

1926 Sir Arthur Conan Doyle presented a "creepy" evening among ectoplasms, spirits, and the like at St Catharine's college, Cambridge. The hall was crowded with an audience of dons and

undergraduates to hear the famous novelist talk on “Psychic Experiences”. He had postponed an earlier visit as the college was in mourning for its Master & his doctor had ordered him not to come now because of a bad cold. But he had disobeyed, thinking that if for the second time he did not materialise – laughter – they would imagine he had no objective existence at all. He showed a photograph of the crowd round the Cenotaph on Armistice Day; above a small band of spiritualists hung a vapour comprising faces of young men killed in the war c26 11 15

1927 Parkers Piece skipping; 83 year old man remembers when 5-6 & father before him; seems Good Friday used to be publicans’ day out & came Parkers Piece for games of bat & trap whilst youngsters amused themselves with skipping rope [1.23]

1927 “The first marriage according to the new Prayer Book” was solemnised in Cambridge when an undergraduate “bride” and “bridegroom” were joined together in unholy matrimony on King’s Parade. The blushing bride with the bowing bridegroom was preceded by a piper and a clergyman who was wearing “flannel bags” under his surplice and carried a doll’s sunshade. The bride’s dress was a pair of white lace curtains and she carried a large bouquet of Brussels sprouts. The bridegroom wore a dilapidated silk hat and a red nose – and carried a banana. They stepped into a waiting carriage followed by a motley through of ludicrously attired “relations and friends” CBD c25.2.1927

1927 Why does skipping always take place on Parker’s Piece, Cambridge on Good Friday and Easter Monday? An old man of 83 remembers skipping there as a boy of five or six and his father apparently did so before him. It seems that Good Friday used to be the publican’s “day out” and they used to repair to the Piece for a game of bat and trap, while their youngsters amused themselves with a skipping rope. We don’t hear much about Bat and Trap nowadays but the skipping goes on as of yore. CDN c 22.4.1927

1927 Cambridge Undergraduates took upon themselves the duty of opening “Joanna Southcott’s” famous box on the Market Hill. A crowd of mammoth proportions assembled. A melancholy dirge was heard from Petty Cury and there appeared a party of pipers and following them in one of Dale’s lorries came a weird array of 24 “bishops” and a delegation of “Mormons” wearing huge straw sombreros. One “archbishop” proceeded to open the box, producing several layers of red tape, a teddy bear, a pair of old football boots and a number of bananas with which he pelted the crowd. The “rag” was organised to provide funds for the Cambridge Fruiting Campaign to help strawberry pickers in the Wisbech area.c27 06 07

1927 When the honours degree men were presented to the Vice Chancellor there was distinct evidence of a movement to break down the tradition of wearing evening dress. Many graduates were in morning dress and soon the sight of men walking about the streets of Cambridge at noon in evening dress will be a thing of the past. The old statutes prescribed that recipients of Bachelors’ degrees must appear in black clothes and since the war impecunious undergraduates found their only black suits were their dress clothes. The new statute states that dark clothes must be worn which brings in the lounge suit. The evening dress tradition is not very old and rests on nothing but undergraduates’ customs 27 06 26

1927 Sir – the death of Mr Alfred Lander has cast quite a gloom over the Sidgwick Avenue – Silver Street bit of Cambridge. For many a year his familiar figure stood in all weathers under his big old tree, sheltered by the wall, generally accompanied by a robin or dog, his special friends. A casual passer-by might suppose he did nothing but stand there holding his broom, but he was a very useful man. To the best of his limited ability he was famous for going messages and taking care of this and that – and all this above and beyond his ‘professional’ work as a crossing-sweeper (the only unofficial one in the town). So afflicted, but such a simple, kindly and cheery soul; accident made him a cripple in his childhood, and life must have been a long struggle but of late things have been brighter again for him – A mourner c27 12 11

1928 When Mr Arthur Deck fired the second rocket on Parker's Piece on New Year's Eve it was his parting shot, for he was performing the ceremony for the last time. A century-old custom, with which three generations of the Deck family have been associated, will fall into abeyance. Before the war the rockets used to be sent up at the entrance to King's College but in 1913 the stick attached to one of the rockets fell through a glass roof of a college and did appreciable damage so he changed the scene of operations to Parker's Piece. c28 01 01

1928 The story of the Chesterton ghost has attracted crowds of people to the pathway skirting the Willows and there were quite 200 spook-hunters waiting for something to turn up. Of course nobody takes the story seriously and even children have braved the darkness and the barbed wire fences to join in the hunt. All sorts of practical jokes have been played and one enthusiast sallied forth with a sheet until people started throwing things! Someone said that the ghost was defunct, having been shot by a policeman. But if the spirit doesn't materialise on the Willows it most certainly will in a licensed establishment in the adjoining Cam Road c28 02 10

1929 Deck stops New Year custom, no rockets 1929, attendance at Parkers Piece declined [1.5]

1929 Cambridge is becoming increasingly interested in folk songs and folk dances thanks to the local branch of the English Folk Dance Society. Keith Falconer, a Cambridgeshire man who is making a big name for himself in the singing world, is to perform at St Columba's Hall. A sword dance and Morris jigs are included in the programme CDN c 12.2.1929

1929 The firing of the rockets on Parker's Piece, which has been a New Year's Eve custom since 1815 is now a thing of the past. The increasing pull of counter-attractions such as dances has seen dwindling attendance at the midnight ceremony and last year Mr Deck came to the conclusion that no useful purpose would be served by carrying on. So another old custom which served its day and generation well has passed away. There has also been a falling off of the Watch Night services, which once drew crowded congregations, but the Ortona Social Club function at the Masonic Hall was a lively function. CDN 31.12.1929

1930 The firing of the rockets on Parker's Piece, which has been a New Year's Eve custom since 1815 is now a thing of the past. The increasing pull of counter-attractions such as dances has seen dwindling attendance at the midnight ceremony and last year Mr Deck came to the conclusion that no useful purpose would be served by carrying on. So another old custom which served its day and generation well has passed away. There has also been a falling off of the Watch Night services, which once drew crowded congregations, but the Ortona Social Club function at the Masonic Hall was a lively function – CDN c 31.1.1930

1930 The successful crews in the Lent bumping races celebrated in traditional manner. Hundreds of excited undergraduates in 'bump supper' costume filled the streets till midnight and over it all flickered the light and smoke of bonfires. Boats were burned amid shouting and bacchanalian merriment at St Catharine's, Selwyn and Emmanuel who for the first time in history had finished head of the river. An 'eight' was sacrificed in the paddock of the college upon a huge pyre. The manoeuvre of getting the boat into the college proved by no means an easy one and traffic was held up as the unwieldy craft, borne on the shoulders of the crews, was shunted into Downing Street before being passed through the narrow gate. At St Catharine's the boat was escorted to the burning by a procession headed by a band of unemployed ex-Servicemen who had been playing on the towing path 30 20 24a

1930 For years men have beaten carpets on Butt Green and children have used New Square as a camping-out ground. But these ancient customs are soon to pass away with the transfer of the Green to Jesus College, and the construction of a parking place in the Square. 30 04 17

1930 A mock funeral procession paraded through Cambridge as undergraduates bade farewell to one of their number who had been sent down. It was headed by an old horse-drawn landau in which the 'corpse' sat, his face disguised beneath a war-paint of lipstick. He was joined by

various persons who were to officiate at the ceremony; beneath top hats, black cloches and wideawakes were suits of grey flannel, blazers and plus-fours. All were garnished in crepe streamers on which hung rhubarb, beer and wine bottles, remains of the 'wake'. At the station the funereal party moved along the platform hilariously singing a dirge and the 'corpse' was installed in a third-class compartment where gifts of fruit and rhubarb were handed solemnly in. 30 05 26
1930 The Master of Clare College told librarians that a wealthy member of the college had made a benefaction on condition that his bones were preserved above ground. His body was put in a cupboard above the Hall. But undergraduates came to know of this and took away various bones as mementoes. The college replaced them with other bones so that skeleton remained more or less complete. But on Christmas Eve the ghost of the benefactor visits various undergraduate rooms gathering in his scatter parts. 30 09 26f

1931 A fire was discovered in a gable of The Grove, Fordham; the damage was not great. The brigade cannot discover any cause of the outbreak. It is a part of old Cambridge folk lore that a fire always follows if a hare runs down the main street of a village. The week before a hare did run down the street at Fordham. It was perused by Mr Richard Nicholls, a septuagenarian, and was killed in a shed within three yards of the place where this fire broke out. 31 04 03m

1931 Facts about folk lore – interesting article – 31 04 17e

1931 Mr Harry Semark, of Willingham still constructs the old-fashioned straw hives which are universally condemned by modern beekeepers and now seldom seen even in the 'backward' villages. Yet he exports them to America and the remote Antipodes. In a recent book there is a photograph of a lorry stacked sky-high with Willingham skeps. It is a coiled straw basket, woven by hand with strips of osier. The basket can be moulded to any shape, straw in his hands is like clay to the potter 31 05 29g

1931 A Cambridge motor firm – W.E. Harding of Seven Sisters garage, Newmarket Road – has been barred from trading with undergraduates by the Vice Chancellor. Under university rules tradesmen must notify tutors by the end of term of any debt exceeding £5 incurred by an undergraduate. But Mr Harding had not been told this. Only two other such notices have appeared within living memory. Now any student having any dealings with the firm may be suspended or rusticated. 31 06 12b

1931 After a lapse of 35 years an old custom was revived at Burwell. The University holds the position of Lay Rector of the parish and the Vice-Chancellor used to visit the church annually. This year he was attended by the Esquire Bedells, and the Marshall with their silver maces. On arrival at church he put on his scarlet cope of office before following the choir into the chancel. After the service they took lunch at the vicarage. 31 07 17h

1931 It is easier to kill a man than to kill a custom so every year on Sept 25th the Mayor, Town Clerk, Bailiffs and Town Crier form a solemn procession which proceeds to Stourbridge Common to open the Fair. But this year not even schoolchildren were there to greet them and a News reporter was the sole representative of the public until a solitary figure strolled up. There were no roundabouts, swings or stalls, not even the traction engine that last year was the final relic of a dying fair, puffed and snorted in welcome. 31 10 02d

1932 misers ghost seen Magdalene St 30.11.1932

1932 The custom of dancing out the Old Year grows apace, most of the Cambridge dance halls had special celebrations and crowds flocked to all of them. Then in the early hours the streets were thronged with men and women, old and young alike, who gaily wandered home, having little time for thought of Income Tax or other worries. 32 01 01a

1932 Cambridgeshire folk used to bake a large cake on Good Friday and, when dry, grate it into powder. This, mixed with water, was considered a panacea for many ills, especially diarrhoea. A popular Easter Sunday dish was known as 'herb' or 'season pudding, a kind of batter with onions, sage, thyme etc. Stool ball, a forerunner of cricket, commenced its season at Easter

and games were played on village greens for prizes of candy cakes, a confection composed of eggs, sugar, flour, cream, spinach leaves and butter. 32 03 24 & a

1932 What would papers do without Cambridge undergraduates' pranks? During a hard frost years ago some 150 callow youths had a 'curling' bonspiel on the pond at Emmanuel College. Each had a china bowl in lieu of the orthodox curling stone – and each bowl contained a lighted candle. Overnight a thaw set in and visitors watched gardeners salvaging the 'curling stones' from the bottom of the pond. Shortly afterwards undergraduates took a donkey dressed in cap and gown into dinner in hall. Most of the aged dons mistook him for one of themselves! But in those days no newspaper commented. 32 05 21a

1932 The inner history of the King's College roof-climbing escapade has been revealed. The hazardous feat was carried out by two parties of undergraduates, including several well-known athletes, who are members of a secret organisation composed of skilled mountain climbers. They used the lightning conductor which has been loosened by previous generations of climbers. It is the climax of a series of climbs during the past few months; now they proposed to publish detailed accounts of their exploits 32 05 21

1932 The 'Brighter Roofs for Colleges' movement is growing. Overnight at Ridley Hall two cords were stretched from one of the college towers. On them pyjamas, pyjamas and still more pyjamas were floating in the wind. Large ones, small ones, brightly-coloured and silk examples were proudly swaying in the breeze and in the middle was suspended a parson's hat. After they had been lowered to the ground their various owners joined in a frantic scramble for their particular pairs which had been removed from their rooms. 32 06 01a

1932 Sir – recently at the Dorothy Café I sat at the table with an elderly farmer and the conversation drifted to the difficulty of obtaining reliable farm labour. Then he sang me a song of goodwill, grit and endeavour. It starts 'Now if you will listen a moment or two, I'll sing you a bit of a rhyme, I'll tell you what I think a man must do, To make the best use of his time.' Is it an old Cambridgeshire folk song? – J.T. Lambeth 32 08 26d

1932 An old Cambridgeshire custom on New Years Eve was for a farm girl to approach a pig and slap it sharply with her hand. If the animal uttered a squeal, she would be married within the year; but if it took no heed of the blow she would continue a spinster. Another custom was to stick tiffs of grass on the horns of a cow. If it tossed them off their lover would remain true, if they remained firm on the horns, the sweetheart was false. 32 12 30e & f

1933 East Anglian folk lore society – 33 01 25a

1933 The large room of the Central Girls' School was charmingly decorated with garlands of cowslips when abdicating May Queen, Lorna James, delightfully dressed in a daffodil frock, crowned her successor, Miss Rita Baynes. Dressed like a rose in a pink gown with a train of petals she approached the throne through a triumphal arch of greenery and received the homage of her subjects who each brought a bunch of flowers. 33 05 02

1933 The Eastern Counties Folklore Society held its first meeting at the University Museum of Archaeology and Ethnology. Dr Haddon explained its object was to collect and record folk customs, rites and beliefs. One charm he mentioned had been discovered at Babraham: a stone which was put into the manger to cure a horse of night sweats – supposed to be caused by the animal being ridden by a witch. 33 05 13

1933 The Backs near King's bridge were crowded with punts when the Cambridge University Madrigal Society performed the annual rite of singing on the river. As the sun went down and the moon rose from behind the Gibbs' Building, the cawing of the rooks and the noises of the town ceased, and over the water came the sounds of a Brahms' motet. An aeroplane buzzed like an

angry wasp across the sky but failed to break the spell of magical voices which softly floated in the air. 33 06 07

1933 The Whit Monday horse and pony parade was revived on Midsummer Common. The beasts had been brushed until their silky coats gleamed in the sunshine and their carts and vans 'groomed' for the occasion. Even a coal cart becomes a thing of beauty when it is resplendent in a new coat of brightly-coloured paint matched only by gaily-coloured ribbons. Many of the spectators came in horse-drawn carriages and even the police were mounted. But the Mayor arrived in a car 33 06 06a & b

1933 The roof-climber who 'pinched' the two weathervanes off the Squire Law Library building seems to have had an attack of conscience, for the missing cock and fish were replaced last night. But they also left tasteful decorations and souvenirs in the shape of two sherry bottles at each end of an arch high over the entrance to the Geological Museum. They are said to be full and so act as 'bait' to other scalers of walls and roofs. 33 06 13

1933 Over 1,300 dancers disported themselves at the First and Third Trinity Boat Club's ball. As usual there were large crowds of spectators lining all the entrances and not a few on the river but great precautions had been taken to avoid gate crashing with two lots of 'sentries'. Inside the place was aglow with thousands of coloured lights while the dance tent itself, with its famous parquet floor, was electrically lit. From a dais in the centre the Embassy band played a sweet programme of dance music until the early hours of the morning. 33 06 13b

1934 Morris Men instituted [Misc.2.5]

1934 Jesus College boat crew celebrated their Lents victory with a bonfire on the grass in front of the college and flames forty feet high dried the pavement in Victoria Avenue. An old boat helped to keep the fire going and when the supply of fuel ran short branches from trees were used. Police kept a wary eye on hoardings which might have been looked upon as sources but no raids were made. 250 paper glasses were provided to hold the beer but some preferred it straight from the bottle 34 02 26

1935 Cambridge met Oxford in the spirit of peace, not of semi-lethal combat. The ceremony took place near the pump on the green at Sherington, Buckinghamshire, exactly half-way between the two universities. Two morning-coated representatives vied in the vehemence of their protestations of fraternal feeling and in the sartorial elegance of their attire. Then to the whirr of newsreel cameras they buried a hatchet beneath the pump. Afterwards a village worthy who had forgotten his tie, collar, shaving water and washing water in the excitement of the morning, came up to the immaculately attired Master of Ceremonies, thanking him putting Sherington on the map. 35 02 25a & b

1935 Catherine Parsons said people believed that midnight was the hour when ghosts would be seen. No one would pass the Roman road crossing to Streetley End for fear of being pelted with large things like apple dumplings. But Horseheath ghosts were quite harmless and included a poor girl whose coming was heralded by a sound like buzzing bees, three headless women dressed in black who wandered in from Camps and a headless man with a red handkerchief around his neck. The finest spectacle was a coffin borne up Limbery's Hill followed by a long procession of mourners. 35 06 11 & a

1936 For those on enjoyment bent Cambridge offered plenty of attractions on Good Friday. That 'hardy annual', skipping on Parker's Piece, showed no sign of waning in popularity; a large-sized crowd gathered to watch and take part. Various stall-holders seized the opportunity to set up their portable businesses beside the Piece. The streets wore their usual holiday deserted look, but neither that nor the temperatures deterred the cycling ice-cream salesmen. The Town football match drew some 5,000 spectators while the brass band concert in the Guildhall was a popular affair and the cinemas were open in the afternoon and evening. 36 04 11a – photos 36 04 11

1936 Some members of King's College went mountaineering last night. A Union Jack and the Abyssinian emblem were fixed to the pinnacles at the east end of the chapel with a large banner slung between them bearing the words 'Save Ethiopia'. The flags were still flying during the morning but the banner was blown down by the wind. A man who was astir early claimed to have seen four undergraduates climbing up at four o'clock. Unfortunately he was unable to see what means of assistance they were using in their climb, otherwise one of Cambridge's age-old mysteries would have been solved 36 04 27c

1937 Why does skipping always take place on Parker's Piece, Cambridge on Good Friday and Easter Monday? An old man of 83 remembers skipping there as a boy of five or six and his father apparently did so before him. It seems that Good Friday used to be the publican's 'day out' and they used to repair to the Piece for a game of bat and trap, while their youngsters amused themselves with a skipping rope. We don't hear much about Bat and Trap nowadays but the skipping goes on as of yore. – 37 03 27

1938 It was a custom in Cambridgeshire for labourers to drag a Yule log into the manor to the accompaniment of singing and to place with the new log a charred piece of the log of the previous year to ensure prosperity to the household. There is also a belief that if a piece of the burnt Yule log is kept in the cellar throughout the year it will preserve the house from fire. Boughs of mistletoe hung outside a door to ward off evil. Cottages burn light in window to guide baby Jesus to the dwelling and disk of milk and 'creed' wheat, sweetened with honey or sugar, sometimes laced with run, was served to all comers. Carol singers with the old violin, concertina or double-bass, farmer throws feather into air to forecast growing conditions, Christmas day dinner, University scholars erected Prince of Misrule, Mumming plays - Stuart-Baker 38 12 22c (see Memories 30 December 2013)

1939 Army take part in Good Friday skipping on Parker's Piece – 40 03 23

1939 Christmas, 1939, has meant more solemn thoughts than usual for many. In countless homes, the traditional joy and gaiety has been tempered by absence of one or more members of the family. And yet, in spite of gaps at the dinner table, and because the advice to carry on as usual is so obviously sound, there has been little outward change in the character of the Christmas festival. In Cambridge, as elsewhere, people remembered their absent ones, but through the inspiring co-operation of the radio, were able to satisfy themselves that the men in the Services were not forgotten. At home, it was the usual day of gifts—the children's day—and for many the delight lay in entertaining little evacuees whose parents were unable to do the job themselves. The change in the times was reflected, perhaps, in the opening of some cinemas on Christmas day, but found themselves comparatively few patrons; it was still a home festival for most. The Town club had their usual football fixture in the morning, but this had to be scratched. On Boxing Day their fixture with Rushden resulted in a decisive win for Cambridge. Another regular feature was the appearance of the Christmas Day bathers, who found not thick ice, but a deep fog to greet them. 39 12 29 CIPof

1939 In former times it was the custom in the Fens, and in most agricultural districts, to have organised or traditional bonfires in the fields in the evening before Midsummer Day (St. John the Baptist's Day), also upon St. Peter's Day, which is June 29. Why the two bonfire nights are so close together cannot be explained but such fires were believed to exercise a quickening and fertilising effect on animals, crops and even mankind 39 06 30 CIPof

1939 Good Friday skipping photo – 39 04 08

1939 War could not 'black-out' the Christmas Eve Festival of nine lessons and carols at King's. From the crowded chapel the message of peace and goodwill travelled by wireless across Europe to France, Italy and Switzerland. The candles flickered even after black-out for a test showed no dangerous amount of light could be seen from outside. But there were dark, blank spaces among the rich glory of the stained windows which told of the removal of some of the glass for safety's sake. 39 12 27a

1940 Edwin Turner Cottingham, the well-known maker of scientific time recorders, renovated the clock at Trinity College. This had a curious effect on the popular pastime of the undergraduates, who used to run round the quadrangle while the clock was striking twelve. In cleaning the clock he speeded up the striking and it was not until Lord Burghley, the champion hurdler, was up at University that the feat could be accomplished in the time. He also accompanied Prof A.S. Eddington on the British Eclipse Expedition of 1919. 40 03 30a t [1.9]

1940 "May-Ladying". A Histon school log book records: "1871, May 1st—It is the custom for the girls to go May-ladying - go to the principal houses carrying dolls and begging 'Please to 'stow a ha'penny on the poor old Maylady'. Hildersham was the headquarters of the movement. The girls, encouraged and helped by the aristocracy in the village, produced one of the finest Mayladies to be seen in the county, parading with it through their own and neighbouring villages. The parade was at its best in early Victorian days, but began to fade out about 70 years ago. Many old inhabitants can recall the dolls dressed and paraded by the Hildersham girls. The annual Cambridgeshire event became notable, and may be found briefly described in Brand's "Popular Antiquities", published in 1911 40 02 23 CIPof

1940 Romance Began at Séance.—Mr. C. S. Collen-Smith, of Cambridge, is to be married to Mrs. Betty Walker, of County Mayo., Ireland. They first met at a séance in Knightsbridge. Mr. Collen-Smith is founder of the World Service Group and of the Healers' Association and is Editor of "World Service and Psychic Review." 40 03 08 CIPof

1940 The ancient ceremony of "walking the causey" at Barrington s closely allied to that known as "Beating the bounds." The Barrington beater, however, operates only upon the village green. Barrington's official "walker" is now Mr. Fred Patman, and appeared clad in a frock coat, gorgeous waistcoat and a silk "topper," carrying a sword, said to be Roman, and a monster bell,

gagged this year because of wartime conditions about bell-ringing. Starting from the south-western end of the green, he walked with stately stride along the old cobbled pathway across the green to the church, making "official" proclamations en route, and knocking at the door of an old thatched house, once the town hall, but now a private residence, his progress towards the church being witnessed by many villagers.40 05 03 CIPof

1940 An octogenarian farm worker in a South Cambs village lamented the loss of his "muckinger" in the fields and he hoped any one finding it would return it to him, as it was a present from his daughter in London. A "muckinger" is an old colloquial name for the large red cotton pocket handkerchief in common use by farm workers. The name is heard more often in Essex than Cambridgeshire and it is interesting to note that the word heard last week was voiced by an old inhabitant of Heydon 40 11 15 CIPof

1940 St John's choirboys ascend chapel for Ascension Day service while airmen wearing gas masks marched below – 40 05 02a

1941 Last local wearer.— some time ago a few interested Cambridgeshire antiquaries tried to discover who was the last farm hand in the country to wear the smock front seriously. He says "seriously" because one often sees it worn nowadays in fancy dress parades. The investigators came to the conclusion that the smock was last worn by an old shepherd at Little Abington, near Linton, somewhere about the year 1892. My correspondent goes on to say the smocks were worn on Sundays as a sort of best dress, long after it was customary to wear them as a working dress, and that a clean smock, corded breeches, worsted stockings, a beaver or other make of top hat and greased lace-up boots formed the approved rural costume for Sabbath and holiday wear. A little more than half a century — in some parts of Cambridgeshire a full century — however, has passed since the gaberdine or smock was as honourable & distinction of carters and shepherds as the uniforms of the men in our fighting forces today 41 02 21 CIPof

1941 Smock Wearing Shepherd, — Writing from 57 New Road, Sawston, Mr. Alf A. Hills states: "I was greatly interested in the letters from your readers of 'The Passing Hour' last week in regard to the shepherd mentioned there Mr. E. Gilbey, who is living with me, informs me that the name is spelt quite correctly and that his name was William Gooden, an uncle of his wife's, whose maiden name was Jessie Gooden. This old gentleman used to wear his smock on Sunday as well as weekdays, and as far as Mr. Gilbey remembers, used to visit him at Worsted Lodge (in smock) in 1905 41 03 07 CIPof

1941 Harvest Horn. — Among the "Wanted" advertisements in last week's paper was one asking for "domestic bygoness," and making special mention of old fire hooks, a farm smock, a harvest horn, articles required for the Old English Museum in Shepreth. Smocks and fire hooks are bulky articles not likely to be destroyed, but the harvest horn, a comparatively small instrument, may easily be overlooked, mislaid or cast aside as something of no importance, and perhaps not understood by the average villager today. Years ago in every agricultural village at harvest time, it was customary for a boy to walk slowly through a village, at or shortly before sunrise, and blow a horn as a signal for the labourer to go into the harvest fields. These horns were of simple design and of various sizes, and were sold mainly at Stourbridge Fair. Those in common use in Cambridgeshire were of stout block-tin, 16 inches in length, straight in shape, and tapering from a quarter of an inch (excluding trumpet-like mouthpiece) to an opening of about 2½ inches in diameter. The last of the horn-blowers in South Cambridgeshire was William King, of Melbourn, who died in December, 1935, aged 84 years. When a lad of about seven years of age (say about 1858) he was chosen to perambulate at sunrise and blow the horn, a harvest-time job he did for several years, his horn notes being heard at times both at Shepreth and Meldreth.

1942 Madrigals on river, one of few surviving May Week events – 42 06 04a

1943 Cambridge Corn Exchange venue for Barn Dance staged by American Red Cross for US forces' celebration of traditional American custom of Hallowe'en ... at one end a Guy Fawkes surrounded by straw ... dances consisted slow foxtrots and quicksteps to the famous American Flying Eagles band. Were crates of apples and pears from which the many dancers, numbering about 1,800 were at liberty to help themselves. Refreshments served free of charge by an American clubmobile – a canteen on wheelers – about 3,000 American doughnuts, 25 gallons of coffee and 30 gallons of cider, beside orange and lemonade. Pumpkins cut into faces grotesquely illuminated by candles ... 43 11 01

1944 Good Friday skipping survives, though not to same extent as pre-war; a small van arrived with some gaily-coloured windmills, paper hats and balls – 44 04 08

1944 A Medicine Woman's Garden.— A correspondent sends me the following note, written by an old lady now over 80 years of age. "I have read about 'medicine' or 'wise women' in villages. When a little girl I lived in a Cambridgeshire village and next door to an old woman said to be a witch and a fortune teller, also a maker of ointment and pills. She was very ugly and much wrinkled, but I will not name her or the village, because some of her family are still living. I used to run errands for her, and go with her for walks, as she was very old. She had a garden full of wild flowers, most of which she is said to have used in her ointments, etc. Some of the things she had, if I remember rightly were foxgloves, fennel, featherfew, coltsfoot, dandelion, sowthistle, periwinkle, woodsage, rosemary, mouse-ear, marigolds, and, of course, rhubarb and common nettles. In our walks in the fields she would take a bag and collect, when in season, cowslips, male fern, red clover, bark from oak and alder trees, also the leaves of the white violet and horse chestnut. A doctor came in a gig only when sent for and when children had a rash, pimples, bumps and minor aches and pains, they were taken to the old medicine woman for treatment and parents appeared to" be perfectly satisfied. 44 04 28 CIPof

1946 Gt St Mary's curfew bell to be rung again for first time since war; will sound at 9m followed by number of strokes indicating date of month; until 1929 a bell was rung at 5am, this 'The Apprentice's Bell', later 'The Bedmakers' Bell'; was discontinued as not needed now there were alarm clocks – 46 10 09

1948 Cambridge has lost a well-known townsman by the death of Mr Arthur Deck, one of the founders of the Cambridge Pharmaceutical Association. He will be remembered for continuing the custom started by his grandfather, Isaiah Deck, in 1815, the year of Waterloo. He used to send up one rocket to mark the passing of the old year and another to herald the arrival of the New Year. This custom ceased with the coming of the First World War, but for many years Mr Deck was responsible for letting off the maroons to mark the beginning and the end of the two minutes silence on Armistice Day c48 11 09

1949 only one stall on Parkers Piece but no skipping, in 1948 only 3 groups of people who continued it & that year stalls dwindled to one which set up at junction of East Road & Gonville Place & sold tinsel-covered balls on elastic [4.2,1.23]

1949 The college of Corpus Christi will be the scene of an unusually interesting dinner – the Queenborough Feast. It will be the first of its kind and will link university and town in a very happy way. When in 1948 Lord Queenborough gave to the college an endowment for a feast he expressed the hope that representatives of the corporation and of the citizens of Cambridge would be the principal guests in order that the ties between borough and college might thereby be recognised and strengthened, The college owes its origin to two Cambridge guilds which consisted very largely of citizens of Cambridge c49 01 15 [1.16]

1951 The annual ceremony on top of Cambridge castle mound at 7.30 am on Eastern Sunday morning is becoming traditional. The company sings 'Christ the Lord is Risen Today' and then asks for God's blessing on Cambridge and its people. The event originated with Victoria Road Congregational Church and was intended to be a simple act of cheerful witness to the Easter message. Now it is attended by people from many churches. It has been held annually for the past five years and attracts around 50 people. It is strangely impressive to look over the quiet town in the light of early morning and to hear the words of Christian faith lifting from the hilltop to be carried far and wide c51 03 23

1951 Over a hundred people assembled at Myers Memorial Hall, Cambridge to hear Mr Ernest Thompson lecture on "Electronic Communication with the Spirit World" and to witness a demonstration of the new super-ray apparatus which produced some astonishing results. Four people were seated round a suspended tube which was connected to the apparatus. Three of them definitely went into a state of trance. Mr Thompson altered the action of the rays by pressing some levers with the result that those in the trance state showed remarkable changes in their behaviour c51 11 09

1956 Histon 'ghost' story – 56 08 23a, 56 08 28 56 08 31b # GHOST

1956 Histon ghost stories – letters – 56 09 05a & b

1956 The annual Hawkey supper organised by Trumpington Young Farmers' Club was a real harvest supper in the old-fashioned spirit. Mrs V.C. Pemberton described how 70 years ago when hired themselves to farmers who took them on for a year, paying wages at the end of the engagement. In 1922 shepherds wore a piece of wool in their buttonhole, horsekeepers a piece of whipcord and men who were not much good for anything a piece of cow's tail. The bargain was sealed by both parties shaking hands on the 'luck penny' which was as good as an oath. 56 09 26 & a

1957 The Oyster House in Garlic Row was named after hundreds of oyster shells found in the garden. It dates from 1707 and was originally known as the Tiled Booth in which the Mayor and Vice Chancellor would feast at the traditional opening of Stourbridge Fair. The house was bought for a small amount by John Lee, a coprolite digger, whose initials can be seen on a plaque on the building. Now it is scheduled for demolition. 57 01 10

1957 A hundred undergraduates who gathered on Magdalene Bridge to see the inaugural Shrove Tuesday Pancake Race run between the porters and bulldogs of three colleges were the victims of a joke. But not entirely. Diminutive, cheerful Horace Reed, who is 56 and works in Magdalene kitchens, appeared alone, aproned and carrying a frying pan. He ran the course, tossing a pancake from time to time. The event was arranged by the Pitt Club, who have inaugurated several successful hoaxes recently. 57 03 06

1957 The Night Climbers of Cambridge are at it again. At daybreak two objects had been placed on the spires of King's college chapel. One is the globe of a Belisha beacon, the other a nylon stocking. There was a turret-climbing episode in May 1932 on the eve of Empire Day when a Union Jack was flying from the north-east turret. Two nights previously the pinnacles were decorated with open umbrellas 57 05 24

1957 Cambridge Night Climbers spend the small hours of the night among the college piers and pinnacles. They work in groups of two or three and their equipment is a pair of soft shoes and gloves with sometimes a punt cushion for crossing the spikes and broken glass set in concrete. They climb for the love of climbing and regard the leaving of flags or underclothes as an error of taste bordering on exhibitionism. 57 06 15c

1957 The Mayor of Cambridge reminded two councillors that it had been the custom for 400 years that councillors should wear black gowns. He asked them to conform. But Coun Edwards said he was allergic to wearing a uniform of any kind and could do the job as well without a robe. The Mayor told him it was not optional and no one had refused in the past 57 11 29

1958 Christ's College's Milton Society processed at a suitably dignified pace to the west door of Great St Mary's where the President, holding a bust of John Milton, denounced 'the dangerous and damnable works' of T.S. Elliot. He placed a selection of Elliot's books on the pavement and, after a libation of petrol had been poured on to them, applied a match. The Secretary read aloud some passages from the work of John Milton and with a cry of 'Paradise Regained' the procession returned to Christ's 58 06 05

1958 The annual Grantchester Boxing Day barrel rolling contest was inaugurated three years ago by Mr R. Healey, landlord of the Rose and Crown public house. It is becoming increasingly popular and attracts people from the surrounding district. It consists of three races. The men's was won by Mr Maurice, the women's by Miss Barbara Peters and the children's by Miss Patricia Rose with Miss Sharyn Griggs second. The youngest competitor was five-year-old Helen Tanner 59 12 30

1959 The banks of the Cam were lined when the Cambridge University Madrigal Society gave its annual concert on the Backs. It was a very English scene: crowds of impassive spectators defied the fickle weather and a forest of coloured umbrellas rose from the punts on the river. Even the roar of a passing aeroplane and the threat of rain never put the singers off their stride. As the strains of the last madrigal – 'Draw on Sweet Night' – wafted slowly across the river, lanterns were lit and the punts carrying the singers began to move slowly downstream 59 06 10c & d

1959 Many shops in the city sell 'Cambridge Cheese'. This is a soft white cheese, delicious and wholesome. But when analysed some examples were found to be deficient in fat, based on a Ministry recipe that 'so many pints of full-cream milk produce so much cheese'. However expert housewives say that Cambridge Cheese could be made with skimmed milk and as the labelling did not say 'cream cheese' no action would be taken. 59 11 26d

1960s The Cambridgeshire Collection has detailed newspaper cuttings files from this date

1960 Students lounged on the river banks using their gowns as table cloths for alfresco meals and thousands of people crowded the Backs for the University Madrigal Society's punt-borne concert. Madrigals for five voices did not carry far against the chilly breeze and aeroplanes ('most tiresome' said the conductor, Raymond Leppard) and ducks competed for attention. But the audience listened in rapt silence until the singers' raft moved slowly away to the strains of 'Draw on, Sweet Night'. 60 06 08b

1960 The Vice Chancellor has banned all undergraduates from taking part in Guy Fawkes Night celebrations in the city centre. In recent years November 5th had been marked by particularly destructive and violent acts, including the use of home-made fireworks, which have caused painful injuries to innocent bystanders. Although students have played only a minor part at the occasions the University are under an obligation to help the city authorities check such disorderly conduct. Now Market Hill and the surrounding area will be out of bounds to members of the University 'in statu pupillari' between 7 pm and midnight 60 10 18

1961 Ghost hunters will investigate a small house in Staffordshire Gardens although the building is not haunted and is scheduled to be demolished. Tony Cornell of Girton, who travels all over the country investigating haunted houses, believes it is not spirits who throw things or cause the mysterious knockings which have driven people from their homes in fright. The effects may be caused by vibrations coming through the floor and up the walls. He will attach a 'vibration machine' to the wall and place ornaments on the floor and mantelpieces then conduct a scientific experiment to simulate the erratic wanderings of a poltergeist. 61 04 14a

1961 Wooden spoon recalled – 61 06 02a

1961 Thirteen members of the Christ's College Milton Society took part in the traditional annual 'pilgrimage' to the main door of Great St Mary's Church to burn the works of T.S. Eliot. With caps and gowns, and carrying a bust of the poet Milton, the undergraduates walked in procession through the crowded Market Square. Then in front of the church the 'damnable and dangerous works' of T.S. Eliot (Penguin edition) were set in flames on the paving stones. Crowds appeared from nowhere, cameras were clicked, and passages of Milton read before the procession returned towards Christ's and noggins of nut brown ale 61 06 08a

1962 Dr Frank Leavis of Downing College, was spared seeing his books burnt on the steps of Great St Mary's Church. The Milton Society annually burns the poems of T.S. Eliot who has attacked Milton the poet in a tradition that dates back to 'the mists of time'. But newspapers had suggested they'd be attacking Dr Leavis personally which was not a proper thing to do as he'd just retired. 62 06 13

1962 A 'mock funeral' was held for two undergraduates, Philip Gurden of Magdalene and Simon Keswick of Trinity, who were sent down for failing their exams. Their 'coffin' was carried on a sports car while in the 'cortege' at the rear was Prince William of Gloucester who is at Magdalene College 62 10 16

1962 Collections at the Round Table's Christmas tree in St Andrew the Great churchyard began in 1953. Last year they raised money to provide 415 parcels for old people, each containing £1-worth of Christmas cheer. The names of old people who benefit from this magnificent effort are revised each year and every person is visited before Christmas. One year a 30-foot high tree was delivered and putting it up meant dislocating the traffic outside Christ's College for some time. 62 12 08

1963 Plough Monday memories from Pampisford 1887, Swaffham, Cambridge - 63 01 26b

1963 The ancient tradition of making corn dollies has been saved from extinction by a book written by Mrs Minnie Lambeth, the wife of the rural industries organiser. She is an expert, continually plaiting and producing them for people all over the world. The Cambridgeshire dolly is either a bell or umbrella. Only a handful of people are making straw dollies in the corn growing area of the country and are facing difficulties in getting hollow straw as combine harvesters work better with the short, solid-stemmed straw. 63 06 19

1963 A.D. Cornell, an expert on extra-sensory perception, has spent 15 years seeking ghosts but has never actually seen one, though he has heard and felt them. He described many different local hauntings. Phantoms at first seemed so solid and real that you do not realise it is a ghost until the apparition gradually faded away. In the Victorian era with flickering candlelight and gas lamps people were more in tune with the unseen. But modern conditions with brilliant electric lights were not suitable for ghosts, he says 63 12 10a

1964 The annual Caucus Race at Trinity College saw undergraduates in gowns set off on a mad career around the Great Court. Each man must run round every rectangle in the pattern formed by the grass. Some crafty students carried mathematically-calculated routes and beneath their gowns wore running shorts and plimsolls. After the race many competitors cooled off with a face-splash from the fountain in the middle of the court and enjoyed a firkin of college ale. The idea of the race began a few years ago on the inspiration of a passage in 'Alice in Wonderland' 64 08 04

1964 Charlie is tall with bushy sideboards, a stovepipe hat and a face resembling Abraham Lincoln. It is thought he was a schoolmaster at Paxton Hall who died many years ago. But it has become increasingly apparent that his ghost still haunts the old gate house. There is one bedroom which smells of stale cigars and no matter how hard the door is closed, it always opens again. The pet cat, on reaching the room, scampers down the stairs as fast as possible. Another cat jumps on the bed, purring loudly. But there is nothing there. 64 08 11

- 1977 Undergraduates at Jesus College, Cambridge, are to keep watch in an ancient room for ghostly happenings on the night of All Souls. They will be on the look-out for the seven members of the college’s reputed Everlasting Club, formed in 1738 which conferred eternal membership. Once a year the members promised to return to their original meeting room. But one by one they died. In 1766 the last surviving member sat down for annual cerebration with six empty chairs for his deceased colleagues. From 10 until midnight there was a ‘hideous uproar’ in the room after which he was found dead. c77 10 21
- 1977 Ghostly members of the 300-year-old Cambridge Everlasting Club failed to make their appearance at midnight despite a vigil by Jesus College students. More than a dozen undergraduates gathered in a room at the top of an ancient staircase to wait for the annual reunion of the club which claimed to confer eternal membership on those invited to join it. All members of the club are reputed to have met grisly deaths and the room was sealed for many years as a result. Last night the student occupant invited fellow members of the Jesus Old Contemptibles dining club to join him for drinks but nothing happened despite the consumption of bottles of port. c77 11 04
- 1980 Dr Russell Wortley, one of the country’s best-known folklorists, has died. He was out with the Cambridge Morris Men for their Plough Monday celebrations when he collapsed. He was behind the revival of the custom of Molly dancing on Plough Monday; it had disappeared long ago but he revived it in its Jubilee year. On the national scene he was bagman (secretary) of the Morris Ring for many years in the 1950s. A former editor of the English Folk Song and Dance Society Journal he was an expert on folk music, seeking out and recording many local songs and dances. He also played a variety of old instruments. c80 01 17
- 1980 Cambridge’s muffin man a man of many parts – 80 11 07b
- 1980 Weird ghosts of Madingley Hall – 80 12 24 & a &c
- 1981 There is a tinge of sadness about the Plough Monday celebrations this year. Russell Wortley, who did so much to restore the custom and was instrumental in bringing back the Molly Dancers, died last January while Molly Dancing at Comberton. But he left a permanent record in notes and articles which have now been published by the Cambridge Morris Men. 81 01 09b

1981 Poltergeist manifestations, Arbury – Tony Cornell interviewed – 81 09 18c

1982 An Aladdin's cave of curious dusty lots comes under the hammer as former stage props are auctioned off at the old Festival Theatre in Newmarket Road, Cambridge. There's a glorious throne, the prow of a sailing ship and a pair of giant Corinthian columns, most of which have appeared at the Arts Theatre, which owns the building. It is said the Festival has a ghost – an old woman who was brought in to die after being run down by a horse and cart which bolted when delivering scenery. Dame Flora Robson wrote of meeting her. 82 07 16

1987 A centuries-old tradition was revived on Good Friday when crowds swarmed to skip on Parker's Piece. Tourists looked on in bewilderment as children, mums, dads and grannies took their turn. Even the Mayor, Coun John Woodhouse, had a go with the skipping rope, although he had not skipped since playground days. His wife revealed that as children they both used skipping ropes to tie up people's doors. The event was arranged by Radio Cambridgeshire with News columnist Christopher South roping in onlookers to have a go. – 87 04 18

1987 Granta Morris, which meets at St Luke's Barn in French's Road, sprang into life five years ago. The Squire, Leigh Watson who knows 190 dances, calls out instructions as the accordion strikes up tunes such as 'Headington' which is based on bean-setting. Granta perform at fetes, pubs and college May balls. Sometimes they encounter hecklers. Three skinheads started taunting them once so Leigh invited them to have a go. The trio soon admitted Morris deserves respect. But yobs threw stink-bombs under the feet in North Wales - 87 09 16

1987 There is a distinct shortage of spooky hauntings in Cambridge at the moment and the Cambridge University Society for Psychical Research is keen to carry out detailed experiments into the eerie and unexplained. A few years ago a young girl got lost while out with her parents on the Gogs where archaeologists were excavating Roman artefacts. When found, she told them she had been speaking to a Roman soldier. An expert interviewed her and admitted she gave an exact description of a soldier from those times, yet the girl knew nothing about that period in history. What was the girl seeing and in which language was she communicating? The Society hope the family will contact them 87 10 02a

1988

Plough Monday celebrations were held at Balsham, Fenstanton and Elsworth where the Cromwell Molly dancers from Great Gransden led a procession of villagers to both pubs, The Poacher and the George and Dragon. They also stopped at a beamed cottage, formerly the Plough pub where, after rolling back the carpet, the dancers sang and jigged to traditional tunes wearing hobnailed boots and decorated clothes. One of the men dressed as a milkmaid – but kept his boots on. At Fenstanton the dancers followed the historical ritual of blacking their faces and donning country costumes before a torch-lit procession from the church to the Chequers, George Inn and the Tudor Hotel. 88 01 13a

1988 Sebastian Coe made history by smashing Lord Burghley's record for the Great Court Run at Trinity College. He pitted himself against Steve Cram in a 'Chariots of Fire'-style race to dash around the court within the time the 400-year-old clock struck noon. Coe, dressed in the outfit worn by Ben Cross who portrayed runner Harold Abrahams in the film, said he could not hear the chimes for the cheering of the 1,500 spectators. The event was seen by millions of TV views around the world and raised money for Great Ormond Street Hospital 88 10 29

1989 As a schoolboy, Cambridge ghost hunter Tony Cornell set out to prove that science could explain ghosts and other psychic phenomena. But over half a century later he has changed into a believer. "I have come across a lot of fraud, and a lot of wishful thinking, but when you strip that

away, there is still a hard core of things which cannot be explained", he says. Tony has yet to see a ghost but has experienced other things which would make most people's hair stand on end which he will document in a forthcoming book 89 10 13a

1990 Plough Monday celebrations, Balsham, Fenstanton & Elsworth – 90 01 09a

c.41: archaeology

(started 24 Jul 2009)

1911 The remains of five human bodies have been discovered by workmen driving a tunnel from the cellar to the garden of a house in Trumpington Street. The wall of the cellar was brickwork, about 14 inches thick, which had not been disturbed and the bones had been laid in a trench just outside the party wall. The remains, estimated at 100-200 years old have been removed to the Museum of Human Anatomy 11 07 14b

1912 Workmen digging at the rear of a shop in Peas Hill discovered the skeleton of a man and women, lying side by side. Nearby is the site of an old monastery and the assumption is that the remains were found in a former burying-ground. If so it knocks the bottom out of one of the best ghost stories in Cambridge, involving a wealthy banker whose young, beautiful wife took a lover who then disappeared. Half a body was later discovered in excavations at the Bijou Theatre Club's cellars. Now it appears they may all be linked. 12 10 18j

1920 Remarkable discovery, — A remarkable discovery has been made at Cambridge during the past week. On Friday last, while a number .of workmen employed by the Cambridge Electric Supply Company were engaged in digging operations in Midsummer Common, near Forth Terrace, one of the men came across a human skull. The police were immediately communicated with, and at about 2 o'clock on Monday, a small number of plain-clothes officers proceeded to the spot, and after about an hour the remainder of a skeleton, practically intact, was unearthed. The bones were carefully removed, placed in a box and then conveyed to the police station. The skeleton, which is that of a woman, was barely a couple of feet below, the turf, and the medical opinion is that it had been laid there for probably over 50 years 20 04 28 CIPof

1937 Workmen excavating for a sewer at Bishop's Road, Trumpington, found a skeleton about two feet six inches below the surface. A number of Roman coins were found in the vicinity some years ago and the skeleton may be of similar date. The bones were in a crumbling condition but the teeth in the jaw were practically perfect. The remains have been handed to the Cambridge Coroner's officer 37 07 16d

1938 T.C. Lethbridge said a great number of ancient weapons had been found during dredging operations in fenland waterways. An enormous number of daggers dating to the Peasants' Revolt had been found between Cambridge and Clayhithe together with a cup that was probably a chalice stolen from a church. Near Aldreth battle-axes of the type used at the Battle of Hastings had been found; they had hoped to find evidence of Norman knights falling from the causeway into the bog, but succeeded only in finding relics of the Bronze Age. — 38 08 19b

1962 King's College excavations reveal foundations of old buildings along King's Parade – 62 07 03

1969 Excavation of Roman town in Mount Pleasant, Albion Row area- 69 04 05

1971 Archaeologists have ten days to investigate King's Ditch under Lion Yard – 71 01 23

1972 As President of the Cambridge Antiquarian Society, I am aware of the many calls for help received by the handfull of professional archaeologists in the city and county. A full-time professional archaeologist, appointed by the area authority, would be able to supervise and plan much of the work. Some authorities have already created such posts. There is an immense fund of

goodwill in the present younger generation which needs to be channelled and encouraged. I write to plead with your readers to press their local representatives into an active realisation of their responsibilities. The problem is urgent - letter from Christopher Parish, Cambridge c72 06 20 1972 Roman Cambridge may be lost – dereliction of Shelley Row, Mount Pleasant area – feature – 72 01 28

1980 A ‘flying squad of archaeologists could help avert a crisis, say the Cambridge Antiquarian Society. Money for conservation and excavation has been drastically cut because of recession and much of our ancient heritage is being destroyed. Many historical buildings are also at risk and such a group could combine volunteers and professional archaeologists to protect what can be saved and record what cannot. 80 09 12

c.43 : archives (including Cambridgeshire Collection and Folk Museum)

1904 Cambridge Library committee referred to the recent fire on Peas Hill and the destruction of the premises adjacent to the library. But for the skill of the fire brigade the reading room must have been destroyed and the contents lost. The accumulation of books, pictures and scarce literature could never be replaced. Now the old dilapidated buildings should be cleared away and a more appropriate building erected. Next year they would celebrate the jubilee of the opening of the library and the appointment of Mr Pink as Librarian. The Library Association should be invited to hold their annual meeting at Cambridge, free of charge. 1904 06 16

1913 Cambridge Free Library reports an increase in use with as many as 3-400 visitors in one hour. The cultivation of interest in local history shows every probability of the future Reference Room being well used. It possesses a very fine collection of books, maps and plans on local subjects for which there is considerable demand. John E. Foster had been a generous donor and presented many volumes of local and antiquarian interest. 13 08 15 p9 CIP

1914 W.B. Redfarn Milton Hall museum includes gloves worn by Cromwell and King Charles II, Cromwell's snuff box & spectacles and pieces of armour from every century 14 06 04 p7

1915 Interesting Engraving -The Cambridge Borough Librarian has been authorised to purchase, at cost of 35s. a local engraving, entitled the Dinner given to 15,000 persons on Parker's Piece. Cambridge Thursday 28th June, 1838 in honour of the Coronation of her most gracious Majesty Queen Victoria. The engraving is by Harraden 15 05 21 CIPof

1915 file of Cambridge Gazette newspapers purchased at auction sale 15 10 15

1924 The Cambridge Library committee proposes to transfer the local collection to a more easily accessible position. At the present time it is shelved on the gallery in the committee room and few people realise the wealth of material to be found. It is proposed to transfer all bound volumes to the shelves in general, but it would be fatal to allow unlimited access and it is suggested that frames be fitted with brass wire lattice. The whole collection requires to be classified so that readers may see at a glance the extent of material on any subject c24 10 20

1925 display of material from Cambridgeshire Collection TT [25 05 16] [1.9]

1926 display of playbills [1.10]

1929 Certain documents of an historical nature are stored in Cambridge prison on Castle Hill and access is permitted to University students for the purpose of study. But if a County Hall is built on the site the Prison will be pulled down and the documents removed. The University fears that they would lose a very big educational factor and urge the County Council to provide accommodation for them in their new building. Having regard to the tendency of modern legislation to give Councils more work they would probably require considerably more accommodation at the end of 20 years and such storage would then be valuable for administrative purposes - 29 01 28

1929 Corporation Archives – CDN 15.5.1929

1929 The Government Office of Works have made arrangements for the records at present stored in the old Prison on Castle Hill, to be removed from Cambridge to another disused gaol. It is their policy to concentrate such records at Canterbury. The Governor's House at the old Prison will be adapted to provide temporary accommodation for county council staff and rooms in the

prison gatehouse used for storage purposes. This has released accommodation at the County Hall for other departments - 29 10 29

1930 Tens of thousands of old documents are being destroyed every year so that fancy goods like drums and tambourines might be made from the parchment. County Record Offices should be established where they could be housed and skilled archivists give them the proper attention. County Councils were too fully occupied with questions of local government to give archives proper consideration but their preservation was too big a matter to be treated as a sideshow, says Cambridge Antiquarian Society. 30 09 24

1933 Sir – in my old curiosity shop in Trumpington Street I have formed a museum of prison, punishment and other interesting relics, many of which have come from our old Cambridge prisons. They include the clothes, mask, pistol and spurs of Dick Turpin which were left at the Three Tuns Inn, Castle Hill, on the eve of January 12th 1739. I would welcome any items connected with village punishment or an old police uniform with the beaver top hat – E. Rutter 33 09 14

1934 Mr E. Rutter of the ‘Olde Curiosity Shoppe’, Trumpington Street, has purchased a razor which belonged to King George III. It will be added to his other 200 interesting relics that include a Bible dated 1633 which has covers worked in needlework by King Charles I’s wife and a pair of very fine silk stockings bearing the royal crown, which were worn by Queen Victoria. He also has a warrant issued by Oliver Cromwell and a cockade worn by Lord Nelson. He attempted to buy the Eton flogging book but that sold for the remarkable sum of £450. 34 01 06

Two of W.B. Redfern’s collection of Cromwellian relics have returned to Cambridge. A pair of grey gauntlets and a pair of spectacles in their original fish skin case which belonged to Oliver Cromwell were purchased by Edwin Rutter and added to his museum at the Old Curiosity Shop on Trumpington Street. 34 06 30 [34 06 30 TT, 34 11 17]

1934 preservation of old deeds and documents – CAS appeal – 34 07 06

1934 Councillor Peck suggests Folk Museum [34 11 03 TT]

1934 Until recently it was customary for some of the Cambridge Corporation documents to be in the private possession of the town clerk. When Thomas Yorke died in 1756 he had a large quantity of treasurer’s accounts in his possession. His executor put them into a chest in St Michael’s Church for safe keeping, but then he died and nobody claimed them. They did not belong to the parish and when space was wanted the clerk was authorised to sell them as waste paper. John Bowtell, the University bookbinder, bought the whole lot, Dr Palmer told the Women’s Luncheon Club. They were now preserved in Downing College. 34 11 12a & b

1934 Oliver Cromwell’s hat is to stay in Cambridge. When put up for auction last April it was withdrawn at £25. But now it has been purchased by Mr E. Rutter of Ye Olde Curiosity Shop and Museum, Trumpington Street. The hat has a very large flat brim and tapering crown. It has been handed down through several generations of the Constable family who ran a very old established hat maker’s business where Cromwell left the hat when he was up at Sidney Sussex College. It will be placed alongside other Cromwell relics including his gauntlet gloves and spectacles. 34 11 17c

1935 A folk museum may be established in the old White Horse Inn following a meeting called by Cambridge Rotary Club. It should be a town and county museum for objects of local interest. Dr Palmer offered some of the items which had accumulated in the attic of a house where his ancestors had lived for 300 years. This was only the beginning: the ideal folk museum should be in the open, a space in which old cottages, smithies, a windmill and other things could be shown. 35 10 28 & a

1935 A local history exhibition in the Central Library Reference Room in connection with the Local Government Centenary Celebrations shows how Cambridge looked in days gone by.

Schoolchildren are showing the greatest interest as they make tours of the exhibits. Photographs show the changes more vividly than anything: it is hard to believe that the Hobson Street pictured is the same one today. Political broadsheets from the 1840s comment on the 'horrible extravagance' of police expenditure and hint that all was not well with the painting of the inside of the Council Chamber - it advises local painters to have nothing to do with the job. 35 12 10

1936 Dr William Mortlock Palmer has examined a vast number of old corporation papers and documents. They have been cleaned, labelled and made up into parcels, listed with cross-references and arranged in cupboards. The result is that order has been effected out of chaos. They contain valuable material for social history with original petitions, complaints of nuisances and opposition to proposed improvements. The most bulky is the petition against making the concrete paths across Parker's Piece. Some have been handed over to the County Council and University Library. Now the Corporation may publish a list of them. 36 05 11a

1936 The new Folk Museum which is to be opened in Cambridge shortly will not be filled with glass cases containing stuffed birds. The rooms will be authentically furnished – one visitor to the bar-parlour even asked for a pint of bitter. It was unfortunate that the front of the old White Horse Inn had been modernised 25 years ago, but interesting old beams were revealed after the interior walls had been stripped of many layers of paper. A modern fireplace had been removed and electricity installed. They now need everyday objects, craftsmen's tools, toys and an old smock, Mr Saville Peck told Rotarians. 36 09 23

1936 Folk Museum receive toll board from cottage at Clayhithe – 36 10 07

1936 The Cambridge and County Folk Museum at the old 'White Horse Inn' was opened in the presence of a large company. It would become a clearing house of information on local matters in a town where there is more information about Papua than Pampisford. The Corporation had handed over its old measures, the steelyard used at Stourbridge Fair and the High Constable's stave while the Public Library had loaned portraits and caricatures to give a human touch to the museum. Miss Catherine Parsons has accepted the position of honorary curator with Reginald Lambeth as custodian. 36 11 04b & c

1937 Folk Museum disappointed about lack of interest – description – 37 01 30

1938 Queen Mary visits Folk Museum – 38 08 18

1938 Parish councils to be asked for a list of parochial documents under their control; they should be stored in a museum. But they were very loathe to part with them. 38 11 01

1943 Folk Museum annual meeting, E. Saville Peck acting chairman, Frost's flying machine had been offered but was nowhere to store it – 43 02 20a

1945 Folk Museum offered Abbey House in recognition of VE Day; was sold by Askham to Fairhaven on understanding that passed to National Trust. Abbey House bought by Lord

Fairhaven from Askham family; house dilapidated & in form of three dwellings; [45 06 06 TT, 66 12 28]

1946 Folk Museum raises funds to accept Lord Fairhaven offer of Abbey House – 46 03 07

1946 Boxes labelled 'Vintage Champagne' but containing Parker Collection of manuscripts returned under guard to Corpus Christi College from wartime home in Welsh National Library – 46 03 23a

1946 declaration of Trust in favour of Folk Museum in recognition of VE Day and thank-offering for deliverance from the perils of war; Folk Museum let off as three dwellings by Fairhaven to Folk Museum - CDN 1945 06 13 Abbey House – historical facts by F.A. Keynes – CDN 1945 06 15. 1973 conveyance to City council [5]

1950 Cambridge councillors decided not to take over Abbey House and assume responsibility for its future after the Folk Museum had raised £2,000 to effect the transfer of the Museum there from the old White Horse Inn. The house contains some very fine rooms suitable for display of exhibits but would mean they had to rehouse the families now living there. There was no doubt that in ordinary time the council would have been able to take the Museum over but it could not take on anything at the present time because they are so hard up c50 10 23

1950 Historical documents dating from the 13th century to 1944 have been deposited with the County Archivist during the past year. He is particularly pleased to report the minute book of the Cottenham parish invasion committee 1941-44. "For the benefit of future historians, it is most important that such archives should be preserved", he observed c50 10 26

1952 The possibility of Cambridge librarians co-operating in the attempt to compile a union catalogue of all books in the University, City and County libraries relating to the University, City and County of Cambridge was enthusiastically received by members of the Cambridge Library Group. It would enable anyone to look for a book which was to be found in any of 25 libraries. On the whole the college libraries' catalogues of old books were not good & in two colleges the librarian had said it was useless to rely on them. CDN c 5.2.1952

1957 Miss Lilian Clarke has left all her books on Cambridge and her pamphlets, pictures, maps, newspaper cuttings, lantern slides and negatives to the City Library with the request that all duplicate items be sold and applied towards the publication of her book 'Cambridge Calling'. She also left all her papers relating to the Clarke family to the County Library at March and her blankets and pillow cases to the Evelyn Nursing Home. 57 07 25

1958 A little two-bedroomed cottage should be built for Enid Porter, the Curator of the Folk Museum, councillors agreed. The five-bedroomed flat they'd allocated as emergency accommodation was condemned property; it was just a mass of corrugated iron which spoils the beauty of Northampton Street. It would be an insult to offer it to her and should be used to relieve the housing problem for a larger family 58 07 25a

1959 Folk Museum objects 'thrown away' – Lambeth; Folk Museum objects discarded – 59 04 25b

1960 East Anglian Bibliography launched – 60 05 28a & b

1961 Bernard Grainger does nothing all day but repair documents that have lain unattended for many years. He is archive repairer for the County Record Office and estimates that the amount of maps alone awaiting repair would take him all his working life to complete. No attempt is made to touch up or repaint the documents in any way and they leave his small office in exactly the same state as when they first came in. This is very specialised work and only 19 record offices in the country boast such experts 61 02 10

1961 Cambridge Folk Museum has been closed for the last nine months while various alterations and extensions have taken place. Several major improvements have been made as part of a programme that started four years ago. First the building was re-roofed, then a house was erected for the resident curator, Miss Enid Porter. This meant the old house at no.3 Castle Street

became available for museum use. It has been redecorated, the staircases widened and a new system of oil heating installed 61 12 21a

1963 Cambridgeshire Record Office dates from 1930 when records were first sent to the County Council for safe keeping; it was then responsible for the Isle of Ely, Huntingdonshire and Rutland. In 1948 a part-time honorary archivist was appointed and the staff has gradually increased to an archivist, assistant and repairer. Although they have a few postal inquiries, most students come in person and do much of the searching themselves. The most frequent enquires are legal, usually concerning rights of way or ditches, then come genealogists, especially Mormons, and people interested in the history of their house. They have considerable arrears in cataloguing documents and have not yet been able to prepare guides or arrange exhibitions, Mr Farrar, the County Archivist, told Rotarians 63 09 11d

1964 Contents of Ely museum, collected by Vernon Cross in Ye Olde Tea Rooms and Museum to be auctioned. Building ransacked by Littleport Rioters in 1816. It was restored by his father in 1905 when the collection was started – photos – 64 03 28

1964 A turf-digging tool and a fork used for harvesting were among the fenland tools bought for the Folk Museum at the sale of antiquities from Vernon Cross's 'Ye Olde Tea Rooms' at Ely. The curator, Miss Enid Porter, was among the crowd of buyers. She also obtained two Doulton spirit barrels and an 18th-century digester. Plaster moulds from old Ely houses, an unusual type of frying pan and a 19th-century knife cleaner were also purchased 64 04 16

1964 Enid Porter, Folk Museum curator – profile 64 06 10

1964 The Isle of Ely will lose one of its most ancient offices – that of Custos Rotulorum – when the county is amalgamated with Cambridgeshire next April. The office dates back to about 1460 and is responsible for the records of the county and quarter sessions. The present holder is Ald Leonard Childs of Chatteris who was appointed by the King in 1952. In Cambridgeshire the office is held by the Lord Lieutenant, Ald R.H. Parker 64 07 22a

1964 Central Library a 'public disgrace'; is cramped but wrong to spend money now; trying to give 1964 service from 1882 building. The old rooms have pipes running through them and are full of dust. The number of readers has doubled since 1954 but wish had building to display stocks and comfortable reading conditions for borrowers – pictures of Cambridgeshire Collection and school lending department – 64 10 22a & 64 10 21

1965 Cambridge Librarian, Eric Cave, is anxious to provide a permanent home in the central library for odd items of Cambridge interest like old books, scrapbooks, prints and photographs. He had recently received a scrapbook of the public activities of the late Ald W.L. Raynes when he was Mayor from 1931 to 1932. His executors sent them having seen a report about a similar gift from another former Mayor 65 01 28

1965 Folk Museum curators pay 'real scandal' - £8 per week [65 07 14]

1966 County Record Office feature – Domesday Book, maps – 66 07 01

1967 Concern that city archives are kept under proper control. Some are University Library, some in University Registry and some in the City Library. Appointment of city archivist to be considered. Would like someone lent by Fitzwilliam Museum or University Library to put matters in order. – 67 03 01a

1967 Fossey brothers museum at Gt Eversden feature – 67 05 24

1967 New Central Library 'by end of 1971', probably on three floors with lending, information bureau, schools library, music, newspaper room, reference; a further 10,000 sq feet proposed tentatively for a central archives area – 67 08 31b

1968 Enid Porter, Folk Museum – profile – 68 08 26

1968 City Library service is not just books – valuable collections of local history, of maps, directories, playbills and a thousand other items are hidden from the public gaze; record library finally established – feature – 68 10 18, 18a

1969 Enid Porter 'Cambridgeshire customs and folklore' book published; review – 69 03 19b

1969 Cambridge Collection grows – ‘Arbury News’ magazines being added by J. Barham, is developing an S.D.I. system to inform readers; copy photos, use of books increases 50% in three years – 69 11 12

1971 Cambridgeshire Collection exhibition on River Cam in Guildhall, Mike Petty and G.R. Wilson – 71 10 12

1971 Cambridgeshire Collection Mike Petty starts SDI scheme [71 09 22]

1972 The Cambridge & County Folk Museum is run on a shoestring, but thanks to its indefatigable curator, Miss Enid Porter, it has become a model of what a people’s museum should be - intimate, quaint and compact. That the museum so ably embraces the local community’s way of life is due, undoubtedly, to the skill and reputation of its curator, who is acknowledged as an expert on East Anglian folk lore and witchcraft and is particularly renowned for her understanding of fenland. Miss Porter is a powerhouse of activity since coming to Cambridge in 1947 she has created an invaluable display of bygones and bric-a-brac. When it is remembered that she does it on £3,000 a year the scale and depth of the exhibition is nothing short of miraculous c72 09 02

1972 An 1875 bicycle made a rare appearance on the streets of Cambridge to promote Cambridge City Library’s Cambridgeshire Collection exhibition "Tourism in Cambridge" at the Small Hall of the Guildhall. Its owner, Mr J.D. Howes took it from his Regent Street shop and gave it a spin along the road before it went to the Guildhall. The third exhibition of its type to be staged by the library it puts Cambridge into its proper setting for both Fenland, county and city are covered by the various displays 72 10 10

1973 Cambridgeshire Collection may be given to District Council [73 03 17]

1973 Cambridgeshire Collection to be kept in Cambridge [73 04 27]

1974 One of Cambridge’s finest medieval buildings, the Abbey House in Abbey Road, was formally presented to the city council as a gift from the Cambridge Folk Museum. The house was originally given to the museum in 1946 by the first Lord Fairhaven who had hoped it would be an enlarged Folk Museum. But the curator, Miss Enid Porter, said he had come to realise the building was just not suitable and the museum did not have the resources to keep the house in good repair c74 01 06

1975 For the first time since it was produced almost 20 years ago a prize-winning history of Cherry Hinton is to be available for reference at libraries. The contents were compiled by the Women’s Institute in 1958. But the book, hand-written and with water-colour sketches, was too fragile to be easily available. But now staff from the Cambridgeshire Collection have made three complete copies of the book. One will be at Cherry Hinton library c75 05 25

1975 Folk Museum closed due illness curator & no deputy, (Enid retires 1976) [75 08 04]

1975 Over 25 years of argument, several million pounds of ratepayers’ money and three years of toil what will we get? The Lion Yard development. On the first floor is a modest entrance to a building that Cambridge has desperately needed for many years ... the new library. It has three floors. The top will be used for housing the Cambridgeshire Collection. On the first floor is a children’s’ room where young readers can comfortably browse through their selection. The building bears about as much comparison with the old Wheeler Street library as Buckingham Palace does with the Black Hole of Calcutta c75 09 19

1975 Standards of service in Cambridge Libraries have fallen since their administration was taken over by the County Council last year, City Councillors claimed. They were reminded of the

decision to allow the city's ancient records to be housed in the County Archivist's' Department at Shire Hall. Coun Warren said: "It would have been even more convenient for the records to have been placed in the new library in the Lion Yard as we had intended in the first place" c75 09 29

1976 Both visitors and staff at the Cambridge County Record Office, Shire Hall, are still having to put up with overcrowded conditions. One visitor has described conditions as "the worst of any record office in the country". The county archivist says in his annual report that there has been no improvement in office or search room space. One woman who had been offered a post on the staff had declined it because of the overcrowding which she had observed c76 03 16

1976 The curator of the Cambridge Folk Museum, Miss Enid Porter, is retiring this week because of ill-health, after running it single-handed for about 29 years. At the moment she is in hospital and the museum is closed. Since she took charge of the museum in 1947 its popularity and size have grown considerably. It was started following an exhibition of folk items by the Women's Institute in 1936. Cambridge Rotarians launched an appeal for a folk museum and eventually the present premises in Castle Street were acquired. Miss Porter has been a prolific author, writing books on Cambridgeshire folklore and customs and contributing articles to regional magazines 76 12 07

1977 City suggests return of historical records, Cambridgeshire Collection, to them [77 09 03]

1977 Cambridge City Council is to think again about plans to sell the mid 17th-century Abbey House in Abbey Road. The Folk Museum Trustees had given the ancient house to the city council only four years ago in the hope they would look after it. Coun Warren said: "It is shameful if the council is now considering selling the house and keeping the money itself." Coun John Powley said that money to repair the property was limited and the best course would be to sell it to the person living there and let him carry out repair work costing thousands of pounds. 77 11 17

1977 Plans to save branch libraries from closure by moving careers advice offices into Cambridge central library have angered librarians. Andrew Armour said the move could lead to conditions as cramped as those in the old library in Wheeler Street. "It seems that just as we were settling down to being librarians we are back in the melting pot again". It would mean moving the children's & music libraries into the lending library with possible closure of the picture loan service, closure of the 'quick reference' section and moving the Cambridgeshire Collection into the reference library causing enormous disruption in services to readers. c77 12 12

1978 A recent move to sell the Abbey House, Cambridge to its long-standing tenant, retired Professor Peter Danckwerts, raised eyebrows among people who know the history of the place. It was bought for the Folk Museum by Lord Fairhaven in 1945. No endowment was made and the museum found it impossible to keep up the house. It was given to the city in 1973 and the city has found it an embarrassment ever since, spending little on repairs. But a former Mayor and chairman of the Cambridge Preservation Society threatened to take the city council to court if it was sold c78 02 04

1978 Cambridgeshire Collection receives two major donations [78 12 11]

1983 Colonel Guennadi Primakov, one of three Russians ordered out of Britain for spying, openly used the Cambridge Lion Yard Library for part of his intelligence-gathering work. He consulted newspaper cuttings files on civil defence in the Cambridgeshire Collection. At that time, in 1980, Defence Secretary Francis Pym had announced the decision to site Cruise missiles at Molesworth prompting 2,000 opponents of the scheme to march in protest. Librarians noticed him photocopying the files and consulted local police, but they said it was a matter for Scotland Yard. 83 04 06

1984 1984 Enid Porter ran the Cambridge Folk Museum single-handed from 1947 for 30 years and the impressive collection now it now houses museum was largely as a result of her endeavour. She took the entrance money, arranged exhibitions and cleaned the museum. In 1968 she had not had a pay rise for 15 years; her wages were £8 a week at a time when comparable

jobs were paying £1,500 a year. Richard Wilson, the current curator said “She was a marvellous lively woman who gave her life to the museum” 84 01 19 p6

1985 Cambridgeshire Collection Mike Petty address conference Sardinia [85 03 01]

1986 Cambridgeshire Collection given Jack Overhill books [86 05 27]

1986 Folk Museum celebrate 50th anniversary – Tom Doig – 86 12 18

1987 City councillors have stepped in to stave off the shock closure of the Cambridge Folk Museum which is celebrating its 50th anniversary. They decided to give an immediate grant to help it over its financial crisis for the next six months after its curator, Tom Doig, told how it received little income and there were no private financial resources. Councillors are also rethinking proposals to treble the Museum’s rent to £12,000 a year. 87 04 25

1988 Cambridgeshire Collection produces sepia pictures for sale [88 12 01]

1988 Cambridge Family History Centre, newly opened at the Church of Latter Day Saints, Cherry Hinton Road, has access to millions of names and a registry of researchers worldwide who are willing to share information. There are also millions of microfilm and microfiche. 88 08 12b & c

1988 Cambridge & County Folk Museum is facing a cash crisis. Curator Tom Doig says the situation is so desperate he may have to close the 500-year-old museum in Castle Street before Christmas. The County Council has refused any funding and the City has cut its grant, meaning he can no longer afford to pay staff.. The Mayor said is it outrageous that they can’t find the money to keep it going The museum is of great importance as an educational resource and it would be a tragedy if it were to close 88 08 13, 88 08 17, 88 08 17a

1989 Tom Doig has done a very good job as curator of the Cambridge and County Folk Museum for the past five years despite little encouragement and many difficulties. The little museum is a most marvellous means of encouraging a sense of community and plays a central role in teaching young people about their area. Yet it is desperately poorly financed, scandalously cramped and largely failing to exploit its potential. I hope whoever inherits Tom’s unenviable task at the museum will also show his enthusiasm and refusal to be cast down by difficulties. Never before has the public been more interested and enthralled by local history. And never has the need for a dramatic re-appraisal of this very valuable museum been more needed – Christopher South 89 01 27a

1989 Cambridgeshire Collection Librarian receives T.C. Farries ‘Librarian of Year’ award

1989 Cambridge Library is to close for two weeks as part of a computerisation programme to streamline efficiency. It will replace the system installed in 1976. But the Cambridgeshire Collection will be open as normal 89 07 10a

1989 VCH vol.9 published, exhibition in Cambridgeshire Collection – 89 08 03

1990 Sir – I was horrified so see the County Council is proposing to make a devastating cut in the funds allocated to the county record office. As this is the Cinderella of the council departments it would seem grossly unfair to deal it such a blow. Other counties have a more enlightened appreciation of the importance of the precious inheritance to be found in local documents. It should be remembered that it is in the records office that the papers recording the decisions of the council will be housed for future generations to give their verdict on – P. White 90 02 21b n

1990 Cambridgeshire Collection Librarian Mike Petty presented T.C. Farries ‘Librarian of the Year’ award 90 07 26

1991 Domesday Book reprint launched in Cambridgeshire Collection 91 02 28b

1993 Cambridgeshire Collection receives Dorothy McCulla award

1995 Central library needs £500,000 anti-fire initiative to safeguard Cambridgeshire Collection [95 10 14]

- 1996 Open University student research published on CD-Rom, launched in Cambridgeshire with Sue Oosthuizen 96 08 10
- 1996 'Libraries lose a leading light': Mike Petty takes early retirement from Cambridgeshire Collection, succeeded by Chris Jakes; management chiefs pledge to maintain staffing levels and try to develop the archive; as result cutbacks four libraries have closed and opening times of branches reduced 96 12 16
- 1996 Head of Cambs Collection to retire ... to be consultant 96 12 21
- 1996 Chris Jakes, new principal librarian of Cambridgeshire Collection publishes 'Cambridge in Old Photographs' 96 12 30
- 1997 'Farewell to courteous, helpful Mike' – Margaret French letter – 97 01 01
- 1997 'The man behind a great collection' – appreciation by John Durrant, Mayor of Cambridge 97 01 06
- 1997 'Making sure the past is safe for the future'; Mike Petty interview at home, Librarian of the Year 1989, begins News column, lectures; reorganisation in the air and wanted to leave Cambridgeshire Collection at its peak; management says are considering risk management following Norwich fire and Collection will stay where it is and will not be split up 97 01 20
- 1997 'Collection is stuff of real history' – Collection has a place amongst the best – Mike Bowyer 97 01 27
- 1997 'Award winner's final chapter': Mike Petty retirement send-off ... 1990 T.C. Farries award, 1993 Dorothy McCulla award, Hon Fellow APU 97 04 26
- 1998 'Archive will be moved for safety': world-renowned Cambridgeshire Collection to be rehoused on second floor; is used by students, families and academics ... one of the best of its kind, says Mike Hosking, Head of Libraries. Will make it safer and more accessible to the many thousands who use it every year 98 05 11
- 1998 'Local studies service to stay': is important part of library service, will develop and fire protection work with coincide with reorganisation of Central Library 98 06 22
- 1998 'Refurbishment work on library gets under way'; principally to rehouse Cambridgeshire Collection and improve layout of the library 98 11 30
- 1998 'Ideal site for archive' – already a need for more space so why not a new purpose-built local history centre housing Cambridgeshire Collection and provide space for other organisations with collections of historical documents; ideal space the area undeveloped land nearby – letter 98 12 23
- 1999 'Building work brings new chapter to library' – will take four months with final move in August, secures future Cambridgeshire Collection 99 01 13
- 1999 'Move to protect valuable archive': Cambridgeshire Collection being relocated, improve layout of technology services on second floor 99 07 21
- 1999 'Anti-fire device makes library archives safer': catalogues on database, paid for by £500,000 from Government to upgrade information technology 99 08 13
- 1999 'Collection's new home': housed in a specially designed environment on second floor with 2,500 linear metres of shelving giving enough storage space for 20 years growth; study area also moved, providing more seating, more displays and books for loan. The book and illustrations catalogues have been transferred to a database available on internet 99 09 04
- 2001 '25-year site is just the ticket': Cambridgeshire Collection celebrates 25 year in Lion Yard; Collection has 50,000 books, 4,000 maps & 400,000 prints and negatives; during 2000 nearly 800 items added; 2001 01 12 & a
- 2007 'End of an era for city library': 15 months of disruption in £7.5 redevelopment; Collection moves to Milton Road library – 2007 01 18
- 2008 'Plans for new home to house county history ditched': new heritage centre within CB1 development dropped; at present Cambridgeshire Collection in storage at various locations and can only be accessed from Milton Road library. 2008 03 25

- 2008 'Mould threat to county's heritage': archive facilities at Shire Hall condemned; records are in risk of damage. 2008 10 18
- 2009 '17,389 visit new library in seven days': opened on 29th September after £7.5 million rebuild and refurbishment; transformed with old storage and office space cut away and new floor space created by filling in a void between the first and second floors. Old entrance removed to first floor. New Mediateque giving access to British Film Archive & facilities for Cambridgeshire Collection. Was due to open May last year but delayed due to serious structural problems with original 1970s building. 'A truly fantastic new library with range of extended facilities and services ... in premier league of public libraries' 2009 10 09a
- 2011 Archives centre plan for Shire Hall military bunker – shelter under Castle Court built in 1980s would make excellent centre; Shire Hall basement deteriorating – 2011 09 15
- 2014 Time flies ... and county archive has pictures to prove it: selection of more than 14,000 images in Shire Hall archive 20 15 people maintain collections – 2014 11 13
- 2015 Anger at plan to relocate archives – Cambridgeshire Collection planned move to Ely – 2015 01 15
- 2015 'Key archives deserve better', no need to move Cambs Collection – John Green – 2015 03 14
- 2015 Chris Jakes wins McCulla Memorial Prize, worked for 40 years to provide one of best local studies collections in country – 2015 03 24

c.44.3 : Cherry Hinton

(by no means complete)

1912 Mr I.G. Elworthy told a meeting at Morley School that he had been one of the first members of Cherry Hinton parish council in 1894. When he first came there were only 50 houses but the district had developed enormously and the need for a recreation ground was very urgent. With the enormous increase of motor traffic it became more and more dangerous for children to play in the streets. The Council should purchase a site between Cherry Hinton Road and Mill Road and in the meantime the Cattle Market field should be laid out as a temporary playground. It could be planted with trees like Christ's Pieces and would preserve the beauty of the district 12 06 07d & e

1962 Somewhere behind Cherry Hinton's façade of newness lies a village. But suburbia is spreading its tentacles into the furthest corners with the noise of cement mixers churning and hammers hammering as estates mushroom out of meadows. Even now the new estates seem to breathe a slightly dispirited air. Individualism is drowned in blanket development. People must be housed and it was inevitable that Cherry Hinton would be swallowed. But no-one who condemns the grey terraces which run beside the Tin Walk can view the new development with joy. 62 06 08 [1.1]

Christ's front extended to Christ's Lane [VCH]

1897 05 25

Yesterday afternoon a ceremony of the deepest import to the Presbyterian Church of England took place at Cambridge, when Mrs Lewis and Mrs Gibson jointly laid the foundation stone of the Westminster Theological College. A large number of people assembled on the site many of the visitors coming from a distance. The building will stand on the piece of ground between Madingley-road, Northampton-street and Pound-hill. The building is in the English Renaissance style 1897 05 25; opened 1899 [1.19, 3.8]

1898 03 14

Jesus college fire in rooms of undergraduate in third court. Room was filled with valuable furniture and large amount of unique china and pictures. The whole staircase will have to be practically rebuilt and what not damaged by fire was ruined by water CDN 1898 03 14

1899

Girton development between 1899-02 [VCH]

1899

Westcott House moves to new premises Jesus Lane (opened 1881 & known as Clergy Training School until 1904) [1.20, 3.10]

1899 08 09

Once a year the good feeling existing at Pembroke college between members of the colleges and the servants is given expression to. In recent years, largely owing to the efforts of Mr A. Chapman, the butler, undergraduates and servants have united in a festive gathering in the Long Vacation, and it has now assumed the aspect of an annual affair. During the day a cricket match took place, the servants played in the ordinary way, while the collegians used broomsticks as bats. Dinner in hall followed and after this came a concert al fresco 1899 08 09

1899 10 09

On Saturday night the cooks left the kitchens at King's college, as they thought, safe, but P.C. Witham saw smoke coming through the roof. For fully two hours the fire brigade had their hands full. The staircase is quite burned down and access to the cook's room above is by means of ladders. On Sunday morning the cooks went to prepare the usual meals and members of the college were served as if nothing out of the ordinary had occurred 1899 10 09

1899 10 17

The formal opening took place of Westminster College, the theological college which the Presbyterian Church of England has established at Cambridge for the training of students for the ministry. It is a great thing that the work has been done so well in so short a time, but a much greater thing that the cost of building it – albeit over £40,000 has all been met. Professor Ryle, President of Queens', extended a welcome to the new college 1899 10 17

1901

Caius houses South side Rose Crescent purchased 1887 & rebuilt as St Michaels Court 1901-03 [VCH]

1901 07 22

A fire occurred at St John's College, Cambridge and considerable damage was done before the outbreak was extinguished. The scene was the third court, where a bedroom and a sitting room on the top floor of the wing overlooking the river were completely burnt out. St John's college fire brigade were soon combating the flames which had secured a considerable hold upon the dry and inflammable material of the building and it is undoubtedly due to their efforts that the fire was not much more disastrous. It originated in the bedroom where a lighted candle was left on the chest of drawers CDN 1901 07 22

1902

Emmanuel negotiate corporation to close Emmanuel St 1902-07 [VCH]

1905 06 22

In the more ancient parts of Cambridge colleges several students used to occupy one large room wherein they lived and slept; they had as private studies small partitioned-off spaces in the corner of the room, each having a window. These still exist but as students no longer live in groups they are now used for sleeping and dining. It is unfair to criticise them as if they had been originally designed as sleeping apartments. 05 06 22

1905 07 04

Christ's College is celebrating the 400th anniversary of its foundation and a host of past members have returned. Dignitaries of the church, members of parliament, men of eminence in the legal world and members of the learned professions are among the distinguished company of guests 05 07 04 a & b [VCH] [1.3]

1905 10 06

Cheshunt College opened its doors to theological students without any ceremonial. It was founded in 1768 by Selina, the Countess of Huntingdon, and is strictly undenominational. It moved to Cheshunt in 1792 where it was recognised by the University of London and has now transferred to Cambridge. Houses in Cintra Terrace, Hills Road, have been adapted for the 15 students; most will become members of the University and read for degrees. 05 10 06

1906

New Hall Kennedy building [VCH]

1906 01 30

Dr E. Atkinson of Clare College is the third Master of a Cambridge foundation who has held office for 50 year. Members of the college celebrated by the presentation of a portrait by Mr W.W. Onless. It shows him clad in University robes, reading a book. It has been an era of

prosperity and growth, due in large measure to the harmonious relations between the Master and his Fellows. 06 01 30a-c

1907 09 07

The University has extended the area within which lodging-house licences will be granted as the number of Freshmen expected to take up residence is so large. That might seem good news for lodging-house keepers and traders generally but the real reason is the steady growth of the suburban areas. A comparison between lodging houses in some of our closely-packed central streets and those in the roomy, healthy suburbs is in favour of the latter. 07 09 07c

1907 10 21

An interesting wedding took place at St Luke's Church when the Master of St John's College, Rev Charles Taylor, (67), was married to Miss Margaret Dillon. Dr Taylor is a noted Hebrew scholar, theologian and mathematician who was Vice Chancellor of the University in 1887. Miss Dillon supports the Factory Girls' Holiday Fund and is a prominent member of the Women's Total Abstinence Union. 07 10 21

1907 11 04

An alarming fire occurred in a bedroom at Homerton College after one of the students placed a candle near an open window and left the room. On her return she found the curtains enveloped in a mass of flame. A tutor, hearing her scream, rushed into the room and managed to extinguish the flames with a patent fire extinguisher, The college fire alarm did not act efficiently, being heard in some parts and not in others. Thus while girls rushed out of the building in their night attire a dance in another part of the college continued. 07 11 04b

1908 07 24

A great deal of excitement was caused by a fire at Christ's College. Bert Holder, a butcher, noticed smoke issuing from the scullery and engine room window in Christ's Lane where the ceiling, which is of matchboarding, was well alight. Pc Fred Savidge and the head porter, Mr Chapman, fitted the college fire appliance to a hydrant and commenced to play on the flames, which were soon extinguished owing to the prompt action of the fire brigade and police force. CWN 08 07 24

1908 08 21

The funeral of Mr Fordham, head porter of Queens' College was marked by many signs of the respect in which he was held. A Cambridge man, he had been connected with the college for 35 years, having also served as the master's butler. As a last compliment to a trusted and respected servant the first part of the funeral service was conducted in Queens' college chapel. There were a large number of beautiful floral tributes, including one from the President and Fellows. CWN 08 08 21 p2

1908 12 18

At this period of the winter Cambridge generally experiences a slump in the building trade but there is one extensive building in progress, the extension of Magdalene College on the river side of the main block. 1910 10 28

A Clare college undergraduate, Mr R. Chadwick Leach, had an exciting experience early on Saturday morning, his sitting room burning fiercely while he was fast asleep in the bedroom adjoining. The fire was discovered by a bedmaker who called some undergraduates and they at some risk to themselves roused Mr Leach from his sleep. The rooms on 'C' staircase comprise a bedroom and sitting room which are made secure by a door on the landing. He went to bed about midnight, leaving a small fire in the grate. The contents of the sitting room were completely destroyed and the damage must be considerable 10 10 28a

1910 11 15

A cook at Clare College claimed compensation for an injury sustained through a fall in the college kitchen. The man, who was a 'roast cook', had been carrying a double-handed boiler when he trod on a piece of stick and fell. The boiler struck him in the pit of the stomach exacerbating a rupture he'd sustained three years earlier. Since the accident he'd been paid sixteen shillings weekly, half his usual earnings. His claim was dismissed. 10 11 15d & e

1911 07 22

Great deal of rebuilding in connection with University, most notable Emmanuel expansion which envisaged closure of Emmanuel St with Council making new road elsewhere; council change mind but install underpass to link new buildings with old [3.19, 3.20]

1911 09 02

Trinity rooms on Queens Gate side of Great Court dismantled & modern fittings substituted for medieval interiors [3.21]

1912 01 12

A wedding of great interest took place at King's College Chapel, the first in the building for nearly 200 years. The bride, Miss Katharine Heycock, daughter of a Fellow, wore a beautiful dress of white brocade and a train of old lace made by Mrs Thompson of Panton Street. The six bridesmaids wore Kate Greenaway coats trimmed with swansdown and hats trimmed with mistletoe and holly. Amongst the presents were a silver hot-water kettle, silver egg-stand and toast-rack. Afterwards the bride and groom left for the Riviera. The earliest wedding in the chapel was in 1666. 12 01 12c

1912 03 08

University lodging-house keepers have been venting their grievances. One woman has three sets of rooms; if she lets them all the year she gets £84. For rent, rates, taxes and wages of servant she pays £53; that leaves her £31 for whitewashing, papering, staircloth, carpet etc and for food and clothes for herself. But this term all the rooms are empty. However in Chesterton there are many householders who let rooms to undergraduates; when they come part of Cambridge will the rateable values of their houses be increased? Lodging housekeepers should form themselves into a trades union. 12 03 08f

1912 10 12

Queens' College new building stands on the site of a row of almshouses founded by the first President of the college, Andrew Dokett. Architecturally they were of no value and their removal can scarcely be regretted. His charitable bequest will be continued as weekly pensions. Planned on traditional lines forming three sides of a court with the main façade to Queens' Lane, they provide accommodation for 26 undergraduates as well as the Bursar's rooms, guest room and clerks' offices. They were built by Rattee and Kett in a remarkably short time for such first-class work. 12 10 04h [VCH]

Matriculation showed that the number of Freshmen who have entered this Term is 156. Three years ago we had become accustomed to count the new members of the University in four figures, but we must be grateful for small mercies. We badly miss the stream of vigorous youth, whose annual incursions rejuvenated Cambridge and kept us from remarking the advance of age or becoming fossilised in ways or opinions. The stream is running so small now that we hardly notice its presence, but it has not altogether stopped, and is helping the University to carry on the work of the intellectual mill. The “Cambridge Review” estimates that the number of undergraduates who will be in residence this Term - men of all years - will be 444. In the Michaelmas Term of 1913 there were 3,263 under-graduates in residence, and the total had remained around these figures for several years, so it would seem that the war has reduced the roll of students of this University to nearly seven-eighths below the normal, and we are afraid we have not yet touched bottom. In spite of the numerical and financial difficulties, the teaching staff are making heroic endeavours to maintain the standards, and the course of lectures which have been arranged are really wonderful under the circumstances. 16 10 25 CIPof

The death took place of Mr Edwin Samuel Fisher, who was head of Downing College kitchen for nearly 50 years, having commenced his career at the early age of 13 when he became an

apprentice in St John's College kitchen. While still at school he had worked under the famous chef M. Bruvet when he presided over the Downing kitchen. Mr Fisher had a very trying time during the war, at the outset of which the college suddenly was called upon to house some 90 Territorial nurses, for whom meals had to be provided in the college hall, and later he had, under great difficulty owing to rationing, to provide in a similar fashion for officer cadet battalions. c 27 08 08

1928 03 11

Magdalene College hopes that a start will soon be made on the building of a new court on the opposite side of the Street. Plans have been drawn up for a three-sided brick court open to the river, traditional in style. The flank parallel with Magdalene Street will not interfere with the existing shops, but the thoroughfare is long overdue for widening and from the remodelled bridge there would then be a noble prospect of the new court with a lawn or gravel forecourt separated from the pavement by a low parapet. c28 03 11

1928 05 19

Undergraduates were packed like sardines in a tin at the Cambridge Police court when King's College and Trinity College were fined for employing male servants with having in force licences as required. It was unthinkable that such bodies should attempt to evade payment but they had received no reminder from the County Hall. This was not an acceptable excuse: they were large and responsible bodies accustomed to regularly employing a number of servants and should be more scrupulous than ordinary citizens to see the duties were paid in proper c28 05 19

1928 08 14

Cambridge has lost a popular and familiar figure by the death of Mr James 'Jessie' Collins. He had an intimate knowledge of the antecedents and lives of almost every one of the inhabitants of 'The Boro' – the Castle End district - and was a character quite of his own. For 40 years he was employed at St John's College, rising from the position of shoe black to deputy head porter. He will be buried from St John's College, which he has served so faithfully and so long and today he lies in state in the college chapel – a fitting end to a remarkable life c28 08 14

1929

Caius [VCH]

1929 02 20

A serious fire broke out at Caius College, Cambridge. Two rooms in Tree Court were completely gutted and others badly damaged. Policemen attracted by the blowing of a whistle in Trinity Street got a hydrant in the courtyard to work and the Fire Brigade was quickly on the scene but the inside of the building was almost a furnace. The fire was quickly got under but not before considerable damage had been done, including the falling in of a large part of the ceiling. The firemen experienced bad conditions owing to the intense cold, the water froze on their clothing and icicles were left hanging from the ledges CDN c 20.2.1929

1930

Magdalene Benson Court started [VCH]

1930 07 05

The policy of building more rooms in college and drawing in as many men from the lodging houses is creating a serious outlook for the lodging-house keepers. Many have been told their rooms will not be required next term. If the University cannot continue to utilise services which

came into existence to serve their needs some then other employment will be needed. If the University ceases to provide adequate support Cambridge will have no alternative but to seek other means of livelihood. We will be loath to see the town industrialised but people must live. 30 07 05b

1930 09 03

Another example of the 'new Cambridge' in the making is the extensive site on which Magdalene College intends erecting an imposing new wing. It is at the rear of the Pickerel and Cross Keys yards originally occupied by Bird's vinegar and mustard factory. Mallory Court will provide the principal access but eventually a complete transformation will be effected by the demolition of all the property between the bridge and Northampton Street making Magdalene Street a broad and handsome thoroughfare. 30 09 03c

1930 11 04

It was with a certain amount of trepidation that I called on the Mistress of Girton College, Miss E.H. Major, for this little article. "Ten minutes" I said to the driver of the car that had taken me out. It was two hours before I started on the return journey. For I had been received by a most sympathetic woman in a room harmonious, of gracious proportions, with dishes of woodland flowers on the table; cakes and coffee and cigarettes had been offered to me in friendliness. We touched upon everything under the sun, from starvation in Ruthenia to the making of the college gardens 30 11 04a

1930 11 11

It was in the state of mind anticipating moral extinction that I tapped on the door of the portress at Newnham College and asked if I could see the Principal's secretary. Within five minutes Miss Strachey had herself received me. Here was no austere 'school marm' but a charming, well-dressed, quite feminine woman of the world, with a sense of humour and the blessed gift of putting nervous people at their ease. She is a great educationalist but also a most charming and modest lady 30 11 11a

1930 11 18

Miss M. Allan, principal of Homerton College is a pioneer of a radical method of training teachers for elementary schools. She came to Cambridge in 1903 and her aim is to combine academic and psychological learning, the bodies of her students are developed as well as their minds and music, art, the drama as well as science and philosophy are contained in the curriculum. She may, indeed must, in so large a community rule sometimes with a hand not always gloved with velvet but the softness of understanding is ever present and she has retained much of the spirit of youth 30 11 18a

Memorial gates at Jesus completed [2.18]

1932 04 13

Large new buildings designed by Sir Edwin Lutyens are part of a comprehensive extension scheme by Magdalene College on land originally occupied by Bird's vinegar and mustard factory. For two years it has been one of Cambridge's biggest building contracts but the comparative obscurity of the site has kept it out of the public eye. Eventually the whole of the west side of Magdalene Street from the bridge to Northampton Street will be cleared for reconstruction with a more imposing bridge and a further college wing at right angles to the present one. 32 04 13

1932 04 16

St Catharine's was one of the colleges whose elaborate extension schemes met with a setback through the war. There was to have been a full elevation to Trumpington Street with a completely enclosed court beyond. Now the porter's lodge will be replaced, the cobbles removed and the whole area sown with grass to give a more balanced frontage. It is eight years since that the elm trees, which formed a grove, were cut down. 32 04 16

1932 05 18

Overnight two unfurled umbrellas were securely tied to the pinnacles of King's College chapel so they stood straight up. The college called a window cleaner to remove them, but despite his long ladder he was unable to get within ten feet. Two undergraduates went on the roof with shotguns and endeavoured to shoot them down. One fell but the other proved more difficult. The shots knocked the handle sideways. For some hours it floated gracefully from side to side in the wind like some gigantic weathercock. 32 05 18

1932 10 07

It was an important day in the history of Downing College when the Lord Chancellor opened a block of new buildings. In 1910 undergraduates had petitioned for a chapel to replace the small upper room in which religious services were held, then a former member directed in his will that a chapel, library and livings rooms be provided. New gates in Tennis Court Lane commemorating the tragic death of Prof. Kenny were also opened. 32 10 07bb

1933 03 15

Serious damage was prevented at Peterhouse when an undergraduate awoke in the early hours of the morning and noticed flames in the window of the Junior Combination Room. The head porter, Mr Barnes, was called and the water hose was brought into action. The fire was got in hand so quickly that many of the undergraduates did not know there had been a blaze until breakfast time. Slight damage was done to some 14th-century beams and an oar. A cigarette end is believed to have been the cause of the outbreak. 33 03 15b

1934 08 01

Gonville and Caius College's scheme for the complete rebuilding of the block of shops and houses on the north side of Cambridge Market Hill has been finally approved. At present the site from Rose Crescent to St Mary's Court is occupied by a group of houses, mostly of the 18th century. Their disappearance will be regretted, even by those who knew how dilapidated they had become behind their neat Georgian facades. But the whole effect of the completed block should stifle these regrets. The shops will be set back seven feet with upper rooms carried on slender pillars. 34 08 01 [VCH]

1934 08 28

The renovations to St John's College have been the subject of much comment in 'The Times'. It was suggested that the two turrets at the front were in imminent danger of falling away from the main tower because of a system of main drainage 30 years ago when a trench 30 feet deep was dug along the street. But there is no evidence of settlement due to foundation trouble. The walls had shattered because of vibrations caused by street traffic. 34 08 28

Queens' College – demolition in Silver Street for new extensions – 35 03 05a, 35 05 22

1935 09 13

Last year, when the front of the college was restored the two gateway turrets facing St John's Street were demolished and rebuilt; now the turrets within the court are being renovated. Restoration work has disclosed old oak panelling. The discovery was made after repairs to the roof on the east side of the first court had revealed damage by the death-watch beetle, necessitating the removal of a number of the original oak beams. On the other side of the court the parapet over the offices and the dining hall has been rebuilt and the brickwork re-pointed and replaced where necessary. Handmade bricks of the 16th century were obtained to match the original work. The entire face of the building has been washed down by hand, only hard brushes and softened water being used. [Cambridge Standard 13th September 1935]

1935 09 14

Peterhouse – the oldest Cambridge foundation – was threatened by a fire which broke out in a staircase in Gisbourne Court early in the morning. The Master, Sir William Birdwood (70) was one the scene from the start and did not leave until everything was safe, two hours later. Staircase H which contains six sets of rooms, was extensively damaged and several hundred books ruined. Its cause remains a mystery for the staircase, which is not far from the old Noah's Ark staircase, has been unoccupied since August 35 09 14b

1935 10 05

The Trinity Lane corner of Caius College was left black in the cleaning operations that have been taken place during the Vacation. This was to show the contrast. Now it is receiving attention like the rest of the building. Messrs Johnson and Bailey say it was impossible to erect scaffolding

owing to the traffic down Trinity Lane so it had to be done piecemeal from ladders. The excellent result has been achieved simply by the use of water and stiff scrubbing brushes. 35 10 05a

1936

Kings Peas Hill Hostel completed [VCH]

1936 01 11

With its purchase of the Strensham Court Estate of 2,800 acres near Tewkesbury, Corpus Christi is following the examples of the richest Cambridge college. Trinity, which has an income of £80,000 a year, bought 4,000 acres of agricultural land in Suffolk two years ago. However King's, whose finances have flourished exceedingly under the bursarship of Maynard Keynes, prefer to invest in urban rather than agricultural properties. After the war they held estates in fifteen counties but these have been greatly reduced and they recently bought a valuable site close to the Middlesex Hospital. 36 01 11a

Magdalene College demolish Fishers Lane as first stage of its new plans

1937 04 29

Parts of Newnham College known as 'The Slums' include a number of small dark bedrooms which get no light at all and from which the view consists of a blank wall. Owing to congestion and overcrowding these are now used as students' bed-sitting-rooms. Some bathrooms are used for washing crockery and there is insufficient accommodation for food and coal storage. But some new rooms are large and light with basins fitted with hot and cold water. 37 04 29b

1937 10 20

An undergraduate of Peterhouse, Cambridge's oldest college, awoke coughing because of smoke and rushed through his burning sitting room to report the outbreak. Another occupant on the same floor attempted to put out the fire assisted by Mr S. Wilderspin, a porter. The Fire Brigade cut away floor boards to extinguish the blaze caused by a defective fire-place. The whole of the floor together with furniture and a wireless set was ruined. A club room beneath, situated in one of the oldest parts of the college dating back to the 15th century, was damaged by water. Another blaze of a much more serious nature occurred nearby about two years ago 37 10 20b photo 37 10 20

1938

St Johns plan extensions Bridge St to provide new court for 50 undergraduates & 10 fellows, increasing residential accommodation by 25%; part of design which will allow extend buildings along whole Bridge St to Cam; like many other colleges has found increasing difficulties providing accommodation for members, at present only room inside college for about half of resident undergraduates [16]

1938 04 20

'Desperate measures' are needed to save part of Queens' College where the river wall of the Essex block is in a severe state. It is absolutely necessary to deposit a bank against the wall to avert a disaster and when made temporarily safe the foundations will have to be underpinned, the Cam Conservators heard. There was concern that Silver Street Bridge might also be slightly under-mined and it should be rebuilt when money was available. 38 04 20a

1938 04 30

The proposed new buildings for St John's College involve the immediate erection of buildings to complete the present Chapel Court with wings projecting beyond to the north and east. These should be ready for occupation by Michaelmas 1939, including 50 undergraduates and ten fellows' sets of rooms. There will be an open court facing Bridge Street should the houses eventually be taken down and the road widened and ultimately a riverside court overlooking Magdalene 38 04 30 & a

1938 06 22

Queens' College have to underpin the foundations of the Essex Buildings and may rebuild it further from the road instead of on its present alignment. They asked whether the Corporation wished to acquire the land released and expedite the rebuilding of Silver Street Bridge. This could be widened to 40 feet instead of 28 feet as present. The erection of new college buildings and the construction of the bridge would proceed at the same time with the bridge completed by October 1939 38 06 22

1938 08 12

Queen Mary named the first block of the new buildings at Newnham College after Professor and Mrs Fawcett and their daughter Philippa. It was at the Fawcett's house in December 1869 that the first meeting was held to discuss plans which resulted in the foundation of the college. Twenty-one years later Miss Philippa Fawcett justified her parents' faith by being placed above the Senior Wrangler in the Mathematical Tripos. She was amongst the guests and was presented to the Queen who has taken the keenest interest in the College 38 08 12 [2.20]

1939 06 23

A Royal Institute of British Architect's plaque was unveiled on the new Caius College building in St Michael's Court and a medal presented to the architect, J. Murray Easton. At no time have more buildings of distinguished character been erected and yet many buildings are not very pleasant to live in and certainly unpleasant to look at. This was due to lack of public appreciation of beautiful architecture. Accepting the plaque, the Master said that the building was very popular among the undergraduates. 39 06 23

1939 09 09

Kings remove glass from chapel windows due to War, costs £75 per window until only 4 out of 26 left, rest being partly glass but mostly boarding; some ask what use is the glass if the building demolished [1.8] [1.23]

1947 06 07

Trinity College celebrates 400th anniversary [1.12]

1947 06 30

Pembroke College, Cambridge has celebrated its Sexcentenary. The celebrations took the form of a luncheon and garden party during which valuable manuscripts and college plate were on show. The display of college plate included two irreplaceable cups. One has a curse associated with it. This is the Anathema cup. It bears the inscription "Who shall alienate it, let him be anathema".

For this reason when, during the Civil War, all the College silver was sent to the King, the lid only was sent, and the Cup kept back to defeat the curse c47 06 30 [VCH]

1948 06 05

The Queen came to join in the celebration of the 500th anniversary of the foundation of Queens' college, Cambridge. Exactly on time the Royal car was seen coming round the last curve in the road from Hauxton and only the strong arms of the members of the Cambridge Police Force prevented the crowd from surging into the road. But even they were not strong enough to hold the crowd back once the car had stopped and within a few seconds it was completely surrounded so that Her Majesty, even if she decided otherwise, was forced to remain in the car c48 06 05 [1.13]

1951 04 27

A Royal welcome greeted the King and Queen when they arrived for their visit to King's College chapel thanksgiving service for its restoration and the replacement of windows removed for safety during the war. The car flying the Royal standard drew up to the city boundary at Newmarket Road. Many mothers from nearby houses brought their children along with little flags and some enterprising onlookers climbed on to one of Marshall's buildings to get a bird's eye view. Carried away by their enthusiasm many toddlers continued to cheer and wave small Union Jacks long after the Royal party had passed c51 04 27 [2.7]

1951 10 10

Trinity College has had the heraldic shields over the Great Gate repainted and the statue of King Henry VIII has at last been furnished with a proper sceptre. This has taken the place of the common or garden chair leg that has for years been fixed in the right hand of the effigy. When a similar redecoration was carried out between the two world wars the chair leg was regilded and solemnly replaced. Now a wrong has been righted and King Henry is no longer the custodian of the remains of a piece of kitchen furniture! c51 10 10

1952

Downing open new buildings [2.19]

1952 02 01

Does the best food go to the colleges? Miss R.N. Small, the first woman Steward of Caius College, was asked. Most colleges like to trade with local shops and the quality had its ups and downs. The college could not afford to give poultry to undergraduates more than once a term. While Fellows could give dinner parties in their own rooms, undergraduates were only allowed the facility during May Week when she made an all-out effort to help the men who wish to impress other people. It was the custom these days for undergraduates to work off their hospitality by means of stand-up sherry parties. CDN c1.2.1952

1952 02 07

Nearly 1,000 college servants in Cambridge are being urged to join a trade union – and enjoy the benefits of a first-ever “College Servants’ Charter” as a result of the Industrial Disputes Tribunal decision affecting more than 80 workers at Gonville and Caius college. Circulars are going out from the Transport and General Workers’ Union to college employees, including bedmakers, cleaners, porters and gardeners impressing on them the importance of “getting together”. Since the wage claim at Caius was first submitted individual pay has gone up in some cases by as much as £1 12.6. a week. A kitchen porter now gets £4.15s.0d. minimum, a maximum of £5. A buttery man who received £5 now gets £6.7s.6d. There has been a £1 a week increase for cooks. CDN c 7.2.1952

1953 01 21

A new type of draught excluder fitted to a Trinity College undergraduates’ sitting room was so effective that nobody was aware it was on fire. The occupant was sleeping peacefully while in the

adjoining room furniture and floorboards were ablaze. Smoke pouring from the fire was prevented from penetrating to the bedroom by the draught excluders recently fitted. The sound of crackling timbers woke a student on the floor below who gave the alarm. Undergraduates from other rooms on the staircase ran to safety but it was only after a ladder was raised to the first-storey c53 01 21

1953 01 28

Varsity, the university student magazine, reports that the rooms in women's colleges may be poky, unsuitably furnished and dimly lighted but they are not dowdy. At Newnham all the rooms are attractive but dim lighting and inadequate heating are the main faults and there is a dearth of food cupboards. Male visitors may be shocked to see that their hostess keeps food and crockery in her wardrobe together with damp towels and that the desk drawers contain undies. At Girton some rooms contain antique furnishings which give an air of luxury but others are completely modern with unique mobiles and original paintings by Avante Garde artists. c53 01 28

1953 07 08

"Downing College now stands essentially complete" remarked the Lord Chancellor, when he opened the new Greystone buildings. Remarking on the generosity of the many benefactors, he said it was only recently due to the bounty of Sidney Greystone that it was possible to complete the wing and chapel now opened. They were still left with a gap but all that was needed to raise £24,000 was for 1,200 Downing men to contribute one shilling a week under covenant for seven years. Otherwise the college would have to dip into its capital, which was already perilously small. c53 07 08

1954

Magdalene 1st court cement facing etc replaced [VCH] 1954

1954 04 28

A new tower being built at Christ's College, Hobson Street, Cambridge was slightly damaged by fire. It is believed to have been caused by heat from a small fire used for copper soldering which ignited the scaffolding and the base of the new tower. The builders working on the tower could not get down. It was well alight and the fire was beginning to spread into the college when the brigade arrived. A major pump, pump escape and turntable ladder were used to extinguish the blaze and they had it under control in eight minutes CDN c 28.4.1954

1954 10 06

A new chapter in Cambridge University history has opened on an informal note at New Hall, the third foundation for women, where the first 16 students are now in residence. They drew lots for the rather Spartan bedrooms while a 'combination' room is being used for (voluntary) morning services – there is no chapel - and other activities. A rather gloomy downstairs study room is well-equipped with desks and chairs and nearby is an out-of-doors wringer of hefty make. "We can do our own washing and save on laundry bills", said Miss Angela Holder, a petite, attractive Freshman, giving the handle an experimental turn. Miss A.R. Murray, the tutor, says she welcomes the building – a converted guest house - as a temporary home but looks forward to moving to Byron House in 1960 CDN 6.10.1954 [2.14, 8.6]

1955 05 12

A gaping hole, nine feet in circumference and about a foot deep, was blown in the path beside Trinity College bridge last night. It is believed that a stick of dynamite was used as a student said he heard a terrific explosion and the building shook. The explosion caused leaves to be blown off

trees nearby. This is the third time within a year that a deep pit has appeared near the bridge and last week it was decorated with planks and trowels. But two porters and a gardener denied all knowledge and the college spokesman had nothing to say. 55 05 12a

1955 09 27

The dedication and opening of an extension of Clare College Memorial Court was performed by the Master, Sir Henry Thirkill, in the presence of nearly 1,300 scholars and relatives of the Clare men who died in World War II. The new Court which has room for 44 undergraduates was designed by the architect Sir Giles Scott who was amongst the congregation as he had been when the first portion was dedicated 31 years earlier. 55 09 27 [2.16]

1956 01 26

The Dean of King's College wriggled through an ornamental hole and plunged down to his death from the roof of the chapel in the darkness of early Sunday morning, an inquest heard. The gate porter said the dean had come to him about 2.20 a.m. and asked for the keys to the chapel. He had left the gate just before 6 a.m. and a little later flashed his torch and saw a body lying at the foot of the west tower. He ran to fetch the head porter and ring the ambulance and police. Only afterwards did he realise it was the Dean's body lying there. The coroner said the college had lost a very eminent gentleman. 56 01 26a & b

1956 05 22

Homerton college students of every generation gathered to present, Miss A.H. Skillicorn, with a pair of wrought iron gates to mark her 21 years as Principal. They were designed by Miss M.R. Harrison, one of her first students. The new wing was an outward sign of its growth and development. Miss Skillicorn had been responsible for an era of great achievement and enhanced its strong traditions. 56 05 22

1956 10 06

The Cambridge lodging-house landlady is part of the education of every young man who comes to study at the University. She is part-mother, part-landlady & part-disciplinarian who must maintain a difficult blend of deference and firmness in dealing with her young gentlemen. He is told how much rent he must pay, that he pays extra for a piano, hot water for his bath or a scuttleful of coal. But unless lodgings are peaceful and conformable men will not study well. 56 10 06a & b

1957 05 29

Queen Elizabeth the Queen Mother opened a new wing at Homerton, a women's training college which prepares students for teaching in primary and secondary schools. She walked along the main entrance driveway passing groups of pretty girl students making a gay sight in their brightly-coloured cotton frocks. 57 05 29 & a [2.21, 6.12]

1957 08 31

A four-storey hostel for Clare College between the Shire Hall mound and Chesterton Road will provide the most modern accommodation in the University. Each of the 40 students will have his own bed-sitting room with adjoining washroom and clothes cupboards and central blocks of bathrooms and w.c.s. During vacations it will be used by delegates attending conferences. When the proposed Spine Relief Road is constructed the North side will face an up-to-date motorway 57 08 31c & d [5.10]

1957 09 14

Trinity College has started its first large-scale works this century. They will reconstruct nos.29-34 Trinity Street with hardly any alterations to the facade. The shops will remain on the ground floor but everything above is to be reconstructed to house 43 undergraduates in a small new court. This will reduce the overcrowding resulting from the termination of military service. 57 09 14 & a

1957 10 01

Work has started on the reconstruction of the kitchens and an additional dining room at Emmanuel College. The work has become imperative because not only have the number of students increased greatly but where a man used only to take dinner in Hall he now commonly takes three meals a day. Staff have to prepare two sittings each evening in term, in two separate dining halls. 57 10 01

1958 05 15

A proposal for a new college for men, to be called Churchill College, is announced today. Sir Winston himself will donate £25,000 and an appeal has been issued. It is needed as the University has embarked on a scheme for an extension of research in scientific and technical fields but existing colleges are already beyond their maximum size 58 05 15a & b Sir John Cockcroft, director Atomic Research Establishment Harwell 1st Master 1959 [2.24,5.3]

Fitzwilliam House new building starts 1961 – 58 05 29 [2.25]

1958 07 17

The new Principal's Lodge at Newnham College is a showpiece of design. It features sheets of glass, said to be the tallest in the world, and includes three bedrooms so arranged that if there should be a married Principal a husband's sitting room and dressing room could be provided. It is little wonder that Miss Cohen is delighted. The garden, while immature at the moment, is spacious and has the promise of great beauty. 58 07 17b

1958 08 16

Kings restore chapel pinnacles as it had just 50 years before [2.26]

1958 08 30

Restoration work has started on the Gate of Honour at Caius College where the ornamental stone on either side of the arch is to be entirely replaced with clippings stone. The work has been entrusted to two highly skilled craftsmen, both well advanced in years. William Topper aged 78 (mason) and carver Charles Whitaker (85) have worked together before and are much respected and revered by other members of their trade. 58 08 30 & a & b

1958 12 12

King's College announced a new rebuilding scheme in the city centre which will mean the demolition of the Central Hotel and café to provide more accommodation for students and a better headquarters for the Cambridge branch of the Midland Bank. The Bursar said the structure of the existing building is in a very parlous state and they could not for structural safety do less than rebuilding completely the whole interior. However this would only be forcing new wine into an old bottle so they had commissioned the design of a new building by Mr K.W, Capon of Architects' Co. Partnership 58 12 12c

1958 12 18

Plans for the new buildings at Queens' College designed by Mr Basil Spence to provide much-needed extra accommodation for fellows and students have been approved by the Royal Fine Arts

Commission. The new building will face the 300-year-old bowling green and border the grounds of the President's Lodge. It will be three storeys high providing 41 bed-sitting rooms with an attractive and unusual overhead roof garden 58 12 18 & a

1959 03 01

Emmanuel College's new building in St Andrew's Street has attracted many protests and the Anti-Ugly Society joined a mock funeral procession lead by four pall-bearers looking somewhat like Teddy Boys in their 'mourning weeds'. They bore a coffin inscribed 'Here Lieth British Architecture' which was placed outside the Porter's Lodge as mourners chanted 'Pull it down and burn it.' Although most onlookers treated the protest as a great joke for the Anti-Ugly Society it was a matter of serious importance in their genuine concern for architecture. 59 03 01b

1959 03 31

Arthur Allen was one of the Old Brigade of College servants who served Kings faithfully and well. He was apprenticed as a cook at Trinity College where the chef wore a top hat and tails, before being appointed Kitchen Manager and Chef at Kings. There was a slight contretemps when he discovered that he was expected to work with women but his will prevailed and he had an 'all-male' staff. He said the late Lord Keynes knew just how much money he wanted to spend on entertaining his guests – a point which was appreciated by the chef. 59 03 31a

1959 06 11

Sir – I was horrified to see what is happening to the Gate of Honour, Caius, in Senate House Passage. The stonework of practically the whole of the lower two-thirds is being renewed and only the cupola and stone just beneath is apparently now left of the original. Surely it is better to see the old medieval stonework than a 20th century imitation – Harry Paten, Castor Hill 59 06 11

1959 07 24

Design for Churchill College agreed – 59 07 24

1960 06 08

Queen Mother opens Trinity Angel Court, started 1957 to house 45 undergraduates to help reduce overcrowding resulting from termination of military service & anticipated baby-bulge, but will still need licensed lodgings [3.3, 9.11] . She travelled by normal passenger train and was fifteen minutes early arriving at the college where she showed interest in some of the ancient pottery discovered during excavation work. Later a crowd of several thousand people gave her a rousing send-off as her special launch left the forecourt of the Pike and Eel at Chesterton to take her to watch the May Races on the River Cam 60 06 08 & a [6.14]

1960 06 21

The Isaac Wolfson Foundation has made a grant of £100,000 to New Hall, the first college at Cambridge to be founded this century. It is the largest single donation since an appeal was started four years ago. Others have come from Dame Catherine Fulford, Nancy Viscountess Astor and

the John Lewis Partnership. At present there are 53 students on the Silver Street site but the new building on Huntingdon Road will accommodate 300. 60 06 21a

1960 07 22

Every day an army of Cambridge women leave their homes early in the morning and begin their work as bed-makers at the colleges. One is Miss L. Hagger of Sturton Street who started work at Trinity in 1924 when the women had to be at the college gate at six o'clock. She clears the living room, washes-up the dirty crockery and glasses, cleans the rugs, carpets and surrounds and dusts. Breakfast is then cooked for the Fellows and while the undergraduates have gone down to hall for their meal, their bedrooms are tidied and the beds made. At one time bed-makers used to wear cuffs when she made the bed and changed her clothes after cleaning. A hat was always worn. 60 07 22

1960 09 17

Fire swept through a dining hall at Newnham College causing thousands of pounds worth of damage. Firemen wearing oxygen breathing equipment struggled through thick black smoke to reach the heart of the blaze. A section of the flooring in the Sidgwick Hall was burned away and three hotplates damaged. Smoke has blackened the walls and panels have split outwards with the heat. It is not likely to be repaired before the undergraduates return and the girls will be split up in the other three dining rooms 60 09 17

1961 10 14

Churchill college foundation stone laid – 61 10 14 [5.6]

1961 11 15

The world's most valuable painting, Rubens' "Adoration of the Magi", which fetched a record £275,000 at auction, has been installed in King's College Chapel. Movement of the painting from London began before dawn in strict secrecy. Two security guards with an Alsatian dog, followed in a car and mingled with onlookers as the painting was off-loaded at the main gate. It took two hours to get the picture in its steel frame to the chapel where it was hoisted on to a giant easel. 61 11 15a – picture – 61 11 15, 61 11 16c

1961 11 16

Corpus Christi College has embarked on a plan to fulfil two great needs in the university. It has created a graduate extension at Leckhampton House in Grange Road to enable research students to enter fully into university life and to extend to teaching staff the social advantages and responsibilities which attach to being a Fellow of a college. Only about half the research students and unmarried Fellows normally wish to live in college rooms. 61 11 16d

1962 08 01

Fellows of Gonville and Caius College saw the shape of things to come when they toured the College's newly constructed Harvey Court designed by Sir Leslie Martin, the University Professor of Architecture. It is the first of a new range of University and College buildings in West Road providing bed-sitting rooms for 100 undergraduates and Fellows, allowing them to spend two years in college instead of one. The building will be inspected by architects from U.N.E.S.C.O. 62 08 01a [6.11]

1963 02 06

In 1956 college rating assessments were treated like those of offices or shops and increased three or even five times, one playing field assessment increased 11-fold. These figures were far too high and an appeal was lodged. Colleges make little demand on local authority services – not one extra place in a school, not one extra book in the Public Library, no extra policemen or inch of road. But there may be slightly more college drainage and refuse. They attract tourists who cause great expense to colleges whereas the entire financial benefit goes entirely to the city. They are not even charged a modest entrance fee to the private courts which are the sole reason for their visit – J.C. Bradfield, Bursar of Trinity College 63 02 06 & a

1963 06 10

1964 04 23

Reuben's painting 'The Adoration of the Magi' has been moved from the nave is now in an experimental position as an altarpiece at the east end of King's College chapel. Some 150 feet of wooden panelling has been removed from the walls and the familiar altar has gone. The effect has been to lighten the east end and introduce an entirely different feeling and character to the magnificent east window. It is part of a more complete scheme which would see the removal of a series of steps and the provision of an extra 80 seats during important services 64 04 23a

1964 05 09

Darwin college established for advancement of education, learning & research, a graduate college (approved 1965), aided by benefaction from Max Rayne Foundation [12]

1964 06 04

The opening of Churchill College by the Duke of Edinburgh could hardly be called a ceremony. It was more like an indoor garden party. The College was pretty open already but now it is more open than it was before, he told guests. He was serious about the role it should play in today's scientific and technological age. Earlier he strolled round an undergraduate's room, chatted with workmen and joked with bedders. The sherry and cocktail party which preceded the lunch was a bright affair which brought out the Ascot feeling in many of the fashionable ladies present. 64 06 06– 64 06 04, 64 06 05, 05a (wins RIBA award 1968 [5.7]

The Wolfson Building of Trinity College, Cambridge, once described as a liner stranded in a dry dock, opened its doors yesterday for an official tour of inspection. The building rises lozenge-shaped behind the historic and preserved facades of Trinity Street in the city centre. It is topped by two large winged roof-lights, which, the architects said, were added deliberately to be a modern feature of the city skyline. The scheme provides rooms for 125 Trinity students. Beneath the college buildings are the commercial premises which include the Sainsbury supermarket, Heffer's booksellers, Horne's the men's outfitters and Barclays Bank. c72 09 26 [9.12]

Selwyn start to take women [9.9]

1976 12 30

Wolfson College gets full status as college [10.9]

1977 11 14

Crowds waving flags and demonstrators waving banners greeted the Queen and Prince Philip as they arrived to open the new Wolfson College. For the Duke there must have been something familiar about the scene. For the second time in less than five months he was met in the city by pouring rain and by a group campaigning for nursery facilities in the university. He gave them a friendly wave as the car drove past. The Queen said she had laid the foundation stone of a college at Oxford and subsequently opened another of the same name at Cambridge. That this was possible was proof of the generosity of the Wolfson Foundation. c77 11 14 [10.10]

1985 08 03

One hundred years ago 14 women students enrolled in a new pioneering college set up in two houses in Merton Street, Newnham. Its aim was to train women to teach in secondary schools. Over the century that college has changed character and direction several times and under its present name of Hughes Hall it has just been awarded Approved Foundation status within Cambridge University. Despite the financial problems of the present day it is planning new buildings at its site in Wollaston Road. 85 08 03a [7.2]

1985 09 30

It was standing room only in Queens' College as undergraduates and dons crowded in to watch the first part of a BBC documentary about their college. Even the bar was quiet as hundreds of

college members jostled for the best positions around television sets. There were cheers of recognition for college personalities and hoots of derisions as candidates attending interviews for admission flunked the questions. The Senior Tutor has always supported the project because he believes Queens' has nothing to hide but does not want students to get too excited about the media attention. 85 10 17 Queens college featured on tv [8.16] Queens' college tv documentary – 85 09 30

1985 11 07

Trinity plan demolish Blue Boar approved [10.3]

1986 04 11

"The Beast of St John's", Mr Bob Fuller, was the college's head porter for 39 years and one of its greatest characters. A former army sergeant-major, he was the last of the old-style head porters in Cambridge. He believed strongly in maintaining discipline and fined students £5 for playing loud music or having parties without permission. But the fierce-looking figure did not daunt female students after they were admitted to the college in 1982, despite Mr Fuller's dislike of the idea. His funeral service will be held at the college chapel 86 04 11

The Cambridge bedmaker might be an endangered species. Many potential bedders are being wooed by supermarket and 'Yuppie' couples prepared to pay above-average rates for a suitable cleaner. There are almost permanent advertisements but they attract fewer applicants. The standard rate is £2.75 an hour, around 50p less than that offered privately. Bedmakers usually work a 20-hour week though with the current shortages many take on more hours. But there are bonuses during the conference season and regular chats with the fellows make the job different each day 89 02 22a & b

1888 Tenison Road : council want to borrow £4,000 to build [3.24]

1888 Trinity Street : St Michaels Court built [IC.10.16]

1889 King Street : Jubys Court “insanitary” [3.25]

1889 Sir – The Mill Road footbridge over the railway line was opened to the public on Monday August 3rd 1889. I was the last one to take the keys of the gates to the station – William Nelson.

Sir - The iron footbridge over the railway on Mill Road had wooden steps and gave access to the open fields beyond it. In fact, so countrified was the area that when the Royal Standard was built it was known as ‘Apthorpe’s Folly’ from William Apthorpe the brewer who built it. The bridge now stands on Coldham Common where it spans the Newmarket Line – H.D.C. 35 01 26 [2.21]

1889 Mill Road railway bridge was built in 1889 and Percy North, the well-known chiropodist, remembers playing under the bridge arches when they were being constructed. There was a level crossing over the railway then but it was not much used because there was hardly any traffic. There was nothing beyond, Great Eastern Street and Argyle Street were just ballast pits for the railway and the only house was a large one where the Broadway stands today, he recalls. 60 08 06 & a

1901 Castle Street : to purchase property to widen [1.7]

1901 St Andrew's St new Police & fire station opens [5.2]

1901 The wood paving of the main street of Cambridge from the station to the post office has now been completed and last evening the men engaged in the work had a dinner at the Red Lion. When the mind is carried back to the days of the Long Vacation when St Andrew's Street was so decidedly 'up', some impatience may be forgiven to shopkeepers and householders who were anxious that normal conditions should be restored. Credit should be given to the police for the excellent way the traffic was regulated during the 'upheaval'. There was not a single accident c01 12 07

1902 Cambridge Paving Committee had approached the vicar and churchwardens of St Giles' church to ascertain whether it would be possible to acquire a portion of the churchyard for the widening of Castle Street. They would agree provided that the work of excavating and collecting human remains be screened by a hoarding & the bodies reverently re-interred. Chesterton Road corner was a most dangerous one and when the improvement was carried out one corner out of the four would be cut back CDN 1902 07 17

1902 Castle St : Cambridge Paving Committee had approached the vicar and churchwardens of St Giles' church to ascertain whether it would be possible to acquire a portion of the churchyard for the widening of Castle Street. They would agree provided that the work of excavating and collecting human remains be screened by a hoarding & the bodies reverently re-interred. Chesterton Road corner was a most dangerous one and when the improvement was carried out one corner out of the four would be cut back. 02 07 16

1903 Market Hill : block of property 2-3 Market Hill & 16-18

1903 St Edwards Passage bought by Barrett for £8,000 [3.23]

1903 Petty Cury - Falcon Inn Yard, Petty Cury demolished Our attention has been drawn to the fact that another link with the fascinating past of Cambridge is being severed by the almost entire demolition of the one-time famous 'Falcon Inn'. Many years ago the front of the building, with its fine old gables facing Petty Cury, disappeared and about eight years ago the buildings on the left side of the Falcon Yard were demolished to make way for business extensions. Now the rooms on the right side are in process of demolition for extra accommodation for the Lion Hotel. The back part possessing a small specimen of the open gallery remains – CDN 11.8.03

1903 Petty Cury - Sir – I believe a great number of antiquarians in Cambridge will learn with regret that the Falcon Inn Yard in Petty Cury has been removed to make way for modern improvements. So quietly has the old Falcon taken flight that I fear our local photographers have not secured pictures of the old buildings and its destruction has escaped even the lynx-eyed representatives of the Press. I am consoled that I have retained my water-colour drawing of this famous inn, which I made 25 years ago for 'Old Cambridge' – W.B. Redfern c03 08 19

1903 Petty Cury - Our attention has been drawn to the fact that another link with the fascinating past of Cambridge is being severed by the almost entire demolition of the one-time famous 'Falcon Inn'. Many years ago the front of the building, with its fine old gables facing Petty Cury, disappeared and about eight years ago the buildings on the left side of the Falcon

Yard were demolished to make way for business extensions. Now the rooms on the right side are in process of demolition for extra accommodation for the Lion Hotel. The back part possessing a small specimen of the open gallery remains c03 08 20

1903 Petty Cury - Sir – the alarm about the old Falcon Inn, Petty Cury, being demolished unrecorded seems to me unnecessary. Certainly within the last 40 years I have sent out almost as many drawings of it, to say nothing of the etchings. It, with the old Wrestlers Inn, has been a small gold mine to me. One noticeable thing I might mention: it was the last inn to hang out a flag as a sign that the recruiting sergeant was at home – Robert Farren c03 08 22

1904 Peas Hill fire [6.10] fire at Corporation property Peas Hill, used by Bell as corn merchants premises [2.4] - CDN 3.6.1904

1904 Cambridge Library committee referred to the recent fire on Peas Hill and the destruction of the premises adjacent to the library. But for the skill of the fire brigade the reading room must have been destroyed and the contents lost. The accumulation of books, pictures and scarce literature could never be replaced. Now the old dilapidated buildings should be cleared away and a more appropriate building erected. Next year they would celebrate the jubilee of the opening of the library and the appointment of Mr Pink as Librarian. The Library Association should be invited to hold their annual meeting at Cambridge, free of charge. 1904 06 16

1904 Green Street, Cambridge would hardly be suspected of any pretensions to the romantic. Its well-ordered lodging-houses, the policemen who parade it and the milkmen who visit it, all seem to bar the entrance to anything more fanciful. Yet it is home to a Russian Pole, Mr Ignatius Knaster who became a political offender by the publication of a political pamphlet dealing with the conditions in Poland and was given the alternative of incarceration or banishment. 1904 09 03

1904 Mill Rd - Up to last night there was a cluster of buildings, workshops, tool-sheds and fowl houses at the apex of a triangle formed by property facing Mill Road, Hemingford Road and Belgrave Road, Cambridge. Today nothing remains but a heap of charred timber and twisted iron. Fire has made a clean sweep of the evidences of industry of several inhabitants and caused damage of about £250. Mr G. Woolfenden, an electrician, has lost a workshop. Most people living in the three roads have a wooden erection of some kind at the end of their gardens and those burnt down stood side by side or back to back in an area covered by 20 square yards. CDN 17.11.1904

1905 Downing Street : building to start on corner of St Andrews Street : site cleared months ago, have needed police to regulate traffic since view obstructed by hoardings [4.15,4.16]

1905 Petty Cury - An outbreak of fire occurred at the premises of Messrs Hallack and Bond, wholesale grocers, Petty Cury, Cambridge. About 11.18 pm smoke and flames were discovered issuing from a store room. The alarm was at once given and the horsed fire escape, tender and hose cart were soon on the scene. With the aid of one hydrant, the inmates of the building and the firemen succeeded in extinguishing the outbreak just in time to prevent a serious conflagration 05 05 02b

1905 Market Hill - Sir – I wish to protest against an act of vandalism. The fine view of Cambridge from the corner of Petty Cury with the stalls, old fountain and University Church has been ruined by the erection of a lofty ‘stink pipe’ in the middle of the Market Place, cutting the east window of the church in half. Why could this not have been run up the side of the Guildhall where it would not have been such an eyesore? – Cantab. 05 08 26c

1905 Mill Road - Cambridge Corporation’s new Mill Road storeyard is nearing completion on land behind the Free Library. Here material for the repair and making of roads is stored, vehicles housed and mended and appliances for any contingency kept in readiness. It has a siding to the railway for granite or cement, an open shed for refuse vehicles and stables together with accommodation for two steam rollers. There are blacksmiths, carpenters and wheelwright’s shops and a men’s mess room 05 12 09a & b

1906 Bene't Street : cobbles to be replaced with wooden paving [4.17]

1906 Mill Road - Fire gutted the Mill Road Boot Stores adjoining St Barnabas Church, Cambridge. The flames rose to a great height and melted some of the lead of the windows of the church. The building was a one-storeyed erection, largely composed of wood. A number of wooden packing cases at the rear formed a source of danger as they connected with a thatched cottage and a stonemason's yard adjoining was also seriously placed. 06 01 0

1906 King's Lane scheme – 06 02 23b

1906 Northampton St - Collins Passage, off Northampton Street, consisted of a number of very dilapidated houses closely packed together. They had low ceilings and the floor was insecure. There was no ventilation behind and a high brick wall at the front so they got no sun at all except for half-an-hour at the height of summer. They were unfit for human habitation. A good many other premises in the area were defective but did not justify wholesale demolition. 06 04 19c

1906 Emmanuel St - An agreement had been made between the Borough Council and Emmanuel College for the closure of Emmanuel Street and the creation of a new road further north. As a result the college had taken no steps to erect new buildings on the site of two dilapidated houses that had been pulled down and had lost ground rent for several years. Now the council had changed its mind. They should make compensation by providing, free of cost, a subway to link college property on either side of Emmanuel Street 06 05 17b & c

1906 Castle St - The junction of Castle Street and Northampton Street, Cambridge, was continually congested and the corner ought to be improved. The council wanted to demolish a cottage and widen the road, but the owner wanted £260 for a property that a few years ago was worth £120: that was too great an increase 06 06 14a-c

1906 King's Parade - Cambridge fire brigade undoubtedly saved a portion of King's Parade, St Edward's Passage and Peas Hill from destruction by fire. There are numerous old houses, warehouses, sheds and outhouses of all descriptions, many constructed chiefly of wood. It broke out at Mons Buol's bakery, 17 Kings Parade; the bakehouse was gutted and hundreds of pounds of chocolate, almonds and sugar damaged. 06 08 07

1906 Hills Road - Many residents have been plagued by the clouds of dust raised by motor cars and other traffic. Dust-destroying measures have usually involved evil-smelling solutions but now Cambridge is to experiment by pouring boiling tar over the surface of Hills Road and sprinkling it with granite chips. The section chosen where the wood paving ends near Brooklands Avenue, but it carries heavy traffic and is constantly watered so the new surface may peel off. 06 09 08c

1907 Barnwell - A London newspaper describes Barnwell as a slum area of Cambridge chiefly inhabited by brickmakers; it claims there is little traffic along the road but within four minutes walking one passes 14 alehouses, some positively next door to each other. However in recent years the area has undergone a great improvement with the building of the Abbey Estate, and the amount of traffic has increased. But no one will gainsay the comments on the number of superfluous public houses. 06 12 29d

1908 Northampton Street : road improvement reveals walls of White Horse, widen corner but Chesterton Lane corner still need attention; is gathering place of workshy [1.9,IC.8.6,6.1]

1908 Bridge St - Sir – I have traced the history of Blackmoor Head Yard, Bridge Street, for nearly 100 years, and find it has been the custom for occupants to hang their washing across the yard. Laundresses have lived there and dried everything in the same way. Dr Dennis Adams had the stables at the bottom of the yard and when our King was up at Cambridge he often used to come there and hold the linen up with his stick to pass under it without making any fuss at all. Where must we dry them now? In the bedrooms? – S. Collingwood 08 05 02b

1908 Castle St - Fire gutted Mr Huggins sweet and confectionary premises at 51 Castle Street, just beyond the County Shire Hall Neighbouring shopkeeper, Mr Clayden, broke down the door and tried to extinguish the flames with mats while others threw buckets of water on it before the

fire brigade arrived. The shop stood in the midst of some old properties which were in great risk of being destroyed, but they escaped with scorched walls.

08 08 07

1908 Petty Cury has been closed to vehicular traffic during the operation of replacing the Val de Travers cement that was removed to admit the underground telephone wires. This work by Italian workmen has been watched with much interest. The material in the form of steaming hot powder is placed on its concrete bed and rammed and levelled with hot irons. The rapidity with which the stuff hardens and becomes fit for use is quite remarkable. CWN 08 09 11 p5

1910 Sir – the de-population of Castle End has brought a serious decline in trade in this district. Slum clearance has seen the departure of many young families to the new residential estates in other parts of Cambridge and we are left with the old people whose requirements are practically nil. When a house is vacant it is condemned and pulled down so consequently no new residents come to take their place. Some sites have been empty for years and are growing a plentiful supply of weeds and thistles. When are we going to have new houses built on these vacant sites – Tradesman 35 12 16

1911 Emmanuel St : Southgate Lodge & house adjoining being demolished for new wing of Emmanuel College - are only modern houses in street, built 40 years ago by R.R.Rowe as architects office. Borough had intended to swap this Street for new land on which could have built another road, CDN campaigned against & proposal dropped; however to install underpass [6.2]

1911 For some time housebreakers have been busily engaged in demolishing Southgate Lodge & the house adjoining to make room for the new wing of Emmanuel College. It is curious to note that the houses that are being demolished were the only really modern houses in Emmanuel Street. On either side are picturesque old buildings of considerable antiquity, and these the hand of the housebreaker has spared, for the present. [CDN 27 July 1911]

1911 Market Hill : roads around Market Square widened [5.12]

1911 Sidney Street : property purchased for street improvement [5.13]

1912 Chesterton Lane : buildings at junction of Magdalene St demolished [IC.3.2]

1912 Jesus Lane : widening at Sidney street corner includes provision of footpath & rounding off corner [4.20]

1912 Brooklands Avenue residents happy to repair road once council makes decision about scheme for including it as part of a thoroughfare from Newnham Croft to Hills Road - 12 10 04b

1912 Brooklands Avenue is a private road with a gate at the Trumpington Road end, which is sometimes closed, though one footpath is a public path. Part of the road is invariably in a disgraceful state of repair and during bad weather is little better than a quagmire with mud up to one's ankles. Yet if a cyclist, to avoid the ruts and filth, takes to the public footpath he is liable to be pounced upon by a policeman. The road connects up Trumpington and Cherry Hinton, important parts of the extended Borough, and should be taken over by the Corporation. 12 12 20c

1913 Downing Street : Downing Court (south side near St Andrews Street) demolished [IC.3.13]

1913 Sidney St : rebuilding, Eaden Spearing & Raynes demolished [IC.10.21]

1914 Bene't street : paved end to end in wooden blocks in 7.5 hours [6.4]

1914 Bridge Street : rumours that St Johns to build & tenants under notice to quit - "have heard same story last 25 years [5.14]

1914 Emmanuel Street : last picturesque houses on north side of new subway disappear [5.16]

1914 Jesus Lane : arbitration between Corporation & Sidney Sussex re strip property required for road widening - £1,471 [6.6]

1914 The unhappy conjunction of the name Sadd and Greef on King's Parade has been a well-worn joke. Now it is about to be broken. Mr Sadd is soon to move to premises in St Edward's Passage while Mr Greef is moving further up the Parade. The Sadds began business last century as dealer in antiques and a hairdresser in one of a row of old-fashioned houses standing in front of King's College. When the cottages were pulled down they moved opposite. His son made a sketch of the old houses 14 04 17g, falls from Kings Sept [NI.3.17]

1914 St Peter's street : old primitive Methodist chapel & houses in hands of house breakers & others will rise [5.15]

1914 Trumpington Street : buildings demolished for Addenbrooke's Outpatients Department [IC12.3]

1914 Jesus Lane widening, Sidney Sussex awarded £1,471 - 14 08 14

1915 Wheeler St new building - old cottages swept away gaining 2 yards for thoroughfare, corner premises set back so Bell Inn protrudes prominently [6.16]

1915 Improvement street from Newnham Mills to Lammas Land; Coach & Horses reconstructed, now new building 15 05 07 p3

1915 Road between Silver St Bridge and Queens; Road may be named Newnham Road 15 05 21 p5

1919 Sidney Street : 27,380 feet in Sidney Street & Hobson Street bought by G.P.Hawkins for £32,000 [2.23]

1920 Regent Street : Fountain Inn demolished [IC.10.9]

1920 Should Sussex Street be widened; need to improve centre town, blunders of the past, council debate – Ch 20 01 28a

1920 Sussex Street to be widened, proposed cinema vetoed as would delay work on houses; suggestion that council buy plot and erect municipal cinema to avoid paying heavy compensation – Ch 20 04 07a, b

1920 Sussex Street : council decide to widen end to end to 28 feet, proposed cinema on island site [2.24,2.25]

1922 Jesus Lane : widening & new wall at junction Bridge St [IC.5.17]

1922 Brooklands Ave - It was an attempt to make a road from Hills-road to Trumpington-road. At present the greater part of the Avenue was open but it was in regard to the smaller part at the Trumpington-road end that the application was made. At the present time there was a gate fastened there and kept locked by the owner. He understood that people going to houses in the Avenue were allowed to go though and he could understand that the gentleman would like to keep it a quiet place. Personally he would oppose it if he lived there. CDN c 12.3.1922

1922 Corporation proposals for the widening and improvement of Sidney Street and the lower part of Petty Cury met with vigorous opposition. In 1922 they had taken powers to prescribe frontage lines and in 1924 when Messrs Woolworth's and Sainsbury's came to Cambridge they agreed to set back their premises and gave the land to the Council. Various other places were reconstructed and now the frontage line had been prescribed from Sainsbury's to Millers with the exception of Almond's and the Prudential Assurance Company. 35 04 10 & a, 35 04 11

1923 Coe Fen : scheme for road across approved [3.2]

1925 Newnham Mill : demolition of 2nd chimney [6.14]

1926 Coe Fen : road opened [3.5]

1927 Kings Parade : heavy railings in front of Kings College removed [3.9]

1927 Norfolk Street : Labour Party Hall opened [IC.8.8]

1927 Sussex Street : site withdrawn at £20,000 [3.8]

1927 Trumpington Street : Peterhouse Hostel demolished [IC 12.5]

1927 Victoria Avenue : widening suggested [3.21]

1927 Market Passage - Since the Cambridge Conservative Club in Market Passage had been destroyed by fire there had been many busybodies who knew exactly what was going to happen to the club premises and the site. The Chairman could now tell them: it was going to be rebuilt and rise like a Phoenix from the ashes. A very satisfactory arrangement had been made with the Northern Insurance Company and they had today received a cheque from the company. CDN c12.2.1927

1927 St Mary's St - Great St Mary's church council replied to the Corporation's plans to widen St Mary's Street. They cannot sanction obtaining a faculty for the proposed work as increased heavy motor traffic coming so close to the church will be a very real danger to the safety of the foundations and fabric. Widening the street would create a death-trap and they propose to adopt every means in their power to prevent the scheme being carried out. CDN c 4.4.1927

1928 Bridge Street : road widening [IC.2.1]

1928 Mill Pool - Kings Mill site replacement [1.12]

1928 Mill Road : Romsey Town Labour Club opened [IC.7.2]

1928 Sussex Street : island site sold to Sidney Sussex College [3.10]

1928 Magdalene St - Magdalene College hopes that a start will soon be made on the building of a new court on the opposite side of the Street. Plans have been drawn up for a three-sided brick court open to the river, traditional in style. The flank parallel with Magdalene Street will not interfere with the existing shops, but the thoroughfare is long overdue for widening and from the remodelled bridge there would then be a noble prospect of the new court with a lawn or gravel forecourt separated from the pavement by a low parapet. c28 03 11

1928 Market Hill - What is probably the largest single deal in Cambridge business property ever known has just been completed. A well-known local young man has purchased property with frontages in Market Hill, Petty Cury and Sidney Street and this will be developed by a company consisting of Cambridge people. It includes premises occupied by the Craft Shoe Company, the Cambridge Chronicle offices and printing works and Boots the chemist. As Messrs Boots recently secured a large amount of property in Petty Cury and Sidney Street it would appear that big changes will be seen in this part of town when both sites are developed. c28 10 31

1929 Hobson Street : buildings replaced by alterations for Dorothy Cafe [IC.5.10]

1929 Trumpington Street : trees in front of St Catharine's College removed [IC 12.4]

1929 Sidney St - An interesting improvement scheme will shortly be undertaken in Petty Cury and Sidney Street. Messrs Boots the Chemist have acquired extensive property with a view to re-housing their old establishment which has grown during some 30 years. Now the time is ripe to erect an emporium to provide an attractive shopping centre for patrons of all classes. The architect is Mr Percy J. Bartlett of Nottingham and his primary consideration is an external appearance that will harmonise with Cambridge's noble architectural traditions and raise the standard of commercial architecture. Building operations will commence early in the New Year CDN 2.12.1929

1929 Petty Cury - Heffer's wonderful new shop in Petty Cury, Cambridge, is a book lovers' paradise. In the basement are 'remainders' at reduced prices while the ground floor is devoted to the latest publications and an extensive foreign literature section. A wide range of second-hand volumes occupies most of the first floor where connoisseurs of original editions will find much to

interest them at prices from £5 to £250. On the second floor are oriental, foreign travel and fine art books while higher still are Heffer's own publications, many of local interest. There is a special reference department and out-of-print books service. The front design successfully combines an old-world impression with a modern style. CDN 5.12.1929

1930 Sidney St - Demolition work has just begun on the Sidney Street corner of Sussex Street as a first step towards the most important of reconstruction scheme for the improvement of Cambridge for many years. Sidney Sussex College will develop the whole side on modern lines; within the next year an imposing block of buildings, providing shops and offices will rise. It will be connected to Hobson Street by an artistically-designed crescent and colonnade of 12 shops which will allow vehicles to pass freely in the middle of Sussex Street. The most striking feature will be seen in the further development of the north side 30 03 19b

1930 Sussex St - There never was a time surely when there were so many works of destruction going on as at present. Little bits of old Cambridge are going one by one and elaborate new buildings are rising up in their place. Following demolition in Petty Cury and Sidney Street now we see old houses and shops in Sussex Street being knocked down. No wonder that those who come back to the town after a few years' absence express amazement at the changes they see. When we think of the bridges built at Newnham and Chesterton, of the streets that have been widened, the new recreation ground opened and the great business changes effected in the heart of the town we may well gasp. 30 03 22 a

1930 Castle St - Sir – what good will be served by the narrowing of Castle Street? For as long as I can remember there have been cobbled areas alongside the pavements and cars have stood on them to avoid obstructing the main road. Now kerbs are being placed there. I regret the loss of one of the old-world features which used to make Cambridge an interesting town, though such things seem to count for little nowadays – A.S. Ramsey 30 07 12a

1930 Milton Rd - Cambridge councillors have received consent for a new road from Milton Road to Histon Road at a cost of £18,135. St John's College would give the land which was required for housing purposes, it would be one of the best estates and the frontages would sell at very high price. Grants have been received for King's Hedges and Green End Road as part of the unemployment scheme with one-third of the labour being imported from the distressed areas. 30 07 25d

1930 Magdalene St - Another example of the 'new Cambridge' in the making is the extensive site on which Magdalene College intends erecting an imposing new wing. It is at the rear of the Pickerel and Cross Keys yards originally occupied by Bird's vinegar and mustard factory. Mallory Court will provide the principal access but eventually a complete transformation will be effected by the demolition of all the property between the bridge and Northampton Street making Magdalene Street a broad and handsome thoroughfare. 30 09 03c

1931 Hobson Street : demolition at junction of Sussex Street [IC.5.12]

1931 New Square : converted from grass to car park [IC.7.17]

1931 St Andrews Street : site cleared for new Post Office [IC.9.10]

1931 Sidney Street : rebuilding on east side for Dorothy, Woolworths etc [IC.11.1]

1931 Sussex St demolition 1929-30, rebuild 1931 [6.13]

1931 Cherry Hinton Road - Ring road from Cherry Hinton Road across Coldham's Lane under construction – photo – 31 10 02t

1932 Kings Parade : Kings removed railings & build wall, stone by Rattee & Kett, railings by George Lister to separate Kings from Senate House Yard [1.4.1.16]

1932 Magdalene Street : Magdalene College plan to demolish west side, doubling width; first stage implemented with Fisher Lane demolition [2.10]

1932 St Andrews Street : Llandaff House pulled down [1.17]

1932 Sussex Street : new shops open [1.5]

1932 Magdalene St - Large new buildings designed by Sir Edwin Lutyens are part of a comprehensive extension scheme by Magdalene College on land originally occupied by Bird's vinegar and mustard factory. For two years it has been one of Cambridge's biggest building contracts but the comparative obscurity of the site has kept it out of the public eye. Eventually the whole of the west side of Magdalene Street from the bridge to Northampton Street will be cleared for reconstruction with a more imposing bridge and a further college wing at right angles to the present one. 32 04 13

1932 Grange Rd - Corpus Christi college is to auction 'Pinehurst' and eight acres of land facing Selwyn College, close to the new University Library. There is every reason to think that apart from preventing the covering of the site with ordinary houses, its purchase for collegiate use would in time be found to be a very wise step. The vendors may be trusted to give the friendliest consideration to any proposal that may tend to the advantage of the college. 32 04 15c

1932 Trumpington St - St Catharine's was one of the colleges whose elaborate extension schemes met with a setback through the war. There was to have been a full elevation to Trumpington Street with a completely enclosed court beyond. Now the porter's lodge will be replaced, the cobbles removed and the whole area sown with grass to give a more balanced frontage. It is eight years since that the elm trees, which formed a grove, were cut down. 32 04 16

1932 King's Parade - There is praise for the improvements along King's Parade effected by the substitution of the low stone balustrade for the old hurdles and the construction of the light railings to separate King's College and Senate House Yard. All the work has been done by local labour. Messrs Coulson and Rattee and Kett have been the builders and the iron railings have been made by George Lister and Sons. 32 05 14a

1933 Market Hill : Guildhall canopy removed as dangerous [IC.6.14]

1933 Grange Road proposed new road, Adams Road – 33 04 18 & 33 94 21

1933 Sidney St - Proposals to set back the line of buildings in Sidney Street would leave only two small properties jutting out between Woolworth's and the corner. There was no room for people to move on the pavement and it would be a great improvement. But Mrs Rackham said it was unreasonable to pay so much money: the owners demanded compensation that equated to nearly half a million pounds an acre. This was not new: when a building line was prescribed in King Street, property which formerly sold at £1,500 immediately fetched £2,000. 33 05 26 f & g
1933 Market St - Changing face of Cambridge – Stetchworth diaries Market Street shop –33 08 28

1934 Gonville and Caius College's scheme for the complete rebuilding of the block of shops and houses on the north side of Cambridge Market Hill has been finally approved. At present the site from Rose Crescent to St Mary's Court is occupied by a group of houses, mostly of the 18th century. Their disappearance will be regretted, even by those who knew how dilapidated they had become behind their neat Georgian facades. But the whole effect of the completed block should stifle these regrets. The shops will be set back seven feet with upper rooms carried on slender pillars. 34 08 01 [1.1, IC.6.17]

1934 Petty Cury : widening [1.19]

1934 St Johns Street : St Johns College gateway restored [IC.5.18]

1934 Sidney Street : widening proposed [1.2, 1.19]

1934 Castle St - Sir – a report in the News says a new public house is to be built in place of the Three Tuns in Castle Street 'to fit in with the building going on in the neighbourhood'. Already quite a third of this district has been depleted of its residents by transferring them to new estates far away and then pulling down their old homes with a consequent detriment to trade. While agreeing to the demolition of uninhabitable houses I would like to know when building is to

commence on the many plots of land which now lie derelict and so bring back some of the lost trade to the district – ‘Tradesman’ 34 93 96

1935 “never before has Cambridge witnessed so much pulling down & building up” [1.20]

1935 Peas Hill : houses on west side demolished for Arts Theatre [IC.8.15]

1935 Market Hill : rebuilding on corner of Rose Crescent [IC.6.15]

1935 Silver Street : demolition for Walnut Tree Court, Queens College [IC.11.15,6.3]

1935 Demolition work on Peas Hill for the new Guildhall has led to an architectural discovery of outstanding interest. It has revealed the residence and business premises of a well-to-do Tudor merchant which was subsequently divided up into a detached and two semi-detached houses. The magnificent front was covered up with lath and plaster in the reign of Queen Anne and finished with mock bricks. Dummy eaves were also added. Now each piece has been carefully taken down and numbered for preservation and re-erection. 35 04 10

1935 Corporation proposals for the widening and improvement of Sidney Street and the lower part of Petty Cury met with vigorous opposition. In 1922 they had taken powers to prescribe frontage lines and in 1924 when Messrs Woolworth’s and Sainsbury’s came to Cambridge they agreed to set back their premises and gave the land to the Council. Various other places were reconstructed and now the frontage line had been prescribed from Sainsbury’s to Millers with the exception of Almond’s and the Prudential Assurance Company. The Surveyor said the street was urgently in need of widening to cope with increased traffic 35 04 10 & a, 35 04 11

1935 New front to Lloyd’s Bank, Sidney St – photo – 35 08 28a

1935 As a Cambridge Corporation steam roller made its majestic way along Adam and Eve Row the road gently subsided. So did the steam roller as one wheel became buried nearly up to the axle, fracturing the water main. Mr A.C. Mallyon, the driver, said “I felt the roller sink a little so opened the regulator to try and get it past the spot before it sank, but before you could say ‘one’ it was in. If I hadn’t had hold of the regulator handle I reckon I should have fallen overboard”. It was several hours before the roller was eventually ‘rescued’ by means of jacks and the main repaired. 35 11 22b pics 35 11 22c

1936 The work of pulling down and building up in Cambridge goes merrily on. Anyone revisiting the town after only a few years’ absence must be amazed at the remarkable changes taking place from the old Post Office to the Catholic Church. In a few years this will form the most important and best shopping centre in Cambridge. Now no.14 Regent Street, which was built at the end of the 18th century, will be pulled down by Messrs Herbert Robinson to make an extension of their business. This will mean a further improvement in the building line with a consequent street widening. 36 04 18b “

1936 Regent Street : Herbert Robinson development, Regent House demolished [6.12] [1.23]

1936 Sidney Street : Almond shop & neighbouring premises demolished [IC.11.5]

1936 Sussex Street : north side demolished, rebuild similar to south side [1.24]

1936 Cambridge Place was a long, narrow cul-de-sac with a narrow entrance from Hills Road. It used to have an unenviable reputation but had now greatly improved. It was a convenient place for residents engaged in unskilled work who left their houses early and returned late. But the houses were unfit for human habitation. Nearly all the roofs were sunken, the doors perished, the plaster was decayed, the stairs dark and steep. They were all were damp, thirty-three shared a water tap with another house and none had a water closet inside nor any proper place to keep food, an Inquiry heard. 36 12 30b & c, picture 36 12 31

1937 Regent St : Union House, new shops & flats [6.12]

1937 Barton Road : Newnham Villa demolished to allow road straightening [IC.1.13,4.22]

1937 Bridge Street : Evans Passage demolished, demolition for cycle sheds Castle St Police houses & Recreation Room constructed [IC.2.17, 2.19]

1937 Sidney Street : demolition at corner of Petty Cury [IC.11.10]

1937 Sir – two months ago I visited Kings Hedges Road and was surprised to find that an entirely new, first class road has been constructed, sewered, channelled, kerbed, grass verged. This has been done by the council under an agreement with the owners who threw into the highway just under half an acre of land, worth £50. The total cost of making the road was nearly £1,500. The building speculators have received a substantial gain, a splendid road, enhanced price for the houses erected, resulting in a bigger profit for them at the expense of the ratepayers – Geo. Edwards 37 12 08

1938 Part of Sidney Street was closed to traffic following the development of a bulge in the front wall of the premises of Austin & Co., coal merchants. The bulge is sufficiently marked to be easily visible. Last night crowds gathered in the expectation that the wall might fall, but they were disappointed. In shops on either side it was a case as ‘business as usual’. Traffic has been diverted via Petty Cury and St John’s Street while builders work on the affected wall 38 03 05 & a

1938 The proposed new buildings for St John’s College involve the immediate erection of buildings to complete the present Chapel Court with wings projecting beyond to the north and east. These should be ready for occupation by Michaelmas 1939, including 50 undergraduates and ten fellows’ sets of rooms. There will be an open court facing Bridge Street should the houses eventually be taken down and the road widened and ultimately a riverside court overlooking Magdalene 38 04 30 & a

1938 Bridge Street redevelopment by St John’s college discussed – 38 06 21

1938 Amongst the many improvements in Cambridge during the past few years there is none more striking than that which has been effected in Sussex Street. Those who recall the dark narrow lane of bygone days, with its overhanging roofs on either side, and its small, ill-lit shops, will hardly recognise the imposing street that has emerged from the builders’ hands. When the first part of the scheme was completed it gave promise of a really worth-while improvement, and now that the other side of the street has been given a new face, with its line of modern shops and shop-fronts, the full effect is visible. Sussex Street is the most striking of the many improvements made in Cambridge during the past few years. 38 07 22

1938 William Coad of Cavendish Avenue has come up with an answer to the need for underground A.R.P. shelters. His scheme is to construct a sub-way car park underneath Cambridge Market Square with inlet and outlet ramps, which, in the event of an emergency, could be converted into an effective shelter accommodating several thousand people. A nominal car-parking fee would eventually pay for the initial outlay and alleviate the need for suitable garaging for business men coming into the town. 38 10 07

1939 Bridge Street : demolition progresses [4.25]

1939 St Andrews Street : buildings on corner of Emmanuel Street demolished [IC.9.13]

1939 No.7 Petty Cury, comprising a double-fronted shop in the occupation of Messrs Lipton, the upper floors providing part of the bedroom accommodation of the Lion Hotel was offered for sale by auction. Shop property in the heart of the shopping centre of Cambridge seldom came to market by public auction and formed an excellent purchase for occupation, speculation or investment. It would be very difficult to find a much better investment. Demand was especially keen in Cambridge where the best shopping area was limited owing the centre being ‘horseshoed’ by college buildings. But it failed to reach its reserve and was withdrawn at £11,750 (about £650,000 today) 39 02 23a

1948 Queens Rd - mounting block returned Queens Road; had been damaged by RAF mechanics using it as anvil & moved Kings Fellows gardens for safe keeping cTT 16.2.1945, CDN 26.8.1950

1949 Gothic Street : tenants petition re proposed demolition [2.8]

1949 Clement Place - Cambridge's only thatched cottage, Clement Place, has thatch renewed [5.4]
